The remaining contentions of the appellants challenge the findings of the Commission upon the facts as disclosed by the evidence. In respect to these findings it must be remembered that the court is not to be governed only by the weight of the evidence in cases of contradictions, but must affirm the decision of the Commission as to the facts, if supported by substantial evidence, unless the decision is "arbitrary or capricious."

The appellants for their second contention claim that the order and decision of the Broadcasting Division are in violation of the Commission's rule against repetition of applications. We think this contention is not well founded. The record discloses that in February 1934 the Commission denied an application of the Portland Maine Publishing Company for authorization to erect a new radio broadcasting station in Portland. In April 1934 the Commission received the application from the Portland System which is now in question. The record discloses that these are separate corporations and that the Portland and Maine Publishing Company holds less than half of the stock of the Portland System, and that the latter company is not controlled by the former one. The testimony upon this subject is made the basis of conflicting claims by the parties, but we think that it is sufficient to support the Commission's decision.

The appellants also contend that it was error for the Commission to grant the application of the Portland System without a showing that the applicant was financially able to construct and operate the proposed station. Upon this subject, however, the Commission makes the following statement in its decision:

"However in view of the fact that the applicant corporation already has paid into its treasury $25,000 in cash, and the testimony under oath of its principal witnesses that the additional $25,000 will be forthcoming, we believe any doubts which may be raised in this record as to the financial ability of the Portland Broadcasting System, or the legal or financial ability of the Portland Maine Publishing Company to pay for the stock in the applicant corporation for which it has subscribed, should be resolved in favor of the applicant and the publishing company."

We think the testimony is sufficient to support this finding.

The appellants for their fourth contention claim as follows:

"The denial of the application of the Eastland Company and the granting of that of the Portland Broadcasting System, Inc., violated the facilities-distribution section of the Communications Act of 1934 and the quota regulations of the Commission."

The act of 1934, commonly known as the "Davis Amendment", 45 Stat. 373, provides "That the people of all the zones established by this title are entitled to equality of radio broadcasting service, both of transmission and of reception, and in order to provide said equality the Commission shall as nearly as possible make and maintain an equal allocation of broadcasting licenses, of bands of frequency, of periods of time for operation, and of station power, to each of said zones when and insofar as there are applications therefor; and shall make a fair and equitable allocation of licenses, frequencies, time for operation, and station power to each of the States and the District of Columbia, within each zone, according to population. * * *

Under this statute the Commission by paragraph 6 (g) of its Rules, has provided:

"(g) Since the act provides for the equalizing of radio facilities among zones and among States, 'as nearly as possible', the Commission may allow a slight departure, plus or minus, from an exact mathematical estimate."

It appears from the record that at the time of the hearing the State of Maine and first zone were under quota on both day and night assignments; that the grant of Portland System's application adds to the quota of the State of Maine and first zone 0.15 units night and 0.3 units day. This would make the State over quota .08 units night and leave it under quota 0.49 units day. The first zone would still be under quota 1.84 units night and 22.45 units day. The Commission was of the opinion and so found that the increase in night quota of the State occasioned by the grant of the Portland System's application, which brought its assigned quota slightly over that due, was justified in view of the need shown, and was consistent with the terms of the Davis amendment which provides for "equal" facilities "as nearly as possible".

The Commission was also of the opinion that the evidence in the record affirmatively indicated that the city of Portland, County of Cumberland, could well support an additional radio broadcasting station without affecting adversely the services of radio station WCSH or the income or revenues of the Congress Square Hotel Company, licensee thereof and intervenor herein. This was the only ground upon which the intervention of the latter company was made and the finding is therefore conclusive of its contention.

The Commission concludes its decision as follows:

"This brings us to the application of the Portland Broadcasting System for a new station in Portland, Maine. It
The decision of the Federal Communications Commission is hereby affirmed.

STEPHENS, Associate Justice: I dissent. As I understand the facts the witnesses were heard and the argument had before Commissioners Gary, Brown and Sykes, but the decision was rendered by Commissioners Sykes, Case and Prall.

Two modes of procedure are available under the statute. Under Section 409 (a) [48 Stat. 1096, 47 U. S. C. A. § 409 (a) (Supp. 1936)] it is required that "In all cases heard by an examiner the Commission shall hear oral arguments on the request of either party." Under Section 309 (a) [48 Stat. 1085, 47 U. S. C. A. § 309 (a) (Supp. 1936)], where no hearing before an examiner is contemplated, it is provided that the "Commission . . . shall afford such applicant an opportunity to be heard under such rules and regulations as it may prescribe." Reading these two sections together I think it clear that Congress intended that the Commission might proceed either by examiner or by itself; that if it proceeded by examiner, while it thus need not hear the witnesses but need only read the evidence as taken by the examiner, still it must hear oral argument; that if it proceeded by itself it must hear the witnesses. And I think Congress meant that when the Commission, proceeding by examiner, and therefore merely reading the evidence, heard oral argument, at least a majority of the Commission that heard the oral argument must also decide the case. To make oral argument to those who are not to decide would be vain. And I think further that Congress meant that when the Commission proceeded by itself, and itself, therefore, heard the witnesses, at least a majority of the Commission that heard them must decide the case. To present witnesses to those who are not to decide would also be vain.

Congress is well aware of the exigencies under which administrative tribunals burdened with a great volume of public business requiring speedy disposition operate, and customarily permits them to dispense with unnecessary formalities. But I think that in the absence of language clearly permitting it, we should not conclude that Congress intended a Commission to dispense with oral argument before, or with hearing of the witnesses by, those who are to decide. Neither of these procedures is a formality. On the contrary, each is a substantial aid to correct decision.

The authorities cited in the majority opinion are, I think, not persuasive because of material differences from the instant case in the facts or statutes involved.

In respect of the cases in the United States District Court and the United States Circuit Court of Appeals relied upon by the appellee and not mentioned in the majority opinion, to wit, Louie Lung Goocy v. Nagle, 49 F. (2d) 1016; United States ex rel. Chin Cheung Nai v. Corsi, 55 F. (2d) 360; United States ex rel. Minuto v. Reimer, 83 F. (2d) 166: These three cases undoubtedly countenance discontinuity in the personnel of Boards of Special Inquiry in the Department of Labor. But while entitled to respectful consideration they are not binding here, and are moreover, I think, not highly persuasive, for the reason that the statute therein involved is not, as is that involved in the instant case, explicit as to procedure. Moreover, I am myself impressed, and for the cogent reasons which he gives, with the views expressed by District Judge Woolsey, in his first opinion in United States ex rel. Chin Cheung Nai v. Corsi, supra. He there said:

In a judicial proceeding, the personnel of the court could not be changed during the trial, unless with the consent of the parties.

The reasons for this rule, which I believe to be universally observed, are not far to seek. In the first place, a change in personnel during the trial of an issue of fact would render it impossible for the court properly to chancer questions of credibility, which depend almost wholly on subtle impressions made by witnesses on the tribunal before which they are appearing.

In the second place, a change in personnel inevitably would tend to dilute the sense of individual responsibility for the decision—a feeling which should inhere as strongly in every member of an administrative board as it does in every judge.

The action of administrative boards is not subject to full judicial review on the merits, yet they have to deal with issues of fact in matters of the greatest importance to the interested parties. It seems to me, therefore, necessary, in the absence of written consent of the parties involved, that such boards should be required as a sine qua non of a fair hearing to observe the principle of continuity of personnel which the crystallized experience of mankind recognizes as of cardinal importance especially when facts have to be determined. [55 F. (2d) at 361.]

I think that the Supreme Court in Quon Quon Poy v. Johnson, 273 U. S. 352, does not rule on the question of the effect of discontinuity of personnel.
The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3163. F. W. Washburn Candy Corporation, Brockton, Mass., in a complaint is charged with unfair competition in the sale to dealers of candies so packed and assembled as to involve use of a lottery scheme when such products are resold to ultimate consumers.

The respondent is alleged to be supplied by selling assortments of candies of uniform size and shape, some containing centers of a different color than the majority of pieces. Purchasers drawing the different colored pieces receive prizes, according to the complaint.

No. 3164. Fioret Sales Co., Inc., 312 East 32nd St., New York, is charged with false and misleading advertising in a complaint. This company manufactures and sells perfumes.

The principal allegation of the complaint is that the respondent company used misleading descriptions of its products on price lists, depicting them as single colors whereas they actually contained certain inscriptions in the French language which allegedly served to lead buyers into believing that the commodities so described were manufactured in France, when, according to the complaint, they were domestic products, compounded in the United States.

No. 3165. Alleging false and misleading representations in the sale of cosmetics, mercurychrome and other drug sundries and household notions, a complaint has been issued against Frank Spors, trading as Spors Company, LeCenter, Minn., a distributor of such articles to retailers and peddlers, who resell them to the consuming public.

Among allegations of the complaint are that the respondent advertised and stamped on certain articles retail prices greatly in excess of the actual selling prices; that he falsely represented himself to be an importer and manufacturer, and his business as being larger and more extensive than is actually the fact, and that the respondent furnishes dealers with merchandising plans involving the operation of gift enterprises or lottery schemes.

No. 3166. Charging unfair competition in the sale of sales promotion cards for use by retail merchants, a complaint has been issued against Mutual Printing, Inc., 751 East 64th St., Chicago, trading also as Mutual Printing Co., Inc., and Mutual Sales Promotion Service.

Sales promotion cards sold by the respondent company were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of their merchandise to the consuming public, according to the complaint.

Several groups of sales promotion cards are manufactured by the respondent company, but they all allegedly involve the same lottery scheme, and vary only in detail. A sample of the cards contains a series of amounts, such as $5, 10, and 15 cents, which may be punched by the merchant in the amount of purchases made by customers, and when all the amount numbers on the margin of the card are punched, a secret panel is opened and the customer is entitled to receive merchandise, free of charge, in the amount shown by the legend under the secret panel.

No. 3167. Charging a combination to eliminate price competition, resulting in increased prices for cement, a complaint has been issued against The Cement Institute, an unincorporated association, its officers, and 75 cement manufacturing member corporations, producing 95 per cent or more of all of the cement made in the United States. The complaint alleges violation of the Federal Trade Commission Act and Section 2 of the Clayton Act, as amended by the Robinson-Patman Act.

The complaint charges that the chief means employed for carrying the cement combination into effect is concerted action concerning the point of sale of cement at prices. Under this system, it is alleged, identical delivered prices are made by every quoting producer entering into the combination, to any given destination in the United States. Instances of identical bids made by many producers to various Federal and State agencies are set forth in the complaint.

The Commission's complaint sets out, in effect, that each producing company knows that, when it refrains from offering competitive prices in the consuming areas where it has a natural advantage and receives its highest actual price, it will receive the same freedom from price competition when the situation is reversed. In this way there is everywhere a reciprocal waiver of natural advantages with no competition in price anywhere.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01788. Minnie McElroy, trading as The Worth Pharmaceutical Co., 74 Cortlandt St., New York, selling Hessanal and Vi-Tonol, agrees to stop representing that these preparations, alone or in combination, are a competent treatment for kidney or bladder disorders, or that their use will have any effect upon the vitality of the user.

No. 01789. Petersime Incubator Co., Gettysburg, Ohio, stipulates that it will stop representing that its Buckeye Mineral Water acts on the liver and kidneys or aids these organs to function properly, that it is highly charged by nature with health-promoting minerals, and that it is not marketed for profit.

No. 01790. Dearborn Supply Co., 2350 Claybourn Ave., Chicago, will discontinue the following representations: That Mercolid Wax will free the skin of blemishes and discolored areas that it is superior in uniformity of application to any other product; that Park Beauty Cream is a rich cream with a delicate flavor of lemon and orange oils and that its pleasant fragrance will carry through the day; that Belmont Beauty Cream is an oxygen cream which lightens and whitens dark skin two or three shades, or normalizes a skin which is dry or too oily; that Powdered Saxolite smooths out wrinkles and age lines and refines coarse pores; that Powdered Tarkroot is best adapted for almost every condition of the skin, such as wrinkles, enlarged pores, blackheads and other surface blemishes, and that Tarkroot Beauty Mask revives a fatigued, drooping face more quickly and more completely than anything else.

No. 01791. F. J. Lipinski and James E. Crampton, trading as Mutual Laboratories, 1053 Grant St., Buffalo, will cease advertising that J. E. C.'s Rectal Remedy is a competent treatment for piles or hemorrhoids. The respondents also will desist from using the word “Laboratories” in their trade name until they actually operate a laboratory.

No. 01792. Fromm Asch Co., Inc., 462 Niagara St., Buffalo, stipulated that in the sale of a treatment for asthma it will discontinue representing that such treatment is an effective remedy for or will remove the cause of asthma and prevent hay fever. Other respondents who entered into this stipulation are George H. Calkins, Ernest N. Post, Harry I. Partridge, William Stanton, B. F. Van Duze and C. P. Bonham, all of Buffalo.

No. 01794. Selling printed instructions regarding a method of earning money, R. R. Dixon, Jefferson City, Mo., has entered into a stipulation to discontinue certain misleading advertising representations.

Dixon agrees to stop advertising that he offers to prospective purchasers a business opportunity, and that purchasers of his printed instructions may expect to earn any amount which is in excess of the average amounts previously earned by purchasers of his instructions.

No. 01795. Oueida, Ltd., Oueida, N. Y., manufacturer of silver-plated ware, has entered into a stipulation to discontinue certain false and misleading advertising representations. This company distributes its products under the names of two of its subsidiary corporations, William A. Rogers, Ltd., and Simeon L. George H. Rogers Co.

Under the stipulation, Oueida, Ltd., agrees to desist from the use of or from suggesting or recommending to its retailer customers or from otherwise promoting any scheme or sales plan represented as a “Hail Price” or a “Save $20.00” sale wherein an alleged regular retail sales price of its products does not reflect or represent the normal and usual price.

No. 2161. In a cease and desist order 10 corporations manufacturing substantially all of the viscose rayon yarn made in the United States, are directed to cease and desist from entering into and carrying out a price fixing combination held to be in violation of Section 1 of the Clayton Act.

Respondent corporations against whom the order has been entered are:

Viscose Company, New York City, with branch offices in Providence, R. I., Charlotte, N. C., Chicago and Philadelphia, and factories in Pennsylvania, Virginia and West Virginia;

Orion Co., Inc., with plants at Buffalo, N. Y., Old Hickory, Tenn., and Ampthill, Va.;

Tubize Chatillon Corporation, with plants at Hopewell, Va., and Rome, Ga.;
Industrial Rayon Corporation, with offices in New York City and plant at Cleveland, Ohio;  
North American Rayon Corporation (formerly American Glanzstoff Corporation), with offices and plant in New York City;  
American Enka Corporation, with plant at Enka, N. C.;  
Skanland Rayon Corporation, with plant in Utica, N. Y.;  
Delaware Rayon Corporation, New Castle, Del.;  
Acme Rayon Corporation, Cleveland, Ohio;  
The Belamisco Corporation, Rocky Hill, Conn.

In its complaint against the respondent rayon corporations, the Commission charged that they had entered into "an agreement, combination, understanding, and conspiracy among themselves," to eliminate price competition among themselves.

No. 2225. Crystallite Radio Corporation, 44 West 18th St., New York, N. Y., has been enjoined from deceiving or misleading users of certain well-known trade names in the sale of radio sets and appliances. Samuel Glick, of the same address, trading as Pontiac Radio Co., and acting as an officer and director of the Crystallite company, is also named as a respondent.

The order directs the respondents to stop using the trade names Edison, Victor or Brunswick or other trade names or marks of which they are not the legal owners, without the permission of the lawful owners thereof, or in any other way to represent that the radio sets, devices or appliances made and sold by the respondents are made, assembled, sponsored or licensed by Thomas A. Edison, Thomas A. Edison, Inc., Radio Corporation of America, Victor Talking Machine Co., Brunswick-Balke-Collender Co., Warner Brothers Pictures, Inc., or by any other organization which in fact does not make, assemble or sell such products.

In this connection, the order also bars use of recognizable imitations of the names Edison, Victor or Brunswick, such as Edison with the representation of "The Mental Elocutionist" or Victor with the word "International," or the word "Bronswick".

No. 2326. A modified order to cease and desist has been ordered against Mid West Mills, Inc., 1728-28 Arcade Place, Chicago, Ill., jobber of upholstering fabrics and other furniture material, which in fact does not make, assemble or sell such products. Warner Brothers Pictures, Inc., Brunswick-Balke-Collender Co., United Artists Corporation, Acme Rayon Corporation, Cleveland, Ohio; the Belamisco Corporation, Rocky Hill, Conn., and Mid West Mills, Inc., against

The original order to cease and desist, issued in May, 1936, directed that Mid West Mills, Inc., cease and desist from representing by use of its corporate name, in advertising literature or in any other manner, that it was a manufacturer, mill operator or mill owner. Findings were that the respondent company was not a manufacturer of the merchandise in which it dealt.

The Commission thereafter filed in the Circuit Court of Appeals an application for enforcement of its order to cease and desist. The Circuit Court, in its opinion delivered in the case, stated that if the respondent company did not voluntarily strike the word "Mills" from its name, it should clearly inform prospective customers of the true facts. The Court denied the Commission's application for enforcement, but without prejudice to an order enjoining the respondent from striking the word "Mills" from its name.

No. 2694. An order has been issued prohibiting use of the name "I. S. U. Pilot" by 17 individuals and the Uptown Cooperative Press, Inc., operating a newspaper of that name in New York.

The respondents are the Uptown Cooperative Press, Inc., and 17 individuals and are charged with using the name "I. S. U. Pilot" or any other name for their newspaper or other publications, to indicate that they constitute an authorized committee of the International Seamen's Union, or that any publication sold by them is a publication of that Union or authorized by it.

Findings are that the respondents were not members of groups or committees of the International Seamen's Union, and that the "I. S. U. Pilot" was not that Union's publication, and that the use by the respondents of the name "I. S. U. Pilot" was without permission of that Union.

Uptown Cooperative Press, Inc., is said to have printed the paper for the other respondents.

Nos. 2782-3132. Two candy manufacturers, Brown & Haley, 110 East 26th St., Tacoma, Wash., and Miss Morris Candies, Inc., 517-19 Third St., North, Minneapolis, have been ordered to cease and desist from selling and distributing to dealers candy so packed and assembled that sales to the public are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

The order also prohibits the respondents from supplying to dealers assortments of candy together with punchboard devices which may be used in distribution of the candy to the public at retail.

No. 2785. California Packing Corporation, said to be one of the world's largest packers and distributors of dried fruits, vegetables, and fish, and its subsidiary, Alaska Packers Association, both having headquarters in San Francisco, have been served with an order to cease and desist from certain practices deemed to have the effect of suppressing competition and tending to create monopoly.

Among practices prohibited under the order, is the use of the respondent corporations' tonnage of freight shipments and their buying power to induce industrial companies and steamship lines to ship commoditities through and utilize the facilities of Encinal Terminals, operating a public wharfinger business in Alameda, Calif., on the east side of San Francisco Bay, and controlled by the respondent corporations.

Other respondents named in the order are officials or former officials of the two corporations, as follows: L. E. Wood, A. M. Lester, W. H. Levy, and Irene F. Peabody.

The respondents admitted all the material allegations of the Commission's complaint as setting forth facts showing the use of unfair methods of competition within the meaning of Section 5 of the Federal Trade Commission Act. They also waived the taking of further evidence and other intervening procedures, and consented to issuance of findings of fact and order to cease and desist.

No. 2775. An order has been entered directing Helen Arelle, Inc., 1401 East 41st St., Seattle, Wash., a candy manufacturer and dealer, to cease and desist from selling to dealers candy so packed and assembled that sales to the public may be made by means of a lottery.

The respondent company also is ordered to discontinue furnishing dealers with "punchboard" devices which may be used in selling its candy to consumers.

No. 2790. Prohibiting certain unfair methods of competition in the sale of tissues advertised as mentholated tissue handkerchiefs, an order has been issued to cease and desist against The Rieser Co., Inc., 119 West Fortieth St., New York.

Held to have violated Section 5 of the Federal Trade Commission Act, the respondent company is directed to cease representing that its products are superior to ordinary handkerchiefs because they are medicated or because they are mentholated. It is also ordered to stop advertising that use of its tissues will clear nasal passages and that these products have been recommended by doctors as a cure or remedy for sinus trouble, hay fever and head colds or that they are beneficial in the treatment of such ailments and conditions.

Findings are that the respondent company's products have not been recommended by physicians and that their use will not accomplish the results claimed.

Nos. 2861-3106-3145. Orders have been entered directing Schwabacher Brothers & Co., Inc., Seattle, and George C. Miller & Co., Inc., Boston, both candy distributors, and Wolverine Gum, Inc., Detroit, to cease and desist from selling to dealers candy or chewing gum so packed and assembled that sales to the general public may be made by means of a lottery.

The orders prohibit the two candy companies from furnishing dealers with "punchboard" devices for use in retailing their candy to the public.

No. 3061. Glenn Laboratories, Inc., 287 West 127th St., New York, has been ordered to discontinue certain false and misleading advertising representations in the sale of a treatment for over-weight called "Helen Arnold's 152 Cholesterol." In its radio, newspaper and magazine advertising, the respondent corporation is directed to cease and desist from asserting that its product, so long as it contains desiccated thyroid or other form of thyroid, is a new method of treating obesity, converting food into fuel and energy, and that it can safely be taken by laymen without medical examination or advice.

No. 3069. An order requiring Eutrolol Co., Inc., Shawnee, Okla., has been issued to discontinue certain misleading repre-
sentations in the sale of "Eucathol", a rubbing and inhaling compound, sold also as an after-shaving cream.

Eucathol, according to the order, is not to be advertised as a preventive or cure for or as being beneficial in the treatment of insect bites, sunburn, hemorrhoids, colds, hay-fever, catarrh, scabs, skin disorders, influenza and pneumonia.

No. 3998. A modified order to cease and desist has been ordered against George J. Nothnagel, trading as The Stanley Store, 734 Haddon Ave., Collingswood, N. J., a dealer in blankets and bedspreads.

Among the practices prohibited in the original cease and desist order issued against Nothnagel June 2, 1937, and now vacated and set aside, was that of aiding or inducing purchasers of his merchandise to resell it by means of a lottery, gift enterprise or game of chance. The modified order prohibits the same practices but contains the qualification that this provision does not apply to sales of merchandise not accompanied by any acts of the respondent aiding or inducing disposition of such goods under any plan involving a lottery, gift enterprise or game of chance.

No. 3118 Wolf Creek Soap Co., Northwestern Ave., Dayton, Ohio, has been ordered to discontinue certain unfair methods of competition in the sale of its products.

Representation is prohibited, directly or indirectly, through use of the word "Doctor" or the abbreviation "Dr.", or through words of similar import, that any of the respondent company's soap products made pursuant to the formula of, or under the supervision of, a doctor.

The order bars use of the word "medicated", alone or with other words, or use of words of similar import, to represent that any of the respondent company's soaps have medicinal and therapeutic value, unless they actually contain medicinal ingredients in such quantity as to give the products substantial medicinal and therapeutic value.

FEDERAL COMMUNICATIONS COMMISSION ACTION

The Broadcast Division of the Commission recessed after taking action on July 6 to meet again at the call of the chairman. It is not expected, unless some emergency arises, that any further meeting of the Division will be held until early September. Routine matters, of course, will be taken care of in their usual course, without formal meetings, subject to ratification by the full Broadcast Division at its next meeting.

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, July 12:

Monday, July 12

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Harry Schwartz, Tulsa, Okla.—C. P., 1310 kc., 250 watts, daytime.

Tuesday, July 13

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Wm. E. Walker and Merrill F. Chapin, d/b as Walker & Chapin, Oshkosh, Wis.—C. P., 1010 kc., 250 watts, unlimited time.

NEW—Genesse Radio Corp., Flint, Mich.—C. P., 1290 kc., 100 watts, 250 watts LS, specified hours.

Wednesday, July 14

HEARING BEFORE AN EXAMINER

(Broadcast)

WBNO—The Coliseum Place Baptist Church, New Orleans, La.—Voluntary assignment of license to WBNO, Inc.; 1200 kc., 100 watts, share WJWB.

WBNO—The Coliseum Place Baptist Church, New Orleans, La.—C. P., 1430 kc., 100 watts, 250 watts LS, unlimited time.

WJWB—Charles C. Carlson, New Orleans, La.—C. P., 1200 kc., 100 watts, 250 watts LS, unlimited time (requests facilities WBNO). Present assignment: 1200 kc., 100 watts, share WBNO.

WBNO—The Coliseum Place Baptist Church, New Orleans, La.—Renewal of license, 1200 kc., 100 watts, share WJWB.

NEW—Southern Broadcasting Corp., New Orleans, La.—C. P., 1290 kc., 100 watts, 250 watts LS, unlimited (requests facilities WBNO and WJWB).

WJWB—Charles C. Carlson, New Orleans, La.—Renewal of license, 1200 kc., 100 watts, share WBNO.

NEW—Standard Life Ins. Co. of the South, Jackson, Miss.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited.

Thursday, July 15

HEARING BEFORE AN EXAMINER

(Broadcast)

WROK—Lloyd C. Thomas, Transferor, and Rockford Consolidated Newspapers, Inc., Rockford, Ill.—Authority to transfer control of corporation; 1110 kc., 500 watts, 1 KW LS, unlimited.

NEW—Centennial Broadcasting Corp., Dallas, Tex.—C. P., 1500 kc., 100 watts, daytime.

APPLICATIONS GRANTED

WJAC—WJAC, Inc., Johnstown, Pa.—Granted authority to install automatic frequency control.

KCMC—KCMC, Inc., Texarkana, Tex.—Granted authority to determine operating power by direct measurement of antenna input in compliance with Rule 137.

KGIR—KGIR, Inc., W. of City, Butte, Mont.—Authority to determine operating power by direct measurement of antenna input in compliance with Rule 137.

WJIM—Harold F. Gross, Lansing, Mich.—Granted C. P. to install new transmitter.

KRGV—KRGV, Inc., Weslaco, Tex.—Granted license to cover 1200 kc., 1 KW, unlimited time.

WORL—Broadcasting Service Organization, Inc., Boston, Mass.—Granted license to cover 920 kc., 500 watts, daytime only.

KNEL—O. L. Burns, Brady, Tex.—Granted license to cover 1500 kc., 250 watts, daytime only.

WSM—The National Life & Accident Ins. Co., Nashville, Tenn.— Granted license to cover previously licensed auxiliary transmitter at 1501 Weston Ave., Nashville.

WGES—Oak Leaves Broadcasting Station, Inc., Chicago, Ill.—Granted modification of C. P. to extend commencement date to October 1, 1937.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.—Granted modification of C. P. to install apparatus other than as authorized.
KATE—Albert Lea Broadcasting Co., Inc., Albert Lea, Minn.—Granted modification of C. P. as modified for approval of transmitter and studio sites, changes in authorized equipment, and approval of vertical radiator.

KGFI—Eagle Broadcasting Co., Inc., Brownsville, Tex.—Granted modification of C. P. approving transmitter at State Highway No. 96, Brownsville, and studio at San Benito St., Brownsville, and changes in authorized equipment.

KTKC—Tulare-Kings Counties Radio Associates, Visalia, Calif.—Granted modification of C. P. for changes in equipment and antenna system.

WQAN—The Scranton Times, Scranton, Pa.—Granted modification of license to increase power from 500 watts to 1 KW.

WDEI—Mason Dixon Radio Group, Inc., Wilmington, Del.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WAZL—Mason Dixon Radio Group, Inc., Hazleton, Pa.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WEST—Mason Dixon Radio Group, Inc., Easton, Pa.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WLM—Mason Dixon Radio Group, Inc., Wilmington, Del.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WCAL—Mason Dixon Radio Group, Inc., Lancaster, Pa.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WORK—Mason Dixon Radio Group, Inc., York, Pa.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

KFBF—The Farmers & Bankers Life Ins. Co., Abilene, Kans.—Granted voluntary assignment of license to The Farmers and Bankers Broadcasting Corp.

WJBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Granted authority to transfer control of corporation to J. Hale Steinman and John F. Steinman.

WRAX Broadcasting Co. and Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted special temporary authority to increase power from 500 watts night, 1 KW day, unlimited, to 5 KW, unlimited time. (To be heard before the Broadcast Division.)

WDSU—WDSU, Inc., New Orleans, La.—C. P., already in hearing docket, amended to request move of transmitter site locally, exact site to be determined with Commission approval; install new equipment and directional antenna system; and increase power from 1 to 5 KW. To be heard before the Broadcast Division.

WAOA—The Yankee Network, Inc., Boston, Mass.—Modification of license to use present auxiliary transmitter Type W.E. 106-D as alternate transmitter. To be heard before the Broadcast Division.

SPECIAL AUTHORIZATIONS

KGDY—Voice of South Dakota, Huron, S. Dak.—Granted extension of special temporary authority to remain silent for the period July 1 to 31, 1937, for the purpose of rebuilding the transmitter to comply with Rule 132.

WCAL—St. Olaf College, Northfield, Minn.—Granted extension of special temporary authority to operate from 2 to 3 p.m., CST, the following Sundays: August 1, 8, 15, 22, 29, 1937 (provided WCAL remains silent), in order to continue to schedule NBC programs with the commencement of daylight saving time in New York City.

WTCN—Minn. Broadcasting Corp., Minneapolis, Minn.—Granted extension of special temporary authority to operate from 3 to 4 p.m., CST, the following Sundays: August 1, 8, 15, 22, 29, 1937 (provided WCAL remains silent), in order to continue to schedule NBC programs with the commencement of daylight saving time in New York City.

WCBS—WCBS, Inc., Springfield, Ill.—Granted extension of special temporary authority to operate from 10 p.m. to 12 midnight, CST, Wednesdays, Thursdays, Fridays, for the period July 8 and ending no later than August 4, in order to broadcast Municipal League Baseball games only.

WHITE—The Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authority to operate from 7 to 9 a.m., CST, the following Sundays: August 1, 8, 15, 22, 29, 1937, inclusive, and use Tampa studios, on account of summer vacations for employees in order to continue WHITE during summer period with reduction in experienced personnel.

WCCO—Columbia Broadcasting System, Inc., Minneapolis, Minn.—Granted special temporary authority to rebroadcast over station WCCO a conversation carried on between experimental station WSXAR and WSXAS for a period not to exceed 1 hour, between July 7 and 12, 1937.

WFLA—Clearwater Chamber of Commerce, Clearwater, Fla.—Granted extension of special temporary authority to close Clearwater studios from July 16 to September 1, 1937, inclusive, and use Tampa studios, on account of summer vacations for employees in order to continue WFLA during summer period with reduction in experienced personnel.

WQDM—Regan & Bostwick, St. Albans, Vt.—Granted special temporary authority to operate Daylight Saving Time instead of EST for the period ending in no event later than September 20, 1937.

APPLICATION DISMISSED

The following application, heretofore set for hearing, was dismissed at request of applicant:

WSAI—The Crosley Radio Corp., Cincinnati, Ohio.—C. P., 1330 kc., 1 KW, 5 KW LS, unlimited time.

MISCELLANEOUS

WAPI—WAPI Broadcasting Corp., Birmingham, Ala.—Granted voluntary assignment of license to Alabama Polytechnic Institute, University of Alabama State College (Board of Control of Radio Broadcasting Station WAPI); 1140 kc., 5 KW, simultaneous day KWQO, share KVOQ night.

WQAI—Southland Industries, Inc., San Antonio, Tex.—Denied petition to extend effective date in re grant of application

2206
of Hunt Broadcasting Assn. for C. P. to erect new 100-watt daytime station at Greenville, Tex., to operate on 1200 kc. (Docket 3242).

NEW—Kenneth Baker, Hartwell Gaus, V. A. Bernier, d/b as Key City Broadcasting Co., Kankakee, Ill.—Denied petition to take depositions in re application for new station to use 1500 kc., 100 watts, unlimited time (Docket 4522), and granted motions of Karl L. Ashbacker (WKBZ) and Northwestern Publishing Co. to deny and strike petition for order to take depositions.

KGCX—E. E. Krebsbach, Wolf Point, Mont.—Granted amended petition for access and answer in re hearing on application of KCVO for C. P. to use 1450 kc., 1 kW, unlimited time, Docket 4485.

NEW—E. Anthony & Sons, Inc., Pawtucket, R. I.—Denied petition to reconsider and grant application in part, and to extend effective date in re application for C. P. to use 1200 kc., 100 watts night, 250 watts LS, Unlimited, Docket 8386.

KLZ—KLZ Broadcasting Co., Denver, Colo.—Granted petition to intervene in the hearing of KVOD for C. P. to use 630 kc., 1 kW, unlimited time, Docket 4527, scheduled for September 21, 1937.

WKZO—WKZO, Inc., Kalamazoo, Mich.—Granted authority to suspend construction of new antenna and continue use of temporary antenna.

NEW—Fall River Herald News Publishing Co., Fall River, Mass.—Denied petition to withhold decision upon the application of Harriet H. MacLellan, d/b as Cape Cod Broadcasting Co. (Docket 4018).

NEW—C. W. Corkhill, Sioux City, Iowa.—Denied petition for further hearing in re application for new station to operate on 1420 kc., 100 watts, unlimited time, and dismissed opposition to petition for further hearing filed by the Sioux City Broadcasting Co. (Ex. Rep. 1-562).

**EFFECTIVE DATES EXTENDED**

WSBT—The South Bend Tribune, South Bend, Ind.—Effective date of order extended to July 20, 1937.

WEMP—Milwaukee Broadcasting Co., Milwaukee, Wis.—Effective date of order extended to July 20, 1937.

**ACTION ON EXAMINERS’ REPORTS**

NEW—Ex. Rep. 1-324: John S. Allen and G. W. Covington, Jr., Montgomery, Ala.—Remanded to the docket for further hearing with the privilege of all parties to introduce new testimony or take depositions.

NEW—Sioux City Broadcasting Co., Sioux City, Iowa.—Granted C. P. for new station to operate on 1420 kc., 100 watts night, 250 watts LS, unlimited, site to be determined. Examiner L. W. Walker sustained. Order effective August 17, 1937.

WJBR—J. B. Roberts, Gastonia, N. C.—Denied as in cases of default application for modification of C. P. to extend completion date of construction. Examiner Bramhall sustained. Order effective September 28, 1937.

WATR—Ex. Rep. 1-376: The WATR Company, Inc., Waterbury, Conn.—Denied C. P. to make changes in transmitter; install directional antenna; move transmitter locally in Waterbury; change frequency from 1190 to 1390 kc.; increase power from 100 watts to 250 watts and change hours of operation from 100 watts to 250 watts, unlimited. Examiner M. H. Dalberg sustained. Order effective August 3, 1937.

NEW—Ex. Rep. 1-244: Community Broadcasting Co., Toledo, Ohio.—Granted C. P. for new station to operate on 1200 kc., 100 watts, daytime. (Site to be determined.) Examiner R. L. Walker sustained. Order effective August 3, 1937.

NEW—Ex. Rep. 1-349: The Courier-Post Publishing Co., Hannibal, Mo.—Denied C. P. for new station to operate on 1310 kc., 100 watts night, 250 watts day, unlimited time. (Site to be determined.) Examiner M. H. Dalberg reversed. Order effective August 31, 1937.

NEW—Ex. Rep. 1-352: George Harm, Fresno, Cal.—Granted C. P. for new station to operate on 1310 kc., 100 watts, unlimited time. Examiner R. H. Hyde reversed. Order effective August 10, 1937. (The petition of Chase Osborn, Jr., to withhold action on this application, was denied, and the opposition to the petition of George Harm was dismissed.)

NEW—Ex. Rep. 1-358: Loyal K. King, Pasadena, Cal.—Denied

KGFF—Ex. Rep. 1-409: KGFF Broadcasting Co., Inc., Shawnee, Okla.—Dismisses without prejudice application for modification of license to change frequency from 1320 to 1430 kc.; increase power from 100 watts night, 250 watts day to 250 watts night and day, unlimited time. Examiner Seward sustained. Order effective July 2, 1937.

EXAMINERS' REPORTS RELEASED SINCE JUNE 29, 1937

NEW—Ex. Rep. 1-455: WSMB, Inc., New Orleans, La.—Examiner P. W. Seward recommended grant of application to increase operating power from 1 kW to 1 kW, 5 kw. L.S., unlimited time.

WKV—Knox Radio Corp., Richmond, Ind.—Granted oral argument to be held October 14, 1937.

NEW—Ex. Rep. 1-437: Valley Broadcasting Co., Youngstown, OH.—Construction permit to install a new transmitter and increase power from 1310 kc., 100 watts, unlimited time.

NEW—National Broadcasting Company, Inc., Bellmore, New York.—Construction permit to install a new transmitter and increase power from 1330 kc., 100 watts, unlimited time.

APPLICATIONS RECEIVED

First Zone

WWJ—The Evening News Assn., Detroit, Mich.—Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day.

WFSA—New Hampshire Broadcasting Company, Manchester, N.H.—Authority to determine operating power by direct measurement of antenna power.

Second Zone

WGY—Peter Goelite, Newburgh, New York.—Construction permit to make changes in old W.E. D-87737 transmitter and move same from 810 W. Lafayette, Detroit, Mich., to 12700 Eight Mile Road, West, Oak Park, Michigan, to be used as an auxiliary transmitter.

WSAI—Crosley Radio Corp., Cincinnati, Ohio.—Modification of license to increase power from 1 kw. night, 2½ kw. day, to 1 kw. night and 5 kw. daytime.

WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.—License to cover construction permit (B2-P-728) as modified for a new station.

NEW—Kanawha Valley Broadcasting Co., Charleston, W. Va.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

XXX—First Baptist Church, Pontiac, Mich.—Authority to transmit programs to Radio Station CKLW, Windsor, Ontario, Canada.

Third Zone

WNOX—Scirrps-Howard Radio, Inc., Cincinnati, Ohio.—Modification of license to increase power from 1 kw. night and 5 kw. day to 5 kw. night and 5 kw. day.

NEW—Charles F. Engle, Natchez, Miss.—Construction permit to erect a new station to be operated on 1210 kc., 100 watts night power and 250 watts day, unlimited hours of operation. Amended re antenna.

WFOY—Fountain of Youth Properties, Inc., St. Augustine, Fla.—Construction permit to increase power from 100 watts to 100 watts night, 250 watts day, and make changes in transmitting equipment. Amended re equipment.

WTBC—Savannah Broadcasting Company, Inc., Savannah, Ga.—Construction permit to install a new transmitter and increase power from 1 kw. to 1 kw. night and 5 kw. day. Amended re antenna.

WFBC—Greenville News-Piedmont Co., Greenville, S. C.—Construction permit to install directional antenna for night use and increase power from 1 kw. night, 5 kw. day, to 5 kw. night and day.

WGM—H. W. Wilson & Ben Farmer, Wilson, N. C.—Modification of 1300 kc. construction permit (B3-P-1286) for a new station, requesting changes in equipment and move of studio from 206 E. Nash St., Wilson, N. C., to 115 W. Nash St., Wilson, N. C.

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—License to cover construction permit (B3-P-339) as modified for a new station.

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—License to cover modification of construction permit (B3-P-514) for increase in power.
WCOA—Pensacola Broadcasting Co., Pensacola, Fla.—Modification of construction permit (B3-P-1422) for approval of antenna and transmitter site at Pensacola, Fla.

NEW—Panama City Broadcasting Co., Panama City, Fla.—Construction permit for a new station to be operated on 1420 kc., 100 watts power, daytime operation.

Fourth Zone

KFYR—Meyer Broadcasting Co., Bismarck, N. D.—Modification of construction permit (B4-P-1393) for move of transmitter from on Highway No. 10, Apple Creek Township, six miles east of Bismarck, N. Dak., to 3 1/4 miles north and 1/4 mile west of town of Menoken, N. Dak.

WDAF—The Kansas City Star Co., Kansas City, Mo.—Authority to determine operating power by direct measurement of antenna power.

WDAP—The Kansas City Star Co., Kansas City, Mo.—License to cover construction permit (B4-P-1418) as modified for equipment changes, vertical antenna, and move of transmitter.

KWNO—Harry Dahl, Otto M. Schlabach, Maxwell H. White, and Hermann R. Wiecking, d/b as Winona Radio Service, Winona, Minn.—Modification of construction permit (B4-P-983) as modified to change authorized transmitter and studio sites from 110 Main St., Winona, Minn., to 216 Center Street, Winona, Minn., and extend commencement and completion dates from 8-15-37 to 2-15-38, respectively, to 45 days after grant and 180 days thereafter.

NEW—Frank Ray, Dickinson, N. D.—Construction permit for a new station to be operated on 1310 kc., 100 watts night, 250 watts day, unlimited time.

KWOS—Tribune Printing Co., Jefferson City, Mo.—Authority to install automatic frequency control.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—License to cover construction permit (B4-P-1695) for changes in equipment and increase in power.

KOBH—Black Hills Broadcast Co. (Robert Lee Dean), Rapid City, S. Dak.—License to cover construction permit (B4-P-1631) for new equipment and increase in power.

NEW—Western Audiphone Co., Ottumwa, Iowa.—Construction permit for a new station to be operated on 1420 kc., 100 watts power, unlimited time (Sections 6, 7, 8, equipment and jurat).

KGKY—Hillard Co., Inc., Scottsbluff, Nebr.—Authority to transfer control of corporation from A. W. Hilliard to L. L. Hilliard, 42 shares common stock.

KAGM—Oscar C. Hirsch, tr/ as Hirsch Battery & Radio Co., Cape Girardeau, Mo.—License to cover construction permit (B4-PRY-24) for new low frequency relay station.

Fifth Zone

KIRO—Queen City Broadcasting Co., Inc., Seattle, Wash.—Extension of special experimental authorization to operate on 710 kc., 1 KW, unlimited time, for period from 8-1-37 to 7-1-38.

KDNC—The Democrat-News Co., Inc., Lewistown, Mont.—Modification of construction permit (B5-P-831) as modified for a new station, requesting equipment changes, approval of antenna, and approval of transmitter site at 509 West Main St., Lewistown, Mont., and move of studio from 513 West Main St. to 509 West Main St., Lewistown, Mont.

KFBB—Buttrey Broadcast, Inc., Great Falls, Mont.—Modification of license to change power from 1 KW night, 2½ KW day, to 1 KW night, 5 KW day.

NEW—Pacific Radio Corp., Grants Pass, Ore.—Construction permit for a new station to be operated on 630 kc., 500 watts power, unlimited time. Amended: Antenna changes, change frequency from 630 kc. to 1320 kc., hours of operation from unlimited to daytime only.

KUJ—KUJ Inc., Walla Walla, Wash.—Construction permit to change frequency from 1370 kc. to 560 kc.; changes in equipment; erect a new vertical antenna; increase power from 100 watts to 250 watts; and move transmitter from Marcus Whitman Hotel, 2nd and Rose Streets, Walla Walla, Wash., to site to be determined, Walla Walla, Wash. (wrong form).

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—License to cover construction permit (B5-P-1567) for new transmitter and antenna and move of transmitter.

NEW—Gila Broadcasting Co., Safford, Ariz.—Construction permit for a new station to be operated on 1420 kc., 100 watts night, 250 watts day, unlimited time. Amended to change requested transmitter site from Central and Main to Sixth Avenue and Relation Street, Safford, Ariz.

NEW—Fred M. Woll, Grand Coulee, Wash.—Construction permit for a new station to be operated on 1420 kc., 100 watts night and 250 watts day power, unlimited time.

NEW—Louisa B. Thornton and M. E. Thornton, d/b as Port Angeles Broadcasters, Port Angeles, Wash.—Construction permit for a new station to be operated on 1500 kc., 100 watts night and 250 watts day power, unlimited time. Amended: Change name from Port Angeles Broadcasters to Louisa B. Thornton and M. E. Thornton, d/b as Port Angeles Broadcasters.

KPO—Wescoast Broadcasting Co., Wenatchee, Wash.—License to cover construction permit (B5-P-1617) for move of transmitter and new antenna.
FCC SETS HEARING FOR ATTORNEYS

In connection with the disbarment proceedings of the Federal Communications Commission against two Washington attorneys, the Commission on Tuesday issued the following official statement:

The Commission in a General Session today, having considered the answers filed by Paul M. Segal and George S. Smith to the Order of May 19, 1937, including the motions contained in said answers that the charges contained in said Order of May 19, 1937, be dismissed, the Commission orders that said motions be overruled and denied; and,

The Commission further orders that the hearing on said charges and the answers of Paul M. Segal and George S. Smith be set before the Commission en banc on Monday, September 13, 1937, at 10:30 o'clock at the offices of the Commission in the City of Washington.

CCIR-UIR MEETINGS REPORTED

The Managing Director this week received the report of James C. McNary, who, as NAB delegate, attended the Fourth CCIR Meeting at Bucharest, Roumania, from May 21 to June 8, 1937, and the U. I. R. meeting at Lausanne, Switzerland, from June 17 to June 25, 1937.

The CCIR (Comité Consultatif Internationale Radiocommunication—International Consulting Committee on Radio Communications) holds its international conference of engineers and scientists by virtue of provisions of the international administrative conferences at Washington (1927) and Madrid (1932). The CCIR functions in an advisory capacity to the administrative conferences, the next of which is scheduled to be held at Cairo beginning February, 1938, and is charged with consideration of technical matters affecting international regulations and allocations. The last CCIR meeting, held in Lisbon in 1934, was also attended by Mr. McNary, representing the NAB.

According to custom, the American delegation to CCIR meetings comprises a government delegation accompanied by company representatives. The government delegates to the 4th CCIR meeting were: Dr. J. H. Dellinger, (chairman), National Bureau of Standards; Captain S. C. Hooper, Navy Department; Colonel D. M. Crawford, War Department; E. K. Jett and Gerald C. Gross, Federal Communications Commission; and Francis B. de Wolf, Department of State. The other company representatives were: Dr. C. B. Jolliffe, Lloyd Briggs and H. K. Chadwick, Radio Corporation of America; Carroll Bickelhaupt, Lloyd Espenschied, F. M. Ryan and G. H. Barney, American Telephone & Telegraph Company; Haraden Pratt, Mackay Radio; and E. K. Cohan, Columbia Broadcasting System, Inc.

The recently-adjourned CCIR meeting was so timed that its opinions would be up-to-date and available for the forthcoming Cairo conference next year. According to the report received, it appears that some of the technical considerations affecting allocations, particularly those dealing with wave propagation, will necessarily undergo review at Cairo because of the rapidly changing state of the art and because of the demands for new frequencies certain to be made at Cairo by the aviation and high-frequency international broadcasting services. Some of the opinions of the 4th CCIR are summarized below.

While in Europe, Mr. McNary also attended the Tenth Annual Meeting of the UIR (International Broadcasting Union), devoting his time principally to the meetings of the Technical Committee. The most important item

ANOTHER WORD OF APPRECIATION

I take this means of expressing to the members my appreciation for the numerous suggestions which they have addressed to me as President of the National Association of Broadcasters. I am sure your constructive suggestions will be of great benefit in administering the affairs of the Association. The constructive ideas of all the members are solicited.

John Elmer.
discussed was the present condition of chaos in the high-frequency international relay broadcasting bands, and an effort was made to find engineering basis for improvement of service in these bands. Discussion included consideration of synchronization of transmitters using directional antennas for transmission of the same program in the same wave band to different portions of the earth, limitation of maximum and minimum power, frequency separation between channels, and shared use of the same carrier antennas for transmission of the same program in the area of service in these bands. Discussion included considerable data, from the UIR Control Center at Brussels, was available to show the existing situation on the high-frequency channels.

According to the report submitted to the Managing Director, Mr. McNary observed television practices in Berlin and London. Both of these cities enjoy regular television broadcasting service. He was particularly impressed with the Alexandria Palace transmitter, in London, from which regular afternoon and evening programs are furnished, and with the studio and program production technique employed for these programs.

Of the opinions adopted at the CCIR Meeting, the following appear to be of interest to the broadcasting industry:

(a) r.f. harmonics: The previous opinion of the Lisbon meeting, with respect to radio frequency harmonics of fundamental carrier frequencies of 3000 kilocycles or less, was retained, which recommends that the harmonic power not exceed 0.025 watt, or 300 microvolts at 5 kilometers, with the proviso that such harmonic radiation is to be subject to special treatment if interference is caused. In addition, an opinion was adopted to the effect that harmonic power should be 40 decibels below the fundamental, for fundamentals of 3000 kilocycles or higher, with the same proviso as to interference.

(b) Synchronization: The opinion adopted on the subject of synchronizing broadcast transmissions simply defines synchronized carriers as those whose frequency difference is less than 0.1 cycle, and the so-called quasi-synchronized carriers as those whose frequency difference is less than 10 cycles. The latter term is not applicable to American practice.

(c) Frequency separation between broadcast channels: The opinion adopted on this subject states in effect that 20 kilocycle separation is the least that can be tolerated for two carriers serving the same area with high-fidelity reproduction; that, when geographical separation of transmitters operating on adjacent channels the frequency difference may be reduced to a value of less than 20 kilocycles; and that 10 kilocycles is the minimum recommended for short wave international broadcasting which is definitely not a high fidelity service.

(d) Classification of waves: The only change of importance in the classification of waves, and a change which was opposed by the American delegation, was the classification of frequencies between 30 and 300 megacycles as "very high" and frequencies between 300 and 3000 megacycles as "ultra high." Present American practice utilizes the term "ultra high" for frequencies in excess of 30 megacycles.

(e) Anti-fading antennas: The subject of anti-fading antennas, which was of some interest in certain European quarters but which actually had little international significance, was disposed of by adopting the American opinion practically in toto, pointing out the possibilities of improvement in coverage by careful attention to details of antenna design.

(f) Frequency tolerance: For broadcasting transmitters now in operation, 50 cycles; for broadcasting transmitters installed after January 1, 1939, 20 cycles. The entire table of tolerances and instabilities was reviewed and attempts were made by the American delegation to bolster up the tolerances for other services to conform to modern practice. The success was only moderate, however, as there has always been heavy pressure from some of the more backward services, such as marine radio, for maintaining the status quo.

(g) Wave propagation: The study of wave propagation was continued with a report being due from the centralizing administration before the Cairo conference. The interim report contains reference to the material submitted by the United States, without dispute, on which U. S. allocations are based.

(h) Background noise: An opinion on tolerable background noise in broadcast transmitters recommends a value of 54 decibels below 100 per cent modulation.

Miscellaneous: The conference discussed thoroughly and adopted several opinions with reference to the subject of man-made interference to broadcast reception. This subject is largely of European origin because of the plans to control such interference by legislation. The matter is of considerable interest to American broadcasting, but the material is not so applicable in this country. Other opinions issued referred to matters principally concerning other services (point-to-point telegraph, telephone, marine radio, aviation radio, etc), and to matters of interference, field intensities required for rendering service, etc.

SENATE BILL WOULD PROHIBIT BROADCASTING GAMBLING INFORMATION

Senator Wheeler of Montana has introduced a bill in the Senate (S. 2758) which has been referred to the Committee on Interstate Commerce "to prohibit the transmission of certain gambling information in interstate commerce by communications facilities." Broad-
casting is specifically mentioned in the bill which is as follows:

A BILL

To prohibit the transmission of certain gambling information in interstate commerce by communications facilities.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That any gambler or any agent of a gambler who shall knowingly transmit or aid or assist in transmitting in interstate commerce by means of any communications facility any gambling information, and whoever shall knowingly transmit or aid or assist in transmitting in interstate commerce by means of any communications facility any gambling information to or for the use of any gambler, and whoever shall knowingly receive or aid or assist in receiving in interstate commerce by means of any communications facility any gambling information for any gambler, and whoever shall knowingly receive or aid or assist in receiving in interstate commerce by means of any communications facility any gambling information for any gambler, or for transmission to any gambler, shall be fined not more than $, or imprisoned not more than years, or both.

Sec. 2. Whoever shall furnish, supply, provide, maintain, or repair any communications facility knowing that such communications facility is to be used in violation of the first section of this Act shall be fined not more than $, or imprisoned not more than years, or both.

Sec. 3. As used in this Act—

(a) The term "communications facility" includes any apparatus or personnel used in the broadcast, sending, transmission, or receipt (including delivery to the point of origin, delivery from the point of receipt to the point of destination, and forwarding) of writing, signs, signals, pictures, and sounds of all kinds by means of wire, cable, or radio.

(b) The term "gambling information" includes any information previous to the occurrence of an event, the occurrence or result of which is uncertain, relating to the mathematical chances of or odds on the occurrence of or a particular result of any such event or the amount of money wagered on the occurrence of or a particular result of any such event.

(c) The term "gambler" includes any person, partnership, corporation, or association who or which is engaged in business as a bettor, gambler, bookmaker, betting commissioner, stakeholder, or in any like or similar capacity.

THREE RADIO AMENDMENTS INTRODUCED

Senator Schwellenbach of Washington has introduced three amendments to the Communications Act of 1934 all of which have been referred to the Committee on Interstate Commerce. They are as follows:

S. 2755
A BILL

To amend section 315 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 315 of the Communications Act of 1934 be, and hereby is, amended by striking out the whole of said section and by inserting in lieu thereof the following:

"Sec. 315. Each licensee of a radio-broadcasting station shall be required to set aside regular and definite periods at desirable times of the day and evening for uncensored discussion on a nonprofit basis of public, social, political, and economic problems, and for educational purposes. When any such licensee permits any speaker on any controversial, social, political, or economic issue to use its facilities during any such period, it shall afford to at least one exponent or advocate of each opposing viewpoint equivalent facilities. The licensing authority shall without any delay make rules and regulations to carry this provision into effect, and in proceeding hereunder it shall appoint and, in its discretion, act upon the recommendations of an advisory committee consisting of disinterested, representative citizens: Provided, That the licensing authority, the advisory committee, and licensees shall have no power of censorship of any kind, nor shall any license be revoked or renewal refused because of material so broadcast."

S. 2756
A BILL

To add section 315 (a) to the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Communications Act of 1934 be, and hereby is, amended by adding thereto the following:

"Sec. 315. (a) Each licensee of a radio-broadcasting station shall keep complete and accurate records open to reasonable public inspection—

(1) of all applications for time;

(2) of all rejected applications and the reasons for such rejections;

(3) of all additions and changes requested in arranged programs on public, social, political, and economic issues and on educational subjects;".

S. 2757
A BILL

To amend section 326 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 326 of the Communications Act of 1934 could not be found.
be, and hereby is, amended by striking out the whole of said section and by inserting in lieu thereof the following:

"Sec. 326. Nothing in this Act shall be understood or construed to give the licensing authority the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the licensing authority which shall interfere with the right of free speech by means of radio communication: Provided, That this provision shall not be understood or construed to exempt any licensee from liability for any defamatory, profane, indecent, or obscene language or action broadcast by any officer, employee, agent, or representative of such licensee."

WIL APPEALS FROM DECISION OF FCC IN STAR-TIMES CASE

Contending that the Communications Act of 1934 necessitates a finding on the question of "if public interest, convenience, or necessity will be served" as a prerequisite to a grant by the Federal Communications Commission, Radio Station WIL, St. Louis, Mo., this week filed its brief in the United States Court of Appeals for the District of Columbia. The appeal was from a denial by the Commission of an application by WIL for the facilities of 1250 kc, 1000 watts, with unlimited hours of operation, and the granting of such facilities to the Star-Times Publishing Co. of St. Louis.

The brief points out that the Commission rendered its decision and thereafter adopted certain findings in support of the ruling. It further alleges that the findings were not made by the Commission itself or by the Broadcast Division or by any board authorized to make such findings but that they were in fact made by the Law Department of the Commission and raises the contention that such findings cannot, by a minute entry of the Broadcast Division, become the findings of the Commission.

Asserting that the procedure followed in this case is contrary to established practice of other federal administrative boards, commissions and agencies, WIL asks that the Commission itself be required to determine the facts before making final decisions.

A further argument is advanced in the brief to the effect that the Commission erred in preferring a new applicant over an existing utility (WIL) and that it failed to give consideration to a prior licensee who had pioneered in the development of radio broadcasting in the St. Louis area.

The Commission has until September 20 to file its answer.

JACK FALVEY

Members are advised to communicate with NAB Headquarters before contracting with Jack Falvey who represents the Falvey Feature Service or the Falvey Service Corporation.

Broadcast Advertising in May

HIGHLIGHTS OF THE MONTH

Total broadcast advertising during the month of May amounted to $11,325,165, a slight increase over the volume registered for last month. This increase, due mainly to a 6.7% gain in local advertising, took the place of the usual seasonal decline. National network volume declined 2.3% and national non-network business 0.6% from the level of last month. Regional network volume gained 21.9%. Gross time sales for the month of May were 32.5% ahead of the volume recorded for the corresponding month of 1936. All portions of the medium experienced marked gains.

Compared to April, national magazine advertising increased in volume, national farm paper volume declined and newspaper lineage remained the same. Radio broadcasting continued to show the greatest gains in advertising volume of any major medium as compared to corresponding periods of last year. As against the 32.5% increase over last May registered by radio, national magazine volume increased 19.6% and national farm paper volume 4.2%. Newspaper lineage declined 1.1% from the level of last May.

Total non-network advertising rose 2.4% over the level of April and 33.6% over the volume registered during May 1936. The increase over last month was due mainly to a 4.7% gain in volume for the clear channel stations. Regional stations showed the greatest gain as compared to last May, although all sizes of stations recorded increases. The New England-Middle Atlantic Area experienced the most marked gain of any section of the country both as compared to last month and as to May 1936.

In the rendition field, live talent showed the only increase of importance as compared to April. Live talent showed the only gain in the national non-network field but transcriptions increased to a greater extent in the local field. As against last May, total live talent increased 41.7%, transcriptions 25.1%, records 9.4%, and announcements 29.1%. Announcements in the national field and live talent in the local field showed the greatest gains over May 1936.

National network clothing, regional network tobacco products, national non-network financial, and local accessory, beverage and department store sponsor groups showed the main increases in advertising volume over last month. As against last May, the most important gains were registered in national network household equipment and soap and kitchen supply advertising, regional network drug and tobacco advertising, national non-network food products and tobacco advertising, and local food products and radio set advertising sponsor groups. Retail broadcast advertising over individual stations amounted to $1,333,180, an increase of 6.4% over the
level of last month and 21.8% greater than the volume recorded for May 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of May is found in Table I.

Contrary to the usual seasonal decline, total broadcast advertising during the month of May remained at approximately the same level as was recorded in April. The slight increase was less than 1.0%. National network volume declined 2.3% and national non-network business 0.6%. Regional network volume increased 21.9% and local advertising 6.7%.

National non-network advertising showed the greatest gain over May of last year in rising 45.5% in volume. National network volume rose 32.1%, regional networks 10.4% and local business 21.1%. Total broadcast advertising for the month was 32.5% ahead of May 1936.

COMPARISON WITH OTHER MEDIA

Compared to last month, national magazine volume increased 4.5% while national farm paper volume dropped 14.9% and newspaper lineage remained at approximately the same level. As against the 32.5% gain over last year registered by radio, national magazine advertising increased 19.6% in volume and national farm paper advertising 4.2% while newspaper lineage decreased 1.1%.

Advertising volume by major media is shown in Table II.

NON-NETWORK ADVERTISING

Total non-network advertising rose 2.4% in volume over last month due to the increase in local business. Non-network advertising over clear channel and high-powered regional stations showed the greatest gain in rising 4.7%. Regional station volume rose 0.7% and local station advertising 1.2%.

All sizes of stations showed marked gains in advertising volume over May of last year. Clear channel and high-powered regional station volume increased 31.6%, regional station volume 44.7% and local station volume 10.8%. Total non-network advertising increased 33.6% over the volume registered for last May.

Broadcast advertising by power of station is found in Table III.

NON-NETWORK ADVERTISING BY TYPE OF RENDITION

Live talent showed the only increase of importance among the various types of rendition, rising 7.6% in volume over April. Announcements registered an increase of 0.7%. Electrical transcriptions declined 4.7% and records 1.5%. Live talent business also showed the greatest gain over last May by increasing 41.7% in
volume. Transcriptions showed a gain of 25.1%, records 9.4% and announcements 29.1%.

By increasing 8.2% in volume, live talent business registered the only gain in the national non-network field as compared to April. Transcriptions declined 7.7%, records 71.1% and announcements 4.0%. However, only records failed to show an increase as against last May. Transcriptions rose 33.7%, live talent 47.5%, and announcements 73.4%. Records declined 28.3%.

In the local field, electrical transcriptions showed the most important gain in rising 9.7% over last month. Live talent showed a gain of 6.9%, records 19.3% and announcements 4.3%. Compared to last May, live talent rose 36.0%, records 13.8% and announcements 10.0%. Transcriptions declined 1.5%.

Non-network advertising by type of rendition is found in Table V.

SPONSOR TRENDS IN MAY

Declines were general in the national network field as compared to April. Clothing showed the only important increase. Compared to last May, however, many sponsor groups showed marked gains, the most important being in the automotive, accessory, foodstuff, household equipment, soap and kitchen supply, financial and tobacco groups.

As against last month, tobacco advertising showed the most important gain in the regional network field. Drug, soap and kitchen supply, and tobacco advertising increased to the greatest extent over last May. Gasoline and accessories, toilet goods, and beverage advertising declined.

Financial advertising increased 54.3% in the national non-network field. Drug, beverage, amusement, radio, department store and the miscellaneous groups showed minor declines while all other groups registered slight increases as compared to last month. Clothing, food products, soap and kitchen supply and tobacco advertising registered marked gains as compared to last May.

Gains were fairly general in the local field with the accessory, beverage and department store sponsor groups increasing to the greatest extent over April. All groups except the automotive, accessory, drug, and soap and kitchen supply groups showed increases as compared to last May.

Broadcast advertising during May by major product and sponsor groups is shown in Table VI.

2216
Details as to trends in the various fields of sponsorship are as follows:

1. **Automotive.** Gains over April as follows: national networks 2.9%, national non-network 2.6% and local 8.6%. As against May 1936, national network volume rose 47.8% while national non-network and local advertising declined 33.7% and 12.2%, respectively.

2. **Gasoline and accessories.** Increases over April as follows: national networks 7.6%, regional networks 9.6%, national non-network 9.8%, and local 37.9%. National network volume 44.9% ahead of last May in volume. Regional network volume declined 47.9% and local business 21.5%. National non-network business increased 0.9%.

3. **Clothing.** National network volume two and one-half times as great as April. Regional network volume rose 14.9% and national non-network business 25.0%. Local business declined 1.9%. As compared to May 1936, national network business declined 16.0% while national non-network and local advertising increased 97.7% and 9.5%, respectively.

4. **Drugs and pharmaceuticals.** National network volume 6.3% below level of last month. Regional network volume rose 9.8% and local volume 10.2%. National non-network volume declined 20.8%. Compared to last May, national network business increased 25.6% and regional network volume more than doubled. National non-network and local advertising declined 0.7% and 1.6% respectively.

5. **Toilet goods.** While national network and national non-network volume remained at approximately the same level as last month, regional network volume declined 16.3% and local business rose 14.3%. As against last May, national network volume increased 13.5%, national non-network business 75.5% and local business 6.2%. Regional network volume declined 44.1%.

6. **Foodstuffs.** National network volume 5.3% below last month. Regional network volume increased 5.6%, national non-network volume 1.6%, and local business 1.0%. Increases in volume over last May as follows: national networks 47.6%, regional networks 21.2%, national non-network 78.7%, and local 36.9%.

7. **Beverages.** National network and national non-network volume 4.8% and 8.9% below April, respectively. Regional network volume up 19.6% and local business up 37.0%. As against May 1936, national network volume down 9.9% and regional network volume down 52.0%. National non-network business four times as great and local business up 18.3%.

8. **Confectionery.** National network volume down 5.3% compared to April. Regional network business declined materially. National non-network business increased 2.4% and local business 23.2%. Compared to last May, regional network volume remained the same while national network volume increased 12.6%, local business 41.9% and national non-network business doubled.

9. **Household equipment.** Increases over April as follows: national networks 3.9%, regional networks 3.2%, national non-network 3.4%, and local 12.5%. National network business five times as great as last May. Regional network volume down 16.0%, National non-network and local advertising increased 14.1% and 28.9%, respectively.

10. **Soaps and kitchen supplies.** National network volume 12.5% below April. Regional network volume increased materially and national non-network volume rose 5.8%. Local business dropped 10.9%. Compared to last May, national network volume increased 62.3%, regional network volume 41.1% and national non-network more than doubled. Local business down 33.5%.

11. **Insurance and financial.** Compared to April, national network business down 16.0%. Regional network volume up 32.4%, national non-network 54.3%, and local advertising 26.9%. As against last May, national network volume increased 61.9% and local business 28.7%. Regional network business increased materially and national non-network business remained the same.

12. **Radios.** National network volume 3.0% above April. National non-network volume down 9.1% and local volume up 38.3%. Compared to May of last year, national network volume rose 6.5% and local volume 74.8%. National non-network volume dropped 70.4%.

13. **Department and general stores.** Compared to April, national non-network business down 8.3% and local business 3.1%. National non-network volume 11.1% below last May. Local advertising increased 32.7% over May 1936.

14. **Tobacco products.** Increases over April as follows: national network 4.6%, regional network 61.5%, national non-network 2.2% and local 25.4%. Increases over May 1936 as follows: national networks 57.8%, regional networks 72.9%, and local advertising 5.6%. National non-network volume more than doubled.

15. **Miscellaneous.** Declines from April level as follows: national networks 17.2%, regional networks 11.6%, national non-network 0.6% and local 0.6%. Compared to last May, national network volume declined 36.6% and regional network volume 7.2%. National non-network business increased 67.9% and local advertising 31.3%.
RETAIL BROADCAST ADVERTISING

Total retail broadcast advertising over individual stations was 6.4% above the level recorded for last month and 21.8% greater than the volume of May 1936. Advertising by drug stores, confectionery stores, and radio retailers showed the greatest gains in volume as compared to last month. Drug, beverage, confectionery, household equipment, and radio set advertising showed the principal gains and gasoline, beauty parlor and grocery store advertising the principal declines as compared to last May. Broadcast advertising by retail establishments will be found in Table VII.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3168. Alleging false and misleading representations in the sale of a study course intended to prepare pupils for United States Social Security Counselors, Clement A. DeGrace, trading as Social Security Counselors, 220 Broadway, New York, and Harry Saelhoff, president and owner of practically all capital stock of the respondent company.

According to the complaint, certain fountain pens sold by the respondents were advertised in a manner simulating the stamping and marking as seen on solid gold pen points of 14 carats fineness. These markings allegedly conveyed the impression that such articles were composed of some kind of gold or gold alloy of 14 carats in fineness. “Durpoint 14 KT Gold Plate” was imprinted on the points of certain of the respondents’ pens. The words “Gold Plate” appeared below and at such distance from the figures and letters “14 KT” that when a point was inserted to a sufficient degree within the barrel of a pen, the words “Gold Plate” were completely or almost completely concealed and the legend “Durpoint 14 KT” alone remained visible.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01740. People’s Drug Stores, Inc., Washington, D. C., in its stipulation, agrees to stop representing that Thompson’s Effervescent Aspirin Compound Tablets are an effective remedy for colds, and that they will relieve pain, unless there appears in such representation an explanation of the causes of pain which can be relieved thereby. The tablets will no longer be advertised as an effective remedy for colds, unless this is expressly limited to over-acidity of the stomach. The respondent admits that while its preparation would have some mild analogic effect due to the contained aspirin, and would temporarily reduce gastric acidity through its alkaline properties, it is not a competent treatment or an effective remedy for colds, nor will it affect over-acidity, except in the stomach.

No. 01741. The Kendall Co., 2500 South Dearborn St., Chicago, trading as Bauer & Black, and engaged in selling a hand lotion called Velure Lotion, stipulates that it will no longer advertise this preparation as a recent scientific discovery containing two ingredients new to hand lotions, or as capable of softening the hands in 15 seconds, or that Velure Lotion will miraculously transform work-roughened hands into white, soft things of beauty. The respondent admits that Velure has value as a hand lotion, and that although one of its ingredients is in a form unusual in such lotions, Velure is not a preparation newly or recently discovered or possessing ingredients radically different from other hand lotions.

No. 01742. W. K. Sterline, 830 Ohio Ave., Sidney, Ohio, in the sale of an asthma treatment, will cease advertising that his preparation will remove the cause of asthma or hay fever, or that it will do any more than give temporary relief from the paroxysms of asthma and the symptoms of hay fever. The respondent agrees that in promoting the sale of his medicine as a palliative for or as a relief from asthma and hay fever symptoms, he will assert neither directly nor by inference that the preparation is safe, unless it is explained that the preparation is not intended for use by persons having tuberculosis.

No. 01743. Charles H. Birnbaum, trading as Star Book & Novelty Co., Camden, N. J., selling books, herbs, roots, curios, perfume and incense powder, agrees to stop representing that the roots or herbs sold, or any combination thereof, comprise a cure or competent treatment or remedy for some 90 listed diseases or conditions, and that the reading or studying of any book sold by the respondent will enable one to rise above his present surroundings, giving him efficiency, intellectual supremacy, or influence.

No. 01744. Phoenix-Powers Co., Haddonfield, N. J., distributor of the wheat germ oil preparation designated E-Now, stipulates that it will cease representing that E-Now is of value in cases of lack of vigor, unless this is expressly limited to lack of vigor due to Vitamin E deficiency, or that E-Now is a concentrate of Vitamin E. The respondent company admits that E-Now contains a considerable number of Vitamin E units, but that such vitamins cannot be concentrated, and that administration of Vitamin E, while producing certain specific effects, has no effect on physical vigor generally.

No. 01745. W. A. Orr, trading as Orr Health System and Orr Health Service, 2501 Glenmary St., Louisville, sells “Printed Instructions Regarding Diet and Exercises as a Relief for Constipation”. In his stipulation, Orr agrees to stop asserting that his system or service provides a competent remedy in the treat-
ment of constipation or indigestion, unless such assertions are clearly qualified to indicate that there are many cases in which beneficial results may not be expected. He will cease asserting that the system is based on natural or scientific principles, and that by following his instructions, constipation will be eliminated, and the eliminative system can be made normal or can be corrected. The respondent admits that, according to reliable medical authorities, his exercises and diet, as outlined, are of benefit only in certain cases of constipation, and that in some cases harmful effects may result from following his instructions.

No. 01746. E. L. Leisenring, trading as U. S. Drug & Sales Co., 1334 Lawrence St., Denver, will discontinue the assertion that his Special Vitality Tablets are compounded from powerful glandular substances properly balanced with other active ingredients, and that the product is made by registered pharmacists. Leisenring also agrees to stop asserting that his preparation is to be used in renewing the entire system, or that its use results in healthy and active glands.

No. 01747. Floratone Company, 2512 West 7th St., Los Angeles, selling Floratone, will cease advertising it as being capable of freeing one from mucous colitis, relieving gaseous stomach trouble, and making one feel like a "new man." The respondent will also cease asserting that Floratone may be used safely to "normalize" the chemistry of the colon by providing a suitable environment that invites the growth of "friendly bacteria", at the same time tending to retard disease-producing germs. Another assertion to be discontinued is that 17 cents a day or the cost of a full month's treatment of "Floratone", is the cost of better health and a longer life.

No. 01748. A. B. Mueller and A. L. Trader, operating as N. R. S. Company, 4221 East 31st St., Kansas City, Mo., in the sale of Vigorsol and Conditioner, agree to stop representing that Vigorsol is a prostate remedy capable of giving quick and positive results in home treatment, and that the Conditioner is harmless, or that it will eliminate toxins, purify the blood and maintain a free intestinal tract.

No. 01749. Johnston, Holloway & Co., 1728 Spring Garden Road, Philadelphia, selling Alergene, will stop representing this product as a competent treatment for allergy, unless this is limited to the symptom of hay fever, and of lack of unsaturated fatty acids. The respondent company admits that, according to reliable medical opinion, although Alergene contains certain ingredients which may aid in cases involving allergic conditions, it is not indicated in the treatment of allergy generally, nor will it reach or remedy the cause of any disease not due to fatty acid deficiency.

No. 01753. Trading as Spark Plug Service Co., Joseph and Mayer Krawetz, 977 Rondo St., St. Paul, Minn., have entered into a stipulation to stop certain false and misleading representations in the sale of reconditioned spark plugs for automobiles.

Representations to be discontinued are that the respondents operate the largest rebuilt spark plug factory in the world; that their rebuilt spark plugs will give perfect performance for 10,000 miles, or that their products are individually tested and perform with the efficiency of new spark plugs.

No. 01755. Agreeing to discontinue certain false and misleading representations in the sale of an electro-therapeutic device, William K. Beyer and Emil R. Hahnewald, trading as Beyer Manufacturing Co., 4653 Lincoln Ave., Chicago, have entered into a stipulation.

The device, known as "Tropic Sun", will no longer be advertised as capable of building up resistance to colds and other winter ailments, according to the stipulation, and it will not be asserted that the rays of this lamp are deeply penetrating, or constitute a competent treatment or effective remedy for scalp disorders, polyneuritis, neuritis, influenza, rheumatism and arthritis.

No. 2412. An order has been issued vacating and setting aside its order to cease and desist issued July 8, 1936, against Raritan Distillers Corporation, Perth Amboy, N. J. The Commission also ordered that prosecution of the original complaint in this case be resumed.

The order to cease and desist of July 8, 1936, prohibited the representation, through use of the word "distillers" in the respondent company's corporate name, on stationery, in advertising or on labels, that the respondent company was a distiller of alcoholic beverages.

No. 2795. An order to cease and desist has been issued against Harvey E. Wagley, trading as Federal Civil Service Training Bureau, 508 South Dearborn St., Chicago, directing discontinuance of certain false and misleading representations in the sale of correspondence courses designed to prepare students for Civil Service examinations. Wagley is ordered to stop representing, through use of the words "Federal" or "Bureau", or the term "Civil Service", or other terms with the same meaning, that his business is a part of or is connected with the United States Government or the United States Civil Service Commission.

No. 2800. Canterbury Candy Makers, Inc., 93 Marion St., Seattle, Wash., has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondent company from packing in assortments boxes of candy together with punchboard devices which may be used by the consumer to obtain the candy to the public at retail.

No. 2835. Under an order the Imperial Candy Co., Seattle, Wash., is directed to cease and desist from selling and distributing to dealers candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent company also is ordered to discontinue furnishing to dealers punch boards, either with assortments of candy or separately, bearing legends informing the purchasing public that the candy is being sold by lot or chance.

No. 2950. Toplin Studios, Inc., 2129 West Van Buren St., Chicago, has been ordered to discontinue certain false and misleading representations in the sale of chinaware. The respondent company is a processor and decorator of foreign and domestic made undecorated chinaware.

The order prohibits the respondent company from branding, labeling, and packing chinaware from another company to appear on its chinware products, or causing such products to be represented as Limoges china or chinaware when they have not originated or been manufactured in the city of Limoges, France.

No. 3037. Civil Employees Training, Inc., 9th and Chestnuts Sta., Cleveland, and three of its officers, have entered into a stipulation to discontinue certain false and misleading representations in the sale of a correspondence course designed to prepare students for taking Civil Service examinations.

The case was closed for the reason that Biloxi Oyster Exchange has been dissolved and its charter surrendered.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in connection with broadcast cases for the week beginning July 19. The Broadcast Division has taken the following action, subject to ratification at its next regular meeting:

APPLICATIONS GRANTED

WMBO—WMBO, Inc., Auburn, N. Y.—Granted extension of program test period 30 days from July 11, 1937.

KVG—Earnest Edward Ruehlan, Great Bend, Kans.—Granted authority to discontinue operation for period not to exceed 10 days in accordance with Rule 151.

WEB—Head of the Lane Broadcasting Co., Duluth, Minn.—Granted special temporary authority to rebroadcast over radio station WEB conversation carried on between experimental station W5XAR and W5XAS of the Western Radio Telegraph Co., for the period not to exceed 1 hour between July 10 and 16, flying weather permitting.
WEAU—Central Broadcasting Co., Eau Claire, Wis.—Granted special temporary authority to rebroadcast over WEAU as above for period of not more than 1 hour between July 10 and July 15, flying weather permitting.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—Granted special temporary authority to rebroadcast over radio station KROC a balloon flight into the stratosphere by Dr. Jean Piccard at Rochester, Minn. (W9XUH from the balloon and W9XUG from the ground), for the period ending no later than July 20, 1937.

**MISCELLANEOUS**

KALB—Alexandria Broadcasting Co., Inc., Alexandria, La.—The Broadcast Division directed that a modification of license to change frequency from 1420 kc. to 1210 kc., and time from daytime to unlimited, using 100 watts, be issued to KALB, in conformity with its action of April 27, 1937, inasmuch as the applicant has complied with the proviso contained therein.

Granted petition of William F. Maag, Jr., to intervene in the proceedings upon the application of Alexandria Broadcasting Corp., Youngstown, Ohio, for modification of C. P., Docket 4593.

Granted petition of State Broadcasting Corp. to intervene in the proceedings upon the application of WSMN, Inc., for new station at New Orleans, La., Docket 4530.

Granted petition of Colonial Broadcasters, Inc., to intervene in the proceedings upon the application of Arthur Lucas for new station at Savannah, Ga., Docket No. 4563.

Granted petition of Savannah Broadcasting Co., Inc. (WTOC), to intervene in the proceedings upon the application of Arthur Lucas for new station at Savannah, Ga., Docket No. 4563.

Granted petition of Wm. E. Walker and Merrill F. Chapin, d/b a Walker & Chapin, for a continuance of the hearing upon their application for C. P. for new station at Oshkosh, Wis., Docket No. 4588, and directed that said hearing be continued until September 24, 1937.

Granted motion of Athens Times, Inc., Athens, Ga., for a continuance of the hearing upon its application for C. P. for new station, Docket No. 4534, and directed that said hearing be continued until September 29, 1937.

Granted petition of Durham Radio Corp. (WDNC) to correct error in its application for C. P., Docket 4528, without affecting the hearing date thereof, and denied the petition of the Monumental Radio Co. for postponement of said hearing.

Extended the effective date of its order of May 18, 1937, in granting the application of the Hartford Times, Inc. (WTHT), for modification of C. P., Docket 3971, and denying the application of S. George Webb for modification of C. P., Docket 3857, and the application of E. Anthony & Sons, Inc., for C. P. for new station at Pawtucket, R. I., Docket 3856 (Ex. Rep. 1-303), from July 6 to July 20, 1937.

 Denied motion of the Ward Optical Company for continuance of the hearing upon the application of Harry Schwartz for C. P. for new station at Tulsa, Okla., Docket 4556, and dismissed the protest of Harry Schwartz to the grant of said application.

 Denied petition of F. M. Gleason, d/b as North Georgia Broadcasting Co., to withdraw his application for C. P. for new station at Rossville, Ga., Docket 3978, without prejudice, and directed that said application be dismissed with prejudice, as follows:

 Upon consideration of the application, record and evidence in this case, Ex. Rep. No. 1-396, and the exceptions thereto, the Broadcast Division this day found that public interest, convenience and necessity would not be served by granting the application of F. M. Gleason, d/b as North Georgia Broadcasting Co., for C. P., and enters its final order dismissing same with prejudice in the following case (Examiner recommends to the Commission):

 Granted the motion of Coliseum Place Baptist Church, New Orleans, La. (WBNO), and Charles C. Carlson, New Orleans, La. (WJWB), for continuance of hearing in so far as said motions apply to the applications of the Coliseum Place Baptist Church for C. P., Docket 4580, renewal of license, Docket 4508, and assignment of license, Docket 4468, and the applications of Charles C. Carlson for C. P., Docket 4204, and renewal of license, Docket 4330, and the application of Southern Broadcasting Corp. for C. P. for new station at New Orleans, Docket 3999, and directed that said hearing be continued until September 21, 1937; denied said motions in so far as they apply to the application of the Standard Life Ins. Co. of the South for C. P., Docket 4510, and dismissed the opposition of the Standard Life Ins. Co. of the South to the motion of the Coliseum Place Baptist Church.

NEW—Robert Noble and J. Earl Sater, Los Angeles, Calif.—Dismissed petition requesting rehearing by the Commission on banc upon the application of the Beverly Hills Broadcasting Corp. (KMPC) for transfer of control.

**APPLICATIONS RECEIVED**

### First Zone

WIBX—WIBX, Inc., Utica, N. Y.—Modification of construction permit (B1-P-1426) to install new transmitter and vertical antenna, change power from 100 watts, 300 watts day to 100 watts, 250 watts day, and move transmitter, requesting extension of completion date from July 7 to July 10 to September 29, 1937.

NEW—Young People's Association for the Propagation of the Gospel, Philadelphia, Pa.—Construction permit for a new broadcast station to be operated on 1220 kc., 1 KW power, unlimited time. Using directional antenna day and night.

NEW—C. J. MacGregor, Port Newark, N. J.—Construction permit for a new experimental broadcast station on frequencies 2998, 3492.5, 4797.5, 6425, 8655, 12862.5, 17310, 21100, 34600, 37600, 40600, 86000 to 400000 kc., power of 400 watts.

NEW—C. J. MacGregor, Port Newark, N. J.—License to cover the above.

### Second Zone

WFIL—WILL Broadcasting Co., Philadelphia, Pa.—Construction permit 560 to install a new transmitter, directional antenna for day use and increase power from 1 KW to 1 KW nighttime and 5 KW day.

NEW—WWPO, Incorporated, Pittsburgh, Pa.—Construction permit for a new broadcast station to be operated on 1120 kc., 250 watts power, unlimited time. Use directional antenna day and night. Amended: To give transmitter site at Troy Hill Road, Pittsburgh, Pa.

WJIM—Harold F. Gross, Lansing, Mich.—Construction permit to 1210 to install new transmitter.

### Third Zone

KRKV—KRKV Incorporated, Weslaco, Texas.—Authority to 1200 transfer control of corporation from M. S. Niles to O. L. Taylor, Gene Howe and T. E. Snowden, 320 shares of common stock.

NEW—J. F. Rodgers, Harlingen, Texas.—Construction permit for a new station to be operated on 1370 kc., 100 watts power, 250 watts power day, unlimited time.

NEW—Lamar Life Insurance Co., Jackson, Miss.—Construction permit to erect a high frequency relay broadcast station on frequencies 21100, 34000, 37600, 40000 kc., 2 watts power. Amended: To omit frequency 31100 kc. and add 31100 kc.

### Fourth Zone

WGN—WGN, Incorporated, Chicago, Ill.—Construction permit to 720 to install a new transmitter, erect a vertical antenna, move transmitter from Villa Road, about 4 miles East of Elgin, Ill. to Rohling Road, 2 1/2 miles S. E. of Schaumberg, Illinois, and studio from 445 North Michigan Ave., to 441 N. Michigan Ave., Chicago, Ill.

WBLI—State of Wisconsin, Dept. of Agriculture and Markets, Stevens Point, Wis.—Modification of construction permit (B4-P-1220) as modified, for new equipment, increase in power, change in hours of operation and move of transmitter, further requesting move of transmitter from 1 mile S. of Auburndale, Wis., to 1 mile S. W. of Auburndale, Wisconsin.
WMIN—Edward Hoffman, tr/as WMIN Broadcasting Co., St. Paul, Minn.—Assignment of license from Edward Hoffman, tr/as WMIN Broadcasting Company to WMIN Broadcasting Co.

KSTP—National Battery Broadcasting Co., St. Paul, Minn.—Construction permit for a new transmitter and install directional antenna for day and night use, increase power from 10 KW, 25 KW day to 50 KW day and night.

Fifth Zone

KVI—Puget Sound Broadcasting Co., Inc., Tacoma, Wash.—Authority for involuntary transfer of control of corporation from Edward M. Doernbecher, deceased, to Laura M. Doernbecher, Executrix of the estate of Edward M. Doernbecher, 996 shares of common stock.

NEW—Floyd A. Parton, San Jose, Calif.—Construction permit for a new station to be operated on 1330 kc., 250 watts power, daytime operation. Amended to change frequency from 1330 kc. to 1170 kc.

KSUB—Harold Johnson and Leland M. Perry, d/b as Johnson & Perry, Cedar City, Utah.—License to cover construction permit (B5-P-841) as modified for new station.

NEW—Louis P. Thornton, Baker, Ore.—Construction permit for a new broadcast station to be operated on 1500 kc., 100 watts power night, 250 watts power daytime, unlimited hours of operation.

Hawaiian Zone

KGU—Marion A. Mulrony and Advertiser Publishing Company, Ltd., Honolulu, T. H.—License to cover construction permit (B-P-1312) as modified for changes in equipment.

Puerto Rican Zone

WPRA—Puerto Rico Advertising Co., Mayaguez, P. R.—License to cover construction permit (B-P-668) as modified for a new station.
HOOD EDUCATIONAL BROADCASTS, INC.

Members are urged to refrain from entering into any agreements with Hood Educational Broadcasts, Inc., of New York City, pending a careful investigation of the service. The NAB is requesting this organization to furnish it with full particulars concerning the offer which they have made to broadcasting stations.

INCREASED TIME AND POWER RECOMMENDED FOR WORL

Broadcasting station WORL, Boston, Mass., operating on 920 kilocycles, 500 watts, daytime, applied to the Federal Communications Commission to increase its power to 1,000 watts and its time to unlimited.

Examiner Davis G. Arnold, in Report No. I-460, recommended that the application be granted. He found that there is need for additional nighttime service in the Boston area, and states that the granting of the application would not cause objectionable interference. The Examiner states that it would be in the public interest to grant the application.

RECOMMENDS DENYING NEW STATION

The Ann Arbor Broadcasting Company, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Ann Arbor, Mich., to use 1550 kilocycles, 1,000 watts, unlimited time.

Examiner George H. Hill, in Report No. I-461, recommended that the application be denied. He found that the area proposed to be served "receives satisfactory service from broadcast stations now rendering service in this area." The Examiner states that the proposed station would cause some interference and it would also be subject to interference from an engineering standpoint.

MINNESOTA STATION CHANGES RECOMMENDED

Broadcasting station WLB, Minneapolis, Minn., applied to the Federal Communications Commission to change its frequency from 1250 to 760 kilocycles, to increase its power from 1,000 to 5,000 watts and to change its hours from specified to sharing time with WCAL (7/3 daytime). Also station WCAL, Northfield, Minn., applied to the Commission to change its frequency from 1250 to 760 kilocycles, and increase its power from 1,000 and 2,500 watts LS to 5,000 watts and from specified hours to sharing with WLB (7/3 daytime). Also station WTCN, Minneapolis, Minn., now operating on 1250 kilocycles, 1,000 watts and 5,000 watts LS on specified hours, asked the Commission for unlimited time.

Examiner P. W. Seward, in Report No. I-463, made the following recommendations:

1. That the application of Station WLB, Docket No. 4147, for authority to operate on the frequency 760 kilocycles with power of 5 KW, daytime to local sunset, in accordance with the tentative time-sharing agreement heretofore entered into between Stations WLB and WCAL, be granted, subject to compliance by the applicant with the provisions of Section 303 of the Communications Act of 1934.

2. That the application of Station WCAL, Docket No. 4149, for authority to operate on the frequency 760 kilocycles with power of 5 KW, daytime to local sunset, in accordance with the tentative time-sharing agreement heretofore entered into between Stations WCAL and WLB, be granted, subject to compliance by the applicant with the provisions of Section 303 of the Communications Act of 1934, and the approval by the Commission of the transmitter site.

3. That the application of Station WTCN, Docket No. 4148, for authority to operate unlimited time on the frequency 1250 kilocycles, be granted if the applications of Stations WLB and WCAL are granted. In the event the applications of Stations WLB and WCAL be denied, it is recommended that the application of Station WTCN be denied.

RECOMMENDS NEW INTERNATIONAL BROADCAST STATION

The General Electric Company has applied to the Federal Communications Commission for a construction permit for the erection of a new international broadcast station to be located at Belmont, Calif., to use 9530 and 13330 kilocycles, 20,000 watts power and to operate unlimited time on the air.

Examiner George H. Hill, in Report No. I-462, recommends that the application be granted, "subject to compliance with Rule 983." He found that the company will render an international broadcast service and states that "the applicant has a program of research and experimentation which indicates reasonable promise of substantial contributions to the development of international broadcast service."

FREQUENCY CHANGE RECOMMENDED FOR WIOD-WMBF

Broadcasting station WIOD-WMBF, Miami, Florida, operating with 1,000 watts, unlimited time, applied to the Federal Communications Commission to change its frequency from 1300 to 610 kilocycles.

Examiner R. H. Hyde, in Report No. I-464, recommended that the application be granted. He states that the changed frequency would not cause any interference and also that "the use of the new frequency assignment applied for herein would contribute substantially toward an extension and improvement of the present service of the applicant's station, which the Commission has here-tofore found to be in the public interest in licensing the station."

RECOMMENDS NEW CLEVELAND STATION

The Food Terminal Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Cleveland, Ohio, to use 1500 kilocycles, 100 watts and daytime operation.

Examiner John P. Bramhall, in Report No. I-458, recommended that the application be granted. He found that there is a need for additional service of the type proposed by the applicant in the area proposed to be served. The Examiner states that the interests of Station WJBK "will not be adversely affected by reason of interference, should this application be granted" and that the granting would be in the public interest.

INCREASED POWER RECOMMENDED FOR WBCM

Broadcasting Station WBCM, Bay City, Mich., operating full time on 1410 kilocycles with 500 watts power, applied to the Federal Communications Commission to have its power increased to 500 watts night and 1,000 watts day.

Examiner Robert L. Irwin, in Report No. I-459, recommended that the application be granted. He states that there is need for additional daytime service in the area proposed to be served and that "the daytime operation of Station WBCM with the power of 1,000 watts would not cause objectionable interference to the normally protected good service areas of Stations WROK, WELL, and WMBC, or any other licensed stations."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

1. Charging unfair competition in the sale of sales promotion cards for use by retail merchants, a complaint has been issued against Edward and Dorothy Harris, 417 South Dearborn St., Chicago, trading as Ace Business Builders.
2. Charging unfair competition in the sale and distribution of hosiery, a complaint has been issued against May Hosiery Mills, Inc., Burlington, N. C.
3. Charging unfair competition in the sale of sales promotion cards sold by the respondents were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of merchandise to the consuming public, according to the complaint. Several groups of such cards are manufactured by the respondents, all allegedly involving the same lottery scheme.
4. Charging unfair competition in the sale and distribution of hosiery, a complaint has been issued against Dorothy Harris, 417 South Dearborn St., trading as Ace Business Builders.
5. Charging unfair competition in the sale of sales promotion cards sold by the respondents were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of merchandise to the consuming public, according to the complaint. Several groups of such cards are manufactured by the respondents, all allegedly involving the same lottery scheme.
6. Charging unfair competition in the sale and distribution of hosiery, a complaint has been issued against May Hosiery Mills, Inc., Burlington, N. C.
7. Charging unfair competition in the sale of sales promotion cards sold by the respondents were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of merchandise to the consuming public, according to the complaint. Several groups of such cards are manufactured by the respondents, all allegedly involving the same lottery scheme.
Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations.

No. 01108. Under a stipulation entered into with French Clinical Laboratory and Supply Depot, 203 College St., San Antonio, Texas, that corporation will abandon certain advertising representations in the sale of its preparation, FFP, French's Foot Powder, sold as a treatment for athlete's foot.

The respondent will no longer advertise that this product will cure athlete's foot and other infections at once, within a few days, or at all; that it will assure quick and permanent relief in treating this ailment and all foot odors, or that it is a sure remedy for these conditions.

No. 01750. Roman Cleanser Company, 9101 Delmar St., Detroit, will cease representing that Roman Cleanser sterilizes combs, brushes and other articles; disinfects or deodorizes, unless this advertising is accompanied by directions that the article to be disinfected or deodorized must first be washed or thoroughly cleaned, and kills germs, unless this representation is limited to oxidizable germs, or qualified by the statement that Roman Cleanser will not kill all germs, including their spores.

No. 01751. Bakon-Yeast, Inc., 4 Staple St., New York; Bakon-Yeast, a vitamin concentrate, for restoring vitamin deficiency.

No. 01753. Ellaine W. Chilvers and Beatrix R. Hoyt, trading as May Medicine Company, formerly W. H. May Laboratory, 546 Pearl St., New York; Dr. May's Formulas, for nervous diseases.

No. 01754. Little & Co., 612 N. Michigan Ave., Chicago; garlic and parsley tablets, for intestinal, kidney, liver and skin disorders.

No. 01755. Shruntrine Company, 31 Barnard St., Savannah, Ga.; Tetrazine, for skin disorders.

No. 01756. Food Balance Corporation, 519 N. Central Ave., Chicago; Sil-Tea and Beverly Hall Cereal Beverage, for digestive disturbances.

No. 01758. Paul Case, trading as Cape Cod Cleanser, Brockton, Mass., stipulated that in the sale of his Cape Cod Cleanser, a comb, brush and cleaning device, he will stop advertising that any ambitious man or woman can average a dozen sales of his product daily in almost any territory, and will discontinue making unmodified claims of earnings in excess of the average earnings achieved by his full-time sales persons or dealers under normal business conditions.

No. 01760. Albert N. Reay and Fraser S. Reay, trading as The Reay Laboratories, P. O. Box 1756, San Francisco; alcoholic extracts of the active principle of the leaves of poison oak, designated Otox and Oakotox, for treatment of ivy poisoning. The respondents also agree to cease using the word "laboratories" in their trade name or otherwise representing that they own or control a laboratory or laboratories.

No. 01761. The Know Company, Chamber of Commerce Building, Los Angeles; Buroids, for anemia, nervousness and constipation.

No. 01762. The Murine Company, Inc., 9 East Ohio St., Chicago; Murine, an eye treatment. The respondent company also agrees to stop using as an endorsement or recommendation of its product any statement of any person connected with its organization, unless the connection of such person with The Murine Company is clearly disclosed.

No. 01764. E. A. Rush, trading as Beeman's Laboratory, 154 Edgewood Ave., Atlanta; Beeman's Quick Relief (B. Q. R.), for colds, coughs, asthma and influenza.

No. 01765. The Hydrosol Company, 333 East 8th St., Cincinnati; Hydrosol Liquid and Hydrosol Ointment, for skin ailments.

No. 01768. M. L. Durham, Cartaghe, Mo.; Silver Seal Treatments, for women's ailments.

No. 01769. Gardiner Manufacturing Company, Inc., 160 Van Rensselaer St., Buffalo, selling a washing fluid designated "101", agreed to discontinue representing that the product is sterile, the only nutritive preparation capable of being washed and offered for sale were silk products; when, according to the complaint, they were not composed of silk but of other materials.

No. 01773. Royal Mfg. Co. of Duquesne, 2632 S. Dearborn St., Chicago; trading as Double "D" Laboratories; Vita-Mín-OL, for digestive disturbances.

No. 01774. Dr. Van Vleck Company, Jackson, Mich.; Muco Cones, Absorbent Plasma and Herb Tablets, for digestive disturbances, colds, rheumatism and piles.

No. 01775. Thornton & Minor Clinic, 926 McGee St., Kansas City, Mo.; Private Formula Rectal Ointment, for piles.

No. 01777. F. D. Telling, trading as The K-Lindy Products Company, 5713 Euclid Ave., Cleveland; Lindy Lotion, for skin ailments.

No. 01778. Schering Corporation, Bloomfield, N. J.; Saraka, a laxative.

No. 01779. The Hood-Lax Corporation, 132 W. 31st St., New York; Hood-Lax, a laxative.

No. 01797. Affiliated Products, Inc., 4316 North Kilpatrick Ave., Chicago, agreed to cease advertising that Outdoor Girl Face Powder has olive oil, or that it is the only base containing olive oil; that it prevents or overcomes drying, wrinkling or aging of the skin, and has been ordered by Hollywood make-up experts as standard cosmetic equipment in the dressing rooms of stars in the Warner Bros.-First National Studios. The respondent company also will stop representing that the product is pure and safe "beyond question" or that it is safe for the most delicate skin.

No. 01788. Tinytone Radio Co., Kearney, Neb., has entered into a stipulation to discontinue certain unfair representations in the sale of Tinytone Pocket Radios and Tinytone Midget Portable Radios.

Among representations used in advertising which are to be abandoned by the respondent company are: That the pocket radios have a range of 50 miles or greater under favorable conditions; that they are all-wave sets capable of being used everywhere and of working without aerials, and that they may be used to tune in on all short waves for all police or all airplane calls and may be employed while walking or while riding in cars or on bicycles, unless this latter representation is qualified to indicate the equipment and conditions necessary to produce these results.

No. 01799. Hoffman-La Roche, Inc., Nutley, N. J., in the sale of Cal-C-Malt, will discontinue advertising that the product is a safeguard against dental caries, diseased gums or pyorrhea and protects against infection, colds, sore throat, or anemia, will be stopped, unless such claims are limited to conditions due to or associated with vitamin C deficiency.

No. 01800. C. A. Montgomery and C. F. Aldrich, trading as Aldrich & Montgomery, 492 Otis Ave., St. Paul, Minn., have entered into a stipulation to cease false and misleading representations, promoting the sale of photographs and frames by means of contests.

The respondents agree to stop representing that an answer to a "scrambled name" puzzle contained in contact advertisements or in radio broadcasts is alone sufficient to qualify a person to participate in any of their contests, and that neither payment of money nor the purchase of frames is required in order to qualify a person for participation in the contests, unless such is a fact.

No. 01926. Roy J. Troutman, Shamokin, Pa., trading as G. E. Laboratories and as Great Eastern Laboratories, has entered into a stipulation to discontinue certain unfair methods of competition in connection with the sale of Dr. Bayer's Horehound Cough, Balsam, and Cough Drops.

Troutman agreed to cease using the name "Dr. Bayer's" in his trade name, and the abbreviation "Dr." or the word "Bayer's" in advertising or in labeling his product so as to imply that such product is made by The Bayer Company, Inc., of New York City,
which for many years has manufactured and sold “Bayer Genuine Aspirin.”

No. 2542. An order prohibiting certain unfair methods of competition, including false disparagement of competitors’ products, has been entered against Robert C. Hoffman, York, Pa., trading as York Bar Bell Co., Strength & Health Publishing Co., and York Athletic Supply Co. Hoffman deals in athletic goods, sells a course of lessons in physical training and publishes a magazine entitled “Strength and Health.” In advertising his athletic apparatus and course of training, the respondent, it was found, used two portraits of himself, one of which was a photograph taken just after a serious illness which had reduced his weight by about 40 pounds, and the other taken some 20 weeks later, together with the assertion that he had increased his weight from 210 to 250 pounds by use of York bar bell exercises. According to the findings, a substantial part of the gain in weight and in physical development was due to his recovery from the illness caused by an automobile accident.

It was found that the respondent also used pictures of certain well-developed individuals in such a manner as to mislead prospective purchasers of physical training courses into the belief that such individuals attained their development through use of the respondent’s system, when such was not a fact.

No. 2770. The Coolerator Company, Duluth, Minn., engaged in the sale of refrigerators in which natural or artificial ice is used as the cooling element, has been ordered to cease and desist from unfairly disparaging mechanical or electrical refrigerators sold by competitors.

Findings in the case are that certain representations made by the respondent corporation in its advertising matter were false, misleading or insufficiently qualified, and have had a tendency to mislead the public into the erroneous belief that mechanical refrigerators are undesirable and ineffective in use and harmful and dangerous to users.

No. 2801. An order to cease and desist has been issued against The Times Sales Co., Inc., 1524 Chestnut St., Philadelphia, prohibiting certain unfair methods of competition in the sale of encyclopedias, revision and research services and magazine subscriptions.

The Commission’s order prohibits the respondents’ practice of effecting sales by holding or attempting to hold signers to the printed terms of contracts signed by them, irrespective of the alterations made in such printed terms by the respondents’ selling agents pursuant to understandings between the agents and purchasers and by which the purchasers are induced to sign.

Findings are that certain of the respondents’ agents represented to purchasers that they had authority to alter the printed terms and provisions of the contract with respect to time and terms of payment and with respect to substitution of magazines for those named in print in the contract. Pursuant to such representations, such alterations were made, but in these instances, the respondents, upon receipt of the signed contract, proceeded to its performance and enforcement the same as if binding only in accordance with the printed terms and provisions and not affected by the changes by which the purchaser’s signature was induced. In line with this practice, the respondents, it was found, threatened signers to such contracts with suit and otherwise falsely represented that the contracts were enforceable and enforceable according to the printed terms, regardless of the alterations made in writing over such printed terms.

No. 2834. Rogers Candy Co., 4547 University Way, Seattle, Wash., has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers may be made by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondents from using any pictures in the same assemblies for sale to the public at retail, boxes of candy together with punchboard devices which may be used in the retail sale of candy to the public.

Nos. 2937-2935-3030-3032. Disposition of four cases involving alleged violations of the Robinson-Patman Act has been announced. In two cases, orders to cease and desist were entered, and are the first such orders entered by the Commission under that Act. The two other cases were dismissed.

An order to cease and desist was entered against the Biddle Purchasing Company, New York City, and a group of sellers who paid brokerage fees to that company and a group of buyers who receive such fees from it. The other order to cease and desist was entered against the Hollywood Hat Company, Inc., New York City.

Respondents in one of the cases dismissed were Bird & Son, Inc., and the Bird Floor Covering Sales Corporation, both of East Walpole, Mass., and Montgomery Ward & Co., Inc., Chicago. The second case dismissed was against Kraft-Phenix Cheese Corporation, Chicago.

The complaint in the Biddle case charged the respondents with violation of the so-called brokerage section of the Robinson-Patman Act. The order requires the sellers to discontinue paying to the Biddle Purchasing Company any commissions on sales of commodities by the respondents as an allowance or in lieu thereof, which commission is intended to be paid over by Biddle to any purchaser of such commodities. The buyers are ordered to cease accepting from the Biddle company any commission which has been paid to it as brokerage, or as an allowance in lieu thereof, by a seller of commodities on sales made by such seller to the buyers.

In the Kraft-Phenix case, the Commission’s order prohibits the respondents’ practice of paying to any purchaser any brokerage commissions if such commissions are intended to be paid over to the buyer or to be applied for his use and benefit; and also from paying to any purchaser of commodities any commission received as brokerage from the seller.

FTC DISMISSES CASE

No. 2758. The Federal Trade Commission has dismissed its complaint charging William Freihofer Baking Co., 20th St. and Indiana Ave., Philadelphia, with unfair competition through false representations in the sale of bread.

Findings in the case are that certain representations made by the respondent corporation in its advertising matter were false, misleading or insufficiently qualified, and have had a tendency to mislead the public into the erroneous belief that mechanical refrigerators are undesirable and ineffective in use and harmful and dangerous to users.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in Washington for broadcast cases during the week beginning Monday, July 26. The following broadcast hearing is set for the field.

Tuesday, July 27

FURTHER HEARING BEFORE AN EXAMINER

(Broadcast)

To Be Held in Prescott, Arizona

NEW—Southwest Broadcasting Co., Prescott, Ariz.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited.

NEW—W. P. Stuart, Prescott, Ariz.—C. P., 1500 kc., 100 watts, unlimited time.

The Broadcast Division has taken the following actions subject to ratification at its next regular meeting:

APPLICATIONS GRANTED

KXRO—KXRO, Inc., Aberdeen, Wash.—Granted extension of equipment test period ten days from July 15, 1937.

WPRA—Puerto Rico Advertising Co., Mayaguez, P. R.—Granted extension of program period test period 30 days from July 20, 1937.

WDRC—Radio Station WDRC, Hartford, Conn.—Granted authority to operate antenna WDRC alternately series and shunt excited for 15 days.

KGU—Marion A. Mulroney and Advertiser Publishing Co., Ltd., Honolulu, T. H.—Granted extension program test period 30 days from July 10, 1937.

W8XPW—WHIC, Inc., Rochester, N. Y.—Granted special temporary authority to operate mobile high frequency relay-broadcast transmitter on July 14, 15, and 16, 1937.

WDZ—WDZ Broadcasting Co., Tuscola, Ill.—Granted extension special temporary authority to operate from 5 to 6 a.m., EST, period July 15 and ending no event later than July 31, 1937, in order to reach farmers in territory surrounding WDZ who are in their fields during summer months by 5 a.m.

WTAR—WTAR Radio Corp., Norfolk, Va.—Granted special temporary authority to operate with directional antenna at will during daytime, using 1 KW power, for period not to exceed two weeks, in order to facilitate field strength measurements on coverage and to show change in field radiated in various directions.

WJAR—The Outlet Company, Providence, R. I.—Granted extension special temporary authority to operate 1-KW auxiliary transmitter as regular transmitter, for period July 19 and
ending no later than August 17, pending installation of new 5-KW transmitting equipment, as authorized under C. P. WNB—Memphis Broadcasting Co., Memphis, Tenn.—Granted special temporary authority to rebroadcast program material originating from temporary relay broadcast stations WAXB and WAXC, granted to and operated by Alfred J. Williams, for the broadcast of radio control acrobatics from an airplane flying over the vicinity of Memphis, on July 17. WGV—Glenn Van Aubelen, Redmond, Ore.—Granted special temporary authority to operate a 25-watt transmitter on 1050 kc., during daytime hours, for period not to exceed 10 days, in order to make field strength measurements to locate site for WGVTA transmitter, provided no interference caused to other stations.

WKAT—A. Frank Katzeninte, Miami Beach, Fla.—Granted modification of C. P. to make changes in authorized equipment, approval of antenna (vertical), and transmitter and studio at Dade Blvd. and Bay Road, Miami Beach, Fla.

WICA—C. A. Rowley, Ashtabula, Ohio.—Granted modification of C. P. to change type of equipment and approval of studio site at 221 Center St., Ashtabula, Ohio, and transmitter site 3 miles south of Ashtabula, on Jefferson Road, on R. Humphrey Farm, Ashtabula.

MISCELLANEOUS

In the matter of the application of Edwin A. Kraft, Petersburg, Alaska, for C. P., on which an order was heretofore entered on July 15, 1937, the Broadcast Division adopted and published a statement of facts and grounds for decision.

In the matter of the application of Owensboro Broadcasting Co., Owensboro, Ky., for C. P., on which an order was heretofore entered on June 15, 1937, the Broadcast Division adopted and published a statement of facts and grounds for decision.

In the matter of the application of The Nation’s Center Broadcasting Co., Inc. (KWBG), Hutchinson, Kans., for C. P., on which an order was heretofore entered on May 18, 1937, the Broadcast Division adopted and published a statement of facts and grounds for decision.

In the matter of the application of The Yankee Network, Inc. (WAAB), Boston, Mass., for modification of license, on which an order was heretofore entered on May 18, 1937, the Broadcast Division adopted and published a statement of facts and grounds for decision.

In the matter of Harold M. Finlay and Eloise Finlay, La Grande, Ore., for C. P., on which an order was heretofore entered on June 15, 1937, the Broadcast Division adopted and published a statement of facts and grounds for decision.

Granted petition of Attala Broadcasting Co. (WHFF) to intervene in the proceedings in the application of Standard Life Ins. Co. of The South for a new station at Jackson, Miss., Docket 4510.

Denied petition of the Ventura County Star and Merced Star Publishing Co., Inc., for a 90-day extension of the effective date of the Commission’s decision upon its application for C. P. for new station, Ventura, Calif., Docket No. 3469.

Granted the petition of Pacific Radio Corp. (KOOS), Marshallfield, Ore., for an extension of time until August 3, 1937, within which to file exceptions to Examiner’s Report No. 1-453, upon its application for voluntary assignment of license, Docket 4475.

Denied motion of Milwaukee Broadcasting Co. (WEMP), Milwaukee, Wis., to withdraw its application for C. P. without prejudice, Docket No. 3892, and entered its final order dismissing same with prejudice, as follows:

The Commission, having heretofore entered its order denying the following application and the applicant having subsequently requested withdrawal of the application without prejudice, denied the petition to withdraw without prejudice, and upon the basis of statements contained in the verified petition, this day entered its final order as indicated herein:

WEMP—Ex. Rep. 1-315: Milwaukee Broadcasting Co., Milwaukee, Wis.—Dismissed with prejudice application for C. P. to install new equipment; change frequency from 1310 kc. to 1010 kc.; increase power from 100 to 250 watts night, 500 watts day; and change hours of operation from daytime to unlimited.

The order as herein entered shall be effective at 3 a. m., EST, July 14, 1937.

EXAMINERS’ REPORTS RELEASED SINCE JULY 13, 1937

NEW—Ex. Rep. 1-458: Food Terminal Broadcasting Co., Cleveland, Ohio.—Examiner John P. Bramhall recommended grant of C. P. for new station to operate on 1500 kc., 100 watts, daytime.

WBBC—Ex. Rep. 1-459: James E. Davidson, Bay City, Mich.—Examiner Robert L. Irwin recommended grant of modification of license to increase power from 500 watts to 500 watts night, 1 Kw day. Station operates on 1410 kc., unlimited time.

WOR—Ex. Rep. 1-460: Broadcasting Service Organization, Inc., Boston, Mass.—Chief Examiner Davis G. Arnold recommended grant of C. P. to increase power from 500 watts to 1 Kw and hours of operation from daytime to unlimited.

NEW—Ex. Rep. 1-462: General Electric Company, Belmont, Calif.—Examiner George H. Hill recommended grant of C. P. to construct and operate a relay broadcast station to operate on 9350 and 15330 kc., with power of 20 KW, during unlimited hours, in accordance with Rule 983.

WLB—Ex. Rep. 1-463: University of Minnesota, Minneapolis, Minn.—Examiner P. W. Seward recommended grant of C. P. to change frequency from 1250 kc. to 760 kc.; increase power from 1 to 5 Kw, daytime to local sunset; in accordance with tentative time-sharing agreement heretofore entered into between stations WLB and WCAL.

WCAI—St. Olaf College, Northfield, Minn.—Examiner Seward recommended grant of C. P. to change frequency from 1250 kc. to 1040 kc., and hours of operation from share with WTIC to simultaneous operation from share with WBAL to simultaneous operation with KRLD (limited) for period from 8-1-37 to 2-1-38.

WBAL—The WBAL Broadcasting Company, Baltimore, Md.—Ex. Rep. 1-464: Extension of special experimental authorization to operate with KTHS, from 6 a. m. to local sunset at Hot Springs, Ark., from local sunset to 9 p. m., unlimited, on 1060 kc. will synchronize with WJZ on 760 kc., from 9 p. m., with power of 2 1/2 KW, period from 8-1-37 to 2-1-38, using directional antenna.

XXX—National Broadcasting Co., Inc., New York, N. Y.—Extension of authority to transmit programs to stations CFCF and CRCT, and the Canadian Broadcasting Corp.

NEW—WHEC, Inc., Rochester, N. Y.—Construction permit for a high frequency relay broadcast station on 31100, 34600, 37600, 40000 kc., 2 watts power.

NEW—Columbia Broadcasting System, Inc., Boston, Mass.—Construction permit for a high frequency radio broadcast station on 31100, 33600, 35600, 36400 kc., 100 watts power. Amended to cancel frequencies 31600, 35600, 36500, 41000 kc. and add frequencies 88800, 123300, 164000, 205000 kc.

APPLICATIONS RECEIVED

First Zone

WESG—Cornell University, Ithaca, N. Y.—Extension of special experimental authorization to operate on 850 kc., daylight to sunset at New Orleans, La., period 8-1-37 to 2-1-38.

WTIC—The Travelers Broadcasting Service Corporation, Hartford, Conn.—Extension of special experimental authorization to change frequency from 1060 kc. to 1040 kc., and hours of operation from share with WBAL to simultaneous operation with KRLD (unlimited) for period from 8-1-37 to 2-1-38.

WAL—The WBAL Broadcasting Company, Baltimore, Md.—Extension of special experimental authorization to operate with KTHS, from 6 a.m. to local sunset at Hot Springs, Ark., from local sunset to 9 p.m., unlimited, on 1060 kc., with power of 2 1/2 kw, period from 8-1-37 to 2-1-38, using directional antenna.

XXX—National Broadcasting Co., Inc., New York, N. Y.—Extension of authority to transmit programs to stations CFCF and CRCT, and the Canadian Broadcasting Corp.

NEW—WHEC, Inc., Rochester, N. Y.—Construction permit for a high frequency relay broadcast station on 31100, 34600, 37600, 40000 kc., 2 watts power.

NEW—Columbia Broadcasting System, Inc., Boston, Mass.—Construction permit for a high frequency broadcast station on 31100, 33600, 35600, 36400 kc., 100 watts power. Amended to cancel frequencies 31600, 35600, 36500, 41000 kc. and add frequencies 88800, 123300, 164000, 205000 kc.

Second Zone

WIP—Pennsylvania Broadcasting Co., Philadelphia, Pa.—Extension of special experimental authorization to operate with 500 watts additional power from 9-1-37 to 3-1-38.
WBLK—The Exponent Co., Clarksburg, W. Va.—Authority to install new automatic frequency control equipment.

WMB—Fayette Broadcasting Corp., Uniontown, Pa.—License to cover construction permit (B2-P-1398) as modified for new station.

Third Zone

WDAE—Tampa Times Co., Tampa, Fla.—Modification of license to change frequency from 1220 kc. to 750 kc., install directional antenna for day and night use.

KTHS—Hot Springs Chamber of Commerce, Hot Springs, Ark.—Extension of special experimental authorization to change frequency from 1040 kc. to 1060 kc., hours of operation from 6 to 12 a.m., to 8 a.m. to 6 p.m., and unlimited from then until midnight, for period from 2-1-38.

KRLD—KRLD Radio Corporation, Dallas, Tex.—Modification of construction permit (B3-P-1224) for new station.

Fourth Zone

WAXD—The Birmingham News Co., Birmingham, Ala.—License to cover construction permit (B3-P-1224) for new station on 1210 kc., 100 watts, daytime, requesting changes in equipment and approval of antenna.

WEAU—Central Broadcasting Co., Eau Claire, Wis.—Authority to transfer control of corporation from Morgan Murphy to Elizabeth B. Murphy 60 shares of common stock.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—License to cover construction permit (B4-P-1695) for equipment changes and increase power. Amended re equipment.

KRO—KSL Radio Co., Salt Lake City, Utah.—Authority to cover construction permit to make changes in automatic frequency control equipment. Amended re equipment.

KVGB—Ernest Edward Ruehlen, Great Bend, Kan.—Authority to cover construction permit to install a new transmitter, increase power from 100 watts to 1000 watts, new hours of operation.

KXJL—Head of the Lakes Broadcasting Co., Duluth, Minn.—Construction permit for a new station to be operated on 1310 kc., 100 watts power, unlimited time.

KICA—Western Broadcasters, Inc., Clovis, N. Mex.—Construction permit for a relay broadcast station on 31100, 34600, 37600, 40600 kc., 2 watts.

Fifth Zone

KMPC—Beverly Hills Broadcasting Corp., Beverly Hills, Calif.—License to cover construction permit (B3-PRE-101) for relay broadcast station on 31100, 34600, 37600, 40600 kc., 2 watts power.

KOL—Seattle Broadcasting Co., Inc., Seattle, Wash.—Authority to cover construction permit (B5-P-1352) for new station.

KOL—Seattle Broadcasting Co., Inc., Seattle, Wash.—License to cover construction permit (B3-P-1286) as modified for new station.

NEW—Shirley D. Parker, Yakima, Wash.—Construction permit for a new station to be operated on 1310 kc., 100 watts night and 250 watts day power, unlimited time.

KICA—Western Broadcasters, Inc., Clovis, N. Mex.—Construction permit for a new station to be operated on 1310 kc., 100 watts night and 250 watts day power, unlimited time.

KICA—Western Broadcasters, Inc., Clovis, N. Mex.—Request for an extension of time.

WEAU—Central Broadcasting Co., Eau Claire, Wis.—Authority to transfer control of corporation from Morgan Murphy to Elizabeth B. Murphy 60 shares of common stock.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—License to cover construction permit (B4-P-1695) for equipment changes and increase power. Amended re equipment.

KVGB—Ernest Edward Ruehlen, Great Bend, Kan.—Authority to cover construction permit to install a new transmitter, increase power from 100 watts to 1000 watts, new hours of operation.

KXJL—Head of the Lakes Broadcasting Co., Duluth, Minn.—Construction permit for a new station to be operated on 1310 kc., 100 watts power, unlimited time.

KICA—Western Broadcasters, Inc., Clovis, N. Mex.—Construction permit for a relay broadcast station on 31100, 34600, 37600, 40600 kc., 2 watts.
FLORIDA BROADCASTERS MEET

The Florida Association of Broadcasters held their second annual convention in Jacksonville on Sunday, July 25, in the George Washington Hotel. Every station in the state was represented at the meeting. The newly elected officers are: W. Walter Tison, WFLA, President; L. S. Mitchell, WDAE, Secretary-Treasurer; Harold P. Danforth, WDBO, First Vice President; Executive Committee—John R. Beechem, WJNO, and Henry G. Wells, WCOA.

FLORIDA MEETING ATTENDED BY BALDWIN

James W. Baldwin, managing director of the NAB, attended the meeting of the Florida Association of Broadcasters held in Jacksonville, Sunday, July 25.

FCC CHAIRMAN PRALL DEAD

Anning S. Prall, chairman of the Federal Communications Commission and member of that body since January, 1935, died on July 23, of heart trouble at his summer home in Maine following a brief illness.

Funeral services were held on Tuesday at the Port Richmond Dutch Reformed Church, Port Richmond, Staten Island, N. Y. As a mark of respect the Commission was closed during the funeral and for the remainder of the day on Tuesday.

As a tribute to Mr. Prall the 700 broadcasting stations of the country were asked by NAB to remain silent for a period of one minute at 12 o’clock noon, eastern daylight time, Monday.

James W. Baldwin, managing director of NAB, attended the funeral on behalf of the association.

Mr. Prall entered on duty at the Commission on January 17, 1935, having been appointed by President Roosevelt to succeed Hampson Gary who resigned.

Mr. Prall was confirmed by the Senate without opposition on January 15, and after taking the oath of office his colleagues named him chairman of the Broadcast Division of the Communications Commission.

He was appointed a member of the Federal Radio Commission by President Roosevelt on February 22, 1934, but because of responsibilities in the House of Represenatives, of which he was then a member, he did not qualify.

His services in the House covered a period of 12 years. He was elected first to the 68th Congress in 1923, and re-elected to each succeeding Congress including the 73rd. He retired from membership in the House on January 3, 1935.

Prior to becoming a member of the Congress of the United States, Mr. Prall served as a member of the Board of Taxes and Assessments of the City of New York, and for three times was elected President of the Board of Education of New York City.

Mr. Prall was of Dutch ancestry. His progenitors settled on Staten Island (now the Borough of Richmond, New York City), in 1653, being the fourth family of Dutch immigrants to settle there. He was married and the father of two sons, Anning Mortimer and Bryan William. He was a member of the Holland Society in New York; a governor of the Downtown Athletic Club; a member of the Fox Hills Golf Club; Columbia Country Club of Chevy Chase, Maryland, Chamber of Commerce, Board of Trade Transportation, and other fraternal, social and civic organizations.

The Communications Commission adopted the following resolution:

WHEREAS, The Federal Communications Commission has in the death of its Chairman, Anning S. Prall, lost a wise and valuable public servant, devoted to the interest of the people of the United States, an indefatigable worker, and a courteous comrade, be it therefore resolved:

That the Federal Communications Commission hereby places on its permanent records this memorial:

“In memory of Anning S. Prall, Chairman of the Federal Communications Commission from March 11, 1935, to the time of his death, July 23, 1937. He made valuable contributions to the work of this Commission and to the art of communication in all its phases.”

Baldwin at a. F. of M. Meeting

James W. Baldwin, Managing Director of the NAB, is attending the meetings of the American Federation of Musicians being held in New York this week.

Changes Recommended for WBOW

Broadcasting station WBOW, Terre Haute, Ind., operating unlimited time on 1310 kilocycles, 100 watts and 250 watts LS, applied to the Federal Communications Commission to change its frequency to 1290 kilocycles, with 500 watts and 1,000 watts LS. At the same time Glenn E. Webster applied to the Commission for a construction permit for a new station at Decatur, Ill., to use 1290 kilocycles, 250 watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-465 recommended that the application of WBOW be granted and that of Glenn E. Webster be denied. He states that there appears to be a definite need for additional service of WBOW while the need for the other application is in a much lesser degree. The Examiner stated also that “the financial showing of the applicant, Glenn E. Webster, is extremely meagre and obviously insufficient to operate the station he proposed over any substantial period of time.”

Federal Trade Commission Action

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3182-3184. Two Chicago dealers in merchandise are charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises, in complaints against Joseph W. Graff, 4224 Lincoln Ave., trading as The Sylvan Co., and Theodore H. Koulish, 538 South Dearborn St., trading as Universal Specialties Co.

The respondent companies sell various items of merchandise, including clocks, radios, pen and pencil sets, food mixers and cameras. Customers of the two dealers were furnished with pushcard devices, permitting the drawing of prizes by chance through selection of certain feminine names, according to the complaint, and such devices were allegedly used in the sale of products to ultimate consumers.

No. 3183. Alleging the use of false and misleading representations in the sale of soap, in violation of Section 5 of the Federal Trade Commission Act, a complaint has been issued against Covered Button and Buckle Creators, Inc., its officers and directors, and approximately 150 member companies engaged in manufacturing and selling upwards of 90 per cent of all the covered buttons, buckles and novelties produced in the United States.

The complaint charges that the respondents falsely represented, in a widely-circulated advertisement, that their uniform price and discount policy was initiated and enforced by and through the means of trade practice rules approved by the Federal Trade Commission for the covered button and buckle manufacturing industry promulgated April 9, 1937.

The respondents are located principally in New York City, and their acts and practices as set out in the complaint are said to constitute unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act.

No. 3187. Alleging the use of unfair methods of competition in the sale of women’s leather purses and gloves, a complaint has been served upon the Elite Glove Company, Inc., Gloversville, New York.

Imprinted upon certain of the respondent company’s purses and gloves and the containers thereof, according to the complaint, are the words, in Old English type, “Lady Daphne—A British Doeskin” or “Lady Daphne—A British Suede,” together with the words “Made in U. S. A.” in much smaller type. These words, purporting to be descriptive of the respondent company’s products, are also said to appear in newspaper and magazine advertisements and in catalogs.

The complaint alleges that the use of the name “Lady Daphne” said to be exclusive of British royalty, in connection with the words “A British Doeskin” or “A British Suede,” and the disparity of the size of the letters used therein as compared with the size of the type in the phrase “Made in U. S. A.”, serve as representations and lead customers into the belief that the leather used in the manufacture of the respondent company’s products is processed into a finished leather in England and imported into the United States, where it is made into gloves and purses.

Advertising in newspapers, magazines, booklets, and by radio, the respondent company is alleged to have falsely represented that its preparation has been endorsed by 6,000 medical doctor eyesight specialists, and falsely implied that it is a cure for diseases of the eye or impaired vision; that it strengthens the nerves of the eye, relieves eye strain, and makes the eyes healthier and more efficient.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01752. Ann J. MacHale, Inc., 101 Fifth Ave., will discontinue advertising that MacHale’s Hair Color Restorer is not a dye and has been used by men and women for many years with excellent results in bringing back color to faded, gray hair. The respondent corporation agreed not to designate its product as “Hair Color Restorer.”

No. 01757. H. E. Curtiss, trading as C. E. Curtiss and as the Enterprise Press, 41 Alleghany St., Corfu, N. Y., in his stipulation, agrees to cease representing that his book, The Showman, exposes and destroys the black art and that any of his books provides insight into a mystic secret writing system, or constitutes a rare collection of golden secrets or is a gypsy oracle fortune teller.

No. 01763. The R. L. Watkins Company, 170 Varick St., will desist representing that its Mulsified Coconut Oil Shampoo cannot possibly injure the most tender scalp; that scientists say it is the safe and best preparation to use for healthy, beautiful hair, and that it restores to the hair natural oils and youthful beauty.

No. 01767. Segal Safety Razor Corporation, 270 Broadway, selling shaving sets consisting of a case, a Segal unitary razor, a brush and blades, will desist from advertising that the brush is germ-proof and the razor rust or tarnish-proof.

No. 01771. Arthur Abriamis Navello, trading as Navello System, 105 W. Madison St., Chicago, selling a correspondence course in singing and crooning, agrees to cease advertising that his...
booklet of instructions will enable one to learn to sing or croon and to have a trained singing voice or become an accomplished singer or crooner in 10 easy home lessons. He will also stop asserting that his course enables one to acquire the secrets of easy, natural singing without learning musical terms or engaging in tedious study.

No. 01772. Winslow W. Chase, trading as The Taxley Co., 450 Randolph St., N. W., Washington and District of Columbia, device designated “Don’t Snap”, agrees to stop representing that use of the device prevents or overcomes snoring, mouth-breathing or attendant ills, unless this is properly qualified. The respondent admits in his stipulation that, according to reliable medical authority, there are many pathological and anatomical causes of snoring which could be present without the use of the device. He also will not assert that the product is invaluable in cases of asthma, catarrh, hay fever, common colds and insomnia, and that benefits may be derived from its use by singers, public speakers and athletes.

No. 01776. Mrs. J. G. Morris, trading as Morris Orthopedic Insufflator, 1137 Wabash Ave., Chicago, Illinois, device designated Morris Limb Straightener, and agrees to stop representing it as such unless the reference is limited to the limbs of children or young people. In her stipulation, the respondent admits that, according to reliable scientific opinion, the value of her product is limited in its use to straightening the limbs of children or young people.

No. 01780. Chester Miller, trading as Goldentone Radio Co., 8780 Grand River Ave., Dearborn, Mich., agrees to abandon the assertion in advertising that any of the radio receiving sets he sells will afford world-wide reception and that this can be proved by holding a radio set at an advertised frequency, and that radios are being sold which will afford reception of programs emanating from foreign stations, consistent world-wide reception is still unaccomplished in radio development. Miller also agrees to stop asserting that his sets are used by the United States Forestry Service.

No. 01785. Certain false and misleading advertising practices in connection with the sale of a hair tonic and a shampoo will be discontinued by Wildroot Company, Inc., 1490 Jefferson Ave., Buffalo, under a stipulation entered into.

The company will cease representing that Wildroot Hair Tonic cleans scalp dandruff completely, unless qualified by the explanation that repeated and continued use is necessary to obtain this result; that it is an effective treatment for falling hair, unless limited to those cases of falling hair due to seborrheal eczema, and that it regulates the flow of oil, thereby stimulating the growth of hair.

No. 01786. New Method File Grinders, Inc., 609 Fulton St., Chicago, has entered into a stipulation to discontinue unfair methods of competition in the sale of files.

According to the stipulation, the company purchased old, worn files from large manufacturing concerns, resharpended and reconditioned them, and sold them in interstate commerce without disclosing to customers that they were not new or that they were second-hand files which had been reconditioned.

Nos. 2417-2454. Fairfield Distilling Company and Byrd Distilling Company, both of Louisville, Ky., have been ordered to cease and desist from representing that they are distillers of alcohol, when such is not a fact.

The respondent companies are ordered to discontinue representing through use of the word “Distilling” in their corporate names, which had been reconditioned.

The respondent also is directed to cease and desist from representing that Aspirin,® has been ordered to discontinue using that name or any word containing the letters “Aspir” as a trade name, unless at the time of its sale the product is acetyl salicylic acid, commonly known to the public as aspirin.

The respondent company also is directed to cease and desist from representing that Aspir is aspirin and that Elixir Aspir offers the better way of prescribing aspirin.

No. 3121. Joe Anderson, New Bern, North Carolina, trading as The A. & O. Co., has been ordered to cease and desist from making certain deceptive, misleading and exaggerated representations in connection with the sale of a pharmaceutical preparation designated “A. & O.”, advertised in newspapers, magazines, catalogues and by radio as a remedy for colds.

Among the representations ordered discontinued are that the preparation relieves and cures the most stubborn colds when other treatments fail, and gives instant, guaranteed or effective relief from the first dose; that it protects one from influenza, pneumonia or serious lung trouble, clears the digestive tract, restores the system to normal, and is quicker and safer than pills and salve.

Nos. 3177-3178-3179-3180-3181. Five dealers in merchandise are charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises under complaints. Four of the respondents have headquarters in Chicago and one in Jersey City, N. J.

Complaints have been served against the following Chicago dealers: Frietia Wolotchun, 418 South Wells St., trading as Wright Manufacturers Distributing Co., and J. C. Robertson, 117 West Harrison St., trading as Novelty Distributing Co., both dealers in clocks; E. I. Donahue, 407 South Dearborn St., trading as Donahue Advertising Co., dealing in electric clocks, kitchen cutlery sets and other articles; and Carlson, Inc., 17 North Wabash Ave., trading as Carlson Sales Co., dealer in men's and women's wearing apparel. The Jersey City dealer named as respondent is Hyman Mendels, 113 Hudson St., a clock dealer trading as J. J. Henderson.

Complaints of the five dealers were furnished with pushcard devices, permitting the drawing of prizes by chance through selection of certain feminine names, according to the complaints, and such devices were allegedly used in the sale of products to ultimate consumers.

FTC CLOSES CASE

No. 2965. The Federal Trade Commission has closed its case against Shuford Hosiery Mills, Inc., Hickory, N. C., for the reason that the objectionable practices complained of have been discontinued and it does not appear that the respondent company will resume them.

The company was charged with labeling certain hosiery in a manner tending to induce purchasers to believe it was composed substantially of silk when such was not a fact.

The Commission reserved its right to reopen the case, should the facts warrant, and resume prosecution of the complaint in accordance with its regular procedure.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 2.

The Broadcast Division took the following actions subject to ratification at the next regular meeting of the Commission:

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KDKA and alternate, Pittsburgh, Pa.; KEX, Portland, Ore.; KFAB, Lincoln, Nebr.; KFED, St. Joseph, Mo.; KFI and auxiliary, Louisville, Ky.; KFRA and auxiliary, Los Angeles, Calif.; KGO and auxiliary, San Francisco; KIEV, Glendale, Cal.; KIRO, Seattle, Wash.; KJBS, San Francisco; KJR and auxiliary, Seattle, Wash.; KMMJ, Clay Center, Nebr.; KNX, Los Angeles, Calif.; KOA, Denver; KOB, Albuquerque, N. M.; KOX, San Francisco; KRLD, Dallas, Tex.; KTHS, Hot Springs National Park, Ark.; KVDD, Tulsa, Okla.; KWKH, Shreveport, La.; KX, Seattle, Wash.; KXW, Philadelphia; WAAW, Omaha, Nebr.; WBAL, Baltimore, Md.; WBAP, Fort Worth, Tex.; WBMM and auxiliary, Chicago; WBIL, New York City; WBT, Charlotte, N. C.; WBN, Boston; WBTM, Pittsburgh; WCN, Philadelphia; WCAZ, Carthage, Ill.; WCBD, Chicago; WCCO, Minneapolis; WCFL, Chicago, Ill., and auxiliary; WDGY, Minneapolis; WDZ, Tuscola, Ill.; WEEU, Reading, Pa.; WENR and auxiliary, Chicago; WEF, St. Louis, Mo.; WFAA, Dallas, Tex.; WGN, Chicago; WGY and auxiliary, Schenectady; WHAM and auxiliary, Rochester, N. Y.; WHAS, Louisville, Ky.; WKB, Kansas City, Mo.; WHDH and auxiliary, Boston; WHEB, Portland, Maine; WIKC, Columbus, Ohio; WIO, Des Moines, Iowa; WIBG, Glenside, Pa.; WINS, New York City; WJR and auxiliary, Detroit, Mich.; WJZ and auxiliary, New York City; WKAR, East Lansing, Mich.; WLS and auxiliary, Chicago; WMAC, Chicago; WMAM, Macou, Ga., and auxiliary; WBMI, Chicago; WOAI, San Antonio, and auxiliary; WO!, Ames, Iowa; WOV, New York City; WOCB, Fort Wayne, Ind.; WPG, Atlantic City, N. J.; WRLA, Richmond, Va.; WSAZ, Huntington, W. Va.; WSB and auxiliary, Atlanta, Ga.; WSPR, Springfield, Mass.; WTTW, Cleveland, Ohio; WTV, Hartford, Conn.; WWVA and auxiliary, Wheeling, W. Va.; WJJD,
Applications Granted

WABC-WBOQ, New York City; WATR, Waterbury, Conn.; Lake City; KTRB, Modesto, Calif.; KYOS, Merced, Calif.; WEAF and auxiliary, New York City; WNYC, New York City, auxiliary, Newark, N. J.; WBOQ, Cumberland, Md.; WWL, New Orleans, La.

The following stations were granted renewal of licenses for the period ending January 1, 1938:

KROC, Jamestown, N. Y.; WKBW, Buffalo, N. Y.; WMJF, Daytona Beach, Fla.; KNET, Palestine, Tex.; WJBJ, Detroit, Mich.

Applications Granted

WAPO—Broadcast Station WAPO, Chattanooga, Tenn.— Granted authority to remain silent for a period not to exceed 10 days in accordance with Rule 151.

WPAY—Broadcast Station WPAY, Portsmouth, Ohio.—Granted authority to remain silent during a period not to exceed 10 days in accordance with Rule 151, provided licensed operator cannot be obtained.

WTAR—WTAR Radio Corp., Norfolk, Va.—Granted extension program test period 10 days from July 20, 1937.

WCKY—L. B. Wilson, Inc., Covington, Ky.—Granted extension equipment test period 10 days from July 20, 1937.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—Granted extension program test period 30 days from July 24, 1937.

WMBG—Havens & Martin, Inc., Richmond, Va.—Granted extension program test period 30 days from July 23.

WIBX—WIBX, Inc., Utica, N. Y.—Granted extension equipment test period 10 days from July 23, 1937.

W9XVP—W9XVQ—Minn. Broadcasting Corp., Minneapolis, Minn.—Granted special temporary authority to operate two mobile high frequency relay broadcast transmitters, RCA Model ATR, on frequencies 31100, 34400, 37800, 40600, 1 watt, for period of 30 days, for relay broadcast from State Amateur Golf Tournament and St. Paul Open Tournament for relay broadcast over WTCN.

WIND—Johnston-Kennedy Radio Corp., Gary, Ind.—Granted extension special temporary authority to operate with two 350-foot towers spaced five-eights of a wave for the period beginning July 21 and ending no later than July 30, while the 250-foot tower is taken down and moved to the proper location in the new three element array as authorized by C. P. granted 3-9-37.

WIXPF—Farnsworth Television, Inc., of Pennsylvania, Philadelphia.—Granted special temporary authority to conduct equipment tests of a 250-watt exciter unit, for the period July 21 to August 10, 1937.

KPRC—Houston Printing Co., Houston, Tex.—Granted extension special temporary authority to operate with power of 5 KW night for the period beginning July 23, 1937, and ending no later than August 21, 1937.

WQDM—Regan & Bostwick, St. Albans, Vt.—Granted special temporary authority to operate from 5 to 7:30 p. m., EDT, July 21 to August 29, 1937, provided WSVS remains silent.

WBAY—Black Hills Broadcasting Co., Rapid City, S. Dak.—Granted special temporary authority to operate from 8:30 to 11 a. m. and from 5 to 6 p. m., for the period July 23 and ending no later than August 30, 1937, for the purpose of taking graphic records of the sky wave of WBAY at Jamestown, N. Y., Wilkes-Barre, Pa., and Sunbury, Pa. However, no operation permitted during hours prescribed for monitor 01034.

WSAY—Brown Radio Service Lab., Rochester, N. Y.—Granted special temporary authority to operate between hours of 1 a.m. and sunrise, EST, for the period July 22 and ending no later than August 30, 1937, for the purpose of taking graphic records of the sky wave of WSAY at Jamestown, N. Y., Wilkes-Barre, Pa., and Sunbury, Pa. However, no operation permitted during hours prescribed for monitor 01034.

WEST—Associated Broadcasters, Inc., Easton, Pa.—Granted extension special temporary authority to operate simultaneously with WKBQ from 10 to 11 a. m. and from 5 to 6 p. m., for the period July 23 to August 22, 1937, inclusive, due to adoption of Daylight Saving Time in Easton.

Applications Denied

The Broadcast Division extended the effective date of its order denying the application of South Bend Tribune (WSBT), South Bend, for C. P., until such date as the Division may take action on the petition of South Bend Tribune for reconsideration and grant of the application or in alternative for further hearing before examiner.

Applications Denied

W9XPF—WDZ Broadcasting Co., Tuscola, Ill.—Denied extension special temporary authority to operate relay broadcast transmitter of W9XPF on frequencies 31100, 34400, 37800, 40600, 100 watts night, for period of 30 days beginning July 23, between hours of 4:15 and 4:30 p. m., EST.

W10XAB—C. J. MacGregor, Mobile (Ellesmere Island Area).—Granted C. S. P. and license, frequencies 2989, 3492.5, 4797.5, 6625, 8665, 12062.5, 13350, 14830, 36700, 40600, 55000 to 50000, 400 watts, to communicate as an experimental broadcast station in accordance with Rules 1070, 1072, 1074 and 1076; hours of operation unlimited in accordance with Rule 983.

W9XSN—The Champion News-Gazette, Inc., Mobile, Mobile, Ala.—Granted special temporary authority to operate mobile on frequencies 39000, 40800 and 41100 kc., on experimental basis, and these frequencies subject to change without prior notice or hearing; 2 watts; to communicate as a relay broadcast station in accordance with Rules 1000, 1001 (b) and 1003 (e); hours of operation in accordance with Rules 983 and 1004. Location: Mobile, Ala.

W3XGM—Reading Broadcasting Co., Reading, Pa., Mobile.—Same as above, except 1 watt power.

WDAF—The Kansas City Star Co., Kansas City, Mo.—Granted license to cover C. P. and modifications thereof, 610 kc., 1 KW night, 5 KW day, unlimited time. Also granted authority to determine operating power by direct measurement of antenna input.

WCCO—Mississippi Broadcasting Co., Inc., Meridian, Miss.—Granted modification of C. P. for extension of completion period from September 10 to September 23.

KRIS—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—Granted license to cover C. P. and modifications thereof, 1330 kc., 250 watts night, 500 watts day, unlimited time.

KR—Gulf Coast Broadcasting Co., Corpus Christi, Tex.—Granted license to cover modification of C. P., 1330 kc., 500 watts, unlimited time.

KOKO—The Southwest Broadcasting Co., La Junta, Colo.—Granted license to cover C. P., 1370 kc., 100 watts, unlimited time.

W3KF—Black Hills Broadcasting Co., Rapid City, S. Dak.—Granted license to cover C. P., 1370 kc., 100 watts night, 250 watts day, unlimited time.

KRE—Central California Broadcasters, Inc., Berkeley, Calif.—Granted license to cover C. P., 1370 kc., 100 watts night, 250 watts day, unlimited time.

KWOS—Tribune Printing Co., Jefferson City, Mo.—Granted authority to install automatic frequency control.

WAPO—W. A. Patterson, Chattanooga, Tenn.—Granted special temporary authority to operate a Collins, Type 300-F, 250-watt transmitter, using only 100 watts power and daytime hours for period not to exceed 30 days from July 24, pending action on application for modification of C. P.; also authorized to test transmitter on morning of July 24, Station to operate without approved frequency monitor and modulating monitor for period not to exceed 30 days from July 24.

The Broadcast Division extended the effective date of its order denying the application of South Bend Tribune (WSBT), South Bend, for C. P., until such date as the Division may take action on the petition of South Bend Tribune for reconsideration and grant of the application or in alternative for further hearing before examiner.

Applications Denied

W9XPF—WDZ Broadcasting Co., Tuscola, Ill.—Denied extension special temporary authority to operate relay broadcast transmitter of W9XPF on frequencies 31100, 34400, 37800, 40600, 100 watts night, for period of 30 days beginning July 23, between hours of 4:15 and 4:30 p. m., EST.
APPLICATIONS RECEIVED

First Zone
WMAS—WMAS, Inc., Springfield, Mass.—Construction permit to install a new transmitter; erect a vertical antenna; move transmitter from 70 Chestnut St. to West St., Springfield, Mass., and studio from 70 Chestnut St. to 1757 Main, Springfield, Mass.

WOKO—WOKO, Inc., Albany, N. Y.—Construction permit to install new transmitting equipment.

W1XNU—City Broadcasting Corp., New Haven, Conn.—License to cover construction permit (B1-PRE-110) for a new relay-broadcast station.

NEW—Connecticut State College, Storrs, Conn.—Construction permit for a new relay-broadcast (experimental) station to be operated on 100000, 110000, 200000, 300000 kc., 250 watts.

Second Zone
WKOK—Sunbury Broadcasting Corp., Sunbury, Pa.—Authority to transfer control of corporation from The Sunbury Item, Inc. to George W. Beck, Basse A. Beck and Harry H. Haddon, 73 shares common stock.

NEW—Charleston Broadcasting Co., Charleston, W. Va.—Construction permit for a new relay-broadcast (experimental) station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

Third Zone
KGVL—Hunt Broadcasting Assn., Fred Horton, President, Greenville, Tex.—Modification of construction permit (B3-P-723) for a new station, requesting changes in automatic frequency control equipment and move of transmitter from 2610 Washington Street to Wesley College Campus, Greenville, Tex.

NEW—Northwestern Broadcasting Co., R. H. Nichols, President, 1500 Vernon, Tex.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.

Fourth Zone
KMMJ—KMMJ, Inc., Clay Center, Nebr.—Authority to install automatic frequency control.

KFBF—The Farmers & Bankers Broadcasting Corporation, Abilene, Kans.—Construction permit to install a new transmitter and vertical antenna; move transmitter from corner 5th and Barry Streets, Milford, Kans., to site to be determined, Abilene, Kans., to Wichita, Kans.

Fifth Zone
KTKC—Tulare-Kings Counties Radio Associates, Charles A. Whitmore, President, Visalia, Calif.—License to cover construction permit (B5-P-816) as modified for new station.

W7XCY—Oregonian Publishing Co., Portland, Ore.—License to cover construction permit (B5-PRE-103) for a new relay-broadcast (experimental) station.

ASKS FUNDS FOR HAVANA RADIO CONFERENCE

On Tuesday, President Roosevelt sent a communication to the Speaker of the House of Representatives in which he asked for favorable action on a request of the Secretary of State for an appropriation of $15,000 to defray the expenses of the United States in its participation in the Inter-American Radio Conference to convene at Havana, Cuba, November 1. The communication was referred to the House Committee on Foreign Affairs.

P. J. LEROY

Members are advised to communicate with NAB Headquarters before contracting with P. J. LeRoy who furnishes fifteen minute transcriptions advertising piano lessons by mail.

DENIAL OF NEW STATION RECOMMENDED

John C. Hughes filed an application with the Federal Communications Commission asking for a construction permit for a new station to be erected at Phenix City, Ala., to use 1310 kilocycles, 100 watts and daytime operation.

Examiner Robert L. Irwin, in Report No. I-469, recommended that the application be denied. The Examiner states that the applicant "has not shown that he is financially able to operate it (the proposed station)." The granting of the application, he states, will not be in the public interest.

OFFICIAL ANNOUNCEMENT ON CCIR CONFERENCE

The State Department has made an official announcement concerning the return of the American delegation from the CCIR conference at Bucharest, the subjects discussed, and recommendations adopted at the meeting. This information was previously covered in the report of Mr. McNary, NAB delegate, in NAB Reports for July 15, 1937.

RECOMMENDS DENYING CHANGES FOR WSPA

Broadcasting station WSPA applied to the Federal Communications Commission to change its frequency from 920 to 880 kilocycles, and to increase its power from 1,000 to 5,000 watts. It operates daytime and did not ask for any change of time.

Examiner Melvin H. Dalberg, in Report No. I-468, recommended that the application be denied. He found that "it is highly questionable whether there is any need for additional service in the area sought to be served." The Examiner states also that most of the territory the station wishes to serve is already served satisfactorily by radio and "the result of the granting of this application would cause overlapping of much of the present service now available to listeners."

DENIAL RECOMMENDED FOR OHIO STATION

WRBC, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Cleveland, Ohio, to use 880 kilocycles, 1,000 watts and unlimited operation.

Examiner Melvin H. Dalberg, in Report No. I-470, recommended that the application be denied. He states that the financial showing of the applicant "from a strictly legal standpoint, is somewhat indefinite and confusing and not sufficiently substantial in view of the proposed expense of construction involved herein and the estimated operating costs disclosed by the evidence. This is especially manifest because of the obvious inadequacy of the proof with respect to financial support."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause...
why cease and desist orders should not be issued against them.

No. 3189. A chewing gum dealer is charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises, in a complaint issued against Dietz Gum Company of Chicago, 1734 West Hubbard St., Chicago, trading also under the names Novelty Gum Company, Specialty Gum Company, and Yankee Doodle Gum Company. The complaint also names as respondents, Sol S. Leaf, president and treasurer, and Harry Leaf, secretary of the Dietz company. Dealer customers of the respondents are furnished with assortments of gum so arranged that purchasers procuring a stick bearing a certain wrapper may receive a prize, or purchasers saving a sufficient number of certain wrappers may send them in to the company to receive a prize such as a baseball suit or gymnasium outfit, according to the complaint.

No. 3190. Abraham Starr, 16-20 East 12th St., New York, trading as Superior Textile Mill, is charged in a complaint with using certain unfair methods of competition in the sale of haberdashery direct to consumer-purchasers. Price lists and other printed matter circulated by the respondent allegedly advertised a specified date as the last day for a "free merchandise sale" and contained such offers as four shirts for the price of three, seven pairs of hose for the price of six, and three sweaters for the price of two. These representations, the complaint charges, serve to lead purchasers into the mistaken belief that for the price they pay for the stated number of articles of haberdashery, they will receive an additional article free. According to the complaint, they do not receive an article of merchandise absolutely free, and the price purportedly charged for such articles actually covers the total sale price for the entire number.

No. 3191. Alleging use of unfair methods of competition in the sale of salve and miscellaneous merchandise a complaint has been issued against Morris R., Charles, Mary and Mrs. Robert Shapiro, having a place of business at 836 West Roosevelt Road, Chicago. The respondents are co-partners and trade as Uea Manufacturing Company, Uea Mentho Laboratories, and Robert More Company. The respondents are said to advertise in newspapers, magazines and form letters that their salves constitute effective and reliable remedies or treatments for colds, cuts, burns, cataract, eczema, and various other ailments and diseases. According to the complaint, such representations are false and tend to lead purchasers into the erroneous belief that they can diagnose and determine the cause of and the remedy or treatment for the ailments and diseases from which they are suffering.

None of the respondents is a physician, nor is a physician connected with their business, the complaint charges, and purchasers of the respondents' salves are not being given a medical examination for the purpose of determining the particular ailment or disease from which they are suffering and the cure, if any, therefor. No. 3192. Croxton Sales Corporation, 142 West 24th Street, New York, and its president, Alfred W. Lublin, are named respondents in a complaint alleging use of certain unfair competitive practices in advertising and selling Croxton Method, a preparation for the treatment of superfluous hair.

The complaint charges that the respondents falsely represented in advertising that their preparation will remove superfluous hair when first applied; will keep the user well groomed and free from hair; will completely stop the growth of superfluous hair; is of substantial benefit in the treatment of nervous disorders, undue fatigue, asthma, neuritis and other ailments, and that the preparation provides the elements required to harmonize glandular activity during childhood or will supply vital elements required in the formation of bone, tissue and cell structures.

The complaint charges that the respondents falsely represented in advertising that their preparation will remove superfluous hair when first applied; will keep the user well groomed and free from hair; will completely stop the growth of superfluous hair; is of substantial benefit in the treatment of nervous disorders, undue fatigue, asthma, neuritis and other ailments, and that the preparation provides the elements required to harmonize glandular activity during childhood or will supply vital elements required in the formation of bone, tissue and cell structures.

The stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 2018. Trading as Lincoln Laee & Braid Mfg. Co., Benjamin Gittelman, Ponagansett Ave. and Barbara St., Providence, R. L., has entered into a stipulation to discontinue certain unfair methods of competition in connection with the sale of shoe laces. Gittelman agreed to cease using the abbreviation "Mfg." in his trade name and to discontinue employing that abbreviation or the word "Manufacturers" on his stationery, in printed matter, or otherwise, so as to imply that he owns or operates a factory in which such products are manufactured, when such is not a fact.

No. 2020. Agreeing to cease certain false and misleading assertions in the advertisement and sale of correspondence courses in civil service subjects, Civilian Preparatory Service, Inc., and Homer Bruce Crane, formerly trading as Economic Research Bureau, both of Huntington, W. Va., have entered into a stipulation.

Among representations to be discontinued are assertions to the effect that jobs are offered, that men and women are wanted to fill such jobs and that such positions are to be filled through the respondents.

The respondents agree no longer to advertise that the school as operated is representative of or connected with the United States Government or that civil service examinations are held or will be held at frequent intervals in the classifications for which the respondents offer training, or that government positions in such classifications are or will be available and that appointments therein will be made.

No. 2021. Certain unfair methods of competition in the sale of books will be abandoned by Garden City Publishing Co., Inc., Garden City, N. Y., under a stipulation. The company will stop advertising or selling any book under a name or title different from that under which it previously had been published and sold. The stipulation provides that if the company sells a book under a title other than the original, proper notice of the name previously used shall be printed on the title page and jacket in type as equally conspicuous as that in which the book appears.

No. 2022. Samuel A. Roth, 328 West Superior Ave., Cleveland, trading as Samuel A. Roth & Co., has entered into a stipulation to discontinue representing, without proper qualification, that certain wearing apparel for women is composed of silk. In his advertising matter, the respondent agrees to stop using the word "silk," or any abbreviation or substitute thereof, in connection with the sale of salves and miscellaneous merchandise. The complaint charges that the respondents falsely represented to the public that certain remedies or treatments for colds, cuts, burns, catarrh, eczema, and other ailments and diseases are medically prescribed remedies or treatments for such ailments and diseases. According to the complaint, such representations are false and tend to lead purchasers into the mistaken belief that for the price they pay for the articles are weighted with mineral salts or other weighting substance.

The complaint charges that the respondents falsely represented in advertising that their preparation will remove superfluous hair when first applied; will keep the user well groomed and free from hair; will completely stop the growth of superfluous hair; is of substantial benefit in the treatment of nervous disorders, undue fatigue, asthma, neuritis and other ailments, and that the preparation provides the elements required to harmonize glandular activity during childhood or will supply vital elements required in the formation of bone, tissue and cell structures.

The stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

2236
The order directs the respondent company to discontinue representing through price lists, circulars, labels, or any other form of printed matter, or in radio broadcasts, that its preparation does not require or contain peroxide, is superior to products containing peroxide, and that the bleaching agent of the preparation is not similar to peroxide. Findings are that the product contains peroxide and its bleaching action is not chemically different from preparations which include peroxide of like strength as an ingredient.

**CASE CLOSED BY FTC**

No. 2698. An order has been entered by the Federal Trade Commission closing, without prejudice, its case against *Avalon Candy Corporation*, Los Angeles, which was charged with use of a lot-in-trade in connection with the sale of candy.

The case was closed for the reason that the respondent company has neither manufactured nor sold candy since March, 1936; its physical assets have been dismantled and sold, its corporate charter surrendered for non-payment of California State taxes, and it appears that the company is not likely to resume the violations of law alleged in the Commission's complaint.

**FEDERAL COMMUNICATIONS COMMISSION ACTION**

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 9.

The Broadcast Division has taken the following action:

**APPLICATIONS GRANTED**

**KGU**—Marion A. Mulroney & Advertiser Publisher Co., Ltd., Honolulu, T. H.—Approved license to cover C. P. as modified, 750 kc., 2½ KW night and day, unlimited.

**WMBG**—Havens & Martin, Inc., Richmond, Va.—Approved license to cover C. P. as modified, 1350 kc., 500 watts, unlimited time, using directional antenna system for both day and night-time operation.

**KPQ**—West Coast Broadcasting Co., Wenatchee, Wash.—Approved license to cover C. P., 1500 kc., 100 watts night, 250 watts day, unlimited.

**KROC**—Southern Minn. Broadcasting Co., Rochester, Minn.—Approved license to cover C. P., 1310 kc., 100 watts night, unlimited, 250 watts day, unlimited.

**WMBR**—Fayette Broadcasting Corp., Uniontown, Pa.—Approved license to cover C. P. as modified, 1420 kc., 250 watts, day-time only.

**KMPC**—Beverly Hills Broadcasting Corp., Beverly Hills, Calif.—Approved extension of present license for a period of 60 days.

**KQD**—Anchorage Radio Club, Inc., Anchorage, Alaska.—Approved extension of present license for a period of 60 days.

**WTR**—WOAX, Inc., Trenton, N. J.—Approved extension of present license for a period of 60 days.

**WWSW**—Walker & Dowling Radio Corp., Pittsburgh, Pa.—Approved extension of present license for a period of 60 days.

**KGGK**—Hilliard Company, Inc., Scottsbluff, Nebr.—Approved extension of present license for a period of 60 days.

**WBAL**—The WBAL Broadcasting Co., Baltimore, Md.—Approved extension of special experimental authority to operate on 1000 kc., 10 KW, simultaneously with KTHS from 6 a. m. to sunset at Hot Springs, Ark., and from sunset at KTHS to 9 p. m., EST, unlimited, synchronously with WJZ on 760 kc., with 2½ KW, from 9 p. m. to midnight, with directional antenna, for period August 1, 1937, to February 1, 1938.

**KTHS**—Hot Springs Chamber of Commerce, Hot Springs National Park, Ark.—Approved extension of special experimental authority for period August 1, 1937, to February 1, 1938, to operate on 1000 kc., 10 KW, simultaneously with WBAL from 6 a. m. to local sunset, sharing after sunset (KTHS operates unlimited 8 p. m. to midnight).

**KRLD**—KRLD Radio Corp., Dallas, Tex.—Approved extension of special experimental authority for period August 1, 1937, to February 1, 1938, to operate simultaneously with WTXC, Hartford, Conn., 1040 kc., 10 KW, share KTHS.

**VTIC**—The Travelers Broadcasting Service Corp., Hartford, Conn.—Approved extension of special experimental authority for period August 1, 1937, to February 1, 1938, to operate simultaneously with KRLD, Dallas, frequency 1040 kc., 50 KW.

WESG—Cornell University, Ithaca, N. Y.—Approved extension of special experimental authority for period August 1, 1937, to February 1, 1938, to operate on 850 kc., daylight to sunset at New Orleans, La., 1 KW power.

NEW—Central States Broadcasting Co., Omaha, Nebr.—Granted C. P. for new high frequency broadcast station, frequencies 31100, 34600, and 40500 kc., 100 watts.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Granted voluntary assignment of license to W. O. Pape, d/b as Pape Broadcasting Co.; 1380 kc., 500 watts night, 1 KW day, unlimited.

KFBK—Buttery Broadcast, Inc., Great Falls, Mont.—Granted modification of license to change power to 1 KW night, 5 KW day.

WBOO—The Lake Superior Broadcasting Co., Marquette, Mich.—Approved modification of license to change hours of operation to: Daily except Sunday, 9:30 a. m. to 1:30 p. m.; Sundays, 9 a. m. to 1:30 p. m.; all CST.

WWL—Lovola University, New Orleans, La.—Approved extension of special experimental authority to operate unlimited time on 850 kc., with 10 KW power, for period August 1, 1937, to February 1, 1938.

KWCH—International Broadcasting Corp., Shreveport, La.—Granted extension of special experimental authority to operate on 1100 kc., with 10 KW power, unlimited time, employing directional antenna at night, period August 1, 1937, to February 1, 1938.

KFBK—KFAB Broadcasting Co., Lincoln, Nebr.—Approved extension of special experimental authority to operate synchronously with WBBM, Chicago, from local sunset at Lincoln, Nebr., to 12 midnight, CST, for period August 1, 1937, to February 1, 1938.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Granted extension of special experimental authority to operate synchronously with KFAB, Lincoln, Nebr., from local sunset at Lincoln, Nebr., to 12 midnight, CST, for period August 1, 1937, to February 1, 1938.
WQDM—Regan & Bostwick, St. Albans, Vt.—Granted amended modification of license authorizing change in time of operation from specified hours to daytime only.

WWJ—The Evening News Assn., Detroit, Mich.—Granted C. P. to use former main transmitter as auxiliary at same location, 1 KW, 920 kc., for auxiliary purposes only.

KYA—Harry F. Radio, Inc., San Francisco, Calif.—Granted C. P. to move former licensed main transmitter to present transmitter site at Bayview Park, San Francisco, for auxiliary purposes, power 1 KW.

WLBL—State of Wisconsin, Department of Agriculture and Markets, Auburndale, Wis.—Granted modification of C. P. to move transmitter locally.

WIBX—WIBX, Inc., Utica, N. Y.—Granted modification of C. P. to extend completion date from 7-10-37 to 9-10-37.

KOL—Seattle Broadcasting Co., Inc., Seattle, Wash.—Granted authority to install automatic frequency control equipment; 1270 kc., 1 KW night, 5 KW day, unlimited time.

WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.—Granted license to cover C. P. as modified covering new experimental relay broadcast station, frequencies 31000, 34600, 37600, 40600 kc., on experimental basis, 2 watts.

W4XCA—Memphis Commercial Appeal Co., Memphis, Tenn.—Granted C. P. to move station locally and make changes in equipment.

W9XJL—Head of the Lakes Broadcasting Co., Superior, Wis.—Granted modification of license to delete frequencies 31600, 35500, 38600, 41000 kc. and add 26100 kc.

KIRO—Queen City Broadcasting Co., Inc., Seattle, Wash.—Granted extension of special experimental authority for period ending February 1, 1938, to operate unlimited time on 710 kc., with 1 KW.

NEW—Hartford, Conn.—Voluntary assignment of license and directional antenna system for day and night-time operation, and increase in power and time of operation from specified hours to daytime only. Exact transmitter and studio sites to be determined with Commission’s approval.

NEW—Roberts-MacNab Co., Livingston, Mont.—C. P. for new station, 1310 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

WGNY—Peter Goelet, Newbury, N. Y.—C. P. for the antenna system and change frequency from 1290 kc. to 590 kc.

KXBY—First National Television, Inc., Kansas City, Mo.—C. P. to make changes in equipment and experiment with several types of directional antenna, and increase in power from 1 to 5 KW. To be heard before the Broadcast Division.

NEW—Fred M. Weil, Grand Coulee, Wash.—C. P. for new station, 1420 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined with Commission’s approval.

NEW—Carl Latenser, Atchison, Kans.—C. P. for new station, 1420 kc., 100 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission’s approval.

NEW—Four Lakes Broadcasting Co., Madison, Wis.—C. P. for new station to operate on 850 kc., 100 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—Roberts-MacNab Co., Livingston, Mont.—C. P. for new station, 1420 kc., 100 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission’s approval.

NEW—Four Lakes Broadcasting Co., Madison, Wis.—C. P. for new station, 850 kc., 100 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—Van Deusen, New York, N. Y.—C. P. for new station, 1420 kc., 100 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission’s approval.

NEW—Carl Latenser, Atchison, Kans.—C. P. for new station, 1420 kc., 100 watts, daytime only, exact transmitter site and type of antenna to be determined with Commission’s approval.

SET FOR HEARING

NEW—WAVE, Inc., Louisville, Ky.—C. P. for new station to operate on 610 kc., 250 watts, 500 watts day, unlimited time, transmitter site to be determined in Louisville; approval of studio site at 675 S. Fourth St. at Broadway, Louisville.

NEW—Robert J. MacNab Co., Livingston, Mont.—C. P. for new station, 1310 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

WGNY—Peter Goelet, Newbury, N. Y.—C. P. for new station to operate on 1420 kc., 100 watts, daytime only, exact transmitter site, type of antenna to be determined with Commission’s approval.

WPHR—WLBC, Inc., Richmond, Va.—C. P. to install new equipment and increase day power from 100 watts to 250 watts.

W9XJL—Head of the Lakes Broadcasting Co., Superior, Wis.—Granted modification of license to delete frequencies 31600, 35500, 38600, 41000 kc. and add 26100 kc.

WAXD—The Birmingham News Co., Birmingham, Ala. (Mobile).—Granted modification of license to delete frequencies 31600, 34600, 37600, 40600 kc., frequencies 1646, 2090, 2190, 2830 kc., 20 watts. Also granted license to cover C. P. for new experimental relay broadcast station, frequencies 31000, 34600, 37600 and 40600 kc., 2 watts.

NEW—WAVE, Inc., Louisville, Ky.—C. P. for new station to operate on 610 kc., 250 watts, 500 watts day, unlimited time, transmitter site to be determined in Louisville; approval of studio site at 675 S. Fourth St. at Broadway, Louisville.

NEW—Robert J. MacNab Co., Livingston, Mont.—C. P. for new station, 1310 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—Martin R. O’Brien, Augusta, Ill.—C. P. already in hearing docket, amended to request 1250 kc., 250 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—Martin R. O’Brien, Augusta, Ill.—C. P. already in hearing docket, amended to request 1250 kc., 250 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—George B. Storer, Pontiac, Mich.—C. P. already in hearing docket, amended to request 800 kc., 1 KW, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—Pacific Radio Corp., Grants Pass, Ore.—Denied petition to grant without hearing, application for new station to operate on 1320 kc., 500 watts, daytime only. Exact transmitter and studio sites to be determined with Commission’s approval.

NEW—San Antonio Broadcasting Assn., Huntsville, Tex.—C. P. for new station to operate on 1500 kc., 100 watts, daytime only. Exact transmitter and studio sites to be determined with Commission’s approval.
NEW—O. C. Burke, Dickinson, Tex.—C. P. to erect new station to operate on 1500 kc., 100 watts, unlimited time.

NEW—San Francisco Broadcasting Co., Globe, Ariz.—C. P. to erect a new station to operate on 1210 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Louisa B. Thornton & M. E. Thornton, d/b/a Port Angeles Broadcasters, Port Angeles, Wash.—C. P. for new station to operate on 1350 kc., 100 watts night, 250 watts day, time of operation, unlimited. Exact transmitter and studio sites to be determined.

NEW—Brenau College, Gainesville, Ga.—C. P. for new station to operate on 1420 kc., 100 watts night, 250 watts day, unlimited time.

NEW—National Life and Accident Ins. Co., Inc., Nashville, Tenn.—C. P. for new station; frequency 1370 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Tri-City Broadcasting Co., Inc., Schenectady, N. Y.—C. P. for new station; 950 kc., 1 KW, unlimited time, using directional antenna, day and night; transmitter location and studio to be approved.

NEW—Ward Optical Co., Fayetteville, Ark.—C. P. for new station; 1310 kc., 100 watts, unlimited time.

NEW—Panama City Broadcasting Co., Panama City, Fla.—C. P. for new station: 1420 kc., 100 watts daytime only; exact transmitter and studio sites to be determined.

WBAA—Purdue University, Lafayette, Ind.—C. P. to change transmitter site locally; install new equipment and vertical radiator; change power from 500 watts night, 1 KW day, specified hours, to 5 KW daytime only.

KGAR—Tucson Motor Service Co., Tucson, Ariz.—C. P. to move transmitter site locally; install vertical radiator; change frequency from 1370 to 1340 kc., and increase night power from 100 watts to 250 watts.

KGMB—Honolulu Broadcasting Co., Ltd., Honolulu, T. H.—Modification of license to increase frequency from 1330 to 580 kc.; also install new vertical radiator.

WNOX—Scripps-Howard Radio, Inc., Knoxville, Tenn.—Modification of license to increase night power from 1 to 5 KW (1010 kc., unlimited time). To be heard before Broadcast Division.

WMT—Iowa Broadcasting Co., Cedar Rapids, Iowa—Modification of license to increase night power from 1 to 5 KW using present directional antenna system for nighttime operation. To be heard before Broadcast Division.

First Baptist Church, Pontiac, Mich.—Authority to transmit religious programs to CKLW, Windsor, Ontario, through facilities Michigan Bell Telephone Co.

KFJZ—R. S. Bishop, Fort Worth, Tex.—Authority to transfer First Baptist Church, Pontiac, Mich.—Authority to transmit religious programs to CKLW, Windsor, Ontario, through facilities Michigan Bell Telephone Co.

WACO—KTSA Broadcasting Co., Waco, Tex.—Voluntary assignment of license to Hearst Radio, Inc., 1420 kc., 100 watts, unlimited time.

KTSA—KTSA Broadcasting Co., San Antonio, Tex.—Voluntary assignment of license to Hearst Radio, Inc., 550 kc., 1 KW, unlimited time; and/or action on renewal application.

KNOW—KUT Broadcasting Co., Austin, Tex.—Voluntary assignment of license to Hearst Radio, Inc., 1500 kc., 100 watts, unlimited time.

RENEWAL OF LICENSES

KWJJ—KWJJ Broadcast Company, Inc., Portland, Ore.—Granted extension of present license on a temporary basis for the period ending September 1, 1937, pending receipt and/or action on renewal application.

KGBP—Eagle Broadcasting Co., Inc., Corpus Christi, Texas—Granted extension of present license on a temporary basis for the period ending September 1, 1937, pending receipt and/or action on renewal application.

KGU—Alaska Radio & Service Co., Inc., Ketchikan, Alaska.—Granted extension of present license on a temporary basis for the period ending September 1, 1937, pending receipt and/or action on renewal application.

WAPI—WAPI Broadcasting Corp., Birmingham, Ala.—Granted extension of present license on a temporary basis for the period ending September 1, 1937, pending receipt and/or action on renewal application.

The following stations were granted renewal of licenses on the regular basis:

KGU, Honolulu, T. H.; KSOO, Sioux Falls, S. Dak.; WRUF, Gainesville, Fla., and WSN (auxiliary), Nashville, Tenn. SPECIAL AUTHORIZATIONS

WRUF—University of Florida, Gainesville, Fla.—Granted extension of special temporary authority to rebroadcast the Navy time signals from Arlington for the period August 1 to 30, 1937.

KWJJ—KWJJ Broadcast Co., Inc., Portland, Ore.—Granted extension of special temporary authority to operate on 1040 kc., limited time, and resume operation from 9 p. m. to 3 a. m., PST, for the period August 1, 1937, to February 1, 1938.

KWLC—Luther College, Decorah, Iowa.—Granted special temporary authority to remain silent for the period beginning August 1 and ending August 31, 1937.

WJAG—The Norfolk Daily News, Norfolk, Neb.—Granted extension of special temporary authority to operate on 1050 kc. with power of 1 KW and limited time for the period beginning 3 a. m., EST, August 1, and ending no later than 3 a. m., February 1, 1938.

WAXB—WAXC—Alford J. Williams, Williamsburg, Pa.—Granted extension of special temporary authority to operate RCA Type H aircraft transmitter, 5 watts, on board plane NR-1050, by A. J. Williams and RCA Type AVT-7 transmitter portable on ground on frequencies of 1648, 2090, 2190, 2330 kc., for the period beginning August 2 to August 31, 1937.

WWJ—The Evening News Assn., Detroit, Mich.—Granted extension of special temporary authority to operate for the period August 2 to 31, 1937, with increased night power to 5 KW to overcome interference.

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted extension of special temporary authority to operate with power of 50 watts from local sunset (August sunset, 7:15 p. m.) to 11 p. m., EST, Tuesdays, Thursdays, Saturdays and Sundays, for the period August 3 (Tuesday) and ending no later than August 31 (Tuesday) pending compliance with Rule 131 on modification of license.

WTCN—Minnesota Broadcasting Corp., Minneapolis, Minn.—Granted special temporary authority to operate from 7 to 7:30 p. m., CST, on Fridays only, from August 20 to September 17, 1937, inclusive (provided WTCN remains silent), in order to permit WTCN to schedule the NBC program "Robert Ripley and Henry Busse’s Orchestra!"

WLB—University of Minnesota, Minneapolis, Minn.—Same as above except for operation from 8 a. m. to 8:30 p. m., CST, (provided WTCN remains silent).

KGFF—Powell & Platz, Coffeyville, Kans.—Granted extension of special temporary authority to operate with power of 50 watts from local sunset (August sunset, 7:15 p. m.) to 11 p. m., EST, August 3, 5, 10, 12, 17, 19, 24, 26 and 31; and from 8:15 to 9:15 p. m., CST, August 4, 11, 18 and 25, and 19, 1937, provided KGFF is silent on above dates in order that KGFF may broadcast during time WNAD is silent for summer vacation of Oklahoma University.

WNAD—University of Oklahoma, Norman, Okla.—To remain silent on above dates in order to observe summer vacation.

KOTN—General Broadcasting Corp., Ariz.—Granted special temporary authority to operate from 7:30 to 10 p. m., CST, August 9, 10, 11, 12, 21, 26 and 27, 1937, in order to broadcast out of town baseball games played by local team at night.

WGNN—Peter Goelitz, Newburg, N. Y.—Granted special temporary authority to operate simultaneously with WFAQ
WFAA—A. H. Belo Corp., Dallas, Tex.—Granted extension of special temporary authority to use joint call letters WFAA-WBAP and waive requirements of Rule 156 for the period August 1, 1937 to February 1, 1938, or until close of Central Exposition of the Texas Centennial Celebration in Dallas.

WBAP—Carter Publications, Inc., Fort Worth, Tex.—Granted extension of special temporary authority to use joint call letters WFAA-WBAP and waive requirements of Rule 156 for the period August 1, 1937, to February 1, 1938, or until close of the Central Exposition of the Texas Centennial Celebration in Dallas.

KFRO—Voice of Longview, Longview, Tex.— Granted special temporary authority to operate from local sunset (August sunset 7 p.m.) to 9 p.m., CST, using power of 100 watts, on Sundays, August 1, 8, 15, 22 and 29, in order to broadcast Church services of the Kelly Memorial Methodist Church, Sundays, August 1, 8, 15, 22 and 29, in order to broadcast Church services of the Kelly Memorial Methodist Church.

WDZ—WDZ Broadcasting Co., Tuscola, Ill.—Granted extension of special temporary authority to operate on 560 kc. with power of 1 KW at night for the period August 1 to August 31, 1937, inclusive, pending filing of and action, on license to cover C. P. for this authority.

WGCM—WGCM, Inc., Mississippi City, Miss.—Application for special temporary authority to use transmitter of station WMBI, while moving in accordance with modification of its order of February 23, 1937, in denying the foregoing application, and remanded it to the hearing docket for further hearing.

WGCM-WGCM, Inc., Mississippi City, Miss.—Application for extension of permit for 1120 kc., 500 watts, 500 watts LS, unlimited time except 8 to 9 p.m., CST, Monday and Friday, heretofore set for hearing was dismissed, inasmuch as the permit itself was retired to the closed files, March 16, 1937.

The following applications, heretofore set for hearing, were dismissed at request of applicants:

KMPC—Beverly Hills Broadcasting Corp., Beverly Hills, Cal.—Application B3-P-1656, for 710 kc., 500 watts, 500 watts LS, unlimited time.

NEW—State Broadcasting Corp., New Orleans, La.—Application B3-P-1656, for 1500 kc., 100 watts, 100 watts LS, unlimited time.

WSAZ—WSAZ, Inc., Huntington, W. Va.—Application B2-P-1729, for 1190 kc., 1 KW, 5 KW LS, unlimited time.

APPLICATIONS RETIRED TO CLOSED FILES

Radio Service Corp. of Utah.—Application for C. P. for authority to construct a new relay broadcast experimental station, granted November 10, 1936, and expired July 10, 1937, was retired to closed files as no application for a further extension of time or for a license has been filed.

Stuart Broadcasting Corp.—Application for C. P. for authority to construct a new relay broadcast experimental station, granted November 17, 1936, and expired July 17, 1937, was retired to closed files as no application for further extension of time or for license has been filed.

KGVO—Moxy's Inc., Missoula, Mont.—Application for C. P. requesting changes in equipment was granted September 22, 1936. The required date of commencement was November 22, 1936 and completion May 22, 1937. Inasmuch as no application for extension of time and no application for license has been filed, the application is retired to closed files.

WASH-WOOD—Kunsky-Trendle Broadcasting Corp.—Applications for C. P.'s authorizing increase in daytime power to 1 KW, granted July 2, 1936, contingent upon selection of a satisfactory transmitter site and upon compliance with Rules 131, 132 and 139, was relinquished by applicants, and applications are, therefore, retired to closed files.

WJBW—Chas. C. Carlson, New Orleans, La.—Granted petition for leave to file appearance in application for renewal of license, appearance was accepted and motion of Southern Broadcasting Corp. to deny that application for renewal as in default was denied. (Docket 4330); Motion of Southern Broadcasting Corp. to deny as in default application of Chas. C. Carlson for C. P. (Docket 4204) granted and the reply thereto of Carlson dismissed.

WBAH—Purdue University, Lafayette, Ind.—Granted extension of time within which to comply with Rule 131 until such time as action may be had on application requesting change in transmitter site, installation of new antenna and transmitter and increase in power from 1 KW to 3 KW daytime only.

KFRY—Station KFYR, Bismarck, N. Dak.—Granted authority to suspend issuance of C. P. covering local move of station and changes in equipment, until agreement can be reached with Bureau of Air Commerce and Engineering Department as to satisfactory site.

The Broadcast Division denied the petition of Continental Radio Co., Toledo, Ohio, to reopen the hearing upon the application of WALR Broadcasting Corp. (WALR), Zanesville, Ohio, for C. P. to move studio and transmitter to Toledo, Ohio, (Docket 2486), and denied the motion of Continental Radio Co., to reconsider and grant its application for C. P. for new station at Toledo, Ohio, 1200 kilocycles, 100 watts, daytime, Docket 3301.

The Broadcast Division, upon consideration of a petition by South Bend Tribune Co. (WSBT), South Bend, Ind., for reconsideration and grant or in alternative, for further hearing upon its application for C. P. to change operating assignment from 1560 kilocycles, 300 watts, 100 watts LS, unlimited time as action may be had on application requesting change in transmitter site, installation of new antenna and transmitter and increase in power from 1 KW to 3 KW daytime only.

KFRY—Station KFYR, Bismarck, N. Dak.—Granted authority to suspend issuance of C. P. covering local move of station and changes in equipment, until agreement can be reached with Bureau of Air Commerce and Engineering Department as to satisfactory site.

The Broadcast Division denied the petition of Continental Radio Co., Toledo, Ohio, to reopen the hearing upon the application of WALR Broadcasting Corp. (WALR), Zanesville, Ohio, for C. P. to move studio and transmitter to Toledo, Ohio, (Docket 2486), and denied the motion of Continental Radio Co., to reconsider and grant its application for C. P. for new station at Toledo, Ohio, 1200 kilocycles, 100 watts, daytime, Docket 3301.

The Broadcast Division, upon consideration of a petition by South Bend Tribune Co. (WSBT), South Bend, Ind., for reconsideration and grant or in alternative, for further hearing upon its application for C. P. to change operating assignment from 1560 kilocycles, 300 watts, 100 watts LS, unlimited time as action may be had on application requesting change in transmitter site, installation of new antenna and transmitter and increase in power from 1 KW to 3 KW daytime only.

W2XAL—General Electric Company, Schenectady, N. Y.—Application for C. P. granted September 29, 1936, covering authority to operate experimental station at Schenectady, N. Y., was retired to closed files inasmuch as no extension of time or application for license has been filed.

WDY—Adirondack Broadcasting Co., Albany, N. Y.—Granted petition to intervene in the proceedings upon the application of Citizens Broadcasting Corp. Docket 4508.

WOKO—WOKO, Inc., Albany, N. Y.—Granted petition to intervene in the proceedings upon the application of the Citizens Broadcasting Corp. Docket 4508.

WKIV—Kivos Radio Corp., Richmond, Ind.—Granted petition to intervene in the proceedings upon the application of Curtis Radiotastic Corp. Docket 4607.

WRVA—Larus and Brother Co., Inc., Richmond, Va.—Granted petition to reopen hearing upon its application for C. P. to increase power from 5 KW to 50 KW, using directional antenna, for the purpose of introducing testimony upon the modified directive antenna array.

NEW—World Publishing Co., Tulsa, Okla.—Granted petition to intervene in the proceedings upon the application of Harry S. Smith, for a new station at Tulsa, Okla., to use 1310 kc., 250 watts, daytime.

NEW—City of Jacksonville, Fla.—Granted petition to accept answer in the matter of the application of Illinois Broadcasting Corp. (WTAD), Quincy, Ill., for modification of license to use 900 kc., 1 KW, unlimited time. Docket 4599.

WJDX—Lamar Life Ins. Co., Jackson, Miss.—Granted petition to intervene in the application of Atalla Broadcasting Corp. (WHIF), for C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time, to move to Jackson, Miss. Docket 4651.

WDZ—WDZ Broadcasting Co., Tuscola, Ill.—Granted petition to intervene in the proceedings upon the application of the Decatur Newspapers, Inc., Docket 4605.

KG6—Don Lee Broadcasting System, San Diego, Calif.—Granted petition to intervene in the proceedings upon the application of Airfan Radio Corp., Ltd., for a new station at San Diego, Calif., to use 1420 kc., 100 watts, unlimited time.

NEW—Radiotel Corp., San Diego, Calif.—Granted motion for continuance of hearing for a period of approximately 90 days from September 21, a new hearing date to be fixed by docket, upon application for new station to use 920 kc., 500 watts unlimited time.

KFPI—Symons Broadcasting Co., Inc., Spokane, Wash.—Granted petition to intervene in the proceedings upon the application of C. P. Sudweeks for a new station at Spokane, Wash., to use 940 kc., 500 watts 1 KW daytime, for a period of three weeks. Docket 4461.

Honolulu Star-Bulletin, Ltd., and Zions Securities Corp.—Granted petition to intervene in the proceedings upon the application of the Honolulu Broadcasting Co., Ltd., for transfer of control, Docket 3873.

WGAR—WGAR Broadcasting Co., Cleveland, Ohio.—Granted petition to extend time for filing exceptions to Examiner's Report 1-453 involving application of Food Terminal Broadcasting Co., for new station at Cleveland, to use 1500 kc., 100 watts daytime, for a period of three weeks.

NEW—W. H. Hartman Co., Waterloo, Iowa.—Granted motion to adjourn appearance in re docket 4541, involving application of the Waterloo Times-Tribune Publishing Co., to deny Hartman application as in cases of default.

WCLS—WCLS, Inc., Joliet, III.—The Commission, upon its own motion, continued the hearing upon the application of WCLS, Inc., Docket 4517, from September 7 to September 27, 1937.

WSA—Northern Broadcasting Co., Wausau, Wis.—Canceled oral argument scheduled for October 7, 1937, since WMIN, only station in hearing, withdrew its request.

WMEX—Northern Corporation, Boston, Mass.—Denied protest and petition to reconsider Commissioner's action of February 2, 1937, in granting consent to transfer of control in the application of WCOP, Massachusetts Broadcasting Corp.

WHOM—New Jersey Broadcasting Corp., Jersey City, N. J.—Denied motion to dismiss application without prejudice, for C. P. for 1450 kc., 250 watts, 1 KW LS, unlimited time.

KQW—Pacific Agricultural Foundation, Ltd., San Jose, Calif.—Denied petition to reconsider and grant application for authority to move transmitter site locally, install vertical radiator and increase day power from 1 to 5 KW, without hearing.

WENR—Emil Denemark, Inc., Chicago, Ill.—The Broadcast Division directed that a modification of license be issued covering change in specified hours (deleting hours of operation after midnight) and installation of new antenna, in conformity with its action of January 19, 1937, inasmuch as applicant has now complied with Rule 131.

RATIFICATIONS

The Broadcast Division ratified the following actions authorized on the dates shown:

WIBW—Radio Station WIBW, Topeka, Kans.—Granted authority to operate with reduced power 1 KW daytime not to exceed 5 days, pending repair.

WMCA—Knickerbocker Broadcasting Co., Inc., New York City.—Granted special temporary authority to operate the antenna system of WMCA in a non-directional manner with power input determined by indirect method of 1 KW, between hours of 1 and 6 a. m., EDST, during week of July 25 to July 31, 1937, in order to determine efficiency of individual radiators and the relative data and mutual impedance of the radiators, provided schedule is so arranged that no interference is caused to stations maintaining regular programs.

W6XXK—Don Lee Broadcasting System, Los Angeles, Calif.—Granted special temporary authority to operate a composite crystal-controlled station at a new site on 1680 kc., using 100 watts, temporary authority to extend period of experimental broad- casting station W6XXK by the additional time 6 to 10 a. m., EST, of the mornings beginning July 27 and ending no later than July 30, incl. Station to be simulcast with WBAL for purposes of making measurements.

WAPO—W. A. Patterson, Chattanooga, Tenn.—Granted special temporary authority to operate unlimited time, using 250 watts day, 100 watts night, for the period beginning July 27, 1937, and ending no later than August 25, 1937.

Granted petition of Glenn Van Auker for extension of time within which to file application for approval of transmitter site and antenna system which was authorized to be determined by C. P. until September 18, 1937.

EXAMINERS' REPORTS RELEASED SINCE JULY 20, 1937

WBOW—Ex. Rep. 1-467: Banks of Wabash, Inc., Terre Haute, Ind.—Examiner Melvin H. Dalberg recommended grant of C. P. for new station to operate on 1310 kc., 1290 kc., and power from 100 watts, 250 watts LS, to 500 watts, 1 KW LS; move transmitter and install new equipment.

NEW—Glen E. Webster, Decatur, Ill.—Examiner Dalberg recommended grant of modification of license to increase power from 500 watts to 1160 kc., daytime, for new station to operate at 1160 kc., daytime, 500 watts transmitter in lieu of 100 watts transmitter.

WSWA—Ex. Rep. 1-468: Virginia E. Evans, d/b as The Voice of South Carolina, Spartanburg, S. C.—Examiner Melvin H. Dalberg recommended denial of C. P. to change frequency from 920 kc. to 880 kc., and increase power from 1 KW to 5 KW.

NEW—Ex. Rep. 1-469: John C. Hughes, Phenix City, Ala.—Examiner R. L. Irwin recommended denial of C. P. for new station to operate on 1310 kc., 100 watts, daytime hours.
**APPLICATIONS RECEIVED**

### First Zone

- **WFBR**—The Baltimore Radio Show, Inc., Baltimore, Md.—Construction permit to install a new transmitter; increase power from 500 watts, 1 KW day, to 1 KW night, 5 KW day; install directional antenna for day and night use; and move transmitter from 5801 Radio Ave., Baltimore, Md., to Reedbird Avenue and Seamon Avenue, Baltimore, Md.

- **NEW—Pawtucket Broadcasting Co., Pawtucket, R. I.—Construction permit for a new high frequency broadcast station (frequency modulated) on the frequencies 40300, 38500, 109000, 177000, 218000 KC, power of 1 KW.

### Second Zone

- **WTAR**—WTAR Radio Corporation, Norfolk, Va.—License to cover construction permit (B2-MP-437) for changes in auxiliary equipment, increase in power, use of directional antenna, and move of auxiliary transmitter.

- **WHAS**—Louisville Times Co., Louisville, Ky.—Modification of construction permit (B2-P-1126) for new antenna and move of transmitter, requesting extension of completion date from 9-5-37 to 12-5-37.

- **WEST**—Associated Broadcasters, Inc., Easton, Pa.—Modification of license to change hours of operation from share with WKBO to simultaneous day and share with WKBO at night.

- **WKBK**—Keystone Broadcasting Corp., Harrisburg, Pa.—Modification of license to change hours of operation from share with WEST to unlimited day and share with WEST night.

- **WJIM**—Harold F. Gross, Lansing, Mich.—License to cover construction permit (B3-P-1301) for a new high frequency broadcast station to be operated on 39700, 39900, 41400 kc., 100 watts.

### Third Zone

- **WCKY**—L. B. Wilson, Inc., Covington, Ky.—License to cover construction permit (B2-P-1854) for a new transmitter.

### Fourth Zone

- **KXRO**—KXRO, Inc., Aberdeen, Wash.—License to cover construction permit (B4-P-1586) for a new station, request of station to be operated on 1622, 2058, 2150, 2790 kc., 75 watts.

### Fifth Zone

- **NEW—W. A. Barnette, Greenwood, S. C.—Construction permit 1370 for a new station to be operated on 1370 kc., 250 watts power, daytime operation.

### Notes

- **NEW**—C. M. Jansky, Jr., and Stuart L. Bailey, d/b as Jansky & Bailey, vicinity District of Columbia.—Construction permit for a new high frequency broadcast station (frequency modulated) on the frequencies 40300, 87000, 112000, 174000, 224000 kc., power up to 5 KW.

- **NEW**—WDRC, Inc., Hartford, Conn.—Construction permit for a new high frequency broadcast station (frequency modulated) on the frequencies 40300, 38500, 109000, 177000, 218000 KC, power of 1 KW.

- **NEW—Associated Broadcasters, Inc., Easton, Pa.—Modification of license to change hours of operation from share with WKBO to simultaneous day and share with WKBO at night.

- **KXRO**—KXRO, Inc., Aberdeen, Wash.—License to cover construction permit (B4-P-1586) for a new station, request of station to be operated on 1622, 2058, 2150, 2790 kc., 75 watts.

- **KVOX**—Robert K. Herbst, Moorhead, Minn.—Modification of construction permit (B4-P-324) for a new station, requesting changes in authorized equipment and increase in power.

- **KSTP**—National Battery Broadcasting Company, St. Paul, Minn.—License to cover construction permit (B4-P-1586) for equipment changes.
WARNING NOT TO SELL OR RENT FAN MAIL

Members are urged not to sell or rent letters received from radio fans. The uses which might be made of the addresses in fan mail are too many and too unethical. The results can be injurious to radio broadcasting. Once released the broadcaster cannot control the use made of such lists but he must be prepared nevertheless to accept his share of the responsibility for uses made of his mail. Of particular significance are the following words appearing in a letter received a few days ago by one of our members—

“Right now, for example, we are trying to get hold of over a million juvenile names—of the type who respond to broadcasts appealing to the ten and fifteen year old group.”

We must not allow this type of business in radio broadcasting.

JAMES W. BALDWIN.

TO NAME FCC MEMBERS SOON

In answer to an inquiry at his press conference on Tuesday, President Roosevelt said that he hoped to be able to send his nominations for the two existing vacancies on the Federal Communications Commission to the Senate before adjournment.

WHITE RADIO RESOLUTION REPORTED

The Senate Committee on Interstate Commerce on Wednesday made a favorable report on the White radio resolution (S. Res. 149), which was introduced on July 6.

Complete copy of the resolution was contained in Vol. 5, No. 29, of NAB Reports. It calls for a full investigation of radio and broadcasting by the Senate Committee on Interstate Commerce, headed by Senator Wheeler, of Montana.

Members of the committee feel that if the Senate should pass the Resolution at the present session, which appears doubtful, that no actual hearings will be called until the January session of Congress. It is possible, if the resolution should be passed, one of the members of the committee stated, that some “spadework” might be done, by which he meant that an investigator might start work for the committee.

POWER INCREASE RECOMMENDED FOR WEAN

Broadcasting station WEAN, Providence, R. I., operating unlimited time on 780 kilocycles applied to the Federal Communications Commission to increase its power from 1,000 watts to 1,000 watts night and 5,000 watts LS.

Examiner John P. Bramhall in Report No. 1-472 recommended that the application be granted. He states that “a need for additional daytime service in the area proposed to be served has been established.” The Examiner states further that the interests of Stations WGY, WJZ and WHEB will not be adversely affected by reason of interference. He says that granting of the application will be in the public interest.

ASKS APPROPRIATION FOR RADIO CONFERENCE

Representative McReynolds, of Tennessee, has introduced a joint resolution in the House (H. J. Res. 476) “authorizing participation by the United States in the Inter-American Radio Conference to convene at Habana, Cuba, November 1, 1937.” It calls for an appropriation of $15,000 for expenses as suggested by the Secretary of State. The resolution, which has been referred to the House Committee on Foreign Affairs, is as follows:

“That there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $15,000, or so much thereof as may be necessary, for the expenses of participation by the United States in the Inter-American Radio Conference.
to be held in 1937 at Habana, Cuba, including personal
services in the District of Columbia and elsewhere without
reference to the Classification Act of 1923, as amended;
stenographic reporting, translating, and other services by
contract if deemed necessary, without regard to section
3709 of the Revised Statutes (U. S. C., title 41, sec. 5);
rent; traveling expenses; purchase of necessary books,
documents, newspapers and periodicals; stationery; offi-
cial cards; printing and binding; entertainment; and
such other expenses as may be authorized by the Secre-
tary of State, including the reimbursement of other ap-
propriations from which payments may have been made
for any of the purposes herein specified."

An identical resolution (S. J. Res. 197) has been intro-
duced in the Senate by Senator Pittman, of Nevada,
which has been referred to the Senate Committee on
Foreign Relations.
A favorable report has been made on the House res-
olution.

STATUS OF RADIO LITIGATION

The following radio cases are now pending in the United
States Court of Appeals for the District of Columbia:

No. 6762—Paul R. Heitmeyer, Cheyenne, Wyo., vs.
FCC.

trict of Columbia:
No. 64232—Black River Valley Broadcasts, Inc., vs.
Anning S. Prall et al.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair com-
petition in complaints against the following firms. The
respondents will be given an opportunity to show cause
why cease and desist orders should not be issued against
them.

No. 3193. Alleging use of unfair methods of competition in the
sale of men's ready-made suits, overcoats and top coats, a complaint
has been issued against Joseph Cominsky, 678 Broadway, New
York City, trading as Waverley Tailors, Mayfair Clothing
Company, and Barclay Clothing Company.
The respondent is said to sell direct to customers through sales
agents whom he furnishes with order blanks which contain direc-
tions for taking measurements usually regarded as essential to the
tailing of a garment.
In soliciting customers through his agents, the complaint charges
that the respondent represents that he is a tailor or manufacturer;
that the ready-made wearing apparel sold and distributed by him
is tailored to fit, made to measure, custom-made, or made to order,
and that such garments are made in accordance with measurements
submitted by his agents and of a cloth having the same grade and
texture as the samples displayed and as selected by customers.
No. 3194. A complaint has been issued charging Franklin
Knitting Mills, Inc., 180 Madison Ave., New York, with use of
certain unfair methods of competition in violation of Section 5 of
Through use of the words "knitting mills" in its corporate name
which appears in advertising matter and on letterheads and in-
voices, the respondent company allegedly represents itself to be the
manufacturer of the knitted-wear products it sells in interstate
commerce. According to the complaint, the company does not
manufacture the knitted-wear merchandise it sells, and does not
own, operate or control a mill in which such products are made.
No. 3195. Confectioners Trading Corporation, 380 Throop
Ave., Brooklyn, is named respondent in a complaint alleging use
of certain unfair methods of competition in the interstate sale
of candy.
It is charged that the respondent company represents, through
its salesmen and on its business stationery and in other printed
matter, that it is the direct agent of the concerns manufacturing
the candy it sells and also the agent for certain customers and as
such manufactures candy to their order.
The complaint avers that the respondent company neither owns
nor operates a factory, does not make candy, is not a manufacturer's
agent, but only purchases and repacks the candy it sells.
No. 3196. Alleging a combination and conspiracy tending to
suppress competition and create monopoly in the sale of paper
fasteners, a complaint has been issued against Daniel A. Brennan,
10 South Lalanne St., Chicago, Ill., and Aco Products,
Inc., 3195 Ave. and 24th St., Long Island City, N. Y., said to
be the principal paper fastener manufacturer in the United States.
Brennan is said to have invented and obtained patents for certain
paper fasteners and to have licensed Aco Products, Inc., to manu-
facture and sell them, although, according to the complaint, the
company has not manufactured any of the fasteners patented by
Brennan.
Under an agreement alleged to have been entered into by Brennan
and Aco Products, Inc., other paper fastener manufacturers and
retailers of these products generally were allegedly circularized
by means of letters in Brennan's name threatening suit for in-
fringement of patents owned by Brennan. Such letters were not
mailed in good faith, it is charged, and the respondents allegedly
had no intention of bringing nor did they institute any such in-
fringement suits. The purpose of the letters, according to the
complaint, was to enhance the sale of the Aco company's products
and to harass Aco's competitors.
No. 3197. Alleging use of unfair methods of competition in the
sale of a bookkeeping system designed primarily for the use of
farmers, a complaint has been issued against Waido W. Townsley,
P. O. Box 3005, Kansas City, Mo., trading as Serval-System.
As an inducement to prospects to enter into contracts to become
terminal sales supervisors and to purchase a specified number of
Serval-System sets for resale, the respondent allegedly represents
that the systems are easy to sell and that he has sold a large num-
ber in a community. In support of these representations, the re-
The respondent is said to display the signed orders of a number of farmers with whom the prospect is acquainted.

The complaint charges that the systems are not easy to sell, and that sales to local farmers have been made at prices substantially lower than the regular or special prices marked on the sets, a fact which is not made known to the prospective supervisor.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2479. Sunnyland Distilling Co., 2119 West Main St., Louisville, Ky., has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not the case.

The respondent company is ordered to discontinue representing through use of the word "Distilling" in its corporate name, in advertising matter, on labels, or otherwise, that it distills whiskies, gins or other spiritsuous beverages; that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it does own or operate such a place.

No. 2740. Under an order to cease and desist, W. H. Bonfield, Warren, Ind., trading as Chiecopee Medicine Co., is directed to cease and desist from misrepresenting the therapeutic properties and effects of a medicinal preparation sold in interstate commerce as Chiecopee Native Indian Herbs.

The respondent is directed to discontinue advertising that the medicine is composed of native Indian herbs, or entirely of herbs or other vegetable products; that it will relieve any ailment at once, and is the oldest and most reliable medicine known.

No. 2813-2816. Three corporations have been ordered to cease and desist from representing as containing gold certain tableware and other articles which are made from an alloy of metals containing no gold and sold in interstate commerce under the designation of "Dirigold."

The respondent corporations, found to have engaged in such unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act, are The American Dirigold Corporation, 1142 South Main St., Kokomo, Ind.; Dirigold Metals Corporation, Barrington, III., and Dirigold Distributors, Inc., 70 East Jackson Blvd., Chicago.

Dirigold and the products made therefrom, according to the findings, do not contain gold, but are composed chiefly of aluminum and copper, such products being highly polished and so finished that they are of the color, luster and appearance of 14-karat or 18-karat gold. The name "Dirigold," it is said, is stamped on the respondent's ware, forms a prominent part of their trademarks, and is used on their letterheads and in other printed matter as a general descriptive term for such ware.

Findings are that advertising matter used in promoting the sale of the ware contained, in connection with the word "Dirigold," such descriptive phrases as "Solid not plated"; "Like the precious metals; Dirigold is solid clear through"; and "No home need be denied the rare luxury and beauty of gold on the table and in the home."

No. 2955. Prohibiting certain unfair methods of competition in the sale of aspirin, an order to cease and desist has been issued against Silver Roil Store Supply Co., Inc., 60 Broadway, Brooklyn, N. Y., and its subsidiary, Dale Drug Co., Inc., of the same address. Both companies sell Dale's Aspirin.

The respondents are directed to stop representing that they are, or that either of them was, the first or original manufacturer of or dealers in aspirin. They are also ordered to discontinue the assertion that prices marked or stamped on their products or on the containers thereof, are the regular or customary retail prices, when in fact such amounts as marked are fictitious and greatly in excess of the regular prices at which the products are sold at retail.

The respondents' product was sold as the Original Dale's Aspirin, when, according to findings, the respondents were not the first or original manufacturers of or dealers in aspirin, this product having been introduced in the United States in 1899 by a German company.

No. 3110. Reliable Typewriter & Adding Machine Co., Chicago, has been ordered to cease and desist from using certain unfair trade practices in "Sold not plated"; "Like the precious metals; Dirigold is solid clear through"; and "No home need be denied the rare luxury and beauty of gold on the table and in the home."

The respondents' product is ordered to discontinue representing in advertising matter, or otherwise, that its products will perform the same work as adding machines possessing features which its machines lack; that they have many of the features of more expensive adding machines, such as permanent records, sub-totals, or release devices for the correction of errors, or that they are to be considered the equal of machines possessing such features.

No. 3117. An order to cease and desist has been issued against Adolph Wein, 41 East 11th St., New York, trading as American Toy Works.

The order directs the respondent to cease representing through price lists, labels, circulars, containers or other printed matter, or by radio broadcasting, that any of the toys he sells which are made in Japan or another foreign country are manufactured in the United States.

No. 3117. An order has been issued to cease and desist against H. E. Wagley, trading as National Sales and as Paramount Sales, 508 South Dearborn St., Chicago. The order prohibits certain unfair competitive methods in the sale of clocks and other merchandise by means of lottery schemes.

The respondents are ordered to cease supplying dealers or others with pushcards or similar devices for use in the sale of clocks or other merchandise, and to cease selling or otherwise disclosing the fact that they are of the color, luster and appearance of 14-karat or 18-karat gold. The name "Dirigold," it is said, is stamped on the respondent's ware, forms a prominent part of their trademarks, and is used on their letterheads and in other printed matter as a general descriptive term for such ware.

Findings are that advertising matter used in promoting the sale of the ware contained, in connection with the word "Dirigold," such descriptive phrases as "Solid not plated"; "Like the precious metals; Dirigold is solid clear through"; and "No home need be denied the rare luxury and beauty of gold on the table and in the home."

No. 101825. Joseph Breyer, P. O. Box 39, Grand Central Annex, New York, trading as Nanta Company, agrees that in the sale of Nanta, a reducing preparation, he will cease representing that the product is an effective remedy for obesity. Such claim is qualified by a statement to the effect that it is recommended only in cases of excess weight due to overeating, drinking, indiscretion in diet, or toxic condition. The respondent also will stop representing that users of Nanta may expect to reduce weight in any specific amount within a definite period of time. The respondent is not to be prevented from using truthful testimonials properly verified before publication.

No. 101826. James McCreery & Co., 5th Ave. at 34th St., New York, stipulated that in advertising a perfume designated Parfum de Toilette, it will discontinue using the phrase "of France" in connection with the name of the product, so as to imply that the perfume is manufactured or compounded in France.

No. 101827. Prosperity Publishers, Inc., 697 East 219th St., New York, and its president, Albert G. Illech, trading as Prosperity Institute and engaged in the sale of books designated Library of Business Opportunities, will cease representing that their books enable one to operate immediately a producing mail order business without previous experience in such business and to increase his income to $100,000, or any definite or fabulous sum. The respondents will stop advertising that their books contain any scheme or plan whereby one may start making money within a week, or any other definite specified time. They also stipulated that the respondent is to discontinue from using any trade name containing the word "Institute."

No. 101828. G. Knewitz, 1309 Broadway, East St. Louis, III., selling medicinal preparations, will discontinue representing that Stoppake is a competent treatment for pain, irrespective of its cause, and enables one to avoid misery, suffering or distress. He also will cease using the name Ollax for a laxative remedy he sells, and will stop advertising that such product will prevent constipation and relieve rheumatism, high blood pressure or stomach, kidney or liver disorders.

No. 101828. A stipulation to stop certain false and misleading representations in advertising cosmetics and skin preparations has been entered into by Muriel Maxwell Harvey, 233 Grant Ave., Manhattan Bank Building, New York, trading as Vahrah Beverly.

The respondent will cease representing that any of her preparations, sold under various designations, will free the neck of double chin or heavy lines restore its youthful contour; banish wrinkles, crow's feet or sagging muscles; rid the skin of blackheads, or revitalize or rebuild the tissues.

No. 101830. Frank L. Miller, trading as Artists and Models Studio, Manhattan Bank Building, Memphis, Tennessee, has been ordered to discontinue using false and misleading advertising in connection with the sale of art studies and a correspondence course of instruction in art.

The respondents agreed to cease representing that their so-called sight-correcting art course enables the student instantly to correct mistakes in drawing and to make "big money"; that all necessary
materials are included with the course, and that the price charged for the course is a limited offer, unless a definite time limit for the expiration of such offer is determined.

No. 01831. H. Birnbaum, 154 Nassau St., New York, trading as Fashion Jewelry Company, agrees to cease advertising that certain rings and watches sold by him are hand-engraved or chased, unless it is clearly shown that the ring is to be used with massage for the removal of superficial fat, and will cease representing that users may lose weight without limiting their diets or while eating what they like.

No. 01832. Louis Tillery, M. D., 4546 South State St., Chicago, selling Vitality Tablets, Laxative Pills, and Diuretic Pills, will stop advertising that these preparations constitute a competent treatment for lost vitality, or will overcome fatigue, eliminate poison from the system, or stimulate all glands. He also agreed to cease representing that any goods are given free, so long as they are given only to reimburse agents for shipping costs on merchandise purchased, or on any other condition whereby the recipient is expected to make any payment or perform any service before qualifying to receive the goods.

No. 01833. Solomon Michelson, 74 Bowery, New York City, trading as The New York Jobbers, will cease representing that the rebuilt watches he sells are new, and, in advertising such watches, will publish in conspicuous type a statement to the effect that they are not new, but are rebuilt. The respondent also will stop asserting that any of the watches he offers for sale are engraved, unless such is a fact.

No. 0223. Samuel Friedman, 121 East 21st St., New York, trading as Hrite Specialty Company, will cease stamping or branding wrist watch buckles with the words “gold filled,” when such products do not contain a coating of gold of such substantial thickness as to be properly and accurately designated or referred to as gold filled.

No. 0234. Roselux Chemical Company, Inc., 1100 Rockaway Ave., Brooklyn, selling Rose-X, a cleaning compound, agrees to stop using on labels or in any other manner the words “removes stains” so as to imply that the product will remove stains of all types, when such is not a fact. The company also will refrain from using the words “excellent for the hands,” as descriptive of Rose-X, so as to imply that the product possesses properties of value or effect or benefit to the hands, when such is not a fact.

No. 0235. Peter J. Bough, 268 14th Ave., North, Clinton, Iowa, in his stipulation, agrees to stop using in advertising matter or in any other way the phrase “water-proof cement burial vault that endures forever.” He will stop employing these or any other words of similar meaning implying that the products to which they refer will remain water-proof for all time, or any fixed period of time, regardless of varying climatic conditions and of chemical and other conditions of the soil in which the products are placed for burial.

No. 0236. A. E. Halperin Company, Inc., 267 Atlantic Ave., Boston, will discontinue representing or advertising that certain bandages it sells are sterilized or sanitary, unless they are sterilized and free from bacteria after they have been packaged and while contained in their original package.

No. 0237. National Plywood Co., Inc., 411 East 19th St., New York, agrees to cease using the words “white pine,” either independently or in connection with “California” or other words, as descriptive of products not made of wood derived from trees of the botanical species from which white pine is known to be derived. The respondent company also agrees to stop using the word “walnut” alone or in connection with the word “Oriental,” or with other words, as descriptive of products not made of wood derived from trees of the walnut tree family.

No. 0238. Saks & Co., operating two department stores in New York and one in Chicago, agrees to stop certain misrepresentations in the sale of merchandise. The respondent company will no longer use the expression “custom-made” to designate clothing not made to order or to the measure of an individual customer; will cease representations to the effect that certain shirts have a regular or customary retail selling price of a designated amount, when in fact such designated amount is in excess of the prices for which the shirts are regularly sold, and will cease using the word “silk” without qualification to describe products not made entirely of silk, but containing quantities of mineral salts or substances other than silk, such articles being known as “weighted” silks. The stipulation provides for certain qualifications if the products advertised are composed of silk weighted to an amount exceeding 15 per cent in black goods, or to an amount exceeding 30 per cent in goods other than black. The words “silk,” “satin,” and “crepe,” according to the stipulation, will not be used either alone or in connection with other words so as to imply that the products to which they refer are made of silk, when such is not a fact.

No. 0239. Under a stipulation entered into, Alfred Rugeti, 509 Maine Ave., Los Angeles, trading as Mission Manufacturing Company, will discontinue misbranding certain shoe laces he manufactures and sells in interstate commerce.

According to the stipulation, Rugeti used the designation “Art Silk” on shoe laces which were not composed of silk. He agrees to cease using the word “silk” either alone or in connection with the letters “Art,” or with any words, so as to imply that the products so branded are composed of silk.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 16.

The Broadcast Division has taken the following action subject to ratification at its next regular meeting:

APPLICATIONS GRANTED

WMO—WMO, Inc., Auburn, N. Y.—Granted extension of test period 30 days from August 10, 1937.

KMLB—Radio Station KMLB, Monroe, La.—Granted authority to use general radio 547A automatic temperature control chamber with Bileley A cut crystal for period not to exceed 30 days, pending repair to regular authorized chamber.

KGDY—Voice of South Dakota, Huron, S. Dak.—Granted extension special temporary authority to remain silent for the period August 1 to 31, 1937, for the purpose of rebuilding transmitter to comply with Rule 132.

WLS—Agricultural Broadcasting Co., Chicago, III.—Granted special temporary authority to waive regularly required sign-off and sign-on announcements during concerts only sponsored by Mayor Kelly of City of Chicago and James C. Petriello, head of Chicago Union of American Federation of Musicians, commencing at 8 p. m. and for a period not to exceed 30 days, provided proper announcement is made immediately before and after concert.

WENR—National Broadcasting Co., Inc., Chicago, III.— Granted special temporary authority to waive regularly required sign-off and sign-on announcements during concerts only sponsored by Mayor Kelly of City of Chicago and James C. Petriello, head of Chicago Union of American Federation of Musicians, commencing at 8 p. m. and for a period not to exceed 30 days, provided proper announcement is made immediately before and after concert.

WHD—The Upper Michigan Broadcasting Co., Calumet, Mich.— Granted special temporary authority to operate from 7 to 9 a. m., CST, the following Sundays: August 8, 15, 22 and 29, in order to broadcast programs now heard Sunday afternoons, due to belief that audience is larger during mornings than afternoons.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to increase power to 1 KW nights in order to counteract interference caused by station CMKX, Havana, Cuba, and stations WWJ, Detroit, and KPRC, Houston, for period August 5 to September 1, 1937.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to increase power to 1 KW nights in order to counteract interference caused by station CMX, Havana, Cuba, and stations WWJ, Detroit and KPRC, Houston, for period August 5 to September 1, 1937.
APPLICATIONS RECEIVED

First Zone

NEW—Platt & Platt, Inc., Poughkeepsie, N. Y.—Construction permit for a new broadcast station to be operated on 1310 kc., 100 watts, unlimited hours of operation. Requests facilities of Station WMBO.

NEW—Santo Sottile, Charleston, S. C.—Construction permit to operate a new experimental broadcast station to be operated on 500 kc., 1 KW, hours of operation from unlimited to limited to local sunset at WBO.

NEW—Crestwood Broadcasting Corporation, New York, N. Y.—Modification of construction permit (B1-PRY-37) for a new relay broadcast station.

NEW—Cuyahoga Valley Broadcasting Company, Cleveland, Ohio.—Construction permit to install a new transmitter and antenna, and move transmitter.

NEW—Cadillac Broadcasting Co., Detroit, Mich.—Construction permit to install new transmitter and antenna, and move of transmitter.

Second Zone

NEW—Charleston Broadcasting Company, Charleston, W. Va.—Construction permit to install vertical antenna; increase power from 500 watts to 1 KW. Amended to install directional antenna for night use, install a new transmitter, and move transmitter from 4 miles southwest of Charleston, W. Va., to Huntington Highway, 5 miles west of Charleston, Jefferson District, W. Va.

NEW—Pennsylvania Broadcasting Company, Philadelphia, Pa.—License to cover construction permit (B2-P-1484) for new transmitter and antenna, and move of transmitter.

NEW—Cadillac Broadcasting Co., Detroit, Mich.—Construction permit for a new broadcast station to be operated on 1140 kc., 500 watts power, daytime hours of operation.

NEW—Cuyahoga Valley Broadcasting Company, Cleveland, Ohio.—Construction permit for a new experimental broadcast station to be operated on 150000 kc., 500 watts.

Third Zone

NEW—J. T. Griffin, Fort Smith, Ark.—Construction permit for a new broadcast station to be operated on 880 kc., 1 KW power, daytime hours of operation.

NEW—Santo Sottile, Charleston, S. C.—Construction permit to erect a new station to be operated on 1300 kc., 100 watts night, 250 watts daytime power, unlimited hours of operation.
NEW—Valley Publishing Co., Harlingen, Tex.—Construction permit for a new broadcast station to be operated on 1200 kc., 100 watts, 250 watts day, unlimited time.

KOCA—Oil Capital Broadcasting Association, James G. Ulmer, President, Kilgore, Tex.—License to cover construction permit (B5-P-1907) for equipment changes and increase in power.

NEW—Colonial Broadcasters, Inc., Savannah, Ga.—Construction permit for a new station to be operated on 1310 kc., 100 watts power, unlimited time. Amended to make changes in equipment and antenna.

KFRO—Voice of Longview, Longview, Tex.—Authority to transfer control of corporation from Rogers Lacy to James R. Curtis, 5000 shares of common stock.

WJBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Construction permit for a new station to be operated on 1450 kc., Stevens Point, Wis.—Modification of license to change frequency, power, hours of operation and equipment.

WAGA—Liberty Broadcasting Co., Atlanta, Ga.—License to cover construction permit (B3-P-745) as modified for changes in frequency, power, hours of operation and equipment.

WAGA—Liberty Broadcasting Co., Atlanta, Ga.—License to cover construction permit (B3-P-745) as modified for new equipment, increase in power and move of transmitter and studio.

W4XB—Isle of Dreams Broadcasting Corp., Laurence E. Dutton, Miami Beach, Fla.—Modification of construction permit (B3-PA-15) to move transmitter from Collins Island, Miami Beach, Fl., to N. W. 18th Ave. and 32nd St., Miami, Fl., and extend commencement date from 3-19-37 to 60 days after grant and completion date from 9-19-37 to 180 days after date of commencement.

KMLB—Liner’s Broadcasting Station, Inc., Monroe, La.—Authority to install new automatic frequency control equipment.

NEW—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 3 watts.

Fourth Zone

WIND—Johnson Kennedy Radio Corp., Gary, Ind.—License to cover construction permit (B4-P-1620) for changes in directional antenna.

WLBI—State of Wisconsin, Department of Agriculture and Markets, Stevens Point, Wis.—Modification of license to change power from 1 1/2 KW to 1 KW night and 5 KW day, and specified hours from 8 a. m. to local sunset to 8 a. m. to 10 p. m., CST. Amended: Change requested power from 1 KW night, 5 KW day, to 1 KW night and 2 1/2 KW day, from 8 a. m. to local sunset to from 6 a. m. to 10 p. m., CST.

WISN—Heard Radio, Inc., Milwaukee, Wis.—Construction permit for a new W.E. Type 6-B transmitter from 533 East Wells St., Milwaukee, Wis., to 231 West Michigan Street, Milwaukee, Wis., to be used as an auxiliary transmitter.

KGLO—Mason City Globe Gazette Co., Mason City, Iowa.—License to cover construction permit (B4-P-1569) as modified for changes in equipment and increase in power.

KSTP—National Battery Broadcasting Company, St. Paul, Minn. 1460—Special experimental authorization to operate a facsimile station from 1 a. m. to 6 a. m., using 10 KW power.

WAAR—Rockford Broadcasters, Inc., Rockford, Ill.—License to cover construction permit (B4-PRY-22) as modified for a new relay broadcast station.

KIGA—National Battery Broadcasting Company, Mobile.—License to cover above (frequency).

NEW—Woodman of the World Insurance Assn., Omaha, Nebr.—Construction permit for a new low frequency relay broadcast station on 1622, 2058, 2150 and 2790 kc., 100 watts power (Section 7(d) and 11(b).

KIGA—National Battery Broadcasting Co., Mobile.—Construction permit for a new transmitter, increase power from 7.5 watts to 16 watts (frequency and equipment).

Fifth Zone

KGW—Oregonian Publishing Company, Portland, Ore.—Authority to determine operating power by direct measurement of antenna power.

KNX—Columbia Broadcasting System, Inc., Los Angeles, Calif.—Construction permit to install a new transmitter, make changes in antenna, move transmitter from 5049 Gloria St., Los Angeles, Calif., to site to be determined. Amended to give transmitter site as 190th St. and Hawthorne Ave., El Nido, Calif.

KGDM—E. F. Peffer, Stockton, Calif.—Construction permit to install new transmitter changes in antenna; increase power from 1 to 5 KW; change frequency from 1100 kc. to 1150 kc.; change hours of operation from day to limited; and move transmitter from Lots 4 and 5, Clarkadota Subdivision No. 3, Stockton, Calif., to site to be determined, Stockton, Calif.

KOL—Seattle Broadcasting Co., Seattle, Wash.—Modification of license to change frequency from 1270 kc. to 1040 kc. and increase power from 1 KW night, 5 KW day, to 5 KW day and night. Amended to change requested frequency from 1040 kc. to 1020 kc.

KMED—Mrs. W. J. Virgin, Medford, Ore.—Construction permit for a new transmitter (geographic location).

KALO—Intermountain Broadcasting Corporation, Salt Lake City, Utah.—Reinstatement of construction permit (B5-PRY-48) for new relay broadcast station on 1606, 2022, 2102, 2758 kc., 75 watts, unlimited time.

KALO—Intermountain Broadcasting Corporation, Salt Lake City, Utah.—License to cover above.

NEW—KLZ Broadcasting Co., Denver, Colo.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 1 watt.

W6XUC—Intermountain Broadcasting Corporation, Salt Lake City, Utah.—Construction permit for new high frequency relay broadcast stations on 150000, 200000, 250000 and 300000 kc., 5 watts, unlimited time.
SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC.

(SESAC)

595
SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC. (SESAC)

To All Members:

Frequently we have been asked, "What about the Society of European Stage Authors and Composers, Incorporated?" (SESAC).

In several conversations beginning in January, 1936, we endeavored to obtain from the SESAC a list of the musical selections it owns or controls. The information was not furnished us.

Because of the equivocal terms and phrases contained in the SESAC's license agreements (copies of which marked Exhibits 1 and 2 are attached to and made a part of this report), we were unable to determine from that instrument specifically what the SESAC had to offer.

For these reasons and in order that we might be fully informed, we addressed a letter interrogatory to the SESAC. A copy of this letter dated October 14, 1936, marked Exhibit 3, is attached to and made a part of this report. A copy of this letter was sent to all member stations.

It was our belief that clear and unequivocal answers to the questions contained in our letter to the SESAC were necessary before members could decide whether they need the SESAC music, and whether the price asked is reasonable for such SESAC music as is available to them, and which is usable in building radio programs for American radio listeners.

The SESAC's reply to our letter dated November 19, 1936, was received by us on December 11, 1936. A copy of this letter, marked Exhibit 4, is attached to and made a part of this report.

Previsously there had been an exchange of correspondence concerning questions which had arisen from an examination of the SESAC brochure dated June 1, 1936. These letters will be referred to hereafter in this report, and for this reason, copies, marked Exhibit 5 and Exhibit 6, are attached to and made a part of this report.

The reply which we received from the SESAC (Exhibit 4) seemed to us to display a lack of cooperation in supplying to the members necessary information. We believe also that the SESAC's reply was unduly evasive.

Our next step was to make an examination of the musical copyright entries in the United States Library of Congress for the purpose of determining what musical copyright entries, if any, had been entered by or on behalf of the several publishers or organizations identified in the SESAC brochure dated June 1, 1936. A copy of this brochure marked Exhibit 7 is attached to and made a part of this report.

"Me Stelnis Manna Stin Amerike"

Don't Send Me Mother to America

During the early days of our investigation of the musical copyright entries in the United States Library of Congress, we discovered the Greek title, which according to the translation contained in the copyright entries reads: "Don't Send Me Mother To America". This selection found accredited to the Apollo Music Company proved to us the correctness of our theory that the broadcaster is entitled to inspect the package he is asked to buy.

The SESAC brochure dated June 1, 1936, contains the names of what appear to be 76 publishers or organizations. Duplications in the items contained in this brochure reduce the number of publishers or organizations to 52. In addition, 17 publishers or organizations were eliminated from consideration by the SESAC's admission (see Exhibits 5 and 6) that these have to do only with "grand rights" or other rights not included in the SESAC license agreement with stations. In other words, broadcasters who entered into license agreements with the SESAC as of about June 1, 1936, apparently acquired the right to perform musical selections of 35 publishers or organizations instead of 76, as displayed in their June 1, 1936 brochure. In this connection broadcasters will observe the statement appearing at the head of the June 1, 1936 brochure, "The following enumeration is the list contained in SESAC's Regular Performance Licenses as supplemented by recent acquisitions".

Under date of January 1, 1937, the SESAC distributed a new brochure, a copy of which, marked Exhibit 8, is attached to and made a part of this report. With the appearance of this January 1, 1937
tract existing between the ASCAP and Victor Herbert it is our belief that the entire and exclusive right
valid only during the period of the original copyright (1895-1923) and because of the terms of the con¬
he may thereafter have any right, title or interest whatsoever, in whole or in part.
assign, transfer and set over to the Society the entire exclusive right of public performance in each musical
composition which he may during the life of the agreement, write, etc., alone, jointly, etc., or in which
been identified as a member of the ASCAP) and was subject to the clause in the ASCAP contract with
progress disclosed that the only application for renewal of the composition “Badinage” was made by Nathan
Burkan, late general counsel of the ASCAP, in the name of Victor Herbert, on September 12, 1922. A
copy of this renewal, marked Exhibit 107, is attached to and made a part of this report.

We find, on examination of the musical copyright entries in the Library of Congress, that a total of
approximately 5,500 unexpired musical copyright entries are credited to these 62 publishers or or¬
dinations. The distribution of these musical copyright entries are shown in a statement marked Exhibit 9,
which is attached to and made a part of this report.

It will be observed (Exhibit 9), according to our finding, that of these 62 publishers or organizations,
13 were not credited with any musical copyright entries, 3 had not been credited with any musical copy¬
right entries during the last 10 years; and 35 had been credited with a total of less than 50 entries each
during the last 10 years. The remaining 11 publishers and the number of musical copyright entries which
we found credited to each, as of April 1, 1937, follow:

APOLLO MUSIC PUBLISHING CO. (Greek) a total of 151 entries.
ARCT, M. (Polish) a total of 169 entries.
CALUMET PUBLISHING COMPANY (American) a total of 283 entries.
COLE, M. M. PUBLISHING CO. (American) a total of 104 entries.

RONDOWO VERLAG (German) a total of 281 entries.
SCHUBERTH, EDWARD AND CO. (American) a total of 1283 entries.

RENEWAL OF COPYRIGHTS

An examination of the catalogues referred to in this report requires that careful consideration be
given to the questions which arise in connection with the renewal of copyrights. The copyright in a
musical selection protects the owner of the copyright for a period of 28 years. The copyright law of the
United States also permits a renewal of the copyright for an additional period of 28 years. The law
specifically provides that a renewal of copyright can be made only by the author or composer, his heirs
or next of kin (Sections 23 and 24 of the Copyright Act of 1909 as amended). We are confronted
with some serious problems in this report because in numerous instances we found that the renewals
had been made by persons or firms other than the author or composer, his heirs or next of kin, and
there is no information available at the United States Library of Congress to show whether these
persons were acting as the authorized agents of the author or composer, or of his heirs or next of kin;
and more important whether, if he was duly authorized to make the renewal, he acquired the right to
dispense the performing rights in the music.

As indicated in our letter to the ASCAP (Exhibit 10), it is our belief that the performance rights in
the composition “Badinage”, one of the most popular and best known compositions of Victor Herbert, are
controlled only by the ASCAP. Victor Herbert, on August 9, 1895, “sold and assigned for all times and
for all countries to Edward Schuberth & Company all my right, title and interest in my composition, bear¬
ing in the manuscript the title of ‘Badinage’—for orchestra, arrangement for piano by Alex Rihm”. A
copy of this assignment, marked Exhibit 106, is attached to and made a part of this report. Our search
disclosed that “Badinage” was first registered for copyright on September 4, 1895, by Edward Schuberth
& Company.

It will be observed that the assignment of “Badinage” was for “all times”. The United States
Supreme Court established the principle that no assignment of copyright or of the right to copyright can
anticipate or assign away the right of renewal which is conferred upon the author, widow, children, next
of kin, or executor by statute (Paige v. Banks, 80 U. S. 608).

Our examination of the renewal records in the Copyright Office of the United States Library of Con¬
gress disclosed that the only application for renewal of the composition “Badinage” was made by Nathan
Burkan, late general counsel of the ASCAP, in the name of Victor Herbert, on September 12, 1922. A
copy of this renewal, marked Exhibit 107, is attached to and made a part of this report.

In 1921, 1922 and 1923 Victor Herbert was a member of the ASCAP (since his death his estate has
been identified as a member of the ASCAP) and was subject to the clause in the ASCAP contract with
each of its members which provides that such member (composer or author) agrees irrevocably to sell,
assign, transfer and set over to the Society the entire exclusive right of public performance in each musical
composition which he may during the life of the agreement, write, etc., alone, jointly, etc., or in which
he may thereafter have any right, title or interest whatsoever, in whole or in part.

Consequently the fact that the assignment of “Badinage” to Edward Schuberth & Company was
valid only during the period of the original copyright (1895-1923) and because of the terms of the con¬
tract existing between the ASCAP and Victor Herbert it is our belief that the entire and exclusive right
of public performance automatically vested in the ASCAP immediately upon the commencement of the second 28-year copyright period, from September 4, 1923. It would appear therefore that only those broadcasters who are licensees of the ASCAP have the right to use "Badinage".

Based on a preliminary investigation, it is our belief that a great many renewals are made by persons without authority who hope to secure subsequent authorization from the rightful owner to dispense the performing and publishing rights in the music.

We have not yet exhausted all means of obtaining information concerning renewals. To do so, we must communicate with the author or composer, or his heirs or next of kin, in the case of each musical selection which has been renewed. This we hope to do, but checking the number of selections involved and ascertaining the correct address of the persons concerned would consume so much time as to destroy the value of this report in all other respects.

WORKS OF ASCAP MEMBERS

It will be observed that some of the musical selections referred to in this report were composed by (a) persons who are identified as members of the ASCAP, and (b) a member of the ASCAP, and a non-member of the ASCAP jointly. These circumstances require an examination of the contract between the ASCAP and its members. Our interpretation of the contract between the ASCAP and its member is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921, are in effect now, and were in effect in the period from January 1, 1931 to December 31, 1935, the period in which the SESAC selections here in question were copyrighted or renewed. It is our belief, therefore, that the musical selections contained in this report which were written either by a member of the ASCAP, or by a member of the ASCAP jointly with a non-member can be performed under an ASCAP license.

This general conclusion was submitted to the ASCAP under date of January 26, 1937, and in reply we were advised by the ASCAP that it was unwilling to take any definite general position, but expressed the willingness to answer the question as to any specific composition by title, and added "but would prefer to answer these questions upon inquiry direct from a licensee". A copy of this letter to the ASCAP and its reply thereto, marked Exhibit 10 and Exhibit 11, are attached to and made a part of this report.

Thereafter, and on February 15, 1937, a similar letter was addressed to the ASCAP by a member station. A copy of this letter and its reply thereto, dated February 16, 1937, marked Exhibit 12 and Exhibit 13, are attached to and made a part of this report. It will be observed by reference to the ASCAP's letter dated February 16, 1937 (Exhibit 13) that it declined to give the member station any general ruling, but stated it would be very glad to analyze any list of works which the member might send them, and would inform the member specifically as to which of them may be considered in the ASCAP repertory and "embraced in its license". Pursuant to this suggestion, the member station addressed a detailed letter to the ASCAP under date of March 1, 1937. A copy of this letter (marked Exhibit 14) is attached to and made a part of this report. So far, this letter, as well as follow-up letters dated April 30, and May 29, have not been answered. These letters should indicate to the members some of the problems involved in a study of this character.

Also, these problems show the urgent need for remedial copyright legislation. In fairness both to the creators of music and to the users of music, the law should prescribe some form of registration which will make known to all concerned the true owners and their authorized agents in all copyrights. In the absence of complete and authoritative information from each musical licensing society concerning its repertory the user has only the remedy of avoiding the use of any music in question.

The SESAC in its reply dated November 19, 1936 (Exhibit 4) said, "As you know, the U. S. District Court in the case of Penn Broadcasting Corporation vs. American Society of Composers, Authors and Publishers, ruled, as a matter of law, that such catalogs are not required to be furnished, and that if desired, the purchaser should pay the expense of compilation". In this connection, there is attached hereto and made a part of this report, Exhibit 15 which shows that the Court found that the defendant (ASCAP) must "State the number of musical compositions copyrighted under the laws of the United States the public performance rights to which have been acquired by said Society", and that it must "State the title and composer's name of all copyrighted compositions, copyrighted under the laws of the United States, the public performance rights to which have been acquired by said Society during the period from January 1, 1933, to December 31, 1933". The Court did hold that the cost of compilation should be borne by the plaintiff, and required the defendant to furnish plaintiff an estimate of the cost of making such compilation within ten days; and gave the plaintiff the right to contest the reasonableness of the charges.
The following chapters, which deal with individual catalogues, under the SESAC, are designed to show to the broadcasters by title, name of author, composer, and publisher, all of the musical selections which we could find credited to these "publishers or organizations" in the musical copyright entries of the United States Library of Congress, as of April 1, 1937. These data should enable the broadcasters to evaluate the need for the music in all these catalogues with the possible exception of the Spanish catalogues. According to popular opinion the tango is Spanish. However, according to a reliable Spanish authority, the tango originated in Argentina. Therefore, to assist the broadcasters in evaluating the need or worth of the approximately 71 selections contained in the eight Spanish catalogues, we offer the information contained in Exhibit 16 which is attached to and made a part of this report.

Some broadcasters may be confused by the fact that the names of many of the Polish composers sometimes have the suffix "iego" or "a" added thereto. These suffixes, "iego" and "a" indicate the possessive. Thus "Z. Bialostocki" and "Z. Bialostockiego" appearing in items 73 and 87 on page 98 are one and the same person. Also "A. Wlast" and "A. Wlasta" appearing in items 87 and 92 are one and the same person.

In addition to searching the musical copyright entries we examined also the assignment records. Copies of all assignments found related to the subject of this report are attached hereto as exhibits. These exhibits are furnished to show the character of the assignment and the names of the persons executing the same. Of unusual interest are those assignments to the SESAC which read for example (Exhibits 59-65 inclusive):

"Signed A.—B. Carl Gehrmans Musikforlag

By—Society of European Stage Authors and Composers, Inc., Attorneys.

KURT A. JADASSOHN,
Vice President."

It will be observed that these assignments appear to convey to the SESAC all title and interest in the music named. We have no explanation for the discrepancies between the musical copyright entries and the assignments. In this connection we would point out that of the 1283 musical copyright entries credited to Edward Schuberth and Company, twelve have been assigned to the SESAC and that it was one of these twelve, "As We Part", which was the basis of the suit by the SESAC against the Pennsylvania Hotel in New York City.

The information in this report respecting names of authors, composers and publishers and dates, titles, assignments, etc., was compiled from the records of the United States Library of Congress.

The Managing Director has been assisted in the preparation of this report by Edward J. Fitzgerald, Director of the Bureau of Copyrights and Leonard D. Callahan, Assistant to the Managing Director. It is submitted as of April 1, 1937. Additional data concerning new entries or new catalogues will be made from time to time.

We express our sincere appreciation for the cooperation and courtesies extended to us during the course of this investigation by the officials and employees of the Office of the Register of Copyrights and of the Music Division of the United States Library of Congress and of the Bureau of Foreign and Domestic Commerce of the United States Department of Commerce.
Accordion Music Publishing Company
New York, N. Y.

An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937, failed to disclose any entries under the name of ACCORDION MUSIC PUBLISHING COMPANY, New York, N. Y., listed in an announcement by the SESAC, dated February 3, 1937, as a publisher or organization included under its license.
An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937, disclosed the following entries under the name of AHN & SIMROCK, G. m. b. H., Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

**Period 1870–1909**

1. **ACH AMALIA**
   aus "Die Kino Konigin" (pf. mit text) by Jean Gilbert, G. Okonkowski, and Julius Freund, arr. by Otto Lindemann. c. Mar. 10, 1913.
2. **L’AMOUR ET LA VIE**
   (pf.) by Jean Gilbert, arr. by C. Morena. c. Nov. 24, 1911.
3. **ANGST (DIE) VON DER EHE**
4. **ANGST (DIE) VON DER EHE**
5. **BABY**
6. **CASTELL-VAJOUR**
   aus "Die Moderne Eva" (salon orch.) by Jean Gilbert, arr. by C. Morena. c. Oct. 16, 1911.
7. **CASTELL-VAJOUR**
   aus "Die Moderne Eva" (orch.) by Jean Gilbert, arr. by C. Morena. c. Oct. 16, 1911.
8. **CASTELL-VAJOUR**
   (pf.) by Jean Gilbert, arr. by C. Morena. c. Oct. 16, 1911.
9. **CHAMPAGNER MARSch**
   "Die Angst Von Der Ehe" (pf. mit text) by Erich Urban, Louis Taufstein, and E. N. von Reznicek. arr. by G. Okonkowski. c. Apr. 15, 1914.
10. **DANN MACHT MAN NEN JUPPLALA-JUPPLALA**
    aus "Die Kino Konigin" (pf. mit text) by G. Okonkowski, Julius Freund, and Jean Gilbert, arr. by O. Lindemann. c. Mar. 10, 1913.
11. **DAS IST DIE MODERNE FRAU**
    aus "Die Moderne Eva" (Gesarz und pf.) by Jean Gilbert, G. Okonkowski, and A. Schönfeld. c. Oct. 16, 1911.
12. **DAS MUSST’ EIN EIGENER ZAUBER SEIN**
    "Die Angst Von Der Ehe" (pf. mit text) by Erich Urban, Louis Taufstein, and E. N. von Reznicek. c. Apr. 10, 1914.
13. **DEM MAI ENTGEGEN**
    aus "Die Angst Von Der Ehe" (pf. mit text) by E. N. von Reznicek, arr. by C. Morena. c. April 8, 1914.
14. **DIVERTISSEMENT**
    aus "Die Moderne Eva" (pf. mit text) by Jean Gilbert, arr. by C. Morena. c. Oct. 21, 1911.
15. **EINFACHEN EIN REZITATIVE**
16. **ENTFUHRUNG (DIE) AUS DEM SERAIL**
    (recitative mit kl.) by W. A. Mozart and Max Schillings, arr. by E. Gerhauser. c. Aug. 16, 1911.
17. **EVA WALZER**
    aus "Die Moderne Eva" (orch.) by Jean Gilbert, arr. by C. Morena. c. Nov. 16, 1911.
18. **EVA WALZER**
    aus "Die Moderne Eva" (salon orch.), by Jean Gilbert, arr. by C. Morena. c. Nov. 16, 1911.
19. **EVA WALZER**
    aus "Die Moderne Eva" (pf. mit text), by Jean Gilbert. arr. by C. Morena. c. Oct. 16, 1911.
20. **FRAU BARBEL**
21. **FROSCH TERZETT**
    aus "Der Lumpenprinz" (pf. mit text) by Josef Snaga and Leo Kastner. c. June 14, 1912.
22. **FROU-FOU-WALZER**
23. **FUNFUHRTEE (DER)**
    potpourri (pf.) by Theodor Blumer. c. Oct. 18, 1911.
24. **FUNFUHRTEE (DER)**
    (pf.) by Theodor Blumer. c. Oct. 18, 1911.
25. **FUNFUHRTEE (DER)**
26. **GEWISSE (DAS) ETWAS**
27. **GISI WALZER**
    aus "Der Lustige Kakadu" (pf. mit text) by Heinz Lewin, arr. by C. Morena. c. Jan. 4, 1912.
28. **GRAF (DER) CASTELL VAJOUR**
    from "Die Moderne Eva" (pf.) by Jean Gilbert, G. Okonkowski, and A. Schönfeld. c. Oct. 11, 1911.
29. **GRAF HABENICHT**
    (pf. mit text) by Robt. Winterberg, Jean Kren, and Bernhard Buchbinder. c. Nov. 20, 1918.
30. **HUMSTI BUMSTI**
31. **IN DER NACHT**
    aus "Der Kino Konigin" (pf.) by G. Okonkowski, Julius Freund, and Jean Gilbert, arr. by O. Lindemann. c. Mar. 22, 1913.
32. **JEDER MANN, WENN ER KANN, MACHT ’NEN SEITENSPRUNG**
    aus "Die Moderne Eva" (pf.) by Jean Gilbert, G. Okonkowski, and A. Schönfeld. Oct. 11, 1911.
33. **KAKADU RHEINLANDER**
34. **KAKADU RHEINLANDER**
    aus "Der Lustige Kakadu" (pf.) by Heinz Lewin, arr. by C. Morena. c. Jan. 4, 1912.
35. **KAKADU RHEINLANDER**
    aus "Der Lustige Kakadu" (salon orch.) by Heinz Lewin, arr. by C. Morena. c. Aug. 28, 1912.
36. **KINO KONIGIN (DIE)**
    potpourri (pf. mit text) by Jean Gilbert, G. Okonkowski, and Julius Freund, arr. by O. Lindemann. c. May 16, 1913.
No copyright entries found.

An examination of the assignment records in the United States Library of Congress shows that of the above, thirty have been assigned to the SESAC and eight have been assigned to Nathan Burkan, late general counsel of the ASCAP. Copies of these assignments marked Exhibits 17 to 19 inclusive, are attached to and made a part of this report. The assignments made to Mr. Burkan in 1931 are shown here to enable broadcasters to evaluate the statement contained in Item 14 of the SESAC letter dated November 19, 1936 (Exhibit 4) that "as to all the following (and this embraces some 50 repertories), we control the complete body of radio performing rights: Ahn u Simrock Buhnenverlag, Berlin * * *.”

From a reliable source we are informed “this firm does not handle orchestral, classical or popular sheet music. It publishes (and acts as jobber for) theater plays.”

Of further interest to broadcasters should be the statement contained in a letter received from AHN AND SIMROCK BUHNENVERLAG dated September 22, 1936 that after December 31, 1937, AHN AND SIMROCK BUHNENVERLAG would be represented by the ASCAP. A copy of this letter marked Exhibit 20, is attached to and made a part of this report.

This catalogue may be of value to those broadcasters who cannot operate in the public interest, convenience and necessity without the use of German music taken largely from German theater plays written prior to 1927.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entry under the name of J. ALTSCHULER, Warsaw, Poland, listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.

No copyright entries found.

1935—April 1, 1937

1. (1) W NIEDZIELE (2) WACUS
   (3) NIE MOGE ZYC BEZ
   CIEBIE
   piosenki z filmu (voice & pf.)
   by W. Dan and Oldlen. c. Dec.
   27, 1935.

The compositions contained in this catalogue probably have a certain performance value to those broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of APOLLO MUSIC COMPANY, listed in the SESAC brochure dated June 1, 1936 as a “publisher or organization” included under its license.

Period 1870–1926

No copyright entries found.

Period 1927–April 1, 1937

The following list: ((E2) indicates unpublished copyright entries.)

Title Phonetically Spelled

2. AEDONIA (song) by S. S. Lontos-Sagiantaxis. c. Sept. 29, 1933.
4. AGAPIS LOGIA by Hadjiapostolou. c. Aug. 21, 1935.
7. AMAMI (E2) (pf.) by Alberto Rizzi. c. Apr. 16, 1928.
8. AMANTE DEL CUORE (E2) (violin) by Vincenzo Paladino. c. Oct. 8, 1930.
16. APPASSIONATA (E2) (violin) by Francesco Rizzi. c. June 27, 1930.

| 115. SI O NO? (E2)                          | by Ida DeFeo.                         | c. Feb. 25, 1929.
The 146 selections represented in the above 151 entries are divided as follows: 71 original published selections; 52 unpublished selections; 23 republished musical selections, (Public Domain) the copyrights in which are based either on translations of the original English words into the Greek language or on the basis of new arrangements. Of the entire list, only 3 selections are arranged for orchestra.

Except in 2 or 3 instances, the copyright entries are in the Greek language.

The extent to which the music contained in the APOLLO MUSIC COMPANY catalogue is usable in building radio programs for American radio listeners, is indicated by the following 3 samples which give both the Greek and English titles of the selections:

<table>
<thead>
<tr>
<th>Greek Title Phonetically</th>
<th>English Translation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Me Me Stelnis Manna Stin Amerike</td>
<td>Don't Send Me Mother to America</td>
</tr>
<tr>
<td>Mparmpa Liannes</td>
<td>Uncle John's Birthday</td>
</tr>
<tr>
<td>Pantreuon Tbn Agape Mou</td>
<td>They Are Giving My Sweetheart Away</td>
</tr>
</tbody>
</table>

The need for a license to perform all of the musical selections contained in the APOLLO MUSIC COMPANY catalogue is indicated by the following 4 selections, the copyrights in which the APOLLO MUSIC COMPANY has obtained on the basis of a new arrangement and a translation into the Greek language:

- "Dark Eyes"
- "La Paloma"
- "Home Sweet Home"
- "Old Folks At Home"

Each of these is available in English under an ASCAP license.

Samples of the catalogues contained in the APOLLO MUSIC COMPANY repertory are marked Exhibit 21 and Exhibit 22 and are attached to and made a part of this report. These can be used by the broadcasters to determine the availability of the music in these catalogues.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of M. ARCT, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1933

(orch.) by Artur Gold and I.
Kranowski, arr. by Wl. Eiger.
c. Apr. 2, 1934.
An examination of the assignment records of the United States Library of Congress disclosed certain assignments which have been made by M. ARCT to the SESAC. Copies of these assignments, marked Exhibits 23 to 34 inclusive, are attached to and made a part of this report.

The musical selections controlled by M. ARCT which have been assigned to the SESAC represent Polish music, the titles of which are in the Polish language.

From a reliable source we are informed that M. ARCT, Warsaw, Poland, is one of the leading book stores in Poland engaged as an importer and wholesaler of books, music and magazines; publisher and wholesaler of classical and popular sheet music, symphonic music and chamber music; has been in existence since 1836; and employs 200 traveling salesmen. It is interesting to note that the United States completed reciprocal agreements with Poland on February 14, 1927 and, notwithstanding the availability of a new market in 1927, the copyrighting by M. ARCT of these Polish selections here under consideration was deferred until 1934—the year in which SESAC began to license American broadcasting stations for the public performance of music.

These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937 failed to disclose any entries under the name of K. T. BARWICKI, Poznan, Poland, listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.
Max Beck Verlag
Leipzig, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of MAX BECK VERLAG, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

**Period 1870–1925**

No copyright entries found.

The following list:

1. **ICH FANG' IM HAUS MIR KEIN VERHALTNIS AN** (shimmy lied) by Hans May, E. Wengraf, and Max Steiner-Kaiser. c. July 20, 1925.

2. **IN DER EINZAHL KANN ICH NICHT LIEBEN** (shimmy lied) by Hans May, E. Wengraf, and Max Steiner-Kaiser. c. July 20, 1926.

**Period 1926–1932**

5. **PHIPS, LASS DICH NICHT ERWISCHEN** schwank-operette in 3 akten (klavier zum dirigieren eingerichtet mit text) by S. Ehrlich and Karl Bretschneider. c. Apr. 1, 1930.

**Period 1933–April 1, 1937**

No copyright entries found.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by MAX BECK VERLAG to the SESAC. A copy of this assignment, marked Exhibit 35, is attached to and made a part of this report.

(When our investigation was started, the SESAC claimed this music as a part of their repertory. Doubtless, stations have observed that the SESAC brochure dated January 1, 1937, omits this publisher.)
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyright entries under the name of ALFRED BECKER, Berlin, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

From a reliable source, we are informed that "this firm was liquidated some time ago."
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of HUBERT J. BRAUN, Chicago, listed in the SESAC brochure dated June 1, 1936 as HUBERT J. BRAUN, Chicago, and THE BRAUN ORGANIZATION, Chicago, a publisher or organization included under its license. (No musical copyright entries were found entered in the name of THE BRAUN ORGANIZATION.)

No copyright entries found.

The following list:

1. BABY AT THE ZOO
   song (ukelele arr.) by Wm. Ortmann and Darrel Ware. c. May 6, 1935.

2. BABY AT THE ZOO (E2)
   (song) by Wm. Ortmann and Darrel Ware. c. Apr. 8, 1935.

3. BABY AT THE ZOO (band) by Wm. Ortmann and Darrel Ware, arr. by Harry L. Alford. c. May 4, 1936.

4. BLACK FOREST WALTZ (E2)
   (song) by Wm. Ortmann and Carl Pegenau and Ned Bradley. c. June 18, 1934.

6. DEALER OF DREAMS

7. DEVIL OF THE FLORA DEE

8. DRINK YOUR CO-CA COLA (E2)

9. GAY LITTLE BIRD
   (song) by Howard L. Peterson. c. July 12, 1935.

10. GOOD MORNING! MISTAH GABRIEL

11. I FOUND MY WAY TODAY

12. I WONDER IF YOU CAN BE HAPPY WITHOUT ME (E2)

(pf.) by Claribel, arr. by Mort Glickman. c. Apr. 4, 1935.

An examination of the above 283 copyright entries discloses that similar arrangements of each of these musical selections are available from one or more ASCAP publishers except in the following 11 cases:

EAST BOUND TRAIN (entries 65 and 66).
FOUR THOUSAND YEARS AGO (entry 80).
HELL BOUND TRAIN (entry 106).
HOME IN THE WEST (entry 108).
IDAHO (entry 126).
MY HORSES AIN'T HUNGRY (entry 180).
PASS AROUND THE BOTTLE (entry 202).
PEARL BRYAN (entry 203).
WE SAIL THE OCEAN BLUE (entry 268).
WE SAT BENEATH THE MAPLE ON THE HILL (entry 269).
YELLOW ROSE OF TEXAS (entry 282).
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of M. M. COLE PUBLISHING COMPANY, Chicago, Illinois, listed in the SESAC brochure dated June 1, 1936 as a “publisher or organization” included under its license.

No copyright entries found.

The following list:

((E2) indicates unpublished copyright entries.)

1. BLUE WATERS (pf.) by Clarke Fortner. c. May 19, 1934.
2. BUZZING AROUND (orch.) by Ivan Lehrer. c. Dec. 4, 1934.

15. HILL BILLY WEDDING IN JUNE (pf. with guitar) by Freddie Owen and Frankie More, arr. by Jean Walz. c. June 9, 1933.
16. HILL BILLY WEDDING IN JUNE (pf. with guitar) by Freddie Owen and Frankie More. c. June 9, 1933.
22. IN THAT LITTLE GREEN VALLEY SCHOOL (pf. with guitar) by Fred Howard and Nat Vincent. c. Feb. 12, 1935.
23. IT’S TIME TO SAY ALOHA TO YOU (pf. with guitar) arr. by L. D. Richardson and G. A. Bronson. c. Aug. 27, 1935.
24. JESUS MY SAVIOUR NIGHT AND DAY (pf. with guitar and male quartet arr.) by Jack Turner. c. July 1, 1933.
27. JUST AN EVENING AT HOME (pf. with guitar) by Henry Russell and Murray Martin. c. Apr. 4, 1935.
30. KEYBOARD KAPERS (pf.) by H. Kohler. c. July 2, 1934.
32. KLEVER KAPERS (pf.) by H. Kohler. c. July 2, 1934.
33. LONESOME AND BLUE (pf. with guitar) by Edwin Tillman. c. Jan. 9, 1933.
42. MEXICALI ROSE (orch.) arr. by Paul Weirick. c. Jan. 20, 1936.
44. MISSISSIPPI SAWYER (pf. with violin and guitar chords.) c. Jan. 17, 1936.
46. MY DEAR OLD ARIZONA HOME (orch.) by Fred Howard and Nat Vincent. arr. by Art Seegar. c. Aug. 5, 1935.
101. YESTERDAY, TODAY, TOMORROW, YOUR MINE, FOREVER MINE

102. YOU'RE A FLOWER BLOOMING IN THE WILDWOOD

103. YVONETTE

104. ZEPHYR

We call attention to the fact that in the cases of the following selections, the composers Walter Hirsch, Vincent Rose and Nathaniel H. Vincent are listed in the ASCAP directory (1931 and 1936 editions) as members of the ASCAP:

<table>
<thead>
<tr>
<th>TITLE—COMPOSER AND AUTHOR</th>
<th>THE OLD CORRAL</th>
<th>SING ME TO SLEEP WITH A LOVE LULLABY</th>
</tr>
</thead>
<tbody>
<tr>
<td>IN THAT LITTLE GREEN VALLEY SCHOOL</td>
<td>Walter Hirsch</td>
<td>Vincent Rose, A. Terber and Lou Singer</td>
</tr>
<tr>
<td>Fred Howard and Nat Vincent</td>
<td>Fred Howard and Nat Vincent</td>
<td>Fred Howard and Nat Vincent</td>
</tr>
<tr>
<td>MY DEAR OLD ARIZONA HOME</td>
<td>ON A LITTLE FARM IN IOWA</td>
<td>ON THE GOLDEN SHORES OF LAKE LOUISE</td>
</tr>
<tr>
<td>Fred Howard and Nat Vincent</td>
<td>Fred Howard and Nat Vincent</td>
<td>Fred Howard and Nat Vincent</td>
</tr>
</tbody>
</table>

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.

The M. M. Cole Publishing Company owns and controls the following SESAC publishers or organizations referred to in this report:

- Calumet Music Company
- Moderne Publications
- Moderne Edition
- Hearst Music Publishing Company, Ltd. of Canada
- Vincent, Howard and Preeman, Ltd.
- Happy Chappies
An examination of the musical copyright entries of the United States Library of Congress, as of April 1, 1937, disclosed the following entries in the name of CROSS & WINGE, INCORPORATED, Portland, Oregon, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

28. **WHAT'S THE USE OF A SILV'RY MOON**

29. **WHISP'RING WIND (E2)**

30. **YODEL LADY**
bers, we believe that the ASCAP and the SESAC probably have an equal right to represent the performing rights in "Darling Ella May." In the case of "Rocky Mountain Express" which, according to our findings, was composed by Harry Tobias, Charles Tobias and Albert Von Tilzer, and "Mother's Little Sweetheart, Daddy's Little Pal," composed by Chas. Rosoff and Harry Tobias, every one of whom is a member of the ASCAP, we believe the performing rights can be obtained only from the ASCAP. It is our understanding that the electrically transcribed programs entitled "Sons of the Pioneers," use music that is controlled by CROSS & WINGE. It is also our understanding that the subscribers to this electrical transcription service containing "Sons Of The Pioneers," are permitted to use the selections contained therein without a SESAC license by virtue of the agreement existing between the transcription company and the SESAC. This is a matter that should be inquired into by each station interested in the use of this music in order that its own files will be complete, and in order that the right to continue the use of such music may not be withdrawn without notice.

Sylvester Long Cross of the firm of CROSS AND WINGE is also identified with Master Music Makers, a member of the SESAC located at the same address as that of CROSS AND WINGE. Sylvester Long Cross also, according to our best information, is identified with the following organizations not included in the SESAC repertory: MMM Publishers and Cross Publishing Company; and the information contained in Exhibit 37 together with our investigation at the copyright office in the Library of Congress, is the basis for our belief that Sylvester Long Cross is the melody writer and arranger for amateur "song poem" writers. This Exhibit 37 should be studied in connection with Exhibit 38, which was received by a member of our staff.
Antoni Culla
Barcelona, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entry under the name of ANTONIO CULLA, Barcelona, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following entry:

MANTO DE ARMINO
(orch.) by Antonio Culla Mora.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by ANTONIO CULLA to the SESAC. A copy of this assignment, marked Exhibit 39, is attached to and made a part of this report.

As an aid in appraising the value of the one composition in this catalogue we invite your attention to Exhibit 16.
An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937, disclosed the following entries under the name of PIETRO DEIRO, New York City, New York, listed in an announcement by the SESAC dated February 11, 1937 as a publisher or organization included under its license.

**Period 1870–1914**

No copyright entries found

**Period 1915–1927**

The following entries:

1. MELODY RAG
   (pf.) by Pietro Deiro. c. March 25, 1919.
2. PIETRO'S RETURN
   (pf.) by Pietro Deiro. c. Sept. 27, 1915.

The following list:

1. ACCORDION FOXTROT
   (pf. accordion) by Pietro Deiro and El Vera Collins. c. Nov. 10, 1933.
2. ACCORDIONOLA
   (pf. accordion) by Frank Gaviani. c. June 15, 1931.
3. ACCORDIONETTE
   (pf. accordion) by Frank Gaviani. c. Feb. 10, 1931.
4. CHANTICLEER
5. ELVERA
6. JULIETTA
   (pf. accordion) by Pietro Deiro. c. March 30, 1928.
7. PRIOR ACCORDION CLUB
8. SILVER BELL
   (pf. accordion) by Pietro Deiro. c. March 30, 1928.
9. WHO'LL SERENADE YOU WHEN I'M GONE?

The broadcasters will observe that Pietro Deiro has been well known as an accordion soloist, and that he has performed for several phonograph recording companies.
Edition Adler (Successor Heinrichshofen’s Verlag, Magdeburg)

Berlin, Germany

    (orch. for mixed voices) by V. Gnecci and L. Illica. c. Jan. 10, 1933.

23. **SINFONIETTA**

24. **STREICHQUARTETT**

25. **TEMPO DI SINFONIA IN RE BEMOLLE**
    (orch.) by V. Gnecci. c. Jan. 10, 1933.

26. **TOTENTANZ**
    (string orch.) by Wilhelm Kempff. c. Aug. 8, 1931.

27. **6 STIMMUNGSBILDER**
    (lied) by G. von Westermann. c. Nov. 8, 1932.

Period 1934–April 1, 1937

No copyright entries found.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which have been made by EDITION ADLER to the SESAC. Copies of these assignments, marked Exhibits 40 to 41 inclusive, are attached to and made a part of this report.

An appraisal of the above musical selections requires consideration of these points:

1. At least a substantial number of these compositions involve “grand rights,” as indicated in the printed pamphlet furnished by the SESAC, a copy of which, marked Exhibit 42, is attached to and made a part of this report.

2. According to data supplied by the SESAC, EDITION ADLER has been succeeded by HEINRICHSHOFEN’S VERLAG, MAGDEBURG. From an independent source, we have learned also that the firm of EDITION ADLER has been liquidated and that the owner has emigrated to the United States. It should follow, therefore, that any “small rights” contained in this catalogue may be performed only by those broadcasters who hold a license from the ASCAP.

3. HEINRICHSHOFEN’S VERLAG, MAGDEBURG, is recorded as an affiliate of the ASCAP in the January 1, 1936 edition of the ASCAP directory. It should follow, therefore, that any “small rights” contained in this catalogue may be performed only by those broadcasters who hold a license from the ASCAP.
4. A broadcaster desiring to obtain the grand performing rights in any of the works of the EDITION ADLER catalogue may find Societies other than the SESAC have at least an equal right to grant such a license. To illustrate, it will be observed that in copyright entry No. 2 above, the overture to the opera "Cassandra" composed by Vittorio Gnecchi of Italy, was assigned by EDITION ADLER to the SESAC on February 23, 1933. (See Exhibit 41.) The records of assignment in the Library of Congress show also that Vittorio Gnecchi, under date of March 6, 1933, assigned "all title and interest" in "Cassandra" to the SESAC. A copy of this assignment, marked Exhibit 43 is attached to and made a part of this report.

The records of assignment in the Library of Congress further show that previously on December 9, 1913, Vittorio Gnecchi "assigned, ceded, sold and transferred" to the Messrs. G. Ricordi & Co. of Milan and New York, the "full, entire and exclusive rights with the exceptions of Germany, Austria-Hungary and Russia Tedesca," the rights in his opera "Cassandra." A copy of this assignment, marked Exhibit 44 is attached to and made a part of this report.

Gnecchi, in his assignment to G. Ricordi & Co. of Milan and New York, also declares that he had registered the opera "Cassandra" with the Register of Copyrights at Washington as follows:

"In the year 1905—The edition which has been arranged for voice and piano.
In the year 1910—A new edition which has been arranged for voice and piano.
In the year 1911—The orchestra score of the prologue of the opera."

Due to Gnecchi's previous assignment to Ricordi, EDITION ADLER'S performing rights in this opera must be limited to Germany, Austria-Hungary and Russia Tedesca only.

We have found no record of renewal of the original opera under the name of "Cassandra", or under the name of Gnecchi, the composer of the opera, or under the name of Illica, the author of the libretto of the opera. In this connection, it should be observed that renewals of copyright can be made only in the name of the author or his heirs.

It will be observed that the assignments which Gnecchi made to Ricordi and to SESAC in respect to the opera "Cassandra" are in conflict; and that by the terms of the prior assignment by Gnecchi to G. Ricordi & Co., EDITION ADLER could not represent "Cassandra" outside Germany, Austria-Hungary and Russia Tedesca.

The new arrangement registered in 1910 and the orchestra score of the prologue of the opera registered in 1911, appear to us to be available to broadcasters through G. Ricordi & Co. of Milan and New York; and it is our belief that the vocal score edition which was arranged for voice and piano (C 108145) and which was registered with the Register of Copyrights in Washington, November 25, 1905 and not renewed, can be performed without license from anyone.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of EDITIONS FERMATA, Warsaw, listed in the SESAC brochure, dated June 1, 1936, as a publisher or organization included under its license.

**Period 1870–1934**

No copyright entries found.

35. WOJSKOWA PARADA
36. ZAGRAJCIE MI
37. ZAGRAJCIE MI

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by EDITIONS FERMATA to the SESAC. Copies of these assignments, marked Exhibit 45 and Exhibit 46 are attached to and made a part of this report. These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
Ediciones Rodoch (C. Rodriguez)
Bilbao, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of EDICIONES RODOCH (C. RODRIGUEZ), Bilbao, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1928

No copyright entries found.

Period 1929–April 1, 1937

The following list:

1. CAFE CON LECHE
2. ECHATE JUERA
3. HEMBRAS Y CANAS
4. PAVADAS
5. YERNO (EL)
   pasodoble (pf.) by C. Rodriguez. c. Nov. 4, 1929.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by EDICIONES RODOCH to the SESAC. A copy of this assignment, marked Exhibit 47, is attached to and made a part of this report.

Although we found only 5 copyrighted musical compositions credited to this “publisher or organization,” the SESAC has used this catalog to expand its brochure by including in the June 1, 1936 and January 1, 1937 brochures, the following entries:

“EDICIONES RODOCH (C. RODRIGUEZ); Bilbao
(compositions as per list issued)
RODOCH (See EDICIONES RODOCH)
RODRIGUEZ (See EDICIONES RODOCH)”

We suggest that an appraisal of the worth of these five compositions requires an examination into the origin of the Tango, as shown in Exhibit 16.
S. Fischer Verlag
Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of S. FISCHER VERLAG, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Broadcasters have observed that the SESAC, in its letter to the NAB dated September 10, 1936 (Exhibit No. 6) said, “It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

BECK VERLAG, MAX, Leipzig
BECKER, ALFRED, Berlin (included under Rondo Verlag)
CULLA, ANTONIO, Barcelona
FISCHER VERLAG
* * * * * * *
* * * * * * *

From a reliable source, we are informed that S. FISCHER VERLAG is a publisher and exporter of books. Moreover, in a subsequent SESAC brochure dated January 1, 1937, the SESAC limits their representation of S. FISCHER VERLAG to radio plays. We call the broadcaster’s attention to the fact that the license between the SESAC and broadcasting stations and the ASCAP and broadcasting stations covers “small rights” and not the right to perform plays.
Robert Forberg
Leipzig, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, in respect of ROBERT FORBERG, LEIPZIG, who is listed in the SESAC brochure of June 1, 1936, as a publisher or organization included under its license, disclosed the following information.

It was found that in the period of 1870 to 1909, approximately 730 copyright entries had been recorded in the name of ROBERT FORBERG. We do not list these compositions individually because of the fact that the original copyright period of 28 years’ copyright protection has expired, and, except in the case of nine musical works (see Schedule A), we failed to find any record of renewal by the composers and authors or their agents.

Of the nine renewals made for a second term of 28 years’ copyright protection none of them have been renewed by the firm of ROBERT FORBERG in the name of the composer or author. Six of them have been renewed in the name of the composer by Theodore Presser, as agent, and three in the name of the composer by C. F. Peters of Leipzig. Theodore Presser of Philadelphia, Pa., is a member of the ASCAP and C. F. Peters of Leipzig, Germany, is a member of STAGMA, the German affiliate of ASCAP. However, we cannot accept and therefore do not offer this as proof that either Theodore Presser or C. F. Peters is authorized to dispense the performing rights in these numbers. Also we are without any information to show that the SESAC has the right to dispense the performing rights in any of these nine selections. These nine renewals are described in Schedule A below. In Schedules B and C below are listed those selections which we found had been entered in the periods 1909-1927 and 1927-1937, respectively. (See the discussion in the Foreword relative to renewals.)

Schedule A

1. (DER) ARBEITSMANN

2. BEFREIT

3. DREI PRAELUDIEN UND FUGEN

4. DREI PRAELUDIEN UND FUGEN

5. DREI PRAELUDIEN UND FUGEN
   (orgel) nos. 3-D dur D major by Josef Haas. c. by Robert Forberg, May 4, 1907. r. by C. F. Peters for Josef Haas, Jan. 19, 1935.

6. JUNGHEXENLIED

7. LIED AN MEINEN SOHN

8. LEISES LIED

9. SERENADE ARAGONAISE
   (pf.) by Adolfi Czibulka. c. by Robert Forberg, July 10, 1900. r. by Theodore Presser for Karoline and Rita Czibulka (heirs of deceased), Feb. 9, 1928.

Schedule B

Period 1909–1927

1. ABENDANDACHT
   op. 48, no. 3 (orgel) by Hans Fahrman. c. Feb. 3, 1911.

2. ABENDLIED

3. ABENDSTIMMUNG

4. ABSMARSCH

5. ACH GOTT WIE MANEKES HERZELIED
   (2 violins and klav.) by J. S. Bach, arr. by Max Schillings. c. Mar. 6, 1912.

6. ACH, MODER, ECH WELL ENDING HAN!

7. ACHT CHORAL VORSPIELE
   (orgel) by Dr. Ernst Schnarr von Carolsfeld. c. Mar. 18, 1911.

   (orgel) by Dr. Ernst Schnarr von Carolsfeld. c. Mar. 18, 1911.

9. ADAGIO LAMENTOSO
   op. 74, no. 6 (klav. and violin) by P. Tchaikowsky, arr. by Paul Klengel. c. June 24, 1914.

10. AIR IN D IN D

11. AIR IN D

11. ALASKA
    op. 105 (mannerchor a cappella) by H. Zoellner and F. Erdner. c. Sept. 9, 1910.
15. ALLEGRO CON GRAZIA (violine u pf.) by C. Godard. c. May 20, 1910.
17. ALTER SPRUCH op. 76, no. 2 (mannerchor a cappella partitur u stimmen) by E. Heuser. c. July 2, 1912.
18. ALLES LIEBESLIED (gemischten chor. partitur u stimmen) arr. by C. Hirsch. c. May 18, 1913.
19. AM HELIGEN ABEND op. 55, no. 2 (mannerchor a cappella) by A. Mendelssohn and A. Gerok. c. May 30, 1914.
22. AN DIE MARGENROTE (mannerchor a cappella) by H. Fochimsen. c. Mar. 7, 1912.
26. ARRIVEE DES COSAQUES (pf.) by A. Rosenauger. c. Feb. 21, 1911.
27. ASCHENPUTTEL (klavierauszug) by O. Singer and Eugene D’Albert. c. July 9, 1924.
29. AU CLAIR DE LUNE (pf.) by Paul Ertel. c. Feb. 15, 1913.
30. AU PAYS DES REVES (pf.) by C. Godard. c. May 20, 1910.
32. AUF DER WACHT op. 60, no. 2 (pf.) by Adolf Hardt. c. Feb. 1, 1910.
33. AUF EINEM KIRCHHOF op. 106 (mannerchor) by Alb. Sergel and Heinrich Zoller. c. Mar. 21, 1911.
34. AUF FORDERUNG ZUM TANZ op. 65 (chor u. klav.) by C. Marie von Weber and Theodore Walter, arr. by Edmund Pafflow. c. Feb. 9, 1910.
38. BAL AU CHATEAU op. 167 (violin-cello and pf.) by A. Volck. c. Feb. 8, 1913.
39. BALLADE op. 20, by A. Volck. c. Feb. 8, 1913.
40. BARCAROLLE op. 29 (violin and pf.) by Emile Sauret. c. May 16, 1913.
41. BELEHNFUNG DES BURG-GRAFEN-FRIEDRICH I VON NURNBERG DURCH KAISER SEIGESMUNT MIT DER MARK BRANDENBURG 1417 (pf. mit text) by F. Hummell and E. von Wildenbruch. c. Feb. 8, 1912.
42. BERCEUSE D’ENFANT (pf.) by Jose Berr. c. Feb. 18, 1914.
46. BLATT (DAS) DER FRULINGSWEIDE (ges. and pf.) by Anna Hegele, Techa-Tin-Lin, and Hans Bethge. c. Oct. 21, 1911.
47. CAMARINSCA (pf.) by A. Rosenauger. c. Feb. 21, 1911.
49. CANZONA op. 71, no. 2 suite (orgel) by Max Gulbins. c. June 6, 1914.
51. CAPRICCIO op. 21, no. 1 (klav. vortrage) by J. Merkel. c. Feb. 5, 1912.
52. CAPRICE op. 48, no. 2 (orgel) by Hans Fahrmann. c. Feb. 3, 1911.
53. CARMEN (pf.) by G. Bizet, arr. by A. Rosenauger. c. July 31, 1911.
55. CHAMOUNIX (pf.) by Paul Ertel. c. Feb. 15, 1913.
58. CONCERT FUR VIOLA op. 20, by A. Spitzner and E. D’Albert. c. July 9, 1925.
59. CONCERT FUR LA CONTRABASSE (pf.) by Fr. Czerny. c. Apr. 25, 1911.
60. CONCERTO FUR OBOE (cembalo oder klav. und streich-quartett, in moll). arr. by Lauschmann. c. Sept. 1, 1924.
66. DANSE SLAVE op. 39, no. 2 (violin et pf.) by H. G. Noren. c. Feb. 8, 1912.
179. ICH WEISS MIR EIN MAIDENLEIN

180. IDYLLLE
   op. 51 (pf.-studien no. 3) by Mary Wurm. c. Apr. 6, 1911.

   (orch. stimmen, mit pf. direk-
An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by ROBERT FORBERG to the SESAC. Copies of these assignments, marked Exhibit 48 and Exhibit 49, are attached to and made a part of this report.

It will be observed that all but 34 of the musical copyrights above enumerated were entered at the Library of Congress before 1915. We have accepted the works of this later period assigned to the SESAC type of music here under discussion for building radio programs for American radio listeners. That assignments which were made by ROBERT FORBERG to the SESAC. Copies of these assignments, classify these as to character so that some fair appraisal may be made of the value and the need of the (Exhibit 48-p. 1) as typical of the entire catalog and for the benefit of broadcasters have endeavored to

5. DAHIN (mannerchor) by Richard Trunk and Josef Schregel. c. Mar. 8, 1928.

68. WIECZORNIA GODZINA (piesn) by M. Press and Jerry. c. July 14, 1936.

73. 10 REGIONALNYCH POLSKICH PIESNI LUDOWYCH (chor. mieszany a capella) by Feliks Nowawiejski. c. Dec. 5, 1934.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by GEBETHNER & WOLFF to the SESAC. Copies of these assignments, marked Exhibits 50 to 58 inclusive, are attached to and made a part of this report.

Reciprocal copyright agreements between the United States and Poland were completed on February 14, 1927. The first copyright entries of GEBETHNER & WOLFF recorded in the Library of Congress appear in the year 1934, the year during which the SESAC began to license broadcasting stations for the performance of music.

The selections contained in the catalog of GEBETHNER & WOLFF probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
Carl Gehrmans Musikforlag
Stockholm, Sweden

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of CARL GEHRMANS MUSIKFORLAG, Stockholm, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

63. NEKED I VASTER-SALAR (salon ork stammor med piano) by E. Schleich and T. Cassel. c. Nov. 20, 1934.
An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by CARL GEHRMANS to the SESAC. Copies of these assignments, marked Exhibits 59 to 65 inclusive, are attached to and made a part of this report.
This firm is described by a reliable source as an "importer, exporter, wholesaler and publisher of all kinds of sheet music, such as orchestral, classical and popular sheet music. Republisher of popular American music."

The musical selections contained in this catalog probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience, and necessity without using this type of Scandinavian and German music.
Paul Gordon
Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of PAUL GORDON, Berlin, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Broadcasters have observed that the SESAC, in its letter to the NAB dated September 10, 1936 (Exhibit No. 6) said, "It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

BECK VERLAG, MAX, Leipzig
BECKER, ALFRED, Berlin (included under Rondo Verlag)
CULLA, ANTONIO, Barcelona
FISCHER VERLAG
GORDON, PAUL, Berlin

This information is furnished to show the degree of cooperation which has been extended by the SESAC in our endeavors to identify for the broadcasters the musical selections contained in the SESAC repertory.

From a reliable source, we are informed that PAUL GORDON publishes plays for theaters and that "No music of any kind is handled or published." Moreover, since our investigation started, in a subsequent SESAC brochure dated January 1, 1937, the SESAC limits their representation of PAUL GORDON to dramatics. We call the broadcaster's attention to the fact that the license between the SESAC and broadcasting stations and between the ASCAP and broadcasting stations covers "small rights" and not the right to perform plays.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of F. GRABCZEWSKI, Warsaw, listed in the SESAC brochure as a publisher or organization included under its license.

### Period 1870–1926

No copyright entries found.

The following list:

1. **BIALY WALC**
2. **BOG SIE RODZI**
   (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
3. **CHCIALBYM KOGOS POKO-CHAC**
4. **GDY SIE CHRISTUS RODZI**
   (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
5. **JASNA PANNA**
   (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
6. **JEZUS MALUSIENKI**
   (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
7. **KOLYI SANKA MARII PANNY**
   (kolenda) arr. by L. Schiller and J. Maklakiewicz. c. Nov. 27, 1936.
8. **KUJAWIAKI**
   (orch.) by W. Kaczynski. c. Dec. 29, 1933.
9. **MOLOWNANA LOLA**
10. **NA JEDNO SLOWO**
11. **OPJUM**
    (orch.) by A. Wlast and Artur Gold, arr. by J. Wesby. c. Dec. 29, 1933.
12. **OSTATNI RAZ**
13. **PIJANA FORDANSERKA**
    (orch.) by Fred Scher and Jerry, arr. by J. Gert. c. Mar. 12, 1936.
14. **TANGO DLA CIEBIE**
    (orch.) by Z. Karasinski and A. Wlast, arr. by J. Wesby. c. Dec. 29, 1933.
15. **TANGO DLA CIEBIE**
    (pf. and vocal) by Z. Karasinski and A. Wlast. c. Dec. 29, 1933.
16. **WEZ MNIE**
    (orch.) by Romuald Roten and Jurandot. c. Nov. 27, 1936.
17. **WEZ MNIE**
    (pf. and vocal) by Romuald Roten and Jurandot. c. Mar. 12, 1936.
18. **ZATANCZMY WALCA**
    (orch.) by A. Gold. c. Feb. 4, 1937.
19. **ZDEJM MASKE Z TWARZY**
20. **ZDEJM MASKE Z TWARZY**
21. **ZOSTAN**
    (orch.) by Z. Karasinski and A. Wlast. c. Dec. 29, 1933.
22. **ZOSTAN**
    (pf. and vocal) by Z. Karasinski and A. Wlast. c. Dec. 29, 1933.
23. **ZOSTAN**
    (pf. and vocal) by Romuald Roten and Jurandot. c. Mar. 12, 1936.
24. **ZAKONCZYMY WALCA**
    (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
25. **ZOSTAN**
    (kolenda) by J. Maklakiewicz. c. Nov. 27, 1936.
26. **ZOSTAN**
    (pf. and vocal) by J. Petersburski and A. Wlast. c. Dec. 29, 1933.
27. **ZOSTAN**
    (pf. and vocal) by Romuald Roten and Jurandot. c. Mar. 12, 1936.
28. **ZOSTAN**
    (pf. and vocal) by J. Petersburski and A. Wlast. c. Dec. 29, 1933.
29. **ZOSTAN**
    (pf. and vocal) by J. Petersburski and A. Wlast. c. Dec. 29, 1933.
30. **ZOSTAN**
    (pf. and vocal) by Romuald Roten and Jurandot. c. Mar. 12, 1936.
31. **ZOSTAN**
    (pf. and vocal) by Romuald Roten and Jurandot. c. Mar. 12, 1936.

### Period 1927–April 1, 1937

1. **ACH ZOSTAN**
2. **ACH ZOSTAN**
3. **JA NIE JESTEM WINNA**
4. **JA NIE JESTEM WINNA**
5. **JEDZ NA WSCOD**
6. **MYSL O MNIE**

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by F. GRABCZEWSKI to the SESAC. Copies of these assignments, marked Exhibits 66 to 69 inclusive, are attached to and made a part of this report.

In the entries appearing under the name of F. GRABCZEWSKI is a reference to certain compositions copyrighted by A. Wlast. These Wlast compositions are not included in the assignments which we find were made by F. GRABCZEWSKI to the SESAC.
From a reliable source, we are advised that F. GRABCZEWSKI is an “importer and retailer of classical music; wholesaler and retailer and jobber of folklore music, orchestration and classical sheet music; commission merchant handling choir music.”

The selections in the GRABCZEWSKI catalogue probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of HERMAN HABERER-HELASCO, Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

**Period 1870–1927**

No copyright entries found.

**Period 1927–April 1, 1937**

1. **BRISAS PORTENAS**  
   (orch.) by J. de Orue y Matia.  
   c. May 9, 1929.

2. **MARACCA (and) ER NINO DER SARAMPION**  
   (orch.) 1. by Isa Roy y Romerito. 2. by V. Millan y Jose Remon Vallejo.  
   c. Nov. 10, 1932.

3. **MI GITANO**  
   (orch.) by A. Urmeneta.  

4. **MIENTES (and) CAMPA-NADAS**  
   (orch.) 1 & 2 by Pedro Palau.  
   c. June 16, 1936.

5. **ROSARIYO**  
   (orch.) by M. Lizcano de la Rosa y A. San Feliz.  
   c. Feb. 1, 1933.

6. **TANO (EL) (and) ATOR-RANTE**  
   (orch.) 1 & 2 by Pedro Palau.  
   c. Feb. 27, 1935.

7. **TIO CHUPITO**  
   (orch.) by A. Urmeneta.  

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by HERMAN HABERER-HELASCO to the SESAC. Copies of these assignments, marked Exhibits 70 to 73 inclusive, are attached to and made a part of this report.

This firm is described by the SESAC brochure as having addresses in Berlin, Madrid and Lisbon. According to advices received from a reliable source, “This firm has been out of existence since some time” in Berlin, and the firm is unknown in Lisbon. Due to present conditions in Spain it was not possible to conduct an investigation of the Spanish publishers and have no information with respect to this firm’s business in Madrid. It will be observed that the assignments hereinabove referred to were executed in Berlin and Lisbon. Also, it will be noted that the certification of the Vice Consul of Lisbon contains the phrase, “For the contents of the annexed document I assume no responsibility.” (Exhibit No. 73-p. 2.)

An examination of an orchestration of one of the numbers above, deposited for copyright in the Library of Congress, showed that it is a six-part orchestration for piano, violin, clarinet, saxophone, trumpet and drum, and except for the drum is merely the transposition of the melody line into the respective keys of each of these instruments.

For a discussion of the relative value to American radio broadcasters of the tango numbers found in this and other Spanish publishers’ catalogues, see Exhibit No. 16.
Happy Chappies

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyright entries under the name of HAPPY CHAPPIES, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

We call attention to the assignment of “The Happy Chappies Ltd.” to M. M. Cole Publishing Company by Nat Vincent, President as shown by Exhibit 74, which is attached to and made a part of this report. It should be noted that there are no specific compositions mentioned in the assignment.
Harmonie Verlag
Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, under the name of HARMONIE VERLAG, Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license, disclosed the following information.

It was found that it the period 1870 to 1909, approximately 150 copyright entries had been recorded in the name of HARMONIE VERLAG. We do not list these compositions individually because of the fact that the original copyright period of 28 years' copyright protection has expired and, except in the case of 17 musical works, we failed to find any record of renewal in the name of the composers and authors.

Of the 17 renewals made for a second term of 28 years' copyright protection, as prescribed by the laws of the United States, none of them have been renewed by HARMONIE VERLAG in the name of the composer or author. We list below the 17 copyright entries which have been renewed in the name of the author or composer or his heirs, and specify in parentheses by whom the renewals were made.

Renewals of compositions originally copyrighted by Harmonie Verlag. It should be noted that of the 17 renewals only 2 (items No. 2 and No. 16 below) have been made in the name of the composer by the SESAC, the remainder having been renewed in the name of the composer or his heirs, either by the heirs of the composer directly or by E. B. Marks, a member of the ASCAP.

1. APPALACHIA VARIATION-EM UBER EIN ALTES SKLAVENLIED

2. DOLLARPRINZESSIN

3. ICH BIN DAS FRAULEIN DUDELSACK

4. KLAVER KONZERT
   (pf. u. orch partitur) by Frederick Delius. c. Nov. 29, 1907 by Harmonie Verlag. r. Feb. 8, 1935 by Jelka Delius.

5. KLAVER KONZERT
   by Frederick Delius. Arr. by Otto Singer. c. Nov. 29, 1907 by Harmonie Verlag. r. Apr. 9, 1935 by Elsie Singer.

6. LEUTNANTSMARSCH

7. MESSE DES LEBENS

8. MISS DUDELSACK

9. MISS DUDELSACK

10. MISS DUDELSACK

11. NUR EIN BISSEL, BISSEL, BISSEL

12. O DU MY DARLING, DU, DU, DU

13. REITE ROTER LEUTNANT

14. SCHACH-DUETT

15. SCHLOSSGESPENST

16. WALZER
    aus "Der Fidele Bauer" (orch.) by Leo Fall. c. Aug. 24, 1907 by Harmonie Verlag. r. June 3, 1935 by Sesac.

17. WIR SIND DIE MACS, DIE EDLEN MACS

As reported elsewhere in this report, numerous complications arise in connection with all renewals. It is impossible to determine from the information available at the Library of Congress who is authorized to dispense the performing rights in these numbers. It will be observed, for example, that in only 2 cases (items 2 and 16) were the renewals entered by the SESAC, and that in no case was the renewal made by HARMONIE VERLAG. The only safe course for the broadcasters to follow, in the absence of specific and authoritative information from licensing societies, is to avoid the use of these selections.
The musical copyright entries which we found recorded in the period 1909 to 1927 follow:

**Period 1909–1927**

1. **ABENDLIED**

2. **ABER GNADGE FRAU**
   duett aus “Jung-England” (ges. and klav.) by Leo Fall, Rudolf Bernauer and Ernst Welisch. c. Apr. 1, 1914.

650. YANKEE DOODLE (DAS) MADEL aus "Der Susse Doktor" (lied) von Henry Bender und Walter Kollo. (c. Dec. 22, 1909.

651. YANKEE DOODLE (DAS) MADEL aus "Der Susse Doktor" (orch.) von Walter Kollo. c. Dec. 22, 1909.

654. ZU MEINEM BILDE op. la (eine singstimme u klavierbegl) von Heinrich Rysling und Ernst Goll. c. Feb. 26, 1916.

The musical copyright entries we found recorded in the period from 1927 to 1937 follow:

**Period 1927—April 1, 1937**

1. **JUGEND IM MAI** (klav.) von Leo Fall, Rudolph Schanzer und Ernst Welisch. c. Apr. 21, 1927.

3. **THRON ZU VERGEBEN** burleske op. in drei akten (klavierauszug mit text) von Bert Witmann, August Neidhardt, Dr. Fritz Huhne und Ruth Fleiner. c. Dec. 15, 1931.
No copyright entries found.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by HARMONIE VERLAG to the SESAC, and which are recorded in the United States Library of Congress. Copies of these assignments, marked Exhibits 75 to 78 inclusive, are attached to and made a part of this report.

It will be observed that only 3 copyright entries have been recorded during the last 10 years and none since 1931.

The music contained in this catalogue may be described as German popular music, light operatic and musical comedy selections of the world-war and pre-world-war periods.

The demand for popular music is created by constant repetition, and the ability of the listener to associate the words and the music. The value of the German popular music contained in this catalogue, therefore, may be appraised by reference to the titles of the selections among which will be found the following:

"HOCH! PRINZ LEOPOLD"
"HINDENBURG, DER BEFREIER" (The Liberator)
"SUFFRAGETTEN MARSCH"
"DIE PREUSSISCHE DISCIPLIN"
"HURRAH DER KAISER KOMMT"
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of HEARST MUSIC PUBLISHING COMPANY, Winnipeg, Canada, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Period 1870–1921

No copyright entries found.

Period 1922–1924

36. MANY YEARS (song) by John Anderson and Joe Hearst. c. Mar. 23, 1922.
37. MOTHER MY OWN (song) by Joe Hearst. c. Nov. 27, 1923.
38. MY DREAM MOON (song) by John Anderson and Dan A. Russo. c. Mar. 5, 1924.
42. PIANO DREAMS (pf.) by Joe Hearst. c. Nov. 27, 1922.
43. POOR LITTLE MAME (song) by Sam Goold. c. May 23, 1924.
No copyright entries found.

The HEARST MUSIC PUBLISHING COMPANY OF CANADA, LTD., is owned by the M. M. Cole Publishing Company. The acquisition of the HEARST MUSIC PUBLISHING COMPANY OF CANADA, LTD., by the M. M. Cole Publishing Company involves numerous assignments which we found of record in the United States Library of Congress. These assignments, marked Exhibits 79 to 82 inclusive, are attached to and made a part of this report.

Included in the above list of musical selections which were copyrighted in the period 1922 to 1924 are the following: Broken Dreams by Frank Westphal, In the Land of Sweet Sixteen by George W. Meyer, In a Wonderful World of Our Own, Lovers Lane is a Lonesome Trail and You Can Take Me Away from Dixie But You Can't Take Dixie from Me, by Roger Lewis, My Dream Moon by Dan A. Russo, Poor Little Mame and Tallahassee by Sam Goold, Someone Else Took Your Place in My Heart by Roger Lewis and Erwin R. Schmidt, and One Like You by Clay Smith. The composers or authors mentioned in this listing are all identified as members of the ASCAP in the June 1, 1925 ASCAP directory. It is important to note that these individuals are also named as members of the ASCAP in the January 1, 1936 ASCAP directory.

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.

Period 1925—April 1, 1937

79
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of LEON IDZIKOWSKI, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

**Period 1870–1931**

No copyright entries found.

48. ZWIEDLA CHYZANTEMA

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by LEON IDZIKOWSKI to the SESAC. Copies of these assignments, marked Exhibits 83 to 87 inclusive, are attached to and made a part of this report.

The vocal compositions contained in this catalog are in the Polish language and, therefore, probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using Polish music.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of INTERNATIONAL EDITION MUSIKVERLAG, Leipzig, Germany, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

No copyright entries found.

The following list:

1. **BLOND ODER BRAUN?**
   (gesang u. pf.) by Dr. Josef Freudenthal and Rolf Flor (Dr. Max Maretski). c. April 15, 1929.

16. **SING MIR NOCH EINMAL DAS LIED EJER NACHT**
    (orch.) by Will Rollins and Fred Barny, arr. by Hartwig Von Platen. c. Nov. 4, 1929.

17. **WENN EIN SUSSES MADEL TRAUMT, DANN WECK SIE NICHT**

18. **WENN EIN SUSSES MADEL TRAUMT, DANN WECK SIE NICHT**

No copyright entries found.

It will be observed that we failed to find any copyright entries subsequent to 1930.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by INTERNATIONAL EDITION MUSIKVERLAG to the SESAC. A copy of this assignment, marked Exhibit 88, is attached to and made a part of this report.

It will be observed that the assignment made by INTERNATIONAL EDITION MUSIKVERLAG to the SESAC does not include the title "Meine Konigin."

All of the compositions contained in this catalog are of the "popular music" classification, and the lyrics of the vocal compositions are in German.

The demand for popular music is created by constant repetition, and the ability of the listener to associate the words and the music. On this basis, broadcasters may refer to the musical compositions contained in this catalog, and appraise their value for use in building radio programs for American radio listeners.

Information from a reliable source shows that this firm has been dissolved and taken over by the firm of ROBERT FORBERG. The repertory of ROBERT FORBERG, as represented in this country by the SESAC, is discussed in this report.
An examination of the musical copyright entries in the United States Library of Congress credited to JASTRZAB required an examination also of the copyright entries credited to EDITION JASTRZAB (I. Rzepecki) and Walery Rudnicki. The association of Walery Rudnicki results not from any information from the SESAC, but from information received from a reliable source to the effect that the “Sales rights in Poland for the publication of ‘Edition Jastrzab’ and ‘Edition W. J. R.’ are in the hands of Mr. Rzepecki; the publisher of the above being Mr. Walery Rudnicki.”

This examination, as of April 1, 1937, disclosed the following entries under the name of JASTRZAB, 1 Krak. Przedmieście, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

**Period 1870–1934**

No copyright entries found.

The following list:

1. **CZYWIESZ CO TO JIST**

2. **GDY ZAKOCHASZ SIE WE MNIE**

3. **LILI**

4. **MOJA NATASZA**

**Period 1934–April 1, 1937**

5. **NIE BEDZIESZ ZE MNIE DRZWIL**

6. **ON, CZY JA**

7. **PRZYTUL MNIE**

8. **ROZOWY**

This examination disclosed also, as of April 1, 1937, the following copyright entries under the name of I. Rzepecki, 1 Krak. Przedmieście, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a part of JASTRZAB.

**Period 1870–1934**

No copyright entries found.

The following list:

1. **ALMERI**

2. **CAŁY SZWAT TO NUCI**

3. **JAK DAWNIEJ**

4. **KATIA**

5. **KOCHAM TWOJE USTA**

6. **OTWARTE KARTY**

7. **PRZESTAN**

8. **SZKODA NASZEJ MIŁOSCI**

9. **TY BYLAS SNEM**
   tango (ork strony) by Fred Scher and Zenon Friedwald. c. Oct. 5, 1936.
An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by I. Rzepecki to the SESAC. A copy of this assignment, marked Exhibit 89, is attached to and made a part of this report.

The musical selections contained in this catalogue probably have a certain value to those broadcasters who cannot operate in the public interest, convenience and necessity without the use of this type of Polish music.
Jewel Music Publishing Co.
New York, N. Y.

An examination of the musical copyright entries of the United States Library of Congress as of April 1, 1937 disclosed the following entries in the name of the JEWEL MUSIC PUBLISHING CO., New York City, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license:

No copyright entries found.

The following list:

1. CARNIVAL IN COTTON TOWN
2. GEE I WISH I KEW
3. GOOD OLD MOON
4. I LIKE TO SING THE OPERY
   song (guitar) by Mike Mikita and Mac Benoit. c. Feb. 27, 1936.
5. I'LL FOLLOW MY HEART STRINGS
   song (guitar) by Harold Fonville and Aaron Foster. c. Feb. 27, 1936.
6. I'M HOLDING THE WORLD IN MY ARMS
7. IN OLD HOLLAND
8. IS THAT GRATITUDE
   song (guitar) by Marjorie Harper, Kay Twomey and Bill Livingston. c. Feb. 27, 1936.
9. MILLION DREAMS FROM NOW
10. MY HEARTS ON STRIKE
    song (guitar) by W. J. Kastor, Fred Patten, and Gerald Marqusee. c. June 18, 1936.
11. NEVER

We call attention to the fact that in the case of the selections entitled “I’m Holding the World in My Arms,” and “Good Old Moon,” one of the composers, namely A. B. Sterling, is listed in the ASCAP Directory (1931 and 1936 Editions) as a member of the ASCAP. A discussion of this complication appears in the foreword of this report.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyrights in the name of HENRYK LEBENDIGER, Warsaw and Buenos Aires, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

The identity of HENRYK LEBENDIGER was disclosed to us in our investigation of EDITIONS FERMATA. Information obtained from a reliable source shows that the firm of HENRYK LEBENDIGER and EDITIONS FERMATA are one and the same firm.

A report dated February 5, 1937, shows that Mr. Lebendiger moved to Buenos Aires, Argentina, about the middle of 1936 and set himself up there as a publisher of local orchestral and popular sheet music. Also, according to advices, he republishes American music, and is in contact with European music houses as well.

Since EDITIONS FERMATA and HENRYK LEBENDIGER are one and the same, and since we failed to find any copyright entries credited to LEBENDIGER, the inclusion of LEBENDIGER in the SESAC brochure should not be construed as a separate publisher or organization.
Master Music Makers
Portland, Oregon

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of MASTER MUSIC MAKERS, Portland, Oregon, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

The melodies to practically all of the musical selections contained in this catalogue were written by Sylvester Long Cross; and it is our belief, based on the information contained in Exhibit 37, which is attached to and made a part of this report, that the lyrics of this music are the works of amateur "song poem" writers.

An examination of the musical copyright entries of the Library of Congress also disclosed more than 1300 entries in the name of Sylvester Long Cross, each identifying an unpublished work. In almost all cases, the melody has been written by Sylvester Long Cross and, in most instances the words are credited to a different person.

Moreover, the copyright entries of the Library of Congress are the basis for our belief that Sylvester Long Cross is identified also with Cross & Winge, Inc., MASTER MUSIC MAKERS, and Cross Publishing Company, as the address of each of these is given as 607 Studio Building, Portland, Oregon; and the information contained in Exhibit 38 is the basis for our belief that Sylvester Long Cross is identified with the MMM Publishing Company of the same address.

Period 1870–1933

No copyright entries found.

Period 1933–April 1, 1937

The following list:

1. ALBUM OF NEW RADIO FAVORITES No. 2
2. ALBUM OF NEW RADIO FAVORITES No. 3
3. ALBUM OF NEW RADIO FAVORITES No. 5
   (songs with uke arr.) by Sylvester Long Cross, words by Vern Grinde and others. c. Nov. 16, 1935.

THE GIRL THAT I LOVE
by Lionel Charles (address not found).

UNDER THE SEVEN PINES
by Daisy Johnson Boone, Stanton, Ky.

BY THE WATERFALL MULTNOMAH
by John Becker, 104 Ivy St., Nampa, Idaho.
An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937 failed to disclose any copyright entries in the name of MODERNE EDITION listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. However, such examination disclosed 21 musical copyright entries in the name of MODERNE PUBLICATIONS, 2611 Indiana Avenue, Chicago, Illinois (Moderne Publications is listed as a publisher or organization in the SESAC brochure dated January 1, 1937). These entries were copyrighted in the name of Moissaye Boguslawski. A comparison of these copyright entries with MODERNE EDITION, a pamphlet, published by the M. M. Cole Publishing Company of 2611 Indiana Avenue, Chicago, Illinois and supplied to us by the SESAC, indicates they are one and the same.

The 21 musical copyright entries were all recorded in the calendar year 1936 as follows:

1. ARABIAN NIGHTS (SCHERAZADE) (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
4. CIRCUS DAYS (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
5. DONKEY RIDE (pf. solo) by Moissaye Boguslawski. c. July 31, 1936.
6. DUBLIN DEVILS (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
18. SUNNY ITALY (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
20. VALSE RUSE (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.

A copy of the MODERNE EDITION pamphlet published by the M. M. Cole Publishing Company of Chicago, Illinois and supplied to us by the SESAC, marked Exhibit 90, is attached to and made a part of this report.

Twenty of the twenty-one copyright entries above referred to are described in Exhibit 90-p. 2 as Grade One and Grade Two original compositions, as follows:

GRADE ONE

DONKEY RIDE
FRENCH SOLDIERS’ MARCH.
FROG’S FROLIC.
OLD TICK TOCK.

LITTLE JUMBO.
PARADE OF THE BUNNIES.
SUNNY ITALY.

GRADE TWO

ARABIAN NIGHTS.
THE BALLET DANCER.
CHATTER BOX.
CIRCUS DAYS.

DUBLIN DEVILS.
FIRST HUNGARIAN Rhapsody.
GOLDEN ORIOLE MINUET.
Picaninny Picnic.
RUSSIAN DANCER.
SPANISH COQUETTE (tango).

Grade One is recognized as beginner's grade or primary grade for piano students.
Grade Two is for second-year students of piano.

The copyright entry entitled “Eighty Delightful Tunes” is made up of 80 musical selections which, in their original form, are in the Public Domain. An examination has been made to determine their availability in various music catalogues, and this examination showed that each of these 80 selections is available to broadcasters from one or more music publishers included under their ASCAP license. The 80 selections and the identity of one ASCAP publisher from whom each selection is available follow:
1. ALBUMBLATT (Fur Elise)  
L. von Beethoven. (G. Schirmer.)
2. AMARYLLIS  
H. Ghys. (Century.)
3. ANDANTINO  
E. H. Lemare. (Paul Pioneer.)

E. Mack. (McKinley.)
25. GOLD AND SILVER  
Franz Lehár. (Carl Fischer.)
26. GOLDEN WEDDING (La Cinquantaine)  
Gabriel-Marie. (Century.)
27. GYPSY DANCE  
H. Lichner. (Century.)
28. GYPSY RONDO  
J. Haydn. (Century.)
29. HABANERA (From Carmen)  
G. Bizet. (Century.)
30. HUMORESKE  
A. Dvorak. (Century.)
31. HUNGARIAN DANCE NO. 5  
J. Brahms. (Century.)
32. HYMN TO THE SUN  
Rimsy Korsakov. (Carl Fischer.)
33. JOLLY COPPERSMITH (THE)  
C. Peter. (Century.)
34. LA GOLONDRINA (The Swallow.)  
N. Serradell. (Century.)
35. LA PALOMA  
S. de Yradier. (Century.)
36. LARGO  
(From the New World Symphony)  
A. Dvorak. (Century.)
37. LIEBESTRAUM  
F. Liszt. (Century.)
38. LITTLE FAIRY MARCH  
L. Streabbog. (Century.)
39. LITTLE FAIRY POLKA  
L. Streabbog. (McKinley.)
40. LISTEN TO THE MOCKING BIRD  
Alice Hawthorne. (Century.)
41. LOVE’S DREAMLAND  
O. Roeder. (Century.)
42. A MAIDEN’S PRAYER  
T. Badarzewska. (Century.)
43. MARCH OF THE DWARFS  
E. Grieg. (Century.)
44. MELODY IN F  
A. Rubinstein. (Century.)
45. MENDELSSOHN’S WEDDING MARCH  
(Shinsummer Night’s Dream)  
F. Mendelssohn. (Century.)
46. MERRY WIDOW WALTZ  
F. Lehar. (Century.)
47. MARCH MILITAIRE  
F. Schubert. (Century.)
48. MELODIE (Elegy)  
J. Massenet. (Century.)
49. MINUET  
I. J. Paderewski. (Century.)
50. MINUET IN G  
L. von Beethoven. (Century.)
51. MOMENTS MUSICIERS  
M. Moszkowski. (Century.)
52. MOONLIGHT SONATA  
L. von Beethoven. (Century.)
53. MORNING PRAYER  
L. Streabbog. (Century.)
54. ON THE MEADOWS  
L. Lichner. (Century.)
55. ORANGE BLOSSOM WALTZ  
G. Ludovic. (Century.)
56. OVER THE WAVES  
Juventino-Rosas. (Century.)
57. PAPILLON (Butterfly)  
E. Greig. (Century.)
58. POEME  
Z. Fibich. (Carl Fischer.)
59. POLISH DANCE (simplified)  
X. Scharwenka. (Century.)
60. PRELUDE IN C SHARP MINOR  
S. Rachmaninoff. (Century.)
61. RIPPLING WAVES  
G. Millward. (Century.)
62. ROBIN’S RETURN  
L. Fisher. (Century.)
63. RUSTIC DANCE  
C. Howell. (Century.)
64. RUSTLE OF SPRING  
Christian Sinding. (Century.)
65. SACK WALTZ  
J. Metcalf. (Century.)
66. SCARF DANCE  
C. Chaminade. (Century.)

78. VALSE IN E FLAT  
A. Durand. (Ditson.)
79. WALTZ IN A FLAT  
J. Brahms. (Century.)
80. YOU AND I WALTZ  
Claribel. (Century.)

To summarize, our examination shows that the 20 individual numbers entered in the United States Library of Congress have been composed, arranged and edited for primary pupils of piano. As such, it does not seem possible that they hold any special value for radio performance; and the “Eighty Delightful Tunes” edited, fingered and arranged by Moissaye Boguslawski can be found in the same type of musical arrangements in the catalog of ASCAP publishers.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of JOSE MORA, Barcelona, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

Period 1870–1934

The following list:

1. BRASILERA
2. CURRO MOLINA

Period 1934–April 1, 1937

3. GUAYABA
4. LUCERO
5. MI MOCITA
6. PESARES

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by JOSE MORA to the SESAC. Copies of these assignments, marked Exhibits 91 to 93 inclusive, are attached to and made a part of this report.

As an aid in appraising the value of this type of music in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.
Music Products Corp.
Chicago, Illinois

An examination of the musical copyright entries of the United States Library of Congress, as of April 1, 1937, disclosed the following entries in the name of MUSIC PRODUCTS CORP., Chicago, Illinois, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization, included under its license:

No copyright entries found.

The following list:

1. **ADVANCED HARMONICA BAND FOLIO**
   (harmonicas 1-3 with pf. acc.)
   by G. Mann. c. Sept. 11, 1934.
2. **AIR WAVES**
   (band.) c. Feb. 15, 1936.
3. **BACK TO CHRIST OUR KING**
4. **CLOUDS FILLED WITH LIGHT**
   (song) by Margaret MacRae and W. B. Dublin. c. July 16, 1934.
5. **EARLY MORN**
   (song) by Margaret MacRae and H. Skeath. c. July 16, 1934.
6. **EMBLEM OF VICTORY**
   (band) by Vernon Leftwich and Frank Godwin. c. Aug. 25, 1936.
7. **I HAVE A RENDEVOUS WITH LIFE**
8. **IN THE HUSH OF THE AFTERNOON**
   (song) by Margaret MacRae and H. Skeath. c. July 16, 1934.
9. **LAWDY, WHAT A LONESOME DAY**
   (mixed voices) by Margaret MacRae and H. Skeath. c. July 16, 1934.
10. **LEGIONNAIRES ON PARADE**
11. **SPIRIT OF OUR NAVY**
12. **WINGS OF VICTORY**

We call attention to the fact that in the case of the selections entitled “Back to Christ Our King” and “I Have A Rendezvous With Life,” the composer of the music, namely, Geoffrey O'Hara, is listed in the ASCAP Directory (1931 and 1936 Editions) as a member of the ASCAP. A discussion of this complication appears in the foreword of this report.
An examination of the musical copyright entries of the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of NATTRASS-SCHENCK, INCORPORATED, New York, New York, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

((E2) indicates unpublished copyright entries.)

24. LONESOME VALLEY SALLY
25. MORE I GREW TOMATOES (E2)
26. MY LOVE WILL NEVER GROW OLD
27. NEATH THE MOON OF OLD MANHATTAN (E2)
28. NEATH THE MOON OF OLD MANHATTAN
29. NEATH THE OLD HANGING LAMP IN THE PARLOR (E2)
30. OLD BILL SMITH (E2)
31. POLLY WANTS A CRACKER (E2)
    (pf. and vocal) by Harold Spinner, Johnny Burke and Chas. Newman. c. Feb. 17, 1933.
32. PUMPKIN HAS NO PUMP (E2)
33. RADIO RUBES COLLECTION OF HILL COUNTRY BALADS AND COMIC SONGS
    (pf. and uke) by George B. McConnell, Tom Kennedy and Dick Sanford. c. Apr. 12, 1933.
34. RED RIVER LULLABY (E2)
35. THERE AIN'T MUCH GOOD IN A WOMAN (E2)  

36. UNDER THE MOON TALKING TO YOU ABOUT ME (E2)  
(pf. and vocal) by Theodore Snyder and George Whiting. c. Apr. 29, 1932.

37. UNDER THE MOON TALKING TO YOU ABOUT ME  

38. WHEN GABRIEL BLOWS HIS HORN (E2)  

39. WHEN GABRIEL BLOWS HIS HORN  

40. WHEN IT'S HARVEST TIME IN OLD NEW HAMPSHIRE (E2)  

Although 33 of the 43 selections enumerated above are classified in the records of the Library of Congress as being in unpublished form, 19 of the 33 do appear in a publication of NATTRASS-SCHENCK, INC., entitled "Radio Rubes Collection of Hill Country Ballads and Comic Songs." The 19 selections contained in "Radio Rubes Collection of Hill Country Ballads and Comic Songs" are as follows:

I'M SO HAPPY WHEN THE SUN IS SHINING  
A PUMPKIN HAS NO PUMP  
WHERE THE ARIZONA MOON IS SHINING  
OLD BILL SMITH  
LAST NIGHT  
BY THE MOSS COVERED GRAVE ON THE HILL  
THE MORE I GREW TOMATOES  
HE KISSED HER GOODNIGHT UNTIL MORNING  
'NEATH THE OLD HANGIN' LAMP IN THE PARLOR  
THE FIDDLE DOESN'T FIT HIS CHIN  
HE JUST KEPT BITIN' HIS NAILS  
LONESOME VALLEY SALLY  
DOWN AT THE GENERAL STORE  
RED RIVER LULLABY  
THERE AIN'T MUCH GOOD IN A WOMAN  
DOWN AT THE OLD RED BARN  
WHEN IT'S HARVEST TIME IN OLD NEW HAMPSHIRE  
CORN COB WILLIE  
I'M GONNA' GO BACK TO THE MOUNTAINS  
I'M A RUNAWAY FROM THE CHAIN GANG

Of the remaining 6 selections contained in "Radio Rubes Collection of Hill Country Ballads and Comic Songs", one, "Lonesome Valley Sally" is published in separate form; and 5, namely "Red River Valley," "She'll Be Comin' Round the Mountain," "A Home On the Range," "Hand Me Down My Walking Cane," and "O Dem Golden Slippers" are published also by one or more of the publisher members of the ASCAP.

We call attention to the fact that except in the cases of the musical selections entitled "Boom Tarara Boom," "Neath the Moon of Old Manhattan," and "Who Besides Me Sits Beside you?", one or more of the composers of each of the remaining musical selections which we found of record as of April 1, 1937, is listed in the ASCAP directory (1931 edition) as a member of the ASCAP. We refer to the following:

Joe Goodwin  
Louis Herscher  
Nick Kenny  
Ray Klages  
Al Lewis  
George Little  
George B. McConnell  
Jack Meskill  
Charles Newman  
Andy Razaf  
Vincent Rose  
Ben Ryan  
Larry Shay  
Al Sherman  
Ted Snyder  
Nat Vincent  
Tom Waller  
George Whiting

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.
April 1, 1937, disclosed the following entries under the name of NOWA SCENA, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

TULIPANY
An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by NOWA SCENA to the SESAC. Copies of these assignments, marked Exhibits 94 to 102 inclusive, are attached to and made a part of this report.

The lyrics of the vocal selections contained in this catalogue are in the Polish language, and these compositions probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937, failed to disclose any entries under the name of "PWP" PRZEDSTAWICIELSTWO WYDAWNICTW POLSKICH (SOCIETY OF POLISH PUBLISHERS), listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.

The catalogue furnished by the SESAC indicates the publisher members of P. W. P. are as follows:

J. Altschuler                F. Grabczewski                Pro Arte
M. Arct                     M. Idzikowski                Jastrzebiec Rudnicki
K. T. Barwicki              Polskie Towarzystwo Muzyki Wspol-
Do-Re-Mi-Fa                  czesnej                      Rzepecki
Gebethner & Wolff           G. Seyfarth

With the exception of DO-RE-MI-FA, under which name no musical copyright entries were found as of April 1, 1937, the list is composed of firms listed in the SESAC brochure as individual publishers and in each instance they are dealt with separately in our report.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of O. PAGANI & BROTHERS, New York, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

No copyright entries found.

The following list:

("E2" indicates unpublished copyright entries.)

1. A FRANGESA
   (pf. accordion) by Mario Costa, arr. by Pietro Deiro and Mario Perry. c. Dec. 7, 1925.

151. RELICARIO
152. RITORNO A FIRENZE
    (band) by L. Marchetti, arr. by S. Braccia. c. Aug. 1, 1927.
In our discussion here, we shall disregard the catalogue of O. PAGANI & BROTHERS submitted to us by the SESAC for the reason that a great many of the selections contained therein were not found in the musical copyright entries of the United States Library of Congress as having been copyrighted by O. PAGANI & BROTHERS. It should be sufficient, therefore, to point out the necessity of examining with great care whether the music published by O. PAGANI & BROTHERS is also copyrighted by them.
It will be observed that much of the music copyrighted by O. PAGANI & BROTHERS has been arranged for (a) accordion, (b) two mandolins and guitar, (c) guitar solos, (d) Italian band music, and (e) piano and vocal parts of Italian music. These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Italian music.

It also will be observed that a great number of the above arrangements were made by Pietro Deiro who several years ago performed for phonograph recording companies.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyright entries under the name of POLSKIE TOWARZYSTWO MUZYKI WSPÓLCZESNEJ, Warsaw, Poland, listed in the SESAC brochure dated January 1, 1937, as a publisher or organization included under its license.

An examination of the records of assignment in the Library of Congress failed to disclose any assignment by POLSKIE TOWARZYSTWO MUZYKI WSPÓLCZESNEJ, Warsaw, Poland to the SESAC.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of PRO ARTE, Lwow, Poland, listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.

**Period 1870–1935**

No copyright entries found.

The following list:

1. **CZY TO JEST MIŁOSC**  
   (ork. strony) by Wilner, Szlen-gel and Jerry, arr. by J. Gert.  
   c. Sept. 23, 1936.

2. **FIOLKI**  
   (tango canzonetta) by S.

3. **JOZEFINA**  
   by W. Marel and S. Kweller.  

4. **JOZEFINA**  
   (ork. strony) by W. Marel and

5. **NA KAZDYM KROKU JEST DZIEWCZYNA**  
   z “Powożowka Hotelu Europa,”  
   (ork. strony) by Alfred Schutz.  
   c. Sept. 11, 1936.

An examination of the records of assignment in the United States Library of Congress failed to disclose any assignment by PRO ARTE, Lwow, Poland, to the SESAC.

The five compositions contained in this catalogue probably have a certain performance value to those broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of RADIO CITY GUITAR STUDIO, New York City, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

Period 1897–1935

The following list:

1. A MEDIA LUZ
2. ADELITA
3. COURANTE
4. FUGA
5. NOCTURNE
6. O'MARINARIO
7. PICK IT AND PLAY IT
8. PRELUDE

It will be observed that the eight copyrighted musical selections contained in this catalog are all especially arranged for plectrum guitar.
Rialto Music Publishing Company
New York, N. Y.

An examination of the musical copyright entries of the United States Library of Congress, as of April 1, 1937, disclosed the following entries in the name of RIALTO MUSIC PUBLISHING COMPANY, New York, N. Y., listed in the SESAC brochure dated June 1, 1937 as a publisher or organization included under its license.

Period 1870–1930

No copyright entries found.

Period 1931–April 1, 1937

The following list:

((E2) indicates unpublished copyright entries.)

   (orch.) by Clarke Van Ness, C. Fulcher and Henry F. Bach. c. April 23, 1931.

2. BY AN OLD INDIAN TRAIL
   song (pf. with ukulele arr.) by Ernie Burnett and Clarke Van Ness. c. March 5, 1934.

3. CLARKE'S COMPLETE MILSTREL SHOW (E2)

4. DRAGON EYES
   song (pf. with ukulele arr.) by Ernie Burnett and Clarke Van Ness. c. March 5, 1934.

5. HORSIE KEEP YOUR TAIL UP, KEEP THE SUN OUT OF MY EYES (E2)

6. I'M AFRAID OF BEES

7. I'M GONNA FIX YOUR WAGON (E2)

8. JUST A WASTE OF TEARS (E2)

9. JUST A WASTE OF TEARS

10. KNOCKIN' ON WOOD

11. LONE RANGER

12. MAYBE

13. OCEAN OF LOVE WITH A KISS ON EACH WAVE
    song (pf. with ukulele arr.) by Ernie Burnett, Irene Williams and Clarke Van Ness. c. March 5, 1934.

14. OH HOW THAT CAVE MAN COULD LOVE

15. RIDING THE KILOCYCLES
    (pf.) by Bob Emmerich. c. Aug. 5, 1936.

16. SINCE YUSSELL LEARNED TO YODEL HE'S A YIDDISH MOUNTAINEER

17. SOMETHING OLD—SOMETHING NEW—SOMETHING GOLD—SOMETHING BLUE

18. STUFF IS HERE (E2)

19. SWING, BOY, SWING (E2)
    (pf.) by Dick Porter and Sammy Mysels. c. March 5, 1937.

20. THEY WALTZED HIM AROUND AND AROUND (E2)

21. YES MAN CAN'T SAY NO
    song (pf. with ukulele arr.) by Dick Sanford, James Cavanaugh and Sammy Mysels. c. Feb. 15, 1938.

22. YOU'RE ANOTHER STEP TOWARD HEAVEN IN THE CHURCH ACROSS THE WAY (E2)
    song (pf. with guitar arr.) by Dick Sanford and N. Osborne. c. May 21, 1936.

23. YOU'RE ANOTHER STEP TOWARD HEAVEN IN THE CHURCH ACROSS THE WAY
    song (pf. with guitar arr.) by Dick Sanford and N. Osborne. c. Sept. 30, 1936.

24. YOU'RE THE ANSWER TO MY PRAYER
    song (pf. with guitar arr.) by Charles Seitter, Lulu Quinn Weyant and Billy James. c. Dec. 2, 1935

We call attention to the fact that except in the case of 5 selections, namely, "I'm Gonna Fix Your Wagon" by C. "Mack" Arthur, "Riding The Kilocycles" by Bob Emmerich, "Armful of Charmful You" by Clarke Van Ness, C. Fulcher and Henry F. Bach, "Horsie Keep Your Tail Up, Keep The Sun Out Of My Eyes" by Arthur Daly and Clarke Van Ness, and "Oh How That Cave Man Could Love" by Len Dugan and Clarke Van Ness, all other musical entries copyrighted by RIALTO MUSIC PUBLISHING COMPANY show that one or more of the composers or authors of the compositions are listed in the ASCAP directories (1931 or 1936 editions) as members of the ASCAP as indicated below:

The following composer or author is listed as a member of the ASCAP in the 1931 ASCAP directory:

Ben Gordon

115
The following composers or authors are listed as members of the ASCAP in the 1931 and 1936 ASCAP directories:

Billy Baskette
James Cavanaugh
Lee David
Louis Herscher
Billy James
Charles O'Flynn
Nat Osborne
Jack Palmer

The following composers or authors are listed as members of the ASCAP in the 1936 ASCAP directory:

Ernie Burnett
Allan Flynn
Sammy Mysels
Dick Sanford
Nat Simon

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.
Rondo Verlag
Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of RONDO VERLAG, Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1921

No copyright entries found.

113. KOMM MIT MIR NACH VENEDIG (lied) by Max Hansen and Willy Prager. c. Sept. 9, 1927.
Period 1933–April 1, 1937

No copyright entries found.

We call attention to the fact that in the list of entries recorded in the period from 1922 to 1926, are included such numbers as “Tea For Two”, “Take A Little One-Step”, “No, No Nanette”, and “I Want To Be Happy”, all by Vincent Youmans; “Rose-Marie”, and “Indian Love Call” by Rudolph Friml; “Somebody Loves Me” by George Gershwin; “Memory Lane” by Larry Spier, and “Annabelle” by Ray Henderson. None of these are found either in the assignment by RONDO VERLAG to Kurt Alexander Jadassohn, as evidenced by Exhibit No. 103 attached to and made a part of this report. None of these are found either in the assignment by Mr. Jadassohn to the SESAC. Moreover, the authors of these particular selections, according to the ASCAP directory, are members of the ASCAP. Here again it should be noted that the SESAC in its letter of November 19, 1936 (Item 14 of Exhibit 4) represents that “we control the complete body of radio performing rights.”

An examination of the assignment records in the Library of Congress was made, and it was found that on the 18th of March, 1931, certain copyrights were assigned by RONDO VERLAG to Kurt Alexander Jadassohn, as evidenced by Exhibit No. 103 attached to and made a part of this report. Also, this examination disclosed that under date of January 10, 1933, Kurt Alexander Jadassohn transferred and assigned the identical copyrights to the SESAC, as evidenced by Exhibit No. 104 attached to and made a part of this report. Kurt Alexander Jadassohn is an officer of the SESAC.

According to information received from a reliable source “This firm does not exist any longer.”

RONDO VERLAG was a “popular music” publishing house in Germany. The lyrics of the music contained in RONDO VERLAG are in the German language, and, therefore, probably have some value to those stations that cannot operate in the public interest, convenience and necessity without using this type of German “popular songs” copyrighted prior to 1932.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of ROBERT RUEHLE, Berlin, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

1. BEI EINEM GLASERL WEIN
(gesang u. kl.) by Erich Ziegler and Hans Pfanzer. c. Nov. 27, 1922.

An examination of the assignment records of the Library of Congress, as of April 1, 1937, failed to disclose any assignments having been made by ROBERT RUEHLE to the SESAC.

As a further point of interest, the brochure dated January 1, 1937 published by the SESAC since our investigation was begun, omits the name of ROBERT RUEHLE.

ROBERT RUEHLE is included in the January 1, 1936 edition of the ASCAP directory as a member of STAGMA, the German affiliate of the ASCAP.

Broadcasters will recall that we made inquiry concerning ROBERT RUEHLE in our letter to the SESAC dated October 14, 1936 (Exhibit No. 3); and that the SESAC in their reply dated November 19, 1936 (received by us on December 11, 1936) states, in Item 10 a: "We have the same body of rights in the catalog of Robert Ruehle, Berlin as we presently have in the catalog of Gebrueder Reinecke. Were any changes to occur with regard to the status of any compositions published or to be published by any of the aforesaid, affecting the industry in respect of our licensed subject matter, due notification of same would be made." A clear and unequivocal answer would have indicated that the only rights which SESAC has in GEBRUEDER REINECKE are "Grand Rights", and as has been pointed out elsewhere in this report, the license agreement between the SESAC and broadcasters does not cover "Grand Rights".

### Period 1930–April 1, 1937

No copyright entries found.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of WALERY RUDNICKI, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

An examination also was made of the assignment records in the Library of Congress and we failed to find any record of assignments by this firm to the SESAC.

See also “Jastrzab” and “W. J. R.” in this report.
We have examined the musical copyright entries in the United States Library of Congress to determine what entries have been recorded in the name of EDWARD SCHUBERTH & COMPANY, INC., New York City, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. This examination disclosed more than 800 entries recorded in the period from 1897 to 1909; 354 entries recorded in the period from 1909 to 1927; and 184 entries recorded in the period from 1927 to April 1, 1937.

An examination of the assignment records in the United States Library of Congress disclosed that under date of July 13, 1933, EDWARD SCHUBERTH & COMPANY, INC., "granted, sold, assigned, and transferred" to the SESAC twelve certain musical compositions, the titles of which are described in Exhibit 105 which is attached hereto and made a part of this report.

We do not list herein all of the musical compositions copyrighted by EDWARD SCHUBERTH & COMPANY, INC., in the period from 1897 to 1909 for the reason that the original copyright period of 28 years has expired. However, we made an examination of the musical copyright renewal entries of the Library of Congress to determine whether the copyrights in these compositions had been renewed, and in Schedule A, below, we set forth in detail the 802 musical compositions in which we found the copyrights had been extended in the name of the composer by EDWARD SCHUBERTH AND COMPANY for an additional period of 28 years. Attention is invited particularly to the names of the organizations which acted as agent for the composer in effecting renewals of certain compositions which were originally copyrighted by EDWARD SCHUBERTH AND COMPANY.

In Schedule B below, we list the 354 musical compositions which we found were copyrighted in the period from 1909 to 1927, and in Schedule C we list 184 musical compositions which we found were copyrighted in the period from 1927 to April 1, 1937.

The SESAC in its letter dated November 19, 1936 (Exhibit 4) states that it has supplied the NAB with catalogues of all the publishers and organizations included in its brochure. The catalogues supplied by it from EDWARD SCHUBERTH & CO., INC., may be described as follows:

1. "Graded Thematics of Attractive Piano Music" (this music is evidently for students of piano)
2. "Piano Albums and Collections" published and imported by Edward Schuberth & Co., Inc. (contains a note under it "when ordering mention from Schuberth's catalogue")
3. "Compositions For Violin and Piano"
4. "Vocal-Albums, Song Cycles" (children's songs, duets, studies, operas-cantatas, Masses, etc.). (Note below it says "when ordering mention from Schuberth's catalogue")
5. "Choruses for Mixed Voices"—(headed "Sacred")
6. "New and Select Musical Publications No. 55" (contains a note, "when ordering from this bulletin mention from Schuberth's catalogue")
7. "Second Grade Piano Pieces"
8. "Second and Third Grade Pieces"
9. "Easy Characteristic Pieces"
10. "First and Second Grade Pieces"
11. "Four Easy Piano Pieces"
12. "For Study and Recreation"
13. "Hellard & Wardell Melodious Pieces, Grade 3"
14. "Characteristic Piano Compositions"
15. "Attractive Recital Pieces"
16. "Medium Grade Piano Pieces"
17. "Recital Compositions"
18. "School Songs" (unison, two part, three part)
19. "Organ Music" (pipe organ and reed organ)
20. "Choruses for Male and Female Voices" (several and sacred)
21. "Selected Songs and Ballads" (The most recent copyright date of the music samples printed in this catalogue is 1925. It is also stated that there are orchestrations available on 17 of the 58 compositions contained.)
22. "Selected Compositions" (this includes certain music of Victor Herbert and Charles Wakefield Cadman)
24. "Choruses For Mixed Voices" (secular)
25. "Attractive Songs" (the latest copyright date included in the samples in this catalogue is 1900)
26. An untitled catalogue of graded piano music

SCHEDULE A

(Containing a list of 747 musical compositions, arranged by author or composer, which according to our findings were originally copyrighted by EDWARD SCHUBERTH AND COMPANY, in the period from 1897 to 1909, and in which the copyrights have been renewed for an additional period of 28 years. There are also listed 55 entries which were originally copyrighted by EDWARD SCHUBERTH AND
COMPANY but which have been renewed in the name of the author or composer by publishers affiliated with the ASCAP. See discussion appearing on page 2 of this report.)

“c” indicates date of original copyright.
“r” indicates date of renewal.

Renewals by Edward Schuberth and Company
In the Name of

ADELHEID M. ARENS

1. DREAM LAND
   (mixed voices) by Adelheid M. Arens. c. May 28, 1906. r.

In the Name of

J. F. ZIMMERMAN

1. SOLITUDE
   (pf.) by J. F. Zimmerman.

Of the foregoing 747 renewals made by EDWARD SCHUBERTH AND COMPANY 221 were written by composers and authors who are listed in the 1931 ASCAP directory as members of the ASCAP. (As indicated, some of these are listed in the June 1, 1925, directory as well as the 1931 directory.)

Carrie Jacobs Bond
Charles Wakefield Cadman
Reginald De Koren, Est. of
Harvey B. Gaul
Victor Harris (1925)
Victor Herbert, Est. of (1925)
Rupert Hughes (1925)
Chas. J. Roberts (Chas. Krausherr (1925)
Arthur Nevin (1925)
Eugene Platzman
James H. Rogers (1925)
Harry Rowe Shelley (1925)
Robert B. Smith (1925)

A discussion of the complications arising from the fact that several of the composers and authors of selection in this catalogue are members of the ASCAP appears in the foreword of this report.

148

(pf.) by J. Schendel. c. Apr. 13, 1931.

32. CUCKOO WALTZ

33. DALILA

34. DANCE BARBARIC

35. DANCE CAPRICE
(violin & pf.) by P. Stoewing. c. Oct. 8, 1928.

36. DANCE OF THE GOBLINS

37. DANCE OF THE WARRIORS

38. DANCER

39. DANCING BOW

40. DANCING BOW

41. DANCING DOLLS

42. “DAWNLIGHT, THE ROSE & YOU"

43. DEBUTANTE
(violin & pf.) by G. Stoupa. c. Apr. 20, 1929.

44. DELIA

45. DITES-MOI
(song) by M. Ilgenfritz. c. Sept. 5, 1930.

46. DOLLY'S WALTZ
(pf.) by H. Meyerowitz. c. July 5, 1929.

47. DRAGON-FLY
(pf.) by A. Lewing. c. Aug. 6, 1928.

48. DREAMING DREAMS OF YOU
(based on the melody “Solitude”) by J. Kanner and J. Morse. c. Aug. 15, 1931.

49. DREAMS IN D
(song) by McNair Ilgenfritz. c. June 17, 1930.

50. EAGLE

51. ELEGY
(violin & pf.) by R. Kvelve. c. Nov. 5, 1928.

52. ENCHANTMENT

53. ENTREATY
(song) by M. Ilgenfritz. c. May 17, 1928.

54. ESTRELLA TROPICAL

55. EVENING CALM
(pf.) by Carl Braun. c. Nov. 9, 1928.
It will be observed that Schuberth has registered for copyright only 184 musical selections in the past 10 years.
This catalogue differs from the others referred to in this report in that it is primarily involved with the question of the renewal of copyrights, and that a substantial number of the selections were composed by persons who are prominent members of the ASCAP.

It will be observed that 747 selections have been renewed through the offices of EDWARD SCHUBERTH AND COMPANY (Schedule A). Frankly, great confusion exists in the matter of the renewal of copyrights. It appears that until recently, it has been possible for more than one person to file a renewal of copyright in a single musical selection. Some notable instances may be cited. For example:

"Serenade," a comic opera originally copyrighted on April 26, 1897 (c. #25779) by Edward Schuberth and Company.

At the time of renewal, two separate applications for an extension of the above original copyright were entered within three weeks of each other:

1. "Serenade," a comic opera (c. #25779) renewed Dec. 8, 1924 (renewal #29915) by Mrs. Victor Herbert.
2. "Serenade," a comic opera (c. #25779) renewed Dec. 31, 1924 (renewal #29011) by Edward Schuberth and Company in the name of Mrs. Victor Herbert.

As another example:

"Lafitte," a comic opera originally copyrighted on April 14, 1897 (c. #23315) by Edward Schuberth and Company.

At the time of renewal, two separate applications for an extension of the above original copyright were entered within three weeks of each other:

1. "Lafitte," a comic opera (c. #23315) renewed Dec. 8, 1924 (renewal #20914) by Mrs. Victor Herbert.
2. "Lafitte," a comic opera (c. #23315) renewed Dec. 31, 1924 (renewal #2000) by Edward Schuberth and Company in the name of Mrs. Victor Herbert.

It is difficult to understand why Mrs. Herbert would renew these copyrights one day and authorize Schuberth to renew the same copyrights the next day. These circumstances tend to illustrate how archaic is the copyright law and how urgently remedial legislation is needed to the end that users of music may be informed of the true copyright owners and representatives of copyright owners. The only defense the broadcaster has in these cases is to avoid the use of such music until authentic information is obtainable from Licensing Societies.

On the whole, this catalogue, while it involves a large number of musical selections may be evaluated on the basis of the classification described at the beginning of this chapter.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries in the name of SESAC PUBLICATIONS, New York, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

1. **BEZ S LADU TWA WIELKA MIŁOSĆ MINIE**
   (Tango) by W. Stepień and J. Petersburski, c. July 2, 1936.

2. **BEZ S LADU TWA WIELKA MIŁOSĆ MINIE (and) MILCZ SERCE, MILCZ**
   2. By B. Kuron and T. Kwiecinski, arr. by J. Gert.
   c. July 2, 1936.

3. **JUST SAY THAT YOU LOVE ME (SAG 'JA)**
   From “Student Sein” (pf. with uke arr.) by Josef Buckhorn, Ernst Erich Buder, and Franz Baumann, Eng. version by Harry Gilder, arr. by May Singhi Breen. c. April 18, 1931.

4. **MILCZ SERCE, MILCZ**
   (Tango) by T. Kwiecinski, arr. by J. Gert. c. July 2, 1936.

5. **PAN'S PIPER**
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.

6. **REFLECTION**
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.

7. **RIP VAN WINKLE**
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.

The above list should enable the broadcasters to appraise the true worth of this catalogue.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed only five entries under the name of HERMAN SEEMAN, Leipzig, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. According to the latest SESAC brochures, HERMAN SEEMAN is included under Harmonie Verlag. The five copyrights entered in the name of HERMAN SEEMAN included: 1, ten piano exercises; 2, five German songs; 3, one piano number; 4, one opera in three acts (ZENOBIA); and 5, one group of children's songs. These copyrights were all entered on May 13, 1901.

Further examination of the musical copyright records of the Library of Congress failed to disclose any renewals having been entered on any of the above selections. This music, therefore, appears to be in the Public Domain.

Information from a reliable source states that: "The firm of Herman Seeman was dissolved before the war. The remaining stocks of books were taken over by about 5 different book dealing firms, while the printed music department went over to the firm of Universal Edition, Karlsplatz 6, Wien I, Austria. This above firm is stated to be still in existence at the above indicated address. It maintains in Leipzig only a selling agency in the hands of Friedrich Hofmeister, 10 Karlstrasse, Leipzig C.1." The address given is 6 Karlsplatz, Wien I, Austria.

Universal Edition, referred to in the above quotation as having taken over the music department of HERMAN SEEMAN, we understand is represented in the United States by the Associated Music Publishers, Inc., New York City. Broadcasters desiring to use musical selections copyrighted by Universal Edition, therefore, must acquire the radio performing rights in such music from the Associated Music Publishers, Inc.

It is possible that the SESAC, through its representation of HARMONIE VERLAG, has certain rights in books which at one time were owned and controlled by HERMAN SEEMAN, since the information quoted above shows "* * * * The remaining stocks of books were taken over by about 5 different book dealing firms. * * * *" But all the information we are able to obtain makes it appear that the inclusion of HERMAN SEEMAN in the SESAC brochure is misleading insofar as performing rights in music are concerned.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of G. SEYFARTH, Lwow, Poland, listed in the SESAC brochure dated January 1, 1937, as a publisher or organization included under its license:

**Period 1870–1935**

No copyright entries found.

**Period 1936–April 1, 1937**

The following list:

1. CHLOPCA MEGO MI ZABRALI
   (piesn) by St. Niewiadomski.
   c. Oct. 8, 1936.

    c. Sept. 29, 1936.

15. Z WYSOKICH PARNASOW
    (16 piesni) by St. Niewiadomski.
    c. Sept. 29, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by G. SEYFARTH to the SESAC. A copy of this assignment, marked Exhibit 108, is attached to and made a part of this report.

The 15 compositions contained in this catalogue, all written by the same composer, probably have a certain performance value to those broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
Solunastra
Berlin, Germany—Lisbon, Portugal

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of SOLUNASTRA, Berlin, Lisbon, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

An examination also was made of the assignment records in the Library of Congress and we failed to find any record of assignments by this firm to the SESAC.

An investigation concerning this firm has been made both in Berlin and Lisbon, and we are advised as follows: "It has not been possible to locate this firm in Berlin. It is unknown among sheet music publishers" and, "This firm is unknown in Lisbon. * * * Not listed in telephone or commercial directories."

We have not been able to locate any catalogue material concerning this organization, as referred to in Item 14 of the SESAC letter dated November 19, 1936 (Exhibit No. 4).

The absence of any musical copyright entries in the name of this organization, our failure to find any records of assignment made by this organization to the SESAC, and the absence of any catalogue material among the data which has been supplied to us by the SESAC is the basis for our belief that the inclusion of SOLUNASTRA in the SESAC brochure is misleading insofar as radio performing rights in music are concerned.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of ALFRED THORSINGS MUSIKFORLAG, Copenhagen, Denmark, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

**Period 1870–1926**

No copyright entries found.

**Period 1927–April 1, 1937**

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by ALFRED THORSINGS MUSIKFORLAG to the SESAC. A copy of this assignment, marked Exhibit 109, is attached to and made a part of this report.

On the basis of an investigation made in Denmark, we are advised as follows with regard to this firm:

"Alfred Thorsings Musikforlag, 13 Vesterbrogade, Copenhagen, Denmark. * * * Importer and retailer of music. Publisher and jobber, orchestral, classical and popular 'sheet' music. Republishing popular American music. * * *"

The 41 musical compositions copyrighted in the United States by this organization are in the Danish language, and probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using Danish music.

The right to represent this organization in the United States is in dispute. The SESAC, in its letter dated November 19, 1936 (Exhibit No. 4) in Item 7a, states: "* * * In indicating that our 'performing rights' in the catalogs of the following * * * Alfred Thorsings Musikforlag, Copenhagen * * * cover 'all rights' therein, we naturally mean such rights for all publications published and controlled by each of the aforementioned firms."

The ASCAP, on page 3 of its January 1, 1936 directory, states that: "ASCAP does have reciprocal agreements whereunder it represents in the United States of America such rights as their members have in this country, with the following foreign societies: Denmark, KODA, International Forbund Til Beskyttelse af Komponistrettigheder I Danmark, Kronprinsessegade 26, Copenhagen, Denmark." Also, on page T-5 in the same directory, the ASCAP identifies ALFRED THORSINGS MUSIKFORLAG as a publisher member of KODA.
Union de Compositores
Barcelona, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of UNION DE COMPOSITORES, Barcelona, Spain, listed in an announcement by the SESAC dated February 3, 1937, as a publisher or organization included under its license:

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following entries:

1. MENTISTE
   (orch.) by N. Suris. c. Sept. 1, 1936.

2. AMOR DE ESCLAVO
   (orch.) by Gil Luano. c. Sept. 1, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by UNION DE COMPOSITORES to the SESAC. A copy of this assignment, marked Exhibit 110, is attached to and made a part of this report.

As an aid in appraising the value of these two compositions in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of J. URGELLES, Barcelona, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

The following list:

**Period 1870–1935**

**Period 1936–April 1, 1936**

1. MUCHACHA
   tango, (orch.) by Jose Urgelles.
   c. Sept. 5, 1936.
2. ROSITA
   tango, (orch.) by Jose Urgelles.
   c. Sept. 5, 1936.
3. RUMBITA
   rhumba, (orch.) by Jose Urgelles.
   c. June 9, 1936.
4. RUMBITA (and) TORERO
   (orch.) by Jose Mora.
   c. June 22, 1936.
5. TORERO
   pasodoble, (orch.) by J. Urgelles.
   c. June 9, 1936.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by J. URGELLES to the SESAC. Copies of these assignments, marked Exhibit 111 and Exhibit 112 are attached to and made a part of this report.

As an aid in appraising the value of this music in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.
A. Urmeneta
Barcelona, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of A. URMENETA, Barcelona, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

No copyright entries found.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by A. URMENETA to the SESAC. Copies of these assignments, marked Exhibits 113 to 122 inclusive, are attached to and made a part of this report.

As an aid in appraising the value of this music in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following copyright entries under the name VINCENT, HOWARD & PREEMAN, LTD., Los Angeles, California, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license:

1. GOLDEN RIVER

2. I'M ALWAYS RUNNING AFTER RAINBOWS BUT THEY SEEM TO HAVE FUN IN RUNNING AWAY FROM ME
(song) by Fred Howard and Nat Vincent. c. Apr. 1, 1931.

3. LITTLE GIRL DRESSED IN BLUE

4. LITTLE OLD RAG DOLL

5. MELLOW ALABAMA MOON
(song) by Fred Howard and Nat Vincent. c. Nov. 4, 1931.

6. OLD BLACK MOUNTAIN TRAIL
(song) by Fred Howard and Nat Vincent. c. Nov. 4, 1931.

7. ON A SAPPHIRE SEA JUST YOU AND ME
(song) by Fred Howard and Nat Vincent. c. Oct. 11, 1932.

8. ONE MAD NIGHT OF LOVE
(song) by Desider Josef Vecsei, Fred Howard and Nat Vincent. c. May 14, 1931.

9. ROCK ME TO SLEEP IN MY ROCKY MOUNTAIN HOME

10. STEER'S LAMENT NEARING THE END OF THE TRAIL
(song) by Fred Howard and Nat Vincent. c. Apr. 27, 1931.

11. STRAWBERRY ROAN
(song) by Fred Howard and Nat Vincent. c. Mar. 16, 1931.

12. THERE'S A ROBIN SINGING IN THE OLD PINE TREE
(song) by Fred Howard and Nat Vincent. c. Apr. 27, 1931.

13. WONDER VALLEY
(song) by Fred Howard and Nat Vincent. c. Mar. 16, 1931.

14. WATCHING AND WAITING AT THE END OF THE TRAIL FOR YOU

15. WE'LL SEE THE HARD TIMES THROUGH
(song) by Fred Howard and Nat Vincent. c. Aug. 21, 1931.

The above examination also disclosed four copyright entries under the name VINCENT & HOWARD, LTD., Los Angeles, California, and as these entries are included in an assignment (see Exhibit 123) to the M. M. COLE PUBLISHING COMPANY, Chicago, Illinois, referred to below, they are listed as follows:

1. GAL ON THE FLYING TRAPEZE
(song) by Fred Howard and Nat Vincent. c. Oct. 1, 1930.

2. IT'S HEAVEN TO ME
(song) by Fred Howard and Nat Vincent. c. Sept. 5, 1934.

3. ME AND MY BURRO

4. BRING YOUR ROSES TO HER NOW

The above examination also disclosed fifteen copyright entries under the name MORSE M. PREEMAN, Los Angeles, California, and as certain of these entries are included in an assignment (see Exhibit 123) to the M. M. COLE PUBLISHING COMPANY, Chicago, Illinois, referred to below, they are listed as follows:

1. BY THE DREAMY TENNESSEE

2. CURLEW, CRY NO MORE
(song) by Lois Mills and John Ingold. c. Sept. 16, 1930.

3. I SEE YOUR DADDY IN YOU
(song) by Milton Brockman, Jules Herman and Harry Walker. c. Aug. 28, 1930.

4. ITS TIME TO SAY ALOHA
(song) by Fred Howard and Nat Vincent. c. Oct. 1, 1930.

5. MAKE UP YOUR MIND TO WIND UP IN SUNNY CALIFORNIA
(song) by Fred Howard and Nat Vincent. c. May 21, 1930.

6. MELLOW MOUNTAIN MOON

7. MY PRETTY QUADROON
(male quartet) by Fred Howard and Nat Vincent, arr. by Freeman High. c. June 25, 1930.

8. PRETTY QUADROON
(song) by Fred Howard and Nat Vincent. c. Aug. 28, 1930.

9. SKIES
(song) by John Paul Ogle. c. Apr. 1, 1931.

10. SURF
(song) by Myrtle Hill and Elizabeth Ellis Scantlebury. c. May 21, 1930.

11. TABLES HAVE TURNED, THE ONE WHO'S CRYING IS YOU
(song) by Fred Howard and Nat Vincent. c. Oct. 1, 1930.

12. TWO TREES
(male voices) by Elnor Remick Warren and Irene Maunder. c. Apr. 29, 1930.

13. WHEN IT'S AUTUMN IN THE HILLS OF CALIFORNIA
(song) by Jessie Warren Dunford. c. Apr. 9, 1932.

14. WHEN THE BLOOM IS ON THE SAGE
(song) by Fred Howard and Nat Vincent. c. May 6, 1930.

15. WHEN YOU THINK A WHOLE LOT ABOUT SOMEONE AND THAT SOMEONE THINKS NOTHING OF YOU
(song) by Fred Howard and Nat Vincent. c. May 26, 1931.
An examination of the records of assignments in the Library of Congress disclosed the following assignment by VINCENT & HOWARD, LTD., Los Angeles, California, to M. M. COLE PUBLISHING COMPANY, Chicago, Illinois, a copy of which marked Exhibit 123 is attached to and made a part of this report. It will be observed that 34 entries are listed above and 29 titles appear in the assignment. Twenty-seven of the titles appear in one or the other of the three lists set forth above and two, namely, “Sweet Dreams, Sweetheart” and “In the Little Old Green Valley School” were subsequently copyrighted on February 12, 1935 by M. M. Cole Publishing Co.

We call attention to the fact that Nat Vincent, composer of a majority of the above compositions, is listed in the 1925, 1931 and 1936 editions of the ASCAP Directory as a member of the ASCAP. The complications arising from the fact that a composer is a member of the ASCAP are discussed in the foreword of this report.
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of VITAK-ELSNIC COMPANY, Chicago, Illinois, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

No copyright entries found.

The following list:

1. AMAZON
2. AMAZON
3. ANDZIA s KEDEKSEM
4. BALLET DANCER
5. BALLET DANCER
6. BARUSKA

1927–April 1, 1937
It will be observed that with one exception all of the entries were made not later than 1931.

These musical compositions are made up exclusively of Polish music, and include band parts, orchestrations, dance collections, concertina arrangements, polkas, etc. VITAK-ELSNIC COMPANY is an important source for such music in the United States, and these selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.
Warzawskie Towarzystwo Muzycene  
(Warsaw Music Society)  
Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of WARZAWSKIE TOWARZYSTWO MUZYCNE (WARSAW MUSIC SOCIETY), Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Moreover, an examination of the assignment records in the Library of Congress failed to disclose any assignments by the WARZAWSKIE TOWARZYSTWO MUZYCNE (WARSAW MUSIC SOCIETY) to the SESAC.

Based on an investigation made in Poland, we are advised as follows:

"The Warsaw Music Society publishes classical music almost entirely for music schools and conservatories in Poland. Music is sent free of charge to the Society of European Stage Authors and Composers, Inc., New York, in order to acquaint the American public with Polish classical music. The Society maintains an Academy of music in Poland composed of five (5) branches. The publishing section of the Society is not a commercial enterprise."
An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of W. J. R., Warsaw, Poland, listed in the SESAC brochure dated January 1, 1937, as a publisher or organization included under its license.

No copyright entries found.

The following list:

Period 1870–1933

No copyright entries found.

Period 1934–April 1, 1937

1. ARGENTYNA

2. GDY NACHODZI SWIT

3. KAROLINO

4. KOMPANJA MA BYC MUROWANA

5. NILCT NIE UMIE KOCHAC-TAK

6. PANI MNIE POZNAJE

7. POCALUJ MNIE

8. ROSJANKA

9. WESOLY MARYNARZ

The above compositions contained in this catalogue probably have a certain performance value to those broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

See also “Jastrzab” and “Rudnicki.”
Mariano Yanguas
Madrid, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of MARIANO YANGUAS, Madrid, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following list:

1. CAMINITOS
   pasodoble, (orch.) by Mariano Yanguas. c. May 1, 1936.
2. CAMINITOS
   pasodoble, (orch.) by Mariano Yanguas. c. May 20, 1936.
3. CORDOBESITA
   pasodoble, (orch.) by Mariano Yanguas. c. Apr. 10, 1936.
4. CORDOBESITA
   pasodoble, (orch.) by Mariano Yanguas. c. May 20, 1936.
5. EN SEVILLA
   (orch.) by Mariano Yanguas. c. May 20, 1936.
6. EN SEVILLA
   (orch.) by Mariano Yanguas. c. May 1, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by MARIANO YANGUAS to the SESAC. A copy of this assignment, marked Exhibit 124 is attached to and made a part of this report.

As an aid in appraising the value of this type of music in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.

MEMORANDUM OF AGREEMENT

The parties hereto accordingly hereby mutually agree as follows:

1. Licensor hereby grants to, and Licensee accepts, a non-exclusive license for the period hereof to broadcast (excluding television) from the space radio station(s) mentioned hereabove such musical compositions as may now be, or during the period hereof shall be, owned or controlled by Licensor, and the performance of which for space radio broadcasting, Licensor may under its agreements authorize, prohibit, supervise and control. Such musical compositions shall be covered by this license throughout the time of Licensor's ownership or control thereof as aforesaid during the period hereof.

2. It is understood that so-called "Grand Rights", namely dramatic renditions in whole or part, of dramatico-musical and dramatic works, to be broadcast by any radio station licensed under this license, to be broadcast by any radio station licensed under this license, is hereby agreed to be and remain in full force and effect until 19__ and will automatically continue in force thereafter from year to year subject to the right of either party hereto to terminate this agreement upon written notice of its election so to terminate by United States registered mail to the other party at least ninety days prior to the date fixed for termination.

3. All music compositions broadcast by Licensor under this license shall be announced by the title and composer, and in the event that name shall be taken from a musical production or sound film, the name of the production or sound film shall also be announced in said broadcast. Licensee hereby agrees to account to Licensor upon request, copies of its program records to which referring notice has been given, and Furthermore agrees to permit Licensor, upon request, to examine its offices, during business hours, the original program records, etc.

4. Licensor reserves the right, at any time, from time to time, to restrict the performance by Licensee unless Licensor's written consent be first obtained, and the license herein granted.

5. Licensee hereby agrees to pay to Licensor for this license an annual fee of $_________ which shall be payable in advance in twelve equal monthly installments of $_________ on the day of each month for a license period of Five (5) years from ________ to ________ .

6. In event that Licensor is in arrears of any monthly payment, as stipulated herein, for more than 30 days, or in event that Licensor is adjudicated bankrupt, or declared, or becomes, insolvent, Licensor has the right to demand payment at once, or in default thereof, the balance of all monthly payments due or to become due under this license, or Licensor may in the alternative cancel this license.

7. The right to broadcast any musical compositions granted under this license extends only to Licensor's radio station(s) mentioned hereabove, and to any station(s) of like production, and to radio broadcasting the etation(s) licensed by Licensor, and to broadcast, televise, perform or otherwise utilize any musical compositions covered under this license.

8. If at any time during the term of this agreement the power wattage, location, wave length, or allotted time be changed, or if the call sign or letters of Licensor's station(s) be changed (whether as a consequence of combination, consolidation or merger with any other broadcasting station(s) whenever, or by any means, method or process whatsoever, or with any station(s) of like production, and/or re-television or re-broadcasting or otherwise,performances of said musical compositions, to any stations in a hook-up or network, or otherwise, unless such station(s) are duly procured licenses from Licensor. Nothing herein contained shall be construed as permitting Licensor to grant to others the right to broadcast, televise, reproduce or perform publicly for profit or otherwise, by any means, method or process whatsoever, any of the musical compositions so broadcast, or as permitting any receiver of the broadcast of any musical compositions to publicly rebroadcast, televise, perform or reproduce the same for profit or otherwise, by any means, method or process whatsoever, without first obtaining a written license from Licensor. Licensee shall have no right to perform or otherwise utilize any musical compositions covered under this agreement except as herein specifically provided.

9. This agreement is to be and remain in full force and effect until 19__ and will automatically continue in force thereafter from year to year subject to the right of either party hereto to terminate this agreement upon written notice of its election so to terminate by United States registered mail to the other party at least ninety days prior to the date fixed for termination.

10. This license is personal to Licensor and is non assignable, non-transferable, and non-divisible by operation of law, judicial proceedings, or sale, division, or otherwise; this agreement shall inure to the benefit of and be binding upon Licensor's successors and assigns.

IN WITNESS WHEREOF the parties hereto have caused this agreement to be duly executed in quadruplicate as of the day and year first above written.

SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC.

Licensor

By: __________________________ (L. S.)

President

Licensor

By: __________________________ (L. S.)
MEMORANDUM OF AGREEMENT made this day of , 193...

between

SESAC BROADCASTING PERFORMANCE LICENSE

... and SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC, a New York Corporation... with its principal office located at 115 West 42nd Street, New York, N.Y.

Licensor has entered into various agreements whereby small and/or grand rights vested in, and controlled by, the foreign and American publishers and organizations, contained in the list herewith attached as Schedule "A", have been assigned to it.

Licensor is empowered, subject to the various terms and conditions in said agreements, and to rights assigned to it, to authorize, prohibit, supervise and control performances in the United States of America of musical compositions, musical dramatical works, and dramatic works.

Licensee is engaged in space radio broadcasting over the station(s) licensed by the Federal Communications Commission as follows:

The parties hereto accordingly hereby mutually agree as follows:

1. Licensor hereby grants and Licensee accepts, a non-exclusive license for the period hereof to broadcast (excluding television) from the space radio station(s) mentioned hereinabove such musical compositions as may now be, or during the period hereof shall be, owned or controlled by Licensor, and the performance of which for space radio broadcasting, Licensor may under its divers agreements authorize, prohibit, supervise and control. Such musical compositions shall be covered by this license throughout the time of Licensor's ownership or control thereof as aforesaid during the period hereof.

2. It is understood that so-called "Grand Rights" namely dramatic renditions in whole or part, of dramatico-musical end dramatic works owned or controlled by Licensor (e.g., dramas, plays, operas, operettas, revues, musical comedies, sketches and like productions), and renditions of symphonic works, cantatas, oratorios, etc., owned or controlled by Licensor, require a special permission in advance, in each instance, from Licensor, and special broadcasting performance fees and rental fees shall be arranged for in advance, in each instance, by Licensor.

3. All musical compositions broadcast by Licensee under this license shall be announced by the title and composer, and in the event that same shall be taken from a musical production or sound film, the name of the production or sound film shall also be announced in said broadcast. Licensee hereby agrees to furnish to Licensor, upon request, copies of its program records and furthermore agrees to permit Licensor, upon request, to examine at Licensee's offices, during business hours, the original program records.

4. Licensor reserves the right, at any time, from time to time, to restrict the performance by Licensee unless Licensor's written consent be first obtained, of any musical compositions covered by the license herein granted, but the total number of any compositions which may be under restriction shall at no time exceed ten percent of Licensor's repertory.

5. Licensee hereby agrees to pay to Licensor for this license an annual fee of $, which shall be payable in advance in twelve equal monthly installments of $...
on the ...................... day of each month for a license period of Five(5) years from .................... 193......, to ..............................19......

6. In event that Licensee is in arrears of any monthly payment, as stipulated herein, for more than 30 days, or in event that Licensee is adjudicated bankrupt, or declared, or becomes, insolvent, Licensor has the right to demand payment at once, or file a claim for, the balance of all monthly payments due or to become due under this license, or Licensor may in the alternative cancel this license.

7. The right to broadcast any musical compositions granted under this license extends only to Licensee broadcasting from the station(s) licensed under this agreement or from any other place(s) of origin duly licensed by Licensor, and Licensee may not relay and/or transmit in any manner whatsoever for re-transmission and/or rebroadcasting or otherwise, performances of said musical compositions, to any stations in a hook-up or network, or otherwise, unless such stations have duly procured licenses from Licensor. Nothing herein contained shall be construed as permitting Licensee to grant to others the right to broadcast, televise, reproduce or perform publicly for profit or otherwise, by any means, method or process whatsoever, any of the musical compositions so broadcast, or as permitting any receiver of the broadcast of any musical compositions to publicly rebroadcast, televise, perform or reproduce the same for profit or otherwise, by any means, method or process whatsoever, without first obtaining a written license from Licensor. Licensee shall have no right to perform or otherwise utilize any musical compositions covered under this agreement except as herein specified.

8. If at any time during the term of this agreement the power wattage, location, wave length, or allotted time be changed, or if the call signals or letters of Licensee's station(s) be changed (whether as a consequence of combination, consolidation or merger with any other broadcasting station(s) whatsoever, or otherwise) Licensee shall immediately notify Licensor thereof by United States registered mail and this license shall continue, subject to all the conditions, restrictions and limitations therein, except that the license fee shall thereafter be at the rate charged by Licensor in accordance with its Prevailing Schedule.

9. This agreement is to be and remain in full force and effect until ............., 19...... and will automatically continue in force thereafter from year to year subject to the right of either party hereto to terminate this agreement on ............., 19......, or on ............. in any year thereafter by giving written notice of its election so to terminate by United States registered mail to the other party at least ninety days prior to the date fixed for termination.

10. This license is personal to Licensee and is non-assignable, non-transferable, and non-divisible by operation of law, judicial proceedings or sale, devolution, or otherwise; this agreement shall inure to the benefit of and be binding upon Licensor, its successors and assigns.

IN WITNESS WHEREOF the parties hereto have caused this agreement to be duly signed and sealed in quadruplicate as of the day and year first above written.

SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC.
Licensor

By........................................(L.S.)
President

........................................
Licensee

By........................................(L.S.)
October 14, 1936

Society of European Stage Authors and Composers, Inc.
113 West 42nd Street
New York, New York

Attention: Mr. Paul Heinecke, President

Gentlemen:

A great many questions have arisen with reference to the Society of European Stage Authors and Composers, Inc., (hereinafter referred to as SESAC) and the license agreements which have been entered into between SESAC and members of the National Association of Broadcasters (hereinafter referred to as NAB); and it seems desirable to record some of these questions here, with the request that you furnish us with as complete information thereon as you possibly can.

You will recall that as early as last January we requested a list of the musical selections owned or controlled by the SESAC in order that member stations might have the opportunity of inspecting the package they were urged to buy under an implied threat of prosecution.

(1) Does the name of your corporation, that is "Society of European Stage Authors and Composers, Inc." correctly describe the organization? In other words, does the SESAC contain among its members (a) European Stage Authors and (b) European Composers? If so, please furnish the names of such European Stage Authors and European Composers separately.

(2) In the second paragraph of your license agreement you state: "LICENSOR has entered into various agreements whereby small and/or grand rights vested in, and controlled by, the following foreign and American publishers and organizations have been assigned to it. EDITION ADLER, Berlin (Successor, Heinrichshofen Verlag, Magdeburg); AHN u. SIMROCK, Berlin; APOLLO MUSIC COMPANY, New York; M. ARCT, Warsaw; MAX BECK VERLAG, Leipzig; BRYANT MUSIC COMPANY, New York; M. M. COLE PUBLISHING CO., Chicago, Inc.; CALUMST MUSIC CO., Chicago, and "Happy Chappies" (Vincent, Howard and Freeman, Ltd., Los Angeles); ERNST ZULENBURG, Leipzig; S. FISCHER VERLAG, Berlin; ROB. FORBERG, Leipzig; GEERTHNER & WOLFF, Warsaw; CARL GEHRMANS MUSIKFORLAG, Stockholm; PAUL GORDON, Berlin; F. GRABCEWSKI, Warsaw; HERMANN HABERER-HELASCO, Madrid-Berlin; HARMONIE-VERLAG, Berlin, incl. HERMANN SEESE, Nachfolger, Leipzig; LEON IDZIKOWSKI, Warsaw; INTERNATIONAL EDITION, Leipzig; RICHARD KAUN-VERLAG, Berlin; LIENAU'SCHE MUSIKVERLAG, Berlin, incl. SCHLESINGER'SCHE B.u.M., Berlin, OTTO WERNTHAL, Berlin, CARL TOBIAS HASLINGER, Vienna, MUSIKVERLAG HASLINGER, Vienna, MUSIKVERLAG ADOLF KESTER, Berlin, H. R. KRENTZLIN, Berlin; NOWA SCENA, Warsaw; O. PAGANI & BRO., New York; EUGENIO SEINECKE, Leipzig, incl. JOH. FÖRSTER, Pirna, GUSTAV HAUSHAHN, Magdeburg, J. LOEBEL, Zittau, RICH. NOSKE, Borna; RONDO-VERLAG, Berlin, incl. ALFRED BECKER, Berlin; ROBERT RUBELT, Berlin; EDWARD SCHUBERTH & CO., INC., New York; SESAC PUBLICATIONS, New York; "SOLUNASTRA" MUSIK-VERLAG, Madrid-Berlin; STEIN-GRABBER VERLAG, Leipzig; CHR. FRIEDRICH VIESEWEG, Berlin."

(a) What period of time is covered by your agreements with these publishers and organizations?

(3) In your letter of September 10, addressed to Mr. Fitzgerald, you state that you control the performing rights in the "musical dramatical works and symphonic
orchestral works" of Gebrüder Reinecke, Leipzig, including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirna; and Kaun, Richard, Verlag, Berlin. Will you answer in detail the following questions as they apply to each publisher listed in the previous sentence?

(a) In what "musical dramatrical works", published or controlled by each, do you control the radio performing rights?

(b) Do you have authority to license for radio performance such "musical dramatrical works" solely as complete "musical dramatrical works"?

(c) Do you have authority to license for radio performance extracts from all of these "musical dramatrical works" or from any of them? Please specify.

(d) In what "symphonic orchestral works", published or controlled by each, do you control the radio performing rights?

(e) Do you have authority to license for radio performance such "symphonic orchestral works" solely as complete "symphonic orchestral works"?

(f) Do you have authority to license for radio performance extracts from all of these "symphonic orchestral works" or from any of them? Please specify.

(g) Is a radio station licensee of the SESAC required, by any stipulation in his contract with you, to obtain special permission from the SESAC to perform (1) these "musical dramatrical works" and (2) these "symphonic orchestral works", either as complete works or for the playing of extracts from the complete works. Please specify.

(h) Why do you say in your letter of September 10 that you control the "indicated performing rights" in the "musical dramatrical works and symphonic orchestral works" of Gebrüder Reinecke, Leipzig, when in a direct communication to us, signed by Gebrüder Reinecke, we are informed that the SESAC represents "the non-dramatic performing rights of our musical publications in the United States"? Please explain fully.

(4) In the same letter of September 10 you state that you control the performing rights in the "Serious Music and Symphonic Orchestral Works and Musical Dramatic Works" of Lienau'sche Musikverlage, Berlin, including Carl Tobias Haslinger, Vienna; Musikverlag Haslinger, Vienna; Otto Kernthal, Berlin; and Schlesinger'sche Buch and Musikhdig, Berlin. Will you answer in detail the following questions as they apply to each publisher listed in the previous sentence?

(a) In what "serious music", published or controlled by each, do you control the radio performing rights?

(b) Do you have authority to license for radio performance such "serious music" solely as complete works of serious music?

(c) Do you have authority to license for radio performance extracts from all of these works of "serious music", or
from any of them? Please specify.

(d) In what "musical dramatical works", published or controlled by each, do you control the radio performing rights?

(e) Do you have authority to license for radio performance such "musical dramatical works" solely as complete musical dramatical works?

(f) Do you have authority to license for radio performance extracts from all of these "musical dramatical works" or from any of them? Please specify.

(g) Do you have authority to license for radio performance such "symphonic orchestral works" solely as complete symphonic orchestral works?

(h) Do you have authority to license for radio performance extracts from all of these "symphonic orchestral works" or from any of them? Please specify.

(j) Is a radio station licensee of the SESAC required, by any stipulation in his contract with you, to obtain special permission from the SESAC to perform these works of "serious music", "musical dramatical works", and "symphonic orchestral works"; either as complete works or for the playing of extracts from the complete works? Please specify.

(5) Proceeding further in the same letter of September 10, you state that you control the performing rights in the "Orchestral Works and Chamber Music" of Stein- graeber Verlag, Leipzig.

(a) In what "orchestral works", published or controlled by Stein- graeber Verlag, Leipzig, do you control the radio performing rights?

(b) In what "chamber music", published or controlled by Stein-gaeber Verlag, Leipzig, do you control the radio performing rights?

(c) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of these "orchestral works" or "chamber music"? Please specify.

(d) Does the SESAC regard all of the catalogued numbers published by Stein-gaeber Verlag, Leipzig, under the title "Edition Stein-graeber 1933 - 1934" to be included under the indicated performing rights" stated in the letter of September 10?

(e) Does any Society, other than the SESAC, control the performing rights in any of the musical selections contained in the catalogue of Stein-gaeber Verlag, Leipzig?
(6) In your letter of September 10, you state that you control the performing rights in the "orchestra works, chamber music, and musical dramatical works," of Vieweg, Chr. Friedr., Berlin.

(a) In what "orchestra works", published or controlled by Vieweg, Chr. Friedr., Berlin, do you control the radio performing rights?

(b) In what "chamber music", published or controlled by Vieweg, Chr. Friedr., Berlin, do you control the radio performing rights?

(c) In what "musical dramatical works", published or controlled by Vieweg, Chr., Friedr., Berlin, do you control the radio performing rights?

(d) Do you have authority to license for radio performance such "musical dramatical works" solely as complete musical dramatical works?

(e) Do you have authority to license for radio performance extracts from all of these "musical dramatical works" or from any of them? Please specify.

(f) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of these musical dramatical works? Please specify.

(7) Your letter of September 10 further states that you control "all rights" in the musical works of the following publishers:

Gehrmans, Carl, Musikforlag, Stockholm
Ahn and Simrock Buehnenverlag, Berlin
Alfred Thorsings Musikforlag, Copenhagen
Edition Adler, Berlin
    (Successor Heinrichshofen, Magdeburg)
Heinrichshofen's Verlag, Magdeburg

(a) Does "all rights" mean all rights for public performance of each and every musical selection published or controlled by each of the above named firms, if not,

(b) In what musical selections published or controlled by each of the above named firms do you control the radio performing rights?

(c) Why do you say in your letter of September 10 that you control "all rights" in the music controlled by Heinrichshofen's Verlag, Magdeburg, when in a direct communication to us signed "Heinrichshofen's Verlag" we are informed:

"Auf Ihre Anfrage von 1. 9. teilen wir höflichst mit, dass unsere Auf Führungsrechte, soweit Unterhaltungsmusik in Frage kommt, durch die Stamma der American Society of Composers, Authors and Publishers, New York, zur Verwaltung "übertragen sind." (Our translation: "In reply to your inquiry of September 1, we are pleased to advise you that in so far as entertainment music is concerned our performing rights are represented by the American Society of Composers, Authors and Publishers, New York.")

(8) From your catalogue of June 1, 1936, and subsequent releases, we are given to understand that the following named American firms are members of the SESAC:
Braun, Hubert J. - Chicago
Braun Organization, The - Chicago
Bryant Music Company - New York
Calumet Music Company - Chicago
Cole, M. M., Publishing Co. - Chicago
  (including Happy Chappies; Vincent, Howard
  and Freeman, Ltd. - Los Angeles)
Cross and Winge, Inc. - Portland, Ore.
Master Music Makers - Portland, Ore.
Moderns Edition - Chicago
Music Products Corp. - Chicago
Moderns Publications - Chicago
Nattrass-Schenck, Inc. - Chicago
Hearst Music Publishing Co., Ltd., of Canada

All of your communications to member stations re: "Recent additional American Repertory
Acquired by the Society" state that

"SESAC now controls exclusively, in addition to the musical catalogues
already licensed for performance, the copyright and performing rights
to all musical compositions and publications included in the catalogues
of, and copyrighted by (name of firm); and that these compositions
and publications are henceforth authorized for performance by the
stations exclusively pursuant to their license with SESAC."

(a) In what musical selections owned or controlled by these music
publishers or firms do you control the radio performing rights?

(b) Do any of these music publishers or firms reserve the right to grant
to a radio station or stations the radio performing rights in their music
whether the station holds a license with the SESAC or not. Please specify.

(c) Does the SESAC have the right to sue a radio station for infringement
growing out of a radio performance of all the musical selections owned or
controlled by these firms? Please explain fully.

(9) In your December 12, 1934, answer to a letter of Philip G. Loucks
formerly Managing Director of the NAB, asking the question

"In your agreement you list certain publishers with which you have
agreements, and you state that you have the right subject to various
terms and conditions contained in these agreements, to authorize,
prohibit, supervise, and control performances in this country of
certain musical compositions, dramatico-musical works and dramatic
works. Do you distinguish between the works you have authority to
license and those you do not. Do you have the exclusive right to
these works?"

you answered:

"All of SESAC's contracts are exclusive, and generally speaking, cover
all the compositions included in the catalogues of the particular
publisher, but cognizance must be taken of the universal trade
practice of music publishers, who from time to time, prior to entering
into such an agreement as SESAC's, have sold to others the rights to
certain compositions and single numbers from their catalogues. In such
instances, of course, the exceptions are usually written into the
contract. However, these exceptions are proportionately negligible
in the case of SESAC's contracts."

EXHIBIT 3-p-5
Now, let us take Gebreuder Reinecke in Leipzig as an example of the purpose of this quotation from your letter of December 13, 1934. In your letter of September 10, 1936, you state that you control the "musical dramatical works and the symphonic orchestral works" of Gebreuder Reinecke, Leipzig. Yet direct communication with Reinecke brings out his understanding that you represent "the non-dramatic rights in our (Reinecke's) musical publication-in the United States." The Reinecke catalogue which you supplied to the NAB contains piano music, well known songs, vocal music, harmonium with piano music, organ music, mandolin music, wood instrument music, string solos, string orchestra music, and general instrumental music. The classified index of this catalogue lists neither "dramatico-musical works" nor "symphonic orchestral works." This example, picked at random from your catalogues, shows conflicting and misleading information. Please explain fully.

(10) According to the SESAC catalogue you control the performing rights for the United States for the following named publishing firms:

- Apollo Music Co. - New York
- Arct, M. - Warsaw
- Beck Verlag, Max - Leipzig
- Becker (Rondo-Verlag)
- Culla Antonio - Barcelona
- Ediciones Rodock (C. Rodriguez) - Bilboa
- Ediciones A. "Ormaneta" - Barcelona
- Edition "Jastrzab" (J. Rzepecki) - Warsaw
- Editions Ferras - Warsaw, Buenos Aires
- Fischer Verlag, S. - Berlin
- Forberg, Rob. - Leipzig
- Gebethner and Wolff - Warsaw
- Gordon, Paul - Berlin
- Grabcowski, F. - Warsaw
- Haberer-Halasco, Hermann - Madrid, Berlin, Lisbon
- Harmonie, Verlag - Berlin
- including Hermann Seemann, Nachfolger, Leipzig
- Idzikowski, Leon - Warsaw
- Koester, Adolf, Musikverlag - Berlin
- Kreutzling, H. R. - Berlin
- Lebendiger, Henryk - Warsaw, Buenos Aires
- Loebel, J. - Zittau
- Mora, Jose - Barcelona
- Noske, Rich. - Borna
- Nowa Scena - Warsaw
- Pagani, O., and Bro. - New York
- Rondo Verlag - Berlin
- Rudnicki, Melody - Berlin
- Ruehle, Robert - Berlin
- Schuberth, Edward, & Co., Inc. - New York
- SESAC Publications - New York
- Solunastra - Lisbon, Berlin
- Vitak-Elsnic Co. - Chicago
- Warsaw Music Society - Warsaw
- "W. J. R." - Warsaw

(a) In what musical selections owned or controlled by each of the above publishers or firms does the SESAC control the radio performing rights? Please give separate answer for each publisher or firm named.

(b) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of the musical selections owned or controlled by the above named publishers or firms either as complete works, or for the playing of...

EXHIBIT 3-p.6
extracts from the complete works? Please specify, and for each publisher or firm, separately.

A separate, full and complete answer to each of the questions contained in items 3, 4, 5, 6, 7, 8, 9, and 10, including each sub-question thereunder, is necessary in order that a clear and definite understanding may be had of the meaning of the third paragraph of your license agreement which reads as follows:

"Licensor is empowered, subject to the various terms and conditions in said agreements, and to rights assigned to it, to authorize, prohibit, supervise and control performances in the United States of America of musical compositions, musical dramatic works and dramatic works."

(11.) Section I of the License agreement reads as follows:

"LICENSOR hereby grants and LICENSEE accepts, a non-exclusive license for the period hereof to broadcast (excluding television) from the space radio station(s), mentioned hereinabove, such musical compositions as may now be, or during the period hereof shall be, owned or controlled by LICENSOR, and the performances of which for space radio broadcasting, LICENSOR may, under its divers agreements authorize, prohibit, supervise and control. Such musical compositions shall be covered by this license throughout the time of LICENSOR's ownership or control thereof, as aforesaid, during the period hereof."

(a) What is the true meaning of the words "a non-exclusive license" appearing in line one of the section numbered one in your printed license agreement? Do these words mean that some other firm or person may have the right or is able to acquire the right to also authorize radio performances of any part or all the works of the publishers and organizations named in your contract?

(b) To what extent, if any, do you intend to qualify your powers and authority by the words "and the performance of which for space radio broadcasting, LICENSOR may under its divers agreements authorize, prohibit, supervise and control?"

(12) Why is it that the SESAC does not agree, in its license agreements with stations, to indemnify the station against damages that might be sustained as a result of a claim by another that he has the right to license the musical selections allegedly contained in the SESAC repertory; and why does not the SESAC agree in its license agreements to defend its licensees against any such suits?

(13) Now let us examine the letterhead which you use for the purpose of communicating with member stations. You have been asked, above, to justify the use of the title "Society of European Stage Authors and Composers, Inc." which appears also at the top of your letterhead. On the left hand margin of your letterhead you have a column entitled "World Famous Authors and Composers in our Repertory" and you list the following named persons:

<p>| | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>D'Albert</td>
<td>Becce</td>
<td>Bruckner</td>
<td>Chapin</td>
<td>Drdla</td>
</tr>
<tr>
<td>Alonso</td>
<td>Benatzky</td>
<td>Busch</td>
<td>Conus</td>
<td>Drigo</td>
</tr>
<tr>
<td>Arct</td>
<td>Bertuch</td>
<td>Busoni</td>
<td>Cowell</td>
<td>Dvorak</td>
</tr>
<tr>
<td>Ascher</td>
<td>Blech</td>
<td>Caballero</td>
<td>Dan (Danilowski)</td>
<td>Elgar</td>
</tr>
<tr>
<td>Autry</td>
<td>Braine</td>
<td>Cadman</td>
<td>Delius</td>
<td>Engel-Berger</td>
</tr>
</tbody>
</table>
In your earlier dealings with radio stations and at a time when a large number of license agreements were entered into with radio stations, you used a letterhead which displayed a column on the left margin entitled "World Famous Authors and Composers represented in our Catalogues." And you listed the following named persons:

<table>
<thead>
<tr>
<th>Author/Composer</th>
<th>Letterhead Column</th>
</tr>
</thead>
<tbody>
<tr>
<td>D'Albert</td>
<td>Ehrlich S.</td>
</tr>
<tr>
<td>Alonso</td>

</tr>
</tbody>
</table>

and others

(a) Why did you change the title of this column?
(b) In what manner did the SESAC represent these authors and composers?
(c) In what manner does the SESAC now represent these authors and composers?
(d) Specifically what radio performing rights does the SESAC control in the musical works of each of these authors and composers?

EXHIBIT 3-p. 8
(14) Why, in the absence of the specific information herein requested, do you permit your agents, when they are endeavoring to negotiate a license agreement with a radio station, to say that you have supplied the NAB with catalogues showing the musical selections you own or control?

(15) Clear and unequivocal answers to the questions contained in this letter are necessary before radio stations can decide whether they need your music and whether the price asked is reasonable for such of your music as is available to them and which is usable in building radio programs for American radio listeners.

An early reply will be greatly appreciated.

A copy of this letter is being sent to each of our members.

Cordially yours,

NATIONAL ASSOCIATION OF BROADCASTERS

James W. Baldwin, Managing Director
COPY OF SESAC LETTER IN REPLY TO NAB
CIRCULAR LETTER OF OCTOBER 14th, 1936

(Copies of SESAC—NAB correspondence referred to in the instant letter will be gladly furnished by SESAC upon request.)

New York, November 19, 1936

National Association of Broadcasters
National Press Building
Washington, D. C.

Gentlemen:

Att. Mr. James W. Baldwin,
Managing Director

With reference to a circular letter of October 14th distributed by you among your members, and referring to our organization, we call to your attention that we concluded our recent letter of September 10th, 1936 on the subject matter, as follows:

1. Should you wish any further data for dissemination to your members, please communicate with us and we shall be pleased to assist you as fully as we can.

This was reiterated in our succeeding letter prior to the receipt of your circular letter of October 14th. A fortiori, it is our desire to assist you in procuring whatever data may be necessary for the better understanding of the music problem by your members and it occurred to us that before you would wish to dispatch any writing to them, you would desire to have the benefit of referring to whatever helpful and useful information, if any, could be furthered.

The general subject matter hereof has already been covered by the exchange of correspondence dated Dec. 8-12, 1934 between SESAC and the NAB, and published in the NAB reports. It would appear from the foregoing that our organization has already given the members and you all the information which could, in our judgment, be helpful or used with some degree of assistance and understanding.

The matter of catalogs and lists has already been explained to you. At your request some time ago, we sent sets of catalogs to you in Washington, D. C. From time to time since then we have sent you supplementary catalog material. Nevertheless, the utter lack of utility for the station in the procurement of a catalog, available from a publisher, is quite manifest. The lists of titles found therein offer no guide to the station. It is prohibitive, as a practical matter, to search catalog after catalog in order to determine whether a composition is performable. This is likely to mislead in checking programs. The only guiding criterion for checking musical compositions is copyright ownership. It is common knowledge that many different musical compositions which bear the same title are published in different copyrighted arrangements, the rights to which are held by various and different owners. As you very well pointed out in your circular letter, the example you give of the 17 different compositions of "Blue Eyes" alone. Checking by the copyright ownership of each publisher and organizations affiliated with SESAC about the music nature and value of whose catalogs are only too well known, is the obvious practice. SESAC's program checking form, in general use among the stations, carries out this principle. A compilation would certainly saddle the station. It is manifest that the catalogs supplied to the station, compiled and we herewith make presentation of the details and techniques of the parties and their respective works, constitute a substantial number of works which are set out in the catalog material which they make available for examination by the stations, but moreover, we have time and again issued temporary licenses for part or all of the entire repertoire without cost in order that stations might avoid infringing. And the industry, besides procuring the SESAC license, has responded by expressing its appreciation of our cooperation in numerous letters to us.

Such endorsements and testimonials from the stations are in ample evidence in our files.

Moreover, let virtually all the information which is the subject of your repetitions inquiries does not appear to serve any practical purpose, the SESAC staff has compiled and we have made presentation of the details and techniques, as necessary, elicited by your letters.

1. The "Society of European Stage Authors and Composers, Inc." (known in the trade as SESAC) represents the works of numerous such stage authors and composers. (See for example your question 13 on page 14, 15 and 16 in which you list the names of many of these composers taken from our letterhead wherein the specified names are mentioned with reference to "our repertory or "represented in our catalog". It is the purpose of the organization to represent, license and control performance of these works, among other mediums, through radio and television. The relationship is acquired by contract to perform and license performances in public; and organizations controlling the works of these parties, and in some instances by direct contract where the works individually controlled by the respective party approximate a sizeable repertory, can control and license the performances. In the case of the parties and their respective works, consult the catalogs supplied to the NAB.

2. It would appear to be well understood, as a matter of business practice, that dates of termination of private contracts of a business organization are hardly recorded for publicity. This is, however, that SESAC's contracts are long term ones usually. It is sufficient that the station is licensed for the use of specified works in accordance as the rights therein have been acquired for licensing by SESAC. Obviously, SESAC would not issue a license to a repertory for a period of time if it had not rights for such period. As you are aware, the station is so licensed and regularly notified during the past, of SESAC's current acquisitions. Any change in catalogs which should be called to the attention of the station will be called to the attention of the station.

As we advised you in our letter of September 10th, 1936, we have the performing rights in the musical dramatic works and symphonic orchestral works of Gebruder Reinecke, Leipzig, including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirmasens, and of Kaz, Richard, Verlag, Berlin.

PLEASE UNDERSTAND THAT SESAC CONTROLS ALL RIGHTS IN CONNECTION WITH SOME FIFTY (50) CATALOGS AND ADDITIONAL CATALOGS OF WHICH THIS IS ONE. THE WORKS EMBRACED BY THE AIDS LISTS OF THE LICENSED WORKS ARE ALSO AVAILABLE FOR PERFORMANCE BY THE STATION SUBJECT TO THE UNIFORM TRADE CONDITION THAT "GRAND RIGHTS" REQUIRE A SPECIAL PERMIT. Paragraph 2 thereof reads as follows:

(a) We have the radio performing rights as well as other rights in all musical works controlled by the SESAC organization of orchestral works which are published and controlled by the following publishers:

Gebruder Reinecke, Leipzig
Including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirmasens.
Kaz, Richard, Verlag, Berlin

This would appear to be self evident from our letter to you of September 10th, 1936.

(b) Not only may SESAC license for radio performance complete musical dramatical works of the aforementioned publishers, but SESAC may also license dramatic renditions thereof in whole or part. Your reference to our license would show this.

(c) Non-dramatic renditions of excerpts of musical dramatical works or the like cannot, according to "grand right" renditions from the catalogs of the aforementioned publishers are not understood to be licensed for radio performance by the trade, as stated above. This would likewise appear to be self evident from our letter to you of September 10th, 1936.

(d) We have the radio performing rights as well as other rights in all symphonic orchestral works which are published and controlled by the aforementioned publishers.

See (e).

(e) You will find the details regarding the radio license requirements of such works in the NAB reports and will be found to be identical with the catalogs. You will find that, as you doubtless perceive, is not only unnecessary but would complicate matters tremendously.

Moreover, in view of our continued amicable and cooperative relationship with the radio stations, we resent paragraph second of your letter, which suggests that stations have been procuring our licenses "under an implied threat of prosecution." Not only do our representatives carry, for reference purposes, the catalog material which they make available for examination by the stations but moreover, we have time and again issued temporary licenses for part or all of the entire repertoire without cost in order that stations might avoid infringing. And the industry, besides procuring the SESAC license, has responded by expressing its appreciation of our cooperation in numerous letters to us.

EXHIBIT 4-p. 1
controlled by LICENSOR, require a special permission in advance, in each instance, from LICENSOR, and special broadcasting performance fees and rental fees will be arranged for in advance, in each instance, by LICENSOR.

The above is in accordance with the established trade practice governing "Grand Rights." A station may only perform within such group or broadcast a "grand right" performance of the above works without the prior consent of LICENSOR. For the performance of excerpts see 3 (a) through 3 (e) inclusive.

(b) Although we have not seen the communication to you from Gebruder Reinecke to which you refer, and therefore cannot comment upon whether that form of permission would cover all the requirements involved in your answer, we wish to reiterate most emphatically, and ask you to please note for your records, that we control all rights in the above musical compositions and symphonic orchestral works of Gebruder Reinecke, Leipzig, including Gustav Hauslahn, Magdeburg and Joh. Förster, Pina, as to which we further refer you to our preceding answers to this question. Should Gebrüder Reinecke have in mind to have SESAC in addition to the aforementioned rights, control and administer in the American territory the nondramatic performing rights, we will take the matter up further. Should it be that such administration of these additional rights by SESAC for the American territory may also be brought about—as to which SESAC will be in communication with the writer—we would be glad to announce same to the radio industry upon the consummation of such an enlargement of SESAC's supervision in this catalog. In such event then, for this publisher's catalog, too, in addition to some fifty (50) others, SESAC will administer a full body of performing rights.

(a) We have the radio performing rights in all of those symphonic works and symphonic orchestral works of Gebrüder Reinecke, Leipzig, including Gustav Hauslahn, Magdeburg and Joh. Förster, Pina, as to which we further refer you to our preceding answers to this question. Should Gebrüder Reinecke have in mind to have SESAC in addition to the aforementioned rights, control and administer in the American territory the nondramatic performing rights, we will take the matter up further. It should be noted that such administration of these additional rights by SESAC for the American territory may also be brought about—as to which SESAC will be in communication with the writer—we would be glad to announce same to the radio industry upon the consummation of such an enlargement of SESAC's supervision in this catalog. In such event then, for this publisher's catalog, too, in addition to some fifty (50) others, SESAC will administer a full body of performing rights.

(c) See 4 (b).

(d) We have the right to perform the works as well as other rights in all musical dramatic works which are published and controlled by each of the following publishers:

<table>
<thead>
<tr>
<th>Publisher</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Otto Wernthal, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
</tbody>
</table>

(e) Not only may SESAC license for radio performance such "serious music" as complete works, but SESAC may also license excerpts from same in whole or in part.

Of course, if the particular rendition of the serious music work were to amount to a "grand right" performance, as the term "Grand Right" is defined in our contract and in our exchange of correspondence with the NAB previously referred to, then a special permission would be required. Please note, however, that in our great preponderance of serious music, we consider renditions in the "small right" variety. For the most part the "serious music" which would not fall in the latter category would be presumably symphonic orchestral works or cantatas or oratorios.

(a) We have the radio performing rights as well as other rights in all musical dramatic works which are published and controlled by each of the following publishers:

<table>
<thead>
<tr>
<th>Publisher</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Otto Wernthal, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
</tbody>
</table>

(c) The meaning of our letter of September 10th, 1936, with regard to "small rights" and "grand rights" appears to be self evident from our letter to you of September 10th, 1936.

(b) Not only may SESAC license for radio performance such works as "serious music", but, the term "serious music" is defined in connection to the following:

<table>
<thead>
<tr>
<th>Publisher</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Otto Wernthal, Berlin</td>
<td>Berlin</td>
</tr>
<tr>
<td>Schlesinger'sche Buch und Musikhdg, Berlin</td>
<td>Berlin</td>
</tr>
</tbody>
</table>

(e) As mentioned in 5 (d), SESAC knows and can speak only of its own rights and does not wish to surmise or guess in matters of which it has no definite or firsthand knowledge. Obviously though, whatever rights SESAC controls, others could not and would not have.

We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be clear from our letter to you of September 10th, 1936.

(c) See 4 (b).

(d) We have the radio performing rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This again would appear to be self evident from our letter to you of September 10th, 1936.

(c) We have the radio performing rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(d) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(e) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(f) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(g) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(h) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(i) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(j) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(k) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(l) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(m) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(n) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(o) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(p) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(q) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(r) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(s) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(t) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(u) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(v) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(w) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(x) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(y) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.

(z) We have the following rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be self evident from our letter to you of September 10th, 1936.
or not the station holds a license with SESAC. Any authority or license to perform the copyrighted compositions of the publisher which are thus controlled by SESAC contracts (from hereon referred to) by means of a temporary or permanent license issued by publishers and organizations prior to their affiliation with SESAC continue only through any license or authority from SESAC. As you know, the great bulk of radio stations throughout the country are already licensed. As regards any unlicensed stations which have not yet been contacted by our representatives, we have no intention of trying to have such licenses issued to such stations. We feel that their continuation of usage under authority granted by us, pending their acquisition of a license or contract with SESAC, will constitute a valuable service in enabling the station to make use of SESAC music in accordance with its untrammeled wishes without being concerned or confronted with the legal problem of copyright infringement.

10. (a) Referring further to 9, please be advised that we have the radio performing rights to all musical works published and controlled by the follow¬dramatico-musical classifications.

(b) Regarding "Koester, Adolf, Musikverlag—Berlin Krentelin, H. R.—Berlin." Our pamphlet listing SESAC affiliates specifies with regard to the above license as: "Evidently, the term "grand right" as contrasted to "small right" renditions. And again, by way of further discus¬sion, in this connection, we refer you to 3. (c), (q), (s) (setting out our stand¬ard practices for incorporating the usages of the trade), 4. (a), (b), (h), (i), (j), (k), (l), (m), (o), (p).

11. Here too the paragraph you question is an accurate embodiment of rights licensed by us specifically in accordance with the rights controlled. This has been thoroughly defined by us before, both by way of indicating the nature of our rights controlled in the various catalogs, or where our control relates only to specified licenses or by listing specific works controlled. See, for example, 10 (a) and (b) supra.

Orchesterstimmen

Bd. VII. Sinfonie F-dur. Partitur

Orchesterstimmen

Bd. VIII. Sinfonie Es-dur. Partitur

Orchesterstimmen

Bd. IX. Grand Sinfonia: "Le carnaval ou la redoute" (Carnevalsinistone***********)

Orchesterstimmen

and many more carefully the symphonic character of the work. Likewise, the use in connection with other listed works of the term "partitur," which is an international and American trade expression indicating the conductor's parts for symphonic works, and therefore designating the work as symphonic, should not have escaped your attention. Furthermore, many other words in the titles of the works, and the titles themselves, as listed in the classified and alphabetical indexes to this catalog denote a substantial number of works which fall into the classification controlled by SESAC. Moreover, other catalog material of this publisher would show works falling into the symphonic orchestral and dramatico-musical classifications.

With regard to the communication to Gebreuer Reinecke to which you allude, we refer you to 3. (b).

12. (a) Referring further to 9, please be advised that we have the radio performing rights to all musical works published and controlled by the following publishers and organizations listed by you:

Rudnicki, Walery—Warsaw
Schubert, Edward & Co., Inc.—New York
Sesac Publications—New York
Solumatra—Lisbon, Berlin
Von-Kramer—Breslau
W. J. R. Reinecke, Berlin, Leipzig
W. J. R. Reinecke, Leipzig
Warsaw Music Society—Warsaw
Gebreuer Reinecke—Berlin, Leipzig
Harmuth, R. Schlesinger, Berlin
In addition, we have the radio performing rights to the specified publications of the following:

Fischer Verlag, S.—Berlin (radio plays)
Gordon, Paul—Berlin (radio plays, one act plays, sketches, etc.)
Schuberth, Edward & Co., Inc.—New York
Vitak-Elsnic Co.—Chicago
Sesac Publications—New York
Schuberth, Edward & Co., Inc.—New York
Vitak-Elsnic Co.—Chicago
Sesac Publications—New York

In addition, SESAC has such rights in the works of the following as specifically listed in notices and bulletins sent to the station of which you too have received copies. The listed works (as are notices and bulletins) may constitute all of the copyrighted publications of the respective firms:

Ediciones Rodoch (C. Rodriguez)—Bilbao
Ediciones Urmeneta—Barcelona
Nova, Jose—Buenos Aires

Our pamphlet listing SESAC affiliates specifies with regard to the above license as: "Evidently, the term "grand right" as contrasted to "small right" renditions. And again, by way of further discus¬sion, in this connection, we refer you to 3. (c), (q), (s) (setting out our stand¬ard practices for incorporating the usages of the trade), 4. (a), (b), (h), (i), (j), (k), (l), (m), (o), (p).

With reference to the third paragraph of the SESAC license agreement which we quote, please be advised that we sell, to all licensed stations, a "grand right" license as contrasted to "small right" renditions. The term "grand right" signifies that only the particular station licensed is the recipient of the authority to perform the copyrighted compositions of the publisher which are thus controlled. Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in the sense of an exclusive license.

Regarding "Koester, Adolf, Musikverlag—Berlin Krentelin, H. R.—Berlin." Our pamphlet listing SESAC affiliates indicates that the catalogs are included under Lienau's "Musikverlag—Berlin," and we refer you to our reply to 3. (g) supra.

With reference to the second paragraph of the SESAC license agreement which we quote, please be advised that we sell, to all licensed stations, a "grand right" license as contrasted to "small right" renditions. The term "grand right" signifies that only the particular station licensed is the recipient of the authority to perform the copyrighted compositions of the publisher which are thus controlled. Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in the sense of an exclusive license.

Regarding "Koester, Adolf, Musikverlag—Berlin Krentelin, H. R.—Berlin." Our pamphlet listing SESAC affiliates indicates that the catalogs are included under Lienau's "Musikverlag—Berlin," and we refer you to our reply to 3. (g) supra.

With reference to the second paragraph of the SESAC license agreement which we quote, please be advised that we sell, to all licensed stations, a "grand right" license as contrasted to "small right" renditions. The term "grand right" signifies that only the particular station licensed is the recipient of the authority to perform the copyrighted compositions of the publisher which are thus controlled. Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in the sense of an exclusive license.

Similarly, regarding Rich. Noske—Borna and J. Loebel, Zittau, our aforesaid pamphlet indicates that these catalogs are included under Gebreuer Reinecke, and we refer you to our reply to 3. (g) supra.

In addition, SESAC has such rights in the works of the following as specifically listed in notices and bulletins sent to the station of which you too have received copies. The listed works (as are notices and bulletins) may constitute all of the copyrighted publications of the respective firms:

Ediciones Rodoch (C. Rodriguez)—Bilbao
Ediciones Urmeneta—Barcelona
Nova, Jose—Buenos Aires

Our pamphlet listing SESAC affiliates specifies with regard to the above license as: "Evidently, the term "grand right" as contrasted to "small right" renditions. And again, by way of further discus¬sion, in this connection, we refer you to 3. (c), (q), (s) (setting out our stand¬ard practices for incorporating the usages of the trade), 4. (a), (b), (h), (i), (j), (k), (l), (m), (o), (p).

With reference to the second paragraph of the SESAC license agreement which we quote, please be advised that we sell, to all licensed stations, a "grand right" license as contrasted to "small right" renditions. The term "grand right" signifies that only the particular station licensed is the recipient of the authority to perform the copyrighted compositions of the publisher which are thus controlled. Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in the sense of an exclusive license.

Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in the sense of an exclusive license.
compositions licensed for performance by us according to the terms and conditions of the standard license.”

(Incidentally, it is still true today that no such claim or demand has yet been made.) This indemnity is and has been in existence for almost two years and hence there is no necessity for additionally incorporating it in the license contract.

You have supplied all stations with the SESAC-NAB correspondence containing original copyrighted works and arrangements of these authors and composers represented in our catalogues, which was collected especially for the NAB and have, as you know, supplied this material to the NAB and have, as you know, supplied the same, and any stations which have written to us requesting additional copies, have been gladly supplied with same.

13. (a) Although your question 13 seems rather picayune and pointless in that you should purport to inquire why the matter on our letterhead which originally read “world famous authors and composers represented in our catalogues” (underscored ours) was changed to “world famous authors and composers in our repertoire” (underscored ours), nevertheless if this concerns you, please be advised, that what was effected, and intended to be effected, was merely a change in phraseology but not in meaning and for your further advice, if this is considered to be of interest to you, the purpose was to achieve a more symmetrical appearance on the letterhead.

(b) As already explained in question 13, SESAC represents and controls the original copyrighted works and arrangements of these authors and composers through indirect and direct contracts.

(c) SESAC now continues this representation and control in the same manner.

(d) In connection with the data supplied in this letter, please check and consult with the catalog material which has already been supplied you, and you will ascertain the works of these parties which are controlled by SESAC.

14. We have supplied the NAB with catalog material of our publishers which was collected especially for the NAB and have, as you know, supplemented this material from time to time. These catalogs are sufficient to apprise the stations referring to them of their musical content. As to all the following (and this embraces some 50 repertories), we control the complete body of radio performing rights:

Ahn u. Simrock Buehnenverlag; Berlin
Apollo Music Company; New York
Arct, M.; Warsaw
Beck Verlag, Max; Leipzig
Braun Organization, Inc.; Chicago
Bryant Music Company; New York
Cahnet Music Co.; Chicago
Cole, M. M.; Publishing Co.; Chicago
including:
“Happy Chappies”
Vincent, Howard & Freeman, Ltd.; Los Angeles
Cross & Winge, Inc.; Portland, Ore.
Culla, Antonio; Barcelona (compositions as per list issued)
Ediciones Rodeoch (G. Rodriguez); Bilbao (compositions as per list issued)
Ediciones A. Urmeneta; Barcelona (compositions as per list issued)
Edition Adler; Berlin (Successor, Heinrichshoven’s Verlag; Magdeburg
Edition “Jastrzab” (J. Rzepczak); Warsaw
Editions Fermata; Warsaw—Buenos Aires
Feser, Rob.; Leipzig
Gebruder & Wolff; Warsaw
Gehrmans Musikverlag; Carl; Stockholm
Grabowski, F.; Warsaw, and control of the performing rights in the works of various authors and composers will be found to be divided up among different organizations.

We reiterate that for purposes of copyright checking, the copyright owner’s name must of necessity be the criterion. The musical qualities of the particular catalog are known by any qualified music man conversant with his trade. (See further the forepart of this letter.)

15. The great majority of radio stations throughout the country and virtually all stations contacted by our representatives have already shown their desire and need for the music covered by a SESAC license by procuring same at rates and fees mutually satisfactory. Furthermore, as already stated, all music covered by our license is available for performance pursuant to the license and this reservoir is constantly being augmented by the acquisition of additional catalogs. Not only is an extensive coverage thus granted but practical assistance is given to the stations, by making physically available to them, through our voluntary and cooperative efforts, a large source of music maintained in stock for such purposes. Constant shipments of this music are made to broadcasting stations who find it, together with our practical suggestions, a most valuable service. Indeed for our general cooperation and helpfulness in this and other matters, the industry has been constantly expressing its appreciation to us. Their testimonials and letters of gratification more than justify the continuance of SESAC’s cooperative policy.

A copy of this letter is being simultaneously sent to all of your members.

Faithfully yours,

SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS INC.

PAUL HEINECKE
President
August 28, 1936

Mr. Paul Heinecke, Director
Society of European Stage Authors and Composers, Inc.
113 W. 42nd Street
New York, N. Y.

Dear Mr. Heinecke:

I am enclosing a list of the duplications between your catalog of
June 1, 1936, and the ASCAP directory as of January 1, 1936. Please
assist me in clearing up this confusing situation by letting me know
if all of these duplications have become members of SESAC since Janu¬
ary 1, 1936, and whether they were correctly listed by the ASCAP
directory, at that time.

Would you tell me if the Apollo Music Company of New York is in
any way connected with either the Apollo Musikforlag, or with Apollo
Verlag, both of which are listed as ASCAP affiliates. If the Apollo
Music Company of New York is connected with neither of these firms
would you send me a catalog of their music. In addition I would like
to receive lists of the music catalog by SESAC, on

CULLA, ANTONIO, Barcelona
EDICIONES RODOCH (C. RODRIGUEZ), Bilboa
EDICIONES A. URMENETA, Barcelona

Being in a requesting mood today, I wish you would have sent to
me the catalogs of the Calumet Music Company, Chicago; Cross & Winge,
Inc., Portland, Oregon; the Bryant Music Company of New York; the Braun
Organization, Chicago; Hubert J. Braun, Chicago; and the Moderne Edi¬
tion, of Chicago.

With my kindest regards,

Very truly yours,

Edward J. Fitzgerald, Director
Bureau of Copyrights.

September 10th, 1936

Mr. Edward J. Fitzgerald, Director
Bureau of Copyrights
National Association of Broadcasters
National Press Building
Washington, D.C.

Dear Mr. Fitzgerald:

In reply to your letter of August 28th, please be advised that prior to January 1st, 1936, SESAC controlled and still controls the indicated performing rights of the following publishers listed by you as appearing in the ASCAP directory of January 1, 1936:

- ERNST EULENBURG, Leipzig (Symphonic Orchestral Works)
- GEBRÜEDER REINECKE, Leipzig (Musical Dramatic Works and Symphonic Orchestral Works)
- GERMANS, CARL, MUSIKVERLAG, Stockholm (All Rights)
- GUSTAV HAUSHAIN, Magdeburg (Included under GEBRÜEDER REINECKE)
- INTERNATIONAL EDITION, Leipzig (All Rights)
- KAUN, RICHARD, VERLAG, Berlin (Musical Dramatic Works and Symphonic Orchestral Works)
- CARL TOBIAS HASLINGER, Vienna (Included under LIENAU'SCHE MUSIKVERLAG)
- MUSIKVERLAG HASLINGER, Vienna (Included under LIENAU'SCHE MUSIKVERLAG)
- OTTO WERNTHAL, Berlin (Included under LIENAU'SCHE MUSIKVERLAG)
- JOH. FOERSTER, PIRNA, (Included under GEBRÜEDER REINECKE)
- STEINER ARBBER VERLAG, Leipzig (Orchestra Works and Chamber Music)
- VIEBER, CHR. PRIOR, Berlin (Orchestra Works, Chamber Music and Musical Dramatic Works)
- SCHLESINGER'SCHE BUCH & MUSIKVERLAG, Berlin (Included under LIENAU'SCHE MUSIKVERLAG)
- AHN & SELROCK BUEchner VERLAG, Berlin (All Rights)
- LIENAU'SCHE MUSIKVERLAG, Berlin (Serious Music and Symphonic Orchestral Works and Musical Dramatic Works)
- ALFRED THORSINGS MUSIKVERLAG, Copenhagen (All Rights)
- EDITION ADLER, Berlin, Successor Heinrichshofen, Magdeburg (All Rights)
- HEINRICHSHOFEN'S VERLAG, Magdeburg (See EDITION ADLER)

Of those listed by you in your letter, only the publishing house of:

ALFRED THORSINGS MUSIKVERLAG, Copenhagen, Denmark

became affiliated with SESAC since January 1st, 1936. Please note, however, that during the period between January 1st, 1936 and June 1st, 1936, SESAC acquired additional affiliations and rights in respect of the following:

- CROSS & WINGE, INC., Portland, Oregon
- THE BRAUN ORGANIZATION, Chicago, Ill. (Also known under the name of Hubert J. Braun
- MASTER MUSIC MAKERS, Portland, Oregon
- EDITIONES A. URNÉNSTA, Barcelona, Spain
- EDITIONES RODOCH, Bilbao, Spain
- JOSE MORA, Barcelona, Spain
- ANTONIO CULLA, Barcelona, Spain
- C. RODRIGUEZ, Bilbao, Spain
- NATRASS-SCHENCK, INC., New York, N. Y.
- EDITIONS FERRATA, Warsaw, Poland - Buenos Aires, Argentina
- HENRYK LEBENDIGER, Warsaw, Poland - Buenos Aires, Argentina
- MODERNE PUBLICATIONS, Chicago, Illinois (also known as MODERNE EDITION)
- MARIANO YANGUAS, Madrid, Spain
- J. URQUELLES, Barcelona, Spain

Extra copies of SESAC bulletins to radio stations announcing these additional affiliations during this period are being forwarded under separate cover.
From your letter we observe that you have already noted the confusion that this incomplete and misleading ASCAP listing entails. Manifestly there is no definite indication regarding specified rights as being vested in ASCAP. The listing purports to be based on whatever information, irrespective of factual adequacy or correctness, was possessed by those issuing the directory.

(1) Conspicuously, all American publishers not affiliated with ASCAP are omitted from the listing. We refer to the following American SESAC affiliated publishers whose names are nowhere to be found therein:

- APOLLO MUSIC COMPANY, New York, N. Y.
- BRAUN ORGANIZATION, THE, Chicago, Illinois (Also known under the name of Hubert J. Braun Publications)
- BRYANT MUSIC COMPANY, New York, N. Y.
- CALUMET MUSIC CO., Chicago, Illinois
- CROSS & WINGE, INC., Portland, Oregon
- MASTER MUSIC MAKERS, Portland, Oregon
- MODERNE PUBLICATIONS, Chicago, Illinois (Also known as MODERNE EDITION)
- MUSIC PRODUCTS CORPORATION, Chicago, Illinois
- NATTRASS-SCHENCK, INC., New York, N. Y.
- PAGANI, O., & BRO., New York, N. Y.
- SCHUBERT, EDWARD, & CO., INC., New York, N. Y.
- SESAC PUBLICATIONS, New York, N. Y.
- VITAK-ELSNIC CO., Chicago, Illinois

(2) It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

- BECK VERLAG, MAX, Leipzig
- BECKER, ALFRED, Berlin (Included under RONDO-VERLAG)
- CULLA, ANTONIO, Barcelona
- FISCHER VERLAG, S., Berlin
- FORBERG, ROB., Leipzig
- GORDON, PAUL, Berlin
- HABERER-ELASCO, HERMANN, Madrid - Berlin - Lisbon
- KOESTER, ADOLF, MUSIKVERLAG, Berlin (Included under LLENAU'SCHE MUSIKVERLAGE)
- KRENTZLIN, H. R., Berlin (Included under LLENAU'SCHE MUSIKVERLAGE)
- LOEBEL, J., Zittau (Included under GEBRUEDER REINECKE)
- NosKE, RICH., Borna (Included under GEBRUEDER REINECKE)
- RONDO-VERLAG, Berlin
- RÜHLE, ROBERT, Berlin
- SEMANN, HERMANN, Nachfolger, Leipzig (Included under HARMONIE-VERLAG, Berlin)
- SOLUNASTRA, Lisbon - Berlin
- WARSAW MUSIC SOCIETY, Warsaw

(3) Furthermore, ASCAP lists the following foreign publishers and acknowledges that none of their rights are vested in it (owing to the absence of a reciprocal arrangement), but fails to indicate their affiliation with SESAC:

- ARCT, M., Warsaw
- EDICIONES RODOCH, Bilboa
- EDICIONES A. URMEÑETA, Barcelona
- EDITION "JASTRZAB" (J. RZEPECKI) Warsaw
- EDITIONS FERMIATA, Warsaw - Buenos Aires
- GEBETHNER & WOLFF, Warsaw
- GRABCEWSKI, F., Warsaw
Indeed it is singular to observe that the directory fails to specify and classify the some sixty odd publishers which are affiliated with SESAC, but on the contrary in an obviously misleading fashion recites at the outset that the performing rights to a certain publisher named HARMONIE-VERLAG, Berlin, are controlled by SESAC.

Of course, the directory acknowledges that errors may exist and disclaims responsibility for faulty listing. As above indicated, gross error and confusion, both by omission and commission, have been created with regard to the listing of the SESAC affiliated publishers.

In answer to your further inquiry, please be advised that the APOLLO MUSIC COMPANY of New York, is affiliated exclusively with SESAC and has no relationship whatsoever to any other firms bearing similar names. This also applies with regard to the firm of EDWARD SCHUBERTH & CO., INC., of New York (publisher of numerous Victor Herbert compositions).

The additional catalog material which you request has been collected by us for your attention and is also being forwarded under the separate cover. Should you wish any further data for dissemination to your members, please communicate with us and we shall be pleased to assist you as fully as we can.

With best wishes,

Sincerely yours,

(signed) Paul Heinecke

** Renewals -- made by SESAC or by Edward Schuberth & Co.

**Renewals -- made by SESAC or by Edward Schuberth & Co.
American Society of Composers, Authors and Publishers
30 Rockefeller Plaza
New York, N. Y.

Attention: E. C. Mills, General Manager

January 26, 1937

Gentlemen:

In the course of an investigation we are making it has been noted that certain composers and authors listed in your 1931 and 1936 directories as members of the ASCAP have composed a number of compositions which were published in the period 1931 to 1936 inclusive by music publishers who have not been identified as members of the ASCAP. Further, it has been noted that these publishers have registered the compositions in question with the Register of Copyrights and list themselves as copyright claimants. The performing rights society of which these publishers are claimed to be members asserts that it controls the complete body of radio performing rights of these specific publishers.

Our interpretation of the contract between the ASCAP and its members is that each member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921 and were in effect in the period from January 1, 1931 to December 31, 1935.

In these circumstances it is our conclusion that only your Society (ASCAP) has the right to license for public performances the copyrighted musical selections of each and every of your author and composer members for the period January 1, 1931 to December 31, 1935.

In the interest of accuracy, I will appreciate your verification of this general conclusion and, more specifically, whether any public performance rights in compositions by the following authors and composers can be licensed by any person, firm or society other than the ASCAP:

Rondo Verlag: Berlin, publishers of compositions by -
Vincent Youmans
Irving Berlin
Rudolf Friml

Nattrass Schenck, Inc.; New York, publishers of compositions by -
Joe Goodwin
Al Sherman
Al Lewis
Rey Klages

Natras Products Corporation; New York, publishers of compositions by -
Louis Herscher

Music Products Corporation; Chicago, publishers of compositions by -
Geoffrey O'Hara

Again, in the case of "Bedinage" by Victor Herbert, originally assigned to Edward J. Schuberth Company in 1925, we find the renewal was made by Victor Herbert through Nathan Burkan on September 12, 1922. This fact together with the exclusive, and irrevocable contract which we understand was entered into between Herbert and the ASCAP in 1921, gives us the basis for our conclusion that the performance rights in this composition are controlled only by the ASCAP. I will appreciate also your verification of this conclusion.

Cordially yours,

NATIONAL ASSOCIATION OF BROADCASTERS.

James W. Baldwin, Managing Director
February 5, 1937

National Association of Broadcasters,
National Press Building,
Washington, D. C.

Att: Mr. James W. Baldwin, Managing Director

Gentlemen:

Answering yours of the 26th stating your interpretation of the agreements between ASCAP and its members and your conclusion that under certain circumstances only this Society has the right to license their respective copyrighted compositions for public performance, and requesting us to inform you definitely as to the status of the works of certain writer-members published by non-member publishers:

I am unwilling to take a definite general position. I am entirely willing to answer the question as to any specific composition, by title, but would prefer to answer these questions upon inquiry direct from a licensee.

Yours very truly,

E. C. MILLS
GENERAL MANAGER
American Society of Composers, Authors and Publishers  
30 Rockefeller Plaza  
New York, N. Y.  

Attention: E. C. Mills, General Manager  

Gentlemen:  

In the course of an investigation we are making, it has been noted that certain composers and authors listed in your 1931 and 1936 directories as members of the ASCAP have composed a number of compositions which were published in the period 1931 to 1936 inclusive by music publishers who have not been identified as members of the ASCAP. Further, it has been noted that these publishers have registered the compositions in question with the Register of Copyrights and list themselves as copyright claimants. The performing rights society of which these publishers are claimed to be members asserts that it controls the complete body of radio performing rights of these specific publishers.

Our interpretation of the contract between the ASCAP and its members is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921 and were in effect in the period from January 1, 1931 to December 31, 1935.

In these circumstances it is our conclusion that only your Society (ASCAP) has the right to license for public performances the copyrighted musical selections of each and every of your author and composer members for the period January 1, 1931 to December 31, 1935. In the interest of accuracy, I will appreciate your verification of this general conclusion and, more specifically, whether any public performance rights in compositions by the following authors and composers can be licensed by any person, firm or society other than the ASCAP: Rondo Verlag: Berlin, publishers of compositions by -- Vincent Youmans, Irving Berlin, Rudolf Friml, Larry Spier, and Ray Henderson; Natrass Schonck, Inc.; New York, publishers of compositions by -- Joe Goodman, Al Sherman, Al Lewis, Ray Klages, George R. MacConnell, Tom Waller, Andy Razaf, Vincent Rose, Charles Newman, Maurice Bore Ford (FR3), Louis Herscher, George Little, Ben Ryan, George Whiting, Larry Shay, Jack Meskill, and Nick Kenny; Rialto Music Publishing Company; New York, publishers of compositions by -- Louis Herscher and Ben Gordon; Music Products Corporation; Chicago, publishers of compositions by -- Geoffrey O'Hara; Jewell Music Publishing Company; New York, publishers of compositions by -- A. B. Sterling; W. W. Cole Publishing Company; Chicago, publishers of compositions by -- Nat Vincent.

Again, in the case of "Badinage" by Victor Herbert, originally assigned to Edward J. Schuberth Company in 1895, we find the renewal was made by Victor Herbert through Nathan Burkan on September 12, 1922. This fact, together with the exclusive and irrevocable contract which we understand was entered into between Herbert and the ASCAP in 1921, gives us the basis for our conclusion that the performance rights in this composition are controlled only by the ASCAP. I will appreciate also your verification of this conclusion.

Cordially yours,

HAMPTON ROADS BROADCASTING CORPORATION

James W. Baldwin  
Chairman of the Board
February 16, 1937

Hampton Roads Broadcasting Corporation,
Newport News,
Virginia.

Att: Mr. James W. Baldwin

Gentlemen:

Answering yours of the 15th stating your interpretation of the agreements between ASCAP and its members, and your conclusion that under certain circumstances, only this Society has the right to license their respective compositions for public performance, and requesting us to inform you definitely as to the status of works of certain writer-members published by non-member publishers:

We are unable to state a definite general rule of practice as it might not meet a particular individual situation, and thus either claim rights that legally we may not own or subject our licensee to the hazard of infringements. In other words, title to performing rights in certain compositions cannot be cleared under any general broad rule.

I think your interpretation is entirely accurate as a generalization, but in specific instances it might not be. For instance, Jones, a lyric writer is a member of ASCAP in 1931. Smith, a composer is not a member. The two of them collaborate in writing a composition entitled "SUNSET", which is placed for publication with Brown, a non-member of ASCAP, who copyrights it in the year it was written.

Brown's contract with both the writers conveys to him all rights of whatever nature under the copyright. Obviously, Jones makes his conveyance to the publisher subject to the previous conveyance to ASCAP of the exclusive right to license non-dramatic performances. Equally obviously, Smith, not a member of ASCAP, makes a complete conveyance.

In such a situation, it seems to me that the
Hampton Roads Broadcasting Corp.   February 16, 1937

only right ASCAP would have would be that of licensing the non-dramatic performance of the lyrics only. Yet this line of reasoning might very well be upset under decisions that a musical work (words and music) represents the collective effort of a partnership, and the whole goes together. For all I know, the courts might hold that Smith, the non-member was bound by Jones, the member, and the final result might be that ASCAP had an equal but non-exclusive right with the non-member publisher to license public performances of the work.

I must therefore decline to give you any general ruling on this point, but will be very glad to analyze any list of works you may send us, and inform you specifically as to which of them may be considered as included in the ASCAP repertoire and embraced by its license.

Yours very truly,

AMERICAN SOCIETY OF COMPOSERS, AUTHORS AND PUBLISHERS

[Signature]

E. C. MILLS

ECM:DN
March 1, 1937

American Society of Composers, Authors and Publishers
30 Rockefeller Plaza
New York, N. Y.

Attention: Mr. E. C. Mills

Gentlemen:

Reference is made to your letter of the 16th in reply to ours of February 15th. It would be extremely unfortunate, in view of the unequivocal terms of the ASCAP agreement with authors and composers, if as an ASCAP licensee we cannot rely on collateral information contained in the ASCAP publications and thereby identify the musical selections we are permitted to use in pursuance of the license we have with you.

As stated in our letter of February 15th, it has been noted that certain composers and authors listed in your 1931 and 1936 directories as members of the ASCAP have composed a number of compositions which were published in the period 1931 to 1936 inclusive by music publishers who have not been identified as members of the ASCAP. Further, it has been noted that these publishers have registered the compositions in question with the Register of Copyrights and list themselves as copyright claimants. The performing rights society of which these publishers are claimed to be members asserts that it controls the complete body of radio performing rights of these specific publishers.

Our interpretation of the contract between the ASCAP and its members is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921 and were in effect in the period from January 1, 1931 to December 31, 1935.

In these circumstances it is our conclusion that only your Society (ASCAP) has the right to license for public performances the copyrighted musical selections of each and every of your author and composer members for the period January 1, 1931 to December 31, 1935.

Now to return to your letter of the 16th — you say:

"I think your interpretation is entirely accurate as a generalization, but in specific instances it might not be. For instance, Jones, a lyric writer is a member of ASCAP in 1951. Smith, a composer is not a member. The two of them collaborate in writing a composition entitled "SUNSET" which is placed for publication with Brown, a non-member of ASCAP, who copyrights it in the year it was written.

"Brown's contract with both the writers conveys to him all rights of whatever nature under the copyright. Obviously, Jones makes his conveyance to the publisher subject to the previous conveyance to ASCAP of the exclusive right to license non-dramatic performances. Equally obviously, Smith, not a member of ASCAP, makes a complete conveyance."
"In such a situation, it seems to me that the only right ASCAP would have would be that of licensing the non-dramatic performance of the lyrics only. Yet this line of reasoning might very well be upset under decisions that a musical work (words and music) represents the collective effort of a partnership, and the whole goes together. For all I know, the courts might hold that Smith, the non-member was bound by Jones, the member, and the final result might be that ASCAP had an equal but non-exclusive right with the non-member publisher to license public performances of the work."

You then conclude by saying:

"I must therefore decline to give you any general ruling on this point, but will be very glad to analyze any list of works you may send us, and inform you specifically as to which of them may be considered as included in the ASCAP repertoire and embraced by its license."

We are accepting your offer and hereinafter indicate by publisher, composer and title the musical selections in which we are presently, particularly interested. However, in this connection we would advise that it is our belief that if we are in error in our interpretation, supra, and if your example of the composition entitled, "SUNSET", supra, typifies our error, then, it is our claim that the contract between the ASCAP and its members, at least, gives to the ASCAP a non-exclusive right to license us to perform "SUNSET". We request advice whether under such circumstances the ASCAP as licensor will protect us as licensee against claims which might be made by another.

Specifically the musical selections by publisher, composer and title in which we are presently interested are as follows: (Unless indicated by "N.M." all composers and authors are listed as members of the ASCAP in both the 1931 and 1936 ASCAP directories. It is noted that STAGMA and AKM are performing rights societies of Germany and Austria respectively, with whom ASCAP does have reciprocal agreements whereunder it represents in the United States of America such rights as their members have in this country.)

Rondo Verlag, Berlin; publishers of compositions by - -

Vincent Youmans - Otto Lindemann (STAGMA, 1936)

5. Sweet Dreams

You neglected to express any opinion in your reply with respect to "Badinage" by Victor Herbert. "Badinage" by Victor Herbert was originally assigned by him to the Edward J. Schuberth Company, August 9, 1895, for "all times". This assignment was effective only as one for 28 years from September 12, 1895, the date of the original copyright, as no assignment of copyright can anticipate or assign away the right of renewal. (Paige v. Banks, 80 U. S. 608). Accordingly, Schuberth's rights to "Badinage" expired at the termination of the 28 year period in 1923. In view of the customary exclusive and irrevocable contract which we understand was entered into between Herbert and ASCAP in 1901, we believe that the instant the second 28 year period commenced to run after renewal, the performance rights to "Badinage" automatically vested in ASCAP. This together with the fact that the renewal was made through Nathan Burkan on September 12, 1922, and that the ASCAP program listings credits the performance rights of "Badinage" to M. Vitmark and Company, an ASCAP publisher, is the basis for our conclusion that the performance rights in this composition are controlled only by the ASCAP. Do you agree with this conclusion? If not, wherein do you disagree?

Thanking you in advance for the information herein requested,
we are,

Cordially yours,

HAMPTON ROADS BROADCASTING CORPORATION

JWB-P
James W. Baldwin, Chairman of the Board
IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF NEW YORK

PENNSYLVANIA BROADCASTING COMPANY,
Philadelphia, Pennsylvania,

Plaintiff

—against—

GENE BUCK, LOUIS BERNSTEIN, JEROME
KERN, E. C. MILLS,

Defendant.

SUPPLEMENTARY OPINION

MACK, Circuit Judge:

In the opinion filed December 19, 1935, after the reargument, I passed only on the objection of self-incrimination, because I assumed that defendant Mills would take advantage of the opportunity personally to raise that objection. He has not done so. A stenographic error in that opinion is to be corrected. I had originally overruled the objection to interrogatory 6 and not 5, as therein stated.

On the merits of the re-argument, I cannot concur in plaintiff's contentions as to the relevancy of defendants' other activities on the radio broadcasting situation, in which alone plaintiff is interested and in respect to which it may be able to show that it has been and will be injuriously affected unless the injunction be granted. Therefore, the original ruling is confirmed except that on further consideration I conclude that interrogatories 42 and 44 should be answered, but that the expense of gathering and compiling the information be paid by plaintiff. Defendants shall furnish plaintiff an estimate thereof within ten days, plaintiff may then pay the same or, on three days' notice to defendants, contest the reasonableness thereof, or consent that the interrogatories need not be answered.

JULIAN MACK

U. S. Circuit Judge

January 7, 1935

EXHIBIT 15-p.1
Defendant Mills filed objections to the following forty-four interrogatories propounded by plaintiff:

1. State and names of all members of the American Society of Composers, Authors and Publishers on January 1st of each of the following years, 1915, 1918, 1921, 1924, 1927, 1930, 1934.

2. State the number of licenses granted by said Society to proprietors of motion picture theatres in the United States during each of the calendar years from 1917 to 1933, inclusive.

3. State the amount of gross receipts of said Society from licenses to proprietors of motion picture theatres in the United States for each year from 1917 to 1933, inclusive.

4. State the number of licenses granted by said Society to hotels, restaurants and cabarets in the United States during each of the calendar years from 1917 to 1933, inclusive.

5. State the amount of gross receipts of said Society from licenses to proprietors of hotels, restaurants, dance halls, and cabarets in the United States for each year from 1917 to 1933, inclusive.

6. State the number of licenses granted by said Society to commercial radio broadcasting stations in the United States for each year from 1922 to 1933, inclusive.

7. State the amount of gross receipts of said Society from licenses to radio broadcasting stations for each year from 1922 to 1933, inclusive.

8. State the names of all licensees of said Society who hold an "Operator's Broadcasting License", together with:

   (a) The amount of the annual sustaining fee payable under each such license, and
   (b) The amount of percentage payments made by each such licensee for the period of one year commencing September 1, 1932, or commencing October 1, 1932, depending on the date of each such license contract.

9. State the names of all licensees of said Society who hold an "Operator's Broadcasting License for Newspaper-Owned Stations", together with the annual amount of the guaranty or fixed royalty payable by each such licensee thereunder.
10. State the gross amount of income received by said Society for the period of one year commencing October 1, 1932, from the National Broadcasting Company.

11. State the gross amount of income received by said Society for the period of one year commencing October 1, 1932, from the Columbia Broadcasting System.

12. Will you voluntarily produce, upon the trial of this cause, without being required to do so by subpoena or other judicial process, the Charter of the American Society of Composers, Authors and Publishers?

13. Will you voluntarily produce, upon the trial of this cause, without being required to do so by subpoena, or other judicial process, the By-Laws of the American Society of Composers, Authors and Publishers?

14. Will you voluntarily produce, upon the trial of this cause, without being required to do so by subpoena or other judicial process, the form of agreement or copyright assignment between the American Society of Composers, Authors and Publishers and each of its members?

15. Will you voluntarily produce, upon the trial of this cause, without being required to do so by subpoena or other judicial process, the license agreements between the American Society of Composers, Authors and Publishers and all of their licensees?

16. Will you voluntarily produce, upon the trial of this cause, without being required to do so by subpoena or other judicial process, all contracts between the American Society of Composers, Authors and Publishers, and any association or society or copyright owners in any foreign country?

17. State the name of the President, the Secretary and the General Manager of the American Society of Composers, Authors and Publishers, and the amount of compensation or salary paid to each of said persons in the year 1927.

18. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary, paid to each of said persons in the year 1928.

19. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary paid to each of said persons in the year 1929.

20. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary paid to each of said persons in the year 1930.

21. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary paid to each of said persons in the year 1931.

22. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary paid to each of said persons in the year 1932.

23. State the name of the President, the Secretary and the General Manager of said Society and the amount of compensation or salary paid to each of said persons in the year 1933.

24. State the total amount of operating expenses for said Society, during the year 1927, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

25. State the total amount of expenditures by said Society for attorney fees during the year 1927.

26. State the total amount of operating expenses for said Society, during the year 1928, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

27. State the total amount of expenditures by said Society for attorney fees during the year 1928.

28. State the total amount of operating expenses for said Society during the year 1929, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

29. State the total amount of expenditures by said Society for attorney fees during the year 1929.

30. State the total amount of operating expenses for said Society, during the year 1930, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

31. State the total amount of expenditures by said Society for attorney fees during the year 1930.

32. State the total amount of operating expenses for said Society, during the year 1931, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

33. State the total amount of expenditures by said Society for attorney fees during the year 1931.

34. State the total amount of operating expenses for said Society, during the year 1932, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

35. State the total amount of expenditures by said Society for attorney fees during the year 1932.

36. State the total amount of operating expenses for said Society, during the year 1933, including the maintenance of the Society's clerical organization, and maintenance of branch offices and agents, but excluding legal expenses.

37. State the total amount of expenditures by said Society for attorney fees during the year 1933.
38. Will you voluntarily produce upon the trial of this cause, without being re-
quired to do so by subpoena or other judicial process, all contracts and 
agreements between said Society and any and all attorneys-at-law employed 
by said Society for the purpose of prosecuting copyright infringement suits 
in various districts throughout the United States?

39. State the gross payments made by said Society to its members for each year 
from 1917 to 1933, inclusive.

40. State the gross amount of payments made by said Society to its publisher 
members for each year from 1917 to 1933, inclusive.

41. Will you voluntarily produce upon the trial of this cause, without being re-
quired to do so by subpoena or other Judicial process, all ledgers and books 
of account of said Society containing information relating to Interrogatories 
3, 5, 7, 8, 9, 10, 11, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 
37, 39, 40.

42. State the number of musical compositions copyrighted under the laws of the 
United States the public performance rights to which have been acquired by 
said Society.

43. State the number of musical compositions, under copyrights of foreign nations, 
the public performance rights to which have been acquired by said Society.

44. State the title and composer's name of all copyrighted compositions, copy-
righted under the laws of the United States, the public performance rights 
to which have been acquired by said Society during the period from January 
1, 1933, to December 31, 1933.

On objection to the interrogatories, MACK, Circuit Judge, rendered the 
following opinion:

At the original hearing on the objections, defendants consented to answer 
numbers 1, 12 to 16 inclusive, 38 and 41, to furnish the names requested in 17 to 
23 inclusive, and the Court directed answer to number 5 and number 43. The objec-
tions to the others of the forty-four interrogatories were sustained.

On application, re-argument was granted and subsequently briefs were 
filed.

Defendants urged as a general objection to answering any interrogatories 
that the charges in the present proceeding, a suit for an injunction, could be 
made the basis of criminal proceedings or of a penal action for triple damages 
and that as the interrogated defendant could not be called in a criminal proceed-
ing as a witness for the prosecution, for like reasons he cannot be called to 
answer interrogatories in this civil suit. There is, however, no such general 
exemption. His privilege in this suit is only that of any witness, a privilege 
not to answer questions which may tend to incriminate him.

Plaintiffs, however, contend that inasmuch as a witness when called in a trial must personally claim the privilege against incrimination, so here the interrogated defendant must personally make a like claim, and that as he has not done so, the objection asserted by his attorneys should be overruled.

The only case directly in point is one in this district, In Re Knickerbocker Steamboat Co., 136 Fed. 956 (1905). The decision does not seem to have been cited in this aspect and I have found no other case in which this specific point now made appears to have been raised. There are, however, numerous cases in which demurrers and objections to answering interrogatories, apparently interposed only by counsel, have been sustained on the ground of their tendency to incriminate.

If the Knickerbocker case were in another district I should, in these circumstances, not follow it. I prefer, however, if it be feasible, to avoid deciding the point.

Leave will, therefore, be given to the interrogated defendant, Mills, personally, instead of by counsel, to file objections to such of the interrogatories the answers to which he may be advised would tend to incriminate him, such objections to be filed on or before December 24th.

If the answers to interrogatories 2 to 7 inclusive as to the number of licenses and the gross receipts from licenses to moving picture theatres, hotels, restaurants, cabarets and radio broadcasting stations for a number of years down to 1933 could be deemed at all relevant to the proof of plaintiff's case as tending to show a monopoly by defendants, they would be equally relevant as tending to show a crime and thus as tending to incriminate the interrogated defendant. This same reasoning is applicable to interrogatories 8 to 11 inclusive as to the names of all licensees holding "operators broadcasting licenses" and the income received therefrom or from certain broadcasting systems; likewise as to numbers 39 and 40 as to the gross payments made by the society to its members and publisher members for each of the years 1917 to 1933 inclusive; so too as to 42 and 43, the number of United States copyrighted and of foreign copyrighted musical compositions, the public performance rights to which have been acquired by the society; and 44, the title and composer's name of all United States copyrighted compositions, the public performance rights to which have been acquired by the society for the year 1933.

I adhere to the ruling sustaining the objections to 17 to 23 inclusive as to the compensations or salaries paid to the president, secretary, and general manager of the society for each of the years from 1927 to 1933 as in any event entirely immaterial to plaintiff's case; likewise for the same reason I sustain the objections to interrogatories 24 to 37 inclusive as to the operating expenses of the society exclusive of legal expenses, and separately as to attorneys' fees paid; all of these as to each of the years 1927 to 1933 inclusive.
TANGO CHITO

Festival and dance of village folk in America. Society dance imported from the Republic of Argentina, in the first years of the present century.

The music for these dances: (Hond.) A musical instrument used by the natives, in the form of a cylinder made from a hollow log, one end of which is covered with leather and which is beaten upon.

TANGO MUS.

An American dance, according to some of Mexican origin, but Cuban according to general opinion. From the point of view of rhythm, it is similar to the Habanera (viz. this word). It is in 2/4 time and its movement is increasingly rapid until the end. Adopted for the style called Flemish, and with a hundred variations of rhythm and adornments, it is one of the most characteristic dances. In the good times of the zarzuela it frequently appears to be popular in character and was often used in variety shows and cafes chantants. It finally became almost extinct. Several Spanish composers have written tangos for solo instruments, and one of them, Fernández Arbos, wrote one for violin with orchestra accompaniment. A few years ago, a couple of Argentine dancers and singers introduced the tangos of their country into Spain, where they are now admitted as Society dances. This dance has a somewhat slower movement than the Cuban tango, is likewise written in 2/4 time, and that being its characteristic melody, it frequently uses syncopa.

However, although we have already indicated the probable origin of this dance, we consider it curious, that according to the French publication L'Intermédiaire des Chercheurs et Des Curieux, it is derived from France, and this supposition attaches its origin to La Degonnade des Auvernegueses, an unbridled dance movement. In effect, in the Mémoires de Fléchier, in the second half of the 17th century, there are mentioned one hundred classes of bourrée and of goignade as being prohibited in Auvergne. "The goignade", writes Fléchier, "has as foundation the agility of the bourrée, and takes pleasure in delineating the most indecorous figures, so much so that it may be called the dance of the libertines. The movements of the head, of the feet, of the shoulders, and of all the parts of the body are highly improper. The dancers approach one another, touch each other, embrace each other, in a manner so indecorous, that there is no doubt that it is a matter of imitating the dance of the Bacchantes."

Mme. De Sévigne also mentions in her letters from Vichy the dances of the bourrée at which she assisted, and which she found extremely licentious.
Tango - A slow, graceful dance in 2/4 time. It probably originated with the African negroes; in 1911 it became popular in a modified form in America and subsequently in Europe. It has much in common with the Cuban Habanera.

Even more popular (in the U. S.) proved the tango (Tango Argentina), a dance of doubtful character from the Argentine Republic, which being expurgated, created a dansomania on the Eastern and Western Continents.

**Berman Reich**
Province of Brandenburg
Consulate General of the United States of America at Berlin

I, John F. Stone, Vice Consul of the United States of America at Berlin, German Reich, duly commissioned and qualified, do hereby certify that on this 9th day of November 1932, before me personally appeared Mr. Grunendig, to me personally known, and known to me to be the individual described in whose name is subscribed to, and who executed the foregoing instrument, and being informed by me of the contents of said instrument, duly acknowledged to me that he executed the same freely and voluntarily for the uses and purposes therein mentioned.

IN WITNESS WHEREOF I have hereunto set my hand and official seal the day and year last above mentioned.

Vice Consul of the United States of America at Berlin, Germany
KNOW ALL MEN BY THESE PRESENTS, That BUEHNENVERLAG ANH & SIMROCK, G.M.B.H., of Berlin, Germany, for and in consideration of One Dollar ($1.00), the receipt of which sum is hereby acknowledged, granted, sold, assigned and transferred and by these presents does grant, sell, assign and transfer unto the SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., the dramatic composition entitled:

Draga Maschlin by Friedrich Lichtnecker 1935 D.for. 36113
duly copyrighted in the name of BUEHNENVERLAG ANH & SIMROCK, G.M.B.H., and BUEHNENVERLAG ANH & SIMROCK, G.M.B.H. hereby grants, sells, assigns and transfers unto said SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., all rights of any kind and character appertaining to said dramatic composition and the complete and unconditional and unencumbered title therein and thereto. IN WITNESS WHEREOF, BUEHNENVERLAG ANH & SIMROCK, G.M.B.H. has executed this assignment this 13th day of July, 1935.

Signed BUEHNENVERLAG ANH & SIMROCK, G.M.B.H.

by SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., Attorney.

Kurt A. Jadasohn
Vice-President

STATE OF NEW YORK
COUNTY OF NEW YORK } SS.: On this 18th day of July, 1935, before me came KURT A. JADASSOHN, to me known, who, being by me duly sworn, did depose and say that he resides in Woodcliff, N.J.; that he is the Vice-President of SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., the corporation described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to said instrument is such corporate seal; that it was so affixed by order of the Board of Directors of said corporation, and that he signed his name thereto by like order.

and to the Copyright for the said United States of America and
for Canada and Mexico and their respective possessions for the said
"Die Königin", both as to the music and as to the libretto or
text thereof including the rights of translation; and the said
Bühnenverlag Ahn & Simrock & Co. & Co. does hereby nominate, con-
stitute and appoint said Nathan Burkhan its Attorney in fact for
it and in his own name or in its name, place and stead, but at his
own proper costs to apply for and secure such other and further
copyrights and protective rights in and for the said United States
of America, Canada and Mexico or either of such countries as may
be necessary, and also to take all necessary steps for the protection of
all and singular the rights hereby assigned in all such countries
and to that end to carry on and appear in all litigation, whether
as plaintiff, defendant or otherwise, and to take appeals and se-
cure final judgment thereon and to make and execute all nec-
essary agreements, compromises or settlements and generally to do all
acts, matters and things which the said Nathan Burkhan in his
discretion may deem necessary to protect and safeguard the
rights hereby assigned.

In Witness Whereof the undersigned Bühnenverlag Ahn
& Simrock & Co. & Co. has caused these presents to be executed by
its duly appointed and registered Business Manager Richard
Orozinski, who by German law is authorized and empowered
to act for and on behalf of the said Corporation in all matters ju-
dicial and extra-judicial and to bind the same as will be seen on
reference to the registration of his appointment as such Business
Manager on file in the local court designated Amtsgericht Berlin
Mitte.

Thus Done this 1st day of October 1913 at Berlin.

Make This 7 Point Test Before Selecting a Collaborator

Your Success is My Success
Knowing that the SUCCESS OF A SONG depends in no small measure upon the catchiness and correct commercial form of the music as well as the manner in which the completed song is presented to the public, a wise writer will:

Make this Seven Point Test—Before Selecting a Collaborator

Seven Questions you have a right to ask of anyone offering collaboration services:

1. Has he connections with music publishers through which he can assist his co-writers secure advantageous publishing contracts on suitable songs?

Sylvester L. Cross has a substantial interest in several music publishing houses. His active contacts in the publishing field are at the disposal of each of his co-writers.

Every month of the year publishers are accepting songs co-written or arranged by Sylvester L. Cross. At the present time over 200 popular songs and standard numbers serviced by him are earning royalties for their writers, with publishers steadily demanding more songs.

Sylvester L. Cross is constantly arranging songs introduced on the screen. He made the commercial piano arrangements for songs featured in such current picture successes as "WESTWARD HO!", "RIDE, RANGE, RIDE", "THE BIG SHOW", "THE OLD CORRAL", etc.

Songs composed or arranged by Sylvester L. Cross are featured daily and nightly on the air waves of the nation, reaching millions of listeners whose contact with the world of music and entertainment depends upon the family radio.

Scores of songs recently arranged or co-written by Sylvester L. Cross are featured daily and nightly on the air waves of the nation, reaching millions of listeners whose contact with the world of music and entertainment depends upon the family radio.

Sylvester L. Cross has the benefit of an experienced organization of well-known music men, with years of success in the employ of major publishers. Offices are maintained at San Francisco and Hollywood-Los Angeles and representation at Chicago and New York.

Sylvester L. Cross is nationally known and recognized in the legitimate song writing and popular music publishing field and offers a service based upon present achievements. It was Sylvester Cross who introduced the Golden Rule into the field of song service collaboration and TODAY HE IS THE LEADER IN THAT FIELD!

Sylvester L. Cross is proud to be publicly identified with each new song he composes or arranges and his name appears as composer or arranger with that of his co-writer, on each manuscript copy.

Others?

In giving herewith the professional qualifications of Sylvester L. Cross, in contrast with those of "song bureaus", "services" and self-styled composers and arrangers who in times past have been the only available source of collaboration for most new writers, it is desired to make clear that Sylvester Cross is offering a Professional Collaboration Service. He cannot and does not guarantee publication or success for any song.

His contacts in the publishing, recording and motion picture fields, established thru years of concentrated activity, are used advantageously for suitable songs, when opportunity arises, but he cannot and does not imply or guarantee any success for any song in these connections.

Sylvester L. Cross is proud to be publicly identified with each new song he composes or arranges and his name appears as composer or arranger with that of his co-writer, on each manuscript copy.

You will find the above test both interesting and educational. In making it you will protect your pocketbook and will greatly increase your chances for success in this fascinating field. And having made this test, you will understand why the published, royalty earning songs of the clients of Sylvester L. Cross outnumber those of the clients of all other composers, song bureaus and "services" combined, offering a similar service.

ASSIGNMENTS OF COPYRIGHTS

EXHIBIT 44-p. 2

The foregoing assignment of copyright is this twenty-third day of December, 1913, recorded in the Copyright Office of the United States, book 73, pages 271-272, in conformity with the laws of the United States respecting copyright.

Written 5-B-13.
Revised 1916.

EXHIBIT 44-p. 2
"With the present act, Mr. Vittorio Gnecchi, for himself and his heirs, declares that he has ceded, sold, and transferred to the Messrs. G. Ricordi & Company of Milan, Italy and 14 East 43rd Street, New York, the full and entire, absolute and exclusive rights for all countries, with the exception of Germany, Austria-Hungary and Russia Tedesca, in his opera "Cassandra" and the libretto of Luigi Illica.

Mr. Vittorio Gnecchi declares that he understands in this secession, that all the rights of publication, public performance, translation and reproduction by all forms and in any methods, of the present and of the future, are surrendered in their entirety to the Messrs. G. Ricordi & Company by Vittorio Gnecchi.

Mr. Vittorio Gnecchi declares that he holds no additional rights in the opera "Cassandra" in disposing of it to Messrs. G. Ricordi & Company at the time of this deed.

Mr. Vittorio Gnecchi declares also that he has registered the opera "Cassandra" with the Register of Copyrights in Washington as follows:

In the year 1905 - The edition which has been arranged for voice and piano.

In the year 1910 - A new edition which has been arranged for voice and piano.

In the year 1911 - The orchestra score of the prologue of the opera.

The said Vittorio Gnecchi authorizes G. Ricordi & Company to inquire of the Register of Copyrights in Washington regarding the registration of the opera "Cassandra", actually existing there under the name of Mr. Vittorio Gnecchi and which is now entered under the name of G. Ricordi & Company, who is the proprietor (owner) of the opera under the terms of the present act.

In faith,

(Signed) Vittorio Gnecchi"

CERTIFICATE OF OFFICIAL COMPETENCE OF NOTARY PUBLIC.

AMERICAN CONSULATE GENERAL,
LISBON, PORTUGAL.

I, Kenneth S. Stout, Vice-Consul of the United States of America at Lisbon, Portugal, duly commissioned and qualified, do hereby certify that ——— Raul Augusto Moreira ——— whose signature appears on the annexed document as authenticating the signature thereto, is an assistant of ——— Jose Peres de Noronha Calvão ——— a Notary Public in good standing in Lisbon, and as such is authorized by the laws of Portugal to make such authentications. For the contents of the annexed document I assume no responsibility.

In witness whereof I have hereunto set my hand and the official seal of this Consulate General this 16th day of July in the year of our Lord one thousand nine hundred and thirty-six.

Kenneth S. Stout,
Vice-Consul of the United States of America.

For A.M., Two Dollars, Payable in U.S. Currency.
Serial No. 665.

EXHIBIT 73-p.2
IT IS DISTINCTLY UNDERSTOOD AND CONFIRMED THAT by contract of assignment dated December 19th, 1934 received in the Copyright Office on January 7th, 1935 and recorded in the copyright office book No. 326, pages 27-28 on January 8th, 1935, that "The Happy Chappies Ltd.," a California corporation did assign, transfer, sell and set over to the H. M. Cole Publishing Co., an Illinois corporation, the copyrights and all renewals thereof it then had or would have at any time in the future and all right, title and interest therein (including any and all rights now known or existing or hereafter to be known or existing) it then had or would have at any time in the future, and any and all causes of action and right to damages for prior infringements of copyright or any other rights in and to all the musical compositions set forth in said contract of assignment.

AND THAT said contract of assignment reciting the assignee or as "Vincent & Howard Ltd.," is hereby amended by inserting "The happy Chappies Ltd." as assignee in lieu of said "Vincent and Howard Ltd." and that all references in said assignment to "Vincent & Howard Ltd." are hereby amended to be references to "The Happy Chappies Ltd."

IN WITNESS WHEREOF, the said "Happy Chappies Ltd." and the said H. M. Cole Publishing Co. have caused this instrument to be signed and executed by their respective officers below designated on this 19th day of June, 1935 at Chicago, Illinois.

113 West 42nd Street
New York, N Y

HARMONIE VERLAG

By Paul Heinecke

Att'y

State of New York )
SS:
County of New York)

On the 7th day of September, 1933, before me personally came Paul
Heinecke to me known and known to me to be the individual described in
and who executed the foregoing instrument and he acknowledged to me
that he executed the same.

EXHIBIT 77-p.5
November 11, 1933.

July 27th 1925  617795

And all other copy-rights of the

Hearst Music Publishers, Ltd., Quigley & Benson, or Thomas J.

Quigley not here listed.

Attest  G.A. Boyle  By  W.L. Quinn

Secretary  Vice President

VOL. 297 PAGE 195
EXHIBIT 81-p.2
For and In Consideration of the sum of FIFTY-TWO HUNDRED DOLLARS ($5200.00) advanced to the HEARST MUSIC PUBLISHERS of CANADA, LIMITED and for other advances of various sums for salaries and other incidental expenses and also for other valuable considerations, the receipt of which is hereby acknowledged, the said HEARST MUSIC PUBLISHERS of CANADA, LIMITED, do hereby assign, sell and transfer to THOS. J. QUIGLEY of the City of Chicago, Cook County, Illinois, all their rights, title and interests whatsoever in the music business in the UNITED STATES OF AMERICA including the following:

1. All songs, both published and unpublished, manuscripts, etc., mentioned on the list attached hereto and marked Exhibit A, starting with the title "BROKEN DREAMS" and ending with the title "I LOVED HER BUT SHE MOVED AWAY".

2. All stock and office fixtures at the New York offices of the HEARST MUSIC PUBLISHERS of CANADA, LIMITED, now located at 1658 Broadway, New York City, including Pianos, offices fixtures, stock of sheet music, orchestrations, etc.

3. All sheet music, pianos, desks, chairs, office fixtures, victrola, multigraph machine, addressograph machine and everything pertaining to the music business of the HEARST MUSIC PUBLISHERS of CANADA, LIMITED, now located at Fourth Floor Garrick Building, Chicago, Illinois.

Also all copyrights of the publications listed on attached Exhibit A.

To Have and to Hold the said Goods and Chattels, copyrights, stock, etc., unto the said THOS. J. QUIGLEY, his heirs, executors, administrators and assigns to his own proper use and benefit forever.

And the said HEARST MUSIC PUBLISHERS of CANADA, LIMITED by JOE HEARST, President, do claim to be the true and lawful owner of the said Goods and Chattels and that JOE HEARST, President of the said HEARST MUSIC PUBLISHERS of CANADA, LIMITED, does hereby claim that he has full power, good, right and lawful authority to dispose of said Goods and Chattels and to execute this instrument and that the said HEARST MUSIC PUBLISHERS of CANADA, LIMITED, by JOE HEARST, President, will defend the said bargained property unto the said THOS. J. QUIGLEY, his heirs, executors, administrators and assigns, etc., from and against the lawful claims of all persons.

The said HEARST MUSIC PUBLISHERS of CANADA, LIMITED do also turn over to the said THOS. J. QUIGLEY, all accounts receivable due the HEARST MUSIC PUBLISHERS of CANADA, LIMITED for music sold in the UNITED STATES OF AMERICA. Also all accounts due or that may be coming due from the various Phonograph Companies or other companies that reproduce publications of the said HEARST MUSIC PUBLISHERS of CANADA, LIMITED in records, rolls or other mechanical form.

Witness signature of said HEARST MUSIC PUBLISHERS of CANADA, LIMITED by JOE HEARST, President.

HEARST MUSIC PUBLISHERS OF CANADA, LIMITED.

By ____________________________

Joe Hearst

President.

WITNESS:

W. F. Ader

It is expressly agreed, understood and stipulated that the above THOS. J. QUIGLEY is in no way responsible for any debts contracted prior to the signing of this Bill of Sale, such debts including printing, such as sheet music, etc., royalty to song writers and other contracts.

It is likewise stipulated and understood that the said THOS. J. QUIGLEY assumes all obligations contracted after December 1st, 1924.

HEARST MUSIC PUBLISHERS OF CANADA, LIMITED.

By ____________________________

Joe Hearst

President.

WITNESS:

W. F. Ader
Winnipeg, Canada, November 22, 1924.

$5200.00

ON DEMAND       WE promise to pay

Secretary.  President.

STATE OF Illinois  }  SS.
COUNTY OF Cook  }

a. Notary Public in and for said County in the State aforesaid.

Do hereby certify, that THOS. J. QUIGLEY personally known to me, whose name is signed hereto, does hereby swear that the foregoing is a true and correct copy of Bill of Sale and Demand Note now in his possession.

Given under my hand Notarial Seal, this Fifth day of December 1924.

A. T. RONER
Notary Public.

Garrick Building
Chicago, Ill.
MEETING OF THE BOARD OF DIRECTORS
OF QUIGLEY & BENSON CO. INC.
held at 960 Rush St., on Feb. 20th., 1926.

The meeting was called to order by the Vice President, B. L. Quinn.

The following directors being present:

B. L. Quinn
G. A. Royle
B. L. Horwitz

On motion of B. L. Horwitz duly made and seconded it was agreed that for and in consideration of the sum of $1,000 (one dollar) and notes to the amount of $90,000 (nine thousand dollars) due Thomas J. Quigley by Quigley & Benson Co. Inc., that all copy-rights held either in the name of Quigley & Benson Co. Inc., Thomas J. Quigley, or the Hearst Music Publishers, Ltd., of Winnipeg, Canada are hereby assigned and transferred to Thomas J. Quigley, 1118 N. State St., Chicago, Ill.

This motion was unanimously passed, and on motion of G. A. Royle list of said copy-rights is hereby attached to this resolution.

In witness whereof we have set our seals and hands this 20th. day of February, 1926.

G. A. Royle
Vice President

B. L. Quinn
Secretary
FOR AND IN CONSIDERATION OF THE SUM One ($1.00) Dollar
and other good and valuable considerations in hand paid receipt
of which is hereby acknowledged, I, THOMAS J. QUIGLEY

1117 N. DEARBORN, CHICAGO, ILLINOIS

hereby assign, transfer and set over unto the COLE CORPORATION, a
corporation, 2611 Indiana Ave., Chicago, Illinois, the copyrights
of the musical compositions entitled:

Bronx Co. Ct's No. 20, Reg. No. 514A-18
Commission Expires March 31, 1938
FOR the first time in the annals of music publishing the Moderne Edition brings to the teacher and student, piano music with markings for pedaling, fingering and phrasing unsurpassed in completeness. The Moderne Edition not only includes the well-known classics, but also twenty new compositions by the celebrated pianist, Moissaye Boguslawski. His music is replete with richness of character as well as melodic charm and few masters of the keyboard know better the requirements of the student than this artist, for his renown as a famous pedagogue is well known to all the musical world. Mr. Boguslawski has modernized harmonically numerous of the well known classics.

Henriette Sontag
Singspielrefrain
Babette, Babette wen ich dein Herzogen hätte
Das sind die Nutten von Gross-Berlin
Bei mir aber geht's
Ich bring dich um die Ecke
Nimm bloß die Hand da weg
Wenn die Rosen blüh'n
Ach Puppe
Dolly du sprichst in Schlaf's von mir
Kind drah dich um dem... ich möcht dich mal von hinten (vorne) seh'n
Im Lenz wenn alle Mädels träumen
An bend, am Abend
Grüß mir die stolzen Burgen am Rhein
No Gold No Silver
Du bist mein Typ
Josefine in der Badekabine
Eliasch
Der alte Wasser Rhein
Gelehr't, du bist so weiss wie Schnee
Sünden, die man im Rausch nicht bedenkt
Goldrausch-F-Ox Trotz
Ich habe in Mai von der Liebe geträumt
Wo hast du mein Schätzchen das Küssen

studiert

Am Rüdesheimer Schloss steht eine Linde

Mein sowers von Liebe

Ich könnt mich in dich verlieben

Bella Rosa

Komm mit mir lieb ich zeig dir Samssouc

Es geht von Mund zu Mund

Raus mit den Männern

Juni, Juli und August

Berliner sein genügt

Cölette und der Mond

Keine heim am Rhein

Komm mit mir Karoline

Hans Krause mit dem Saxophon
Wer hat dich bloß so aufgeklärt
mein Klärchen?

Flautenwechsel im Frühling
Leb wohl mein Schatz auf Wiedersehen
Ein kleines Häuschen
Wo ist die Anna
Dies und das
Keiner wusste, das Auguste
Was braucht der Berliner um glücklich zu sein
Ich hab am Rhein ein blondes Mädchen
Sind auch verblüht längst die letzten Rosen
An der Wasserkant steht ein Fischerhaus
Die Schläger aus "Für jeden etwas"
Ein Alter Klingt
Auf der Kudelsburg:
Es braucht ja nicht immer am Rhein zu sein Max Vogel
Am Montag, küsse ich die blonde Erika

**EXHIBIT 104-p.4**
Wo hast du mein Schätzchen das Küssen
studiert
Am Rüdesheimer Schloß steht eine Linde
Nein sowas von Liebe
Ich könnt mich in dich verlieben
Bella Rosa
Komm mit mein Lieb ich zeig dir Sanssouci
Es geht von Mund zu Mund
Raus mit den Männern

Wollt ihr dass ewig die Sonne euch scheine
Mariaka
Du hast den Gustav angeschaut
Wann sich Hände nahm im Dunkeln
Willst du ein Deutscher sein
Sei doch kein Frosch du kläße Kröte
Amalie geht mit dem Gummikavalier
Die Frauen sind süß wie die Sünde
Hoch das Bein
Wo die Balalaika klingt
Havanna
Mensch geh stampela
Parle vom Lido
Verlorene Heimat
Ich Mutlothen vor dem Schlafengehn

Streng verboten
Ich hab dich lieb du mein Mädél vom grünen Rhein

Freu dich Rosalinde, denn der Lenz ist da

Ich hab in Pichelsdorf ’nen kleinen Blumengarten

Wenn werden wir uns wiedersehn
Wenn werden wir uns wiedersehn (Neuarr)
Kom: in’s Grüne . Karoline
Schöne Frau komm zu mir heut Nacht
Wann und Wo
Onkel Müller hat’nen Triller
Wer ist das grösste Pumpgenie
Banjo, Banjo, sing dein lied
So’n bisschen Französisch ist garnicht so schwer

Das bist du
Seit wann bläst deine Grossmama Posaune
Die ersten Veilchen
Fünf Kollo-Schläger a. "Wann und Wo"
Ich träum jede Nacht von Elisabeth.
Komm mit mir nach Venedig

duly copyrighted in the name of ALFRED THORSINGS MUSIKFORLAG, and ALFRED THORSINGS MUSIKFORLAG hereby grants, sells, assigns and transfers unto said SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., all rights of any kind and character appertaining to said musical compositions and the complete and unconditional and unencumbered title therein and thereto.

IN WITNESS THEREOF, ALFRED THORSINGS MUSIKFORLAG has executed this assignment this 5th day of November, 1936.

Signed ALFRED THORSINGS MUSIKFORLAG

By SOCIETY OF EUROPEAN STAGE AUTHORS
AND COMPOSERS, INC., Attorney

STATE OF NEW YORK )
COUNTY OF NEW YORK ) SS:

On this 5th day of November, 1936, before me came KURT A. JADASSOHN, to me known, who, being by me duly sworn, did depose and say that he resides in Woodcliff, N.J.; that he is the Vice-President of SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC., the corporation described in and which executed the above instrument; that he knows the seal of said corporation; that the seal affixed to said instrument is such corporate seal; that it was so affixed by order of the Board of Directors of said corporation, and that he signed his name thereto by like order.

McNinch, Craven Appointed To FCC Vacancies

On Tuesday, President Roosevelt sent the names of Frank R. McNinch and T. A. M. Craven to the Senate to fill the vacancies on the Federal Communications Commission created by the death of Anning S. Prall, chairman of the Commission, and Irvin Stewart, who resigned to enter private work.

At the time of the appointment Mr. McNinch was chairman of the Federal Power Commission and Mr. Craven was chief engineer of the Commission. Up to this time the chairman had not been appointed by the President but it is understood that it will be Mr. McNinch.

While nothing official has been made public, the general impression is that McNinch will only remain on the Communications Commission long enough to get some of the present difficulties straightened out.

Mr. McNinch, who was born at Charlotte, N. C., April 27, 1873, was originally appointed to the Power Commission in 1930 by President Hoover and has been chairman since 1933.

He was educated in the high schools of Charlotte and the Barriers Military Institute of the same place and began the practice of law in Charlotte in 1900. He was a member of the House of Representatives of North Carolina in 1905 and was mayor and commissioner of finance of Charlotte for two terms from 1917-1921.

Mr. Craven, who is a retired Lieutenant-Commander in the Navy, was appointed chief engineer of the Commission in November, 1935. He was born January 31, 1893, in Philadelphia and after completing his academic training, he was appointed to the U. S. Naval Academy, where he graduated with the class of 1913.

His first assignment after graduation was as Radio Officer on the U. S. S. Delaware, 1913-1915 during the Mexican Campaign. His professional duties since then follow:

U. S. Naval Representative at Provisional Inter-allied Communication Conference at Paris, France, 1919.
Naval Representative on U. S. Government Inter-Departmental Board to arrange for collection and distribution of meteorological data in 1919.

Chairman of sub-committee on wave-length allocation at International Conference at Washington, D. C., in 1920.
Battleship Force Radio Officer, 1921.
Fleet Radio Officer, U. S. Atlantic Fleet, 1921-1922.
Fleet Radio Officer, United States Fleet, 1922-1923.
In charge of Radio Research and Design Section, Bureau of Engineering, 1923-1926.
Member of Inter-Departmental Radio Advisory Committee.
Represented Navy Department on various national conferences (frequency allocation).
He resigned from the Navy in 1930 to engage in private radio practice as a consulting engineer.

His work as an author:
Commander Craven has made notable contributions to radio development in his writings. Among other things he collaborated with Captain Hooper in writing Robinson's Manual of Radio Telegraphy and Radio Telephony.

**SESAC REPORT**

The report on the Society of European Stage Authors and Composers (SESAC) is being mailed to members this week.

**WORKING DATE OF RULE 981 EXTENDED**

The Broadcast Division of the Federal Communications Commission has further extended the working date of Rule 981 for six months from September 15, 1937. This rule requires all relay, international, television, facsimile high frequency and experimental broadcast stations to have a frequency monitor in operation by September 15, 1936. This monitor does not have to be approved by the Commission but must have an accuracy of one half the allowed tolerance of the class of station with which it is to be used. The unavailability of commercial monitors on the market has necessitated this the third extension of the effective date of Rule 981.

**NEW WIGGLESWORTH RESOLUTION**

Representative Wigglesworth of Massachusetts, who has had so much to say recently on the floor of the House concerning radio and broadcasting, on Wednesday introduced a resolution (H. Res. 321) which has been referred to the House Committee on Interstate and Foreign Commerce, calling on the Federal Communications Commission for information in connection with possible holdings of its employees in any radio company. The resolution is as follows:

Whereas "no member of the Commission or person in its employ shall be financially interested in the manufacture or sale of radio apparatus or of apparatus for wire or radio communication; in communication by wire or radio or in radio transmission of energy; in any company furnishing services or such apparatus to any company engaged in communication by wire or radio or to any company manufacturing or selling apparatus used for communication by wire or radio; or in any company owning stocks, bonds, or other securities of any such company; nor be in the employ of or hold any official relation to any person subject to any of the provisions of this Act, nor own stocks, bonds, or other securities of any corporation subject to any of the provisions of this Act. Such commissioners shall not engage in any other business, vocation or employment. Not more than four commissioners shall be members of the same political party" (the Federal Communications Act of 1934, sec. 4b); and

Whereas addresses have recently been made by members of Congress in both the House and the Senate emphasizing the apparent failure to eliminate the evils of monopoly in the field of communications and more particularly in the radio-broadcasting field despite the intent of Congress manifest in the Communications Act of 1934; and

Whereas it appears possible that television may be added to the virtual monopoly apparently existing in this field; and

Whereas the apparent existence of trafficking in licenses, capitalization of Federal licenses at the expense of the public and other matters referred to, suggest the lack of proper administration, raising squarely the question of whether or not the Federal Communications Commission or the Broadcasting Division of the Commission is being conducted or is in a position to be conducted in accordance with the intent of Congress under the Communications Act of 1934; and

Whereas resolutions are now pending before both the House and the Senate with a view to a thorough-going investigation into the apparent monopoly in the radio-broadcasting field: Therefore be it

Resolved, That the Federal Communications Commission be required to furnish under oath the following information:

1. The name or names, if any, of any member, agent, or employee of the Commission financially interested in the manufacture or sale of radio apparatus or of apparatus for wire or radio communication; in communication by wire or radio or in radio transmission of energy; in any other company furnishing services or such apparatus to any company engaged in communication by wire or radio or to any company manufacturing or selling apparatus used for communication by wire or radio or in any company owning stocks, bonds, or in any other securities of such company.

2. The name or names, if any, of any member, agent, or employee of the Commission in the employ of or holding any official relation to any person subject to any provision of the Communications Act of 1934.

3. The name or names, if any, of any member, agent, or employee of the Commission holding, directly or indirectly, stocks, bonds, or other securities of any corporation subject to any provisions of the Communications Act of 1934; or having other interests profiting such member, agent, or employee, if any, through the action of the Commission in the field of communications; be it further

Resolved, That the above information be furnished the House of Representatives immediately.

2250
RADIO CONFERENCE APPROPRIATION

The Senate has passed the resolution (S. Jt. Res. 197) providing an appropriation of $15,000 for the use of American delegates to the Inter-American Radio Conference to be held at Habana, Cuba, in November.

FORMAL WHITE REPORT

The Senate Committee on Interstate Commerce in making its formal report on the White radio resolution calling for a full survey of the broadcasting and radio situation had the following to say:

"Your committee, having had under consideration Senate Resolution 149, report the same to the Senate with the recommendation that the resolution do pass with an amendment fixing a limit of $25,000 on the expenditures of the committee.

"This resolution contemplates and authorizes a serious study of wireless communication problems with a view to recommendations to the Congress as to the principles and policies to be observed in the regulation of the industry and of radio communications. It directs such fact-finding investigation as is necessary if there is to be an intelligent consideration of these problems.

"In 1912, when the first act to regulate radio communications was enacted by the Congress, the only practical use of radio was for communication between ships and between ship and shore. At that time on the oceans of the world there were about 600 vessels equipped with radio. Transoceanic communication was in its very infancy. Broadcasting was unborn. Amazing developments have come in the intervening years. Wave lengths unknown in 1912 have become of common use. Power undreamed of when Congress first legislated is now projecting energy across the oceans and over continents. We now have facsimile transmission of writing, of printing, and of pictures. Beacon signals and the radio compass are new aids to navigation. Radiotelephony, television, and transmission of power are knocking at our doors.

"In the air hundreds of planes are signaling to and talking with each other and with the earth. Upon the oceans many thousands of ships are warned of ice, storms, and of other dangers. In the United States alone we have 666 broadcasting stations, 47,500 amateur stations, and 6,704 commercial stations. These commercial stations include some 26 different uses to which radio is put. No man knows of other refinements and uses soon to be here.

"This amazing growth has brought problems for the industry and for the Government of the greatest complexity and difficulty. The resolution suggests many of them, and it is unnecessary here to restate them. Except for such study as was given when the 1927 act was passed, there has been no serious study of radio communication by any committee of the Congress in the 25 years which elapsed since the act of 1912 became law. Your commit-

McFARLANE RADIO RESOLUTION

Representative McFarlane of Texas has introduced a resolution in the House (H. Res. 313) calling for an investigation of radio and broadcasting. It has been referred to the House Committee on Rules and is as follows:

Whereas the Congress, in creating the Federal Radio Commission and in enacting the Communications Act of 1934, expressly reserves to the people of the United States control of all radio frequencies; and

Whereas despite the restriction through the leasing of, the purchase of, the affiliating of, the operation of, or through the possession of contracts giving to a select few the exclusive right to use the more desirable time of these radio-broadcasting stations, there is reason to believe that, contrary to the intent and the spirit, as well as the language, of laws in force, one or more monopolies exist in radio broadcasting, which radio-broadcasting monopolies are believed to be profiting illegally at the expense and to the detriment of the people through the monopolistic control and operation of all clear-channel and other highly desirable radio-broadcasting stations, such as the Columbia Broadcasting System, the National Broadcasting Company, and the Mutual Broadcasting System, or other existing groups; and

Whereas it is believed that neither public interest, convenience, nor necessity is served by permitting virtual radio-broadcasting monopolies to control this property which has been reserved to the control of the American people; and

Whereas it is contrary to public policy, convenience, or necessity to allow any private groups to monopolize the use of a property reserved to and for the people; and

Whereas it has just become publicly known that stock racketeering exists in the sale of radio securities to the possible detriment of the innocent investing public, and wide-open trafficking in the sale and lease of radio licensing is and has taken place contrary to law; and

Whereas it has just become known that the three large radio chains above-mentioned and their lessees own and control 93 per centum of the broadcasting power of the Nation and that some two hundred of the largest radio stations are owned and operated in this chain system by the large daily newspapers of the communities in which said stations are located, thereby forming a combine of
gress, together with such recommendations for legislation
so investigated. Subpenas shall be issued under the signa¬
respect to such monopoly or monopolies and the manage¬
books, papers, and documents by subpena or otherwise;
or adjourned; to hold such hearings; to require the at¬
tendance of such witnesses and the production of such
States whether or not the House is sitting, has recessed,
Congress at such times and places within the United
House of Representatives during the Seventy-fifth Con¬
mittee shall report in whole or in part at any time to the
Resolved, That a committee of seven Members of the
House of Representatives shall be appointed by the
Speaker, which committee is hereby directed to inquire
into and investigate the allegations and charges that a
monopoly or monopolies exist in radio broadcasting
alleged to be held by the Columbia Broadcasting System,
National Broadcasting Company, Mutual Broadcasting
System, or others; be it further
Resolved, That the said committee shall make a thor¬
ough and exhaustive investigation of all charges and alle¬
ations of the existence of a monopoly or monopolies in
radio broadcasting, sound motion-picture industry, and
radio-newspaper broadcasting combinations and rates
charged advertisers, and generally the effect of such
monopoly or monopolies on the public, and said com¬
mittee shall report in whole or in part at any time to the
House of Representatives during the Seventy-fifth Con¬
gress, together with such recommendations for legislation
or otherwise as it deems advisable; and be it further
Resolved, That said committee or any subcommittee
thereof is authorized to sit and act during the present
Congress at such times and places within the United
States whether or not the House is sitting, has recessed,
or adjourned; to hold such hearings; to require the atten¬
dance of such witnesses and the production of such
books, papers, and documents by subpoena or otherwise;
and to take such testimony as it deems necessary with
respect to such monopoly or monopolies and the manage¬
ment and operation of any company or companies being
so investigated. Subpenas shall be issued under the signa¬
ture of the chairman of said committee or any member
designated by him and shall be served by any person
designated by them or either of them. The chairman of
the committee or any member thereof may administer
oaths to witnesses. Every person who, having been sum¬
moned as a witness by authority of said committee, or
subcommittee thereof, willfully makes default, or who,
having appeared, refuses to answer any questions per¬
tinent to the matter herein authorized to be investigated,
shall be held to the penalties provided in sections 102
103, and 104 of the Revised Statutes of the United States,
as amended (U. S. C., title 2, secs. 192, 193, and 194).

Billy Truehart
A number of members have forwarded to NAB head¬
quartes requests time on broadcasting stations on a per inquiry or
percentage basis. Mr. Truehart has been advised that
such a proposition is in violation of the NAB Code of Ethics and he has been requested to cease
and desist from further attempts to obtain radio advertis¬
ing on this basis.

Jersey Station Recommended
The Press-Union Publishing Company applied to the
Federal Communications Commission for a construction
permit for the erection of a new station at Atlantic City,
N. J., to use 1200 kilocycles, 100 watts and 250 watts LS,
and unlimited time on the air.

Examiner John P. Bramhall, in Report No. I-475,
recommended that the application be granted. He found
that a need for additional service in the area proposed to
be served “has been clearly established.” The proposed
station, the Examiner found, would not cause objection¬
able interference with Stations WEST, WKBO, WCAU
or WSNJ. He states that the granting of the application
would be in the public interest.

G. Richard Higham—Mark Tyme—Bob White
Anyone knowing the whereabouts of G. Richard
Higham, often known as Mark Tyme and also as Bob
White, please communicate with NAB Headquarters.

Recommends Georgia Station
Several persons operating as J. K. Patrick & Company
applied to the Federal Communications Commission for
a construction permit for the erection of a new station
at Athens, Ga., to use 1310 kilocycles, 100 watts and 250
watts LS, with unlimited time.

Examiner George H. Hill, in Report No. I-474, rec¬
ommended that the application be granted, “subject to the
selection of an approved transmitter site.” He states
that “there will be a definite need for radio services such as
proposed, in the Athens area, when Station WRFI is
removed to Atlanta, Ga., and adequate talent is available
to supply the needs of the proposed station.” The Ex¬
aminer states further that the granting of the application
would not result in any substantial interference with any
existing station “but such interference as would be caused
would be only slight.”

New Montana Station
The Roberts-McNab Company and the Gallatin Radio
Forum both applied to the Federal Communications Com¬
mission for a construction permit for the erection of new stations at Bozeman, Mont., both asking for 1420 kilocycles. The first applicant asked for unlimited time to use 100 watts and 250 watts LS, while the second applicant asked for daytime operation, 250 watts.

Examiner Melvin H. Dalberg, in Report No. 473, recommended that the application of the first named be granted but that of the Gallatin Radio Forum be denied. There is an obvious need for a station at Bozeman, the Examiner states, there being no radio station at that place. He says that the Roberts-McNab Company “by reason of its business interests, is apparently more closely allied and familiar with the broadcasting needs of the population of Bozeman and its surrounding area. These matters, in conjunction with the unlimited hours of operation proposed by the latter applicant, lead the Examiner to the conclusion that it is better qualified to operate such a station in the public interest, convenience and necessity.”

RECOMMENDS ON SOUTH DAKOTA STATIONS

Broadcasting station KWTN, Watertown, N. Dak., applied to the Federal Communications Commission to change its frequency from 1210 to 1340 kilocycles, and to increase its power from 100 to 250 watts and 500 watts LS. Also KGDY, Huron, S. Dak., asked the Commission to change its frequency from 1340 to 1210 kilocycles, and to change its power from 250 watts to 100 watts and 250 watts LS. Also station KGDY applied to the Commission for authority to transfer its control.

Examiner Tyler Berry, in Report No. I-471, made the following recommendations:

1. That the application of the Greater Kameska Radio Corporation (KWTN) for renewal of license be granted subject to compliance, as a condition precedent, with Rules 131, 132, and 139;
2. That the application of the Greater Kameska Radio Corporation (KWTN) for construction permit be denied;
3. That the application of the Voice of South Dakota for a renewal of license be granted subject to compliance with Rules 131, 132, and 139;
4. That the application of Voice of South Dakota for construction permit be denied; and
5. That the application of Dr. Finn Koren, Robert J. Dean, and M. W. Plowman, Transferees, for authority to transfer control of the Voice of South Dakota, licensee of Radio Station KGDY at Huron, S. Dak., to Greater Kameska Radio Corporation, Transferee, be granted.

NEW OHIO STATION RECOMMENDED

The Summit Radio Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Akron, Ohio, to use 1530 kilocycles, 1,000 watts, and unlimited time.

Examiner John P. Bramhall, in Report No. I-476, recommended that the application be granted. He states that the need for additional service was established at the hearing and he stated further that the interests of stations WBRY and KXBY “will not be adversely affected by reason of interference should this application be granted.” The Examiner states further that the granting of the application will serve the public interest.

BROADCAST ADVERTISING FOR THE FIRST HALF OF 1937 AND FOR JUNE

BROADCAST ADVERTISING FOR THE FIRST HALF OF 1937

PRINCIPAL DEVELOPMENTS

Broadcast advertising for the first six months of the current year amounted to $65,426,432, as compared to $50,802,179 for the corresponding period of 1936, a gain of 28.7%. All portions of the medium showed gains in gross time sales. National non-network volume increased to the greatest extent, rising 43.3% over the level recorded for the first half of 1936.

Radio broadcasting for the first half of this year showed the greatest relative increase of any major medium. Compared to the 28.7% rise on the part of radio broadcasting, national magazine advertising increased 16.2% in volume, national farm paper volume 13.6%, and newspaper lineage 2.9%.

Total non-network advertising exceeded the gross time sales for the first half of last year by 32.8%. The regional station group showed the greatest gain by rising 45.6%. Non-network advertising in the New England-Middle Atlantic Area increased to a greater extent than that in other portions of the country.

Live talent programs enjoyed the principal increase among the types of rendition. Live talent programs increased 37.1%, transcriptions 24.4%, records 25.1%, and announcements 34.0%.

Gross time sales for the first half of the year showed an increase in tobacco and foodstuff advertising in all portions of the medium. National network automotive advertising enjoyed a marked increase, as did regional and national non-network clothing advertising. The other principal gains were in the following groups: National non-network cosmetics and beverages, national network and local household equipment, national network and national non-network soap and kitchen supplies, national and regional network financial, national network and local radio set, and local department store advertising.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising over various portions of the radio broadcasting medium for the first half of the current
year as compared to the corresponding period of the pre-
ceeding year is set forth in Table I.

National non-network advertising for the first half of the current year showed the greatest gain in volume as compared to the first six months of 1936, rising 43.3%. National network and local advertising also recorded marked gains over last year, rising 26.1% and 21.2%, respectively. Regional network advertising rose 3.8% in volume as compared to the first half of 1936. National broadcast advertising increased 28.7% in volume.

### COMPARISON WITH OTHER MEDIA

Radio broadcast advertising for the six-month period showed the greatest rate of increase of any major medium as compared to the corresponding period of last year. Compared to the 28.7% rise on the part of radio broadcasting, national magazine advertising increased 16.2% in volume, national farm paper volume 13.6%, and newspaper lineage 2.9%.

Advertising volume by major media during the first half of 1937 as against the corresponding period of 1936 is set forth in Table II.

### NON-NETWORK ADVERTISING

As a whole, non-network advertising rose 32.8% in volume over the level recorded for the first half of last year. The greatest relative increase in the non-network field was experienced in the regional station group, advertising on this class of stations rising 45.6%. However, advertising volume in the clear channel and high-powered regional station group rose 26.1% and in the local station group 18.9%. Non-network advertising by power of station is found in Table III.

Of the major geographical districts, non-network advertising in the New England-Middle Atlantic Area showed the greatest rate of increase as compared to the first half of the preceding year, rising 56.4% in volume. Advertising in the South Atlantic and South Central Area during the first half of 1937 exceeded that of the previous year by 30.3%. The North Central and Pacific and Mountain Areas also recorded good gains in rising 25.5% and 23.3% in volume, respectively. Non-network advertising by major geographical districts is found in Table IV.

### NON-NETWORK ADVERTISING BY TYPE OF RENDITION

Live talent exhibited the greatest rate of increase among the various types of rendition by rising 37.1% in volume over the first half of 1936. Live talent programs in the national non-network field rose 47.0% in volume and 27.4% in the local field.

Total transcription volume during the first half of 1937 exceeded that of the previous year by 24.4%. This type of rendition increased 27.5% in the national non-network field and 12.3% in the local field.

Total record volume during the first half of 1937 exceeded that of the previous year by 24.4%. This type of rendition increased 27.5% in the national non-network field and 12.3% in the local field.

Records in the national field more than doubled the volume recorded for the first half of 1936 while increasing 15.7% in the local field. Total record volume rose 25.1%.

Announcements in the national field rose 72.4% and in the local field 15.2%, the total volume rising 34.0% over the level recorded for the first six months of last year.

Non-network advertising by type of rendition is shown in Table V.
BROADCAST ADVERTISING SPONSORSHIP

Increases were general in all portions of the medium as compared to the first six months of last year with but a few declines in each field. Outstanding developments have been the marked increases in tobacco and foodstuff advertising, these products having gained in all portions of the medium.

National network automotive advertising increased 51.2% and regional network and national non-network clothing volume 218.3% and 47.4%, respectively. National non-network automotive volume declined 35.9%.

National non-network cosmetic and beverage volume increased 46.8% and 177.8%, respectively. Other important gains were registered in the following fields: national network and local household equipment, national network and national non-network soap and kitchen supplies, national and regional network financial advertising, national network and local radio set volume, and local department store advertising.

Broadcast advertising by various product and service classes for the first half of the current year is set forth in Table VI.

Details as to broadcast advertising trends in various fields of business for the first six months of 1937 as compared to the corresponding period of last year are as follows:

1a. Amusements. Advertising on regional networks increased from $325 to $1,312. National non-network volume decreased 52.4%, while local volume increased 16.6%.

1. Automotive. National network volume rose 51.2%. Advertising on regional networks amounted to $4,191 as against no advertising in 1936. National non-network volume declined 35.9% and local volume 7.4%.

2. Gasoline and accessories. National network volume rose 22.1% and national non-network business 14.0%. Advertising on regional networks declined 14.7% in volume, while local advertising dropped 3.6%.

3. Clothing. While national network volume declined 22.7%, regional network volume more than tripled, national non-network volume rose 47.4%, and local advertising increased 15.6%.

4. Drugs and pharmaceuticals. National network volume rose 26.9%, regional network volume 15.1%, and national non-network business 2.7%. Local business declined 15.2%.
5. **Toilet goods.** National network advertising rose 9.3%, regional network volume 3.1%, and national non-network business 46.8%. Local advertising volume remained at approximately the same level.

6. **Foodstuffs.** Advertising increased in volume in all portions of the medium as follows: national networks 40.0%, regional networks 13.5%, national non-network 76.6%, and local 34.9%.

7. **Beverages.** Volume declined 11.5% in both the national and regional network fields. National non-network volume rose 177.8% and local volume 16.2%.

8. **Confectionery.** National network volume rose 6.5%, national non-network business 32.6%, and local advertising increased 18.4%. Regional network business alone rose 35.6%, automotive advertising 10.3%, and gasoline station and accessory store advertising less than 1.0%.

9. **Household equipment.** Advertising in the national network field rose 236.2%. Regional network volume declined 48.0%. National non-network and local advertising rose 16.9% and 21.5%, respectively.

10. **Soaps and kitchen supplies.** National network volume rose 64.2% and national non-network volume 141.3%. Regional network business declined 37.7% and local business 2.1%.

11. **Insurance and financial.** National network business rose 71.9%, while regional network business increased more than sixfold. Local business increased 22.1%. National non-network volume declined 7.4%.

12. **Radios.** National network volume rose 76.7%. Regional network business amounted to $1,328 in 1936, while there was no business in 1937. National non-network business decreased 61.9%. Local volume rose 44.6%.

13. **Department and general stores.** In the regional network field, advertising amounted to $800 as against $2,730 in 1936. National non-network business rose 10.2% and local business 34.5%.

14. **Tobacco products.** Marked increases in all portions of the medium as follows: national networks 41.3%, regional networks 55.6%, national non-network 191.4%, and local 51.3%.

15. **Miscellaneous.** National network and regional network volume declined 33.7% and 15.8%, respectively. National non-network business rose 76.5% and local advertising 32.5%.

### RETAIL BROADCAST ADVERTISING

Total retail broadcast advertising over individual stations increased 21.4% over the level registered for the first half of last year. All groups registered increases with the exception of the automotive, gasoline and accessories, beauty parlor and grocery store advertising groups. Beauty parlor advertising declined 19.5%, grocery store advertising 35.6%, automotive advertising 10.3%, and gasoline station and accessory store advertising less than 1.0%.

The most significant increases were as follows: clothing and apparel shops 18.4%, drug stores 15.6%, restaurants 40.0%, household equipment dealers 49.4%, furniture stores 24.1%, hardware stores 58.8%, radio retailers 54.3%, and department stores 32.0%.

Broadcast advertising by retail establishments is set forth in Table VII.

### BROADCAST ADVERTISING IN JUNE

**HIGHLIGHTS OF THE MONTH**

Total broadcast advertising during the month of June amounted to $10,611,913, a decline of 6.2% from the volume recorded for last month. This decline, a usual seasonal tendency, was much less than the usual downward summer trend. Declines were general throughout the broadcast field, all portions of the medium declining at approximately the same rate. Gross time sales for the month were 34.0% ahead of the level of last June. National non-network volume showed the greatest gain of any portion of the medium, rising 44.2%. National network volume rose 39.5%, regional network volume 21.0%, and local advertising 13.5%.

Although all major media declined in advertising volume as against May, radio broadcasting declined to the least extent. Radio gross time sales declined 6.2%, while national magazine volume dropped 18.0%, national farm papers 13.1%, and newspaper lineage 6.9%. Radio also showed the greatest increase in advertising volume as compared to last June.

Non-network advertising for the month declined 7.2% compared to May but showed a 28.6% gain in volume over last June. Local station volume showed the only gain over last month. While all sizes of stations increased
their gross time sales over June 1936, the greatest gain occurred in the clear channel and high-powered regional station group. Among the geographical districts of the country the Pacific and Mountain Area alone showed a gain as compared to last month, while the New England-Middle Atlantic Area continued to show the greatest gains in volume as compared to corresponding periods of last year.

All types of rendition, with the exception of records, showed declines in volume in both the national non-network and local fields as compared to last month. Live talent registered the most important gains in both the national non-network and local fields as compared to last June.

The principal gains over last month occurred in the following groups: national network clothing and financial, regional network beverage and toilet goods, national non-network automotive and financial, and local toilet goods and soap and kitchen supplies. Retail broadcast advertising over individual stations amounted to $1,260,370, a decline of 5.4% from the volume recorded in May but 20.0% greater than that of June 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of June is found in Table I.

### TABLE I

Total broadcast advertising volume declined 6.2% from the level of last month. Declines were general over the entire medium, national network volume declining 5.4%, regional network volume 6.9%, national non-network business 8.3%, and local advertising 5.8%.

Broadcast advertising for the month showed a 34.0% gain over the volume recorded for last June. National non-network volume continued to show the greatest gains over corresponding periods of last year, rising 44.2% in volume. National network volume rose 39.5%, regional network volume 21.0%, and local business 13.5%.

COMPARISON WITH OTHER MEDIA

All major media showed declines in advertising volume as compared to last month. Radio broadcasting, however, declined only 6.2%, while national magazine volume dropped 18.0%, national farm paper volume 13.1%, and newspaper lineage 6.9%.

Compared to June of last year, all major media showed increases in advertising volume, with radio again leading the field. National magazine volume increased 18.7%, national farm paper volume 13.7%, and newspaper lineage less than 1.0%.

Advertising volume by major media is shown in Table II.

NON-NETWORK ADVERTISING

Total non-network advertising declined 7.2% as compared to May. Local station volume alone showed an increase in advertising volume, rising 3.7%. Non-network advertising over clear channel and high-powered regional stations declined 8.9%, while non-network gross time sales over regional stations decreased 8.8% in volume.

All sizes of stations experienced marked gains when compared to June of the preceding year. Non-network advertising over clear channel and high-powered regional stations showed a gain of 33.3%. Regional station volume rose 24.6% and local station volume 27.6%. Total non-network advertising rose 28.6% in volume over last June.

Non-network advertising by power of station is found in Table III.

### NON-NETWORK ADVERTISING BY TYPE OF RENDITION

Among the various types of rendition, only records showed a gain in volume compared to last month. Total record volume increased 16.2% over May, while total transcription volume declined 8.9%, live talent 5.7%, and announcements 10.1%. However, as against last June all types showed increases in volume. Total transcriptions rose 23.4%, live talent 38.8%, records 20.4%, and announcements 15.6%.

In the local field, transcriptions declined 1.7%, live talent 7.7%, and announcements 4.8% compared to May. Record volume increased 2.4%. As compared to last June, transcriptions rose 3.9%, live talent 20.8%, records 12.3%, and announcements 6.5%.

In the national non-network field, transcription volume declined 10.6%, live talent volume 3.8%, and announcements 17.9% as against last month. Records tripled in volume. Live talent showed the most important gain in the national non-network field as compared to last June in rising 59.9% in volume. Transcriptions rose 29.8%, records 81.1%, and announcements 35.1%.

Non-network broadcast advertising by type of rendition is found in Table V.

### SPONSOR TRENDS IN JUNE

Declines were general in the national network field as compared with last month. Clothing and financial advertising showed the only gains of importance, while automotive and household equipment advertising showed the most marked declines. In the other portions of the medium, national non-network automotive, regional network and local toilet goods, regional network beverage volume, local soap and kitchen supplies, and national non-network financial advertising showed the most pronounced increases. Regional network household goods, national non-network and local confectionery volume, and national non-network and local radio set advertising declined to the greatest extent.

Compared to the preceding June, increases were fairly general, with the following outstanding gains: national network household equipment, financial and tobacco advertising; regional network toilet goods, soap and kitchen supplies and financial advertising; national non-network clothing, foodstuffs and tobacco advertising; and local tobacco and department store advertising.

Broadcast advertising by major sponsor groups is found in Table VI.

Details as to trends in the various product and service groups sponsoring radio advertising are as follows:

1. **Amusements.** National non-network business two and one-half times as great as last month. Local volume up 6.2%. Compared to last June, national non-network down 49.1% and local business up 17.1%.

2. **Automotive.** National network volume declined 19.6% from May. Regional network volume amounted to $3,651. National non-network and local advertising rose 18.6% and 11.8%, respectively. Compared to last June, national network volume up 41.7%, while national non-network and local advertising declined 9.2% and 11.5%, respectively.

3. **Clothing.** National network advertising 23.9% over May and national non-network advertising up 6.2%. Regional network and local volume declined 22.0% and

14.5%, respectively. Gains over last June as follows: national networks 24.5%, national non-network 114.8%, and local 1.9%.

4. Drugs and pharmaceuticals. Decreases from May level as follows: national networks 1.0%, regional networks 19.8%, national non-network 12.5%, and local 20.0%. As against last June, national network volume increased 43.3% and regional network volume 38.1%. National non-network volume declined 9.4% and local advertising dropped 10.7%.

5. Toilet goods. Gains over May as follows: national networks 1.2%, national non-network 6.2%, and local 31.2%. Regional network volume more than tripled. Increases over last June as follows: national networks 38.4%, national non-network 57.6%, and local 33.3%. Regional network volume more than tripled.

6. Foodstuffs. Compared to last month, national network volume declined 8.4%, regional network volume 17.6%, and national non-network business 11.3%. Local advertising rose 11.0%. Gains over June 1936 as follows: national networks 41.4%, regional network volume 41.4%. Local advertising declined 14.9% from the level of June 1936.

9. Household equipment. Declines from preceding month as follows: national networks 30.9%, regional networks 43.4%, national non-network 54.4%, and local 12.7%. Compared to the preceding June, national network volume tripled. Regional network volume dropped 50.9%, and national non-network business 2.7%. Local advertising rose 14.4%.

10. Soaps and kitchen supplies. National network volume 6.1% greater than during May. Regional network and national non-network business down 30.9% and 15.7%, respectively. Local advertising rose 29.0%. As against the preceding June, national network volume rose 67.4% and regional network volume more than tripled. National non-network business rose 7.7% and local advertising remained the same.

11. Insurance and financial. National network volume rose 17.0% over May. Regional network volume declined 6.3% and local advertising 10.3%. National non-network volume increased 34.1%. Gains over last June as follows: national networks 82.9%, national non-network 61.1%, and local 11.6%. Regional network advertising increased materially.

12. Radios. Declines from May levels as follows: national networks 8.2%, national non-network 63.8%, and local 24.1%. Compared to last June, national network volume increased 7.5% and local volume 57.1%. National non-network business declined 79.3%.

13. Department and general stores. Compared to May, national non-network and local advertising declined 36.1% and 2.9%, respectively. As against last June, national non-network volume rose 53.9% and local advertising 16.4%.
14. Tobacco products. National network volume dropped 0.8% and regional network volume 2.8% as compared to May. National non-network volume rose 11.6% and local advertising 10.8%. Gains over last June as follows: national networks 56.5% and local 42.8%. Both regional network and national non-network volume more than doubled.

15. Miscellaneous. Declines from preceding month as follows: national networks 13.3%, regional networks 23.1%, national non-network 14.9%, and local 12.6%. Compared to last June, national network volume and regional network volume declined 22.1% and 25.4%, respectively. National non-network advertising rose 77.6% and local advertising 32.7%.

RETAIL BROADCAST ADVERTISING

Retail broadcast advertising over individual stations during the month of June declined 5.4% from the volume recorded for May but remained 20.0% ahead of June 1936. All groups, except the automotive, gasoline and accessory, beauty parlor and the miscellaneous groups, showed declines as against last month. Only the automotive and grocery store groups failed to show a gain as compared to the preceding June.

Broadcast advertising by various types of retail establishments is set forth in Table VII.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3198. Unfair methods of competition in connection with the sale of silveryware and earthenware or chinaware are alleged in a complaint issued against Matthew D. Willis, 419-427 Lumber Exchange Building, Minneapolis, trading as Rogers Redemption Bureau.

Willis is said to market his silveryware by selling to merchants gift cards, in minimum lots of 10,000, which he redeems in such wares when they are returned by customers of the merchants distributing the cards.

In certain contracts which merchants sign, the complaint alleges, appear the words "Wm. A. Rogers Silverware" and "Wm. A. Rogers Ltd.," while the gift cards bear the advertisement of the merchant and the words "Wm. A. Rogers silveryware to our customers."

It is charged that use of these words is false and misleading in that prospective purchasers are led into the erroneous belief that Rogers Redemption Bureau is connected with Oneida Ltd., manufacturer of the genuine Wm. A. Rogers silveryware. According to the complaint, no such connection exists, except that the respondent purchases Oneida, Ltd., products through a jobber.

Among other representations which the respondent allegedly makes, and which the complaint charges are false, are that a 26-piece set of silveryware is furnished free to every merchant purchasing the minimum quantity of cards; that merchants will be refunded the money paid for gift cards when a certain number has been redeemed, and that customers of such merchants will receive articles of silveryware without any additional cost upon sending to the respondent a designated number of cards for redemption.

No. 3199. Use of unfair methods of competition in the sale of mattresses is alleged in a complaint issued against Abraham and Benjamin Solin, trading as Solin Bros., 1520 Roosevelt Road, Chicago.

It is charged that the respondents manufacture mattresses from materials obtained from old, second-hand, and discarded mattresses, and from other sources. Such mattresses, the complaint alleges, are covered by the respondents with new materials and have the appearance of being new, but are not labeled or marked to indicate that they are made from old, used, and secondhand materials.

No. 3200. Misrepresentation of the character and quality of wrist watch buckles is alleged in a complaint issued against Algren Manufacturing Company, Inc., 8 Washington Place, New York.

Buckles sold by the respondent company to jobbers and retailers, and resold to the purchasing public, allegedly are branded "Gold-Filled," when, the complaint charges, they do not contain a layer or coating of gold of such substantial thickness as to be properly and accurately represented or designated as "Gold-Filled."

No. 3201. Chennille Corporation of America, 3945 North Western Ave., Chicago, is named respondent in a complaint charging use of unfair methods of competition in connection with the interstate sale of rugs.

The respondent company allegedly represents to retail store customers that its rugs are hand-hooked or hand-made, and pursuant to such representations certain stores also advertise the rugs as being hand-hooked and hand-made, using such assertions as "Every rug is a work of art, hand-hooked, requiring hours and hours to produce."

According to the complaint, the respondent company's rugs are not made by hand so as to be properly represented and designated as hand-hooked, hand-made, or as hooked rugs, but are produced by machine and are of lower cost than rugs which actually are hand-made or hand-hooked.

No. 3202. In a complaint, Fee & Stemwedel, Inc., 4949 Pulaski Road, Chicago, is charged with representing that certain weather-indicating instruments it sells in interstate commerce are manufactured in the United States, when such is not a fact.

The respondent company allegedly represents to retail store customers that its instruments are made from old, used, and discarded materials, and are not made by hand so as to be properly and accurately represented or designated as "Gold-Filled."

No. 3203. A complaint alleging use of certain unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act has been issued against Joy Package Company, Inc., 37-41 12th St., New York, engaged in the sale and distribution of candy.

Representations made by the respondent company in advertising literature and by its agents allegedly are to the effect that it con-
trols and operates factories and manufactures the merchandise in which it deals. According to the complaint, the respondent company is not a manufacturer but only purchases and repacks the candy and other merchandise which it sells.

No. 2204. Misrepresentation of the merit of certain life preservers is alleged in a complaint issued against Acme Products Company, 152 Brewery St., New Haven, Conn.

Certain of the respondent company's life preservers, of the cushion type, in advertising matter, on labels, or otherwise, are falsely represented to imply that the cushion is not water absorbent by stating that it is a life preserver for cattle, horses and sheep. Special necro treatment, and Nu Lac products such as Kwik Silver, is a preparation which will plate pure silver on leather, and that the purchasing public generally has a pronounced preference for leather goods manufactured from the former type.

No. 2030. Charles Mostow, 2333 Chicago Ave., Chicago, trading as Majestic Electric Supply Company, has entered into a stipulation to discontinue certain unfair methods of competition in the interstate sale of radio sets branded with the name Majesco.

The respondent agreed to stop using as a trade name or brand for radio sets the word "Majesco", or any other simulation of the name "Majesco", so as to imply that such sets are made by Grisby-Grunow Company, the original manufacturer of Majestic sets, or by any of the licensees specified in the complaint.

No. 2032. City of Paris, Ltd., 878 Broadway, New York City, selling toilet powders and perfumes, will discontinue the use in its corporate name of the word "City" printed in script so as to simulate the word "Coty," thus tending to cause customers to believe that its products are those of a competitor, Les Parfums Coty. The company also stipulated that it will desist from use of the words "London," "Sydney," and "Paris" in any manner so as to imply that it has offices or business connections in those foreign, or names, implying that its products are of French origin, when such are not the facts.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2173-2145. Orders to cease and desist from representing that they are distillers of spirituous beverages, when such is not a fact. The respondent has been entered against two Ohio corporations, Lionel Distilled Products, Inc., 1919-1927 West Pershing Road, and Paramount Distilling Corporation, 512 South Peoria St.

The respondent companies are ordered to discontinue representing, through use of some form of the word "distilling" in their corporate names, in advertising matter, on labels, or otherwise, that they distill whiskies, gins or other spirituous beverages; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless and until they do own or operate such places.

No. 2748. Arpaul Company, Inc., 333 West 52nd St., New York, has been ordered to cease and desist from certain unfair methods of competition in the interstate sale of radio sets, pen and pencil sets, cameras and similar merchandises, against J. K. Levy, alias J. K. Lee and David Levy, both of 130 North Wells St., Chicago, trading as Levee Company, or otherwise.

Selling or otherwise disposing of merchandise by the use of punch, push or pull cards, or by means of any device involving the use of a lottery scheme or game of chance, is ordered discontinued. The respondents are prohibited from shipping to their agents or members of the public merchandise in which the use of which such persons are enabled to sell the respondent's merchandise.

No. 2887. Trading as Everlast Suit Case & Bag Co., 130 West 28th Street, New York, Israel Zaveloff and Harry Bernstein have been ordered to cease and desist from misleading certain leather luggage they sell in interstate commerce.

The respondents are ordered to discontinue representing, through use of the words "Genuine Leather" or "Leather," or any other words of similar import and effect, stamped on labels or on the luggage itself, that luggage manufactured in whole or in part from the underlayers or flesh side of the hide, known as split leather, is made from the outer layer of the hide.

No. 2899. Misbranding of certain leather luggage sold in interstate commerce is prohibited under an order entered against Mutual Brief Case Company, 133-135 Kossuth St., Newark, N. J.

Findings are that the two general types of leather employed in the manufacture of luggage are top grain leather and split leather, and that the purchasing public generally has a pronounced preference for leather goods manufactured from the former type.

Stipulations

The Commission has entered in the following stipulations:

No. 01835. D. Borovitz, 1612 Summit Lake Blvd., Akron, Ohio, trading as Puritan Laboratories, will stop representing that Kwik Silver is a preparation which will plate pure silver on leather articles, that it contains no injurious ingredients, and that the plating is permanent. The respondent also will eliminate the word "Laboratories" from his trade name, and cease making unmodified representations of earnings in excess of the average earnings achieved by his competitors, full-time salesmen or dealers under normal business conditions.

No. 01836. The House of Gurney, Inc., Yankton, S. Dak., engaged in selling baby chickens, agreed to discontinue advertising that it owns or controls a hatchery, incubators, a chick nursery, or laying flocks which supply eggs for hatching purposes.

No. 01837. Howard D. and Robert B. Blackburn, 316 College St., Dayton, Ohio, operating under the firm name of The Sulfix Company, stipulated that they will cease advertising that Sulfix, said to contain sulphur as one of its ingredients, is a competing treatment or an effective remedy for pimples, acne, or any other skin condition, unless such representation is limited to those conditions which actually are relieved by the use of the preparation. The respondent also will cease representing that every physician approves Sulfix, and that lack of sulphur in the diet will "wreck" a complexion and cause certain skin ailments.

No. 01838. False and misleading representations in advertising Silverycote Insulation Fabric will be discontinued by Silverycote Products, Inc., 161 East Erie St., Chicago, under a stipulation.

The respondent company will refrain from advertising that its product represents 100 per cent more insulation value than ether insulating materials and that one layer of Silverycote Fabric equals the efficiency of two commercial thicknesses of ordinary insulation board.

No. 01839. Sego Milk Products Company, 159 West First South St., Salt Lake City, stipulated that it will cease advertising that Sego milk will prevent rickets, unless this representation is qualified by the rules and regulations of the Steamboat Inspection Service; allowing cushions as life preservers on pleasure boats.

Stipulations

The Commission has issued the following cease and desist orders:
FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 23.

The Broadcast Division has taken the following action:

APPLICATIONS GRANTED

WISN—Hearts Radio, Inc., Milwaukee, Wis.—Granted C. P. to move former main transmitter to the present location of the main transmitter and to operate and transmit at 1100 kc., unlimited time.

WRGA—Rome Broadcasting Corp., Rome, Ga.—Granted C. P. to make changes in equipment.

WTCO—Savannah Broadcasting Co., Inc., Savannah, Ga.—Granted C. P. to make changes in antenna, install new equipment and increase day power from 1 KW to 5 KW; 1590 kc., unlimited time.

KVOX—Robert K. Herbst, Moorhead, Minn.—Granted modification of C. P., approving transmitter site at 14th St. and 12th Ave., So., Moorhead; studio at 722 Center Ave., Moorhead; change type of equipment; increase daytime power to 250 watts, and increase hours of operation to unlimited time.

WHAS—The Louisville Times Co., Louisville, Ky.—Granted modification of C. P. to extend completion date from September 5 to December 5, 1937.

National Broadcasting Co., Inc., New York City—Granted extension of authority to transmit programs to Canadian stations CFRE and CRCT and the Canadian Radio Broadcasting Commission.

Columbia Broadcasting System, Inc., New York City—Granted extension of authority to transmit programs to Canadian stations CFRB and CKAC and to stations of Canadian Broadcasting Corp.

National Broadcasting Co., Inc., New York City—Granted extension of authority to transmit recorded programs to 12 broadcast stations in Canada licensed to operate by the Canadian Government, which may be heard consistently in the United States.

WIP—Penna. Broadcasting Corp., Philadelphia, Pa.—Granted extension of special temporary authority to operate with KW power for the period, September 1, 1937 to March 1, 1938.

KMLB—Liner’s Broadcasting Station, Inc., Monroe, La.—Granted authority to install new automatic frequency control equipment.

WFEA—New Hampshire Broadcasting Co., Manchester, N. H.—Granted authority to determine operating power by direct measurement of antenna power.

WJBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Granted license to cover C. P.; 1280 kc., 500 watts, unlimited time except from 8 p.m. until 2 p.m. Monday.

KGLO—Mason City Globe Gazette Co., Mason City, Ia.—Granted license to cover C. P. as modified; 1210 kc., 100 watts night, 250 watts day, unlimited time.

WIND—Johnson Kennedy Radio Corp., Gary, Ind.—Granted license to cover C. P.; 560 kc., 1 KW night, 5 KW day, unlimited time, employing directional antenna.

WPR—Puerto Rico Advertising Co., Mayaguez, P. R.—Granted license to cover C. P. as modified; 1570 kc., 100 watts night, 250 watts day, specified hours.

KSUB—Harold Johnson & Leland M. Perry, d/b/a Johnson & Perry, Cedar City, Utah.—Granted license to cover C. P.; 1310 kc., 100 watts, unlimited time.

WASJ—City of New York, Dept. of Plant & Structures—Mobile—Granted license to cover C. P.; frequencies 1622, 2638, 2150 and 2790 kc., 40 watts.

WCKY—L. B. Wilson, Covington, Ky.—Granted license to cover C. P.; 1490 kc., 10 KW, unlimited time.
NEW—Shirley D. Parker, Yakima, Wash.—C. P. for new station, 1310 kc., 100 watts night, 250 watts day, unlimited time, transmitter, and studio sites and type of antenna to be determined.

NEW—Times Printing Co., Chattanooga, Tenn.—C. P. for new station, 1120 kc., 500 watts night, 1 kw. day, unlimited time, employing directional antenna system day and night.

NEW—Gila Broadcasting Co., Saalfeld, Ariz.—C. P. for new station, 1430 kc., 100 watts night, 250 watts day, unlimited time, transmitter and studio sites to be approved.

NEW—WWPO, Inc., Pittsburgh, Pa.—C. P. for new station, 1120 kc., 250 watts, unlimited time, employing directional antenna system for day and night use.

NEW—Chas. F. Engle, Natchez, Miss.—C. P. for new station, 1210 kc., 100 watts night, 250 watts day, unlimited time, transmitter and studio sites to be determined with Commission's approval.

NEW—Burl Vace Hedrick, Salisbury, N. C.—C. P. for new station, 1310 kc., 1 kw. daytime only.

NEW—Northwestern Broadcasting Co., Vernon, Tex.—C. P. for new station, 1300 kc., 100 watts, unlimited.

NEW—F. E. Rodgers, Harlingen, Tex.—C. P. for new station, 1370 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites to be determined with Commission's approval.

NEW—Richland Broadcasting Co., Mansfield, Ohio.—C. P. (already in hearing docket) amended to request 1170 kc., 250 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission's approval.

WJSV—Columbia Broadcasting System, Inc., Washington, D. C.—C. P. to change transmitter site approximately 14.7 miles, from Mt. Vernon Highway near Potomac Yards, 1 1/2 miles north of center of Alexandria, to 0.4 of a mile due east of Wheaton Four Corners, Wheaton, Md., install new equipment and directional antenna system for day and nighttime use, and increase power from 10 kw. night, 25 kw. day, to 50 kw. unlimited time.

KSTP—National Battery Broadcasting Co., St. Paul, Minn.—C. P. to install new equipment and directional antenna system for day and nighttime operation, and increase power from 10 kw. night, 25 kw. day, to 50 kw. unlimited time.

KFBI—J. F. Farmers & Bankers Broadcasting Corp., Abilene, Kans.—C. P. to move station to Wichita, Kans., and install new equipment and vertical radiator, Exact transmitter and studio sites to be determined with Commission approval.

WGAR—The WGAR Broadcasting Co., Cleveland, Ohio.—C. P. (already in hearing docket), amended to request installation of new equipment and directional antenna for nighttime use and increase in power from 500 watts night, 1 kw. day to 1 kw. night, 5 kw. day, using directional antenna for nighttime use.

WMFJ—W. J. River Valley Broadcasting Corp., Sherman, Tex.—C. P. to install new equipment, change transmitter site to N. Ridgewood Ave., Fort Grange, Fla., install new equipment and vertical radiator, change frequency from 1420 kc. to 1310 kc., and increase power from 100 watts to 1 kw.

KRRV—K. R. Farmers & Bankers Broadcasting Corp., Sherman, Tex.—C. P. to install new equipment, change frequency from 1310 kc. to 1450 kc., and increase power and time of operation from 250 watts, daytime only, to 500 watts, unlimited time; request contingent upon granting of KTTB's application for change in frequency.

KTBS—Tri-State Broadcasting System, Inc., Shreveport, La.—C. P. to change frequency from 1450 kc. to 620 kc. and install directional antenna system for day and nighttime operation.

WKBJ—Karl L. Ashbacker, Muskegon, Mich.—Modification of license to change frequency from 1500 kc. to 1200 kc.

KVEC—Christina M. Jacobson, tr/au The Valley Electric Co., San Luis Obispo, Calif.—Modification of license to change power from 100 watts night, 250 watts day and time of operation to unlimited.

KFDM—Sabine Broadcasting Co., Inc., Beaumont, Tex.—Voluntary assignment of license to Beaumont Broadcasting Corp.; 560 kc., 500 watts night, 1 kw. day, unlimited time.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KARK—Ark. Radio & Eqpt. Co., Little Rock, Ark.—Granted renewal of license on a temporary basis only subject to whatever action may be taken upon pending application for renewal.

KFUO—Evangelical Lutheran Synod of Mo., etc., Clayton, Mo.—Granted renewal of license on a temporary basis only subject to whatever action may be taken upon pending application for renewal.

KSD—The Better Publishing Co., St. Louis, Mo.—Granted renewal of license on a temporary basis subject to whatever action may be taken upon renewal upon application of station KFUO.

WDEV—Chas. B. Adams, Adv. of Harry C. Whitehill Estate and Executors of Mary M. Whitehill Estate, Waterbury, Vermont.—Granted renewal of license on a temporary basis only, subject to whatever action may be taken upon application for renewal of license and upon application of WBZA.

ORAL ARGUMENTS GRANTED

The Commission granted oral arguments in the following cases:

Ex. Rep. 1-405, Monterey Peninsula Broadcasting Co., Del Monte, Cal., and Salinas Newspapers, Inc., Salinas, Cal., to be held October 21, 1937.

SPECIAL AUTHORIZATIONS

W2XDG—National Broadcasting Co., Inc., New York City—Granted special temporary authority to operate on 356 megacycles until definite allocations are made in ultra-high frequency bands, for a period not to exceed 30 days.

W9XV-—W9XVQ—Minn. Broadcasting Corp., Minneapolis, Minn.—Granted special temporary authority to operate two mobile high frequency relay broadcast transmitters, RCA Model ATR, on frequencies 31100, 34600, 37600, 40600 kc., power of 1 watt, for period August 1 to September 16, for relay broadcast of Minn. State Fair, with use of rebroadcast station WTCN.

WEST—Asso. Broadcasters, Inc., Easton, Pa.—Granted extension of special temporary authority to operate simultaneously with WKBO from 10 to 11 a. m. and from 5 to 6 p. m., EST, for period, August 23 to September 21, inclusive, due to adoption of Daylight Saving Time in Easton.
KFOX—Nichols & Warriner, Inc., Long Beach, Cal.—Granted special temporary authority to operate a 200 watt test transmitter between the hours of 12 midnight and 6 a.m., PST, in order to make field strength tests from new transmitter site, on 1250 kc., for period not exceeding 30 days.

KMO—KMO, Inc., Tacoma, Wash.—Granted special temporary authority to rebroadcast program descriptive of an anti-aircraft bombardment from a U. S. Army plane at Fort Lewis, Wash., between 9 and 10:30 p.m., on August 22, 1937.

KPRC—Houston Printing Corp., Houston, Texas—Granted extension of special temporary authority to operate with power of 5 KW night, for period, August 22 to September 20, 1937.

KUSD—Univ. of So. Dak., Vermillion, S. Dak.—Granted special temporary authority to remain silent from 3 a.m., EST, September 1 to September 13, 1937, inclusive, during summer vacation.

WAXB-WAXC—Alford J. Williams, Pittsburgh, Pa.—Granted extension of special temporary authority to operate RCA Type A TV, H., aircraft transmitter in 5 watts power on board NR-ISO, from 6146 to 12190 and 2820 kc., as a relay broadcast station, for period September 1 to September 30, 1937, for testing and transmission of program communication service between plane and portable unit RCA Type A TV, H., on ground in connection with flight demonstrations and Jr. Aviator activities at various locations over the United States.

KFRO—Voice of Longview, Texas, Longview, Texas—Granted special temporary authority to operate from local sunset and 6 a.m., EST, using a KW of 1100 on Sundays, September 5, 12, 19 and 26, 1937, in order to broadcast church services of the Kelly Memorial Methodist Church, Longview, Texas.

KGGF—Powell & Platz, Coffeyville, Kans.—Granted special temporary authority to operate a 200 watt test transmitter between the hours of 12 midnight and 6 a.m., PST, on 1250 kc., for period September 1 to September 13, 1937, for testing and transmission of program communication service between plane and portable unit RCA Type TV, H., on ground in connection with flight demonstrations and Jr. Aviator activities at various locations over the United States.

KFOX—Nichols & Warriner, Inc., Long Beach, Cal.—Granted special temporary authority to operate from local sunset and 6 a.m., EST, using a KW of 1100 on Sundays, September 5, 12, 19 and 26, 1937, in order to broadcast church services of the Kelly Memorial Methodist Church, Longview, Texas.

KGGF—Powell & Platz, Coffeyville, Kans.—Granted special temporary authority to operate a 200 watt test transmitter between the hours of 12 midnight and 6 a.m., PST, on 1250 kc., for period September 1 to September 13, 1937, for testing and transmission of program communication service between plane and portable unit RCA Type TV, H., on ground in connection with flight demonstrations and Jr. Aviator activities at various locations over the United States.

KUSD—Univ. of So. Dak., Vermillion, S. Dak.—Granted special temporary authority to remain silent from 3 a.m., EST, September 1 to September 13, 1937, inclusive, during summer vacation.

APPLICATIONS RETIRED TO FILES

Frank Ryan, Detroit, Mich.—Special temporary authority to transmit to CKLW program of ceremonies in connection with the arrival of Archbishop Mooney in Detroit, Monday, Evening, August 2, at 7:10 p.m. for approximately 45 minutes.

Dr. A. H. Schermann,—Application for C. P. to construct a new relay station retired to closed files inasmuch as further extension of time or for a license has not been filed.

Radio Service Corp. of Utah.—Application for C. P. requesting authority to construct a new relay broadcast station was retired to closed files for want of prosecution.

Intermountain Broadcasting Corp.—Application for authority to construct a new relay broadcast experimental station was retired to the closed files for want of prosecution.

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

WKEU—Radio Station WKEU, Griffin, Ga.—1310 kc., 100 watts, 100 watts LS, unlimited time.

NEW—WDSU, Inc., New Orleans, La.—1500 kc., 100 watts, 250 watts LS, unlimited time.

KGA—Louis Wasmer, Spokane, Wash.—950 kc., 1 KW, 5 KW LS, unlimited time.

NEW—WKY Radiophone Co., Oklahoma City, Okla.—C. P. for experimental relay broadcast station.

WNAD—The Coliseum Place Baptist Church, New Orleans—Voluntary assignment of license to WNBO, Inc.

WCMJ—Ashland Broadcasting Co., Inc., Ashland, Ky.—C. P.; 1120 kc., 250 watts night, 1 KW LS, unlimited time, install new transmitter and make antenna changes.

WDZ—WDZ Broadcasting Co., Tuscola, Ill.—C. P. to move to Decatur, Ill.

The following application, heretofore set for hearing, was denied as in cases of default, for failure of applicant to file an appearance in accordance with Rule 104.6 (c):

NEW—A. I. Beard, Jasper, Ala.—1500 kc., 100 watts, 100 watts LS, unlimited time.

MISCELLANEOUS

W. E. Whitmore, Hobbs, N. Mex.—Denied motion to strike exceptions to Ex. Rept. 1-449 involving application for new station to operate on 1500 kc., 100 watts, daytime only. (Docket 4174.)

NEW—Arbor Broadcasting Co., Inc., Ann Arbor, Mich.—Granted motion for extension of time within which to file exceptions to Ex. Rept. 1-461.

NEW—Old Colony Broadcasting Corp., Lawrence, Mass.—Denied petition requesting extension of effective date of Commission decision to the obligations of Hildreth & Rogers Co. (Docket 3940) and Old Colony Broadcasting Corp. (Docket 4056.)

WAVE—WAVE, Inc., Louisville, Ky.—Granted petition to intervene in the hearing of application of WCRC, New Albany, Ind., for C. P. to change frequency from 1570 to 880 kc., and increase hours from daytime to unlimited. (Docket 4654.)

NEW—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted petition to intervene in the hearing of the application of G. Bruce McConnell for C. P. to erect a new station at Indianapolis, to operate on frequency 1500 with 100 watts night, 250 watts-LS, specified hours. (Docket 4618.)

WFBM—Indianapolis Power & Light Co., Indianapolis, Ind.—Denied petition to intervene in the hearing of the application of G. Bruce McConnell for C. P. to erect a new station at Indianapolis, to operate on frequency 1500 with 100 watts night, 250 watts-LS, specified hours. (Docket 4618.)

WSBT—South Bend Tribune, South Bend, Ind.—Denied petition to intervene in the hearing of the application of Walker & Chapin, Oshkosh, Wis., for C. P. to operate a new station on 1010 kc., with power of 250 watts, unlimited time. (Docket 4588.)

NEW—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted petition to intervene in the hearing of the application of G. Bruce McConnell for C. P. to erect a new station at Indianapolis, to operate on frequency 1500 with 100 watts night, 250 watts-LS, specified hours. (Docket 4618.)

WTC—South Bend Tribune, South Bend, Ind.—Denied petition to intervene in the hearing of the application of Walker & Chapin, Oshkosh, Wis., for C. P. to operate a new station at Indianapolis, to operate on frequency 1500 with 100 watts night, 250 watts-LS, unlimited time. (Docket 4588.)

NEW—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted petition to intervene in the hearing of the application of G. Bruce McConnell for C. P. to erect a new station at Indianapolis, to operate on frequency 1500 with 100 watts night, 250 watts-LS, unlimited time. (Docket 4588.)

WTC—Savannah Broadcasting Co., Inc., Savannah, Ga.—Denied petition to intervene in the hearing of the application of Seaboard Broadcasting Corp. for C. P., to erect a new station at Savannah, to operate on frequency 1310 kc., 100 watts night, 250 watts LS, unlimited time. (Docket 4625.)
WOW—Woodman of the World Life Ins. Co., Omaha, Neb.—Granted petition to intervene in the hearing of the application of The Great Western Broadcasting Co. for C.P. to erect a new station at Omaha, Neb., to operate on frequency of 1310 kc., with 100 watts, unlimited time. (Docket 4584)

WTAQ—WHBY, Inc., Green Bay, Wis.—Granted petition to intervene in the hearing of the application of Walker & Chapin for C.P. to erect a new station at Oshkosh, Wis., 1010 kc., 250 watts, unlimited time. (Docket 4588)

NEW—Ann Arbor Broadcasting Co., Inc., Ann Arbor, Mich.—Granted motion for extension of time within which to file exceptions to Ex. Rept. 1-461.

NEW—Old Colony Broadcasting Corp., Lawrence, Mass.—Denied petition requesting extension of effective date of Commission's decision on the applications of Hiblert & Rogers Co. (Docket 3940) and Old Colony Broadcasting Corp. (Docket 4056).

WAVE—WAVE, Inc., Louisville, Ky.—Granted petition to intervene in the hearing of the application of WCRG, New Albany, Ind., for C.P. to change frequency from 1370 to 858 kc., and increase hours from daytime to unlimited. (Docket 4654)

WIRE—Indianapolis Broadcasting Inc., Indianapolis, Ind.—Granted petition to intervene in the hearing on the application of G. Bruce McConnell for C.P. to erect a new station at Indianapolis, to operate on frequency of 1500 kc., with 250 watts, unlimited time, 250 watts LS, specified hours. (Docket 4618)

WFBM—Indianapolis Power & Light Co., Indianapolis, Ind.—Granted petition to intervene same as above.

WSBT—South Bend Tribune, South Bend, Ind.—Granted petition to intervene in the hearing on the application of Walker & Chapin, Oshkosh, Wis., for C.P. to operate a new station on 1010 kc., with power of 250 watts, unlimited time. (Docket 4588)

WTCC—Savannah Broadcasting Co., Inc., Savannah, Ga.—Granted petition to intervene in the hearing on the application of Seaboard Broadcasting Corp. for C.P. to erect a new station at Savannah, to operate on frequency of 1310 kc., 100 watts night, 250 watts LS, unlimited time. (Docket 4625)

WOW—Woodman of the World Life Ins. Co., Omaha, Neb.—Granted petition to intervene in the hearing of the application of The Greater Kampeska Radio Corp. for C.P. to erect a new station at Omaha, to operate on frequency of 1420 kc., with 100 watts, unlimited time. (Docket 4641)

WTAQ—WHBY, Inc., Green Bay, Wis.—Granted petition to intervene in the hearing on the application of Walker & Chapin for C.P. to erect a new station at Oshkosh, Wis., 1010 kc., 250 watts, unlimited time. (Docket 4588)

WIBG—Seaboard Radio Broadcasting Corp., Pensacola, Fla.—Denied petition to reconsider and grant without a hearing application to install vertical antenna transmitter and increase power from 100 watts daytime to 5 KW-LS at Chicago.

KGWB—Black Hills Broadcast Co., Rapid City, S. Dak.—Denied petition of applicant to reconsider and grant without a hearing application for voluntary assignment of license.

NEW—T. E. Kirksey, Waco, Tex.—Denied applicant's petition to reconsider and grant for further hearing in the application of C.P. to use 930 kc., 250 watts, 500 watts LS, unlimited time.

WHBF—Rock Island Broadcasting Co., Rock Island, Ill.—Denied request for authority to use the following station identification announcement: 'This is WHBF, Rock Island, Moline, and Davenport'.

NEW—United Theatres, Inc., San Juan, P. R.—Granted petition to postpone hearing on application for C.P. to operate on 570 kc., with 1 KW power, unlimited, from September 17 to September 24, 1937.

KOY—Salt River Valley Broadcasting Co., Phoenix, Ariz.—Granted petition to accept answer in the matter of the hearing on application of Arkansas Broadcasting Co., Little Rock, Arkansas, for C.P. to install directional antenna and increase power from 250 KW-LS to 5 KW-LS, in which case applicant is respondent.

NEW—J. Rubin—Granted petition to waive Rule 104.6(b) and accept respondent's answer in the matter of the proceeding on application of Evanston Broadcasting Co. for C.P. to erect a new station at Evanston, Ill., to operate on 1020 kc., 250 watts, daytime only. (Docket 4509)

KRKD—Radio Broadcasters, Inc., Los Angeles, Cal.—Denied petition of Frank P. Doherty, transferer, for dismissal without prejudice of application of Radio Broadcasters, Inc. (KRKD) for authority to transfer control; and, the Commission, on the basis of the sworn statements in the petition, acted on its own motion and dismissed the application with prejudice.

WKB—Sanders Bros. Radio Station, E. Dubuque, Ill.—Denied request to furnish applicants with certain documents submitted by Examiners, Engineering, and Law Departments relative to application of Telegraph-Herald, Dubuque, Iowa, for C.P. to use frequency 1340 kc., 500 watts, daytime hours.

Gross & Shields, Saginaw, Mich.—Granted extension of time within which to file application for renewal of transmitter site from July 18, 1937, to 60 days after disposition of the Saginaw Broadcasting Company's appeal now pending in U. S. Court of Appeals.

WBN—Coliseum Place Baptist Church, New Orleans, La.—Granted in part petition for authority to move transmitter and studio sites locally, install new antenna and equipment (authority to change frequency from 1290 kc. to 1420 kc. and increase power and hours of operation to 100 watts night, 200 watts day, unlimited time, to remain in Dockets 4056 for hearing).

NEW—Chase Osborn, Jr., Fresno, Calif.—Denied petition for re-hearing under Sec. 405, before the full Commission, upon application of George Harm for a new station at Fresno, Calif. (Docket 3944) to operate on 1310 kc., 100 watts, unlimited time, which was granted by the Commission July 2, 1937.

WKB—Sanders Bros. Radio Station, E. Dubuque, Ill.—Denied petition for extension of effective date of Commission's decision upon the application of Telegraph-Herald for a new station at Dubuque, Iowa, to operate on 1340 kc., 500 watts, daytime only, which was granted July 2, 1937.

NEW—E. Anthony & Sons, Inc., Pawtucket, R. I.—Denied petition for rehearing on application for C.P. to erect a new station to operate on 1200 kc., 100 watts night, 250 watts LS, unlimited time.

NEW—Garrett Telephone Co., Garrett, Ind.—Denied petition of Company for rehearing before the Commission, and entered its order in re Docket 3444, effective October 1, 1937.

NEW—Voice of Greenville, Greenville, Tex.—Dismissed petition of the Greater Kampeska Radio Corp. for C.P. to erect a new station, to operate on frequency of 1340 kc., 500 watts, daytime only, to remain in Dockets 4056.

NEW—Chase Osborn, Jr., Fresno, Calif.—Denied petition for rehearing on application of Walker & Chapin for C.P. to erect a new station to operate on 1300 kc., 100 watts night, 250 watts LS, unlimited time.

NEW—Garrett Telephone Co., Garrett, Ind.—Denied petition of Company for rehearing before the Commission, and entered its order in re Docket 3444, effective October 1, 1937.

NEW—Voice of Greenville, Greenville, Tex.—Dismissed petition of the Greater Kampeska Radio Corp. for C.P. to erect a new station, to operate on frequency of 1340 kc., 500 watts, daytime only, to remain in Dockets 4056.

NEW—Chase Osborn, Jr., Fresno, Calif.—Denied petition for rehearing on application of Walker & Chapin for C.P. to erect a new station to operate on 1300 kc., 100 watts night, 250 watts LS, unlimited time.
station to operate on 1310 kc., 100 watts, 250 watts LS, unlimited time.

**RATIFICATIONS**

The Commission ratified the following actions taken on the dates shown:

KTKC—Tulare Kings Counties Radio Assn., Visalia, Calif.—Granted same as above except from August 18.

WJJE—Hagerstown Broadcasting Co., Hagerstown, Md.—License to cover construction permit (B1-P-1570) for new antenna and move of transmitter.

WFAB—Fifth Avenue Broadcasting Corp., New York, N. Y.—1300 voluntary assignment of license from Fifth Avenue Broadcasting Corp. to Debs Memorial Radio Fund, Inc.

WBNX—WBNX Broadcasting Co., Inc., New York, N. Y.—Construction permit to install a new transmitter and directional antenna for day and night use, increase power from 1 kW to 5 kW, and move transmitter from 138 Pine St., Cliffside Park, N. J., to near Secaucus, N. J. Amended to change requested power from 5 kW to 1 kW night, 5 kW day.

WAGM—Aroostook Broadcasting Corp., Presque Isle, Maine.—1120 Authority to make changes in automatic frequency control apparatus.

NEW—World Wide Broadcasting Corp., New York, N. Y.—Construction permit for a new international station to be operated on 6040, 11790, 15250 kc., 10,000 watts.

**Second Zone**

NEW—Kentucky Broadcasting Corp., Louisville, Ky.—Construction permit for a new station to be operated on 1210 kc., 100 watts night, 250 watts day, unlimited time. Amended to change name of applicant from D. E. Kendrick (individual) to Kentucky Broadcasting Corp. (a corporation).

WOMI—Owensboro Broadcasting Co., Owensboro, Ky.—Modification of construction permit (B2-P-1013) for a new station, requesting changes in authorized equipment, increase power from 100 watts to 100 watts night, 250 watts day, approval of vertical antenna, approval of transmitter site and change of studio site. Amended to omit request for increase in power.

W8XDD—The Fort Industry Co., Toledo, Ohio.—Modification of construction permit (B2-PRE-21) for changes in equipment.

W8XX—The Fort Industry Co., Toledo, Ohio.—License to cover above.

WAAJ—The Fort Industry Co., Toledo, Ohio.—Modification of construction permit (B2-PF-46) for changes in equipment.

WAAJ—The Fort Industry Co., Toledo, Ohio.—License to cover above.

NEW—Ashland Broadcasting Co., Ashland, Ky.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37800, 40600 kc., 10 watts.

**Third Zone**

WCOC—Mississippi Broadcasting Co., Inc., Meridian, Miss.—Modification of construction permit (B3-P-1434) as modified for changes in equipment, requesting extension of completion date from 9-10-37 to 11-10-37.

WGST—Georgia School of Technology, Atlanta, Ga.—Construction permit (B3-P-1682) to use old composite (1 KW) transmitter as an auxiliary transmitter. Amended to make changes in and move transmitter from Third and Cherry Streets to Cheshire Bridge Road and Seaboard Railway, Atlanta, Ga.

KRLD—KRLD Radio Corp., Dallas, Tex.—License to cover construction permit (B3-P-1520) for changes in equipment.

WAYX—E. F. Sapp and S. F. Sapp, d/b as Waycross Broadcasting Co., Waycross, Ga.—Voluntary assignment of construction permit (B3-P-1682) and license from E. F. Sapp and S. F. Sapp, d/b as Waycross Broadcasting Co., to Jack Williams.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Modification of construction permit (B3-P-1682) for changes in equipment.

WSIX—WSIX, Inc., Nashville, Tenn.—Construction permit to 1210 installation a new transmitter and increase power from 100 watts to 100 watts night, 250 watts day.

WDOD—WDOD Broadcasting Corp., Chattanooga, Tenn.—Authority to determine operating power by direct measurement of antenna.

WSJ—Piedmont Publishing Co., Winston-Salem, N. C.—Construction permit to install new transmitter and directional antenna for night use; change frequency from 1310 kc., to 900 kc.; increase power from 100 watts to 1 kW night, 5 kW day; move transmitter from 416-420 N. Marshall Street, Winston-Salem, N. C., to 1/4 mile west of O. E. Hudson homeplace, Oldtown Township, North Carolina.

WLAK—Lake Region Broadcasting Co., Lakeland, Fla.—Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day.

**APPLICATIONS RECEIVED**

First Zone

WGAN—Portland Broadcasting System, Inc., Portland, Ore.—Authority to transfer control of corporation from Estate of George W. Martin to Lloyd C. Greene and Wm. N. Campbell, 251 shares common stock (84 shares to L. C. Greene, 167 shares to W. N. Campbell.

WESG—Cornell University, Ithaca, N. Y.—Modification of license to change frequency from 1040 kc. to 850 kc. and hours of operation from 6 a. m. to sunset at Hot Springs to 6 a. m. to sunset at New Orleans.

WIBX—WIBX, Inc., Utica, N. Y.—License to cover construction permit (B2-P-1426) as modified for new equipment, change in power, and move of transmitter.
NEW—Broward Broadcasting Co., Fort Lauderdale, Fla.—Construction permit for a new station to be operated on 1570 kc., 100 watts night, 250 watts day, unlimited time.

KABC—Alamo Broadcasting Co., Inc., San Antonio, Tex.—Authority to transfer control of corporation from Ethel Bowen Barrett, Thurman Barrett, R. E. Willson, Louise Hillje Taylor, Henry Lee Taylor and Harvis H. Hillje to Elliott Roosevelt, 1,000 shares common stock.

KOMA—Hearst Radio, Inc., Oklahoma City, Okla.—Construction permit to make changes in equipment; install vertical antenna; change frequency from 1500 kc. to 1310 kc., hours of operation from daytime to unlimited, power from 100 watts to 250 watts day; and move transmitter and studio from Griffin Hotel, W. Solomon St., Griffin, Ga., to Cherry Street and Cotton Avenue, Macon, Ga. Amended to change transmitter site to site to be determined, Macon, Ga.

NEW—C. P. Sudweeks, Spokane, Wash.—Construction permit for 950 kc., 300 watts night, 1 kW day, unlimited time. Amended to change requested frequency to 950 kc., 300 watts night, 1 kW day, unlimited time.

KABC—Alamo Broadcasting Co., Inc., San Antonio, Tex.—Authority to determine transmitter site from Pleasant Prairie, Wash., to southeast quarter of Sec. 34, Twp. 26, Range 42 East, near Spokane, Wash.

NEW FCC COMMISSIONERS CONFIRMED

The Senate before adjournment confirmed Frank R. McNinch and T. A. M. Craven as members of the Federal Communications Commission to fill the vacancies left by the death of Chairman Anning S. Prall, and Dr. Irvin Stewart, resigned.

Mr. Craven was sworn in as a member of the Commission on Wednesday. It is reported that Mr. McNinch will not take the oath of office for a short time owing to the fact that he has some matters at the Federal Power Commission which he wishes to clear up first.

NEBRASKA BROADCASTERS ELECT OFFICERS

The Nebraska Broadcasters Association held its annual meeting at Grand Island on August 9. The officers and directors elected for the ensuing year are: John M. Henry, KFAB-KFOR-KOIL, President; Clark Standiford, KGFW, Vice-President; Art Thomas, WJAG, Secretary-Treasurer; Frank Manchester, WAAW, and L. L. Hilliard, KGKY, Directors.

CHANGE IN POWER AND FREQUENCY RECOMMENDED

Broadcasting Station KABR, Aberdeen, S. Dak., applied to the Federal Communications Commission for a construction permit to change its frequency from 1420 kilocycles to 1390 kilocycles and to increase its power from 100 watts, unlimited hours to 500 watts night-time and 1,000 watts LS, with unlimited hours of operation.

Examiner R. H. Hyde, in Report No. I-481, recommended that the application be granted. He stated that due to the unusually large geographical area and the long distances between larger communities, the additional facilities applied for are needed to improve the service now available in Aberdeen and to extend it to a greater area and he added that the proposed changes would not cause interference to other stations on the same or adjacent frequencies.

STATUS OF FEDERAL RADIO LEGISLATION

The resolution of Senator White of Maine calling for an investigation of the radio industry was not passed during the closing hours of the first session of the Seventy-Fifth Congress which adjourned Saturday, August 21.

The White resolution was favorably reported by the Senate Committee on Interstate Commerce but an appropriation of $25,000 was added to defray the expenses of the investigation which necessitated its reference to the Senate Audit and Control Committee. As the session ended the resolution had not been reported out by the latter committee.

All bills introduced during the present session will retain their status when Congress reconvenes for the second session of the Seventy-Fifth Congress.

There follows a tabulation of the status of all federal bills of importance to broadcasters, separated as to Senate and House of Representatives.

SENATE

S. 1353: Walsh (Mass.): Radio operators. To Interstate Commerce Committee, February 1. No action.
S. 1369: Capper (Kans.): Prohibits radio liquor advertising. To Interstate Commerce Committee, February 5. No action.
S. 2240: Guffey (Pa.): Copyrights. To Patents Committee, April 22. No action.
S. 2407: Sheppard (Texas): Radio operators minimum age provision. Passed Senate and referred to House Interstate and Foreign Commerce Committee.

H. R. 5376: Welch (Calif.): Minimum age requirement for radio operators. To Interstate and Foreign Commerce Committee, March 5. No action.

H. R. 6072: Whelchel (Ga.): Copyrights. To Patents Committee, April 1. No action.

RECOMMENDS POWER INCREASE FOR WMMN

Broadcasting station WMMN, Fairmont, W. Va., operating unlimited time on 890 kilocycles, applied to the Federal Communications Commission for an increase in power from 500 watts night, 1,000 watts LS, to 1,000 watts night, 5,000 watts LS.

Examiner Robert L. Irwin recommended that the application be granted. He stated that there is a need for additional service in the area, that the increase will not cause interference with any existing or proposed stations and that the granting of the application will be in the public interest, convenience and necessity.

ANTENNA TOWER MARKING

The Federal Communications Commission has issued the following in connection with the marking of antenna towers.

It has come to the attention of the Commission that the effectiveness of the antenna marking of many radio stations is considerably below normal, due to employing improper lamps and covers, failure to keep covers clean and deterioration of the tower paint.

In order to increase the effectiveness of this marking, thereby reducing the hazard to air navigation, the following instructions are issued:

(a) All antenna marking fixtures now equipped with lamps of 100 watts or less shall be equipped with 100 watt traffic signal lamps, Type A-21 clear, medium screw base. All lamps must be enclosed in aviation red prismatic obstruction light globes.

(b) All 200 watt code beacons shall be equipped with 200 watt general lighting service lamps, Type PS-30, clear, mogul prefocus base (where mogul prefocus base sockets are not now installed, these shall be installed).

(c) All 500 watt code beacons shall be equipped with 500 watt general lighting service lamps, Type PS-40, clear, mogul prefocus base (where mogul prefocus base sockets are not now installed, these shall be installed).

(d) All 500 watt rotating beacons shall be equipped with 500 watt aviation lighting service lamps, Type T-24 clear, mogul bi-post base.

(e) All 1000 watt rotating beacons shall be equipped with 1000 watt aviation lighting service lamps, Type T-20 clear, mogul bi-post base.
Attention is invited to the fact that these lamps which are particularly designed for the services specified, having considerably longer life than ordinary lamps of similar wattage, and in addition are much more efficient for these services. The use of the proper lamps as above stated, should materially increase the effectiveness and reduce the cost and inconvenience of maintenance.

(f) The tower paint shall be kept in good condition and repainted as often as necessary to maintain this condition. Towers now painted black and yellow shall when repainting is necessary, be painted in accordance with the present standards as follows:

“Each tower shall be painted throughout its height with alternate bands of international orange (orange yellow No. 5 of Color Card Supplement to the United States Army Quartermaster Corps Specifications No. 3-1) (see color card attached) and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be one-seventh the height of the structure (if towers are over 250 feet, bands should be from 30 to 40 feet). The white bands shall be one-half the width of the international orange bands.”

These instructions are effective immediately and the licensees of all stations where antenna marking is required shall proceed immediately to comply therewith.

WGL POWER INCREASE RECOMMENDED

Radio station WGL, Fort Wayne, Ind., operating unlimited time on 1370 kilocycles applied to the Federal Communications Commission to increase its power from 100 watts to 100 watts night and 250 L. S.

Examiner Tyler Berry, in Report I-477, recommended that the application be granted. He states that there is a need for additional service in that area and that no objectionable interference will be caused by the proposed increase in day power.

APPROPRIATION FOR RADIO CONFERENCE

Just before adjournment the House of Representatives passed S. J. Res. 197, providing for an appropriation of $15,000 for the use of the American delegation to the Inter-American Radio Conference to be held at Habana, Cuba, beginning in November. The resolution had already passed the Senate.

RECOMMENDS AGAINST NEW ILLINOIS STATION

Robert Raymond McCulla applied to the Federal Communications Commission for a construction permit for a new broadcasting station at Oak Park, Ill., to be operated on 1500 kilocycles, 100 watts power and daytime operation.

Examiner Tyler Berry, in Report No. I-480, recommended that the application be denied. He found that the applicant was not technically or financially qualified to construct and operate the proposed station, that the area is now receiving satisfactory primary service and that the site selected for the station was not satisfactory from an engineering standpoint.

DENIAL RECOMMENDED ON ILLINOIS APPLICATION

The Key City Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Kankakee, Ill., to operate on 1500 kilocycles, 100 watts power, unlimited time.

Examiner Tyler Berry, in Report No. I-479, recommended that the application be denied. He stated that the applicants were not financially and technically qualified to construct and operate the proposed station, that the area now receives primary service from a number of stations, and the proposed station would cause objectionable interference with Station WHIP.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3265. A complaint has been issued against S. C. Ross, 64 West Randolph St., Chicago, trading as Ideal Gift Company, alleging unfair methods of competition in promoting the sale of rotary clocks, fountain pen and pencil sets, and other merchandise through use of lotteries or gift enterprises.

The complaint alleges that the respondent furnishes customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3296. Misrepresentation of certain piece-goods as silk, when in fact they are composed of other materials, is alleged in a complaint issued against H. Kluger, Inc., 180 Madison Ave., New York. On labels and in advertising matter, the respondent allegedly describes and refers to products not composed of silk as “Pur’Dil”, “100% pure dye”, “pure silk filled”, “100% pure dye crepe” and “crepe”.

Dress goods and other items of wearing apparel to which such descriptive words and phrases are applied, the complaint charges, have for a long time been associated in the public mind with a fabric commonly known as and understood generally to be silk.

No. 3207. Use of lotteries or gift enterprises to promote the sale of bed and table linen, silverware, wearing apparel and other merchandise is alleged in a complaint against John C. Merritt, 1321 South 22nd St., Birmingham, Ala., trading as Merco Sales Company.

The respondent is charged with furnishing customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3298. Misrepresentation of certain piece-goods as silk, when in fact they are composed of other materials, is alleged in a complaint issued against S. C. Ross, 64 West Randolph St., Chicago, trading as Ideal Gift Company, alleging unfair methods of competition in promoting the sale of rotary clocks, fountain pen and pencil sets, and other merchandise through use of lotteries or gift enterprises.

The complaint alleges that the respondent furnishes customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3207. Use of lotteries or gift enterprises to promote the sale of bed and table linen, silverware, wearing apparel and other merchandise is alleged in a complaint against John C. Merritt, 1321 South 22nd St., Birmingham, Ala., trading as Merco Sales Company.

The respondent is charged with furnishing customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3298. Misrepresentation of certain piece-goods as silk, when in fact they are composed of other materials, is alleged in a complaint issued against S. C. Ross, 64 West Randolph St., Chicago, trading as Ideal Gift Company, alleging unfair methods of competition in promoting the sale of rotary clocks, fountain pen and pencil sets, and other merchandise through use of lotteries or gift enterprises.

The complaint alleges that the respondent furnishes customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3296. Misrepresentation of certain piece-goods as silk, when in fact they are composed of other materials, is alleged in a complaint issued against H. Kluger, Inc., 180 Madison Ave., New York. On labels and in advertising matter, the respondent allegedly describes and refers to products not composed of silk as “Pur’Dil”, “100% pure dye”, “pure silk filled”, “100% pure dye crepe” and “crepe”.

Dress goods and other items of wearing apparel to which such descriptive words and phrases are applied, the complaint charges, have for a long time been associated in the public mind with a fabric commonly known as and understood generally to be silk.
methods of competition in the sale of corrugated paper fiber boxes.

The case involves the company’s alleged improper stamping of its products in violation of rules on file with the Interstate Commerce Commission relating to the construction requirements of corrugated paper boxes used in shipments by rail.

No. 3290. The William M. Harrie Company, 1584 East 19th St., Cleveland, is charged in a complaint with unfair competition in the sale to dealers of candies so packed and assembled in accordance with a lottery scheme when such products are resold to ultimate consumers.

No. 3120. Charging false and misleading representations in the sale of men’s and women’s wearing apparel, a complaint has been issued against Samuel Stores, Incorporated, 460 Fourth Ave., New York.

In advertisements and sales talks, the respondent company is alleged to have represented that with purchases amounting to $25, certain gifts would be awarded, consisting of a choice of a $6.95 dress, an all-weather sport coat, or a pair of men’s shoes.

Stipulations

The Commission has entered into the following stipulations:

No. 2631. The Stetson Pants Company, 212 East 8th St., Cincinnati, selling men’s clothing, agreed to discontinue use of the word “fabricated,” as descriptive of garments which actually are not given free but are given as a consideration to persons for services performed by obtaining new customers. The company also will cease using the phrase “tailored-to-fit” or words of similar meaning so as to imply that the garments to which such words refer are made to the individual measure or order of customers, when this is not true. The Stetson Pants Company also trades as The Manhattan Neckwear Company, Gibson Sweater Company and The Burton Pants & Garment Co.

No. 2633. Silverman & Grean, Inc., 231 West 29th St., New York, selling fur coats, will stop using in advertising matter as a brand or label for its products, the word “seal” or the word “Bioseal” alone or in connection with the explanatory phrase “the aristocrat of dried coney,” so as to imply that such coats are made from seal. The company also will discontinue employing such descriptive words or phrase in any manner tending to confuse purchasers as to the kind of fur from which its coats are manufactured.

No. 2634. False and misleading advertising will be discontinued under a stipulation entered into by Samuel T. and Dora Schwartz, trading as Chas. Schwartz & Son., 708 Seventh St., N. W., Washington, D. C., dealers in jewelry and other merchandise.

The firm agreed to desist from the use in advertising matter of the word “free” as descriptive of merchandise represented to be given away with the purchase of other merchandise, when, in fact, the goods denominated “free” article is included in the price asked for the goods sold.

No. 2653. Les Parfums Marly, Inc., 525 Broadway, New York, agreed to cease using the word “Paris” or “France” or the phrase “Made in France”, alone or in connection with each other on its packaged perfume products, or otherwise, so as to directly assert or imply that such perfumes are of French origin and imported from France as finished perfumes. Use of the word “Paris” or of the address “Paris, 24 Rue Caumartin” on packaged products or in any manner implying that the company has an office at such address when this is not a fact, will be discontinued. According to the stipulation, the company is engaged in compounding perfumes in this country from imported essential oil and essences, to which is added denatured alcohol as a diluting agent.

No. 2636. Busch Jewelry Company, Inc., 35 West 14th St., New York, stipulated that in advertising certain radio sets it sells it will stop employing the word “General” in connection with the statement “Headquarters for General Electric Radios”, and will no longer use the word “General” as a trade name so as to imply that the sets so branded are manufactured by General Electric Company, Schenectady, N. Y., when such is not a fact. Schenectady, N. Y., when such is not a fact.

No. 2837. M. Millstone, trading as Arno Liquor Store, 927 Pennsylvania Ave., N. W., Washington, D. C., will desist from representing in advertising matter of otherwise that rum produced in the Virgin Islands and which he sells under the name “Three Sisters” as being distilled, aged or bottled under the supervision of the United States Government, when such is not a fact.

No. 01843. Under a stipulation entered into, The R. L. Watkins Company, 170 Varick St., New York, engaged in the interstate sale of Dr. Lyon’s Tooth Powder, will discontinue certain false and misleading representations in advertising such dentifrice.

The respondent company stipulated that it will stop advertising that Dr. Lyon’s Tooth Powder has twice the cleansing properties of tooth paste, is doubly efficient, and costs only half as much to use; that there is nothing known that will clean, whiten or polish teeth better than the powder; that dentists everywhere recommend Dr. Lyon’s, and that people by the thousands or millions are discarding other methods of teeth cleansing and are using powder instead.

No. 01844. A stipulation to cease the use of false and misleading advertising in the sale of bunion and arch appliances, medicated soaps and preparations for the relief of foot trouble, has been entered by The Scholl Manufacturing Company, Inc., 211 West Schiller St., Chicago.

In the stipulation to be discontinued are that the respondent company compiles bunion and arch appliances build up crippled structures and tissues, or are recognized by orthopedic surgeons as practical in every detail, and that by use of any of Dr. Scholl’s products one may obtain permanent or immediate relief from whatever foot trouble has, or that any or all of such products tone up the feet or enable one to wear smaller shoes.

No. 01845. Desider Rosenberg, trading as Scholine Co., Post Office Box 2406, Kansas City, Mo., has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of New Improved Scholine Treatment, a preparation for the skin consisting of a facial cleanser, an over-night application and a soothing powder.

False and misleading representations in the sale of cigars, an order has been issued to cease and desist against John F. Bolon, 59½ South Summit St., Bethesda, Ohio, trading as John F. Bolon Cigar Co.

Bolon is directed to discontinue representing, through use of the words “Vuelta Abajo” or other words of similar meaning, as descriptive of cigars, that they are made from tobacco grown in and imported from Cuba and the Cuban Province of Pinar Del Rio, unless this is a fact. Vuelta Abajo, the name of a district in Pinar Del Rio Province, Cuba.

Use of the phrase “cured in rum”, or other words of similar meaning to represent that cigars have been cured, flattened or sweetened with rum, unless such a fact, is also barred by the order.

No. 2998. An order to cease and desist from certain false representations concerning Bireunjel, a feminine hygiene preparation sold with a patented appliance, has been entered against Bireunjel Corporation, Inc., having places of business at 420 Lexington Ave. and 37 East 55th St., New York.

The representations ordered discontinued are that use of the preparation will prevent conception; that it is a scientific prophylactic and a protection against disease, and that it may be used with safety and without deleterious effects in all cases.

No. 3009. An order to cease and desist from representing that it is a distiller of spirituous beverages, when such is not a fact, has been entered against Distillers Brands, Inc., formerly of Cincinnati but now of Jacksonville, Fla.

The respondent company is ordered to discontinue representing, through use of the word “distillers” in its corporate name, in advertising matter, on labels, or otherwise, that it distills whiskies, gins or other spirituous beverages; that it manufactures such products through a process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a plant.

No. 3043. Prohibiting certain misrepresentations in the sale of correspondence courses designed to prepare students for civil service examinations, an order to cease and desist has been entered against Public Service Institute, Inc., 425 DeBaliviere Ave., St. Louis.

Among the representations thereto which are objected to the effect that enrollment for the respondent’s courses constitutes enrollment for a civil service examination or position; that the respondent is connected with or represents the United States Government; that it conducts a residence school, and that the number of its students who have successfully passed civil service examinations or obtained government positions and the number of instructors on its staff are greater than the facts warrant.

No. 5063. An order to cease and desist has been issued against Maryland Baking Co., 1200 South Butaw St., Baltimore, direct-
ing discontinuance of certain lottery methods in the sale of ice cream cones.

The respondent is ordered to stop selling to wholesalers and retailers cones so packed and assembled that their sale to ultimate purchasers may be made by means of a gaming device. Packages or assortments of ice cream cones are not to be supplied dealers when, without alternation or rearrangement of their contents, they may be used to conduct a game of chance in the sale of cones to the public.

No. 3082. The Solvotone Co., 4303 Cottage Grove Ave., Chicago, and its president, Jessie Rogers, have been ordered to cease and desist from misrepresenting the therapeutic effects and properties of Solvotone, a medicine consisting of three preparations which users are directed to take together in the treatment of gall-stones, ulcers or cancer of the stomach, or any other serious pathological condition, or will prevent an operation when such a condition exists; and that their use will end suffering and relieve tightness around the waist or pain in the right side, regardless of the cause of such symptoms are due to any serious pathological condition.

No. 3097. An order to cease and desist from certain unfair competitive practices has been entered against Wesleyan Diesel Service, Inc., 2906 Leavenworth St., Omaha, Nebr., engaged in selling correspondence courses of instruction in the installation, care and maintenance of Diesel engines.

The order prohibits the respondent from representing that students finishing the course are qualified to install, maintain and service Diesel engines and that a free employment service is operated for the benefit of such students; that a limited number of students are to be selected and trained in Diesel engine work, and that the demand for such trained men is greater than it actually is; and that the tuition fee paid by a student will be refunded if he is not satisfied with the results obtained after completing the course.

No. 3112. Keeley’s, Inc., 258 South State St., Salt Lake City, Utah, has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers may be made by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondent from packaging in the same assortments for sale to the public at retail, boxes of candy together with punchboard devices which may be used in the retail sale of candy to the public.

No. 3163. F. B. Washburn Candy Corporation, Inc., 33 West 34th St., New York, has been ordered to discontinue using the words “silk,” “crepe,” “taffeta” or “satin,” as descriptive of women’s garments which are not composed of silk, but of other materials.

The respondent company, which operates department stores, was found to have falsely represented in newspaper advertisements, through use of the words mentioned, that certain articles of wearing apparel were made of silk, when such was not a fact.

No. 3166. F. B. Washburn Candy Corporation, Forest St., Brockton, Mass., has been ordered to cease and desist from selling and distributing to dealers candy so packed and assembled that sales of such candy to the general public are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 30.

The Broadcast Division has taken the following action subject to ratification at its next regular meeting:

APPLICATIONS GRANTED

WBIP—Wilton Harvey Pollard, Huntsville, Ala.—Granted extension program test period for period of 30 days from August 16.

WIBX—WIBX, Inc., Utica, N. Y.—Granted extension program test period for period of 30 days from August 22.

KAAX—Columbia Broadcasting System, New York City.—Granted special temporary authority to operate a mobile low frequency pack relay broadcast transmitter on frequency 2530 kc, 5 watts, for the period August 20 to 26, to relay broadcast National Open Golf Tournament at Alderwood Country Club, Portland, Ore.

WJAR—The Outlet Company, Providence, R. I.—Granted extension special temporary authority to operate 1 KW auxiliary transmitter as regular transmitter for the period August 18 to September 16, pending installation of new 5 KW transmitting equipment as authorized under C. P.

WMBD—Peoria Broadcasting Co., Peoria, Ill.—Granted special temporary authority to rebroadcast over WMBD conversation carried on between experimental stations W5XAR and W5XAS of the Western Radio Telegraph Co., for a period of not more than 1 hour, between August 22 and August 27, flying weather permitting.

KUMA—Albert H. Schermann, Yuma, Ariz.—Granted extension special temporary authority to remain silent for period August 22 to September 20, 1937, pending action on application for C. P. to move transmitter.

MISCELLANEOUS

Granted petition of Don Lee Broadcasting System (KGB), San Diego, Cali., to intervene in the proceedings upon the application of David G. Adams, d/b/a Adams Recording Studio, for authority to make electrical transcriptions and manufacture records for stations XEGB and XEMO, at Tia Juana, Mexico.

Granted petition of William Penn Broadcasting Co. (WPEN) and WRAX Broadcasting Co. (WRAX) for waiver of Rule 104.6 (b) and accepted their answer to the appearance of Southern Minnesota Broadcasting Co. (WMBD) on No. 3523. F. B. Washburn Candy Corporation, Inc., 33 West 34th St., New York, has been ordered to cease and desist from selling candy so packed and assembled that sales of such candy to the general public are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

WGL—Ex. Rep. 1-477; Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—Examiner Tyler Berry recommended grant of C. P. to increase power from 100 watts to 100 watts, 250 watts LS.

APPLICATIONS RECEIVED

First Zone

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—Construction permit to reestablish W.E. Type D-5737, 1-KW transmitter and use as an auxiliary transmitter.

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—Construction permit to make adjustments in WKBW’s present licensed transmitter and use as WGR’s main transmitter.

WJAR—The Outlet Co., Providence, R. I.—License to cover construction permit (B1-P-1235) for changes in equipment and increase in power.

WKBW—Buffalo Broadcasting Corp., Buffalo, N. Y.—Construction permit to make changes in equipment and increase power from 5 KW to 10 KW of the present licensed transmitter of WGR, to be used as the main transmitter of WKBW.

WCNW—Arthur Fiske, Brooklyn, N. Y.—Construction permit to move transmitter from 1525 Pitkin Avenue, Brooklyn, N. Y., to 180 Morgan Avenue, Brooklyn, N. Y.

WXAL—World Wide Broadcasting Corporation, Boston, Mass.—Modification of license to cancel frequencies 6040, 11790, 13530, 21460 kc, and add 6550, 11790, 15130 and 21500 kc, on a temporary provisional basis.
Second Zone

WIP—Pennsylvania Broadcasting Company, Philadelphia, Pa.—Construction permit to use old W.E.106-B transmitter as an auxiliary, power of 1 KW, and move transmitter 200 feet (same address).

NEW—Fred B. Fitch, tr/ as Thumb Broadcasting Co., Sandusky, Mich.—Construction permit for a new station on frequency not stated, 500 watts night and 1 KW day power, unlimited time. Amended: Specifying 950 kc, frequency, and studio site as East Sanilac Ave., and transmitter site as Section 3, township of Watertown, Mich.; change name from Thumb Broadcasting Co., Inc., by Fred B. Fitch, tr/ as Thumb Broadcasting Company.

NEW—Arlington Radio Service, Inc., Arlington, Va.—Construction permit for a new station to be operated on 1510 kc., 250 watts, unlimited time. Amended to make changes in required equipment, change requested frequency from 1510 kc. to 1140 kc.; power from 250 watts to 1 KW, and hours of operation from unlimited time to daytime.

NEW—Cuyahoga Valley Broadcasting Co., Warren, Ohio.—Construction permit for a new station to be operated on 1200 kc., 100 watts, unlimited time.

WBYL—Herbert Lee Blye, Lima, Ohio.—Voluntary assignment of 1210 license from Herbert Lee Blye to The Fort Industry Co.

WMBG—Havens & Martin, Inc., Richmond, Va.—Construction permit to make changes in equipment and increase power from 500 watts to 500 watts night, 1 KW day, using directional antenna.

WMBG—Havens & Martin, Inc., Richmond, Va.—Construction permit to make changes in equipment and increase power from 500 watts to 500 watts, 1 KW day. Amended to make changes in equipment and increase power from 1 KW to 1 KW night, 5 KW day. Construction permit (B3-P-1446) for changes in equipment.

NEW—The Constitution Publishing Co., Atlanta, Ga.—Construction permit to make changes in equipment and increase in power, further requesting changes in hours of operation from unlimited time to daytime.

NEW—West Virginia Broadcasting Corp., Wheeling, W. Va.—License to cover construction permit (B2-PRE-112) for a new relay broadcast station.

W9XUB—Reading Broadcasting Co., Reading, Pa.—License to cover construction permit (B2-PYR-8) for a new relay broadcast station.

W9XUB—Reading Broadcasting Co., Reading, Pa.—Modification of construction permit (B2-PRE-22) to make changes in equipment.

W9XUB—Reading Broadcasting Co., Reading, Pa.—License to cover construction permit (B2-PRE-112) for a new relay broadcast station.

W9XUB—Reading Broadcasting Co., Reading, Pa.—License to cover construction permit (B2-PRE-22) for a new relay broadcast station.

Third Zone

WDGO—Orlando Broadcasting Co., Inc., Orlando, Fla.—Modification of construction permit (B3-P-1717) for equipment changes and increase in power, further requesting changes in equipment.

WOLS—O. Lee Stone, Florence, S. C.—Modification of construction permit (B3-P-1104) for a new station, requesting changes in equipment and move of transmitter from 121 Evans Street, Florence, S. C., to Charleston Highway, ¾ mile south of Florence, S. C.

KVSO—The Ardmoreite Publishing Co., Inc., Ardmore, Okla.—Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day, 250 watts day.

WSMB—WSMB, Inc., New Orleans, La.—License to cover construction permit (B3-P-1446) as modified for a new transmitter and directional antenna and move of transmitter from on Highway 30, 4 miles W. of Twin Falls, Idaho, to U. S. Highway 30, West of Twin Falls, Idaho.

K5M—K5M, Inc., Twin Falls, Idaho.—Construction permit for high frequency broadcast station, 25950 kc., 100 watts, unlimited time.

NEW—South Bend Tribune, South Bend, Ind.—Construction permit for high frequency broadcast station, 25950 kc., 100 watts, unlimited time.

NEW—South Bend Tribune, South Bend, Ind.—License to cover above.

W9XPU—WDZ Broadcasting Co., Tuscola, Ill.—Construction permit for changes in equipment and increase in power from 10 watts to 30 watts.

W9XPU—WDZ Broadcasting Co., Tuscola, Ill.—License to cover above.

Fourth Zone

WLBL—State of Wisconsin, Department of Agriculture and Markets, Stevens Point, Wis.—License to cover construction permit (B4-P-1220) as modified for new equipment, increase in power, and change in hours of operation.

KS9—Iowa Broadcasting Co., Des Moines, Iowa.—Construction permit to make changes in transmitting equipment; install directional antenna for night use; increase power from 500 watts, 2½ KW day, to 1 KW night and 5 KW day.

NEW—Sam Klaver and Nathan Belzer, d/b as The Great Western Broadcasting Co., Omaha, Nebr.—Construction permit for a new station to be operated on 1420 kc., 100 watts, unlimited time. Amended to change frequency from 1420 kc. to 1500 kc.

NEW—Woodmen of the World Life Insurance Assn., Omaha, Nebr.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2790 kc., 100 watts.

W9XEO—WDAY, Inc., Fargo, N. Dak.—License to cover construction permit (B4-PRE-119) for a new relay broadcast station.

W9XSO—WDAY, Inc., Fargo, N. Dak.—License to cover construction permit (B4-PRE-119) for a new relay broadcast station.

Wire—Indianapolis Broadcasting Co., Indianapolis, Ind.—Construction permit to install new transmitter and move transmitter from Millersville Road and Groveland Avenue, Indianapolis, Ind., to Ralston Road, Indianapolis, Ind.

NEW—South Bend Tribune, South Bend, Ind.—Construction permit for high frequency broadcast station, 25950 kc., 100 watts, unlimited time.

NEW—South Bend Tribune, South Bend, Ind.—License to cover above.

W9XPU—WDZ Broadcasting Co., Tuscola, Ill.—Construction permit for changes in equipment and increase in power from 10 watts to 30 watts.

W9XPU—WDZ Broadcasting Co., Tuscola, Ill.—License to cover above.

Fifth Zone

KTFI—Radio Broadcasting Corp., Twin Falls, Idaho.—Construction permit changes in transmitter, install vertical antenna, increase power from 1 KW to 1 KW night, 250 kW day and move transmitter from 145 Second St., W. Twin Falls, Idaho, to on Highway 30, 4 miles W. of Twin Falls, Idaho, to U. S. Highway 30, West of Twin Falls, Idaho.

KCRJ—Charles C. Robinson, Jerome, Arizona.—License to cover construction permit (B5-P-1711) for changes in equipment, vertical antenna, increase in power, change in hours of operation.

KID—KID Broadcasting Co., Idaho Falls, Idaho.—Construction permit to make changes in equipment and increase power from 500 watts night, 1 KW day to 500 watts night, 5 KW day.

KUFA—Albert H. Schermann, Yuma, Ariz.—Construction permit to install a vertical antenna and move transmitter from Fourth Avenue and Eighth Street, Yuma, Ariz., to 30 Fourth Street, Yuma, Ariz.

KVE—The Voice of the Orange Empire, Inc., Ltd., Santa Ana, Calif.—License to cover modification of construction permit (B5-MP-377) for changes in equipment.

2274
SITTIN' BULL

Broadcasting stations are warned about a potential infringement suit contained in Brunswick Record No. 7378. One side of this record (LA 318) is entitled "Sittin' Bull", and "Shine" by Mack-Brown-Dabney.

The LA 318 side of the record begins with an eight bar introduction of "Indian Love Call" which is included under an ASCAP license, followed by "Sittin' Bull" which is not included under an ASCAP license, and ending with "Shine" which is included under an ASCAP license.

The NAB has been informed that suits for infringement have been instituted in connection with the playing of this record containing the musical selection "Sittin' Bull". The NAB has conducted an investigation into the copyrights involved and any member station now engaged in controversy concerning this composition may obtain the results of the investigation upon request.

POWER INCREASE FOR KFNF RECOMMENDED

Station KFNF, Shenandoah, Iowa, which shares time with Station KUSD on 890 kilocycles, applied to the Federal Communications Commission for an increase in power from 500 watts, 1000 watts LS to 1000 watts, 5000 watts LS.

Examiner John P. Bramhall in Report No. 1-486 recommended that the application be granted. He stated that there was a definite need for additional service in the area and that the interests of other existing stations will not be adversely affected by reason of interference.

POWER INCREASE RECOMMENDED FOR KGKO

Broadcasting station KGKO, Wichita Falls, Texas, which had previously been granted authority by the Federal Communications Commission to move the station to a site near Fort Worth, Texas, applied to the Commission for a modification of the construction permit to allow them to change their operation from 570 kilocycles with 250 watts, 1000 watts LS, unlimited hours, to 570 kilocycles with 1000 watts, 5000 watts LS and unlimited hours.

Examiner George H. Hill in Report No. I-485 recommends that the application be granted. He points out that the granting of the present request will be consistent with the prior decision, that the proposed increase in power will cause no interference in the daytime and that at night it will not be the predominant cause of interference to other existing stations. The examiner concludes that the added power will result in an increased service to the city of Dallas as well as Fort Worth without injury to any Dallas station as it is not proposed to solicit any local advertising in that city.

50 KW FOR KGO RECOMMENDED

Broadcasting Station KGO, San Francisco, Calif., operating on 790 kilocycles, unlimited time applied to the Federal Communications Commission for an increase from its present power of 7500 watts to 50,000 watts.

Examiner John P. Bramhall, in Report No. I-488, recommended that the application be granted. He found that there is a need for additional service proposed to be rendered and that although a slight increase in interference to Station KEHE will result, it is not sufficiently serious to warrant the denial of the application.

WBNS POWER INCREASE RECOMMENDED

Radio Station WBNS, Columbus, Ohio, operating on 1430 kilocycles, unlimited time, applied to the Federal Communications Commission for a construction permit for an increase in power from 500 watts, 1000 watts LS to 1000 watts, 5000 watts LS.

Examiner Robert L. Irwin, in Report No. I-489, recommended that the application be granted. He stated that there is a need for additional service in the area, that the increased power will not cause increased interference to existing stations nor result in objectionable
interference to the facilities requested in pending applications.

RECOMMENDS AGAINST NEW WEST VIRGINIA STATION

George W. Taylor Company, Inc., applied to the Federal Communications Commission for a construction permit for a new station at Williamson, W. Va., to operate on 1370 kilocycles, daytime, with 100 watts power.

Examiner Robert L. Irwin, in Report No. I-487, recommended that the application be denied. He based his adverse recommendation mainly on the ground that the record indicated that the application was filed with the intention of transferring control of any license or permit that might be acquired to parties who were not applicants and who did not appear at the hearing and he added that the granting of the application would not serve the public interest, convenience and necessity.

RECOMMENDS NEW MISSOURI STATION

Don M. Lidenton and A. L. McCarthy applied to the Federal Communications Commission for a construction permit for a new station at Poplar Bluff, Missouri, to operate on 1310 kilocycles, 100 watts power and daytime operation.

Examiner Robert L. Irwin, in Report No. I-482, recommended that the application be granted. He found that the applicants were qualified to construct and operate the proposed station, that there is need for daytime service in the area, that the site and equipment are satisfactory and that the granting of the application will serve the public interest, convenience and necessity.

NEW NORTH CAROLINA STATION

The Hickory Broadcasting Company has applied to the Federal Communications Commission for a construction permit for a new station at Hickory, North Carolina, to be operated on 1370 kilocycles, with 100 watts power and daytime operation.

Examiner Robert L. Irwin, in Report No. I-483, recommended that the application be granted, subject to the approval by the Commission of a satisfactory transmitter site. He stated that there was need for daytime service in that area, that there would be no objectionable interference with existing stations during the greater part of the day, that the applicants are in all respects qualified to construct and operate the proposed station and that they have indicated their willingness to locate the transmitter at an approved site.

NEW MASSACHUSETTS STATION RECOMMENDED

John W. Haigis applied to the Federal Communications Commission for a construction permit for a new station at Greenfield, Mass., of 250 watts power to operate daytime on 1210 kilocycles.

Examiner Tyler Berry in Report No. I-484 recommended that the application be granted. He found that the applicant is qualified to construct and operate the proposed station, that there is need for daytime service in the area and that no objectionable interference is expected to the service of existing stations.

APPELLATE COURT UPHOLDS FCC GRANT

The United States Court of Appeals for the District of Columbia affirmed the action of the Federal Communications Commission which had on May 1, 1936, granted a construction permit to the Portland Broadcasting System, Inc. for a new station at Portland, Maine, to operate on 640 kilocycles, with 500 watts, limited time, using directional antenna. Pursuant to the mandate of the Court, the Commission directed that the C. P. be issued to the Portland Broadcasting System, Inc.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3211 and 3212. Use of lottery methods in the sale of miscellaneous merchandise is alleged in two complaints, one against Jack Rosenfeld, 2316 Locust St., St. Louis, trading as J. Rose & Co., and the other against James I. Silver, 2868 Elston Ave., Chicago, trading as Silver Manufacturing Company, Silver Sales Company, and World-Wide Radio Company.

Rosenfeld sells candy, radios, lamps, clocks and watches. Silver deals in the same articles, and also in silverware, fountain pen and pencil sets, bedding, luggage, dishes, electric fans and cameras.

The complaints allege that both respondents employ various merchandising plans, in accordance with which they furnish customers with pushcards, punchboards or pullcards which enable purchasers of chances to win prizes by selecting certain numbers or feminine names appearing on the devices. It is alleged that distribution of merchandise in this manner is made wholly by lot or chance, and constitutes a practice long deemed contrary to public policy.

The complaint against Silver charges that through use of his trade name, Silver Manufacturing Company, and by other means, he represents that he is a manufacturer, when, in fact, he neither owns nor operates a factory and does not make the merchandise sold by him.

In newspapers and magazines, Silver allegedly advertises that certain of his radios are free, that salesmen make money giving them away, and that persons purchasing them save 50 per cent, when according to the complaint, these representations are false.

No. 3213. A complaint has been issued charging The Paradise Company, 325 West Ohio St., Chicago, with certain unfair methods of competition in promoting the sale of cosmetics and toilet preparations by conducting prize contests.

Other respondents named in the complaint are Albert L. Bisson, president of the corporation; Sylvan B. Heininger, secretary-treasurer; Martha A. Boeing, a director, and Leta M. Clanton and G. G. Grant, stockholders.

The complaint alleges that the prize contests are not bona fide contests calculated to promote the taking of orders for the respondent company's merchandise and to reward those who have taken the most orders. The contests allegedly are merely sales
promotion schemes by which contestants are induced, through alleged misleading representations, to make outright purchases of merchandise, which result in, in many cases, they have goods on hand which they cannot use or resell.

No. 3215. Cherry Specialty Company, 4722 Augusta Boulevard, Chicago, is charged in a complaint with selling to dealers assortments of candy, by means of the use of a lottery scheme when resold to ultimate consumers.

According to the complaint, the assortments are composed of 24 one-pound boxes of candy, together with an electric lamp and a display circular.

It is alleged that the lamp is to be given as a prize to the purchaser of one of the boxes of candy, while the circular is for use of the retail dealer in disposing of boxes of candy by a sales plan involving a game of chance, lottery scheme or gift enterprise.

No. 3216. J. W. Pinus and J. Dan Silver, copartners trading as the Novelatrophic Company, 1534 Center Ave., Pittsburgh, are charged in a complaint with using lottery methods to promote the sale of candy and chewing gum. Lou Roth, manager of the business conducted by the partnership, also is named as a respondent.

The respondents are alleged to sell to dealers for resale, assortments composed of a number of pieces of candy of uniform shape and size, together with other merchandise. According to the complaint, an ultimate purchaser who selects a piece of candy with a center colored differently from the centers of the majority of pieces wins an article of merchandise as a prize.

Substantially the same method is used in the sale of chewing gum, the complaint alleges, except that pennants are specified as the prizes to be awarded purchasers who select a stick of gum having a color different from that of the majority of sticks.

No. 3517. Use of certain false and misleading representations in connection with the sale of Kondi Worm Specific and Conditioner, a medicine for dogs, is alleged in a complaint issued against J. E. Miller, Atlanta, Ga., trading as Kondi Company.

Advices in newspapers, magazines, on labels, and otherwise the respondent, the complaint alleges, falsely represents that his preparation is “doing wonders” as a conditioner for dogs and will positively expel or destroy all intestinal parasites, including hook, tape and round worms, in from 5 to 30 minutes; that it is an effective and safe treatment for distemper and is effective in treating dogs for barking or fright fits and a run-down state, which conditions, the respondent represents, are indicated by dull eyes, pale mouth membranes, rough coat, and other symptoms.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 1772. An order to cease and desist entered against Heidelberger Confectionery Company, 1720 North Second St., Philadelphia, has been vacated and set aside, and amended and supplemental complaint has been issued. The company is engaged in the manufacture and sale of candy.

The original complaint charged the respondent company with use of the so-called “break and take” lottery method in promoting the sale of candy, and the order, now vacated and set aside, prohibited such practice as constituting unfair competition in violation of Section 5 of the Federal Trade Commission Act.

The amended and supplemental complaint contains the same allegation, and, in addition, charges the respondent company with employing other lottery schemes in connection with the sale of its products, among which is the use of pushcards.

No. 3101. Certain unfair methods of competition in the sale of medicinal preparations are prohibited under an order to cease and desist against Oliver L. Von Babelke, 2488 North Halsted St., Chicago, trading as H. Shade's Laboratories and as Bureau of Education, H. Shade's Laboratories. The products sold by the respondent are Shade's Cones, Shade's Suppositories and Shade's Antiseptic Powder, represented by him to be preparations for use in the treatment of ailments peculiar to women.

The respondent is barred from representing that his products are safe for general use and efficacious in the treatment and cure of those diseases or ailments arising out of so-called problems of feminine hygiene.

No. 3168. Clement A. DeGrace, trading as Social Security Counselors, Davis Building, Portland, Ore., has been ordered to cease and desist from certain unfair methods of competition in the sale of correspondence courses of instruction designed to educate students for positions in the United States Government.

Representing, through use of the words “Social Security Counselors” or otherwise, that the respondent is connected with the United States Social Security Board or the United States Government, is ordered discontinued.

Stipulations

The Commission has entered into the following stipulations:

No. 01846. Under a stipulation, Eli Sperry Leffler, 741 Walnut Ave., St. Louis, agreed to stop false and misleading advertising in selling Bromo-Phos. Original preparation offered as a remedy for the ill-effects of over-indulgence in food and drink and for stomach disorders and other ailments. The respondent operates his business under the trade name Bromo-Phos.

Four dealers have entered into stipulations to discontinue false and misleading advertising in connection with the interstate sale of medicinal preparations.

No. 01848. R. Schiffmann Company, 1734-36 North Main St. at Gibbons St., Los Angeles; Asthmador, Nasaldor and Expectorant for hay fever, asthma, nose colds, head colds, and nasal irritations. This respondent agrees to discontinue using the word “laboratories” in his trade name until such time as he actually owns or operates a laboratory.

No. 01851. Frank A. Urban, 149 Metropolitan Ave., Brooklyn, trading as Novogen Laboratories; Aidone Tablets, for headaches, neuralgia, colds and muscular pains. The respondent stipulates that he will cease using the word “laboratories” in the trade name under which his product is marketed.

FEDERAL COMMUNICATIONS COMMISSION ACTION

The Broadcasting Division took the following actions subject to ratification at its next regular meeting:

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KEHE and auxiliary, Los Angeles; KHQ, Spokane, Wash.; KJM, Fresno, Calif.; KATR, Los Angeles; KOMO and auxiliary, Seattle; KSEJ Pocatello, Idaho; KUSD, Vermillion, S. Dak.; KVI, Tacoma, Wash.; KVOD, Denver, Colo.; WDAF, Kansas City, Mo.; WELI, New Haven, Conn.; WFMF, Frederick, Md.; WIP, Philadelphia; WJAR and auxiliary, Providence, R. I.; WKY, Oklahoma City, Okla., and auxiliary WMMN, Fairmount, W. Va.; WOR, Cedar Rapids, Iowa; WQAM and auxiliary, Miami, Fla.; WREC, Memphis, Tenn.; WSVB, Harrisonburg, Va.; WTAD, Quincly, III.; WTAG, Worcester, Mass., and auxiliary; WTMJ, Milwaukee, Wis.; WWJ, Detroit, Mich.; WCHS, Charleston, W. Va.; WGBI and auxiliary, Scranton, Pa.; WMC, Memphis, Tenn.; WPEN, Philadelphia, Pa., and auxiliary; WTAR and auxiliary, Norfolk, Va.; KLZ, Denver.

KGFI—Eagle Broadcasting Co., Inc., Corpus Christi, Tex.—Granted renewal of license for the period ending January 1, 1938.

KFBI—The Farmers & Bankers Broadcasting Corp., Abilene, Kans.—Granted renewal of license for the period ending February 1, 1938.

KGBU—Alaska Radio & Service Co., Inc., Ketchikan, Alaska.—Present license extended on a temporary basis only for the period ending October 1, 1937.

The following station licenses were extended on a temporary basis only for the period ending October 1, 1937, pending receipt and/or action on applications for renewal:

WPLA, Clearwater, Fla.; WXW, Jacksonville, Fla.; WLRL, Stevens Point, Wis.; WAMX (auxiliary), Mobile, Tenn.; WSUN, St. Petersburg, Fla.

MISCELLANEOUS

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted special temporary authority to operate from 11 to 11:30 a. m., DST, August 28 to September 4, inclusive, excepting
Sunday; 2 to 4 p. m., DST, September 1 to September 11, daily except Sunday; 7 to 9 p. m., DST, September 1 to 11, daily except Friday, Saturday and Sunday, to broadcast events of Champlain Valley Fair, Essex Junction, Vt., and sponsored Northern League baseball games; and from 7 to 8 p. m., DST, September 11 to 30, inclusive, to broadcast sponsored sports reviews.

W3XJ—Walter Hay and Chambers, Washington, D. C.—Granted extension special temporary authority to extend testing period of experimental broadcast station by additional time 6 a. m. to 10 a. m., EST, on mornings beginning August 27 and ending September 4, 1937, inclusive. Station to operate simultaneously with broadcast station WBNY for the purpose of making measurements.

WTOL—Community Broadcasting Co., Toledo, Ohio.—Granted special temporary authority to operate a 100-watt test transmitter on 1290 kc. between hours of 12 midnight and local sunset, for a period August 28 to September 7, 1937, inclusive, between 1 and 5:45 p. m., EST, provided power does not exceed 50 watts and no interference is caused to stations maintaining regular schedules.

WBNY—Roy L. Albertson, Buffalo, N. Y.—Granted extension of special temporary authority to operate over WBNY for the period ending January 1, 1938.

KDYL—Intermountain Broadcasting Corp., Salt Lake City, Utah.—Granted special temporary authority to operate a portable test transmitter on 1290 kc. between hours of 1 and 6 a.m., MST, for period August 28 to September 11, 1937, in order to conduct location survey tests.

KNX—Columbia Broadcasting System, Inc., Los Angeles, Calif.—Granted special temporary authority to rebroadcast over station KNX, program from U. S. Coast Guard ship Aurora from 4:30 to 4:45 p. m., PST, September 7 to 11, inclusive, in connection with Pacific Coast Championship Yachting Regatta.

KGDY—Voice of So. Dakota, Huron, S. Dak.—Granted extension of special temporary authority to remain silent for the period, September 1 to September 30, 1937, inclusive, for the purpose of rebuilding transmitter to comply with Rule 132.

KFDY—South Dakota State College, Brookings, S. Dak.—Granted special temporary authority to remain silent September 6 to 17, in order to observe Labor Day Holiday.

KSFO—The Asso. Broadcasters, Inc., San Francisco, Calif.—Granted special temporary authority to operate old transmitter as auxiliary without an approved frequency and modulation monitor, for period beginning August 28 to September 26, 1937, during program tests.

WAHJ—The Champaign News-Gazette, Inc., Champaign, Ill.—Granted special temporary authority to operate a mobile low frequency relaybroadcast transmitter on frequencies 1666, 2022, 2102, 2758 kc., 100 watts, for period August 31 to September 3, 1937, to relay broadcast program originating from Piatt County Fair in Monticello, Ill.

WWJ—The Evening News Assn., Detroit, Mich.—Granted extension special temporary authority to operate for the period September 1 to 30, 1937, with increase in night power to 4 KW, to overcome interference.

W4XFG—The National Life & Accident Ins. Co., Inc., Nashville, Tenn.—Granted special temporary authority to operate a mobile high frequency relaybroadcast transmitter on frequency 31100 kc., 2 watts, on September 1, to relay broadcast program originating before the Commission.

KOAC—Oregon State Agr. Colleage, Corvallis, Ore.—Granted extension special temporary authority to operate from 8 a. m. to 2:30 p. m. and from 6:30 to 8 p. m. PST, during month of September, 1937 (instead of unlimited time as originally granted in order to observe summer vacation).

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted extension special temporary authority to operate with power of 50 watts from local sunset (September, 6:15 p. m. EST) to 11 p. m. EST, Tuesdays, Thursdays, Saturdays, and Sundays, for period September 2 to September 30, 1937, pending compliance with Rule 131 on modification of license.

WSUI—State Univ. of Iowa, Iowa City, Iowa.—Granted special temporary authority to operate a minimum of six hours daily instead of unlimited time, for the period September 1 to 27, 1937, inclusive, in order to observe summer vacation at State University of Iowa.

WCBD—WCBD, Inc., Chicago, Ill.—Granted extension of special temporary authority to rebroadcast WMBI for the period September 1 to September 30, 1937, inclusive, pending repair to WCBD's transmitter, which was destroyed by fire.

W9XPU—WDZ Broadcasting Co., Tuscola, Ill.—Granted special temporary authority to operate relay broadcast station with 30 watts using equipment specified in C. P., for period August 30 to September 28, 1937, for relay broadcast description of a dance marathon to be rebroadcast over WDZ.

WRUF—Univ. of Fla., Gainesville, Fla.—Granted extension of special temporary authority to rebroadcast the Navy time signals from Arlington for the period August 31, 1937 to February 1, 1938.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to increase power to 1 KW night in order to counteract interference caused by station CMX, Havana, Cuba, and WWJ, Detroit, and KPRC, Houston, for the period September 1 to 30, 1937.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to rebroadcast over KFNF the Naval Observatory Time signals, at 11 a. m. CST, daily, except Sunday, for period September 1, 1937, to February 1, 1938.

WDZ—WDZ Broadcasting Co., Tuscola, Ill.—Granted extension of special temporary authority to operate from 5 to 6 a. m. CST for the period August 31 to September 29, 1937, in order to reach the farmers in the territory surrounding station who are in their fields during summer months by 5 a. m.

WMBO—Joseph Husid, Receiver for Metropolitan Broadcasting Corporation, Brooklyn, N. Y.—Granted extension of special temporary authority for Joseph Husid, Receiver, to operate station for period September 1 to September 30, 1937, pending action on any applications affecting station WMBO.

WAFF—Drovers Journal Publishing Co., Chicago, Ill.—Granted extension special temporary authority to operate from 5 to 6 a. m., CST, from September 1 to September 25, 1937, in order to conform with the adoption of Daylight Saving Time in Chicago.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension special temporary authority to operate on 560 kc., with 1 KW at night, for period September 1 to September 30, 1937, inclusive, pending filing of and action on license application to cover C. P. for this authority.

WCFO—Pensacola Broadcasters Co., Pensacola, Fla.—Granted modification of C. P. approving transmitter site and vertical radiator.

WKNR—Wide Area Radio Service, Winona, Minn.—Granted modification of C. P. to move transmitter and studio locally, extend commencement date to 45 days after grant and completion date to 180 days thereafter.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted renewal of license on a temporary basis subject to whatever action may be taken by the Commission upon the application of WPEN.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted renewal of license for auxiliary transmitter on a temporary basis subject to whatever action may be taken by the Commission upon the application of WPEN.

WGRG—Northside Broadcasting Corporation, New Albany, Ind.—Granted extension of special temporary authority for a period of one month from September 1, 1937, on a temporary basis only, subject to such action as may be taken upon application for renewal pending before the Commission.
HEARING BEFORE AN EXAMINER
(Broadcast)

KJO—R. S. Bishop, Transferor and Mrs. Ruth G. Roosevelt, Transferee, Fort Worth, Texas—Authority to transfer control of corporation. 1370 kc., 100 watts, 250 watts LS, unlimited time.

KABJ—Ex. Rep. 1-481: Aberdeen Broadcast Co., Aberdeen, S. Dak.—Examiner R. H. Hyde recommended grant of C. P. to change frequency from 1420 kc. to 1390 kc.; increase power from 100 watts to 500 watts night, 1 KW LS. 

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Ex. Rep. 1-480: Robert Raymond Mc Cullo, Oak Park, Ill.—Examiner Tyler Berry recommended denial of C. P. for new station to operate on 1500 kc., 100 watts, unlimited time.

EXAMINER'S REPORT No. 1-391:
NEW—Frontier Broadcasting Co., Cheyenne, Wyo.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited time.

EXAMINER'S REPORT No. 1-395:
NEW—The Journal Co. (The Milwaukee Journal), Milwaukee, Wis.—C. P., 1570 kc., 1 KW, unlimited time.

EXAMINER'S REPORT No. 1-397:
NEW—The Metropolis Co., Jacksonville, Fla.—C. P., 1290 kc., 250 watts, unlimited time.

HEARING BEFORE AN EXAMINER
(Broadcast)

KOBH—Black Hills Broadcast Co. (Robert Lee Dean, Pres.), Rapid City, S. Dak.—Voluntary assignment of license to Black Hills B/c Co. of Rapid City; 1370 kc., 100 watts, unlimited time.
Friday, September 10

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Thomas J. Watson, Endicott, N. Y.—C. P., 1240 kc., 1 KW (day-night), unlimited time.

NEW—Radio Station WFNC, Fayetteville, N. C.—C. P., 1240 kc., 500 watts, unlimited time.

WGNY—Peter Goelet, Newburgh, N. Y.—C. P., 1210 kc., 100 watts, 250 watts LS. Share WBRB, WFAS and WGBB.

APPLICATIONS RECEIVED

First Zone

WOR—Bamberger Broadcasting Service, Inc., Newark, N. J.—710 Special experimental authorization to operate a facsimile station from 2 a. m. to 6:30 a. m., using 5 KW power.

WSNJ—Eastern States Broadcasting Corp., Bridgeport, N. J.—1210 License to cover construction permit (B1-P-529) as modified, for a new station.

WNBZ—Earl J. Smith & Wm. Mace, d/b as Smith & Mace, Saranac Lake, N. Y.—License to cover construction permit (B1-P-1546) for equipment changes.

NEW—Utica WUTK Incorporated, Utica, N. Y.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, specified hours. Amended: To make changes in equipment, change power from 100 watts night, 250 watts day to 100 watts and change hours of operation from specified hours to daytime only.

Second Zone

NEW—WAVE, Incorporated, Louisville, Ky.—Construction permit for a new station to be operated on 610 kc., 250 watts night, 500 watts day, unlimited time. Amended: To make changes in transmitting equipment, install directional antenna for day and night use, change requested frequency from 610 kc. to 880 kc., and power from 250 watts night, 500 watts day to 500 watts night and day.

Third Zone

WJDX—Lamar Life Insurance Co., Jackson, Miss.—Modification of construction permit (B3-P-1584) for changes in equipment, new antenna and increase in power, further requesting changes in equipment and extension of commencement and completion dates.

Fourth Zone

KANS—The KANS Broadcasting Co., Wichita, Kans.—Authority to transfer control of corporation from Charles C. Theis to Herbert Hollister (48 shares common stock) and Don Searle (49 shares common stock).

KDLR—KDLR, Incorporated, Devils Lake, N. Dak.—License to cover construction permit (B4-P-1790) for move of transmitter and installation of vertical antenna.

KROC—Southern Minnesota Broadcasting Co., Rochester, Minn.—Construction permit for a new station to be operated on 920 kc., 1 KW night, 5 KW day, unlimited time. Amended: To change the frequency of KROC from 1510 kc. to 920 kc., install a new transmitter, increase power from 100 watts night, 250 watts day to 250 watts day and 500 watts night, 1 KW day, install directional antenna for night use and move transmitter locally.

NEW—N. B. Egeland, Roland, Iowa.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, specified hours. Amended: To make changes in equipment, change power from 100 watts night, 250 watts day to 100 watts and change hours of operation from specified hours to daytime only.

Fifth Zone

KSFO—The Associated Broadcasters, Inc., San Francisco, Calif.—Authority to determine operating power by direct measurement of antenna.

KSFO—The Associated Broadcasters, Inc., San Francisco, Calif.—License to cover construction permit (B5-P-1512) as modified for a new transmitter, vertical antenna, and move of transmitter.

NEW—Wyoming Broadcasting Co., Rock Springs, Wyo.—Construction permit for a new station to be operated on 1370 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Union-Tribune Broadcasting Co., San Diego, Calif.—Construction permit for a new station to be operated on 1480 kc., 5 KW, unlimited time.

NEW—R. C. Atwood Port Angeles, Wash.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time.
NAB BOARD OF DIRECTORS MEETING

The Board of Directors of the National Association of Broadcasters will meet at the Hotel St. Regis, New York City, Friday, September 10.

NEW FCC RULE ON 550 KC.

The Communications Commission and the Navy Department have conferred with respect to the use of 550 kilocycles to avoid interference with naval communication activities. In a press release dated September 7 (22835), it is reported that the Commission hereby announces the following policy with respect to licensing broadcast stations on this frequency:

“No station will be licensed with greater night power than 1 kilowatt, or day power greater than 5 kilowatts, on 550 kilocycles. No application for a new broadcast station or increase in power or time of operation of an existing station will be considered which is located at a distance less than 300 miles from the nearest coast of the United States, unless approval of the Navy Department is submitted in writing with the application. No new station or increase in power or time of operation of an existing station will be authorized which is located at a distance from 300 to 500 miles from the nearest coast, unless approved by the Navy Department.

“The above mileages may be decreased if it is shown that a signal intensity of not greater than 100 microvolts per meter will result at the nearest coast or point of naval communications activities. In case a directional antenna is used that increases the signal toward the coast, the mileage may be increased until not more than 100 microvolts per meter result at the nearest coast or point of naval communication activities.”

JACK RADCLIFFE—JACK GORDON

Anyone knowing the present whereabouts of Jack Radcliffe, sometimes known as Jack Gordon, an announcer between 25 and 30 years of age with a slight Scotch burr, is requested to communicate immediately with Reginald B. Martin, Station Manager, KFAB-KFOR, Lincoln, Nebraska.

FCC DENIES FIVE NEW APPLICATIONS

The Broadcast Division of the Federal Communications Commission denied applications for five new stations effective August 31, 1937, as follows:

DENIED Loyal K. King, application for new station at Pasadena, California, 1480 kc., 250 watts, daytime.
DENIED Hannibal Broadcasting Company, application for new station at Hannibal, Mo., 1310 kc., 100 watts, unlimited time.
DENIED The Courier-Post Publishing Company, application for new station at Hannibal, Mo., 1310 kc., 100 watts, 250 watts LS, unlimited time.
DENIED Advertiser Publishing Company, Ltd., application for new station at Honolulu, T. H., 1370 kc., 100 watts, unlimited time.
DENIED Fred J. Hart, application for new station at Honolulu, T. H., 600 kc., 250 watts, unlimited time.

SOCIAL SECURITY TAX RESPONSIBILITY

The Bureau of Internal Revenue of the Treasury Department has issued the following ruling relative to the status of musicians under the Social Security Act:

“1. The status under Titles VIII and IX of the Social Security Act of musicians generally, and particularly with respect to musicians engaged under contract forms and procedure prescribed by the various local unions of the American Federation of Musicians, has been considered by the Bureau.

“2. The purpose of this mimeograph is to clarify the matter of the application of the Social Security taxes with respect to the relationship which exists between so-called “contractors,” musicians, and “purchasers” of music, and to set forth certain distinctions between so-called “non-name” orchestras and “name” orchestras.

“3. The method of engaging union musicians to perform services for “purchasers” of music and the facts bearing upon the resulting relationship, appear to be sub-

The practice of engaging musicians exclusively through a so-called "contractor" has become general throughout the country. In fact, in an overwhelming majority of localities, this practice is by prescription of both the American Federation of Musicians and local union regulations. This practice has originated out of the assistance which it affords to a "purchaser" of music who is thus enabled to deal with only one out of the number of musicians required and also in the convenience which it furnishes to the union in enforcing its regulations. The term "contractor," as used in the musical vocation, designates that individual musicians through whom, in any particular case, the party wishing to purchase music (the "purchaser") and the parties wishing to supply such music (the musicians) conduct their reciprocal affairs, including the negotiation and performance of the contract by both parties. In a few localities there are no "contractors," as such, their place being taken by the local union which supplies the musicians to the "purchaser."

"The status of "contractor" is not fixed, either as to the occupancy or as to duties. Any musician who is a member of the American Federation of Musicians may serve as a "contractor." Having served as a "contractor" for a particular engagement, he may, upon his next engagement, perform only musical services under a contract negotiated by another musician serving as "contractor." It should be noticed that a "contractor" may or may not perform musical services under a contract which he has negotiated. In general, the "contractor" has the sole right of all the musicians to negotiate the contract for musical services, select the musicians upon the engagement (on behalf of the "purchaser"), and discharge the musicians (also on behalf of the "purchaser"). Other incidents of the status include the duty to pay the individual musicians (on behalf of the "purchaser"), the power to require conformance with the requirements of the contract on the part of the musicians, and primary responsibility to the union for the satisfactory performance of the engagement. In some cases the "contractor" directs the artistic quality of the musical services by serving as "leader." In other cases the duty to direct is vested entirely in another musician.

"The minimum compensation of both the "contractor" and the musicians is fixed in accordance with the union scale. In some cases, the contract to furnish musicians designates the exact amount to be received by the "contractor" and individual musician. In many cases, the contract expresses only a lump sum consideration which may or may not be in excess of the union scale. In most such cases where payment is made in a lump sum, the "contractor" receives only his proportionate part in accordance with union regulations; in others, however, the "contractor" or even individual musicians may receive compensation in excess of the wages received by the remainder of the members of the orchestra. In these cases, the excess sums paid to the "contractor" or other musicians are based on superior ability. In every case where the "contractor" performs as a musician, the minimum rate of his compensation is set variously according to locality at from 10 per cent to 100 per cent higher than the minimum rate set for other musicians.

Under contracts in which "contractors" appear, the "purchaser" has the right to select specific musicians (although in certain localities this right does not exist), even though the "purchaser" may not always, or even usually, exercise this right. He further has the right to require that a certain type of music be played. He invariably furnishes the place where the contract shall be performed. He designates the hours of performance, and, in addition, even controls times for intermissions so as to coordinate the performance of music with his other activities; such as, the sale of food and drinks or the rendition of other artistic performances. In addition, he has the right to discharge individual musicians in the event of a material breach of their contract. In the case of the engagement of musicians and of their discharge, this right in the "purchaser" may be exercised through the "contractor" as the "purchaser's" agent.

The musicians performing under such a contract do not have any permanent organization or standing, nor is their personnel fixed beyond the particular engagement.

"4. In the light of its consideration of the foregoing circumstances attaching to the relationship existing between and among "contractors," musicians, and "purchasers" of music, it is the opinion of the Bureau that the "purchaser," under such or similar circumstances, retains a sufficient measure of the power to direct and control the performance of the contract as to render him the employer of the individual musicians, including the "leader," if any. Also on the basis of these considerations, it is the opinion of the Bureau that the "purchaser" has sufficient direction and control over the conduct of the "contractor" himself as to render the "purchaser" the employer of such "contractor" except in the case where the "contractor" performs no musical services. In a case where the "contractor" renders no musical services to the "purchaser," it is the opinion of the Bureau that the "purchaser" is the employer of the individual musicians, including the "leader," if any, but not of the "contractor."

"5. You are, therefore, advised that the ruling S. S. T. 47 published in C. B. XV-2, 409 (1936), should not be followed in the case of "contractors" and musicians per-
performing services under the circumstances set forth above. However, such ruling is generally applicable in cases where individuals are performing services in a so-called “name” orchestra, since it is the opinion of this office that normally individuals performing in so-called “name” orchestras are employees of the orchestra “leaders” within the meaning of Titles VIII and IX of the Social Security Act.

“6. It should be noticed, however, in this connection, that the determination of whether any particular group of musicians constitutes a so-called “name” orchestra will not rest upon the mere adoption of a name by such organization. The chief characteristic distinguishing a “name” orchestra from a “nonname” orchestra is the permanency of the organization and the personnel performing in the orchestra. In general, an orchestra will be considered a “name” orchestra when, in addition to being designated by a name, it has a fixed personnel extending from engagement to engagement and holds itself out to the public as a permanent business organization. “Name” orchestras may also be distinguished from other orchestras where the “leader” of the orchestra contracts with the members thereof for their services at a fixed salary, either by term or by engagement, and where the “leader” is liable for the payment of such salary without reference to the discharge of the “purchaser’s” obligation. In the case of a “name” orchestra, the “leader” of the orchestra and not the “purchaser” can select and discharge the members of the orchestra and the “leader” alone controls and directs their conduct.

“7. No single factor should afford the basis of determining that an orchestra either is or is not a “name” orchestra. Whether or not a particular orchestra is a “name” orchestra may be difficult to determine in some cases. Accordingly, in any case upon which a ruling is desired, a request therefor should be accompanied by information sufficiently detailed and complete to enable this office to make a determination upon consideration of the above-mentioned factors and application of the foregoing tests.”

GUY T. HELVERING,
Commissioner of Internal Revenue.

FCC DISMISSES NEW CALIFORNIA APPLICATION

The Broadcast Division of the Federal Communications Commission this week dismissed with prejudice the application of Salinas Newspapers, Inc., for a construction permit for a new station at Salinas, California, to operate daytime on 1390 kilocycles with 250 watts power.

RECOMMENDS AGAINST NEW NEW MEXICO STATION

Earle Yates applied to the Federal Communications Commission for a construction permit for a new station at Las Cruces, New Mexico, to operate on 930 kilocycles with power of 500 watts, daytime only.

Examiner George H. Hill in Report No. I-494 recommends that the application be denied. He states that although the applicant is qualified to construct and operate the proposed station and no interference would be caused to any existing station, that objectionable interference would result if a pending application for a new station at El Paso, Texas, is granted, that it is doubtful if sufficient local talent is available and that the population of the area is too small to provide adequate commercial support for the operation of the proposed station.

RECOMMENDS ADVERSELY ON ILLINOIS AND PENNSYLVANIA APPLICATIONS

Abraham Plotkin and the Philadelphia Radio Broadcasting Company each applied to the Federal Communications Commission for a construction permit for a special broadcasting station to operate in Chicago, Ill., and Philadelphia, Pa., respectively, on 1570 kilocycles, with 1000 watts and unlimited hours.

As both applicants wanted the same frequency, power and hours of operation, Examiner R. H. Hyde conducted a joint hearing and issued a joint report (No. I-493). Abraham Plotkin failed to appear for hearing and no evidence was submitted in support of his application so Examiner Hyde recommended that his application be dismissed with prejudice.

The Examiner also recommended that the application of the Philadelphia Radio Broadcasting Company be denied. He pointed out that the research objectives outlined by the applicant, one of the prerequisites for granting a special broadcast license, were too general and indefinite, that the project appeared to be essentially a business enterprise for profit and not an experimental undertaking, and that the provision for employment of an engineering staff was not such as would permit carrying out a program of research and experimentation.

50 KW RECOMMENDED FOR WWL

Broadcasting Station WWL, New Orleans, La., operating on 850 kilocycles with specified hours, applied to the Federal Communications Commission for a construction permit to increase its power from 10 kilowatts to 50 kilowatts.

Examiner George H. Hill in Report No. I-491 recommended that the application be granted. He stated that there is a need for additional service in the area proposed to be served, that the only interference will be with Station WKAR, East Lansing, Mich., and that this will occur only in the late afternoon hours and in the very outer portions of that station’s useful service area. He also observed that the operation of WWL with the increased power would tend to further limit the service of Station XEFE, Nuevo Laredo, Mexico.
RECOMMENDS AGAINST NEW CALIFORNIA STATION

Warren B. Worcester applied to the Federal Communications Commission for a permit to construct a new broadcasting station at San Diego, Calif., to operate on 1400 kilocycles with power of 250 watts night and 1 kilowatt until local sunset, unlimited time.

Examiner George H. Hill in Report No. I-490 recommends that the application be denied. He found that there are now two regional stations located in San Diego rendering primary service in that area and that there appears to be no substantial need for another regional station in that city. He pointed out also that the proposed station would cause and be subject to objectionable interference from Station KLO, Ogden, Utah, and that severe interference would result should the pending applications of Stations KDON and KLO be approved.

NEW OHIO STATION RECOMMENDED

William F. Maag, Jr., applied to the Federal Communications Commission for a construction permit for a new broadcasting station at Youngstown, Ohio, to operate daytime on 1420 kilocycles, with 100 watts power.

Examiner John P. Bramhall in Report No. I-492 recommended that the application be granted. He stated that the applicant is fully qualified to construct and operate the proposed station, that a definite need for additional daytime service in the area has been shown and that interference will not be caused to existing stations. He added that the grant should be subject to selection of a transmitter site satisfactory to the Commission.

WKBH RENEWAL AND TRANSFER RECOMMENDED

Broadcasting Station WKBH, La Crosse, Wisc., applied to the Federal Communications Commission for a renewal of its license and for authority to transfer control of the corporation, WKBH, Inc., to Harry Dahl.

Examiner George H. Hill in Report No. I-495 recommended that the application be granted. He found that while the failure of the applicants to report the sale of capital stock of WKBH, Inc., was irregular and may have been a technical violation of Section 310, that there was no evidence of concealment or lack of good faith, the larger sale having been between existing stockholders of the corporation and smaller sales having been made to three local business firms. He stated further that following the sale of stock and change in management, greatly improved service was rendered, new equipment installed, employees' salaries increased and programs improved; that WKBH is the only station licensed to operate in the La Crosse area and to refuse a renewal would deprive the locality of meritorious service now being rendered it.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3219. Unfair methods of competition, including the use of lotteries or gift enterprises, in connection with the sale of clocks are alleged in a complaint issued against Irwin Scadron, 416 West Erie St., Chicago, trading as Metropolitan Distributing Company.

The respondent is charged with supplying dealers and customers with pushcards, the use of which involves the distribution of clocks to ultimate purchasers wholly by lot or chance. The pushcard is alleged, permits the drawing of a clock through selection of a name from among a group of names.

No. 3220. Gus Stephens, 809 West Madison St., Chicago, trading as Tested Specialties Company, is charged with unfair methods of competition in connection with the sale of medicine for use in the treatment of dogs, cats and all fur-bearing animals. The medicine is designated "On the Nose" and is to be applied by rubbing on the noses or lips of animals.

In advertising this preparation in newspapers, magazines, on labels and otherwise, the respondent allegedly represents, contrary to the fact, that "On the Nose" is effective in the treatment of disemoter and works miracles every day, saving thousands of dogs doomed by so-called incurable afflictions; cures coughs and colds and builds up resistance against infectious diseases; is a general conditioner and a preventive of diseases, and is efficacious as a dewormer.

No. 3222. False and misleading representation of a product advertised as a waterproofing material is alleged in a complaint issued against The Lumino Company, Inc., 515 Madison Ave., New York, manufacturer of Lumino. This product allegedly was advertised as being capable of waterproofing interior or exterior surfaces made of brick, concrete, cement or stucco. However, the complaint alleges, Lumino is not a true water-proofing material and will not cause brick and other surfaces to become impervious to water or dampness when applied as directed.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2513. Trading as Pigro Chamois Company, Harry Nelvert, Gloversville, N. Y., has been ordered to cease and desist from representing that leather products sold by him are made from chamois when they are not manufactured from the skin of the Alpine antelope, commonly known as chamois, or from fleshers or under-splits of sheepskin straight oil-dressed or tanned without the use of alum, chrome or formaldehyde.

No. 3064. Trade Laboratories, Inc., 412 Halsey St., Newark, N. J., and its officers have been ordered to cease and desist from certain unfair methods of competition in connection with the sale of dental, shaving and facial creams and similar commercial preparations and toilet articles.

The order directs the respondents to cease representing, by marking an exaggerated or fictitious price upon the cartons in which their articles are sold, that the prices so marked are the regular or customary retail prices at which such products are usually sold or offered for sale.

Nos. 3023 and 3046. Two Chicago concerns, Illinois Baking Corporation, 2230 South Union Avenue, and Milko Cone & Baking Company, Inc., 431 North Lincoln St., have been ordered to cease and desist from selling and distributing to dealers ice cream cones so packed and assembled that sales of such cones to the general public are to be made, or may be made, by means of a lottery scheme.

The respondent companies are ordered to discontinue furnishing to dealers printed slips, either with assortments of ice cream cones...
or separately, a small number of which slips bear legends informing the purchasing public that an article of merchandise will be awarded free as a prize.

No. 3124. Prohibiting certain misrepresentations in the sale of their medicinal products; an order to cease and desist has been issued against Wolf Drug Co. and Henry Wolf Wholesale Druggists, Inc., 683 Broad St., Newark, N. J., Charmley Drug Shop, 164 Halsey St., Newark, William Wolf Sales Co., Inc., 27 Park Place, New York, and Henry and William Wolf and William Goldstein, all of Newark and owners of a majority of the capital stock of the respondent companies.

The respondents are directed to cease representing, through the use of the words "Health Institute, Battle Creek, Michigan," or "Health Institute," or "Battle Creek, Michigan," that they own or operate a health institute at Battle Creek, or anywhere else, unless and until they do actually own or operate such a place.

Stipulations

The Commission has entered into the following stipulations:

No. 2938. Under a stipulation, Harold Tanner, 202 Fuller Ave., St. Paul, Minn., trading as Packard Pen Company, will discontinue misrepresenting certain fountain pens he sells by mail order.

Tanner stipulated that he will cease advertising, when such are not the facts, that his pens are of a $3 value or are sold or intended to be sold for such amount in the usual course of trade, and that the certificate referred to and appearing in his advertising matter is worth $2.51 or any other specified amount. According to the stipulation, Tanner advertised that he would send a $3 fountain pen to customers who remitted 49 cents with a certificate.

No. 2939. Charm Silk Undergarments, Inc., 112 Madison Ave., New York, has entered into a stipulation in which they agree to discontinue misbranding women's undergarments.

The company stipulated that in selling its garments it will cease using on labels, or in any other manner, the words "Super Quality Silk" or the word "Silk," without qualification, as descriptive of products not composed wholly of silk but which contain substantial quantities of salts or substances other than silk, such articles being known as "weighted silks."

No. 2010. Entering into a stipulation, Miracle Jel, Inc., 311 East Illinois St., Chicago, and its parent company, Curtiss Candy Co., Chicago, agree to stop certain misbranding practices in the sale of a powder compound alleged to be capable of producing "a close rival to the finest, pure maple syrup," when used as directed.

In advertising this preparation, called Maple Maid, the respondents stipulate they will cease using the word maple, alone or in conjunction with the word maid or with other words, to imply that the product consists of a form of dehydrated maple sap syrup, even though such is not a fact.

No. 01817. Scientific Instruments, Inc., 3410 West 60th St., Chicago, has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of a contraceptive device designated "The Rule of Life."

The company will cease representing, among other things, that its method of contraception is based on a proven natural law and is absolutely reliable, and that the American Medical Association endorses it and recommends it to physicians for use in their practice.

No. 01832. Grace K. Davis, Glendale, Calif., trading as Hollywood Beautifier and selling a skin cleansing device under the same name, has entered into a stipulation to cease representing in advertising matter that by use of her product one may remove cosmetics and dirt from the pores of the skin, keep the skin free from blackheads, blemishes and wrinkles, and beautify the face.

No. 01835. Beauty Tea Corporation, 555 Fifth Ave., New York, selling Beauty Tea, will stop representing that such product provides a sure, safe and reliable weight-reducing method; that it cleanses the system and prepares it for loss of weight, and that it enables one to reduce without resorting to strict diets or exercise. The company also will cease advertising that the blending of the herbs by a secret, scientific principle makes it possible for Beauty Tea to attack the excess fat cells and leave the rest of the body untouched.

No. 01854. Dr. Bud Heermann, Inc., 2300 North Thirtieth St., Milwaukee, engaged in the sale of a preparation called "Treatment for Eczema," stipulated that it will discontinue representing that modern medical science reveals that eczema does not originate in the skin, but is due to a constitutional disorder or an inadequacy of an important glandular organ of the body, and that definite results in the treatment can only be obtained by counteracting the deficiency of such organ. The company will stop advertising that its treatment will banish eczema and produce astonishingly quick relief, or that Dr. Heermann's personal attention is given to every case.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, September 13:

Monday, September 13

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Elwood Warwick Lippincott, Bend, Ore.—C. P., 1310 kc., 100 watts, unlimited.

Tuesday, September 14

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Thomas F. Airth, Wythe Walker and Rex Schepp, d/b as Evanston Broadcasting Co., Evanston, Ill.—C. P., 1020 kc., 750 watts, daytime.

Wednesday, September 15

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Lillian E. Kiefer, Brooklyn, N. Y.—C. P., 1300 kc., 100 watts, 100 watts LS, specified hours (requests facilities of WMBQ).

Commission for the week beginning Monday, September 13:
HEARING BEFORE AN EXAMINER

BROADCAST

WCVS—Massachusetts Broadcasting Corp., Boston, Mass.—Modifications of license, 1130 kc., 500 watts, limited time until LS at KSJ, Salt Lake City.

WMEX—The Northern Corp., Boston, Mass.—C. P., 1470 kc., 5 KW, unlimited time.

KAME—Fred W. Well, Grand Coulee, Wash.—C. P., 1420 kc., 100 watts, 250 watts LS, unlimited.

KAYO—Indianapolis Power & Light Co., Mobile.—Granted C. P. to new station, in transmitting equipment.

KSO—W. A. Patterson, Chattanooga, Tenn.—Granted license to cover C. P. authorizing new transmitter, and increase in power and time of operation from daytime to unlimited, 1420 kc., 100 watts night, 250 watts day.

KXIST—Hagerstown Broadcasting Corp., Hagerstown, Md.—Granted license to cover C. P. authorizing move of transmitter and installation of new vertical radiator.

WLBI—State of Wisconsin, Department of Agriculture and Markets, Stevens Point, Wis.—Granted license to cover C. P. authorizing changes in equipment, move of transmitter, and installation of new equipment and antenna system; frequency 430 kc., 1 KW, unlimited.

KXRO—Aroostook Broadcasting Corp., Presque Isle, Maine.—Granted authority to make changes in automatic frequency control apparatus.

KFRO—Robert K. Herbst, Moorhead, Minn.—Granted voluntary assignment of C. P. from Robert K. Herbst to KVOX Broadcasting Co.; 1210 kc., 100 watts, simultaneous day, S-KRMO equally night.

WKOK—The Sunbury Item, Inc., Sunbury, Pa.—Granted authority to transfer control of Sunbury Broadcasting Corp. from The Sunbury Item, Inc., to George W. Beck, Basse A. Beck, and Harry H. Haddon; 1210 kc., 100 watts night-day, specified hours.

WMAS—WMAS, Inc., Springfield, Mass.—Granted C. P. to move station locally, install new equipment and antenna system.

NEW—Indianapolis Power & Light Co., Mobile.—Granted C. P. for new experimental relay broadcast station, frequencies 31100, 34500, 37500 and 40600 kc., 40 watts, unlimited.

W6XUC—Intermountain Broadcasting Corp. (3 mile radius of KXNO), Salt Lake City.—Granted license to cover same.

KCAL—Intermountain Broadcasting Corp., Mobile, Salt Lake City. Granted application for reinstatement of C. P. granted September 29, 1936, authorizing experimental relay station to use frequencies 1088, 2022, 2102 and 2758 kc., 75 watts. Also granted license covering same.

WAAJ—The Fort Industry Co., Mobile.—Granted modification of C. P. authorizing changes in equipment.

WAAJ—The Fort Industry Co., Mobile.—Granted license to cover C. P. above.

W4XW—WODW Broadcasting Corp., Chattanooga, Tenn.—Granted license to cover C. P. authorizing new transmitter location and new antenna system.

NEW—Ashland Broadcasting Co., Mobile.—Granted C. P. for new high frequency experimental relay broadcast station, frequencies 31100, 34500, 37500 and 40600 kc., 10 watts.

NEW—National Battery Broadcasting Co., Mobile.—Granted C. P. for new low frequency experimental relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 2 watts. Also granted license to move existing station.

KIGA—National Battery Broadcasting Co., Mobile.—Granted C. P. to install new equipment and increase in power from 7.5 watts to 16 watts. Also granted license covering same.

W4XKD—The Ford Industry Co., Mobile.—Granted modification of C. P. and license to cover same, authorizing changes in transmitting equipment.

W4XW—Reading Broadcasting Co., Mobile.—Granted license to cover C. P. for new relay broadcast station to operate on
frequencies 31100, 34500, 37600 and 40500 kc., experimental, 10 kw.

NEW—The Champaign News-Gazette, Inc., Mobile, Champaign, Ill.—Granted C. P. for new experimental relay broadcast station, frequencies 39900, 39600, 39300 and 39000 kc., 10 kw.

W9XPU—WDZ Broadcasting Co., Mobile (Tuscola, Ill.).—Granted C. P. to make changes in equipment and increase power from 10 to 30 kw. Also granted license to cover same.

WAAH—West Virginia Broadcasting Corp., Mobile (Wheeling, W. Va.).—Granted modification of C. P. covering changes in equipment; also granted license covering same.

W8XXB—West Virginia Broadcasting Corp., Mobile (Wheeling, W. Va.).—Granted modification of C. P. covering changes in equipment; also granted license covering same.

SET FOR HEARING

NEW—Cadillac Broadcasting Corp., Detroit, Mich.—C. P. for new station to operate on 1140 kc., 500 watts, daytime only. Exact transmitter site to be determined with Commission's approval.

NEW—Santo Sottle, Charleston, S. C.—C. P. for new station to operate on 1200 kc., 100 watts night, 250 watts day, unlimited time. Exact transmitter site to be determined subject to Commission's approval.

NEW—Louis P. Thornton, Baker, Ore.—C. P. for new station to operate on 1500 kc., 100 watts night, 250 watts day, unlimited time. Exact location to be determined subject to Commission approval.

NEW—Kanawha Valley Broadcasting Co., Charleston, W. Va.—C. P. for new station to operate on 1500 kc., 100 watts, unlimited time. Exact transmitter site and type of antenna to be determined with Commission's approval.

NEW—Valley Publishing Co., Harlingen, Tex.—C. P. to erect a new station to operate on 1200 kc., 100 watts night, 250 watts day, unlimited time.

KSFM—Tri-State Broadcasting Co., Inc., El Paso, Tex.—C. P. to move station locally (site to be determined); install new equipment, and change assignment from 1310 kc. to 1350 kc., 100 watts night, 250 watts day, sharing with WADA, to 500 watts, unlimited time.

WADA—Tri-State Broadcasting Co., Inc., El Paso, Tex.—Modification of license to change frequency from 1310 kc. to 1320 kc., and hours of operation from sharing with KTSM to 1000 kc., 10 kw, unlimited.

NEW—J. T. Griffin, Fort Smith, Ark.—C. P. to erect a new station, exact location to be determined subject to Commission's approval, to operate on 880 kc., 1 kw, daytime only.

NEW—Broward Broadcasting Co., Fort Lauderdale, Fla.—C. P. to erect a new station to operate on 1370 kc., 100 watts night, 250 watts day, unlimited time. Exact transmitter site to be determined subject to Commission approval.

NEW—W. A. Barnett, Greenwood, S. C.—C. P. to erect a new station to operate on 1370 kc., 250 watts, daytime only, exact location to be determined subject to Commission's approval.

WFBC—Greenville News-Piedmont Co., Greenville, S. C.—C. P. to erect new all directional antenna system for night-time use and increase night power from 1 kw to 5 kw. To be heard before the Broadcast Division.

NEW—Colonial Broadcasters, Inc., Savannah, Ga.—C. P. to erect a new station to operate on 1310 kc., 100 watts, unlimited time, exact location to be determined subject to Commission's approval.

KOL—Seattle Broadcasting Co., Seattle, Wash.—Application for modification of license, already in hearing docket, amended to request change in frequency from 1270 kc. to 1020 kc., and increase night power from 1 kw to 5 kw. To be heard before the Broadcast Division.

NEW—Tom Olsen, Port Angeles, Wash.—C. P. already in hearing docket, amended to request 1500 kc., 250 watts, daytime only, exact transmitter site and antenna system to be determined subject to Commission's approval.

NEW—Platt & Phoenix Broadcasting Corp., V. C.—C. P. already in hearing docket, amended to request frequency 1000 kc., 1 kw, limited to local sunset at WHO, exact transmitter and studio sites to be determined with Commission's approval.

NEW—Kentucky Broadcasting Corp., Louisville, Ky.—C. P. amended to request 1210 kc., 100 watts night, 250 watts day, unlimited time.

WINS—Hearst Radio, Inc., New York City.—C. P. to move transmitter locally from Carstadt, N. J., to 1 mile east of Kearny, N. J., in order to increase power and hours of operation to 5 kw, unlimited time, employing directional antenna system for both day and night use. To be heard by the Broadcast Division.

NEW—James F. Hurley, Jr., Salisbury, N. C.—C. P. to erect a new station to operate on 1300 kc., 100 watts, daytime only. Exact transmitter and studio sites to be determined with Commission's approval.

WLBD—State of Wisconsin, Department of Agriculture and Markets, Stevens Point, Wis.—Modification of license to increase hours of operation to 12 a. m. to 10 p. m., CST, with power of 1 kw night, 5 kw day, on 900 kc. (now has 2 1/2 kw, specified hours, 8 a. m. to local sunset).

WBWS—The Champaign News-Gazette, Inc., Champaign, Ill.—C. P. to make changes in equipment, increase power and hours of operation from 100 watts, daytime only, to 100 watts night, 250 watts day, unlimited time, employing directional antenna day and night (hearing de novo).

KTFI—Radio Broadcasting Corp., Twin Falls, Idaho—Extension of special experimental authorization to operate with 1 kilowatt power at night for period from 10-1-37 to 1-1-38, pending compliance with Rule 131.

W10XHI—Columbia Broadcasting System, Inc., Chicago, Ill.—License to cover construction permit (B1-PRE-131) for a new relay broadcast station.
SPECIAL NAB CONVENTION OCTOBER 12

A meeting of the Board of Directors of the National Association of Broadcasters was convened in New York City on September 10 and adjourned September 12. The Board has called a special meeting of the NAB membership which will be held in New York City at the Waldorf-Astoria Hotel, October 12, 1937. Although the Board originally fixed October 4 as the latest date for the convention, the World Series Baseball Games and other meeting already scheduled made it impossible to obtain the necessary hotel accommodations before October 12. The call of the special membership meeting was predicated upon the following Resolution which was adopted by the Board:

"Whereas, an emergency exists in the broadcasting industry due to demands of the American Federation of Musicians, which demands directly or indirectly affect the interests of every member of the industry.

"BE IT RESOLVED: The Board of Directors of the National Association of Broadcasters hereby call a special meeting of its membership agreeably with the provisions contained in the By-Laws, in New York City at the earliest practicable time and place for the sixteenth annual convention of the National Association of Broadcasters.

NAB TO BE REPRESENTED AT HAVANA AND CAIRO

The Board of Directors of the NAB this week authorized the President to cause the Association to be represented at the North American Radio Conference to be held at Havana, Cuba, in November, 1937, and at the World Radio Conference to be held in Cairo, Egypt, in February, 1938.

TIME AND PLACE FOR 16TH ANNUAL CONVENTION

The Board of Directors at a meeting this week authorized and directed the Executive Committee to select the time and place for the sixteenth annual convention of the National Association of Broadcasters.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 3223. Nannette, Inc., 560 West Randolph St., Chicago, and its officers, James E. Woodman, president, and William J. Larson, vice-president, are charged in a complaint with using unfair methods of competition in connection with the sale of cosmetics and toilet preparations. The respondents allegedly promote the sale of their products by conducting a picture puzzle contest which they advertise in newspapers, magazines, circulars, and sales promotional literature.

The complaint alleges that the respondents represent, contrary to the facts, that the contest is confined to a picture puzzle, involving only competitive skill and promptness in submitting solutions; that to win a specified prize the contestant is not required to do anything except to be prompt and to send in the best solution; that the prizes offered will be given free and without the expenditure of money or work on the part of contestants; that the conditions incident to the winning of prizes are easy and simple, and that the contest is conducted for the purpose of advertising the respondents' products.

No. 3224. Two companies said to dominate the raw and granulated chicory markets in the United States and to be under the control of one family, are named respondents in a complaint alleging violation of both the Federal Trade Commission Act and the Robinson-Patman Anti-Price Discrimination Act.

The respondent companies, engaged in the interstate sale of granulated chicory which they manufacture from the raw product, are E. B. Muller & Co., 210 Quay St., Port Huron, Mich., and Heinr. Franck Sens, Inc., 131 Avery Ave., Flushing, N. Y. They also maintain stocks of chicory other than in Michigan and New York, where their factories are located.

In violation of Section 5 of the Federal Trade Commission Act, the complaint alleges, the companies with the intent and purpose of destroying competition, sell granulated chicory in interstate commerce at prices below the cost of manufacturing, selling and distributing the product.
The order directs the respondent company to discontinue advertising in newspapers, over the radio, or by any other means that breathes.

It has a therapeutic value or beneficial effect in the treatment of those diseases, as well as in the treatment of chronic bronchitis, heart trouble, gastric ulcer, certain skin ailments, neuralgia, neuritis, and inflammation of the nose, throat, tonsils, and lungs.

No. 3172. May Hosury Mills, Inc., Burlington, N. C., has been ordered to cease and desist from using in advertising matter wherein certain dresses offered for sale were described variously as "Silk Jersey" or "Satin Jersey", when, in fact, they were composed of materials other than silk.

No. 3173. The Original Titanium Paint Corporation, 498 Seventh Ave., New York City, has been ordered to cease and desist from use in advertising matter of the terms "Silk Jersey", "Satin Jersey" or "Silk Jersanese", or the word "Silk", to designate and describe dresses and other garments made from a material not composed entirely of silk.

It was found that the respondent company distributed to customers advertising matter wherein certain dresses offered for sale were described variously as "Silk Jersey" or "Satin Jersey", when, in fact, they were composed of materials other than silk.

No. 3174. Ackerman, of New York. Ackerman, trading as Herman Ackerman, No. 2041. Berg & Markell, Inc., 44th Ave. and 9th St., Long Island City, New York, has entered into a stipulation to discontinue advertising matter wherein certain dresses offered for sale were described variously as "Silk Jersey" or "Satin Jersey", when, in fact, they were composed of materials other than silk.

No. 3175. The company also stipulates that it will cease using in advertising matter the word "silk", alone or with other words, to describe products not composed of silk, or to imply that the product to which the word refers is made of silk, when such is not a fact.

Stipulations:

The Commission has entered into the following stipulations:

**No. 2041.** Berg & Markell, Inc., 44th Ave. and 9th St., Long Island City, New York, has entered into a stipulation to discontinue advertising matter wherein certain dresses offered for sale were described variously as "Silk Jersey" or "Satin Jersey", when, in fact, they were composed of materials other than silk.

No. 2042. Under a stipulation, use in advertising matter of the word "Panama" and rayon" in each phrase appearing in much smaller and less conspicuous type than the other words. It was found that use of these phrases in the manner described led purchasers into the erroneous belief that the major component of the hosey was silk, when such was not a fact.

**No. 2043.** Under a stipulation, Permanent Concrete Burial Vault Company, Syndicate Trust Building, St. Louis, will cease using false and misleading advertising in connection with the interstate sale of concrete burial vaults.

The company agreed to stop using the word "Permanent" as part of its trade name and the words "everlasting protection" in advertising matter, to cause railroad companies to accept such boxes in the belief that they bore the official certification and complied fully with construction requirements.

No. 2044. Under a stipulation, V. Portnoy & Sons, Inc., 566 Roosevelt Road, Chicago, engaged in the sale of both new and old or second-hand wearing apparel, agrees to discontinue use of advertising matter which does not clearly indicate in conspicuous type, with reference to each particular garment or article that is not new, that such product is old, worn or second-hand.

No. 2045. Under a stipulation, P. Portnoy & Sons, Inc., 566 Roosevelt Road, Chicago, engaged in the sale of both new and old or second-hand wearing apparel, agrees to discontinue use of advertising matter which does not clearly indicate in conspicuous type, with reference to each particular garment or article that is not new, that such product is old, worn or second-hand.

No. 2046. The Federal Trade Commission has closed its case against the respondents.

**No. 2047.** Harold Warp, 1162 West 16th St., Kansas City, Mo., trading as Farmers Serum & Supply Co., will cease representing in advertising matter that his Bovine Abortion Vaccine will provide permanent protection from abortion; that his combined treatment is a guaranteed method for preventing and treating blackhead in turkeys; that his remedies will prevent or control poultry diseases, and that his products are licensed by Government.

No. 2048. Harold Warp, 1162 West 16th St., Kansas City, Mo., trading as Farmers Serum & Supply Co., will cease representing in advertising matter that his Bovine Abortion Vaccine will provide permanent protection from abortion; that his combined treatment is a guaranteed method for preventing and treating blackhead in turkeys; that his remedies will prevent or control poultry diseases, and that his products are licensed by Government.

The Commission has entered into the following stipulations:

**No. 01854.** N. Meyer, 1166 Diversey Parkway, Chicago, trading as Little Giant Radio Company, agreed to stop advertising that his Midget Pocket Radio tunes in the broadcast band, will last for years, and is precisely assembled or rigidly tested.

**No. 01855.** A. J. Krunk, Inc., 1885 University Ave., St. Paul, Minn., in selling cosmetics and preparations for the hair and scalp, stipulated that he would discontinue the following representations: That Balm Argenta banishes skin age and is a competent treatment for skin imperfections; that Scalp Health Tonic stimulates circulation or frees the scalp of dandruff; that Lemon Cleansing Cream penetrates clogged pores and dissolves impurities; that Skin-Health Tissue Cream will cause enlarged facial muscles to respond to its restorative action; that Honey Rose Cream conditions and rejuvenates those deep lying tissues which surface creams cannot benefit; that Odo-Ban banishes perspiration odor; that Permanent Wavoil puts life into the hair or prevents falling hair; that Sporicide relieves all forms of itching and skin irritation instantly; and that Hair Root Oil invigorates the scalp, loosens dandruff or prevents falling hair.

No. 01856. The Federal Trade Commission has closed its case against the respondents.

The Commission has entered into the following stipulations:

**No. 01857.** J. H. Oesterhaus, 1612 West 16th St., Kansas City, Mo., trading as Farmers Serum & Supply Co., will cease representing in advertising matter that his Bovine Abortion Vaccine will provide permanent protection from abortion; that his combined treatment is a guaranteed method for preventing and treating blackhead in turkeys; that his remedies will prevent or control poultry diseases, and that his products are licensed by Government.

The following broadcast hearings are scheduled for the week beginning Monday, September 20:

**Monday, September 20**

**HEARING BEFORE AN EXAMINER**

(Broadcast)

WNBR—Earl J. Smith and Wm. Mace, Saranac, N. Y.—Voluntary assignment of license to Upstate Broadcasting Corp.; 1290 kc., 100 watts, daytime.
Tuesday, September 21

HEARING BEFORE AN EXAMINER
(Broadcast)

KPOF—Pillar of Fire, Denver, Colo.—Modification of license, 890 kc., 1 KW, shares with KFKA; KPOF ½ time, KFKA ¾ time. Present assignment: 880 kc., 500 watts, shares with KFKA; KPOF ½, KFKA ¾ time.

WBNO—The Coliseum Place Baptist Church, New Orleans, La.—Voluntary assignment of license to WBNO, Inc.; 1200 kc., 100 watts, shares WBJBW.

WBNG—The Coliseum Place Baptist Church, New Orleans, La.—C. P., 1420 kc., 100 watts night, 250 watts LS, unlimited time. Present assignment: 1200 kc., 100 watts, shares WBJBW.

WBNO—The Coliseum Place Baptist Church, New Orleans, La.—Renewal of license, 1200 kc., 100 watts, share with WJBW.

NEW—Southern Broadcasting Corp., New Orleans, La.—C. P., 1200 kc., 100 watts night, 250 watts LS, unlimited (requests facilities of WBNO and WJBW).

WJBW—Charles C. Carlson, New Orleans, La.—New Renewal of license, 1200 kc., 100 watts, daytime.

KPOF—Pillar of Fire, Denver, Colo.—Modification of license, 890 kc., 1 KW, limited sunset Chicago.

NEW—John Stewart Bryan, Petersburg, Va.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited except Sunday nights.

HEARING BEFORE AN EXAMINER
(Broadcast)

WELI—City Broadcasting Corp., New Haven, Conn.—Modification of license, 930 kc., 250 watts, 500 watts LS, unlimited. Present assignment: 900 kc., 500 watts, daytime.

NEW—Lawrence K. Miller, Pittsfield, Mass.—C. P., 930 kc., 250 watts, daytime.

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. 1-405:

Examiner's Report No. 1-410:

Examiner's Report No. 1-411:
NEW—Sharon Herald Broadcasting Co., Sharon, Pa.—C. P., 780 kc., 250 watts, daytime.

NEW—Allen T. Simmons, Mansfield, Ohio.—C. P., 780 kc., 1 KW, daytime.

Examiner's Report No. 1-416:
KADA—C. C. Morris, Ada, Okla.—Modification of license, 1200 kc., 100 watts, 100 watts LS, unlimited. Present assignment: 1200 kc., 100 watts, daytime.

Friday, September 24

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—L. L. Coryell, Sr., and L. L. Coryell, Jr., d/b as L. L. Coryell & Son, Lincoln, Nebr.—C. P., 1450 kc., 250 watts, 1 KW LS, unlimited.

NEW—Wm. E. Walker and Merrill F. Chapin, d/b as Walker and Chapin, Oshkosh, Wis.—C. P., 1010 kc., 250 watts, unlimited time.

NEW—Carl Latenser, Atchison, Kans.—C. P., 1420 kc., 100 watts, daytime.

NEW—United Theatres, Inc., San Juan, P. R.—C. P., 570 kc., 1 KW, unlimited.

APPLICATIONS GRANTED

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—Granted C. P. to install auxiliary transmitter at present transmitter location.

KID—KID Broadcasting Co., Idaho Falls, Idaho.—Granted C. P. to make changes in composite equipment and increase in day power to 5 KW.

WCBS—WCBS, Inc., Springfield, Ill.—Granted C. P. to make changes in composite equipment and increase in day power from 100 to 250 watts, and time of operation from specified to unlimited.

WIP—Penna. Broadcasting Co., Philadelphia, Pa.—Granted C. P. to move old main transmitter locally and use same as auxiliary transmitter.

KDLR—KDLR, Inc., Devils Lake, N. Dak.—Granted license to cover C. P.; 1210 kc., 100 watts, unlimited time.

KVOE—The Voice of The Orange Empire, Inc., Ltd., Santa Ana, Cal.—Granted license to cover modification of C. P. authorizing changes in equipment.

WSNJ—Eastern States Broadcasting Corp., Bridgeport, N. J.—Granted license to cover C. P. and modifications thereof approving studio location; 1210 kc., 100 watts, daytime only.

KSFO—The Associated Broadcasters, Inc., San Francisco, Calif.—Granted license to cover C. P. and modifications thereof, authorizing changes in transmitter site, installation of new equipment, and vertical radiator and increase in day power from 1 KW to 5 KW. Also granted authority to determine operating power by direct measurement of antenna input.

WSMB—WSMB, Inc., New Orleans, La.—Granted license to cover C. P., authorizing installation of new equipment and directional antenna for day and nighttime operation and move transmitter location.

WJDX—Lamar Life Ins. Co., Jackson, Miss.—Granted modification of C. P. for changes in equipment and extension of commencement date from 6-9-37 to 30 days after grant and completion date to 150 days thereafter.

WEST—Associated Broadcasters, Inc., Easton, Pa.—Granted modification of license to change hours of operation to simultaneous day, share WKBO night.

WRBO—Keystone Broadcasting Corp., Harrisburg, Pa.—Granted modification of license to change hours of operation to unlimited day, share WEST night.

KSAL—R. J. Laubengayer, Salina, Kans.—Granted authority to determine operating power by direct measurement of antenna input.

NEW—Wyoming Broadcasting Co., Rock Springs, Wyo.—Granted C. P. for new station to operate on 1370 kc., 100 watts night, 250 watts day, unlimited time; transmitter location to be determined with Commission's approval.

W2XE—Columbia Broadcasting System, Inc., Wayne, N. J.—Granted modification of license to additional frequency, 9290 kc.

NEW—Minnesota Broadcasting Corp., Mobile (Minneapolis, Minn.).—Granted C. P. for new relay station; frequencies 1606, 2022, 2102 and 2753 kc., 25 watts.

NEW—Minnesota Broadcasting Corp., Mobile (Minneapolis, Minn.).—Granted C. P. for new relay station; frequencies 1606, 2022, 2102 and 2753 kc., 7.5 watts.

W9XVP—Minnesota Broadcasting Corp., Mobile (Minneapolis, Minn.).—Granted C. P. for new relay broadcast station on an experimental basis; frequencies 31100, 31600, 37800 and 40900 kc., 1 watt. Also granted license to cover same.

W9XVQ—Minnesota Broadcasting Corp., Mobile (Minneapolis, Minn.).—Granted C. P. for new relay broadcast station on an experimental basis; frequencies 31100, 31600, 37800 and 40900 kc., 1 watt. Also granted license to cover same.
NEW—Union-Tribune Broadcasting Co., San Diego, Cal.—C. P. already in hearing, docket to be revised.

NEW—N. B. Egeland, Roland, Iowa.—C. P. already in hearing, docket to be revised to request 1500 kw, 100 watts daytime only.

KAST—Astoria Broadcasting Co., Astoria, Ore.—C. P. to install new equipment and vertical radiator; change assignment of license to change hours of operation from day to unlimited, using 100 watts power.

WEKG—Cornell University, Ithaca, N. Y.—Modification of license to change frequency from 1040 kc. to 850 kc., and hours of operation from 6 a. m. to LS, Hot Springs, Ark., to 6 a. m. to LS, New Orleans, La., 1 kw.

WMFR—Radio Station WMFR, Inc., High Point, N. C.—Modification of license to change hours of operation from daytime to unlimited, using 100 watts power.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KDYL, Salt Lake City; KFBF, Great Falls, Mont.; KFKU, Lawrence, Kans.; KFOX, Long Beach, Cal.; KFSF, Los Angeles; KCCA, Decatur, la.; KGGM, Coffeyville, Kans.; Kلون, Blytheville, Ark.; KMS, Minot, N. Dak.; KLS, Oakland, Cal.; KOLI, Omaha, Neb.; KOL, Seattle; KPAC, Port Arthur, Tex.; KRGV, Weslaco, Tex.; KROW, Oakland, Cal.; KTHI, Houston, Tex.; KTW, Seattle; KUOA, Sloilo Springs, Ark.; KVOA, Tucson, Ariz.; KWLC, Decatur, la.; KWSC, Pullman, Wash.; WASE, Grand Rapids, Mich.; WCAD, Canton, N. Y.; WCAM, Camden, N. J.; WCHS, Portland, Me.; WDAY, Fargo, N. Dak.; WDEL, Wilmington, Del.; WDSU, New Orleans; WEBC and auxiliary, Duluth, Minn.; WHA, Madison, Wis.; WHBI, Newark, N. J.; WHB and auxiliary, New York; WISN, Milwaukee, Wis.; WJAS, Pittsburgh, Pa.; WJDX, Jackson, Miss.; WKAQ, San Juan, P. R.; WNAC, Boston; WNAD, Normal, Okla.; WNBX, Springfield, Vt.; WNEL, San Juan, P. R.; WNEW, New York City; WNOX, Knoxville, Tenn.; WORC, Worcester, Mass.; WRR and auxiliary, Dallas, Tex.; WTCN, Minneapolis; WTOC, Savannah, Ga.

The following stations were granted renewal of relay broadcast licenses for the regular period:

SPECIAL AUTHORIZATIONS

WOC—The Tri-City Broadcasting Co., Davenport, la.—Granted special temporary authority to operate on 930 kc., with 500 watts, daytime only.

WBBK—Ex. Rep. 1-495: WBBH, Inc., La Crosse, Wis.—Examined George H. Hill recommended denial of C. P. for new station to operate on 930 kc., with 500 watts, daytime only.

WKBH—Ex. Rep. 1-495: KWWB, Inc., La Crosse, Wis.—Examined George H. Hill recommended denial of C. P. for new station to operate on 930 kc., with 500 watts, daytime only.

WKEM—Ex. Rep. 1-495: WKEM, Inc., La Crosse, Wis.—Examiner recommended grant of renewal of license for 1380 kc., 1 kw, unlimited time, and

Jos. C. Callaway, Transferor, and Harry Dahl, Transferee.—Recommended grant of authority to transfer control of WKBB, Inc., to Harry Dahl.

ORAL ARGUMENTS GRANTED

NEW—Ex. Rep. 1-458: Food Terminal Broadcasting Co., Cleveland, Ohio.—Oral argument to be held December 2, 1937.

Glenn E. Webster, Decatur, Ill.—Oral argument to be held December 2, 1937.

WSPA—Ex. Rep. 1-468: Virgil V. Evans, d/b as The Voice of South Carolina, Spartanburg, S. C.—Oral argument to be held December 2, 1937.

NEW—Ex. Rep. 1-470: WRBP, Inc., Cleveland, Ohio.—Oral argument to be held December 2, 1937.

KGDY—Etc. Voice of South Dakota, Huron, S. D.—Oral argument to be held December 2, 1937.

ACTION TAKEN ON EXAMINERS' REPORTS

WSAU—Ex. Rep. 1-420: Northern Broadcasting Co., Wausau, Wis.—Granted modification of license to change hours of operation from daytime to unlimited; 1370 kc., 100 watts. Order effective October 12, 1937. Examiner Seward sustained.

KIEM—Ex. Rep. 1-429: Redwood Broadcasting Co., Inc., Eureka, Calif.—Granted C. P. to increase day power to 1 kW; denied 1 kW night; 1450 kc., unlimited time. Also to install new equipment. Order effective October 5, 1937. Examiner Seward sustained.

NEW—Ex. Rep. 1-436: Clarence A. Berger and Saul S. Freeman, Coeur d'Alene, Idaho.—Granted C. P. for new station to operate on 1200 kc., 100 watts, daytime, site to be determined. Order effective October 12, 1937. Examiner Seward sustained.

WSMB—Ex. Rep. 1-455: WMBO, Inc., Auburn, N. Y.—Granted extension program to make changes in equipment to increase power from 100 watts per day to 500 watts at 1 KW, unlimited time. Order effective September 14, 1937. Examiner Seward sustained.

WBLC—Ex. Rep. 1-456: The Exponent Co., Clarksburg, W. Va.—Granted modification of C. P. to change time during noon through midnight; change hours of operation from noon to unlimited, using 100 watts power, 1370 kc. Order effective October 19, 1937. Examiner Seward sustained.

MISCELLANEOUS

NEW—World Publishing Co., Tulsa, Okla.— Granted petition to intervene in the hearing on the application of United Broadcasting Co. for new station at Tulsa, to use 1550 kc., 1 KW, unlimited.

St. Petersburg Chamber of Commerce, St. Petersburg, Fla.—Granted petition for site determination for new station at Beaumont, Tex., to use 1350 kc., 250 watts night, 500 watts LS, unlimited.

NEW—Juan Piza, San Juan, P. R.—Granted petition for continuance of approximately 60 days of hearing now scheduled for September 17, 1937. New date to be fixed by Docket Section.

NEW—Paul J. Gollhofer, Brooklyn, N. Y.—Granted petition to continue oral argument now scheduled for September 16 to October 7 in re Examiner’s Report No. 1-403, involving five Brooklyn cases requesting use of 1500 kc.

NEW—O. G. Burke, New York City.—Granted petition to accept appearance in the matter of his application for C. P. for new station to use 1500 kc., 100 watts, unlimited time.

WTCN—Minnesota Broadcasting Co., Minneapolis, Minn., and WNEW—Wodaam Corp., New York City.—Granted petition to accept answers of respondents (WTCN and WNEW) in the matter of the application of Martin R. O’Brien for the new station at Aurora, Ill., to use 1250 kc., 250 watts, daytime only.

RATIFICATIONS

The Broadcast Division ratified the following actions authorized on the dates shown:

KTRI—Sioux City Broadcasting Co., Sioux City, Iowa.—Granted special temporary authority to operate a 50-watt portable transmitter on 1480 kc. from 1 to 6 a.m. and from 7 to 5:45 p.m., CST, except from September 6 to 14, inclusive, when no operation shall occur before 7 a.m., CST, in the vicinity of Sioux City for the period beginning September 6 and ending no later than September 19, in order to determine new location.

PKAC—Port Arthur College, Port Arthur, Tex.—Granted request for special temporary authority to operate from 6:15 p.m. to 12 midnight on September 11 and 24, 1937, for the purpose of broadcasting the local high school football games. Action taken 9-9.

NEW—W. W. Luce, Ft. Lauderdale, Fla.— Granted petition of applicant and dismissed application for C. P., 1050 kc., 1 KW, daytime only, without prejudice, and directed that an order be entered accordingly and forwarded to all interested parties. Action taken 9-4.

Granted petition of Smith, Keller & Cole to intervene in the proceedings upon the application of Airfan Radio Corp., Ltd., for new station at San Diego, Calif. Action taken 9-4.

NAB STATE COMMITTEE APPOINTED

Following a poll of the membership, President John Elmer has appointed an NAB State Committee. There will be one member for each state and territory. In addition there will be twelve district chairmen, each of whom will represent four states. The personnel of the committees represented by acceptances to date are as follows:

District Chairmen

Clair McCollough, WGAL, representing Pennsylvania, Ohio, Maryland and Delaware; Edwin W. Craig, WSM, representing Virginia, West Virginia, Kentucky and Tennessee; Fred W. Burton, WQAM, representing North Carolina, South Carolina, Georgia and Florida; Glenn Snyder, WLS, representing Wisconsin, Michigan, Indiana and Illinois; W. C. Bridges, WEBC, representing North Dakota, South Dakota, Minnesota and Wyoming; Lester Cox, KGBX, representing Nebraska, Iowa, Missouri and Kansas; Eugene P. O’Fallon, KFEL, representing Colorado, New Mexico, Oklahoma and Texas; and Earl J. Glade, KSL, representing California, Nevada, Utah and Arizona.

State Committee

Arkansas, John A. England, KFPW; California, Harrison Hollway, KFI; Colorado, Eugene P. O’Fallon, KFEL; Connecticut, Franklin M. Doolittle, WDRC; District of Columbia, William B. Dolph, WOL; Florida, F. W. Burton, WQAM; Georgia, Maurice C. Coleman, WATL; Idaho, C. G. Phillips, KIDO; Illinois, Glenn Snyder, WLS; Indiana, Clarence Leich, WGBF; Iowa, Luther L. Hill, KRNT; Kansas, Don Searle, WIBW; Louisiana, John C. McCormack, KWKH; Maine, Thompson L. Guernsey, WLBZ; Maryland, Edwin M. Spence, WBAL; Michigan, John E. Fetzer, WKZO; Minnesota, W. C. Bridges, WEBC; Mississippi, W. P. Harris, WJDX; Missouri, Lester E. Cox, KGBX; Montana, Ed Craney, KGIR; Nebraska, John J. Gillin, Jr., WOW; New Jersey, Alfred J. McCosker, WOR; New York, Harold E. Smith, WOKO; North Carolina, Richard H. Mason, WPTF; North Dakota, Philip J. Meyer, KFYR; Oklahoma, William C. Gillespie, KTUL; Pennsylvania, Clair McCollough, WGAL; Rhode Island, John J. Boyle, WJAR; South Carolina, C. Richard Shafto, WIS; South Dakota, Joseph Henkin, KSOO; Tennessee, Edwin W. Craig, WSM; Texas, O. L. Taylor, KGNC; Utah, Earle

PLEASE RETURN DELEGATE CARDS

Members are urged to return promptly the cards furnished them indicating the names of the delegate and alternate designated to represent the station at the special NAB Convention in New York, October 12, 1937.

MAKE HOTEL RESERVATIONS NOW

In view of the World Series Baseball games scheduled to begin in New York City October 6, it is suggested that hotel reservations for the convention be made in advance to insure proper accommodations.

J. Glade, KSL; Virginia, C. T. Lucy, WRVA; Washington, Louis Wasmer, KHQ; West Virginia, O. J. Kelchner, WMMN; Wyoming, R. E. Carroll, KWKY.

PRESIDENT ANNOUNCES ENGINEERING COMMITTEE

President Elmer this week announced the personnel of the Engineering Committee for the year 1937-1938 as follows: Paul Loyet, WHO, Des Moines, Iowa, Chairman; L. A. Benson, WIL, St. Louis, Missouri; L. S. Bookwalter, KOIN, Portland, Oregon; E. K. Cohan, Columbia Broadcasting System, New York, N. Y.; Gerald W. Cooke, WBAL, Baltimore, Maryland; J. H. DeWitt, Jr., WSM, Nashville, Tennessee; John E. Fetzer, WKZO, Kalamazoo, Michigan; E. L. Gove, WHK, Cleveland, Ohio; C. W. Horn, National Broadcasting Company, Inc., New York, N. Y.; Porter Houston, WCBM, Baltimore, Maryland; Carl Meyers, WGN, Chicago, Illinois; and John M. Sherman, WTCN, Minneapolis, Minnesota.

HABANA GROUP TO DISCUSS BROADCASTING

Philip F. Siling, acting secretary of the Habana Preparatory Group, announced this week that matters relating to broadcasting in connection with the Habana radio conference will be discussed on October 8. He issued the following statement on the conference.

A meeting will be held in Room 7355 of the New Post Office Building at 10.00 a.m., Friday, October 8, for the purpose of considering the broadcast phases of the Inter-American Radio Conference to be held at Habana, Cuba, beginning November 1, 1937. This meeting of the Habana Preparatory Group will be devoted to matters relating to broadcasting in the band 540-1600 kc.

All interested parties are invited to attend.

The NAB will be represented at this meeting by the Managing Director James W. Baldwin.

JETT NAMED ACTING CHIEF ENGINEER

The Federal Communications Commission has designated E. K. Jett as Acting Chief Engineer until the position of Chief Engineer has been filled.

MICHIGAN BROADCASTERS TO ORGANIZE

Michigan radio broadcasters will hold a meeting on October 4 at the Book-Cadillac Hotel, in Detroit, for the purpose of forming a State Association. James W. Baldwin, NAB Managing Director, will attend the meeting.

COLUMBIAN MUSIC PUBLISHERS, LTD.

Broadcasting stations recently received notice from the Columbian Music Publishers, Ltd., 136 Simcoe Street, Toronto, Canada, giving permission “to broadcast occasionally, where suitable, the copyrighted or protected compositions controlled by Columbian Music Publishers Limited.” This proposal should be considered by the broadcasters as an effort on the part of the Columbian Music Publishers to obtain free plugs for their music. This company, like many others, apparently recognizes that radio can do more to popularize music than any other medium in the world. Unfortunately, up to now the broadcasters have failed to appreciate this fact and have permitted their stations to be used to make “hits.”

FCC APPROPRIATIONS

Officials of the Federal Communications Commission have been before the Bureau of the Budget in connection with appropriations for the fiscal year 1939. It is reported that the Budget Bureau was asked for the same appropriations which were allowed by Congress for the present fiscal year which includes: a general appropriation of $1,717,000; $25,000 for printing; and $20,000 for the Great Lakes survey work by Commissioner Thad Brown.

ROSCOE RIEMENSCHNEIDER

Roscoe Riemenschneider of Des Moines, Iowa, has been requested to cooperate with the NAB in keeping radio advertising free from the objectionable practice of selling radio time on a percentage basis. Mr. Riemenschneider had queried stations about a plan for advertising perfumes and cosmetics on a percentage basis.

RECOMMENDS DISMISSING REQUEST OF WKOK

Broadcasting station WKOK, Sunbury, Pa., operating specified hours, 100 watts on 1210 kilocycles, applied to the Federal Communications Commission to grant it unlimited time on the air.

Examiner John P. Bramhall, in Report No. I-496, recommended that the application be dismissed with prejudice. On hearing counsel for the station asked for a continuance because certain engineering reports were not ready. In this connection the Examiner stated:

“The motion of the applicant was denied by the Examiner because the record shows that the Sunbury Broadcasting Corporation, the applicant herein, had not shown due diligence in the preparation of its case. Thereupon the attorney for the applicant, WKOK, stated, ‘WKOK defaults.’ It is a fair assumption that the respondents in this case, whose attorneys appeared for the purpose of participating in the hearing have incurred expense incident to this proceeding.”

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3225. A complaint has been issued against Askin’s Retail Stores, Inc., 425 4th Ave., New York, charging false and misleading representations in the sale of men’s and women’s wearing apparel.

In advertisements and sales talks, the respondent company is alleged to have represented that with purchases of merchandise up to certain stated values, other articles would be given free.

The complaint charges that the cost of the articles offered as free was, in fact, included in the price paid by customers for wearing apparel in amounts up to a certain stated value, and that the so-called free goods were not in any sense a gift or gratuity to customers without cost to them.

No. 3226. A complaint has been issued against Russeks Fifth Avenue, Incorporated, and Fashion Firsts, Incorporated, both of 390 Fifth Ave., New York.

The complaint charges unfair competition in the sale of furs, coats and other wearing apparel for women, through use in advertising of the British Royal Coat of Arms, pictures of English scenes, and various English names to designate certain of its products not designed, made, or tailored in England.

No. 3227. Use of unfair methods of competition in the sale of Politis, a medicinal preparation, is alleged in a complaint served upon Harry Politis, 4504 North Vancouver Ave., Portland, Oreg.
Although Politis features his trade name, Politis Laboratory, in advertising matter and on business stationery, the complaint charges that use of the word "Laboratory" is misleading in that the respondent does not own or operate any place devoted to experimental study in any branch of natural science or to the application of scientific principles in testing and analyzing or in preparing medicines, drugs or chemicals.

No. 2328. A complaint has been issued against Arthur R. Patterson, Albert C. Kehr, Arthur W. Edson, Edva O. Brown and Minetha Coe, trading under the name of Patterson School at 82 S. Peoria St., Rockford, Ill., charging that in the sale of a correspondence course intended to prepare students for civil service examinations, representations made by the respondents in published advertisements are alleged to have created the impression that the respondents control or are under the United States Civil Service or have such positions to offer; that Arthur R. Patterson has had recent official connection with the Civil Service, and because of such connection, has special knowledge that enables him to successfully prepare students for examinations, and that money paid for the courses will be refunded if no Government position is obtained.

No. 2329. A complaint has been issued against Louis H. Tabach, 1060 Broad St., Newark, N. J., charging unfair competition in the sale of women's hosiery. Tabach trades under the names Longwear Hosiery Co., Certified Hosiery Co. and Canary.

The respondents' methods of sale are alleged to have a tendency to deceive buyers into believing that he is a manufacturer, and that the products he sells are made of a material corresponding to samples displayed by his representatives, when such are not the facts.

No. 2330. Alleging unfair competition in the sale of caps and hats manufactured from felts and other materials obtained from old and second-hand hats, a complaint has been issued against Louis 0. Goldberg, Morris Zipper and Harry Faerman, 2000 South 9th St., Philadelphia, trading as Diamond Cap Company.

The respondents' methods of sale are alleged to have a tendency to induce many dealers and retail buyers to purchase their caps and hats in the mistaken belief that they are buying new and unused materials made from new and unused materials. According to the complaint, the respondents, buying second-hand, old or used felt hats, put them through a process of cleaning, ironing and shaping, fit them with new trimmings, sweat bands and size labels, and in some cases supply peaks or visors. These articles are alleged to have the appearance of new caps and hats. They are allegedly sold to dealers without labels or designations to indicate that the products are in fact made from second-hand materials and renovated by the respondents. The complaint charges that the hats and caps are resold to the public without disclosure of the second-hand origin or of the renovation by the respondents, and under such circumstances as to indicate that they are new hats and caps.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2558. Parco Products, Inc., 19 West 44th St., New York, and its manager and sales executive, Solomon L. Goldberg, have been ordered to cease and desist from representing verbally or in writing that their product is a one-coat paint, leaving no disagreeable odor; that it can be used by amateurs as successfully as by experienced painters, and that it will give a finish that can only be obtained by experienced painters with other paints.

No. 2910. Certain false representations concerning the therapeutic value of Kodicon, a medicinal preparation, are prohibited under an order to cease and desist entered against Bernard M. Wolf, 5 Bromfield St., Boston, trading as Kodicon Products Company.

Wolff is ordered to discontinue representing in advertising matter or otherwise that Kodicon will stop head colds, or is a treatment for the prevention of colds, or is an effective and reliable remedy for arthritis, neuritis, neuralgia, gout, and various rheumatic ailments.

No. 2932. An order has been issued requiring J. W. Gibson, of Indianapolis, trading as J. W. Gibson Co., to cease and desist from certain unfair methods of competition in the sale of food flavorings, spices, toilet articles and kindred merchandise to distributors and house-to-house canvassers.

The respondent is directed to stop representing or holding out as a maximum of earnings for any period any amount in excess of sums actually earned during such period by distributors of his products under normal business conditions.

No. 3183. Richard I. Stewart, Flintridge, Pasadena, Calif., trading as Avocado Soap Products Company, has been ordered to cease and desist from representing in advertising matter or otherwise that the Avocado Tissue Soap he sells in interstate commerce contains a substantial amount of avocado oil, that it is nature's aid to beauty or has any beneficial effect different from other soap, that it is highly recommended by beauty specialists, and is a distinct aid to beauty.

Stipulations

The Commission has entered into the following stipulations:

No. 01801. B. C. Burden, trading as Electrical Salvage Co., Lincoln, Nebr., and selling electrical experimental kits, agrees to stop representing in advertising that the Detectophone is used by secret service men, detectives or G-men, or that it is ultra sensitive, and that the generator and equipment furnished with his kit are equivalent to lamps costing $50.

No. 01803. The House of Astro, Inc., trading as The House of Astro, Hollywood, Calif.; Astro Perfumes and Horoscopes; horoscopes, allegedly given free with purchase of a perfume.

No. 01804. Affiliated Products, Inc., Chicago; Angelus Rouge, Angelus Lipstick, Kissproof Lipstick, and Kissproof Rouge, certain of which products were advertised as having been recommended by motion picture experts, as containing the costliest ingredients, and as producing a make-up devoid of artificiality.

No. 01805. Philo Burt Manufacturing Co., Jamestown, N. Y.; Spinal appliance, for ailments and deformities of the spine and back.

No. 01806. Edward J. Zimmer, trading as Bestever Products Co., Chicago; Uko Cleaning Compound, advertised as a preparation that will not injure the most sensitive skin and as the most amazing product for washing or whitening clothes ever developed.

No. 01807. Scientific Crime Detection Institute of America, Inc., Huntington, W. Va., selling a correspondence course, agrees to stop representing that law enforcement agencies are unable to obtain a sufficient number of experts; that scientifically trained men are in great demand, and that students, after pursuing the respondent's course of study, will be in a position to charge high fees for professional services, and will be in demand as crime detection experts. The respondent corporation also agrees to cease advertising that everyone who has studied its course will be mentally equipped to give the world expert professional advice, and will be prepared to qualify before high tribunals as authorities.

No. 01808. G. S. Metcalf, trading as Publishers' Service Bureau, Chicago, and selling a book of instructions called Free Law Enforcement Correspondence Courses and Magazines, stipulates that he will stop representing that he issues or is authorized to issue a press card, or, by direct statement or reasonable inference, that the holder of such a card is entitled to receive benefits usually accruing to the possessor of a legitimate press card issued to members of the staff of a newspaper. He also agrees to cease advertising that the holder of credentials such as are supplied by him to each subscriber is thereby identified as an active press correspondent. He stipulates that he will not use the name "Publishers' Service Bureau" or any other terminology which would directly or by implication indicate that he operates a bureau of any character,
No. 01810. William Harrison, trading as Ace Radio Laboratories, New York City, sells Ace Construction Kits, consisting of parts for radio receiving sets to be assembled by the purchaser. He will stop representing that his products are so easy to put together that the most inexperienced person will acquire skill in obtaining excellent results, and that radios made from the parts will afford world-wide reception. He will also discontinue advertising that the materials supplied at the prices advertised are sufficient to make a complete radio receiving set, or that every necessary part and accessory to complete an entire receiver is included, so long as it is necessary for the purchaser to obtain certain accessories in order to operate the radio.

No. 01811. Dr. Joseph S. Lippert, an individual, and Dr. Joseph S. Lippert, Dental Laboratory, Inc., Chicago; artificial teeth, or false teeth advertised as defying detection restoring the natural voice and facial expression, and as being held firmly by vacuum cup suction.

No. 01812. Rap-I-Dol Distributing Corporation, New York; Rap-I-Dol Conditioning Shampoo and Rap-I-Dol Hair Coloring, for preventing dandruff and banishing gray or faded hair.

No. 01813. Three Star Clothes, a Chicago corporation, has entered into a stipulation to cease using false and misleading advertising in connection with the sale of certain tailor-made clothes.

The company will discontinue representing that its suits are made of wool, unless they are made from all wool materials; that they are sold at wholesale prices, and that a suit is given free, unless it is given without the expenditure of time, money or effort on the part of the recipient.

No. 01815. George D. Berdan, trading as Medical Arts Laboratories, Fort Worth, Tex.; Dixans Reliner Wax, advertised as being newer and different from other preparations intended to lighten artificial teeth and as being capable of retaining plates to the gums and of assuring mouth comfort and a sense of safety, regardless of the condition of the plates.

No. 01816. Rosa V. Thomas, operating as Ace Advertising Agency, Birmingham, Ala., in selling a mimeographed booklet of suggestions on how to earn money at home with a typewriter, agrees to cease asserting that anyone who can operate a typewriter can be assured a comfortable income by following the plan sold by her; that persons purchasing her instructions will earn $30 a week, or that any of such purchasers have earned that amount, and that no experience is needed to put her plan into operation.

No. 01817. Owens & Minor Drug Co., Inc., Richmond, Va.; Dr. David’s Sanative Wash, for mange, scabies, and itch.

No. 01818. Mahlon Norvell, trading as Norvell, Hollywood, Calif.; Cystex, for discomforts of the kidneys and blood.

No. 01819. E. F. Reed, trading as Dietene Co., Minneapolis; Dietene, for obesity.

No. 01820. W. M. et W. West Manufacturing Co., Inc., Brooklyn, N. Y.; Polident, advertised as being capable of removing tartar and of ridding the user of worry regarding his plates.

No. 01821. Woman’s Mutual Benefit Co., Chicago; Primeda medicinal preparations, for ailments peculiar to women, for nervous disorders, headache, all kinds of pain, anemia, and nervousness.

No. 01822. Three Star Clothes, New York; McNeil’s Magic Remedy, for rheumatism, neuritis, lumbago, gout, and glandular swellings.

No. 01823. International Vitamin Corporation, New York City; I. S. C. Vitamin Pearls, for colds.

No. 01824. G. E. Co. an Angles; Cystex, for disorders of the kidneys and blood.

No. 01825. Duart Manufacturing Company, Ltd., 984 Polson St., and Duart Sales Company, Ltd., Humbolt Building, both of San Francisco, engaged in the sale of Creme of Milk, Beauty Cream, and other similar products, advertised that the natural oils of the skin and banish dryness, coarse pores, blackheads or any other skin ailments, or will do more than aid in modifying some superficial skin blemishes and disorders; that it has beautifying qualities that never have been duplicated, and is endorsed by the Motion Picture Hairstylists Guild or any other group, unless such is a fact. The respondents are still advertising their product as Creme of Milk unless in close proximity thereto it is conspicuously stated that the product contains ingredients other than buttermilk or milk oils.

No. 01826. R. M. and H. H. Baalmann, 1253 Mission Street, San Francisco, trading as Tysmol Company, will discontinue advertising that Tysmol Absorbent is a powerfully penetrating absorbent which quickly reaches burning, aching tissue, and that application of the preparation will rid one of achinlg pains and should free one from soreness, swelling, stiffness, or tenderness of the muscles or ligaments. Unless such latter claim is limited to such conditions when superficial and due to exposure.

No. 01861. Harold Wells Turner, 1133 Broadway, New York, trading as Health Supplies Company, is engaged in selling devices designated as Dr. Wright’s Irrigation Outfit and as Wilhide Exhaler. Turner will stop representing that Dr. Wright’s Irrigation Outfit, which he advertises as a new internal bath method, will keep the inside of the body clean, and that failure to do so necessarily causes numerous diseases and ailments; that use of his irrigation device will cure those suffering from tuberculosis, rheumatism, catarrh, obesity, ill health, kidney trouble, headaches and nervousness; that its use usually will abort mental attacks in cases of incipient insanity, and that it constitutes a competent treatment for acute and chronic diseases.

The respondents also will discontinue representing that its use strengthens the lungs and promotes the power of resisting disease, improves the health, and that it is more effective for such purposes than any other device known to physical culture.

No. 01863. B. Gordon, 7811-68th Road, Brooklyn, selling Vital Herbs, agrees to stop representing that use of this preparation will give increased health or energy, and that it is a natural, quick or exclusive method of increasing vitality. Gordon stipulates that he will no longer advertise that his method is recommended by physicians, or has given excellent results in clinics.

No. 01864. B. Gordon, 7811-68th Road, Brooklyn, trading as Vital Laboratory Products, whose address is Box 3690, Merchandise Mart, Chicago, has entered into a stipulation.

In the sale of Vitamin E Oil and other preparations advertised as containing Vitamin E Oil, the respondents agree to cease asserting that the presence of Vitamin E in the diet is necessary for certain functions of the body, and that Vitamin E Oil will correct Vitamin E deficiency.

No. 01866. Sherwood-Arthur Pharmacal Company, Inc., 306 Gloyd Building, Kansas City, Mo., trading as S. Arthur Company, will cease representing that their Gland Tablets will enable one to regain physical vigor, correct or prevent premature old age, and tend to revive the entire masculine system, or that the use of this preparation is indicated for loss of vitality, low blood pressure, mental depression, sluggish mind, or hardening of the arteries.

No. 01867. Raymond C., H. G. and Janet Grandone, trading as Grandone’s Laboratory, and as H. G. Grandone Son & Co., 1343 Market St., Harrisburg, Pa., agreed to stop advertising that Grandone’s Herboxal ends constipation, is a complete remedy for headache, and affords one a great opportunity to build health or vitality; that Grandone’s Cornoff removes soft corns or assures comfort to the feet, and that use of Grandone’s N Manhattan increases weight, helps to stimulate mental action, quiets the nerves, preserves youth, and feeds starved glands. The respondents also will discontinue representing that Baalmann’s Gas Tablets are a competent treatment for nervous indigestion, extreme nervousness and gas pains in the chest, or that the tablets constitute an effective remedy for heartburn, bloating, drowsiness.
after meals, headache, dizziness or labored breathing, unless such conditions are due to the accumulation of gas in the stomach or in the intestinal tract.

No. 2046. New York Plywood Co., Inc., 431 East 18th St., New York, distributor of veneers and plywood, agrees to cease using the terms "Wh Pine" or "White Pine", alone or in connection with other words as descriptive of products not made of wood derived from trees of the white pine group, and to stop employing the word "Walnut" alone or in connection with the word "Oriental" or with other words as descriptive of products not made of wood derived from the walnut tree family.

No. 2047. Silas K. and Arthur S. Himmelreich, and Irwin B. Schmidt, 1123 Chestnut St., Philadelphia, trading as John Davis Co., in the sale of fur garments, agree to stop representing B. Schmidt, 1123 Chestnut St., Philadelphia, trading as Valley Brook Knitting Mills, in the sale of men's underwear made of wood derived from the walnut tree family.

Radio Hat Company, N. J., trading as Lapin—Dyed Coney; French Seal—Dyed Muskrat; and Nutria—Dyed Coney, has entered into a stipulation with other words as descriptive of products not made of wood. Such a name shall be printed in type not less conspicuous than that in which the accompanying words are printed. When a dye or blend is used to simulate another fur, the true name of the fur appearing as the last word of the description shall be immediately preceded by the word "dyed" or "blended", compounded with the name of the simulated fur, such as in Hudson Seal—Dyed Muskrat; French Seal—Dyed Coney, and Nutria Lapin—Dyed Coney.

No. 2048. Martin's, Fulton and Bridge Sts., Brooklyn, operating a department store, agrees to stop use in advertising of the words "Silk Crepe" as descriptive of merchandise not composed of silk. The respondent company stipulates that it will also cease using either the word "Silk" or the word "Crepe" alone or in connection with other words so as to imply that the merchandise to which such words refer is composed of silk, when such is not a fact.

No. 2049. Max Bech, 421 Market St., Philadelphia, trading as Valley Brook Knitting Mills, in the sale of men's underwear and other wearing apparel, agrees to stop using the words "Knitting Mills" as part of his trade name or in any way so as to imply that he manufactures the products he sells, or that he actually owns or operates a plant in which they are made, when such is not a fact.

No. 2050. Garbo Hat Company, 304 Ninth St., Jersey City, N. J., trading as Radio Hat Company, has entered into a stipulation to discontinue misrepresentation of certain headgear it sells in interstate commerce. The firm agreed to cease selling hats and caps which it manufactures from second-hand, worn or discarded materials, unless there is stamped upon or affixed to such products, in a conspicuous place so as to be readily seen, words clearly indicating that the material from which the hats and caps are made is not new and unused but is second-hand, worn or discarded.

PTC CLOSES CASE

No. 3077. Closing of its case against The Texas Company, 135 East 42nd St., New York, distributor of petroleum products and automobile parts and accessories, has been ordered by the Federal Trade Commission. The company was charged with violation of the Clayton Act and the Federal Trade Commission Act. According to the order, the case was closed because the respondent company, in December, 1936, voluntarily discontinued the acts and practices charged in the complaint, which was issued on March 12, 1937, and because it did not appear to the Commission that there was any reason to believe that the alleged violations of law would be resumed.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning, Monday, October 4.

Monday, October 4

HEARING BEFORE AN EXAMINER

(Broadcast)

WFAS—Westchester Broadcasting Corp., White Plains, N. Y.—Special experimental authority, 1210 kc., 100 watts, simultaneous day WBBR and share WGNY, WGBB. Present assignment: 1210 kc., 100 watts, shares WGNY, WGBB, and WBBR.

WGAR—The WGAR Broadcasting Co., Cleveland, Ohio.—C. P., 1450 kc., 1 KW night, 5 KW LS, unlimited, using directional antenna at night. Present assignment: 1450 kc., 500 watts night, 1 KW LS, unlimited.

Tuesday, October 5

HEARING BEFORE AN EXAMINER

(Broadcast)

Wednesday, October 6

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—William C. Smith, Bogalusa, La.—C. P., 1310 kc., 100 watts, unlimited time.

KQW—Pacific Agricultural Foundation, Ltd., San Jose, Calif.—C. P., 1010 kc., 1 KW night, 5 KW LS, unlimited. Present assignment: 1010 kc., 1 KW, unlimited.

NEW—Larry Rhine, San Francisco, Calif.—C. P., 980 kc., 250 watts, daytime.

KMLB—Liner's Broadcasting Station, Inc., Monroe, La.—C. P., 630 kc., 500 watts, unlimited. Present assignment: 1200 kc., 100 watts night, 250 watts LS, unlimited.

Thursday, October 7

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. 1-412:

NEW—Pacific Acceptance Corp., San Diego, Calif.—C. P., 1200 kc., 100 watts, daytime.

Examiner's Report No. 1-327:

NEW—Smith, Keller & Cole, San Diego, Calif.—C. P., 1200 kc., 100 watts, daytime.

Examiner's Report No. 1-421:

WREN—The WREN Broadcasting Co., Inc., Lawrence, Kans.—Authority to transfer control of corporation; 1220 kc., 5 KW LS, shares with KFFKU.

Examiner's Report No. 1-403:

NEW—Lilliam E. Keifer, Brooklyn, N. Y.—C. P., 1500 kc., 100 watts night, 100 watts LS, specified hours (facilities WMBQ).

WWRL—Long Island Broadcasting Corp., Woodside, L. I.—Modification of license, 1500 kc., 100 watts night, 250 watts LS, specified hours (facilities WMBQ). Present assignment: 1500 kc., 100 watts night, 250 watts LS, specified hours.

WMBQ—Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Renewal of license, 1500 kc., 100 watts night, 100 watts LS, specified hours.

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—M. M. Valentine, Laredo, Tex.—C. P., 1500 kc., 100 watts night, 250 watts LS, unlimited.
HEARING BEFORE AN EXAMINER

Friday, October 8

APPLICATIONS GRANTED

WGAR—The WGAR Broadcasting Co., Cleveland, Ohio.—Granted C. P. for changes in equipment.

KELA—Central Broadcasting Corp., Centralia-Chehalis, Wash.—Granted modification of C. P. approving transmitter between Centralia-Chehalis, Wash., and studio at Pacific Highway, between Centralia-Chehalis; also changes in authorized equipment and installation of vertical radiator.

KMPC—Beverly Hills Broadcasting Corp., Beverly Hills, Calif.—Granted modification of license to change name to KMPC The Station of the Stars, Inc.

KFQD—Anchorage Radio Club, Inc., Anchorage, Alaska.—Granted temporary extension of existing license for period of 1 month.

WBRC—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—Granted temporary extension of existing license for period of 1 month.

WNEI—Indianapolis Power & Light Co., Indianapolis, Ind.—Granted renewal of license for the period 10-1-37 to 1-1-38.

WJAR—The Outlet Company, Providence, R. I.—Granted license to cover C. P. for new relay station, frequencies 1600, 2022, 2102 and 2758 kc., 100 watts. Also granted license covering same.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—C. P. to install new equipment; increase in day power to 250 watts.

WQDM—Regan and Bostwick, St. Albans, Vt.—Granted license to cover C. P. for new relay broadcast station, frequencies 39700, 39900, 40800 and 41400 kc., 5 watts.

WAXD—A. H. Belo Corp., Mobile (Dallas, Tex.).—Granted license to cover C. P. for new relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 40 watts.

WADA—Charleston Broadcast Co., Mobile (Charleston, W. Va.).—Granted license to cover C. P. for relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 75 watts.

SET FOR HEARING

NEW—Arlington Radio Service, Inc., Arlington, Va.—C. P. amended in hearingsocket to request 1150 kc., 1 kw., daytime only, exact transmitter new antenna system.

WMBG—Havens & Martin, Inc., Richmond, Va.—C. P. amended to request installation of new equipment and increase in power from 500 watts to 1 kw., using directional antenna for day and night operation.

WQDM—Regan and Bostwick, St. Albans, Vt.—Special experimental authorization to increase hours of operation from daytime only to unlimited; 1200 kc., 1 kw.

WMC—Memphis Commercial Appeal Co., Memphis, Tenn.—Granted license to cover C. P. for auxiliary purposes only; 780 kc., 500 watts.

WTF—Philadelphia, Pa.—C. P. to install new equipment; increase day power to 5 kw., with directional antenna system.

KFDP—The Baltimore Radio Show, Inc., Baltimore, Md.—C. P. to move transmitter locally, approximately 5 miles, to Reedbird Ave. and Seamon Ave. Install new equipment and installation of vertical radiator.

NEW—Church of Jesus Christ of Latter-Day Saints, Salt Lake City.—C. P., already in hearing docket, amended to request new international station in Saltair, Utah, to operate on 6020, 9510 and 11710 kc.

W1XAL—World Wide Broadcasting Corp., New York City.—Modification of license to add Pan American frequencies 9550, 11730, 15130 and 21500 kc., on temporary provisional basis. To be heard before Broadcast Division.

WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.—C. P. to make changes in equipment to install new equipment; change assignment from 1300 kc. to 1050 kc., and power from 100 watts to 500 watts, unlimited time. To be heard before the Broadcast Division.

WKBV—Karl L. Ashbacker, Muskegon, Mich.—Voluntary assignment of license to Ashbacker Radio Corp.; 150 kc., 100 watts night, 250 watts day, unlimited.

NEW—W. H. Kindig, Hollywood, Calif.—C. P. for a new station to operate on 710 kc., 500 watts, limited time, requesting facilities of KMPC, Beverly Hills, Calif., exact location to be determined subject to Commission's approval.

KMCB—Knox Radio Corp., to operate simultaneously with WBRB from 5 to 5:30 p.m., EST, Saturday, October 2, in order to broadcast program of local interest to Westchester County listeners; a football roundup of local interscholastic and nearby collegiate football scores.

WFAS—Westchester Broadcasting Corp., White Plains, N. Y.—Granted special temporary authority to operate simultaneously with WRB from 5 to 5:30 p.m., EST, Saturday, October 2, in order to broadcast program of local interest to Westchester County listeners; a football roundup of local interscholastic and nearby collegiate football scores.

WMBO—Joseph Husid, Receiver for Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Granted special temporary authority to increase power to 500 watts, limited time.

WGAS—Westchester Broadcasting Corp., to operate simultaneously with WBRB from 5 to 5:30 p.m., EST, Saturday, October 2, in order to broadcast program of local interest to Westchester County listeners; a football roundup of local interscholastic and nearby collegiate football scores.

WPS—Westchester Broadcasting Corp., White Plains, N. Y.—Granted special temporary authority to operate simultaneously with WRB from 5 to 5:30 p.m., EST, Saturday, October 2, in order to broadcast program of local interest to Westchester County listeners; a football roundup of local interscholastic and nearby collegiate football scores.

WMBO—Joseph Husid, Receiver for Metropolitan Broadcasting Corp., Brooklyn, N. Y.—Granted special temporary authority to increase power to 500 watts, unlimited time.

KUMA—Albert H. Schermann, Yuma, Ariz.—Granted special temporary authority to use auxiliary transmitter located at 29 Ft. Green Place, Brooklyn, as main transmitter, while moving in accordance with modification of C. P., for period October 2 to no later than October 30, 1937.

KMBC—Midland Broadcasting Co., Kansas City, Mo.—Granted special temporary authority to rebroadcast over station KMBC conversations transmitted by experimental stations W5XAR and W5XAS of the Western Radio Telegraph Co., for a period of not more than 1 hour between October 3 and 8, flying weather permitting.

WNAV—University of Oklahoma, Norman, Okla.—Granted special temporary authority to operate from 10:30 to 11:30 a.m. and from 2 to 4 p.m., CST, Oct. 19, 20, 21, 26, 27 and 28 (provided KGGE remains silent), in order to broadcast special educational programs.

WNYC—City of New York, Dept. of Plant and Structures, New York City—Granted extension of special temporary authority to use auxiliary transmitter located at 29 Ft. Green Place, Brooklyn, as main transmitter, while moving in accordance with modification of C. P., for period October 2 to no later than October 30, 1937.

WMBQ—Joseph Husid, Receiver for Metropolitan Broadcasting Corp., to operate station WMBQ for the period October 1 to October 30, pending action on any applications affecting the station.

WPEN—Wm. Penn. Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to increase power to 1 KW in order to counteract interference caused by CMX, Havana, Cuba, and WWJ, Detroit, KPRC, Houston, Texas, for period October 1 to October 30.

WRAK—WRAX Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to increase power to 1 KW in order to counteract interference caused by CMX, Havana, Cuba, and WWJ, Detroit, KPRC, Houston, Texas, for period October 1 to October 30.

WGNC—Plains Radio Broadcasting Co., Amarillo, Texas—Granted extension of special temporary authority to operate with reduced power of 1 KW daytime, in accordance with Rule 142, pending receipt of blocking condensers and repairs to power supply equipment for period September 26 to October 5, 1937.

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authority to operate on 560 kc. with 1 KW at night, for the period October 1 to October 30, 1937, including pending filing of and action on license application to cover C. P. for this authority.

KNST—Palestine Broadcasting Assn., Palestine, Texas—Granted special temporary authority to operate between 7 and 11 p.m., CST, October 1, 8, 15, 22, 28, in order to broadcast local football games.

WLB—University of Minnesota, Minneapolis, Minn., and WTCN, Minneapolis, Minn.—Granted special temporary authority to conduct a joint broadcast between 1:45 and 4:30 p.m., CST, on Saturdays, October 2, 9, 16, 23 and 30, using 5 KW transmitter of WTCN in order to broadcast University of Minnesota football games.

WCAD—St. Lawrence University, Canton, N. Y.—Granted special temporary authority to operate from 1:30 to 5 p.m., and 4 p.m. to local sunset (October sunset 5:15 p.m., EST), October 2, 9, 16, 23 and 30, 1937, in order to broadcast college football games.

KFO—Spokane Broadcasting Corp., Spokane, Wash.—Granted special temporary authority to operate from local sunset (October sunset, 5 p.m., PST) to conclusion of football games to be played October 5 and 8, 1937.

WIBW—Topeka Broadcasting Assn., Inc., Topeka, Kans.—Granted special temporary authority to rebroadcast over WIBW the conversation carried on between experimental stations W5XAR and W5XAS of the Western Radio Telegraph Co., for period of not more than 1 hour between October 11 and 14, flying weather permitting.

KFO—Spokane Broadcasting Corp., Spokane, Wash.—Granted special temporary authority to operate from local sunset (October sunset, 5 p.m., PST) to conclusion of football games to be played October 5 and 8, 1937.

WIBW—Topeka Broadcasting Assn., Inc., Topeka, Kans.—Granted special temporary authority to rebroadcast over WIBW the conversation carried on between experimental stations W5XAR and W5XAS of the Western Radio Telegraph Co., for period of not more than 1 hour between October 11 and 14, flying weather permitting.

SPECIAL AUTHORIZATIONS

KUMA—Albert H. Schermann, Yuma, Ariz.—Granted extension of special temporary authority to remain silent for the period September 21 to October 20, pending action on application for C. P. to move transmitter.

WKBV—Knox Radio Corp., Richmond, Ind.—Granted special temporary authority to operate from 9:45 a.m. to 10 a.m., CST, September 24, 27, 29, October 1, 4, 6, 8, 11, 13 and 15, in order to broadcast Earlham College Chapel Service.

WCAT—South Dakota State School of Mines, Rapid City, S. Dak.—Granted special temporary authority to operate from 8:30 to 11:30 p.m., CST, September 24, October 1, 2, 15, 22, 29 and 30, in order to broadcast College and High School Football games.

The Birmingham News Co., Birmingham, Ala.—Granted special temporary authority to operate a relay broadcast transmitter on the frequencies of 31100, 34600, 37600, 40600 kc.; 2 watts, for experimental tests September 24, 25 and 26, and program transmission from State Fair for the period September 27 to October 2, for rebroadcast over WSGN.

WRUF—University of Florida, Gainesville, Fla.—Granted special temporary authority to operate simultaneously with KOA from 8 p.m., EST, September 25 and October 8, to conclusion of football games between Louisiana State University and the University of Florida and between Temple University and University of Florida.

WKBY—Knox Radio Corp., Richmond, Ind.—Granted special temporary authority to operate 1:30 to 5:15 p.m., CST, September 25, October 2 and 16, 1937, in order to broadcast Earlham College Football Games direct from the playing field.

WAXR—WAXC—Alford J. Williams, Care of Gulf Oil Corp., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WAXB and WAXC at Municipal Airport, Toledo, Ohio, on September 26, and Municipal Airport, Knoxville, Tenn., on October 15.

WHDB—Upper Mich. Broadcasting Co., Calumet, Mich.—Granted special temporary authority and to operate from 12:30 p.m. to 3:30 p.m., CST, Saturdays, October 2, 9, 16, 23 and 30, 1937, in order to broadcast play-by-play accounts of football games; also to operate from 12:30 to 3:30 p.m., CST, October 5 or 6, and each day thereafter as may be necessary to broadcast play-by-play account of World Series.

KFIO—Spokane Broadcasting Corp., Spokane, Wash.—Granted special temporary authority to operate from local sunset (October sunset, 5 p.m., PST) to conclusion of football games to be played October 5 and 8, 1937.
WBAA—Purdue University, W. Lafayette, Ind.—Granted special temporary authority to operate from 4 to 5 p. m., CST, Saturday, October 9, in order to broadcast Homecoming football game at Purdue University.

WMFD—Richard Austin Dunlea, Wilmington, N. C.—Granted special temporary authority to operate from local sunset (5:45 p. m. to 9 p. m., EST, October 11 through October 17, in order to broadcast services of Southern Methodist Conference.

KETJ—Marshall Electric Co., Inc., Marshalltown, Iowa—Granted special temporary authority to rebroadcast conversation carried on between experimental radio stations W5XAR and W5XAS of Western Radio Telegraph Co., for a period of not more than 1 hour between September 22 and September 27, flying weather permitting.

APPLICATIONS DENIED

WESG—Cornell University, Elmlne, N. Y.—Denied special temporary authority to operate simultaneously with WWL from 7 p.m., EST, until conclusion of Playoff Baseball Games between New York and Penna. Leagues for period beginning September 17 and ending not later than September 24.

WELI—City Broadcasting Corp., New Haven, Conn.—Denied special temporary authority to operate unlimited time, Sunday, October 10, 1937, in order to celebrate the second anniversary of station WELI.

The following application heretofore set for hearing, was denied as in case of default for failure of applicants to file an appearance in accordance with Rule 104.6(c):

Walter Bidlick Co., Tia Juana, Mexico Authority to supply electrical transcriptions to station XEMO at Tia Juana.

APPLICATIONS DISMISSED

The following application, heretofore set for hearing, was dismissed at request of applicant:

NEW—Decatur Newspapers, Inc., Decatur, Ill.—C. P. for special broadcast station; 1550 kc., 1 KW, unlimited time.

The following applications, heretofore set for hearing, were dismissed with prejudice, inasmuch as request for withdrawal was received less than 30 days prior to the hearing scheduled thereon:

NEW—Athens Times, Inc., Athens, Ga.—C. P., 1210 kc., 100 watts, 250 watts LS, unlimited time.

NEW—Charles B. Thornton & M. E. Thorton, d/b as Port Angeles Broadcasters, Port Angeles, Wash.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time.

NEW—Wm. E. Walker & Merrill F. Chapin, d/b as Walker & Chapin, Oshkosh, Wis.—C. P., 1010 kc., 250 watts, unlimited time.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

KGGU, Mandan, N. Dak.; KGCM, Albuquerque, N. Mex.; KMBC (auxiliary), Kansas City, Mo.; WCAL, Northfield, Minn.; WLB, Minneapolis, Minn.; WDAE, Tampa, Fla.

WFLA—Fla. West Coast Broadcasting Co., Inc., Clearwater, Fla.—Granted renewal of license for the period ending March 1, 1938.

WHIO—Miami Valley Broadcasting Corp., Dayton, Ohio—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

KVOR—Out West Broadcasting Co., Colorado Springs, Colo.—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

WJBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

WNBZ—Smith and Mace, Saranac Lake, N. Y.—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

WLBL—State of Wisconsin Dept. of Agr. and Markets, Stevens Point, Wis.—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

KGBU—Alaska Radio & Service Co., Inc., Ketchikan, Alaska—Present license extended on a temporary basis only for period ending no later than November 1, 1937, pending receipt and/or action on renewal.

WGRC—North Side Broadcasting Corp., New Albany, Ind.—Present license extended on a temporary basis for the period ending November 1, 1937, subject to such action as may be taken on application for renewal of license pending before the Commission; and subject, further to the condition that nothing contained in said extension of license shall be construed as a finding that the operation of station is or will be in the public interest beyond the express terms thereof.

kmBC, Kansas City, Mo.; KQW, San Jose, Calif.; KTFI, Twin Falls, Idaho; WBPR and auxiliary, Baltimore; KPJO, Spokane, Wash.

WJAX—City of Jacksonville, Jacksonville, Fla.—Granted renewal of license for the period ending March 1, 1938.

WSUN—St. Petersburg Chamber of Commerce, St. Petersburg, Fla.—Granted renewal of license for the period ending March 1, 1938.

WCAE—WCAE, Inc., Pittsburgh, Pa.—Granted renewal of license on a temporary basis subject to whatever action may be taken by the Commission upon application for renewal.

WCAE—WCAE, Inc., Pittsburgh, Pa.—Granted renewal of license on a temporary basis subject to whatever action may be taken by the Commission upon application for auxiliary.

WABG—Memphis Commercial Appeal Co., Mobile—Granted renewal of Relay Broadcast Station license.

KNEF—Radio Service Corp. of Utah, Mobile—Granted renewal of Relay Broadcast Station license.

KILU—Arkansas Radio & Equipment Co., Mobile—Granted renewal of license on a temporary basis for the period October 1, 1937 to October 1, 1938, subject to whatever action the Commission may take on application for this station for renewal of license.

WTNE—WOAX, Inc., Trenton, N. J.—Present license further extended on a temporary basis only to November 1, 1937, subject to such action as may be taken on pending application for renewal.

KABJ—Central States Broadcasting Co., Mobile—Granted renewal of relay broadcast station license.

KIJS—Harris Co. Broadcast Co., Mobile—Granted renewal of relay broadcast station license.

KIIR—KFAB Broadcasting Co., Mobile—Granted renewal of relay broadcast station license.

KIEF—Seattle Broadcasting Co., Mobile—Granted renewal of relay broadcast station license.

WGBF—WBNS, Inc., Mobile—Granted renewal of relay broadcast station license.

WAAG—Julio M. Conesa, Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.

KJG—Eagle Broadcasting Co., Inc., Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.

KJV—Charles L. Jarell, Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.

KABV—McClatchy Broadcasting Co., Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.

WAB—Juan Piza, Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.

WJLF—WBNU, Inc., Mobile—Relay broadcast station license extended on a temporary basis only for the period ending no later than November 1, 1937, pending receipt and/or action on renewal application.
ACTION ON EXAMINERS' REPORTS

WNBC—Ex. Rep. 1-350: State Broadcasting Corp., New Britain, Conn.—Granted C. P. to make changes in equipment; install directional antenna (site to be determined); change power from 250 watts day to 1 KW day, 250 watts night; change hours of operation from daytime to unlimited; 1380 kc. Order effective November 16, 1937. Examiner M. H. Dalberg sustained.

NEW—Ex. Rep. 1-398: Stanley Reid & Charles Withnell Boegel, Jr., d/b/a The Rapids Broadcasting Co., Cedar Rapids, Ia.—Denied C. P. for new broadcast station to operate on 1310 kc., 100 watts, unlimited time. (Site to be determined, subject to Commission's approval.) Order effective November 30, 1937. Examiner George H. Hill sustained.

WLB—Ex. Rep. 1-463: University of Minnesota, Minneapolis, Minn.—Granted C. P. to install new equipment; make changes in antenna; change frequency from 1250 kc. to 760 kc.; increase power from 1 KW to 1.5 KW night, 5 KW day; change hours from specified to sharing with WCLC (½ daytime). Examiner P. W. Seward sustained. Order effective November 23.

WTCN—Minn. Broadcasting Corp., Minneapolis, Minn.—Granted modification of license to change hours of operation from specified to unlimited time; 1250 kc., 1 KW night, 5 KW day. Examiner Seward sustained. Order effective November 23.

WCLC—Northfield College, Northfield, Minn.—Granted C. P. to make changes in equipment; install new antenna; change frequency from 1250 kc. to 760 kc.; increase power from 1 KW night, 2½ KW day to 5 KW; change hours of operation from specified to sharing with WLB (½ daytime). Examiner Seward sustained. Order effective November 23.

WPEN—Ex. Rep. 1-440—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted modification of license to change hours of operation from sharing with WRAX to unlimited time; 920 kc.; 250 watts night, 500 watts day; directional antenna for night use (facilities of WRAX). Also granted authority to transfer control of corporation from Clarence H. Taubel to John Iraci; and granted modification of license to increase power from 250 watts night, 500 watts day to 1 KW, using directional antenna; 920 kc., share with WRAX.

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted authority to transfer control of corporation from Clarence H. Taubel to John Iraci. Also granted modification of license to increase power from 250 watts night, 500 watts day to 1 KW, using directional antenna both night and day; 920 kc., sharing with WPEN. Order in the above cases effective November 2, 1937. Examiner Tyler Berry sustained in part.

WGI—Ex. Rep. 1-477: Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—Granted C. P. to make changes in equipment and increase in day power from 100 watts to 250 watts; 1270 kc., 100 watts night, unlimited time. Order effective November 2, 1937. Examiner Tyler Berry sustained.

ACTION ON PETITIONS

Pittsburgh Radio Supply House, The Head of the Lakes Broadcasting Corp., and Intermountain Broadcasting Corp.—Denied respondents' petition for rehearing and applicant's (WATR's) statement in opposition, involving C. P. for 1290 kc., 250 watts unlimited time (Docket 4292), since these parties have filed a notice of appeal from the decision of the Broadcast Division in this matter in the Court of Appeals for the District of Columbia.

NEW—Hildreth & Rogers Co., Lawrence, Mass.—Dismissed petition for rehearing and request for extension of effective date of decision of the Broadcast Division upon applications of The Times Publishing Co., and Michael F. Murray, St. Cloud, Minn. (Ex. Rep. 1-258).

KWBG—The Nation's Center Broadcasting Co., Inc., Hutchinson, Kans.—Denied further hearing on application for C. P. to install directional antenna for nighttime use, change frequency from 1420 to 550 kc., and increase power from 100 to 250 watts, unlimited time, and dismissed demurrer thereto of the Pulitzer Publisher Company, respondent.

APPROVED LETTER TO RADIO MANUFACTURERS ASSOCIATION

The Commission approved a letter to the Radio Manufacturers Association relative to the establishment of 455 kc., as a protected intermediate frequency for the radio manufacturing set industry. This letter contemplates the establishment of the following policies by the Commission:

1. That the Commission will endeavor not to authorize any new frequency assignment in the band 450–460 kc.
2. That no change in existing assignments within this band will be made by the Commission.
3. That in case a change of policy in regard to Nos. 1 and 2 above is necessitated at a later date, the Commission will notify the Radio Manufacturers Association of any contemplated action.

RULE 229 MODIFIED

Rule 229 was modified in part as follows: 5085 kc. FIXED.

APPLICATIONS DISMISSED

The following applications, hereetofore set for hearing, were dismissed at request of applicants:

ORAL ARGUMENTS GRANTED

The Broadcast Division granted oral arguments on the following Examiner's Reports to be held December 16, 1937:

EFFECTIVE DATE CHANGED

KROW—Educational Broadcasting Corp., Oakland, Cal.—Granted petition to intervene in the hearing on the application of Larry Rhine for a new station in San Francisco to operate on 980 kc., 250 watts daytime.

KROW—Educational Broadcasting Corp., Oakland, Cal.—Granted petition to intervene in the hearing on the application of Larry Rhine for a new station in San Francisco to operate on 980 kc., 250 watts daytime.

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Granted petition to intervene in the proceedings on the application of Larry Rhine for a new station in San Francisco.

NEW—Times Printing Co., Chattanooga, Tenn.—Granted petition to intervene in the hearing on the application of Larry Rhine for a new station in San Francisco to operate on 980 kc., 250 watts daytime.

NEW—Lawrence K. Miller, Pittsfield, Mass.—Denied petition to amend application for C. P. to establish a new station on frequency 930 kc., 250 watts, daytime hours. This case was heard by an Examiner who submitted his report (1.372) thereon recommending denial of application.

NEW—James T. Hurley, Salisbury, N. C.—Denied petition to amend application for C. P. to establish a new station on frequency 930 kc., 250 watts, daytime hours.

NEW—Lawrence K. Miller, Pittsfield, Mass.—Denied petition to amend application for C. P. to establish a new station on frequency 930 kc., 250 watts, daytime hours.

NEW—Lawrence K. Miller, Pittsfield, Mass.—Denied petition to amend application for C. P. to establish a new station on frequency 930 kc., 250 watts, daytime hours.

MISCELLANEOUS

KWBG—Nations Center Broadcasting Co., Inc., Hutchinson, Kans.—Granted petition to intervene in the hearing on the application of John P. Harris, for a C. P. to establish a new station at Hutchinson, Kansas, to operate on 710 kc., 1 KW, unlimited time.

KROW—Educational Broadcasting Corp., Oakland, Cal.—Granted petition to intervene in the hearing on the application of Larry Rhine for a new station in San Francisco to operate on 980 kc., 250 watts daytime.

KJBS—Julius Brunton & Sons Co., San Francisco, Calif.—Granted petition to intervene in the proceedings on the application of Larry Rhine for a new station in San Francisco.

NEW—Times Printing Co., Chattanooga, Tenn.—Granted petition to intervene in the hearing on the application of Larry Rhine for a new station in San Francisco to operate on 980 kc., 250 watts daytime.

NEW—Lawrence K. Miller, Pittsfield, Mass.—Denied petition to amend application for C. P. to establish a new station on frequency 930 kc., 250 watts, daytime hours. This case was heard by an Examiner who submitted his report (1.372) thereon recommending denial of application.

On July 2, 1937, the Division remanded the application for further hearing, and the case is now calendared to be heard further on September 23, 1937.

NEW—Y. W. Scarborough & J. W. Orvin, Charleston, S. C.—Denied petition to amend application with regard to location and type of antenna. Applicants seek a C. P. for new
station to use 1210 kc., 100 watts night, 250 watts day, unlimited time.

WCLS—WCLS, Inc., Joliet, Ill.—Granted petition to withdraw application for modification of license to use 1310 kc., 100 watts, unlimited time, without prejudice.

NEW—National Life and Accident Ins., Co., Nashville, Tenn.—Granted motion for Continuance of Hearing to a date not earlier than December 14, 1937, on application for C. P. to use 1370 kc., 100 watts night, 250 watts LS, unlimited time.

Granted petition of WDDO Broadcasting Corp., Chattanooga, Tenn., to intervene in the proceedings upon the application of the Times Printing Co., for a new station at Chattanooga, Tenn., using 1120 kc., 500 watts, 1 KW LS, unlimited time.

Granted petition of Golden Gate Broadcasting Co., licenses of station KGGC, San Francisco, to intervene in the hearing upon the application of Larry D. Neilan for a C. P. to establish a new station in San Francisco to use 980 kc., 250 watts, daytime hours.

Granted petition of Western Ontario Broadcasting Co., Ltd., licensee of station CKLU, Windsor, Ontario, to intervene in the proceeding upon the application of the First Baptist Church of Pontiac, Mich., for authority to transmit programs to radio station CKLU.

Granted petition of WAPO, W. A. Patterson, Chattanooga, Tenn., to intervene in the hearing upon the application of the Times Printing Co., for C. P. to establish a new station in Chattanooga, Tenn., upon the frequency 1120 kc., 500 watts, 1 KW LS, unlimited time.

Granted petition of station WIBA, Madison, Wis., to intervene in the hearing upon the application of Four Lakes Broadcasting Co., Madison, Wis., for C. P. to establish a new station on frequency 830 kc., 100 watts, daytime hours.

Granted petition of WAPO, Chattanooga, Tenn., to intervene in the proceeding upon the application of WWPC, Inc., Pittsburgh, Pa., for C. P. to establish a new station using frequency 1120 kc., 250 watts, unlimited time.

 Granted petition of Carl E. Haymond (KIT), Yakima, Wash., to intervene in the hearing upon the application of Shirley D. Parker to establish a new station at Yakima, Wash., using frequency 1310 kc., 100 watts, 250 watts LS, unlimited time.

Granted petition of WAPO, Chattanooga, Tenn., to intervene in the hearing upon the application of station WIBA, Madison, Wis., for C. P. to establish a new station upon frequency 1120 kc., 500 watts, 1 KW LS, unlimited time.

Granted petition of WTCN, Minneapolis, Minn., to intervene in the proceeding upon the application of KSTP, St. Paul, Minn., for a C. P., specifying frequency of 1160 kc., 50 KW, unlimited time.

Granted petition of Dr. Geo. W. Young (WDGY), Minneapolis, Minn., to intervene in the proceeding upon the application of KSTP, St. Paul, for C. P. using 1450 kc., 50 KW, unlimited time.

Granted petition of the Food Terminal Broadcasting Co., Cleveland, Ohio, to intervene in the proceeding upon the application of the WQAR Broadcasting Co., for C. P. to establish a new station in Cleveland, using frequency 1450 kc., 1 KW, 5 KW LS, unlimited time.

Granted petition of WSIX, Inc., Nashville, Tenn., to intervene in the hearing upon the application of National Life and Accident Ins., Co., Inc., for C. P. to establish a new station in Nashville, using frequency 1370 kc., 100 watts, 250 watts LS, unlimited time.

Granted petition of Broadcasters, Inc., for a 30-day continuance of hearing upon its application for C. P. to establish a new station in Gastonia, N. C., using 1220 kc., 100 watts, 250 watts LS, unlimited hours, now calendared for October 8. A new date will be fixed by the Docket Section.

Denied petition of Santo Sottile, Charleston, N. C., for postponement for a period of 60 days beyond October 22, 1937, of hearing scheduled on application for C. P. to establish a new station on frequency 1290 kc., 100 watts, 250 watts LS, unlimited time.

Denied motion of the Wichita Broadcasting Co., to extend time for oral argument on Ex. Rept. 1-435, from 30 minutes to two hours. However, the Commission, upon consideration of said motion, extended the period for oral argument in these cases from 30 minutes to 1 hour for each applicant.

 Denied petition of The Rapids Broadcasting Co., Cedar Rapids, Iowa, to reopen the record in December 31, 1932 (Ex. Rept. 1-398), for the purpose of admitting proof of settlement of the judgment against one of the partners or to accept the evidence of satisfaction of said judgment.

Held in “suspension file” application of KVSO, Ardmore, Okla., for authority to install new equipment, and increased power from 100 watts to 250 watts, in view of provisions of Rule 137.

Held in “suspension file” application of Auburn Publishing Co., Auburn, N. Y., for new station at Auburn, to operate on 1310 kc., 250 watts day, 100 watts night, pending final determination on application for consent to the transfer of control of WMBQ to Roy L. Albertson to the Auburn Publishing Co. The hearing is set for oral argument before Broadcast Division on October 14, 1937.

RATIFICATIONS

The Broadcast Division ratified the following actions taken on the dates shown:

KFGI—Eagle Broadcasting Co., Inc., Corpus Christi, Tex.—Granted extension of program test period 30 days from September 18, 1937. Action taken 9-16.

KGNC—Plains Radio Broadcasting Co., Amarillo, Tex.—Granted authority to operate with reduced power in accordance with Rule 142. Action taken 9-16.

WBHP—Wilton Harvey Pollard, Huntsville, Ala.—Granted extension of program test period 30 days from September 15, 1937. Action taken 9-14.

KWTO—Ozarks Broadcasting Co., Springfield, Mo.—Granted special temporary authority to operate from 5 to 6 a. m., CST, with 1 KW only, September 15 to October 14, 1937, inclusive, in order to conduct an experimental farm program. Action taken 9-14.

KHQ—Louis Wasmer, Inc., Spokane, Wash.—Granted special temporary authority to use Model 105-C W. E. transmitter in place of transmitter now licensed for period not to exceed 15 days, due to mechanical difficulties with present transmitter and while same is under repair. Action taken 9-16.

W2XDG—National Broadcasting Co., Inc., New York City.—Granted extension of special temporary authority to operate high frequency broadcast station W2XDG on frequency 38.65 megacycles for the period September 17 to October 16, pending definite arrangements to be made in the ultra high frequency bands. Action taken 9-16.

WSVS—Seneca Vocational High School, Buffalo, N. Y.—Granted extension of special temporary authority to remain silent from September 16 to 27, due to postponement of opening of the public schools because of epidemic of infantile paralysis. Action taken 9-16.

WBZ—Westinghouse Electric and Manufacturing Co., Boston, Mass.—Granted special temporary authority to rebroadcast over stations WBZ and WBZA and over National Broadcasting Co. network accounts of search for “Endeavor I”, lost at sea, originating on any Coast Guard boat which may be in search for lost boat, for a period not to exceed 10 days. Action taken 9-16.

WBZA—Westinghouse Electric and Manufacturing Co., Boston, Mass.—Granted special temporary authority to rebroadcast over stations WBZ and WBZA and over National Broadcasting Co. network accounts of search for “Endeavor I”, lost at sea, originating on any Coast Guard boat which may be in search for lost boat, for a period not to exceed 10 days. Action taken 9-16.

KPRC—Houston Printing Corp., Houston, Tex.—Granted extension special temporary authority to operate with 5 KW power night for period September 21 to October 20, 1937. Action taken 9-16.

WJDX—Lamar Life Ins. Co., Jackson, Miss.—Granted special temporary authority to use RCA Type 250-D transmitter with indirect power measurement and operate with reduced power of 250 watts day and night for period not to exceed 30 days, in order that present equipment may be made operational and new transmitter of 300 KW as authorized by C. P. may be installed in same location. Action taken 9-18.

2308
Peoples Pulpit Assn., Brooklyn, N. Y.—Set for hearing application for authority under Sec. 325 of the Communications Act to transmit a program through wire facilities of American Telephone and Telegraph Co. from Coliseum, State Fair, Columbus, Ohio, to station COCQ, Havana, Cuba, program of Judge Ruthford from 12 noon to 1 p. m., EST, September 19. Action taken 9-16.

Granted petition of WAVE, Inc., to intervene in the proceedings upon the application of WLBG, Inc., Petersburg, Va. (WPHR), for C. P., Docket 4681.

The Commission ratified the following actions taken on the dates shown:

Denied request of the Pittsburgh Radio Supply House, the Head of the Lakes Broadcasting Company, and the Intermountain Broadcasting Corp. to postpone from time to time the effective date of the order of the Broadcast Division entered July 6, 1937, granting the application of the WATR Company, Inc., for C. P. (Docket 4294).

Approved a corrected order in the Brooklyn cases. General Session Minute No. 538 has been corrected in accordance therewith, and the stenciled and permanent minutes will reflect the corrections made.

Denied request of Continental Radio Co. to postpone the effective date of the order of the Broadcast Division entered July 6, 1937, granting the application of Community Broadcasting Company for C. P., Docket No. 2657, and denying the application of Continental Radio Co. for C. P., Docket No. 3301, until 20 days shall have expired after final decision upon its petition for rehearing.

McNinch Assumes Duties as Chairman of the FCC

TRANSCRIPT OF FIRST PRESS CONFERENCE

Frank R. McNinch, former chairman of the Federal Power Commission, was sworn in as chairman of the Federal Communications Commission on October 1, succeeding the late Anning S. Prall. The following day he held his first press conference and indicated that he would hold similar conferences regularly at least during the time new policies may be formulated by the Commission.

During the course of the conference with the new chairman was asked many questions. He discussed radio monopoly, newspaper ownership of broadcasting stations, trafficking in station licenses and many other matters of similar interest. Following is a stenographic transcript of the first press conference:

Let's begin the conference by my giving you a copy of the President's letter to me with regard to my work at the Federal Communications Commission.

I have no prepared statement but will be glad to try to answer any questions you may want to ask me.

I may begin with a few general observations. First I want to say that my reception by the members of the Federal Communications Commission has been just as cordial as it could have been if they, instead of the President, had selected me for this job, and I have been given assurance by the members of the Commission that I shall have their full and hearty cooperation. I shall need and shall count heavily on their support, for without this my efforts would be futile. With the support of the Commission, and as one of the seven members thereof, acting in harmony, I am confident we shall be able to do some constructive things in the public interest.

I regard broadcasting as a public utility, subject to regulation and to me regulation does not mean "strangulation" but it does mean regulation by the Commission and not being regulated by the industry or anybody else. I have had a part in the work of the Power Commission as a member and later as Chairman. That industry has grown and prospered under a policy of vigorous yet fair regulation. It has definitely resulted in the elimination of some things in the industry which were not in the public interest in my opinion but, notwithstanding that, the sum total of the result is that that industry is today in my judgment on a sounder basis and enjoying a larger measure of prosperity than ever before in its history.

The Communications Commission's statute makes it perfectly clear that there can be no vested right in the use of radio frequencies. The statute provides, if I recall clearly, that before a license can be granted the licensee must waive any claim against the control of the United States. I shall do what I can within the statute to prevent or break up anything, if there has been anything, of what is commonly known as "trafficking in licenses."

Q. What do you mean by that?

A. I understand that under the statute the licensee has nothing to sell except the physical property which belongs to licensee. This seems clear from the provisions of the law against vesting any rights in the use of frequencies and the expressed waiver by licensee of any such claim and the further provisions forbidding transfers either voluntary or involuntary except with the consent of the Commission. One can sell only that to which he has title, either absolute or qualified.

Q. Would he have any good will?

A. None whatever, in my judgment. There can be no good will to pass on to another, it seems to me, when a license is for the limited term of six months and with no legal right to renewal and can be renewed or transferred only by written permission of the Commission and when furthermore the statute specifically forbids vested rights, within which term good will might be thought by

some to come. I shall be interested to know, as licenses come before the Commission for action, what is the actual, legitimate cost or value of the equipment that would follow with the transfer of a license. In my opinion by reason of various statutory provisions the legal maxim, caveat emptor, “Let the buyer beware,” has even more than usual significance because the buyer is put on notice by the statute that there is nothing he can purchase except physical property if the Commission is willing for the license to be transferred.

Q. In that connection would there be any advantage to a going concern?
A. I would not try to answer that categorically now, as I am not familiar with all the provisions of the statute. But “going concern” is a somewhat different thing than “good will.” The latter implies, in part, the legal right to sell the continued use of a good name, carrying with it the good will of customers or the public, while “going concern” may, for illustration, include the legitimate expense of organizing a business and getting it going. However, I reserve completely my opinion on this question.

Q. Have you any views on newspaper ownership of stations?
A. I have not. I regard that as one of the important policy problems to be thought through and either determined by the Commission or presented to the Congress with such recommendations, if any, as the Commission may see fit to make for determination.

Q. Will you support Mr. Payne's request to Powell Crosley for a complete financial statement?
A. I neither now give nor fail to give support because I am not informed and, therefore, have no opinion at present.

Q. Have you any opinion in regard to exclusive rights in radio?
A. If by that you mean monopoly, I have. The statute forbids monopoly in broadcasting and my own views are in complete harmony with this provision of the statute. I am not now sufficiently informed to know whether there may be rare situations in which a limited monopoly may or may not be able to serve the public interest better and more economically. I want to think more about this.

Q. Monopoly would mean both local and national monopoly?
A. I should think so but on that I must reserve my opinion. However, I see at present no fundamental distinction.

Q. You have no flat feeling about networks owning stations?
A. No, I do not.

Q. How do you feel about Government ownership?
A. That is a subject to which I have not yet given thought.

Q. How many members of your Commission will sit on the radio division?
A. The present arrangement provides for three. Whether I may recommend a different arrangement I do not now know.

Q. You will serve on the radio division?
A. The Commission designates the members of the divisions. I want to be a member of each division, or at any rate to be in close touch with not only radio but also telephone and telegraph work equally. In that connection it may be a very good place for me to say that, while there has been considerably more in the press about radio than telephone and telegraph, I shall not permit my energies to be completely absorbed in any one particular phase of this Commission's work. I know very little about telephone and telegraph but I think all of us know—the man in the street knows—that telephone and telegraph affect universally and very materially both the social and economic welfare of our people. I shall take active interest in both of these industries and if there appear to be things existing there not in the public interest I shall go directly into them and assist the Commission in such way as I can in their correction.

Q. Do you think this Commission should engage in fixing charges in radio activities?
A. The statute forbids that. I am not certain that subsequent legislation should not provide for some measure of control of charges by radio just as the statute does provide for control of interstate charges made by telephone and telegraph. Saying that, I am advertent to the definition in the statute that telephone and telegraph are common carriers and that radio is not a common carrier but it is not necessary in law that an industry be a common carrier to be subject to regulation. I have read in the press now and then some statements about amounts of money supposed to have been made by this, that or another broadcasting organization. I know nothing about them. However, I have no hesitancy in saying that, while the statute does not now provide for regulation of broadcasting charges, I question the wisdom of a policy which would leave forever free from regulatory control the charges made by any public utility.

Q. Do you feel that since broadcasting stations are required to be licensed by the Federal Government that their fees should be subject to control by the Government? In other words, do you think that, since they have licenses from a Federal agency, that their degree of financial gain is to be regulated by the Federal Government?
A. The statute absolutely forbids the Commission doing what you indicate might be desirable. If the Commission had the authority, it would regulate the earnings by regulating the charges.

Q. Do you think that the radio industry should pay fees that would cover the cost of administration?

A. I have not thought that through. I have read articles pro and con and know that in other countries the arrangement is different than in the United States, but I have no opinion about it at present.

Q. Have you formed any opinion upon a tax for broadcasters?

A. No, I have not.

Q. This rate fixing, would that be rates charged on radio stations for their time?

A. Have they anything else to sell? I am not sufficiently informed to know the answer.

Q. Do you think there is a chance of recommendation to Congress in the next session?

A. I would hope that by next session I shall know more about the situation than I do now. I have tentative views but those are held in reserve until I know more about the situation and exchange views with my colleagues. I know little about my new work. My work has been in the electric power field. I am approaching my work with an open mind, desiring to hear and receive impressions and views of others who may be able to help me.

I hold to the doctrine of Thomas Jefferson, that "When a man accepts a public trust he should consider himself public property." There shall be no secrets about anything I do, nor any secrets about any opinions I may have unless I may think it inadvisable to announce an opinion before action. I am not here to do anything for anybody. I shall make such investigations as appear to be necessary to enable me to ascertain what may have been done, but which may not be beyond the power of correction. I am not going to spend my time in graveyards, listening to ghosts. I have a real job as I view it. I face the future but I shall not neglect the past if it appears to me that the past may be a lamp to guide my feet. There will be no covering up of anything about anyone either high or low. Is it your understanding that it has been done in the past?

A. I have not.

Q. You made the statement that there would be no covering up of anything about anyone either high or low. Is it your understanding that it has been done in the past?

A. No. That statement was based on what has been in the press. I do not know that there has been anything here that would not stand the white light of publicity if the facts were known. However, I think all of us are familiar with the saying that where there is a lot of smoke at least there may be a little fire. And I am a Bible reader, incidentally. The greatest piece of literature on earth. And one of the things I recall that the great preacher in Ecclesiastes said, is: "Where there is no wood the fire goeth out; and where there is no talebearer the strife ceaseth." I shall not put any wood on the fire. I shall try to dissuade any other who might be so inclined, for if there has been any fire, let's put it out.

Q. Do you anticipate any changes on the Commission now?

A. No.

Q. Have you any views as to investigation by Congress?

A. Knowing no more than I do about the situation, I cannot say that I have any views. Whether there should be an investigation by the Congress is a matter for the Congress and not for me or the Commission to determine. However, I shall make some investigation myself in order that I may work more effectively. I do not mean anything spectacular, or formal. I mean that I am going to try to get at what is the situation here in order that I may do my duty as it appears to me.

Q. What will be done about the transfers and licenses filed from time to time? Will they be acted upon immediately or wait until you have had time to form a policy?

A. I do not know what the present procedure is but I would not suggest any delay which would visit injustice on anyone. About the furthest I can go in that direction is that upon major matters pending before the Commission I shall hope that it will not appear to the Commission that giving me a reasonable time to inform myself will do injustice to anyone.

Q. Have you given any thought to the question of extending the license period?

A. I have not.

Q. Do you intend to have regular press conferences now?

(Here followed free for all discussion and many suggestions. It was agreed that press conferences would be held, the details to be announced later.)
Q. Have you formed any opinion at all about super power stations?
A. No, I have not.

Q. Do you expect to have that matter settled before the International Telecommunications Conference?
A. No, I had not thought of it as waiting on any particular conference.

Mr. McNinch made public the following letter from the President which he received upon his appointment to the Communications Commission:

"As you go to your new assignment as Chairman of the Federal Communications Commission, I want you to know that I am confident you will render an important public service in a field which so vitally affects the public welfare. I am sure your colleagues and the public will expect and welcome from you aggressive and fearless leadership with fairness to all interests concerned. I hope and believe you will have the necessary support and cooperation of your associates and the staff, and you are assured of any help I can properly give you.

"I regard it as of prime importance that you assist the Commission in formulating policies and principles of action and procedure. After any Commission may have had sufficient experience to enable it to do so, the public and all who may have business with such agency should be advised as to principles and policies by which the Commission will be guided. In this way all who are concerned may be able to anticipate a reasonably consistent course of action.

"I earnestly hope you may be able to complete your assignment within a few months so that you may return to your post as Chairman of the Federal Commission."

The oath as chairman was administered on October 1 in the presence of the members of the Federal Communications Commission and of the Federal Power Commission, of which Mr. McNinch resigned as chairman to accept his new post at the request of President Roosevelt.

Judge Eugene O. Sykes, Acting Chairman of the Federal Communications Commission since the death of Mr. Prall, extended a hearty welcome on behalf of the Federal Communications Commission to the new Chairman. Judge Sykes said the government will find the services of Mr. McNinch most valuable.

Vice Chairman Clyde L. Seavey, of the Federal Power Commission, took occasion to pay a high tribute to Mr. McNinch saying he is a fine executive and a man of exceptional character. He expressed the belief that the new commissioners will learn "to love him as we have in our association with him as Chairman of the Federal Power Commission."

Responding to the hearty welcome of Judge Sykes, Mr. McNinch said "this is an occasion of mingled regret and pleasure." He expressed the hope that he is parting only for a short time from his colleagues and associates of the Federal Power Commission, where, he said, his association had been so delightful, but found compensation in this new opportunity to render valuable public service "in cooperation with those of us who are now charged with the responsibility of the Federal Communications Commission."

The entire staff of the Federal Power Commission assembled in its hearing room to pay a parting tribute to the man who has served with that Commission for seven years and for more than four years has been its Chairman.

General Counsel Oswald Ryan, Chief Engineer Roger B. McWhorter, and Mrs. Veitch of the Personnel Division, made brief addresses expressing appreciation of Mr. McNinch’s service in the Federal Power Commission, the regret of the entire personnel at parting with their chief, wishing him success in his new office, and expressing hope for his early return.

Speaking to his "comrades" of the Federal Power Commission, Mr. McNinch thanked them for their loyalty, ability and devotion to the public service and said he would welcome a return upon completion of the special work to which he had been called. He paid a high tribute to Vice Chairman Seavey, who becomes Acting Chairman, spoke of his long experience, and told the Federal Power Commission staff to "carry on" with the same enthusiasm and efficiency that had been rendered him during his chairmanship.

The members of both the Federal Communications Commission and the Federal Power Commission were guests of Chairman McNinch at luncheon at the Raleigh Hotel, following his taking the oath of office at the Federal Communications Commission.

**NAB BOARD OF DIRECTORS AND NAB STATE COMMITTEE WILL MEET IN NEW YORK CITY**

The President of the NAB, John Elmer, announced this week that he had notified the Officers and Directors of the NAB that a meeting of the Board would be held in New York City Sunday, October 10, at 10:30 o'clock AM, at the Waldorf Astoria Hotel. Mr. Elmer also announced that a joint meeting of the Board of Directors and the NAB State Committee would be held at the same place at 10:30 AM Monday October 11 and that a further meeting of the Board of Directors would be held Monday afternoon at an hour yet to be determined.

These meetings are preparatory to the Special NAB Convention which will be convened in New York City at the Waldorf Astoria Hotel Tuesday, October 12, at 10 AM.

Facilities for registering Delegates will be available Monday and all who can are urged to register early.
COMMITTEE PREPARING FOR HABANA INTER-AMERICAN RADIO CONFERENCE

A meeting will be held in Room 7355 of the New Post Office Building at 10:00 A. M., Friday, October 8, 1937, for the purpose of considering the broadcast phases of the Inter-American Radio Conference to be held at Habana, Cuba, beginning November 1, 1937. This meeting of the Habana Preparatory Group will be devoted to matters relating to broadcasting in the band 540-1600 kc. All interested parties are invited by the FCC to attend. The NAB will be represented by James W. Baldwin, managing director.

MICHIGAN BROADCASTERS ORGANIZE

The broadcasters of the State of Michigan in a meeting held at Detroit, October 4, organized the Michigan Broadcasters Association. The following were elected Officers and Directors: President, James F. Hopkins (WJBK); Vice-president, John E. Fetzer (WKZO); Secretary-treasurer, Howard Loeb (WFDF); Directors, William J. Scripps (WWJ); Owen Uridge (WJR); Arch Shawd (WXYZ); Roy Radner (WIBM).

NEW ORLEANS STATION RECOMMENDED

WSMB, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at New Orleans, La., to use 1500 kilocycles, 100 watts and 250 watts LS and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-497 recommended that the application be granted. He states that “because of the chain affiliations of several stations in the New Orleans area and of the rather indifferent service rendered by the two local stations, there appears to be a need for the local service contemplated by this application.”

The Examiner states further that “no interference would occur to or from any existing station by reason of this grant.” He says also that favorable action is recommended because the application “distinctly contemplates the rendering of service to the New Orleans area which does not now satisfactorily exist.”

RECOMMENDS NEW TEXAS STATION

The Dr. William S. Jacobs Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Houston, Texas, to use 1220 kilocycles, 1,000 watts and unlimited time on the air.

Examiner Tyler Berry in Report No. I-498 recommended that the application be granted. He found that there is a need for the additional service in the area proposed to be served, that there is local talent available for the station and that granting of the application would be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3231. A complaint has been issued charging James T. Jarrell, trading as Standard Business Training Institute, Genesee Building, Buffalo, with use of unfair methods of competition in the interstate sale of a correspondence course of instruction intended to prepare students for positions as traffic inspectors or checkers for transportation companies.

Use of the name Standard Business Training Institute, it is alleged, is misleading in that it implies and serves as a representation that Jarrell gives instruction in various business subjects and that his school is a large and an extensive institution. The complaint alleges that the respondent’s course of instruction is limited to the one subject of traffic inspection, or checking, which is a type of employment rather than a business.

Nos. 3232-3233. Two complaints alleging price discrimination, in violation of the Robinson-Patman Act, have been issued, one against American Optical Company, Southbridge, Mass., and its officers, and the other against Bausch & Lomb Optical Co., Rochester, N. Y., and six wholesaling outlets which it controls.

The complaints allege that the respondents are discriminating in price between different purchasers of their optical supplies of like grade and quality, by allowing certain purchasers lower prices, or adjustments, rebates or discounts in the form of cash or commodities, which are not granted to other purchasers competitively engaged in the resale of optical products.

Customers in whose favor such price discriminations allegedly are made, the complaints charge, are generally the larger dealers, who thus are enabled to undersell their competitors or to furnish superior facilities and services to prospective purchasers, trade thereby being diverted from the smaller retailer to the more favored and larger dealer.

No. 3234. Consolidated Pinnacle Coal Company, 4363 Brighton Boulevard, Denver, Colo., and its president, Ellis Morrell, are charged, in a complaint with use of unfair methods of competition in the interstate sale of coal.

As part of their trade name and in advertising matter the respondents allegedly feature the word “Pinnacle” which, according to the complaint, is understood by the purchasing public to signify coal of high quality obtained from the Pinnacle mine, located in Routt County, Colorado, and owned and operated for more than 25 years by Victor American Fuel Co., Denver. Pinnacle coal produced from this mine, the complaint sets out, has consistently maintained a high reputation because of its quality, utility and fuel value, and has long had a constant and favorable good will.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2737. An order to cease and desist has been issued against Davis Paint Co., Inc., trading under its own name and as Robertson Products Co., and against its subsidiaries, Farm & Home Paint Co., New Method Paint Co., and Berry J. Davis, president and principal stockholder of Davis Paint Co., all of Kansas City, Mo.

The order directs these respondents to discontinue certain unfair methods of competition in the sale of their products. They are to cease representing that any of the corporate respondents, except the Davis company, own and operate the factories wherein the products they sell are made; that Davis Paint Co. has factories located elsewhere than in Kansas City, Mo., and Cleveland, Ohio,
and to cease asserting in guarantees, or in any other manner, that claims by customers for refunds or adjustments will be allowed, when such claims are not, in fact, so allowed.

Other representations prohibited by the order are that the respondents' paints can be purchased at prices substantially lower than the regular or current prices, and that such paints ordinarily sell for prices substantially higher than those represented to be special, when such are not the facts.

No. 2842. Misrepresentation of the quality of enamel kitchen ware and other enamel ware products sold under the name Federal-ware, is prohibited under an order to cease and desist entered against Federal Enameling and Stamping Company, McKees Rock, Pa.

The respondent company is ordered to discontinue use of the word "stainless," or any word of similar meaning, as a brand or label for or in advertising enamel ware unless the articles so described are made of a material which can successfully withstand the test of boiling in them a solution of 1 1/2 per cent citric acid plus 1 1/2 per cent malic acid for a half hour without showing visible signs of etching or stain.

No. 2931. An order has been entered against New York State Sheet Metal Roofing and Air Conditioning Contractors' Association, Utica, N. Y., Fox Furnace Company, Elyria, Ohio, and the officers of each, directing them to cease and desist from certain unfair methods of competition in connection with the interstate sale of hot air furnaces.

The New York State association is a trade organization whose membership consists of plumbing contractors and dealers in sheet metal roofing supplies and hot air furnaces. The Fox Company manufactures hot air furnaces.

The order prohibits the respondents from engaging in, by agreement or otherwise, certain unfair methods of competition including:

(1) Holding meetings to devise means of inducing members of trade associations similar to the New York State association not to purchase the products of manufacturers named by the respondents as being manufacturers dealing with mail order houses;

(2) printing and publishing so-called "white lists" containing the names of manufacturers, approved by the respondents, who do not sell to mail order houses;

(3) using in concert and agreement among themselves and with others coercive and concerted action, threats of boycott and other united action against manufacturers selling to mail order houses, and

(4) causing publication and distribution of pamphlets and bulletins to various trade associations and their members, urging them to discontinue purchasing the products of manufacturers named in the pamphlets and bulletins, and urging the associations to induce their membership to discontinue trading with such manufacturers.

Practices ordered discontinued, it was found, tended to monopolize in the respondents the business of dealing in and distributing hot air furnaces; to unreasonably lessen and suppress competition in the industry, and to deprive the purchasing public of the advantages in price, service and other considerations which they would receive under competition and fair competition.

No. 3033. Prohibiting certain unfair methods of competition in the sale of soaps, an order to cease and desist has been issued against Bahiglo Company, Inc., 37 West 20th St., New York.

Use of the words "olive" or "olive oil" alone or with other words to describe a soap composed in part of olive oil and in part of other oils and fats is banned under the order, unless there conspicuously appears in immediate conjunction with these words other designations truthfully describing the content of the soap.

Use of the expressions "Old Seville," "Old Madrid," or "Infanta," alone or with other words, or use of pictorial representations, as brands or labels for soap, to imply that it was produced in and imported from Spain, is prohibited unless such representations are true. Similar use of the words "Florentine" or "Rosario" is to be discontinued unless the soap was produced in and imported from Italy or Spain.

No. 3050. An order to cease and desist from use of unfair methods of competition, exclusive dealing contracts and price discrimination has been entered against Christmas Club, 341 Madison Ave., New York, engaged in the sale of pass books, account books, advertising literature, and other pharmaeulica for use by banks and trust companies in the conduct of Christmas clubs and other savings systems.

Some of the practices in which the corporation engaged were found by the Commission to have been in violation of Section 5 of the Federal Trade Commission Act, others in violation of Section 3 of the Anti-Price Discrimination Act.

Among representations to be discontinued in advertising matter, or otherwise, are that the respondent corporation has the right to the sole and exclusive use of and has trade-marked the name "Christmas Club" for its systems; that it is the manufacturer and printer of its systems, unless and until it owns or controls an establishment in which such systems are printed, and that it has spent over a specified period more than $3,500,000, or any other sum, in promoting the Christmas Club name and plan, without accurately explaining the manner in which the sum was computed.

Stipulations

The Commission has entered into the following stipulations:

No. 0176. Drums, Inc., Detroit, has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of Drums, a cleaning preparation for silks and other fabrics.

The respondent corporation agrees to cease advertising that Drums will not shrink, fade, spot, streak, or harm any fabric that cold water will not harm, unless this claim is qualified by the words "when used according to directions." Representations that the preparation renews colors and restores dulled and dirty fabrics to new beauty also will be discontinued.

No. 01858. J. R. Bourieux, trading as Metallic Sign Letter Company, 451 North Clark St., Chicago, will stop using in advertising matter the words "gold" or "silver" in any manner so as to imply that the sign letters he sells in interstate commerce are made of gold or of silver, in whole or in part, when such is not a fact. He also will discontinue making unmodified representations of earnings in excess of the average earnings achieved by his active, full-time salesmen or dealers under normal business conditions.

No. 01870. The Perfect Manufacturing Company, trading as R. E. Engineers, Oakley, Cinemutti, selling a device designated Add-A-Tube for use in radio sets, will discontinue advertising that use of the product will give longer life to radio tubes and improve reception, unless the latter claim is limited to reception in the older types of sets; that sets equipped with Add-A-Tube will receive broadcasts from domestic or foreign stations not previously received, and that the product will give any radio the same tone, sharpness of sensitivity or clear reception as the latest, most expensive set on the market.

No. 01871. Nish A. Jamgoteh, trading as Nish A. Jamgoteh Company, 2628 Hemepine Ave., Minneapolis, selling Mothola, will discontinue from representing that the product affords protection and insures safety from moths, and that the odor in most moth-proofing compounds is the moth-destroying property, and when the odor disappears the moth-proofing property of such compounds no longer remains.

No. 01872. Sara B. Plant, Burbank, Calif., trading as Cravex Company, 3919 Sunset Blvd., Los Angeles, will discontinue from representing Cravex is a cure for alcoholism or will cause the craving for liquor to disappear, or that it will have any direct effect on the liquor habit, unless this latter claim is expressly limited to soothing the nerves and improving the appetite.

No. 01873. F. Ellerton Smith, Springfield, Mass., trading as Fernando Publishing Company, will cease representing that the course in hypnotism which he sells enables one to control his destiny and overcome all obstacles, to cure disease of any sort without the use of medicine, and to be successful in everything. The alone or with other words, or use of pictorial representations, as brands or labels for soap, to imply that it was produced in and imported from Spain, is prohibited unless such representations are true. Similar use of the words "Florentine" or "Rosario" is to be discontinued unless the soap was produced in and imported from Italy or Spain.

No. 01875. Resolute Publications, Inc., 304 Fourth Ave., New York, agrees to desist from representing that its publications dealing with subjects in psychology enable one to throw off fear, inferiority and disease and to replace them with health, happiness and prosperity; that they reveal the complete laws of mastery of self and of any hostile factor in life, and that its Great Master Course or Seventeen Lesson Course, or any other article, is given free so long as the recipient is required to subscribe and pay for a magazine in order to obtain the article purported to be free.

No. 01878. Earle J. Hansel, 740 Broadway, Los Angeles, trading as Sungift Company, agrees to stop advertising that their publications entitled Snugfit and Snugfit No. 1 help patients to relieve coronary trouble and overcome loosening or slipping of the plates, that the product is capable of adapting the plate to mouth tissues perfectly and that any comfort that may be derived through use of the product is permanent.
No. 01875. Foster Manufacturing Company, 736 Keith Building, Elyria, Ohio, engaged in selling Meco-Sazh Ointment and Meco-Sazh Body Machine and other massage devices, will discontinue representing that either of its products will grow hair, stop dandruff or keep the scalp healthy, unless this claim is limited to conditions due to lack of normal blood supply in the scalp area. The company will also cease advertising that Meco-Sazh Body Machine is capable of reducing fatty tissues as effectively as an expert masseur in constant attendance.

No. 01571. Alfred C. Schmid, 111 North Main St., Memphis, Tenn., trading as Schmidt School of Taxidermy and selling a correspondence course in taxidermy, will discontinue representing that he guarantees to teach anyone by mail to mount animals and birds or to tan hides, or that his course is the finest regardless of the cost of similar courses. Schmid will stop representing that the price of his course is all that is required, or otherwise, when such price is the regular price and no limitation as to the acceptance thereof exists. He also will cease awarding diplomas to purchasers of his course unless they are required to demonstrate their knowledge of taxidermy by passing appropriate examinations or meeting other adequate requirements.

No. 2031. Wilbert W. Haase Company, Inc., and American Vault Works, Inc., both of 1015 Troost Ave., Forest Park, Ill., have entered into a stipulation to discontinue false and misleading advertising in the sale of burial vaults. Wilbert W. Haase is president of one of the two companies and a large stockholder in both companies.

The companies agreed to desist from using and from licensing others to use the word “asphalt" as a trade name, in advertising matter, or otherwise, to describe vaults which are not composed wholly of asphalt but in part of some other material.

No. 2032. A stipulation to stop false and misleading representations in advertising certain radio sets has been entered into by Western Auto Supply Company, 2107 Grand St., Kansas City, Mo., which operates retail stores in many cities throughout the United States.

The company agreed to discontinue using the words “World-Wide" or “All-Wave" either alone or with the words “Not Just Foreign," or with any other words, to describe radio sets which are not capable of reception over the entire meter range covering all broadcasts; and to cease representing that owners of its sets can have world-wide, continuous reception of short-wave transmissions, with loud-speaker volume, as dependably and as easily as with long-wave or broadcast transmissions.

No. 2053-2054. Misbranding of hosiery sold in interstate commerce will be discontinued by two concerns under stipulations entered into. The companies are Chipman-Lacrosse Hosiery Mills, Rock Island, Ill., and Standard Hosiery Mills, Inc., of Alamanne, N. C.

Both companies agreed to cease using the word “silk" alone or in any manner, so as to imply that hosiery so described is composed of silk, when this is not true. If hosiery is composed in substantial part of silk and the word “silk" is used to describe it, then, the stipulations provide, the word shall be immediately accompanied by other words so as to indicate clearly that the hosiery is not composed wholly of silk but in part of some other material.

No. 2053. Walton Hosiery Mills, Statesville, N. C., agreed to stop using the phrase “Silk Reinforced with Engle," alone or with any other words, as a brand for hosiery so as to imply that it is composed of an inorganic quantity of silk reinforced with a smaller quantity of any material, when such is not a fact. The corporation also agreed to cease using the word “silk" as descriptive of hosiery or the surface thereof so as to imply that it is composed of silk, when this is not true. If the hosiery or its surface is composed in substantial part of silk, and the word “silk" is used to describe its content, then the word shall be immediately accompanied by other words in equally conspicuous type to indicate clearly that the product is not composed wholly of silk, but of other materials.

No. 2037. Garant Hosiery Mills, Murfreesboro, Tenn., will refrain from using the word “English Rib" so as to imply that the impression that the hosiery so made in England and in accordance with the process accomplished only by English style machines. In case the hosiery is manufactured elsewhere than in England, but on English style machines, and the words “English Rib" are used as descriptive thereof, then the country in which the hosiery is made shall be clearly indicated thereon.

No. 2055. Trading as Star Radio Company, 409 11th St., N. W., Washington, D. C., Max D. Montague and Nathan Wallack, engaged in the sale of washing and ironing machines, vacuum cleaners and radios, have entered into a stipulation to discontinue use in advertising matter, or otherwise, of the word “free" which refers to articles represented to be given without cost to the purchasers of other merchandise, when, in fact, the cost of such articles is included in the selling price of the merchandise.

No. 2059. Reliable Mattress Company, 2028 Walnut St., St. Louis, has entered into a stipulation to cease selling or supplying its customers for sale to others, mattresses to which are affixed any false, fictitious or misleading price in excess of the price at which such mattresses are usually sold at retail.

No. 2060. A stipulation to discontinue false and misleading advertising has been entered into by Marvin Friedland, trading as Philadelphia Machinery Company, 603 Arch St., Philadelphia, engaged in the sale of various types of machinery, including electric grinders and tool sets.

Friedland agreed to cease representing that any of his products are given free to the purchaser of other of his products, when the price of the former is included in the price of the latter, or when such product represented as being given free is included not as a gratuity, but for and in consideration of the purchase of some other article. The respondent also will cease advertising that any of his products have a greater value than the prices at which they are usually sold.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning, Monday, October 11.

Monday, October 11

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—S. L. Slover Corp., Norfolk, Va.—C. P., 1370 kc., 250 watts, unlimited time.

NEW—Harwell V. Shepard, Denton, Tex.—C. P., 1420 kc., 100 watts, daytime.

NEW—First Baptist Church, Pontiac, Mich.—Authority to transmit programs to Station CKLW, Windsor, Ontario, Canada.

Tuesday, October 12

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—W. C. Irwin, Amarillo, Tex.—C. P., 1500 kc., 100 watts night. 250 watts LS, unlimited.

W3XAU—WCAU Broadcasting Co., Newton Square, Pa.—Modification of license, 6060, 9290, 25750 kc., 10 KW, unlimited.

NEW—Four Lakes Broadcasting Co., Madison, Wis.—C. P., 830 kc., 100 watts, daytime.

Wednesday, October 13

HEARING BEFORE AN EXAMINER

(Broadcast)

W1XEH-WIXLU-WIXO-WIXT-WTIC—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 63500 kc., 150 watts, unlimited; 290000, 43000 kc., 5 watts; 31100, 31400, 37600, 40600 kc., 50 watts; 31100, 31400, 37600, 40600 kc., 100 watts; 1060 kc. (SA for 1010 kc.), 50 KW night.
50 KW LS, share WBAL (SA unlimited time KRLD simul. ex.).

WK2Z—Carl L. Ashbacker, Muskegon, Mich.—Modification of license, 1200 kc., 100 watts, 250 watts LS, unlimited.

Thursday, October 14

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner's Report No. 1-422:
NEW—Troy Broadcasting Co., Inc., Troy, N. Y.—C. P., 1500 kc., 100 watts, 250 watts LS, S.H.

HEARING BEFORE AN EXAMINER
(Broadcast)

WMFJ—W. Wright Esch, Daytona Beach, Fla.—Modification of C. P., 1210 kc., 1 KW, unlimited time (C. P. for 1420 kc., 100 watts, unlimited time).

Friday, October 15

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—C. Bruce McConnell, Indianapolis, Ind.—C. P., 1500 kc., 100 watts, 250 watts LS, daily except Sunday, 10 a. m. to 12 noon, 6 to 10 p. m. (Requests hours now used by WKBV.)
NEW—Knox Radio Corp., Richmond, Ind.—Modification of license, 1500 kc., 100 watts, unlimited time. Present assignment: 1500 kc., 100 watts, specified hours.

APPLICATIONS GRANTED

KUMA—Albert H. Schernann, Yuma, Ariz.—Granted C. P. approving transmitter site and installation of vertical radiator.
WJBL—Commodore Broadcasting, Inc., Decatur, Ill.—Granted C. P. to move transmitter site locally and install vertical radiator.
KGFI—Eagle Broadcasting Co., Inc., Brownsville, Tex.—Granted license to cover C. P., 1500 kc., 100 watts night, 250 watts day, unlimited time.
WRGA—Rome Broadcasting Corp., Rome, Ga.—Granted license to cover C. P., 1700 kc., 100 watts night, 250 watts day, unlimited time.
KSRO—The Press Democrat Publishing Co., Santa Rosa, Calif.—Granted license to cover C. P. and modifications thereof; 1310 kc., 250 watts, daytime only.
WFoy—Fountain of Youth Properties, Inc., St. Augustine, Fla.—Granted license to cover C. P., 1210 kc., 100 watts night, 250 watts day, unlimited.

WAAB—The Yankee Network, Inc., Boston, Mass.—Granted modification of license to change power of auxiliary transmitter for emergency purposes only, to correspond to the power of the main transmitter.
WXYZ—King-Trendle Broadcasting Corp., Detroit, Mich.— Granted extension of authority to transmit program from station WXYZ to station of Canadian Broadcasting Corp.
WEAU—Morgan Murphy, Eau Claire, Wis.—Granted authority to transfer control of corporation from Morgan Murphy to Elizabeth Murphy; 1050 kc., 1 KW, limited time.
WBRC—Eloise H. Smith, Executrix of the Estate of Marcellus D. Smith, Jr., Birmingham, Ala.—Granted involuntary transfer of control of Birmingham Broadcasting Co., Inc., licensee of WBRC, to Eloise H. Smith, as executrix of estate of Marcellus D. Smith, Jr., deceased (930 kc., 1 KW, unlimited).
WBCM—James E. Davidson, Bay City, Mich.—Granted voluntary assignment of license to Bay Broadcasting Co., Inc., a newly organized corporation; 1110 kc., 500 watts day and night, unlimited.
KATE—Albert Leon Broadcasting Co., Albert Lea, Minn.—Granted modification of C. P. to change transmitter site locally and make changes in vertical radiator.
NEW—Indianapolis Broadcasting, Inc., Indianapolis, Ind. (Mobile) (2 applications).—Granted C. P. for new relay broadcast station, frequencies 38900, 39100, 39300 and 39500 kc., 2 watts.
NEW—KCMO Broadcasting Co., Kansas City area (Mobile)—Granted C. P. for new experimental relay broadcast station, frequencies 100000, 200000, 300000 and 300000 kc, 5 watts.
NEW—KCMO Broadcasting Co., Kansas City area (Mobile)—Granted C. P. for new experimental relay broadcast station, frequencies 100000, 200000, 300000 and 500000 kc., 10 watts.
WAXG—Florida Capitol Broadcasters, Inc., Tallahassee, Fla. (Mobile).—Granted license to cover C. P. for new relay broadcast station, frequencies 1622, 2038, 2150 and 2790 kc., 40 watts.
WEXNO—Charleston Broadcasting Co., Charleston, W. Va.—Granted modification of C. P. extending commencement date to 11-2-37 and completion date to 5-2-38, and to use frequency 26100 kc. on an experimental basis.

SET FOR HEARING

NEW—Mittelle Franklin Noble, Anniston, Ala.—C. P. to erect new station, 1420 kc., 100 watts, daytime only. Exact transmitter and studio sites to be determined with Commission's approval.
NEW—W. C. Ewilly and Harry Layman, d/b as Cumberland Broadcasting Co., Fayetteville, N. C.—C. P. to erect new station, 1340 kc., 250 watts, daytime only. Exact transmitter and studio sites and type of antenna to be determined with Commission's approval.
NEW—Young People's Assn. for the Propagation of the Gospel, Philadelphia, Pa.—C. P. for new station, 1220 kc., 1 KW, unlimited time, using directional antenna system for day and night-time operation.
NEW—Jack W. Hawkins and Barney H. Hubbs, d/b as Odessa Broadcasting Co., a partnership, Odessa, Tex.—C. P. to erect a new station, 1310 kc., 100 watts, daytime only. Exact transmitter site to be determined with Commission's approval.
NEW—William F. Huffman, Wisconsin Rapids, Wis.—C. P. to erect a new station, 580 kc., 250 watts, unlimited time, using directional antenna system for night-time operation. Exact studio site to be determined with Commission's approval.
WILL—University of Illinois, Urbana, Ill.—C. P. to make changes in equipment and increase day power from 1 KW to 5 KW, using present directional antenna system.
WDZ—WDZ Broadcasting Co., Tuscola, Ill.—C. P. to install new equipment and increase day power from 250 watts to 1 KW.
WBAAB—Purdue University, W. Lafayette, Ind.—C. P. to move station from W. Lafayette, Ind., to near Indianapolis, exact location to be determined subject to Commission approval; to install new equipment; increase power to 1 KW night, 5 KW day; and change hours of operation to unlimited (now operates on 890 kc., 500 watts night, 1 KW day, specified hours).
WIP—Pennsylvania Broadcasting Co., Inc., Philadelphia, Pa.—
C. P. to install new equipment and increase day power from
1 KW to 5 KW. Exact transmitter site and type of antenna
to be determined with Commission's approval.

WJNO—Hazelwood, Inc., W. Palm Beach, Fla.—C. P. to install
new transmitter, change frequency from 1290 kc. to 1350 kc.,
and increase power from 100 watts night, 250 watts day, to
1 KW, unlimited time.

WGBI—Scanton Broadcasters, Inc., Scranton, Pa.—Modification
of license to increase night power from 500 watts to 1 KW.

WCHS—Scrpps-Howard Radio, Inc., Cincinnati, Ohio.—Modifi-
ation of license to increase power for night-time operation
from 100 watts to 250 watts. To be heard before the Broad-
cast Division.

WNBFR—Memphis Commercial Appeal Co., Memphis, Tenn.—Au-
thority to transfer control of corporation to Memphis Press-
Circle Co. (1450 kc., 500 watts, one 1 KW LS, unlimited).

KRGV—M. S. Niles, Weslaco, Tex.—Authority to transfer control
of KRGV, Inc., to O. L. Taylor, Gene A. Howe and T. E.
Snowden; 1350 kc., 500 watts, C. P. (1 KW), unlimited.

WGES—H. J. Guyon, Thomas H. Guyon, Wn. F. Moss, Louis E.
Moulds, Gene T. Dyer (stockholders of Oak Leaves Broadcast-
station, Inc.), Chicago, Ill.—Authority to transfer control
from present stockholders to WSBC, Inc.; 1360 kc.,
500 watts night and day except Sundays, when station has
1 KW LS, share WSBT.

SPECIAL AUTHORIZATIONS

KJFM—University of North Dakota, Grand Forks, N. Dak.—
Granted special temporary authority to operate with power of
1 KW from local sunset (September sunset, 6:45 p. m.,
October sunset, 5:45 p. m., CST), to the conclusion of foot-
ball games on October 16, 15 and 22.

Radio Service Corp. of Utah, Salt Lake City, Utah.—Granted
special temporary authority to operate two relay broadcast
transmitters on frequencies 32700, 39900, 40800 and 41400
kc., 15 watts, for the period October 1 to October 30, 1937,
relay broadcast test runs and actual races of Captain Edwin
on the Bonneville Salt Flats to be rebroadcast over KSL.

WIP—Pennsylvania Broadcasting Co., Philadelphia, Pa.—Granted
special temporary authority to operate a 100-watt crystal
controlled transmitter between the hours of 1 and 6 a. m.,
EST, for the period October 4 to November 2, 1937, in order
to conduct tests on several sites in the vicinity of Phila-
adelphia.

WMBC—Michigan Broadcasting Co., Detroit, Mich.—Granted
special temporary authority to rebroadcast over WMBC a ten-minute program Wednesday between 7 and 7:30 p. m.,
CST, October 6, originating over state police station
WRDS.

WBEO—The Lake Superior Broadcasting Co., Marquette, Mich.—
Granted special temporary authority to operate during after-
noon hours not now covered by license, for the duration of the
World Series games beginning October 6.

WNLC—Thames Broadcasting Corp., New London, Conn.—
Granted special temporary authority to operate from local
sunset (November sunset, 4:30 to 5 p. m., EST, Sundays,
November 7, 14, 21 and 28, 1937, in order to broadcast pro-
gram of Rev. Charles E. Coughlin.

WRUF—University of Florida, Gainesville, Fla.—Granted special
temporary authority to operate simultaneously with station
KOA from local sunset (October sunset, 7:15 p. m.) to 8 p. m.,
EST; October 8, in order to broadcast preliminaries to
football game played between Temple University and
University of Florida at Philadelphia.

WPHR—WLBC, Inc., Petersburg, Va.—Granted special temporary
authority to operate from local sunset (October sunset, 5:30 p. m.) to 6 p. m., EST, on Saturdays, October 9, 16, 23 and
30, in order to broadcast football games.

WBOE—The Lake Superior Broadcasting Co., Marquette, Mich.—
Granted special temporary authority to operate from 7:30 to
8:30 p.m., CST, October 9, in order to broadcast a special
program originating at Crystal Falls, Mich., for Michigan
Democratic Committee.

WHD—The Upper Michigan Broadcasting Co., Calumet, Mich.—
Granted special temporary authority to operate from 6:30 p. m.
to 8:45 p. m., CST, October 9, in order to broadcast program
to be held at Crystal Falls arranged by the Demo-
cratic State Committee. Also granted special temporary
authority to operate from 10 to 10:15 a. m., CST; October 12,
13, 14, 15 and 16, 1937, in order to broadcast musical pro-
gram made up from the WBS program library, and from
10:15 to 10:30 a. m., CST; October 12, 13, 14, 15 and 16,
in order to accommodate the Rexall Magic Hour program.

KGF—KGFL, Inc., Roswell, N. Mex.—Granted special temporary
authority to operate simultaneously with KICA from 7:30 to
10:30 p.m., EST; October 15, 22, 29, November 5 and
12, 1937, in order to broadcast Roswell High School foot-
ball games.

WBR—Monmouth Broadcasting Co., Red Bank, N. J.—Granted
special temporary authority to operate simultaneously with
WGNY from 2 to 3 p. m., EST; October 16 and November
13, 1937, in order to broadcast football games from high
school stadium at Red Bank.

KWTO—Ozarks Broadcasting Co., Springfield, Mo.—Granted spe-
tial temporary authority to rebroadcast over KWTO con-
cerned in experimental stations W5XAR and W5XAS of the Western Radio Telegraph Co., for a period of not more than 1 hour between October 18 and 24, 1937, flying weather permitting.

WBAA—Purdue University, W. Lafayette, Ind.—Granted special
temporary authority to operate from 4 to 5 p. m., CST,
Saturday, October 30, 1937, in order that station WBAA
may broadcast the Purdue-Iowa State football game.

WNYC—City of New York Department of Plant and Structures,
New York City.—Granted special temporary authority to operate from 9 to 11 p. m., EST, election night, November 2,
1937, in order to broadcast much of the program of the
State Democratic Committee.

WMPB—The First Methodist Protestant Church of Lapeer, Mich.—
Granted special temporary authority to operate from 9 to 10 a. m., EST, Monday, Tuesday, Wednesday, Thursday,
Friday and Sunday mornings, for a period not to exceed 30 days, in order to broadcast certain educational programs.

WIOD—WMFB—Isle of Dreams Broadcasting Corp., Miami, Fla.—
Granted special temporary authority to operate on a fre-
cuency of 610 kc., with 1 KW power, between the hours of
1 and 6 a.m., EST, for period October 6 to 15, 1937, in order
that news may be made to determine whether or not present antenna system complies with requirements of
Rule 131.

WAXB—WAXC—Alford J. Williams, c/o Gulf Oil Corp., Pitts-
burgh, Pa.—Granted extension of special temporary authority
(special temporary authority to operate RCA Type H aircraft transmitter, 5 watts, on board plane NR-1050 owned by A. J. Williams, and RCA Type AVT-7 transmitter, portable on ground, on frequencies 1646, 2090, 2190, 2830 kc., as relay broadcast stations for the period October 31 to November 29, 1937, for testing and transmission of program communication service between plane and ground for the purpose of further
flight demonstrations and Junior Aviator activities at various
locations over the U. S.

WEST—Associated Broadcasters, Inc., Easton, Pa.—Denied special
temporary authority to operate simultaneously with WKBW from 9:15 to 10:15 p. m., EST; beginning October 1 and
ending no later than October 30, 1937.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the
regular period:

KALE—Portland, Ore.; KCRK, Enid, Okla.; KDFN, Casper,
Wyo.; KECA, Los Angeles, Calif.; KFBK, Sacramento, Calif.;
KFH, Westlake, Kan.; KFJF, Grand Forks, N. Dak.; KGA,
Spokane, Wash.; KGER, Long Beach, Calif.; KGHB, Pueblo,
Colo.; KGIR, Butte, Mont.; KGN, Amarillo, Texas; KGNF,
North Platte, Nebr.; KGNQ, Dodge City, Kan.; KIDO, Boise,
Idaho; KIEE, Eureka, Calif.; KLO, Ogden, Utah; KMO, Tacoma,
Wash.; KOKI, Reno, Nev.; KOMA, Oklahoma City, Okla.;
KVO, Phoenix, Ariz.; KQY, Pittsburgh, Pa.; KRNT, Des Moines,
Iowa; KSO, Des Moines; KSTP, St. Paul, Minn.; KWK, St. Louis, Mo.; WABB and auxiliary, Boston; WBBR, Brooklyn, N. Y.; WBNS,
Columbus, Ohio; WCSC, Charleston, S. C.; WDCR, Hartford, Conn.; WEDG, New York City; WFRE, Hartford, Conn.;
WHE, New York City, NY; WHS, Syracuse, N. Y.; WGES, Chicago; WHIS, Bluefield, W. Va.; WJSV, Washington,
D. C.; WBKW, Buffalo, N. Y.; WMPM, Memphs, Tenn.; WORK, York, Pa.; WSPD, Toledo, Ohio; WSFA, Mont-
gomery, Ala.; WSMK, Dayton, Ohio.

ACTION ON EXAMINERS' REPORTS

WFEA—Ex. Rep. 1-180—New Hampshire Broadcasting Co., Man-
chester, N. H.—Granted renewal of license; 1310 kc., 500

KLP—Ex. Rep. 1-400—John B. Cooley, Minot, N. Dak.—Granted C. P. to make changes in equipment; install vertical antenna; move transmitter from 25 E. Central Ave. to near Minot; change frequencies from 1240 kc. to 1360 kc.; increase power from 250 watts to 500 watts night, 1 KW day; change hours of operation from specified to unlimited. Order effective November 23, 1937. Examiner J. P. Bramhall sustained.

ORAL ARGUMENTS GRANTED

Oral Arguments were granted, to be held January 6, 1938, on the following Examiner's Reports:

APPLICATIONS DISMISSED

The following applications, heretofore set for hearing, were dismissed at request of applicants:

KNOW—KUT Broadcasting Co., Austin, Texas—Voluntary assignment of license to Hearst Radio Inc.; 1500 kc., 100 watts, unlimited.

WACO—KTSO Broadcasting Co., Waco, Texas—Voluntary assignment of license to Hearst Radio Inc.; 1430 kc., 100 watts, unlimited.

APPLICATIONS DENIED

NEW—Hollenbeck Heights Christian Church, Los Angeles—Application for C. P. 1170 kc., 100 watts, limited time, heretofore set for hearing, was denied as in case of default for failure of applicant to file an appearance in accordance with Rule 104.6 (c).

NEW—J. F. Rodgers, Harlingen, Texas—Application for C. P. for 1370 kc., 100 watts, 250 watts LS, unlimited, heretofore set for hearing, was denied as in case of default for failure of applicant to file an appearance in accordance with Rule 104.6 (c).

MISCELLANEOUS

NEW—Earl Weir, St. Petersburg, Fla.—Application for C. P., 1370 kc., 100 watts, unlimited time, heretofore set for hearing, was dismissed with prejudice, inasmuch as request for withdrawal was received less than 30 days prior to hearing scheduled thereon.

Granted petition of the Colonial Broadcasting Corp., Newport News, Va., to intervene in the proceedings upon the application of S. L. Slover Corp., Norfolk, Va., for a C. P. for new station to use 1570 kc., 100 watts, 250 watts LS, unlimited, heretofore set for hearing. Granted petition of Glenn Van Auk (WGVA), Indianapolis, Ind., to intervene in the proceeding upon the application of Bruce McConnell for a C. P. to establish a new station at Indianapolis on frequency 1500 kc., 100 watts, 250 watts, LS, daytime hours, except Sunday from 10 a. m. to 12 noon; 6 to 10 p. m.

Granted petition of the Evening News Association, Inc. (WWJ), Detroit, Mich., to intervene in the hearing upon the application of George B. Storer for a C. P. to establish a new station on frequency 800 kc., 1 KW, daytime hours, at Pontiac, Mich.

 Granted petition of Augusta Broadcasting Co. (WRDW), Augusta, Ga., to intervene in the hearing of the application of Wm. Avera Wynne (WEED), Rocky Mount Broadcasting Corp. for C. P., 1900 kc., unlimited time, waiving the ten-day requirement of Rule 105.20 with respect to the filing of petitions for intervention in hearings.

 Granted petition of Northern Corp. (WMEX), Boston, to intervene in the hearing upon the application of the Yankee Network, Inc. (WAAB), for modification of license, specifying the frequency 1410 kc., 1 KW, unlimited time.

 Granted petition of WCAE, Inc., Pittsburgh, Pa., to intervene in the proceeding upon the application of WWPO, Inc., Pittsburgh, Pa., for a C. P. to establish a new station upon frequency 1120 kc., 250 watts, unlimited time.

 Granted petition of Floyd A. Parton, San Jose, Calif., to intervene in the proceeding upon the application of George H. Payne for a C. P. to establish a new station on frequency 1140 kc., 500 watts, unlimited time.

 Granted petition of the Citizens Broadcasting Corp., Schenectady, N. Y., to intervene in the proceeding on the application of the Trinity Broadcasting Co., Inc., Schenectady, for a C. P. to establish a new station on frequency 1500 kc., 100 watts, unlimited time.

 Granted petition of James F. Hopkins, Inc., WJBX, Detroit, Mich., to intervene in the hearing upon the application of the Cadillac Broadcasting Corp., Detroit, for a C. P. to establish a new station upon the frequency 1110 kc., 500 watts, daytime hours.

 Granted petition of the Madison Broadcasting Co., Madison, Wis., in the hearing upon the application of the Four Lakes Broadcasting Co., for a C. P. to erect a new station at Madison, Wis., to operate on 850 kc., 100 watts, daytime.

 Granted petition of the South Carolina Broadcasting Co., Inc., WSCC, Charleston, S. C., to intervene in the hearing on the application of Santo Settine for a C. P. to erect a new station at Charleston, S. C., to operate on frequency 1300 kc., with 100 watts night, 250 watts LS, unlimited.

 Granted petition of Jules J. Rubens for authority to intervene in the hearing on the application of Martin E. O'Brien, for a C. P. to erect a new broadcast station at Aurora, Ill., to operate on 1290 kc., 250 watts, daytime only.

 Denied petition of the Colonial Broadcasting Corp., Inc., Schenectady, for a C. P. to establish a new broadcast station using frequency 1370 kc., 250 watts, LS, unlimited time.

 Denied petition of W. A. Barnette, Greenwood, S. C., for postponement or cancellation of the hearing upon his application for a C. P. to erect a new broadcast station on频率 1370 kc., 250 watts, daytime hours. A hearing on this application is now scheduled for October 25.

 Denied petition of Floyd A. Parton, San Jose, Calif., for continuance of hearing upon his application for a C. P. for new station at San Jose, Calif., using 1170 kc., 250 watts, daytime hours, and upon the application of George H. Payne for a C. P. to establish a station at San Jose using frequency 1120 kc., 500 watts, unlimited time. A hearing on these applications is scheduled for October 25.

 Granted petition of Pulitzer Publishing Company for extension of time for oral argument in re Examiner's Report No. 1-452, and that all parties will be given one hour.

 Granted motion of applicant S. L. Slover Corp., Norfolk, Va., for continuance of hearing for a period of 30 days, on application for a C. P. for new station using frequency 1370 kc., 100 watts, 250 watts LS, unlimited time.

 Granted petition of Fred M. Weil for order to take deposition before Orville W. Duell, a notary public, at the Continental Hotel, Grand Coulee, Wash, such deposition to be taken on October 9.
1937. Fred M. Weil is an applicant for a new station at Grand Coulee, to use 1420 kc., 100 watts, 250 watts LS, unlimited.

Denied petition of Ellwood Warwick Lippincott, Inc., for continuance of oral argument on the application of the Bend Bulletin, now scheduled for October 28, 1937, to such time as oral argument is had on the application of Lippincott, which was heard by an Examiner on September 21, 1937, and whose report has not yet been submitted.

Granted petition of A. H. Belo Corp. (WPAA), Dallas, Tex., that Rule 104.6(b) be waived, and that the answer submitted by WFAA to applicant’s appearance in Docket 2054 involving application of George B. Storer, for C. P. to erect a new station at Pontiac, Mich., be accepted and made a part of the record.

Granted request of Interstate Broadcasting Co., Inc. (WQXR), respondents, for oral argument upon Ex. Rep. 1-461, covering application of Ann Arbor Broadcasting Co., Inc., for C. P. to establish a new station on frequency 1550 kc., 1 KW, unlimited time. (Oral argument scheduled for December 16, 1937.)

Denied petition of Durham Radio Corp. (WDNC) for reopening of hearing upon its application for C. P. specifying 600 kc., 1 KW, unlimited time, directional antenna night, and to allow an amendment to the application with regard to the proposed directive antenna system, and the introduction of additional engineering testimony.

Dismissed petition filed by J. K. Patrick & Company requesting the Commission to affirm Examiner's Report No. 1-474 and to grant the authority requested therein, and cancelled oral argument set for December 9, 1937.

EXAMINERS' REPORTS RELEASED SINCE SEPTEMBER 28

NEW—Ex. Rep. 1-497: WMIB, Inc., New Orleans, La.—Examiner Melvin H. Dalberg recommended grant of C. P. to erect a new station to operate on frequency 1500 kc., with 200 watts day, 100 watts night, unlimited hours.

NEW—Ex. Rep. 1-498: Dr. Wm. States Jacobs Broadcasting Co., Houston, Tex.—Examiner Tyler Berry recommended grant of C. P. to construct a new station to operate on 1220 kc., 1 KW, unlimited time.

RATIFICATIONS

The Broadcast Division ratified the following actions taken on the dates shown:

WTMJ—The Journal Company, Milwaukee, Wis.—Granted extension equipment test period 10 days from September 27, 1937.

KTMS—The News Press Publishing Co., Santa Barbara, Calif.—Granted extension equipment test period 15 days from September 30, however, no tests permitted October 11, 3:10 to 3:30 a. m., EST, due to Commission monitoring schedule.

WWJ—The Evening News Assn., Detroit, Mich.—Granted extension of special temporary authority to operate for the period October 1 to 30, with an increase in night power to 5 KW, in order to overcome interference.

KGDY—Voice of So. Dakota, Huron, S. Dak.—Granted extension special temporary authority to remain silent for the period October 1 to October 30, inclusive, for the purpose of re-building transmitter.

KOTN—Universal Broadcasting Corp., Pine Bluff, Ark.—Granted special temporary authority to operate from local sunset (October sunset, 5:30 p. m.) to 6 p. m., CST, October 3, 10, 17, 24 and 31, in order to broadcast Vesper service of local church.

WFAS—Westchester Broadcasting Corp., White Plains, N. Y.—Granted special temporary authority to operate simultaneously with WGNY from 1:45 p. m. to 3 p. m., EST, October 2, 9, 16, 23 and 30, in order to broadcast football games from Yale Bowl.

WBLY—Herbert Lee Blye, Lima, Ohio.—Upon consideration of a motion by Herbert Lee Blye for leave to withdraw his application for C. P. to make changes in equipment and in increase day power from 100 to 250 watts, the Broadcast Division directed that said application be dismissed with prejudice, and an order be entered accordingly and forwarded to all interested parties.

Granted the petition of George H. Payne to intervene in the proceedings upon the application of the Pacific Agricultural Foundation, Ltd. (KQW), San Jose, Calif., for C. P.

Granted petition of the Central California Broadcasters, Inc. (KRE), to intervene in the proceedings upon the application of Larry Rhine for C. P. for new station at San Francisco.

Granted petition of the Piedmont Broadcasting Corp. to intervene in the proceedings upon the application of Burl Vance Hedrick for C. P. for new station at Salisbury, N. C.

Granted petition of the City of St. Paul, Minn., to intervene in the proceedings upon the application of National Battery Broadcasting Co. (KSTP) for C. P.

Same except City of Minneapolis, Minn., to intervene in application of KSTP.

Granted motion of Westchester Broadcasting Corp., to continue the hearing upon its application for special experimental authority now scheduled for October 4, until December 3, 1937.

The Broadcast Division directed that the hearing upon the application of J. F. Rodgers for C. P., now scheduled for October 20, be continued until October 29, to be heard in consolidation with the application of the Valley Publishing Co. for C. P.

Denied request of the Pacific Agricultural Foundation, Ltd. (KQW), San Jose, Calif., for modification of the order issued to it for the taking of depositions with respect to the application of Knox Radio Corp. for renewal of license for station WKBV, Richmond, Ind.

The Broadcast Division (1) denied the motion of C. Bruce McConnell requesting the Commission to change the date for the taking of depositions by Knox Radio Corp. in Richmond, Ind., in support of its application for renewal of license, and (2) granted the motion of C. Bruce McConnell requesting the Commission to vacate the order herein issued to Knox Radio Corp. authorizing the taking of the deposition of Dr. Wm. C. Dennis in Washington, D. C., on Oct. 6, in connection with the above application, and directed that the said order be revoked.

Continued, without date, the oral argument scheduled for Thursday, October 30, on the exceptions to Ex. Rep. 1-389, involving the application of Johnson City Broadcasting Co., Johnson City, Tenn., and Ex. Rep. 1-389, involving the applications of Knoxville Journal Broadcasting Co. and Richard M. Casto.

Granted petition of KRVG, Inc., to intervene in the proceedings upon the application of the Valley Publishing Co., for C. P. for new station at Harlingen, Tex.

Granted petition of KRGV, Inc., to intervene in the proceedings upon the application of J. F. Rodgers for C. P. for new station at Harlingen, Tex.

APPLICATIONS RECEIVED

First Zone

NEW—Sentinel Broadcasting Corp., Syracuse, N. Y.—Construction permit for a new station to be operated on 620 kc., 500 watts, unlimited time. To use directional antenna night.

WLAW—Hildreth & Rogers Co., Lawrence, Mass.—Modification of construction permit (B1-P-1058) for new station, requesting approval of vertical antenna, approval of studio site at 278 Essex Street, Lawrence, Mass., and transmitter site at 1559 Newell Street, Lawrence, Mass.

WXJ—Bamberger Broadcasting Service, Inc., New York, N. Y.—Modification of construction permit for a new high frequency broadcast station, requesting extension of commencement date from 5-1-37 to 11-1-37 and completion date from 11-1-37 to 5-1-38.

Second Zone

WOSU—The Ohio State University, Columbus, Ohio.—Construction permit to install a new vertical antenna and move transmitter from corner Neil and Woodruff Avenues, Columbus, Ohio, to Worthington Road, northwest of Columbus, Ohio.

NEW—Harold F. Gross, Lansing, Mich.—Construction permit for a new station to be operated on 580 kc., 500 watts night, 1 KW day, unlimited time. Amended to change from a construction permit for a new station to a construction permit for WJIM requesting change in frequency from 1310 kc. to 630 kc.; make changes in equipment; install directional antenna for day and night use; increase power from 100 watts night, 250 watts day, to 500 watts night, 1 KW day; and move transmitter locally.

WGK—Hampton Broadcasting Corp., Newport News, Va.—1310 Extension of special experimental authorization to operate a facsimile station from 12 p. m. to 6 a. m., on 100 watts, from 12-1-37 to 6-1-38.

NEW—Colonial Broadcasting Corp., Norfolk, Va.—Construction permit for a new station to be operated on 1570 kc., 100 watts night, 300 watts day.

NEW—Cleveland City Board of Education (Charles H. Lake, Supt.), Cleveland, Ohio.—Construction permit for a new high frequency broadcast station to be operated on 26100 kc., 500 watts.
Third Zone

NEW—Brenau College, Gainesville, Ga.—Construction permit for 1210 a new station to be operated on 1420 kc., 100 watts night, 250 watts day, unlimited time. Amended to change requested frequency from 1420 kc. to 1210 kc., and power from 100 watts night, 250 watts day, to 100 watts.

NEW—State Broadcasting Corp., Gretna, La.—Construction permit for a new station to be operated on 1370 kc., 100 watts night, 250 watts day, unlimited time. Amended to change hours of operation from limited time to specified hours.

NEW—Pinellas Broadcasting Co., St. Petersburg, Fla.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, unlimited time.

W4XFG—The National Life & Accident Insurance Co., Inc., Area of Nashville, Tenn.—License to cover construction permit (B3-PRE-136) for a new relay broadcast station.

NEW—Southwestern Sales Corp., Area of Tulsa, Okla.—Construction permit for a new relay broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 20 watts.

Fourth Zone

WTMJ—The Journal Co. (The Milwaukee Journal), Milwaukee, 620 Wis.—License to use old W.E. Type 94992 (5 KW) transmitter as an auxiliary transmitter.

WISN—Hearst Radio, Inc., Milwaukee, Wis.—Modification of 1120 license to change power from 250 watts night, 1 KW day, to 1 KW day and night.

KWNO—Harry Dahl, Otto M. Schlabach, Maxwell H. White and Herman R. Wiecking, d/b as Winona Radio Service, Winona, Minn.—Modification of construction permit (B4-P-983) as modified for a new station, requesting changes in transmitting equipment and increase in power from 100 watts to 250 watts. Amended to extend commencement and completion dates from 10-14-37 and 4-12-38, respectively, to 30 days after grant and 180 days thereafter.

WJDL—Commodore Broadcasting, Inc., Decatur, Ill.—Authority 1200 to transfer control of corporation from Charles R. Cook to Decatur Newspapers, Inc., 127½ shares common stock.

KOIL—Central States Broadcasting Co., Lincoln, Nebr.—Authority 1260 to determine operating power by direct measurement of antenna.

WCLS—WCLS, Inc., Joliet, Ill.—Transfer control of corporation 1310 from R. W. Hoffman to L. W. Wood, 51%.

WCBS—WCBS, Inc., Springfield, Ill.—License to cover construc-1420 tion permit (B4-P-1861) for new equipment, increase in power and change in hours of operation.

WTMV—Mississippi Valley Broadcasting Co., Inc., East St. Louis, 1500 Ill.—Construction permit to install a new transmitter; install directional antenna for night use; change frequency from 1500 kc. to 1510 kc., power from 100 watts night, 250 watts day, to 1 KW night, 5 KW day; move transmitter from 5th and Broadway, East St. Louis, Ill., to 3 miles east of East St. Louis, Ill.

W9XUY—Central States Broadcasting Co., Omaha, Nebr.—Modification of construction permit (B4-PHB-25) for a new high frequency broadcast station, requesting changes in equipment.

Fifth Zone

KPFA—The Peoples Forum of the Air., Helena, Mont.—License to 1210 cover construction permit (B5-P-1377) as modified, for a new station.

NEW—Mountain Top Trans Radio Corp., Denver, Colo.—Con-1370 struction permit for a new station to be operated on 1370 kilocycles, 100 watts night, 250 watts day, unlimited time. (Formerly filed in the name of The Neusteter Suit Co. B5- P-1930.)

KJEM—Redwood Broadcasting Co., Inc., Eureka, Calif.—Authority 1450 to transfer control of corporation from Harold H. Hanschet to William B. Smullin, Times Publishing Co. (a corp.) and Standard Printing Co. (a corp.) 18,750 shares common stock.

NEW—Don Lee Broadcasting System, Area of Southern California.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kilocycles, 2 watts.

NEW—Don Lee Broadcasting System, Area of Southern California.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kilocycles, 2 watts.

Alaskan Zone

KFQD—Anchorage Radio Club, Inc., Anchorage, Territory of 780 Alaska.—Construction permit to make changes in equipment.

NEW—Anchorage Radio Club, Inc., Anchorage, Territory of Alaska.—Construction permit for a new experimental broadcast station to be operated on 3492.5, 6425 kilocycles, 175 watts.

In Re AFM Dealings

RESOLUTION CONSIDERED AT AND ACTED UPON BY THE BOARD OF DIRECTORS OF THE NATIONAL ASSOCIATION OF BROADCASTERS AT A SPECIAL CONVENTION HELD AT THE WALDORF ASTORIA HOTEL, NEW YORK CITY, OCTOBER 12 AND 13.

WHEREAS, the broadcasting stations of the United States are licensed by the federal government under a mandate to serve the public interest, convenience and/or necessity; and

WHEREAS, radio broadcasting constitutes the greatest medium of simultaneous mass communication the world has ever known; and

WHEREAS, every consideration should and is being given by the industry to the social aspects of unemployment, in giving relief, the radio industry must keep foremost its grave responsibility to protect the freedom and growth of this marvelous facility for public service; and

WHEREAS, the broadcasting stations by virtue of long experience in rendering public service, have found that the public interest requires, in addition to locally produced programs by union musicians, the broadcasting of other local programs and of network and transcription programs; and

WHEREAS, there has not been and there is not now any dispute between the broadcasting industry and the American Federation of Musicians, in regard to wages, hours or working conditions; and

WHEREAS, negotiations between the American Federation of Musicians and committees representing a substantial part of the broadcasting industry have resulted in a conclusion as to the degree of re-employment acceptable to the American Federation of Musicians; but

WHEREAS, the American Federation of Musicians seeks to impose upon the broadcasting industry, by uniform contract, a system which in effect gives to the American Federation of Musicians the sole right to license the procurement by those stations of network and transcription programs; and

WHEREAS, such contract in effect transferring the control of the operation of any station may be sufficient ground for revocation of that station's federal license to broadcast, and also may constitute a violation of the federal statutes relating to restraint of trade; therefore now be it

RESOLVED, That the Board of Directors of the National Association of Broadcasters recom-
mends to broadcasters that any agreement entered into between the American Federation of Musicians and broadcasting stations should specifically provide that such agreements shall not contain any restrictions designed to prevent any station from broadcasting network, transcription or any other programs including those of civic, educational, religious, fraternal and public events characterized by it to be in the public interest; and that each station should consult its own counsel in all matters affecting (1) arbitration, (2) sympathetic strikes, (3) inviolability of contracts, (4) possible restraint of trade, and (5) its obligations to serve the public interest in providing educational and entertainment programs.

PROPOSAL FOR REORGANIZATION OF NAB

The following Resolution was adopted unanimously at the Special NAB Convention held at the Waldorf Astoria Hotel, New York City, October 12 and 13, 1937.

RESOLVED:

1. That the Bureau of Copyrights of the National Association of Broadcasters be and is hereby divorced from the Association and required to function henceforth as a separate and private business enterprise, the Association, however, to continue its stock ownership in the Bureau, and the Board of Directors to be authorized by majority vote from time to time to appropriate funds of the Association for the purpose of further support of the Bureau, but only if and to the extent that a real need for such support develops and upon a clear showing by the Bureau of the nature and extent of such need.

2. That the proposal for increase in membership dues, now before this meeting for consideration, be adopted.

3. That a Committee of five members of the Association, consisting of Mark Etheridge, Chairman; Ed Allen, Ed Craney, Walter J. Damm, and John Shepard, III, be and it is hereby created, and charged with the duty of perfecting and presenting to the Association detailed plans for the reorganization and future development of the Association, and the Board of Directors of the Association is hereby instructed to appropriate and pay for the Committee’s expenses, including the employment of a secretary and any necessary personnel.

4. That at this meeting the Board of Directors of the Association fix a time and place for the next regular meeting of the Association, at which the report of said Committee of Five shall be considered.

The above points were explained as follows:

Paragraph 1

The Bureau of Copyrights was created under a resolution adopted by the membership of the Association. It has been developed by the Managing Director under the supervision of the Board of Directors. Today it is a separate corporation. Nevertheless it is being conducted within the offices of the Association and is making use of the Association’s personnel, finances and facilities. All of this was necessary to give effect to the resolution adopted by the Association.

There is now a widespread feeling among the members that the Bureau is ready to proceed on its own feet and that it will make better progress as an independent organization; in other words, that the period during which the Association willingly gave liberal support to the Bureau is now over, and that with its present public domain library and transcribed selections, the Bureau will go forward more rapidly if it must look to its own work to produce revenue to meet its expenses instead of being dependent upon the Association for such revenue. These members believe that the funds of the Association must henceforth be devoted to the general work of the Association and cannot be further diverted to the purposes of the Bureau.

In order that the benefit of the pioneering work heretofore done may not be lost, it is hoped that the Bureau will devote more effort to a vigorous promotion and sales program for the service which the Bureau has to offer. Members of the Association are urged to support it by purchase of the library as insurance against future withdrawals of licenses by any licensing organization. To meet the case where a real need develops at any time in the future for support of the Bureau by the Association, it is suggested that the Board of Directors be given authority to appropriate funds for this purpose, but only upon a clear showing by the Bureau as to the nature and extent of this need.

Paragraph 2

This point needs little discussion. Members consulted have stated they are ready and willing to pay increased dues, and pay willingly, for the performance of what they believe are the necessary and proper functions of the Association. If the program herein outlined is to be carried out, a substantial increase in dues must be approved. Failure of this proposal will defeat the program.

Paragraph 3

In a meeting such as this it is obviously impossible to develop a detailed plan for the future. It is unfortunate that such a plan has not been presented for consideration of the members in advance of this meeting. Even if such plan were ready, however, it would be impossible to put it into effect for the very good reason that this is a special meeting, called for a special purpose, and the Association’s Constitution and By-Laws will not permit actions other than those outlined in the resolution summoning the meeting. Many valuable suggestions for reorganization of the Association have been advanced, and
some of these have received consideration in recent meetings of the Board and other groups. The purpose of the proposed Committee of Five is to give thought and study to these suggestions, weigh them in the light of the needs of the industry, set up the objectives to be achieved, and recommend the necessary changes in the Constitution and By-Laws of the organization to permit achievement of these objectives.

Conceivably, this Committee would give thought and study to such suggestions as the employment of a President who might be compensated for his services and recommend such changes as in the basic law of the Association which would define the scope of his authority and his duties. It is hoped and expected that it would adopt policies so sound in principle that each and every unit of this industry, from the largest networks to the smallest part-time station would be proud of its membership in the organization, and that provision would be made to make such policies effective by binding each member to adhere strictly to them. If it is the will of the industry to appoint and compensate such a leader, then each member should bind himself to follow his leadership.

These are merely illustrations. Many more must be considered. But it would be the duty of this Committee to draft a report, complete in detail, place a copy of it in the hands of each member at least 60 days in advance of the date for the next meeting and invite criticism of the recommendations contained in the report. The Committee would then be expected to redraft its report in the light of the suggestions and criticisms of the members and send copies of such revised report to each and every member at least 30 days in advance of the meeting in order that each member may come to the meeting prepared to act formally and finally upon the report. The report in its finished form should contain estimates of cost, and if further increases in dues payments are necessary, the necessary changes in the By-Laws should be recommended. The report should be complete in detail, the recommendations definite, and there should be included therewith, drafts of all amendments to the Constitution and By-Laws required to give effect to the recommendations. Through the work of this Committee, the regular meeting of the membership would be in position to take definite and decisive action upon the program for the future development of the Association. To complete the task expected of it, the Committee of Five will necessarily need the assistance of personnel, including a secretary, and will have other expenses. The Board of Directors should, therefore, have authority to meet these expenses.

Paragraph 4

This meeting has the power to fix a time and place for the next annual meeting. At such regular annual meeting the terms of all officers and one third of the members of the Board will terminate, elections will be held, and the recommendations of the Committee of Five may be approved or rejected. The complete reorganization program which is being started here should be carried to conclusion at that meeting. The meeting ought to be held in January and in any event not later than February.

LOUCKS ACTS AS COUNSEL FOR RE-ORGANIZATION COMMITTEE

The Committee created at the Special NAB Convention to perfect and present to the Association detailed plans for the reorganization and future development of the Association has retained Phillip G. Loucks, formerly Managing Director of the NAB, and presently practicing law in Washington, D. C., as Counsel to the Committee. Mr. Loucks has accepted the assignment to serve until the work of the Committee is completed.

247 STATIONS REPRESENTED AT NAB CONVENTION

A total of 334 persons representing 247 stations registered during the two-day session of the Special NAB Convention at the Waldorf Astoria Hotel, New York, N. Y., October 12-13, 1937.

The transcript of the proceedings will be printed at the earliest possible date.

NAB ENGINEERING COMMITTEE SUB-MITS RECOMMENDATIONS ON TECHNICAL ASPECTS HABANA RADIO CONFERENCE

The Engineering Committee of the NAB has recommended to the Board of Directors of the NAB that the Committee be authorized and directed to present the following recommendations to the U. S. Delegation to the Habana Radio Conference to begin November 1, 1937:

The NAB Engineering Committee endorses in principle the resolutions adopted at the March Habana Conference (outlined in mimeograph form No. 23201) as applying internationally but with the reservation that it recommends:

(a) That the standards of interference and protection shall not be binding upon any nation as determining such factors as applied between stations located within its own boundaries.

(b) That the permissible intensity of interfering signal specified on page 20 of the “Final Minutes of the Regional Radio Conference convened in the City of Habana from March 15th to March 29, 1937” (outlined in mimeograph No. 20769) with reference to Class I stations using Class A clear channels shall not permit a decrease in the distances set forth in the Table on page 8.
(c) That the contours within which interference is to be measured, as specified in the same table should be measured by day for daytime interference and by night for nighttime interference, and should be specified for lower values of signal intensity for each class other than Classes I and II, than are there set forth.

(d) That the definitions and tables should be revised so as not to conflict with the foregoing recommendations.

**BROADCAST ADVERTISING VOLUME TO BE COMPUTED IN TERMS OF UNIT HOURS INSTEAD OF DOLLARS**

By unanimous agreement, the members of the NAB soon will discontinue the computation of broadcast advertising volume in terms of dollars. Instead, they will indicate the volume of business in terms of unit hours. This change in policy was effectuated at the Special Convention by the adoption of a resolution offered by Harold Hough, NAB Treasurer, and General Manager of WBAP, Fort Worth, Texas.

John Elmer, NAB President, appointed the following committee to work out necessary details to effect the change: Harold Hough, Chairman; H. M. Beville, Jr. (NBC), Ralph R. Brunton (KJBS), Tom C. Gooch (KRLD), John Karol (CBS), Lambdin Kay (WSB), Gene O’Fallon (KFEL), and Robert A. Schmid (MBS).

Mr. Hough has taken the matter up with officials of the network companies and reports that the matter is under advisement. The committee expects to make an early announcement concerning the rules, regulations and definitions required to establish uniformity in procedure.

The text of the resolution follows:

"Whereas, It has been the custom of agencies, broadcasting stations, and the management of the chains to use the term ‘dollars’ in referring to gains and losses and amount of broadcasting business; and,

"Whereas, This method does not present a true, fair, accurate picture of the business of the broadcasting industry, particularly, in relation of the receipts to the stations.

"Whereas, The published revenue, as submitted to the public by the agencies, stations and chains, does not show that portion being actually received by the stations, but makes a misleading analysis, as no account is published of the percentage going to the stations, percentage for commissions, or the percentage for line charges, which is misleading to the public, the Federal Communications Commission, and the advertisers; therefore be it

"Resolved, That it is the wish of the National Association of Broadcasters that the standard yard stick of measurement on broadcast business, in the future, be computed and published in the terms of unit hours instead of gross dollars; be it further

Resolved, That the National Association of Broad-casters urge all agencies, member stations and non-member stations to adopt the policy of presentation of unit hours, instead of gross dollars; and be it further

Resolved, That a request be made to the National Broadcasting Company, the Columbia Broadcasting System, the Mutual Broadcasting System, and any other chain, to use the practice of presenting any volume in phrases of unit hours instead of gross dollars; be it further

Resolved, That the president of the National Association of Broadcasters appoint a committee to confer with the chain management and to present to them the views of the National Association of Broadcasters.

**FCC ABOLISHES DIVISIONS—SEVEN MEMBERS TO ACT ON ALL MATTERS**

The Federal Communications Commission has announced that effective November 15 it will abolish its three divisions which came into existence in July, 1934.

In this connection Chairman McNinch made public the following statement at a press conference on Thursday:

By unanimous vote the Federal Communications Commission has adopted an order, proposed by Chairman Frank R. McNinch, which abolishes the three divisions, Broadcast, Telegraph and Telephone, effective November 15.

Following is a copy of Order No. 20, as adopted:

"The divisions of the Commission created by Commission Order No. 1, adopted July 17, 1934, are hereby dissolved and abolished as of November 15, 1937, and all powers and functions heretofore and presently vested in such divisions shall thereafter be exercised by the Commission.

"Chairman McNinch, with such assistance as he may require, is hereby directed to prepare for submission to the Commission at the earliest practicable date such new and supplementary rules and regulations and such modifications of the present rules and regulations as are made necessary by this order."

Chairman McNinch stated that approval of Order No. 20 by the members of the Commission "was not merely that of assent but that, after a thorough and full discussion of the proposed order, it was clear that it had the unreserved approval of the judgment of every member of the Commission."

"Some of the reasons," said Chairman McNinch, "underlying this fundamental change of organization policy are that experience has shown that to subdivide a small Commission has a divisive effect and tends away from cooperation and mutual understanding; the assignment of such important work as has heretofore been handled by divisions theoretically composed of three Commissioners, but in fact functioning with two Commissioners because of the impracticability of the Chairman's keeping himself
currently informed and attending meetings, has resulted in two members of the Commission carrying an unnecessary load of responsibility and exercising an undesirably large portion of the power and functions of the Commission, while at the same time denying the other Commissioners any practical opportunity to participate in decisions. When such major phases of the Commission's work, as Broadcasting, Telephone, and Telegraph, have been committed to the handling and decision of only two members, these two members have been denied opportunity to exchange views with and profit by free discussion and expression of opinions by the other Commissioners. Commissioners not on a particular Division have felt a natural reluctance to inquire into the work committed to others, hence, they were denied effective expression of their views upon pending matters. Furthermore, the segregation of Commissioners into units, with power to act, unavoidably requires that they specialize in their thought and action upon limited phases of the Commission's work and this, with other reasons above mentioned, prevents a rounded development of every Commissioner's knowledge of and experience in the whole field of the Commission's work.

"A Commission functioning as such," continued Chairman McNinch, "has the benefit of the free discussion and exchange of views, it learns better to cooperate, the Commissioners gain a better understanding of each other, and they influence and share in every important responsibility. The aggregate wisdom and judgment of seven minds is surely greater than any two or three of the seven.

"I am delighted at the hearty approval given by my colleagues to the proposed reorganization plan and I am confident we are thereby laying a solid foundation and making a real start toward functioning cooperatively and much more effectively."

In connection with the abolition of the three divisions the Commission also automatically abolished the offices of the directors of the three divisions.

Dealing with this matter the Chairman made the following statement:

Before adopting Order No. 20 abolishing the divisions, the Commission faced squarely and honestly the fact that the abolishing of the divisions would have the unavoidable consequence of abolishing the positions of Director of the three divisions. This was a genuine cause of regret to the Commission, as the Commission spoke highly of the Directors and they are regarded as uniformly loyal, faithful and capable of performing their present duties. However, under the language of the statute, there is unfortunately no provision for their continuance in their present capacity. If any or all of them are able to qualify under the statute and also meet the requirements of any position now open or hereafter available, the Commission would find pleasure in giving preferential consideration to them.

RADIO LEGISLATION AT SPECIAL SESSION

President Roosevelt has called a special session of Congress to convene on November 15.

There is much radio legislation which will be pending as the session convenes. All of the bills which were introduced at the last session and on which no action was taken will be in a position for action at the coming special session.

Details of the pending radio legislation were printed in Volume 5, Number 36 of NAB Reports.

RULE AMENDED ON CALL LETTER ANNOUNCEMENTS

The Federal Communications Commission this week made public an amendment of its Rule 175, dealing with the announcement of call letters by broadcast stations. The Commission's statement is as follows:

Rule 175, as amended, reads as follows:

"Each licensee of a broadcast station shall announce the call letters and location as frequently as practicable during the hours of operation, and in any event before or after each program being broadcast. In no event shall more than 30 minutes elapse between such announcements, and in so far as practicable these announcements shall be made on the hour and half hour. These requirements are waived when such announcements would interrupt a single consecutive speech, play, symphony concert or operatic production of longer duration than 30 minutes; and in such cases the announcement of the call letters and location shall be made as soon as possible."

The Commission announces the following interpretation of the second sentence which reads: "In no event shall more than 30 minutes elapse between such announcements, and in so far as practicable these announcements shall be made on the hour and half hour." Call letters of stations need not be announced within exactly 30 minutes or less of the previous announcement but shall be made as near thereto as practicable. During variety-show programs, baseball game broadcasts, etc., of an hour or more in duration, the call letter announcements shall be made on the hour and half hour within a 5-minute period thereof. That is, the half hour announcement shall be made between 25 and 35 minutes after the hour, and likewise the hour announcement shall be within 5 minutes of the hour.

The interpretation given above in no way affects the waiver clause given in the last sentence of this rule.

RECOMMENDS DENIAL OF CALIFORNIA STATION

Richard Field Lewis applied to the Federal Communications Commission for a construction permit for a new
station at Oakland, Calif., to use 1160 kilocycles, 1,000 watts, and daytime operation.

Examiner P. W. Seward, in Report No. I-501, recommended that the application be denied. He states that "the evidence adduced at the hearing does not show a need for additional daytime radio broadcast service in the area proposed to be served." It is further stated by the Examiner that the granting of the application would be in violation of the Communications Act "in that it would increase the apparent excessive radio broadcast service available in the area proposed to be served and would not be a fair, efficient, and equitable distribution of radio service."

DENIAL RECOMMENDED FOR NEW MICHIGAN STATION

The Genesee Radio Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Flint, Michigan, to use 1200 kilocycles, 100 watts and 250 watts LS, and specified hours of operation.

Examiner P. W. Seward, in Report No. I-500, recommended that the application be denied. He found that the evidence did not disclose a need for additional radio service in the area proposed to be served. The Examiner states also that "the evidence adduced at the hearing shows that the proposed station would be owned and controlled by virtually the same individuals who own and control the only other radio broadcast station in Flint."

The Examiner states that the granting of the application would not be in the public interest.

CHANGES RECOMMENDED FOR KPQ

Broadcasting station KPQ, Wenatchee, Wash., operating on 1500 kilocycles, 100 watts, 250 watts LS, and unlimited time, applied to the Federal Communications Commission to change its frequency to 1360 kilocycles, and increase its power to 1,000 watts, with unlimited time.

Examiner Melvin H. Dalberg, in Report No. I-499, recommended that the application be granted. He states that "the broadcast service provided by the applicant is of a very small extent."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3235. Misrepresentation of the therapeutic value of certain medicinal products he sells in interstate commerce is alleged in a complaint issued against Earl C. Noyes, trading as Seyon Products Company, Inc., and End-O-Corn Laboratories, Inc., with his principal place of business at 129 State St., Rutland, Vt., and 4 East Garfield Blvd., Chicago.

Products sold under the names Seyon Fluid, Seyon Ointment and Seyon Lax-O-Tabs allegedly are advertised by Noyes as constituting competent and effective remedies and cures for neuritis, lumbago, neuralgia, rheumatism, arthritis and sciatica. According to the complaint, such representations are false and misleading in that the precautions that are not effective in the treatment of the ailments or diseases named, and will not relieve pain incident to such conditions or have any beneficial effect on the causative factors thereof.

The complaint charges that the respondent also falsely represents that Seyon Ointment is a competent remedy for headaches and head and chest colds and that his preparation known as End-O-Corn will competently remove corns.

No. 3236. Use of certain unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act, is alleged in a complaint issued against Fox-Wels Company, 1130 Chestnut St., Philadelphia, engaged in the sale of fur and fur garments.

The complaint charges that the respondent company in advertising matter designates certain of its fur garments as "black seal", "Hudson seal" and "French seal", the advertisements in some instances not qualifying such designations, while in others the words "dyed coney" or "dyed muskrat" appear in substantially smaller type, so as not to be easily readable, and are not in close proximity to, but are widely separated from, the designations.

According to the complaint, the garments bearing the designations referred to are not made from furs and skins of the seal, but from rabbit or muskrat skins so dressed and dyed as to resemble pelts of the sealskins of the seal. It is alleged that rabbit and muskrat skins are inferior to sealskins in pliability and durability of the leather and in wearing quality and luster of the fur.

No. 3238. Three individuals trading under various names in the sale and distribution of premium certificates, coupons and cards redeemable in silverware, chinaware and earthenware, are charged with unfair competition in a complaint. The respondents are William C. and Lorina Steffy, and G. N. Parkinson, 549 West Washington Boulevard, Chicago. The complaint also charges use of an alleged sales promotion plan involving a lottery.

Representations of the respondents are alleged to have created the impression among purchasers that retailers buying certificates, coupons or cards from the respondents are dealing directly with the manufacturers; that the respondents would redeem certificates with silverware, chinaware or earthenware of the same grade and quality as samples displayed; that full sets of such ware would be furnished to purchasers of certificates, and that the respondents would redeem certificates calling for silverware in "Genuine Rogers Silverware", when, according to the complaint, these were not the facts and the respondents' representations were highly deceptive, false and misleading.

No. 3239. Misrepresentation of the composition of certain fabrics is alleged in a complaint issued against Colonial Mills, Inc., 469 7th Ave., New York, engaged in the manufacture and sale of silk, rayon and other cloths.

Garment manufacturers purchasing certain fabrics from Colonial Mills, Inc., were supplied by the respondent company with tags and labels to be attached, and which were attached, to the garments manufactured from such fabrics, according to the complaint. On these tags and labels, it is alleged, were the words "This garment is made of Satin Amorosa Pure Dye with Crown Rayon Yarn", the words "Satin Amorosa Pure Dye" appearing in much larger and more conspicuous type than the words "with Crown Rayon Yarn".

The complaint charges that other labels furnished customers bore the words "Amora Crepe Pure Dye of Celanese Yarn", while in newspaper advertisements fabrics were described as "Satin Amorosa".

No. 3240. A complaint has been issued charging Harland L. Harland, 644 Diversey Boulevard, Chicago, with unfair competition in the sale of Prostories, represented as a new discovery and as a treatment and cure for disturbances of the prostate gland. The
respondent is in business under the name National Scientific Products Co.

According to the complaint, the respondent's product is not a new medical discovery or scientific development in the medical science, and does not constitute a competent and effective remedy or cure for certain diseases and disorders of the prostate gland.

**Stipulations**

The Commission has entered the following stipulations:

No. 01878. L. C. Cleveland, trading as Dr. Cleveland and as Dr. L. C. Cleveland, 503 Missouri Ave., East St. Louis, Ill., in the sale of dental plates, agrees to stop asserting that it is easier for a layman to take impressions than for "someone to do it for you", and that results are guaranteed. Cleveland also stipulates that he will not advertise the plates as being capable of correcting stomach ailments, or that one's health depends on good fitting plates, and that the reliance of the public on a medical principle, and does not constitute a competent and effective remedy or cure for certain diseases and disorders of the prostate gland.

No. 01879. M. R. Temple, 625 Kansas Ave., Topeka, Kans., trading as The Bartow Company, will discontinue advertising Dr. Robison's Foot Powder as constituting a competent treatment or effective remedy for athlete's foot, unless specifically limited to relief of local manifestations and symptoms thereof. He will cease representing that this product will afford relief in all cases of foot pain and that it is guaranteed.

No. 01880. Exsclor Laboratory, Inc., 265 East 42nd St., New York, in the sale of Dr. G. W. Convoy's Garlic Tablets, will discontinue representing that this preparation is of any value in the treatment of high blood pressure, unless the assertion is limited to the relief of dizziness, headaches or other symptoms accompanying high blood pressure, or to the relief of high blood pressure when the preparation is used continuously and in qualified doses at prescribed intervals. He stipulates that neither the tablets nor any element thereof will be advertised as being capable of normalizing glandular action, purifying the blood stream, adequately supplying minerals needed by the body, or neutralizing poisons in the system.

No. 01881. The Benjamin Air Rifle Company, St. Louis, Mo., agreed to cease advertising that its products are the only genuine compressed air rifles and pistols on the market, unless such claim is limited to those types of rifles and pistols in which the use of compressed air as the propellant force is an exclusive feature of the respondent company's equipment. The company will stop representing that the Benjamin air rifle is the hardest shooting air rifle made, unless limited to such types of its air rifles as are known to employ a greater propellant force than similar types sold by competitors. The company also will discontinue representing that the Benjamin air rifle is two or three times brighter than any non-pressure wick-type lamp. These assertions are to be discontinued unless competent scientific tests support the claims.

No. 01882. Bathasweet Corporation, 1901 Park Ave., New York, agrees to discontinue representing that Bathasweet, a chemical compound for softening the water, is a quickly available source of calcium. The respondent corporation has entered into a stipulation to discontinue certain unfair representations in the sale of its lamps and lanterns.

No. 01883. R. B. Hanson, trading as F. & H. Radio Laboratory, Inc., Los Angeles, agreed to discontinue representing that its product is an effective remedy for bunions or rheumatism; that it will cure foot ailments and enable one to walk normally; that the product is an effective remedy for bunions or rheumatism; that it restores the natural structure of the arch, unless this claim is limited to its aid to nature in the restoration thereof, and that any result which may be effected by use of the arch will be permanent.

No. 01884. Fred Reppert, Decatur, Ind., operating as Hart & Co., will stop advertising that use of its device known as Klutch will make loose dental plates firmer and prevent them from drifting or under-biting; that it will increase the use of artificial teeth except in cases where slight inaccuracies occur, and that it will be of substantial value in cases where changes in gum tissue or improper fitting make correction of the plates necessary.

No. 01885. G. Fox & Co., Inc., Main St., Hartford, Conn., and A. & J. Engel, Inc., 20 West 33rd St., New York, have entered into a stipulation to discontinue certain unfair representations in connection with the advertising and sale of fur garments. According to the stipulation, the Engel company ships furs free, to the tuning of furs, the customer selecting the fur to be used in the garment, and the two corporations cooperate in the sale of such products.

The companies agreed to cease representing, designating or describing fur products in any manner other than by use of the correct name of the fur of which the products are composed as described in the descriptive words appear.

No. 01886. Makers of Kal, 2341 West Washington Blvd., Los Angeles, engaged in selling Kal, recommended as a food supplement, will stop advertising that two teaspoonsful of the product contain calcium in an amount equal to that present in three pints of milk, that it will prevent and cure skin ailments and bones, or a harmonious nervous system depend on calcium or on a quickly available source of calcium. The respondent corporation also agrees to discontinue representing that Kal protects the body from the harmful or devitalizing effects of malnutrition, and that through its use one may enjoy health, energy, vitality, or fight old age.

No. 01887. H. M. Heefner, 750 M. E. Taylor Building, Louisville, Ky., trading as Heefner Arch Support Company, agrees to cease representing that use of the Heefner Arch Support will correct foot ailments and enable one to walk normally; that the product is an effective remedy for bunions or rheumatism; that it restores the natural structure of the arch, unless this claim is limited to its aid to nature in the restoration thereof, and that any result which may be effected by use of the arch will be permanent.

No. 01888. Coleman Lamp and Stove Company, 250 North St. Francis Ave., Wichita, Kans., has entered into a stipulation to discontinue certain unfair representations in the sale of its lamps and lanterns.

No. 01889. I. Putnam, Inc., Elmira, N. Y., operating as Hart & Co., will stop advertising that use of its device known as Klutch will make loose dental plates firmer and prevent them from drifting or under-biting; that it will increase the use of artificial teeth except in cases where slight inaccuracies occur, and that it will be of substantial value in cases where changes in gum tissue or improper fitting make correction of the plates necessary.

No. 01890. Max Leavitt and the Estate of Morris Bell, also engaged in the sale of trousers, agreed to cease use of the words "Government Khaki" as descriptive of their products, and the word "Government" with "Khaki" or other words so as to imply that the products to which such words refer are made by or for the United States Government or in accordance with governmental specifications. The respondent corporation has entered into a stipulation to discontinue employment of the word "waterproof" alone or with the word "guaranteed" to describe trousers which are not impervious to water.

No. 01891. Monness & Shapiro, 313 Broadway, New York, also engaged in the sale of trousers, agreed to cease use of the words "Government Khaki" as descriptive of their products, and the word "Government" with "Khaki" or other words so as to imply that the products to which such words refer are made by or for the United States Government or in accordance with governmental specifications. The respondent corporation has entered into a stipulation to discontinue employment of the word "waterproof" alone or with the word "guaranteed" to describe trousers which are not impervious to water.

No. 01892. United Clothing Company, Inc., 739 Seventh St., N. W., Washington, D. C., operating a retail clothing store, stipulates that it will discontinue use of advertising matter the word "free" alone or with other words as descriptive of merchandise represented to be given free with the purchase of other merchandise, when, in fact, the article is not given as a gratuity but only for and in consideration of the purchase of some other article.

No. 01893. Under a stipulation entered into, the Perfection Circle Company, Hagerstown, Ind., will cease certain misrepresentations in advertising a piston ring which it manufactures and sells under the name X-90.
The company agrees to discontinue use in advertising matter or otherwise of representations, the effect of which is to imply that by equipping old, worn motors with its piston rings, the power, speed and acceleration of a new car will in all cases be instantly restored; that all improvements and developments in piston rings since 1907 have come out of the Perfect Circle laboratories, or that the X-90 piston ring will operate at maximum efficiency at all speeds, when such statements are not warranted by the facts and not supported by the weight of scientific evidence.

No. 2065. Metropolitan Vineyards Company, Inc., 17 Fulton St., Brooklyn, engaged in the manufacture of wine from grapes, agrees to stop employing the word “vineyards” as part of the corporate or trade name under which it sells grape wines, and to cease using the word “vineyards” in any manner implying that it actually owns and operates a vineyard or vineyards in which are grown the grapes used in the manufacture of its wines as sold under the corporate name containing the word “vineyards”, when such is not a fact. The stipulation points out that the respondent company, although leasing a small vineyard, purchases a substantial part of its grape supply from vineyards which it neither owns and operates nor controls.

No. 2066. John E. Granling, trading as Nu-Grape Bottling Company, having headquarters at Opelika, Ala., and warehouses at Alexander City, Ala., and LaGrange, Ga., agrees to stop using any sales plan involving a lottery or gift enterprise in the sale of carbon paper, the respondent company, although leasing a small vineyard, purchases a substantial part of its grape supply from vineyards which it neither owns and operates nor controls.

No. 2067. Kee Lox Manufacturing Company, Rochester, N. Y., in the sale of carbon paper, agrees to stop the use in advertising of the words “The only non-grease carbon paper”, or of other phrases of similar meaning, so as to imply that there are no other non-grease carbon papers on the market, or that competitive products on the market are made with the use of grease. The stipulation points out that the respondent company’s carbon paper comes in a bowwow and for some time past has not been the only non-grease carbon paper on the market.

No. 2068. Edison Pen Company, Inc., Petersburg, Va., trading as Southern Pen Company, agrees to cease furnishing resellers of its products, for their use, with labels, bands or other printed matter bearing false or fictitious prices in excess of the prices at which the Edison company’s products actually are sold, or prices which misleadingly exaggerate the true value of its products.

The respondent company also stipulates that it will cease furnishing resellers of its articles with so-called “guarantee certificates” representing that products sold by Edison Pen Company, Inc., will be repaired without charge, when such is not a fact. The stipulation points out that the respondent company requires purchasers to remit 30 cents for postage and insurance, and that this amount fully compensates the company for any and all repair work over and above mailing and insurance costs.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, October 18:

Monday, October 18
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Voice of Detroit, Inc, Detroit, Mich.—C. P., 1120 kc., 500 watts night, 1 KW LS, unlimited.
NEW—George B. Storer, Pontiac, Mich.—C. P., 800 kc., 1 KW LS, daytime.
NEW—Gerald A. Travis, La Porter, Ind.—C. P., 1420 kc., 250 watts, LS, daytime.

NEW—Times Printing Co., Chattanooga, Tenn.—C. P., 1120 kc., 500 watts night, 1 KW LS, unlimited (using directional antenna day and night).
NEW—Cadillac Broadcasting Corp., Detroit, Mich.—C. P., 1140 kc., 500 watts, daytime.

FURTHER HEARING BEFORE AN EXAMINER
NEW—Fred M. Weil, Grand Coulee, Wash.—C. P., 1420 kc., 100 watts night, 250 watts, LS, unlimited.

Tuesday, October 19
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Sam Houston Broadcasting Assn., H. G. Webster, Pres., Huntsville, Texas.—C. P., 1500 kc., 100 watts, daytime.
NEW—Shirley D. Parker, Yakima, Wash.—C. P., 1310 kc., 100 watts, 250 watts, LS, unlimited.
NEW—Kanawha Valley Broadcasting Co., Charleston, W. Va.—C. P., 1500 kc., 100 watts, unlimited.

Wednesday, October 20
HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—O. C. Burke, Dickinson, Texas.—C. P., 1500 kc., 100 watts, unlimited time.
NEW—Chas. F. Engle, Natchez, Miss.—C. P., 1210 kc., 100 watts, 250 watts, LS, unlimited.
KVEC—Christina M. Jacobson, tm as The Valley Electric Co., San Luis Obispo, Calif.—Modification of license, 1200 kc., 100 watts, 250 watts, LS, unlimited. Present Assignment: 1200 kc., 250 watts, daytime.

Thursday, October 21
ORAL ARGUMENT BEFORE BROADCAST DIVISION
Examiner's Report No. 1-434:
Examiner's Report No. 1-437:
NEW—Valley Broadcasting Co., Youngstown, Ohio.—C. P., 1350 kc., 1 KW, unlimited time.
Examiner's Report No. 1-407:
NEW—Juan Piza, San Juan, P. R.—C. P., 1500 kc., 100 watts, 250 watts, LS, unlimited.

Friday, October 22
HEARING BEFORE THE BROADCAST DIVISION
W1XAL—World Wide Broadcasting Corp., Boston, Mass.—Modification of license, 6040, 11790, 15250, 21460, 9550, 11790, 15130, 21500 kc., 20 KW, unlimited time, according to Rule 983.
W9XF—National Broadcasting Co., Inc, Downer's Grove, Ill.—C. P., 6100, 9550, 11790, 15130, 17780, 21500 kc., 50 KW, unlimited, according to Rule 983.
W2XAD—General Electric Co., Schenectady, N. Y.—C. P., 9500, 15330, 21500 kc., 100,000 watts, unlimited time, according to Rule 983.

HEARING BEFORE AN EXAMINER
(Broadcast)
NEW—Gila Broadcasting Co., Safford, Ariz.—C. P., 1320 kc., 100 watts, 250 watts, LS, unlimited.
APPLICATIONS GRANTED

WTAL—Florida Chapel Broadcasters, Inc., Tallahassee, Fla.—Granted C. P. to make changes in equipment and increase day power to 250 watts.

WIRE—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted C. P. to move transmitter locally; install new equipment and make changes in directional antenna system.

KGW—Central Nebraska Broadcasting Corp., Kearney, Neb.—Granted C. P. to move transmitter and studio location to site to be determined with Commission’s approval; install new equipment and vertical radiator; increase day power to 250 watts.

WGN—WGN, Inc., Chicago, Ill.—Granted C. P. to move transmitter to 2 1/2 miles SE of Schaumberg, Ill.; move studio to 441 No. Mich. Ave., Chicago; install new equipment and vertical radiator.

WMX—Peoria Broadcasting Co., Peoria, Ill.—Granted license to cover C. P., 1440 kc., 1 KW night, 5 KW day, unlimited time. Also granted authority to determine operating power by direct measurement of antenna input.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Granted license to cover C. P.; 1210 kc., 100 watts night, 250 watts day, unlimited time.

WOKO—WOKO, Inc., Albany, N. Y.—Granted license to use WE 106-B transmitter as auxiliary with 500 watts power.

WAML—New Laurel Radio Station, Inc., Laurel, Miss.—Granted license to cover C. P.; 1310 kc., 100 watts night, 250 watts day, unlimited.

KPFA—The Peoples Forum of the Air, Helena, Mont.—Granted license to cover C. P. as modified; 1210 kc., 100 watts night, 250 watts day, unlimited.

WOKA—Bandwagon Radio, Inc., Santa Monica, Calif.—Granted special temporary authority to operate Saturdays, October 16, 23 and 30, from 1:30 to 2:30 p. m., MST, in order to broadcast parade and game.

KUSO—“The Farmers & Bakers Broadcasting Corp.,” Wichita, Kans.—C. P., 1050 kc., 5 KW, unlimited time. Present Assignee: same facilities (requests a move from Abilene, Kans. to Wichita, Kans., exact site to be determined).

APPLICATIONS GRANTED

WTAL—Florida Chapel Broadcasters, Inc., Tallahassee, Fla.—Granted C. P. to make changes in equipment and increase day power to 250 watts.

WIRE—Indianapolis Broadcasting, Inc., Indianapolis, Ind.—Granted C. P. to move transmitter locally; install new equipment and make changes in directional antenna system.

KGW—Central Nebraska Broadcasting Corp., Kearney, Neb.—Granted C. P. to move transmitter and studio location to site to be determined with Commission’s approval; install new equipment and vertical radiator; increase day power to 250 watts.

WGN—WGN, Inc., Chicago, Ill.—Granted C. P. to move transmitter to 2 1/2 miles SE of Schaumberg, Ill.; move studio to 441 No. Mich. Ave., Chicago; install new equipment and vertical radiator.

WMX—Peoria Broadcasting Co., Peoria, Ill.—Granted license to cover C. P., 1440 kc., 1 KW night, 5 KW day, unlimited time. Also granted authority to determine operating power by direct measurement of antenna input.

WJBY—Gadsden Broadcasting Co., Inc., Gadsden, Ala.—Granted license to cover C. P.; 1210 kc., 100 watts night, 250 watts day, unlimited time.

WOKO—WOKO, Inc., Albany, N. Y.—Granted license to use WE 106-B transmitter as auxiliary with 500 watts power.

WAML—New Laurel Radio Station, Inc., Laurel, Miss.—Granted license to cover C. P.; 1310 kc., 100 watts night, 250 watts day, unlimited.

KPFA—The Peoples Forum of the Air, Helena, Mont.—Granted license to cover C. P. as modified; 1210 kc., 100 watts night, 250 watts day, unlimited.

KUSO—“The Farmers & Bakers Broadcasting Corp.,” Wichita, Kans.—C. P., 1050 kc., 5 KW, unlimited time. Present Assignee: same facilities (requests a move from Abilene, Kans. to Wichita, Kans., exact site to be determined).

NEW—Indianapolis Power & Light Co., Mobile (Indianapolis, Ind.)—Granted C. P. for new relay station; frequencies 31100, 34600, 37600, 40600 kc., experimental; 40 watts, unlimited.

NEW—Birmingham News Co., Mobile (Area of Birmingham, Ala.), (2 Applications).—Granted C. P. for new relay station; frequencies 31100, 34600, 37600, 40600 kc., experimental; 2 watts power, unlimited.

SET FOR HEARING

NEW—Evening News Press, Inc., Port Angeles, Wash.—C. P. for new station; 1500 kc., 100 watts night, 250 watts day, unlimited time. Exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

WOGC—King-Trendle Broadcasting Corp., Grand Rapids, Mich.—C. P. to move transmitter site locally to site to be determined with Commission’s approval; install new equipment; change frequencies from 1270 kc. to 1010 kc., power from 500 watts night and day, sharing WASH to 250 watts, unlimited time.

WSJS—Piedmont Publishing Co., Winston-Salem, N. C.—C. P. for move of transmitter to 1/2 mile west of O. E. Holder Homeplace, Oldtown Township, N. C. Install new equipment with directional antenna system; change frequencies from 1200 to 1250 kc., 250 watts day, unlimited time; to 1 KW night, 5 KW day, using D. A. night-time use.

WKBW—WKBN, Broadcasting Corp., Youngstown, Ohio.—Amended modification, C. P. to install directional antenna for day and nighttime operation when WOSU is operating; increase operation from specified hours to unlimited; extend commencement date to 30 days after grant and completion date to 6 months thereafter.

KEHE—Heast Radio, Inc., Los Angeles, Calif.—Modification of license to increase night power from 1 KW to 5 KW. To be heard before the Broadcast Division.

KANS—Charles C. Theis, Wichita, Kans.—Transfer control of KANS Broadcasting Co. licensee KANS, to Herbert Hollister and Don Searle; 1210 kc., 100 watts, unlimited.

RENEWAL OF LICENSES

The following stations were granted renewal of license for the regular period:

KFAC, Los Angeles; KGB, San Diego; KRIS, Corpus Christi, Texas; KSCJ, Sioux City, Iowa, and auxiliary; KTBX, Shreveport, La.; KTUL, Tulsa, Okla.; WADC, Village of Tallmadge, Ohio; WALA, Mobile, Ala.; WAZZ, Zarephath, N. J.; WBIG, Greensboro, N. C.; WOLR, Jefferson, Ky.; W GAS, Cleveland, Ohio; WHA1, Troy, N. Y.; WHBL, Shubaygan, Wis.; WHDL, Oleen, N. Y.; WHEC, Rochester, N. Y.; WHK, Cleveland, Ohio; WIRE, Indianapolis; WLAC, Nashville, Tenn.; WMBD, Peoria, Ill.; WNBC, New Britain, Conn.; WQDM, St. Albans, Vt.; WROK, Rockford, Ill.; WSYM, Cincinnati; WSAR, Fall River, Mass.; WTAQ, Green Bay, Wis.; WCHQ—Miami Valley Broadcasting Corp., Dayton, Ohio.—Granted renewal of license for the period ending April 1, 1938.

SPECIAL AUTHORIZATIONS

KHO—Louis Wasmir, Inc., Spokane, Wash.—Granted special temporary authority to use Model 105-C WE transmitter in place of transmitter now licensed, for period not to exceed 7 days, due to mechanical difficulties with present transmitter and while same is undergoing repairs.

KFDV—South Dakota State College, Brookings, S. Dak.—Granted special temporary authority to operate from 2 to 5 p. m., October 16, in order to broadcast football game, and 10:30 a.m. to 12:30 p. m. and 2 to 5 p. m., CST, October 23, in order to broadcast parade and game.

KGK—Elmer G. Boehler, Sterling, Colo.—Granted special temporary authority to operate Saturdays, October 16, 23 and 30, from 1:30 to 2:30 p. m., MST, in order to broadcast the livestock auctions from local sales pavilion.
KQV—KQV Broadcasting Co., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WSMK from 6 to 6:30 p.m., EST, October 9, 16, 23 and 30, in order to broadcast Notre Dame football games.

WBNY—Roy L. Albertson, Buffalo, N. Y.—Granted special temporary authority to operate on Saturdays, October 9, 16, 23 and 30 and November 6, 2 to 3 p.m., EST, in order to broadcast weekly safety talks, football scores and general news; Sundays, October 10, 17, 24, 31, and November 7, 1937, 8:30 to 10 a.m. and 2 to 3 p.m., EST, in order to broadcast several religious programs in morning and the Catholic Evidence Guild in p. m.; to operate 8:30 to 10 a.m. and 2 to 3 p.m., EST, October 12, in order to broadcast news and variety musical programs in a.m. and afternoon.

KQV—KWV Broadcasting Co., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WGBB between hours of 11 a.m. and 3 p.m., EST, Wednesday, October 13, in order to broadcast ceremonies in connection with dedication of new Poughkeepsie Post Office, on which occasion the President will speak.

WNAD—University of Oklahoma, Norman, Okla.—Granted special temporary authority to operate on frequency 1160 kc., 1000 watts, unlimited time.

WKBV—Knox Radio Corp., Richmond, Ind.—Granted special temporary authority to operate from 9:45 to 10 a.m., CST, October 18, 20, 22, 25, 27, 29; November 1, 3, 5, 8, 10, 12, 15, 1937, in order to broadcast Chapel Service direct from Earlham College.

WGAJ—Grove City College, Grove City, Pa.—Granted special temporary authority to operate from 1:45 to 5 p.m., EST, October 23 and 30 and November 20, in order to broadcast home games of the football season.

WNAD—University of Oklahoma, Norman, Okla.—Granted special temporary authority to operate from 2 to 4 p.m., CST, November 2, 3, 4, 9, 10, 11, 16, 17, 18, 23 and 30, and from 10:30 a.m. to 11:30 a.m., CST, November 2, 3, 4, 9, 10, 11, 16, 17, 18, 23 and 30, in order to broadcast educational programs (provided KGFL remains silent).

KQV—KWV Broadcasting Co., Pittsburgh, Pa.—Granted special temporary authority to operate simultaneously with WSMK from 5:15 p.m. to 5:30 p.m., EST, Sundays only, November 7, 14, 21 and 28, in order to broadcast religious programs.

KFRO—Voice of Longview, Longview, Tex.—Granted special temporary authority to operate from local sunset (November, 5:15 p.m.) to 9 p.m., CST, using 100 watts power, on Sunday, November 7, 14, 21 and 28, in order to broadcast services of the Kelly Memorial Methodist Church, Longview, Tex.

**ORAL ARGUMENT**

**EXAMINERS’ REPORTS RELEASED SINCE OCTOBER 5, 1937**

**KQV**—Ex. Rep. 1-499: Wescoast Broadcasting Co., Wenatchee, Wash.—Examiner Melvin H. Daiberg recommended grant of C. P. to change frequency from 1500 kc. to 1330 kc., power from 100 watts, 250 watts LS, to 1 KW.

**NEW**—Ex. Rep. 1-501: Richard Field Lewis, Oakland, Calif.—Examiner P. W. Seward recommended denial of C. P. for new station to operate on frequency 1160 kc., 1 KW, daytime.

**APPLICATIONS DISMISSED**

The following application, heretofore set for hearing, was dismissed at request of applicant:

**WLAP**—American Broadcasting Corp. of Kentucky, Lexington, Ky.—C. P., 610 kc., 500 watts, 1 KW LS, unlimited.

**APPLICATIONS DENIED**

NEW—Richland Broadcasting Co., Mansfield, Ohio.—Application for C. P., 1570 kc., 100 watts, daytime, heretofore set for hearing, was denied as in case of default for failure of applicant to file an appearance.

**WCP**—Massachusetts Broadcasting Corp., Boston, Mass.—Denied special temporary authority to operate from local sunset (October sunset, 5 p.m.), to 8 p.m., EST, October 17 to 31, inclusive, and from local sunset (November, 4:30 p.m.) to 8 p.m., EST, November 1, in order to broadcast elections for Mayor, City Council and School Committee.

**MISCELLANEOUS**

Granted petition of Don Lee Broadcasting System (KGB) to intervene in the proceedings upon the application of Union Tribune Broadcasting Co. for new station at San Diego to use 1480 kc., 5 KW, unlimited time.

Granted petition to George Roy Clough (KLUF), Galveston, Tex., to intervene in the proceedings upon the application of O. C. Burke for a new station at Dickinson, Tex., to use 1500 kc., 100 watts, unlimited time.

Granted petition of Pacific Agricultural Foundation, Ltd. (KQW), to intervene in the proceedings upon the application of Floyd A. Parton for a new station at San Jose, Calif., to use 1170 kc., 250 watts, daytime.

Granted petition of Radio Station KFHI Company to intervene in the proceedings upon the application of Farmers & Bankers Broadcasting Corp. for C. P. to move from Abilene, Kans., to Wichita, Kans.

Granted petition of KANS Broadcasting Co. to intervene in the proceedings upon the application of Farmers & Bankers Broadcasting Corp. for C. P. to move station.

Granted petition of Michigan Broadcasting Company (WMBF) to intervene in the proceedings upon the application of Cadillac Broadcasting Co. for new station at Detroit, Mich., using 1140 kc., 500 watts, daytime.

Granted petition of Walker & Downing Radio Corp. to intervene in the proceedings upon the application of WWPO, Inc., Pittsburgh, Pa., or C. P., using 1120 kc., 250 watts, unlimited.

Denied petition of W. C. Ewing and Harry Layman, tr/a as Cumberland Broadcasting Co., to defer decision upon the application of C. Frank Walker and Waldo W. Prima, d/b as Radio Station WWPO, Inc., for new station at Fayetteville, N. C., using 1210 kc., 250 watts, daytime.

Granted petition of respondent WWPO, Inc., to waive rule and accept answer to applicant's appearance, Times Printing Co., for new station at Chattanooga, Tenn., to use 1120 kc., 500 watts, 1 KW, unlimited.

Denied motion of Tom Olsen to withdraw his application for C. P. to use 1500 kc., 250 watts, daytime, without prejudice, station to be located at Port Angeles, Wash.

Granted petition to withdraw without prejudice application of W. A. Barnette for new station located at Greenwood, S. C., to use 1370 kc., 250 watts, daytime.

Granted request of Tri-State Broadcasting Co., Inc. (WDH), to withdraw without prejudice application for modification of license to use 1300 kc., 100 watts, 250 watts LS, unlimited time.

Granted petition of George B. Storer to withdraw, without prejudice, his application for new station at Pontiac, Mich., to use 890 kc., 1 KW, daytime only.

 Granted petition of Carl Latenser for order to take depositions of two witnesses at Atchison, Kans., in support of his application for new station at Atchison, Kans., to use 1420 kc., 100 watts, daytime.

The Commission dismissed the petition of Richard E. O’Dea for reconsideration of the action of the Broadcast Division in denying his protest in the matter of the application for transfer of control of Station WOW, New York City, from John Inari to Arde Bulova (Docket 4245).

Pursuant to Stay Orders issued by the United States Court of Appeals for the District of Columbia in Causes No. 7044, Voice of Brooklyn, Inc., v. Federal Communications Commission, and 7045, United States Broadcasting Corp. v. Federal Communications Commission, and in compliance with said Orders, the Commission
extended existing temporary licenses of WLTH and WARD for the period beginning November 1, 1937, to continue subject to the further order of the Court and the Commission pending determination of the issues raised by said appeal.

RATIFICATIONS

The Broadcast Division ratified the following actions taken on the dates shown:

KSO—Sioux Falls Broadcast Assn., Inc., Sioux Falls, S. Dak.—Granted extension program test period 30 days from October 12.

KELO—Sioux Falls Broadcast Assn., Inc., Sioux Falls, S. Dak.—Granted extension program test period 30 days from October 8.

WTMJ—The Journal Co., Milwaukee, Wis.—Granted extension equipment test period 10 days from October 7.

WMBO—WMBO, Inc., Auburn, N. Y.—Granted extension program test period 30 days from October 8.

WDAS—WDAS Broadcasting Station, Inc., Philadelphia, Pa.—Granted motion of Karl L. Achbacker for continuance of hearing upon his application for modification of license, now scheduled for October 13, and directed that said hearing be continued until December 6, 1937.

WCAX—Burlington Daily News, Inc., Burlington, Vt.—Granted special temporary authority to conduct joint broadcast between 1:45 p.m. Saturdays, to include the following dates: November 6, 13, 20 and 27, using the 5 KW transmitter of WCAX in order to broadcast U. of M. football games. Action taken, October 7.

KAXZ—United Air Lines Transport Corp., Washington, D. C.—Granted special temporary authority, to operate already licensed aircraft radio transmitter aboard plane owned by United Air Lines Transport Corp. bearing call letters KHATZ, as a relay broadcast station on frequency 2790 kc., on October 11, to relay broadcast news broadcast for rebroadcast over station WENR. Also for the period beginning October and ending no later than October 15, weather permitting, relay broadcast Lights of Ages Celebration for rebroadcast over station WCFL. Action taken, October 9.

Granted petition of Cumberland Broadcasting Co. to intervene in the proceedings upon the application of Burl Vance Hedrick for new station at Salisbury, N. C. Action taken 10-8.

Granted petition of Cadillac Broadcasting Corp. to intervene in the proceedings upon the application of Voice of Detroit, Inc., for new station at Detroit, Mich. Action taken 10-2.

Granted motion of Badger Broadcasting Co., Inc., Intervener, for a continuance of the hearing upon the application of Four Lakes Broadcasting Co. until such date as may be designated for the hearing upon the application of Madison Broadcasting Co. Action taken 10-7.

Granted petition of Lynchburg Broadcasting Corp. for a continuance of the hearing upon its application for C. F., now scheduled for October 5, and directed that said hearing be continued until December 7. Action taken 10-2.

Granted petition of Larry Rhine for continuance of hearing upon his application for C. F. now scheduled for October 6, and directed that said hearing be continued until December 6, 1937. Action taken 10-2.

 Granted motion of Karl L. Achbacker for a continuance of hearing upon his application for modification of license, now scheduled for October 13, and directed that said hearing be continued until November 22, the same date that his application for voluntary assignment of license is to be heard. Action taken 10-2.

Granted request of WREN Broadcasting Co. for postponement of the oral argument upon its application, Docket 4415, until October 28, 1937.

Granted the request of Red River Valley Broadcasting Corp. (KRRV) Sherman, Texas, to withdraw without prejudice its application for C. P. to install new equipment; change frequencies from 1310 to 1450 kcs., increase power to 500 watts day and night, unlimited; (request contingent upon granting of KTBB’s application for change in frequencies), and directed that an order dismissing said application without prejudice be entered accordingly and forwarded to all interested parties.

SPECIAL AUTHORIZATIONS

KGGF—Powell & Platz, Coffeyville, Kans.—Granted special temporary authority to operate from 8:15 to 9:15 p. m., CST, November 24, and from 7:15 to 9:15 p. m., CST, November 25 (provided WNAD remains silent), in order that KGGF may broadcast during time WNAD is silent for University Thanksgiving vacation.

WNAD—University of Oklahoma, Norman, Okla.—To remain silent on above dates.

APPLICATIONS RECEIVED

First Zone

WSNJ—Eastern States Broadcasting Corp., Bridgeton, New Jersey.—Authority to determine operating power by direct measurement of antenna.

W1XOJ—The Yankee Network, Inc. Within 50 miles of the City of Boston, Mass.—Modification of construction permit (B1-PHBB-39) for a new high frequency broadcast station, requesting approval of transmitter site at Summit Mt. Wachusett, Princeton, Massachusetts.

NEW—WDRC, Incorporated, Hartford, Conn.—Construction permit for a new high frequency broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 15 watts.

NEW—C. M. Jansky, Jr., & Stuart L. Bailey, d/b as Jansky & Bailey, Vicinity, District of Columbia—Construction permit for a new high frequency broadcast station to be operated on 40900, 5000 watts. Amended: To change power from 5000 watts to 1000 watts.

Second Zone

NEW—Cuyahoga Valley Broadcasting Co., Cleveland, Ohio.—Construction permit for a new station to be operated on 1500 kc., 100 watts, unlimited time. Amended: To change requested hours of operation from unlimited to daytime and make changes in corporate structure.

WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.—Voluntary assignment of license from Times-Dispatch Publishing Co., Inc., to Times-Dispatch Radio Corp.

Third Zone

WMC—Memphis Commercial Appeal Co., Memphis, Tenn.—Construction permit to make changes in directional antenna for nighttime use and change power from 1 KW night, 5 KW day, to 5 KW day and night.

WJBO—Baton Rouge Broadcasting Co., Inc., Baton Rouge, La.—Construction permit to make changes in equipment and increase power from 500 watts to 1 KW.

KHBG—Oklmulgee Broadcasting Corp., Okmulgee, Okla.—License 1210 to cover construction permit (B3-P-1224) as modified for a new station.

WAIR—C. G. Hill, George D. Walker and Susan H. Walker, 1250 Winston-Salem, N. C.—Modification of license to change hours of operation from daytime to unlimited time, using 250 watts power.

KRQA—J. Laurance Martin, Santa Fe, N. Mex.—Voluntary assignment 1310 of license from J. Laurance Martin to I. E. Lambert.

NEW—Radio Enterprises, Inc., Lufkin, Texas.—Construction permit for a new station to be operated on 1510 kc., 100 watts, daytime.

WRDW—Augusta Broadcasting Co., Augusta, Ga.—Construction permit to install a new transmitter; install directional antenna for nighttime use; change frequency from 1500 kc. to 1240 kc.; and increase power from 100 watts night, 250 watts day, to 1 KW day and night.

NEW—Panama City Broadcasting Co., Panama City, Fla.—Construction permit for a new station to be operated on 1500 kc., 100 watts, daytime. Amended to make changes in equipment and change requested power from 100 watts to 250 watts.

NEW—The National Life & Accident Insurance Co., Inc., Nashville, Tenn.—Construction permit for a new experimental broadcast station to be operated on 303000, 330000, 360000 kc., 15 watts.

2333
NEW—The National Life & Accident Insurance Co., Inc., Nashville, Tenn.—License to cover above construction permit.

Fourth Zone

WDGY—Dr. George W. Young, Minneapolis, Minn.—Modification of construction permit (B4-P-1420) as modified for a new transmitter, further requesting change in type of equipment.

W9XRM—Arthur Malcolm McGregor and Dorothy Charlotte McGregor, Bloomington, Ill.—License to cover construction permit (B4-PRE-82) for a new relay broadcast station.

NEW—Mason City Globe-Gazette Co., area Mason City, Iowa.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 2 watts.

NEW—Mason City Globe-Gazette Co., area Mason City, Iowa.—License to cover above construction permit.

NEW—Mason City Globe-Gazette Co., area Mason City, Iowa.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 125 watts.

W9XUO—Radio Station KFH Co., Wichita, Kans.—License to cover construction permit (B4-PRE-87) for a new relay broadcast station.

Fifth Zone

KMPC—KMPC, The Station of the Stars, Inc., Beverly Hills, Calif.—Special experimental authorization to operate unlimited time experimentally for period from 8-1-37 to 2-1-38. Amended: To change name from Beverly Hills Broadcasting Corp. to KMPC, The Station of the Stars, Inc.

W6XBL—Radio Service Corporation, Utah, Mobile—Salt Lake City, Utah.—Reinstatement and modification of construction permit (B5-PRE-56) for a relay broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 5 watts, requesting change in power from 5 watts to 17 watts and changes in equipment.

W6XBK—Radio Service Corporation of Utah, Mobile, Salt Lake City, Utah.—Reinstatement and modification of construction permit (B5-PRE-57) for a relay broadcast station to be operated on 39700, 39900, 40800, 41400 kc., 5 watts, requesting change in power from 5 watts to 17 watts and changes in equipment.

NEW—Fisher's Blend Station, Inc., Area of Seattle, Wash.—Construction permit for a new relay broadcast station to be operated on 31100, 34600, 37600, 40600 kc., 15 watts.
FCC ANNOUNCES NEW FREQUENCY ALLOCATION

The Federal Communications Commission has announced (Mimeograph 23463) action with reference to the entire useful radio spectrum comprising frequencies from 10 kilocycles to 300,000 kilocycles.

Heretofore the rules of the Commission with respect to the use of radio for practical purposes have been confined to that portion of the radio spectrum from 10 kilocycles to 25,000 kilocycles. As a result of experimentation during the past few years, and as a result of a hearing held on June 15, 1936, and further as the result of collaboration with the various Government Departments utilizing radio for their own purposes, the Commission has decided to provide allocations of frequencies to various classes of service in the newly developed portion of the radio spectrum from 25,000 kilocycles to 300,000 kilocycles. In other words, from the standpoint of space in the so-called radio ether, there now comes under regulation ten times the “ether space” than has ever before been attempted in this country.

The Commission’s Orders in addition took into consideration certain minor changes developing as a result of experience in the older established portion of the spectrum up to and including 25,000 kilocycles. However, the most significant action is with reference to the so-called ultra high frequencies up to and including 300,000 kilocycles, and in this the Commission has not only allocated space for various radio services utilized for the preservation of life and property, but also has allocated considerable space for broadcasting, including television.

The importance of this action is the profound influence it will have upon the development of the radio industry, because in a manner it sets up guiding-posts for every phase of the industry, including research, design, manufacture and practical operation.

With respect to television, the action taken by the Commission is merely one step of many which in the opinion of the Commission may be required before television can become a reliable service to the public. Some of these many steps must be taken by the industry in the development of proper standards which in turn the Commission must approve before television can technically be of the greatest use to the public on any scale.

At the proper time in the future, the policies which will govern the operation of television service in this country must be determined, particularly with reference to those matters which relate to the avoidance of monopolies. The Commission must in the future prescribe such rules as will insure the utilization of television stations in a manner conforming to the public interest, convenience and necessity, particularly that phase which will provide television transmission facilities as a medium of public self-expression by all creeds, classes and social-economic schools of thought.

The investigations and determinations of the Commission justify the statement that there does not appear to be an immediate outlook for the recognition of television service on a commercial basis. The Commission believes that the general public is entitled to this information for its own protection. The Commission will inform the public from time to time with respect to further developments in television.

It is considered that the step taken by the Commission in promulgating the orders concerning the new allocation constitutes one of the most important basic actions taken in recent years in the development of radio; and while future technical developments and perhaps international agreements may require some modification in detail, there is now laid the corner stone of a vast new development of radio in its application to the service of the public.

IN THE MATTER OF FREQUENCY ALLOCATION TO SERVICES IN THE FREQUENCY RANGE FROM 10 KILOCYCLES TO 300,000 KILOCYCLES.

The Federal Communications Commission (Mimeograph 23263) has issued Orders Nos. 18 and 19 and a report of the Commission covering the allocation of frequencies throughout the radio spectrum from 10 to 300,000 kilocycles.
000 kilocycles. (See Mimeograph Nos. 23415, 23416, 23417 copies of which have or will be mailed to all licensees.) These orders and the report of the Commission contain the decision of the Commission on the informal engineering hearing which was held before the Commission en banc from June 15 to 29, 1936.

Order No. 18 carries with it Part I of Rule 229 covering the allocation of frequencies between 10 kilocycles and 30,000 kilocycles. It is pointed out that no changes are involved with respect to frequencies between 10 kilocycles and 25,000 kilocycles and 28,000 and 30,000 kilocycles. Since Rule 229 was printed in 1932, the Commission has from time to time adopted a number of individual changes with respect to certain services. The order gives an up to the minute listing of such changes and should be considered merely as a recapitulation of order gives an up to the minute listing of such changes and should be considered merely as a recapitulation of frequencies in accordance with past actions of the Commission with the exception of the band 25,000 to 28,000 kilocycles, which has been specifically reallocated to new services except for broadcasting between 25,600 and 26,600 kilocycles, effective 3:00 a.m., E.S.T., October 13, 1938.

Order No. 19 carries with it Part II of Rule 229 covering the allocation of frequencies between 30,000 and 300,000 kilocycles. All of the frequencies listed in this range, except amateur between 56,000 and 60,000 kilocycles, are assigned to specific services for the first time. All outstanding licenses in this frequency range, except amateur and point-to-point communication in Hawaii, are for experimental services.

Inasmuch as only a relatively few frequencies above 25,000 kilocycles are now in use, it may be possible for the Commission to make some regular assignments within this band prior to the effective date of the order; however, it is not expected that the existing licensed frequencies will be changed over to the new frequencies or that assignments of a permanent nature will be made on the present experimental channels prior to the effective date of the order.

Although the transmission characteristics of frequencies above 30,000 kilocycles for which commercial apparatus has been provided, are sufficiently well known at this time to leave no doubt as to their usefulness in many established services, there has not yet been enough developments to permit frequencies within this range to be used with closer separations than those shown in the table. In the actual assignments to be made, proper technical consideration will be given to such items as radio wave propagation characteristics, limitations with respect to available equipment, portability of apparatus, frequency band of emission, stability of carrier frequency, selectivity of receivers, power, and station locations.

It is to be understood that the action of the Commission in promulgating Rule 229, listing frequencies above 30,000 kilocycles to specific services, is to serve only as a guide to the specific frequencies which may be used by a given service. At a later date the Commission will modify its rules and regulations governing individual services so as to make provision for restricted use of these frequencies by individual station assignments. For example, it will be noted that twenty-nine frequencies are assigned to the police service in the band 30,000 to 40,000 kilocycles. This does not mean that all of these frequencies are available to all police departments, but rather that the service as a whole will be assigned frequencies from those designated for police use. In all probability, certain of these frequencies will be designated for low-power mobile police operation and will be duplicated over relatively short distances, as compared to the police frequencies which will be assigned for high-power fixed police stations. The regulation embodying restrictions as to all classes of stations will be promulgated well in advance of the effective date of October 1938, when Order No. 19 becomes effective.

**Broadcasting**

The allocation of ultra high frequencies virtually affects several important broadcast services, namely: television, facsimile, relay, high frequency and experimental broadcast services.

The action taken by the Commission today with respect to television is merely one step of many which are required before television can become a reliable service to the public. Some of these many steps must be taken by the industry in the development of proper standards which in turn the Commission must approve before television can technically be of the greatest use to the public on any scale.

Also the Commission, at the proper time in the future, must determine the policies which will govern the operation of television service in this country, particularly with reference to those matters which relate to the avoidance of monopolies. And the Commission must also in the future prescribe such rules and policies as will insure the utilization of television stations in a manner conforming to the public interest, convenience and necessity, particularly that phase which will provide television transmission facilities as a medium of public self-expression by all creeds, classes and social-economic schools of thought.

The investigations and determinations of the Commission justify the statement that there does not appear to be an immediate outlook for the recognition of television service on a commercial basis. The Commission believes that the general public is entitled to this information for its own protection. The Commission will inform the public from time to time with respect to further developments in television.

Seven channels between 44,000 and 108,000 kilocycles are made available for the assignment of television stations. Television broadcast is also assigned twelve chan-
channels between 156,000 and 300,000 kilocycles. Each television channel is 6 megacycles in width and provides for the picture broadcast as well as the accompanying synchronized sound. Television stations will be assigned these channels on an experimental basis with the same requirements as are now imposed. This experimental basis will be continued until the several remaining technical problems have been solved and standards of transmission and reception are adopted.

In the band 41,020 to 43,980 kilocycles, 75 channels are made available for assignment to aural broadcast stations. The Commission at an early date will consider carefully the needs and requirements for high frequency broadcast stations using both conventional modulation and frequency modulation, as well as the needs of educational broadcast systems. The record of the June 15, 1936 hearing concerning the purpose and needs for the educational broadcast systems will be given most careful consideration in the details of assignment.

Sixteen channels for relay broadcast stations are provided in the band from 30,830 to 39,820 kilocycles. These channels will enable a continuance of the existing stations as well as provide additional facilities for the growth of relay broadcast service. This number of channels and limited interference range is such that consideration may be given the licensing of every regular broadcast station for two relay stations in this band, the frequencies, however, being available on a shared basis with other relay stations.

Police Service

The allocation of frequencies between 30,000 kilocycles and 40,000 kilocycles provides twenty-nine frequencies for assignment to the police service. Of these frequencies, twenty-five will be available to municipal and county government and four to state police agencies. The frequencies will be assigned on a shared use basis in accordance with an engineering plan which will be announced at a future date and embodied in the Rules and Regulations. This plan will take into consideration important factors such as geographical separation, maximum power employed, number of mobile units operated in conjunction with a fixed station, area to be served and other important considerations.

It is contemplated that one group of frequencies will be assigned to fixed stations of relatively large power outputs and another group to those fixed stations employing lesser powers. A third group will be available exclusively for mobile units.

As in the past, it will be necessary that contiguous municipal and county governments serving the same or adjacent areas cooperate to the fullest extent and coordinate their needs for radio communication service.

The four frequencies to be assigned for state police communication will be available for relatively low-power portable or mobile units to be used for such purposes as riots, floods, traffic congestion, etc., in local areas within a state.

It is anticipated that, for the present, the nine frequencies assigned to the police service in the frequency band 132-144 megacycles, will more or less remain somewhat experimental in nature.

Aviation

In view of the projected plans of the Bureau of Air Commerce to use ultra high frequencies for radio beacons, airport traffic control, blind landing devices and other navigational aids, it was only necessary to provide a limited number of frequencies for this service to take care of uses not included in the scope of the Bureau's plans.

In the frequency band 30,000-40,000 kilocycles, four frequencies have been allocated and are designed primarily for use in instructing student pilots during initial solo flights. The use of radio as a safety aid during such instruction has proven itself invaluable in the prevention of aircraft accidents; especially at airports where there is a large volume of traffic.

The frequency band 129,000-132,000 kilocycles has been allocated to aviation for airport traffic control. This band is adjacent to a band allocated to the government for a similar use. Provision has been made for six airport frequency assignments separated by approximately 500 kilocycles. This allocation will permit the use of a separate and distinct frequency for each airport in localities where several airports are in close proximity to each other. Each assignment is protected by intervening guard bands to provide the maximum degree of safety.

In the frequency band 132,000-144,000 kilocycles, 11 frequencies have been assigned to the aviation service and are designed primarily for radiotelephone service for aircraft in flight. However, it is anticipated that other aviation uses may also be made of these frequencies in accordance with rules and regulations to be promulgated in the future.

Fixed Service

In view of the decided and extensive demand for frequencies for the various classes of service, which by their very nature are dependent upon radio for communication rather than wire lines, it is only possible to provide frequencies for the fixed service for use in areas where wire facilities are either not available or, due to circuitous wire routing, the use of radio may be found justified for economic reasons. Consequently, a limited number of frequencies have been made available for fixed service.

Experimental Service

This service has been assigned a number of frequencies throughout the bands 30,000 to 40,000 kilocycles and
132,000 to 140,000 kilocycles for shared use by all persons who are granted licenses to carry on fundamental research for development of the technique of the radio art. It is the purpose of the Commission to encourage experimentation in all cases where fundamental research for the development of the technique of the radio art is the prime purpose of such experimentation.

**Forestry Service**

The Commission has recognized the value of radio communication in forestry development and conservation work and in the suppression of forest fires. Ten frequencies have been provided for this service to be used on a shared basis. Contiguous states, necessarily, must cooperate in their use to reduce any interference to each other.

The Commission will promulgate rules and regulations governing this new class of service well in advance of the effective date of the allocation.

**Mobile Press Service**

The primary purpose of allocating frequencies to this service, which differs essentially from the mobile press service now authorized in the existing Rules and Regulations, is to provide channels of communication for the collection of press material from points where wire facilities are unavailable or inadequate.

**Geophysical and Motion Picture Services**

In order to permit these services to render a short distance radio communication service similar to the service now authorized by the existing Rules and Regulations, frequencies have been allocated to a limited extent. These frequencies will be available on a shared basis to both services.

**Coastal and Ship Harbor**

Frequencies allocated to this service are designed primarily for the purpose of providing a public coastal harbor service in the higher frequency range similar to that now authorized in the band 2100-2200 kilocycles and 2500 to 2600 kilocycles.

**Special Emergency**

In view of the increasing demand for this type of service, additional frequencies have been allocated for short distance communication, particularly within corporate city limits. For the present, the existing Rules and Regulations governing this service will apply and all frequencies will be assigned on a shared basis.

**Marine Fire**

Frequencies allocated to marine fire are to be used in a similar manner to the service now conducted in accordance with existing Rules and Regulations. However, provision has been made to permit two-way radio communication with mobile ship stations if desired.

**Special Services**

At present, the Commission receives many requests for the use of radio facilities by services not recognized in the existing Rules and Regulations. Such services are usually of a temporary nature and of short duration. It is proposed to assign frequencies whenever the Commission finds such use is in the public interest, convenience or necessity. Authorizations will be made on a temporary basis for a specific period of time.

**Pennsylvania Supreme Court Decides Against Broadcaster in Waring Record Case.**

The appeal of Station WDAS was without avail when the highest Court of Pennsylvania, on October 8, affirmed the lower court which had enjoined the station from broadcasting phonograph records of Fred Waring's Orchestra.

The appellate court, in the majority opinion of Judge Stern, ruled that though "it may be said the ordinary musician does nothing more than render articulate the silent composition" great actors and vocal and instrumental artists by their interpretations add something to the composition which is a right of property and which in no way overlaps or duplicates the property right of the author of the composition. "All that need now be decided," the Court said, "is that such a property right inheres in the case of those artists who elevate interpretations to the realm of independent works of art." The court decided that the testimony showed that Waring's Band measured up to this standard. In overruling the station's contention that Waring individually had no rights but that the musicians or the incorporated orchestra owned these rights the Court ruled that the orchestra's performance is a composite work, Waring and the musicians contributing thereto, no one individual being able to claim an individual property right in the composite production and that although Waring individually would ordinarily have no right of action, the orchestra being incorporated, the Court would disregard the fact that the corporation should have been the plaintiff instead of Waring and consider Waring, as the owner of all but two of the shares of the corporate stock, to be in reality the real party in interest. The Court further held that it was no defense to the station that Waring may have assigned his rights to the National Association of Performing Artists.

The Court then discussed the argument of the station that the property rights of the plaintiff had been lost upon the general public sale of the records and that such rights could not be reserved and said that such cases as supported that principle were comparatively early deci-
sions and involved situations where the restrictions were against public policy as in restraint of trade or situations where the rights could have been protected by copyrighting the work under the statute. It held that no such public policy against the restriction on the use of the records existed in this case and that the rights could not be protected by copyright registration of the records as the statute does not permit the copyrighting of records. It said that restrictions have, notably in England, been held to follow an article after it is sold and, in this country in the trading stamp and ticket scalper cases. The Court said the notice on the record was not an unreasonable restriction and was sufficient notice to purchasers of the existence and extent of the restriction imposed upon them by the understanding between the Victor Company and Waring.

The Court found an additional ground for the injunction forbidding the use of Waring records, namely that of unfair competition. The station and the Waring Band were in competition as both were furnishing entertainment to the public over the radio and both were receiving revenue from advertisers, said the Court, and furthermore it probably must become increasingly difficult for the Band to obtain $13,500 a broadcast if innumerable reiterations of it are permitted for 75 cents, and the constant broadcasting of records must diminish the commercial value of the Band performances. The records being old ones, said the Court, the public would be liable to judge the ability of the Band by work rendered before it had attained its present degree of excellence.

Judge Maxey wrote a separate opinion concurring in the result but on the sole ground that Waring's right of privacy had been invaded by the broadcasting of the records. He expressed the belief that the standard of excellence of the artist's work should have no bearing on the case but that any artist who restricted his work should be permitted to enjoin the broadcasting of his performance.

Comments

The Waring case of course turned on peculiar facts in that Waring had not signed the usual form of contract conveying all rights to the phonograph record company. There are six other suits pending in other states where such written contracts are involved and decisions in which may be rendered this winter, notably the Crumit case in New York. The Federal Court in Boston has already decided that under the standard form of Victor contract the band leader Noble had no rights left to assert against a hotel using the records in its cafe.

NEW MINNESOTA STATION RECOMMENDED

F. B. Clements & Company applied to the Federal Communications Commission for a construction permit to erect a new station at Mankato, Minn., to use 1500 kilocycles, 100 watts and 250 watts, LS, and unlimited time on the air.

Examiner P. W. Seward, in Report No. 1-504, recommended that the application be granted. The Examiner states that the evidence adduced at the hearing showed a need for additional radio broadcast service in the area proposed to be served. Also he found "that the interests of no other radio station will be adversely affected by reason of the grant."

RECOMMENDS DENYING CLEVELAND STATION

The Great Lakes Broadcasting Corporation applied to the Federal Communications Commission for a construction permit for a new broadcasting station at Cleveland, Ohio, to use 1270 kilocycles, 1,000 watts and 5,000 watts LS and unlimited time.

Examiner Tyler Berry, in Report No. 1-502, recommended that the application be denied. It is stated that "the evidence does not show that the applicant is financially qualified to construct and operate the proposed station." The Examiner further states that "the evidence does not show a substantial need for the additional service proposed by the applicant as the service proposed does not differ materially from the service now being rendered by the stations serving the area."

DENIAL OF FALL RIVER STATION RECOMMENDED

The Fall River Herald News Publishing Company applied to the Federal Communications Commission for a construction permit for a new station at Fall River to use 1210 kilocycles, 100 watts night and 250 watts LS and unlimited time on the air.

Examiner Robert L. Irwin, in Report No. 1-503, recommended that the application be denied. In recommending the denial of the application the Examiner states that "The applicant has shown that it has the necessary legal qualifications to hold a construction permit, and that it has adequate financial and technical ability to construct and operate a station such as proposed. But the applicant owns and publishes the only English-language newspaper in the city, and considers Station WSAR, the only station in the city, a competitor in the advertising and news field to such an extent that it does not permit local advertisers to refer to programs of the station in their paid ads in the paper. If the Commission were to authorize the applicant to establish a new station in the city, it would then give to the applicant a two to one advantage over the established broadcasting facilities in the city, in so far as news and advertising dis-
semination is concerned. Such condition is not conducive to the public interest.”

RECOMMENDS DENIAL FOR RHODE ISLAND STATION

The Colonial Network, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Providence, R. I., to use 720 kilocycles, 1,000 watts and limited operation.

Examiner Tyler Berry, in Report No. I-505, recommended that the application be denied. He states that “the record does not show definitely how much of the capital stock of the applicant corporation has been issued and paid for.”

Also the Examiner states that the interests of several pending applications would be affected because of possible interference if this application were granted. The interest of existing stations would also be affected through interference if the application were granted. It is further stated by the Examiner that “the applicant failed to show any substantial need for the additional service proposed.”

CHANGES RECOMMENDED FOR KRE UNDER CONDITIONS

Broadcasting Station KRE, Berkeley, Calif., operating on 1370 kilocycles, 100 watts and 250 watts LS and unlimited time applied to the Federal Communications Commission to change its frequency to 1440 kilocycles, and increase its power to 500 watts and 1,000 watts LS.

Examiner Melvin H. Dalberg, in Report No. I-507, recommended that the application be granted “contingent upon the granting of the application of Station KGGC for a change in frequency from 1420 kilocycles to 1370 kilocycles and a denial of the application of Charles S. Osborne, Jr., for a new station at Fresno, Calif., on 1440 kilocycles.” The Examiner states also that there appears to be need for additional service in the area proposed to be served.

RECOMMENDS DENYING WITH PREJUDICE

Geraldine Alberghane applied to the Federal Communications Commission for a construction permit for the erection of a new station at Pawtucket, R. I., to use 720 kilocycles, 1,000 watts and daytime operation.

Examiner Tyler Berry, in Report No. I-506, recommended that the application be dismissed with prejudice. When the case came on for hearing no appearance was entered for the applicant and no evidence was offered in support of the application. Counsel for the respondents moved that the application be dismissed with prejudice.

APPLICATION DISMISSED WITH PREJUDICE RECOMMENDED

The Chickasha Daily Express applied to the Federal Communications Commission for a construction permit for the erection of a new station at Chickasha, Okla., to use 1500 kilocycles, 250 watts and daytime operation.

Examiner Tyler Berry, in Report No. I-508, recommended that the application be dismissed with prejudice. The Examiner states that at the hearing counsel for the applicant entered a motion that the applicant be permitted to withdraw the application on the ground that after it had been filed it was discovered that the operation of a station on the proposed assignment would result in objectionable interference.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3237. Use of practices which result in misleading retail dealers and their customers as to the fiber content of women’s cloth coats is alleged in a complaint issued against two New York City concerns, Form Maid Coat Company, Inc., 545 Eighth Ave., and Walter-Lewis & Co., 450 Seventh Ave. Form Maid Coat Company manufactures the coats in question from fabric sold to it by Walter-Lewis & Co.

The complaint alleges that the two firms have an understanding under which Walter-Lewis & Co., in selling the fabric to Form Maid Coat Company, supplies this customer with labels to be attached to the garments manufactured from such fabric. These labels, according to the complaint, depict a camel together with palm trees and mountains or pyramids, bear the words "Genuine Camel’s Hair", and are attached to the finished garment.

No. 3241. Al Hartman, Inc., 1400 Broadway, New York, is named respondent in a complaint alleging unfair methods of competition in connection with the interstate sale of certain dresses.

The complaint alleges that dresses sold by Hartman, Inc., were described in newspaper advertising as “Indo-China washable crepe prints”, and had attached to them tags bearing certain assertions, one of which was that “Owing to the peculiar delicacy of all silk weaves, manufacturers will not guarantee them as flawless, or against perspiration, slipping or roughing”.

The descriptive phrase used in such advertisements and the language appearing on the tags, it is charged, served as representations to purchasers that the garments so referred to were silk dresses, when, according to the complaint, they were not composed of silk, but of other materials.

No. 3242. Rudolph H. Ray, 422 North D Street, Fremont, Nebr., engaged in the manufacture and sale of cement burial vaults, is charged in a complaint with making false representations in advertising his products. The respondent trades as Ray Individual Mausoleum Company, Fremont, and as The Individual Mausoleum Company, Deshler, Nebr.

In advertising matter furnished to undertakers who are his customers, Ray, the complaint alleges, falsely represents that his individual mausoleum or cement vault is a perfect surface burial vault which assures preservation of the body enclosed therein; that the bodies are forever preserved, are absolutely secure from water and will continue to remain in a perfect state of preservation indefinitely, and that the vaults are everlasting and waterproof.

No. 3243. A complaint has been issued against The New York Company, Inc., 227 West Huron St., Chicago, and Willis J. Sheeman, president and principal stockholder. The complaint alleges unfair competition in the sale of so-called dehydrated or concentrated foods, and of books and other printed matter purportedly relating to health and hygiene.
Various representations allegedly were made concerning the respondents' 18 foods, sold under the general name of Eta Concentrated Food, such as that Eta Food Sodium will improve digestion, prevent fermentation of food, and remove acid and waste, and that Eta Food Chlorine will remove impurities and make tissues dense and elastic. These and various other representations, according to the complaint, are misleading and deceptive, both as to the efficacy of the respondents' foods in remedying the ailments and diseases mentioned, and as to conditions resulting from a lack of minerals purportedly supplied by such foods. The complaint charges that these foods, when taken as directed by the respondent, do not contain a sufficient amount of certain minerals to remedy or correct a deficiency thereof in the diet.

No. 3244. Alleging use of certain unfair methods of competition in violation of Section S of the Federal Trade Commission Act, a complaint has been issued against Harry A. and Louis G. Rippner, trading as John Hancock Pen Company, 1514 Prospect Ave., Cleveland, Ohio.

The respondents allegedly advertised in circulars that certain of their fountain pens, which they represented as being worth $5, could be purchased for a limited time only by remitting 60 cents with a certificate having a purported value of $4.40. The pens so advertised, the complaint alleges, are not offered for sale for a limited time, the certificate referred to does not have any value whatever, and the pens are not of $5 value, but are of a type having a value much less than that represented, and ordinarily are sold in the usual course of trade for approximately 60 cents, the price advertised as a special introductory offer.

Stipulations
The Commission has entered into the following stipulations:

No. 01890. General Pharmacal Company, 205 East 6th St., Cincinnati, has entered into a stipulation to discontinue certain misleading representations in advertising its medicinal preparations, Pep-Ti-Kao, Etro Tablets, and Feyex.

The respondent company agrees to stop asserting that Pep-Ti-Kao will rid the stomach of the trouble-making portion of acid, unless the word “rid” is qualified by use of the word “temporarily” or some similar word.

Other allegations to be banned are that Etro Tablets will relieve nervous tension caused by excitement, work, or worry, and that Feyex is a competent remedy in the treatment or prevention of hay fever.

No. 01891. Under a stipulation entered into, Print-Rite, Inc., 1115 Hennepin Ave., Minneapolis, agrees to cease certain misleading advertising representations in the sale of Handy Record System, an accounting system for cafes and restaurants.

In soliciting salespersons or dealers, the respondent company will not represent or imply that such persons can actually earn, in excess of amounts earned by its salespersons under normal business conditions.

No. 01992. American Plieneh Corporation, 4809 North Ashland Ave., Chicago, has entered into a stipulation to desist from certain misleading representations in the advertisement of its Efelf-Geared Plieneh.

In the sale of this tool, the respondent agrees to cease representing that any article is given free, when the purchase of other articles is required to obtain the purported gift article. The respondent company also will discontinue making unmodified representations of possible earnings of prospective salesmen in excess of the average earnings of its regular salespersons achieved under normal business conditions.

No. 01993. H. R. Blumstengel, 728 Delaware St., Kansas City, Mo., entered into a stipulation to cease representing that the use of M-Royds Treatment, which he sells, may save one from an operation, that the treatment is a tonic, or will help build strength, and will give one freedom from the affliction of piles.

No. 2069. Louis Eugene Lensky, trading as Lensco Silver Company, 4155 West One Hundred, Los Angeles, will stop using any plan of promoting the sale of silverware, chinaware or novelties which involves the use of a lottery or any scheme of chance whereby any article is given as a premium in consideration of the purchase of any other article, or whereby the price to be paid for the article is determined by lot or chance. According to the stipulation, Lensky used push cards to promote the sale of his merchandise.

No. 2070. B. B. B. Company, Limited, 620 Fifth Ave., New York, selling smoking pipes, agrees to discontinue using the words “Best British Brand” as descriptive of pipes not made in England. The company also will cease using the slogan “A Quality Pipe Since 1847”, or the phrase “Established 1847”, so as to imply that the pipes so represented are the same as those which are now and have been manufactured in England since 1847, or that the B. B. B. Company, Limited, was established in 1847.

No. 2071. James McCreery & Co., operating a department store at 5th Ave. and 34th St., New York, agrees to discontinue using in advertising matter or otherwise the word “linen”, alone or in connection with the word “acetate”, so as to imply that the products to which the word “linen” is, or is represented to be, attached are composed of linen when such is not a fact. The company advertised certain garments for women as “Acetate linen”, when in fact they were not made of linen, but were composed of other materials.

No. 2072. Welsco Trading Corporation, 158 Bowery, New York, will cease using in advertising matter any pictorial or other representations implying that orders it receives for show case cement will be filled with the cement depicted and described in its catalog, when this is not a fact. The corporation will stop representing its products in any manner which may tend to mislead purchasers into the erroneous belief that it fills orders only with the advertised products for which orders have been received. According to the stipulation, the corporation advertised Diamond Show Case Cement in its catalog, but, in some instances, filled orders received in response to the advertisement with a cement of another brand.

No. 2073. Bruce Company, 206 East Monroe St., Springfield, Ill., dealer in musical instruments, stipulated that it will discontinue representations to the effect that certain pianos it offers for sale are instruments which, having been sold previously on a deferred payment plan, have been repossessed because of the inability of the purchasers to meet the payments, with the result that such pianos are being sacrificed for the balances due, when such is not a fact. The company also will desist from the use of any false and misleading representations with respect to the retail price for which the instruments are respectively sold.

No. 2074. Jack Schwartz, Inc., operating a retail clothing store at 705 Seventh St., N. W., Washington, D. C., will refrain from the use in advertising matter, or otherwise, of the word “free”, alone or with other words, as descriptive of merchandise represented to be given with the purchase of other merchandise, when, in fact, the so-called free merchandise is not given as a gratuity but only in consideration of the purchase of some other product. According to the stipulation, the company advertised that an article of wearing apparel would be given to the purchaser of a suit or top coat, when, in fact, the price of the article referred to as free was included in the price asked for the suit or top coat.

Cease and Desist Order
The Commission has issued the following cease and desist order:

No. 2477. An order has been entered directing Nacional Destilleras Corporation, 130 East Washington Building, Indianapolis, to discontinue representing itself to be a distiller of spirituous beverages, when such is not a fact.

The Commission found that the respondent corporation is a wholesaler of rum, brandy, gins and cordials which it imports from the Philippine Island. According to the findings, the words “Nacional Destilleras” are the Spanish equivalent for “National Distillers”, and are so similar in spelling and sound to the English equivalent thereof as to be readily misunderstood by a substantial portion of the purchasing public to mean “National Distillers”.

FEDERAL COMMUNICATIONS COMMISSION ACTION
There was no meeting of the Broadcast Division of the Commission at the usual time this week because all of the members of the Commission were hearing disbarment proceedings against Paul M. Segal and George S. Smith.

Hearing Calendar
The following broadcast hearings are scheduled at the Commission for the week beginning Monday, October 25.

2341
Monday, October 25
HEARING BEFORE AN EXAMINER
(Broadcast)

WTIC—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 1050 kc., 50 KW, shares with WBLA (SA for 1040 kc., simultaneous operation with KRLD, unlimited).

WIXEH—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 63500 kc., 150 kw, unlimited, according to rule 983.

WIXLU—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 105000, 200000, 290000, 450000 kc., 5 watts, to operate according to Rules 983, 1002, 1004.

WIXO—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 31100, 34600, 40600 kc., 50 watts, to operate according to Rules 983, 1002 and 1004.

WIXT—Travelers Broadcasting Service Corp., Hartford, Conn.—Voluntary assignment of license to Travelers Broadcasting Co.; 31100, 34600, 40600 kc., 50 watts, to operate according to Rules 983, 1002 and 1004.

WFLA—Florida West Coast Broadcasting Co., Inc., Clearwater, Fla.—Construction permit (B1-P-1071) for changes in equipment, increase in power, change in frequency and hours of operation and move of transmitter, requesting extension of commencement and completion date from 11-10-37 to 1-10-38.

Thursday, October 28
HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—J. T. Griffin, Fort Smith, Ark.—C. P.; 860 kc., 1 KW LS, daytime.

KTSN—Tri-State Broadcasting Co., El Paso, Texas.—C. P.; 1350 kc., 500 watts night, 500 watts LS, unlimited time. Present assignment: 1350 kc., 100 watts night, shares WDAH, 250 watts LS. Permanent authority to carry WDAH’s schedule.

ORAL ARGUMENT BEFORE THE BROADCAST DIVISION

Examiner’s Report No. 1-435:
NEW—West Texas Broadcasting Co., Wichita Falls, Tex.—C. P.; 1380 kc., 1 KW, unlimited time.

NEW—Wichita Broadcasting Co., Wichita Falls, Tex.—C. P.; 620 kc., 250 watts, 1 KW LS, unlimited time.

NEW—Faith Broadcasting Co., Inc., Wichita Falls, Tex.—C. P.; 1380 kc., 1 KW LS, unlimited time.

KFPL—C. C. Baxter, Dublin, Tex.—Voluntary assignment of license; 1310 kc., 100 watts, 100 watts LS (C. P., 100 watts, 250 watts LS, unlimited time).

KFPL—WFTX, Inc., Wichita Falls, Tex.—C. P.; 1500 kc., 100 watts, 250 watts LS, unlimited time. Present assignment: 1310 kc., 100 watts, 250 watts LS, unlimited time.

Examiner’s Report No. 1-439:
NEW—Chase S. Osborn, Jr., Fresno, Cal.—C. P.; 1440 kc., 500 watts, unlimited time.

Examiner’s Report No. 1-442:
NEW—The Bend Bulletin, Bend, Ore.—C. P.; 1310 kc., 100 watts, 250 watts LS, unlimited time.

Examiner’s Report No. 1-441:

Examiner’s Report No. 1-421:
WREN—The WREN Broadcasting Co., Inc., Lawrence, Kans.—Authority to transfer control of Corporation. 1220 kc., 1 KW night, 5 KW LS shares with KPFU.

Friday, October 29
HEARING BEFORE AN EXAMINER
(Broadcast)

WLAK—Lake Region Broadcasting Co., Lakeland, Fla.—C. P.; 1310 kc., 100 watts night, 250 watts LS, unlimited time.

APPLICATIONS RECEIVED

First Zone

NEW—Joe L. Smith, Jr., Beckley, W. Va.—Construction permit 1210 for a new station to be operated on 1210 kc., 100 watts night, 250 watts day, unlimited time.

WGAR—WGAR Broadcasting Co., Cleveland, Ohio.—License to 1450 cover construction permit (B2-P-1887) for changes in equipment.

WOMI—Owensboro Broadcasting Co., Owensboro, Ky.—Modification of construction permit (B2-P-1013) as modified, for a new station, requesting changes in authorized equipment and change power from 100 watts to 100 watts night, 250 watts.

W3XPF—Farnsworth Television, Inc. of Pennsylvania, Springfield, Pa.—Modification of construction permit (B2-PF-12) as modified, for a new television station, requesting extension of completion date from 11-5-37 to 1-5-38.

Second Zone

NEW—Brenau College, Gainesville, Ga.—Construction permit for 1210 for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended: To make changes in antenna.

NEW—Tallula Broadcasting Corp., Kosciswo, Miss.—Authority 1500 to transfer control of corporation from C. E. Wharton & J. E. Wharton to Roy L. Heidelberg and J. E. Richards. Amended: To transfer control of corporation from J. E. Wharton to Roy L. Heidelberg, 1834 shares common stock.

Third Zone

NEW—Brenau College, Gainesville, Ga.—Construction permit for 1210 for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended: To make changes in antenna.

NEW—Brenau College, Gainesville, Ga.—Construction permit for 1210 for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended: To make changes in antenna.

NEW—Brenau College, Gainesville, Ga.—Construction permit for 1210 for a new station to be operated on 1310 kc., 100 watts, unlimited time. Amended: To make changes in antenna.

Fourth Zone

NEW—South Dakota State School of Mines, Rapid City, S. Dak. 1200.—Modification of license to change specified hours from 1:30 to 2:30 p.m. to 12:00 to 1:00 p.m.

NEW—Rock Island Broadcasting Co., Rock Island, Ill.—Construction permit to change frequency from 1210 kc. to 1240 kc., install a new transmitter, increase power from 100 watts night, 250 watts day to 500 watts night, 1 KW day, move...
transmitter from 102 18th St., Rock Island, Illinois, to SE3/4 of Section 2, Twp. 17 N Range 1 W, near Rock Island, Illinois and install directional antenna for night use. Amended: To make changes in directional antenna for night use.

WSBT—The South Bend Tribune, South Bend, Ind.—Construction
permit to make changes in equipment, install directional anten¬
tenna, change frequency from 1360 kc. to 1010 kc., increase
power from 500 watts to 1 KW, change hours of operation
from S-WGES to unlimited and move transmitter locally.
Amended: Re-directional antenna.

WTMV—Mississippi Valley Broadcasting Co., Inc., E. St. Louis,
Ill.—Construction permit to install new transmitter, install
directional antenna for night use, change frequency from
1500 kc. to 1510 kc., power from 100 watts night, 250 watts
day to 1 KW night, 5 KW day and move transmitter locally.
Amended: To make changes in directional antenna for day
and night use.

Fifth Zone

KUJ—KUJ, Inc., Walla Walla, Wash.—Construction permit to
change frequency from 1370 kc. to 560 kc.; make changes
in transmitting equipment; install a new vertical antenna;
increase power from 100 watts to 250 watts; and move
transmitter from 2nd and Rose Streets, Walla Walla, Wash.,
to site to be determined, Walla Walla, Wash.

KALE—KALE, Inc., Portland, Ore.—Construction permit to make
1000 changes in equipment and increase power from 500 watts
to 1 KW.

NEW—Anna Jay Levine, Palm Springs, Calif.—Construction per-
mit for a new station to be operated on 1370 kc., 100 watts
night, 250 watts unlimited time. Amended to give trans-
mmitter site as site to be determined, Palm Springs, Calif.

KIUP—San Juan Broadcasting Co., Durango, Colo.—Authority to
make changes in automatic frequency control apparatus.
HABANA INTER-AMERICAN RADIO CONFERENCE

Federal Communications Commissioner, T.A.M. Craven has been designated chairman of the American delegation to the Habana Radio Conference to convene on November 1. R. Henry Norweb, American Minister to the Dominican Republic will be the other delegate.

Meetings of preparatory committees have been held at the FCC since October 8. These have been attended by the Managing Director, James W. Baldwin and the Chairman of the NAB Engineering Committee, Paul Loyet of WHO, Des Moines, Iowa.

Mr. Baldwin will represent the NAB at the conference in Habana. The conference is of great importance to radio broadcasters in North and South America. Although the question has been raised, it is not yet known whether agreements which may be reached in Habana, will be effectuated by an exchange of state documents or by a treaty which would be subject to ratification by the participating governments.

NAB members, in April, received from Washington headquarters the official report of the American delegation to the Regional Radio Conference which was held in Habana, Cuba, March 15-29, 1937, and which was preliminary to the conference about to be held.

In connection with the November 1 conference the State Department on Tuesday made the following official statement:

"On May 8, 1937, the Cuban Government through its Embassy at Washington invited the United States to participate in an Inter-American Radio Conference which is to be convened at Habana, November 1, 1937. Invitations have also been extended to the member Governments of the Pan American Union and to Canada and Newfoundland.

"A preliminary regional radio conference was held at Habana, March 15-29, 1937, which was attended by delegations from Canada, Cuba, Mexico and the United States."

"It was apparent that while the conclusions reached at the preliminary conference were of great value as regards the North American Continent, the deliberations would not be complete and the problems could not be fully solved unless all States of the Western Hemisphere were given an opportunity to participate in the proposed arrangements in order to establish a clear understanding and uniformity of procedure throughout that Hemisphere. The conference at Habana recommended the proposed November meeting and approved a set of resolutions as a basis for discussion.

"The deliberations at the Habana conference will be of particular interest in view of the forthcoming World Telecommunication Conference to be held in Cairo, commencing February 1, 1938.

"With the approval of the President the following have been designated as representatives of the United States at the forthcoming Inter-American Radio Conference:

Delegates:

Commander T. A. M. Craven, Commissioner, Federal Communications Commission, Chairman.
The Honorable R. Henry Norweb, American Minister to the Dominican Republic.

Technical Advisers:

Harvey B. Otterman, Department of State.
Lieutenant Colonel David M. Crawford, War Department.
A. D. Ring, Assistant Chief Engineer, Federal Communications Commission.
G. C. Gross, Engineer, Federal Communications Commission.

Secretary of Delegation:

Carlton Hurst, American Consul, Habana, Cuba.

"The delegation expects to leave Washington on Thursday, October 28, reaching Habana on the morning of Saturday, October 30."

2345
SUPREME COURT DENIES EASTLAND PETITION

The United States Supreme Court on Monday denied a petition for a writ of certiorari by the Eastland Company, Portland, Me., from a decision of the Federal Communications Commission in which the Commission denied a license for a broadcast station.

The Commission granted a license to the Portland Broadcasting System, Inc., instead. The Eastland Company and its subsidiary, the Congress Square Hotel Company, Inc., contended that the Commission’s decision was invalid on the ground that two of the three Commissioners who decided the case were not present at the hearing.

SESAC

A supplement to the recent report on the Society of European Stage Authors and Composers, Inc. (SESAC), is in preparation. The supplemental report will include information concerning thirteen publishers or organizations claimed by the SESAC subsequent to April 1, 1937, the closing date of the first report, together with additional copyright registrations made by certain of the original SESAC firms.

JACK FALVEY

Anyone knowing the present whereabouts of Jack D. Falvey, who does business under the name of Falvey Feature Service, is requested to forward his address to Station WJMS at Ironwood, Michigan.

TRANSFER OF KFJZ RECOMMENDED

Application was made to the Federal Communications Commission for the transfer of Station KFJZ, Fort Worth, Texas, from R. S. Bishop to Mrs. Ruth G. Roosevelt. The station operates on 1370 kilocycles, 100 watts and 250 watts LS, and unlimited time.

Examiner George H. Hill in Report No. I-514 recommended that the application for transfer be granted. In his conclusions in this case the Examiner stated that:

“1. The transferee, Mrs. Ruth G. Roosevelt, is legally, technically and financially qualified to acquire control of Fort Worth Broadcasters, Inc., through the purchase of 313 shares of its stock, and to continue the operation of radio broadcast Station KFJZ, at Fort Worth, Texas.

“2. The transferee, Mrs. Ruth G. Roosevelt, does not own any stock in any existing broadcasting company and does not have any interest in any existing stations.

“3. The programs of KFJZ are generally meritorious and serve the public interest; however, it is shown that these programs will be substantially improved, new equipment installed where necessary, and the station operated in the most efficient manner.

“4. The entire record considered, the Examiner is of the opinion that public interest, convenience and necessity would be served by granting the application for transfer of control of the corporation by the proposed sale of stock from R. S. Bishop to Mrs. Ruth G. Roosevelt.”

RECOMMENDS NEW OKLAHOMA STATION

Harry Schwartz applied to the Federal Communications Commission for a construction permit for a new station at Tulsa, Okla., to use 1310 kilocycles, 250 watts power and daytime operation.

Examiner Robert L. Irwin in Report No. I-512 recommended that the application be granted. He found that “there is a need for the daytime service which the applicant proposes to render in the area to be served.” The Examiner also found that the granting of the application would not result in any objectionable interference.

ILLINOIS STATION RECOMMENDED

The Galesburg Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Galesburg, Ill., to use 1500 kilocycles, 250 watts and daytime operation.

Examiner R. H. Hyde in Report No. I-515 recommended that the application be granted. He found that erection of the proposed new station “would provide a useful local service, meeting a local demand which cannot be satisfied by the services available from relatively distant stations.”

RECOMMENDS AGAINST NEW KENTUCKY STATION

The Louisville Times Company and the Louisville Broadcasting Company both applied to the Federal Communications Commission asking for a construction permit for the erection of a new station at Louisville, Ky., to use 1210 kilocycles, 100 watts power. The Times Company asked for unlimited time on the air while the Broadcasting Company asked only for daytime operation.

Examiner R. H. Hyde in Report No. I-509 recommended that each of the applications be denied. In the case of both applications the Examiner states that it would not be in the public interest to grant the application.

NEW ARIZONA STATION RECOMMENDED

The Southwest Broadcasting Company and W. P. Stuart, both applied to the Federal Communications Commission for a construction permit for the erection of a new station at Prescott, Ariz., both asking 1500 kilocycles, with unlimited hours of operation. The Broadcasting Company asked for 100 watts and 250 watts LS while Stuart asked for 100 watts.

Examiner P. W. Seward in Report No. I-510 recommended that the Broadcasting Company application be
granted and that the Stuart application be denied. The Examiner states that the evidence showed a need for additional radio service in the area proposed to be served. He states that a need does not exist for two new stations at Prescott and the applicant, "Southwest Broadcasting Company, seems the better qualified of the two applicants here under consideration to construct and operate a radio station at Prescott." Stuart, the Examiner states, is a newspaper publisher and "if his application is granted the station will be operated as an adjunct to his newspaper business."

POWER INCREASE RECOMMENDED FOR KXA

Broadcasting Station KXA, Seattle, Wash., applied to the Federal Communications Commission to increase its power from 250 watts and 500 watts LS to 1,000 watts. The station operates on 760 kilocycles, full time. The station also asked to make changes in its equipment, install a vertical antenna and to move its transmitter and studios locally.

Examiner Tyler Berry in Report No. I-511 recommended that the application of the station be granted. The Examiner found that "there appears to be a need for the additional service proposed." He found also that "no interference would be expected within the normally protected contour of any station, and there are no pending applications with which conflict may be had by reason of interference."

STATION DENIAL RECOMMENDED

Clark Standiford, L. S. Coburn and A. C. Sidner applied to the Federal Communications Commission for a construction permit for a new station to be erected at Fremont, Nebr., to use 1370 kilocycles, 100 watts and unlimited time on the air.

Examiner R. H. Hyde in Report No. I-513 recommended that the application be denied. The Examiner states that "the evidence regarding financial ability, does not afford reasonable assurance that the proposed station, if authorized, would be financed in such a way as to provide a meritorious public service."

RECOMMENDS DISMISSAL WITH PREJUDICE

Leon M. Eisfeld, applied to the Federal Communications Commission for a construction permit for a new station at Burlington, Iowa, to use 1310 kilocycles, 100 watts and unlimited time.

Examiner Tyler Berry in Report No. I-516 recommended that the application "be denied as in cases of default, and dismissed with prejudice." When the hearing was called no appearance was entered for the applicant and no evidence was offered in support of the application.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3245. Sidney A. Weitzman, 357 West 63d St., Chicago, trading as Certified Sales Service, in the sale of clocks, cameras, automatic shavers, fountain pens and other articles, is charged with using a sales plan involving a lottery method in the sale of clocks, cameras, razors and other merchandise. Murray is alleged to employ a lottery system under which purchasers draw prizes by selecting certain numbers. This respondent is also charged with representing that he is a direct distributor for the manufacturer of the merchandise which he sells, this tending to mislead purchasers into believing that by dealing with him they are buying from the direct agent of the manufacturer and eliminating middleman’s profits. The complaint alleges that Weitzman is not the direct distributor for the manufacturer of his products.

No. 3246. Philip H. Koolish, Jr., 1232 Westchester Place, Los Angeles, is charged with using a sales plan involving a lottery method in the sale of clocks, cameras, razors and other merchandise. Koolish is alleged to employ a pushcard system under which purchasers draw prizes by selecting certain feminine names.

No. 3247. William L. Goetze, 1610 Ashland Ave., Baltimore, trading as Buhman & Goetze, a candy manufacturer, is alleged to have sold his candy products by means of a plan which included the giving of prizes to purchasers drawing pieces of candy with certain colored centers.

No. 3248. Specialties, Inc., 601 South Smallwood St., Baltimore, a candy manufacturer, is charged with selling its products packed and assorted so as to involve use of a pushcard system under which prizes are awarded to the holders of discs with certain specified numbers thereon.

No. 3249. Paul and Eaula Louise Botwin, trading as Eaula Candy Company, 1203 Calhoun St., Columbia, S. C., are charged in a complaint with unfair competition in connection with the sale of assortments of candy and other merchandise so packed and assembled as to involve use of a lottery method when sales are made to ultimate purchasers.

The complaint alleges that the respondents sell their merchandise to operators of and concessionaires with motion picture and burlesque theaters, medicine shows, tent shows and repertory companies, and that they themselves also have candy concessions in certain theaters where they sell their merchandise direct to the consuming public.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2431. An order has been entered directing Arrow Distilleries, Inc., 3539 Concord Ave., Detroit, to discontinue representing itself to be a distiller of certain spirituous beverages, when such is not a fact.

The Commission found that the respondent corporation is a rectifier, blender and bottler of certain alcoholic beverages. The order directs that the company cease and desist from representing, through use of the word “distilleries” in its corporate name or on stationery or labels, that it is a distiller of cordials or other spirituous beverages; that such products are distilled by it, or that it owns, operates or controls any place where such products are manufactured by it through a process of distillation, unless and until it actually owns, operates or controls such a place.

Stipulations

The Commission has entered into the following stipulations:

No. 01894. The Mennen Company, Newark, N. J., agrees to stop asserting that Mennen Brushless Shaving Cream supplies oil to the skin or is the one cream made especially for that purpose; that Mennen Lather Shave will flush out oil-clogged pores, making
as being capable of promoting the growth of hair and nourishing its bleaching cream as a skin purifier; its cleansing cream as being capable of penetrating the pores and eliminating all impurities; its laundring of hose will double its life, and that its use in the washing of blankets and woolens will prevent shrinkage.

In its stipulation the respondent company admitted that “Little Bo-Peep” does not contain any special ingredient possessing certain of the virtues advertised, and that the ingredient designated “Oehme” is merely a form of soap added to ammonia in the respondent’s product, and does not possess remarkable cleansing properties.

No. 01895. Bee-Dew Laboratories, 615 East Forest Ave., Detroit, in the sale of cows and horse scalp treatments, stipulates that it will stop advertising its scalp oil as a competent treatment or effective remedy for falling hair or sensitive scalp.

No. 01895. The John Puhl Products Company, 3640 West Pershing Road, Chicago, selling “Little Bo-Peep”, a laundry preparatory to stop advertising that its product contains “Oehme” or any other ingredient alleged to be found only in such product, or that “Oehme” or any other ingredient of the preparation possesses remarkable cleansing properties or is capable of doubling the cleaning power of the product. Other representations to be discontinued are that use of “Little Bo-Peep” in the laundring of hose will double its life, and that its use in the washing of blankets and woolens will prevent shrinkage.

No. 2079. Under a stipulation entered into, Harold E. Coburn, 178 Temple St., Whitman, Mass., manufacturer of concrete burial vaults, agrees to cease certain misleading assertions in his advertising.

The respondent stipulates that he will stop advertising to the effect that his vaults will afford, under all conditions of burial, constant, everlasting or enduring protection to the casket and body encased therein, or that the vaults will withstand the ravages of underground elements for all time, when such are not the facts.

FEDERAL COMMUNICATIONS COMMISSION ACTION

There was no meeting of the Broadcast Division of the Commission this week at the usual time.

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, November 1:

Monday, November 1

HEARING BEFORE AN EXAMINER

(Broadcast)

KHBC—Honolulu Broadcasting Co., Ltd., Hilo, T. H.—Renewal of license, 1400 kc., 250 watts, unlimited.

FURTHER HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Carl Latenser, Atchison, Kans.—C. P., 1420 kc., 100 watts, daytime.

NEW—C. Bruce McConnell, Indianapolis, Ind.—C. P., 1500 kc., 100 watts night, 250 watts LS, daily, except Sunday, 10 a. m. to 12 noon, 6 p. m. to 10 p. m. (requests hours used now by WKBY).

WKBV—Knox Radio Corp., Richmond, Ind.—Renewal of license, 1500 kc., 100 watts, specified hours.

Tuesday, November 2

HEARING BEFORE AN EXAMINER

(Broadcast)

WBRE—Louis G. Baltimore, Wilkes-Barre, Pa.—Modification of C. P., 1510 kc., 100 watts, 250 watts LS, unlimited.

WMRE—Louis G. Baltimore, Wilkes-Barre, Pa.—Modification of C. P., 1500 kc., 100 watts, 100 watts, unlimited.

Wednesday, November 3

HEARING BEFORE AN EXAMER

(Broadcast)

WCB—B. Bryan Musselman, Allentown, Pa.—Voluntary assignment of license to WSAN, Inc.; 1440 kc., 500 watts, share with WSAN.

NEW—Broward Broadcasting Co., Ft. Lauderdale, Fla.—C. P.; 1370 kc., 100 watts, 250 watts LS, unlimited time.

Saturday, November 6
FURTHER HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—William C. Smith, Bogalusa, La.—C. P.; 1310 kc., 100 watts, 100 watts LS, unlimited time.

APPLICATIONS RECEIVED
First Zone

WSAN—Portland Broadcasting System, Inc., Portland, Maine.—Modification of construction permit (1-P-B-3180) as modified for a new station, requesting extension of commencement and completion dates from 5-22-37 and 11-22-37, respectively, to 11-22-37 and 5-22-38.

WNYC—City of New York, Department of Plant & Structures, New York, N. Y.—License to cover construction permit (B1-P-678) as modified for new equipment, directional antenna, and move of transmitter.

WRDO—WRDO, Inc., Augusta, Maine.—Transfer of control of corporation from Henry P. Rines to Conrad E. Kennison, 100 shares common stock.

NEW—City of New York, Department of Plant & Structures, Mobile (area of N. Y.).—Construction permit to erect a high frequency relay broadcast station on 300000, 450000, 630000, 750000 kc., power 8.5 watts.

Second Zone

WCHV—Community Broadcasting Corporation, Charlottesville, Va.—License to cover construction permit (B2-P-1626) for equipment changes, installation of vertical antenna, and move of transmitter.

NEW—Philco Radio & Television Corporation, Philadelphia, Pa.—Construction permit for a new television broadcast station to be operated on frequency band 301000-320000 kc., 15 watts. Amended: To delete A1, A2, A3 emissions.

W8XNL—Charleston Broadcasting Co., Mobile (vicinity of Charleston, W. Va.).—License to cover construction permit (B2-PRE-92), as modified for high frequency relay station.

W8XNK—Charleston Broadcasting Co. (Portable), vicinity of Charleston, W. Va.—Modification of construction permit (B2-PRE-91) to make changes in equipment, decrease power from 5 to 2 watts, extend commencement date from 4-23-37 to 1 day after grant and completion date from 10-23-37 to 2 days after grant.

W8XNL—Charleston Broadcasting Co., Mobile (vicinity of Charleston, W. Va.).—License to cover construction permit (B2-PRE-93) for high frequency relay station.

W8XXL—Ashland Broadcasting Co., Ashland, Ky.—License to cover construction permit (B2-PRE-153) for high frequency relay station.

Third Zone

WTAW—Agricultural & Mechanical College of Texas, College Station, Texas.—Construction permit to make changes in antenna, change hours of operation from specified hours to daytime and move transmitter locally. Requests facilities of Station KTBC.

WJBW—Charles C. Carlson, New Orleans, La.—Modification of license to change hours of operation from S-WBNO to unlimited time. (Contingent on WBNO being granted a new frequency.)

WGRM—P. K. Ewing, Grenada, Miss.—Modification of construction permit (B2-P-892) as modified for new equipment and move of transmitter, requesting extension of completion date from 10-28-37 to 11-15-37.

NEW—L. B. McCormick, Greenville, N. C.—Construction permit 1370 kc., for a new station to be operated on 1370 kc., 250 watts, daytime.

NEW—Spartanburg Herald-Journal Company, Spartanburg, S. C.—Modification of construction permit (B3-PRE-318) for high frequency relay broadcast station, to make changes in equipment, decrease power from 5 to 2 watts, extend commencement date from 4-23-37 to 1 day after grant and completion date from 10-23-37 to 2 days after grant.

NEW—Greater Greenwood Broadcasting Station (E. DeVore Andrews, Mrs. Annie L. Andrews), a partnership, Greenwood, S. C.—Construction permit for a new station to be operated on 1120 kc., 100 watts night, 250 watts day, unlimited time.
Fourth Zone

KOAM—A. Staneart Graham, E. V. Baxter & Norman Baxter, d/b as Pittsburg Broadcasting Co., Pittsburg, Kan.—License to cover construction permit (B4-P-459) as modified for a new station.

KFWO—M. H. White, H. R. Wiecking, Harry Dahl and Otto M. Schlalach, d/b as Winona Radio Service, Winona, Minn.—Voluntary assignment of construction permit (B5-P-983) as modified, from M. H. White, H. R. Wiecking, Harry Dahl, and Otto M. Schlalach, d/b as Winona Radio Service to Winona Radio Service, Incorporated.

KFAM—The Times Publishing Co., St. Cloud, Minn.—Modification of construction permit (B4-P-884) for a new station requesting changes in authorized equipment, approval of vertical antenna, approval of transmitter site at 9th Ave. & St. Germain St., St. Cloud, Minn., and studio at Breen Hotel, 9th Ave. & St. Germain St., St. Cloud, Minn. Amended: To make further changes in equipment, and change proposed transmitter site from 9th & St. Germain St., St. Cloud, Minn., to near St. Cloud, Minnesota.

KTMS—News Press Publishing Co., Santa Barbara, Calif.—License to cover construction permit (B5-P-982) as modified for new station.

Fifth Zone

KMJ—McClatchy Broadcasting Co., Fresno, Calif.—Special experimental authorization to operate a facsimile station from 12 midnight to 6 a.m., PST, using 1 KW power.

KXL—KXL Broadcasters, Portland, Ore.—Construction permit to install a new transmitter and directional antenna for day and night use; change frequency from 1420 kec to 1110 kec., power from 100 watts, 250 watts day, to 3 KW day and night, hours of operation from S-KBPS to unlimited time; and move transmitter from 4th and Pine Sts., Portland, Ore., to northeast of Vancouver, Wash.

KGI—Clarence A. Berger and Saul S. Freeman, Couer D'Alene, Idaho.—Modification of construction permit (B5-P-1388) for approval of studio site at 2nd and Sherman, Couer D'Alene, Idaho, and transmitter at 3rd and Bancroft, Couer D'Alene, Idaho, and approval of vertical antenna and new transmitter.

Puerto Rican Zone

WPRA—Puerto Rico Advertising Co., Mayaguez, Puerto Rico.—Construction permit to change frequency from 1370 to 630 kec., make changes in antenna, change power from 100 watts, 250 watts day to 250 watts day and night and change hours of operation from specified hours to unlimited time. Amended: Change requested frequency from 630 to 780 kec., requested power from 250 watts to 1 KW, 21/2 KW day, and make changes in transmitting equipment.
The Federal Trade Commission in its annual report released today made some interesting remarks on the subject of radio advertising. In this regard the Commission says:

The Commission began the review of advertising copy broadcast over the radio at the beginning of the fiscal year 1934-35. At the outset, the Commission, through the Special Board of Investigation, made a survey of all commercial continuities, covering the broadcasts of all radio stations during July, 1934. The volume of returns received and the character of the announcements indicated that a satisfactory continuous scrutiny of current broadcasts could be maintained with a limited force and at relatively small expense, by adopting a plan of grouping the stations for certain specific periods.

Consequently, beginning with September, 1934, calls have been issued to individual radio stations at the rate of four times yearly for each station, according to their licensed power and location in the five radio zones established by the Federal Communications Commission. These returns cover specified 15-day periods.

National and regional networks, however, respond on a continuous weekly basis, submitting copies of commercial continuities for all programs wherein linked hook-ups are used involving two or more affiliated or member stations.

Producers of electrical-transcription recordings submit regularly monthly returns of typed copies of the commercial portions of all recordings manufactured by them for radio broadcast. As the actual broadcast of a commercial recording is not always known to the manufacturer of an article being advertised, the Commission's knowledge of current transcription programs is supplemented by special reports from individual stations from time to time, listing the programs of recorded transcriptions with essential data as to the names of the advertisers, and the articles sponsored.

The combined material received furnishes representative and specific data on the character of current radio advertising which has proven of great value in the efforts to prevent false and misleading representations.

During the fiscal year ended June 30, 1937, the Commission received copies of 439,393 commercial broadcasts by individual radio stations and 30,983 commercial broadcasts by networks, or chain originating key stations. The broadcasts from the independent stations averaged 1½ pages each and from the networks 10 pages each.

The special board and its staff read and marked about 959,264 pages of typewritten copies during the year, or an average of 3,145 pages every working day. From this material 24,558 commercial broadcasts were marked for further study as containing representations that may have been false or misleading. These were assembled in 1,275 prospective cases for further review and procedure in instances that appeared to require it.

From data now accumulated as a result of the first three year's systematic review of radio advertising, the Commission is in a position to ascertain the sources of the more objectionable examples of broadcast advertising, and to take action where necessary.

The Commission is receiving the helpful cooperation of the 620 active commercial radio stations and of newspaper and magazine publishers generally, and notes a desire on the part of broadcasters and publishers to aid in the elimination of false and misleading advertising.

In its examination of advertising, the Commission's only purpose is to prevent false and misleading representations. It does not undertake to dictate what an advertiser shall say, but rather indicates what he may not say under the law. Jurisdiction is limited to cases which have a public interest as distinguished from a mere private controversy, and which involve practices held to be unfair to competitors in interstate commerce.

Ohio Broadcasters Hold Annual Meeting

The annual meeting of the Ohio Association of Broadcasters will be held November 12 and 13 at Columbus,
Ohio. John F. Patt, WGAR, President of the Association, will preside.

BROADCAST ENGINEERS CONFERENCE

A Broadcast Engineers Conference will be held at Ohio State University February 7-19, 1938, to be in charge of W. L. Everitt, professor of electrical engineering.

Prominent speakers will cover such subjects as "Broadcast Antenna Design," "High Power Amplifiers," "Modulation and Distortion Measurements," "Studio Acoustics" and many other subjects dealing with broadcast station design and maintenance. In addition, preparatory lectures and demonstrations will be given by members of the university staff before the outside lecturers appear on the program.

The NAB Engineering Committee recommends the attendance of all engineers at this meeting, which is the only conference in the United States dealing exclusively with broadcast transmission.

PACIFIC NORTHWEST BROADCASTERS MEET

A regional meeting of the NAB will be held November 13 at Spokane, Washington. Ed Craney, KGIR, District Chairman for the states of Washington, Oregon, Montana and Idaho, will be in charge.

Included in the program is a talk on the copyright situation by Alfred J. Schweppe, NAB counsel in the Montana and Washington copyright law cases.

RECOMMENDS NEW GEORGIA STATION

Arthur Lucas applied to the Federal Communications Commission for a construction permit for the erection of a new station at Savannah, Ga., to use 1310 kilocycles, 100 watts and unlimited time.

Examiner Melvin H. Dalberg in Report No. I-518 recommended that the application be granted. He found that there is need for an additional station at Savannah "to be utilized for local purposes." The Examiner states that granting of the application would be in the public interest.

INCREASED POWER RECOMMENDED FOR KPOF

Broadcasting station KPOF, Denver, Colo., operating on 880 kilocycles and sharing time with KFKA applied to the Federal Communications Commission to increase its power from 500 to 1,000 watts.

Examiner Tyler Berry in Report No. I-519 recommended that the application be granted. He found that "there is a need for the additional service in the area in question." The proposed increased power, says the Examiner would cause some interference to other stations, but it would serve to equalize the interference between stations. The Examiner states that granting the application would be in the public interest.

NEW STATION RECOMMENDED

A partnership operating under the name of Radio Station WFNC and the Capitol Broadcasting Company, Inc., both applied to the Federal Communications Commission for a construction permit for a new station at Fayetteville and Raleigh, N. C., respectively, to use 1210 kilocycles. WFNC applied for 250 watts and daytime operation and the other company applied for 100 watts and 250 watts LS with unlimited time.

Examiner P. W. Seward in Report No. I-522 recommended that the application of the company known as Radio Station WFNC be denied while the application of the Capitol Broadcasting Company be granted. The Examiner states that there is need for additional radio service in the area proposed to be served. In the case of the first named company the Examiner states that neither of the partners have resided in the area proposed to be served "and has but slight acquaintance with the area." The granting of the application of the Capitol Broadcasting Company, says the Examiner, would be in the public interest.

FCC AUTHORIZES TWO NEW STATIONS

The Federal Communications Commission by action this week authorized two new broadcasting stations. Don M. Lidenton and A. L. McCarthy were granted a construction permit for a new broadcast station to be located at Poplar Bluffs, Mo., to operate on 1310 kilocycles, 100 watts daytime operation, effective December 7.

Also John W. Haight was granted a construction permit for a new station at Greenfield, Mass. to use 1210 kilocycles, 250 watts and daytime operation effective December 14.

MISSISSIPPI STATION RECOMMENDED

The Standard Life Insurance Company of the South applied to the Federal Communications Commission for a construction permit for the erection of a new station at Jackson, Miss., to use 1420 kilocycles, 100 watts and 250 watts LS and unlimited time.

Examiner P. W. Seward in Report No. I-517 recommended that the application be granted. The Examiner states that "the operation of the proposed station will not be expected to cause interference to the fair and efficient operation of any existing licensed radio broadcast station, nor with the operation of any broadcast station for which an application is now pending." He states that the application will be in the public interest.
MAKES CONDITIONAL RECOMMENDATION

The Centennial Broadcasting Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Dallas, Texas, to use 1500 kilocycles, 100 watts and daytime operation.

Examiner Robert L. Irwin in Report No. I-520 recommended that the application be granted under certain conditions, because of other applications pending. The Examiner in his recommendations says:

It is recommended that the application of the Centennial Broadcasting Corporation be denied, if the Commission grants the applications of the Dallas Broadcasting Company, A. L. Chilton, or Richard S. Gozzaldi; and granted, if the Commission denies the applications of the Dallas Broadcasting Company, A. L. Chilton and Richard S. Gozzaldi.

If the application of the Centennial Broadcasting Company is granted, it is recommended that it be made conditional upon the Commission's approval of the site upon which the transmitter will be located.

NEW ALABAMA STATION RECOMMENDED

The Birmingham News Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Birmingham, Ala., to use 590 kilocycles, 1,000 watts and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-521 recommended that the application be granted, with the use of a directive antenna at night. The Examiner states in his conclusions that “in view of the chain affiliations of the three existing Birmingham stations there appears to be a distinct need for the local service contemplated in this application and such facilities as are requested would apparently render a service to the Birmingham area which does not now exist.” The Examiner states that granting of the application would be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair methods of competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3250. A complaint has been issued against Good Humor Corporation of America, Maspeth, Long Island, N. Y., Popsicle Corporation of the United States, New York, and their exclusive licensing agent, Joe Lowe Corporation, New York, charging violation of Section 5 of the Federal Trade Commission Act, prohibiting unfair competition, and of Section 3 of the Clayton Act, prohibiting exclusive dealing arrangements.

The complaint charges that the respondent corporations have threatened and intimidated other manufacturers of frozen confectionery machinery and their customers by representing that the respondents own and control the process and product patents for frozen stick confections; that by continuing such confections the competing manufacturers are infringing upon such patents, and that unless they discontinue such infringement they will be sued. These threats, allegedly made through hundreds of letters and verbally by salesmen, are in bad faith, according to the complaint, because the respondent corporations have no intention of instituting, nor have they instituted, such suits.

Both the Good Humor and Popsicle corporations are alleged to have advertised, through the agency of the Lowe corporation, that “the manufacture of frozen stick confections is licensed under adjudicated patents,” and that the Lowe corporation is exclusive licensing agent for all frozen stick confections. In these statements, the complaint charges, are false and misleading. The Lowe corporation is not the exclusive licensing agent for the operating plan of all frozen stick confections, according to the complaint, and the respondents' advertising tends to mislead competing manufacturers and their customers into believing that the respondents have the right to license the manufacture and sale of all machinery for making frozen stick confections, and that all patents dealing with manufacture of such machinery and its products have been finally adjudicated, when such are not the facts. The result, according to the complaint, has been to influence prospective customers of competing manufacturers to discontinue purchasing from them.

Nos. 3251-3252-3253-3254. Three Chicago dealers and a Detroit vendor selling various articles of merchandise have been served with complaints alleging the use of lottery schemes or gift enterprises in the sale of watches and other merchandise.

Three of the complaints involve plans under which the respondent awards prizes to the person selecting a certain girl's name on a pushcard, such name corresponding to a name under a master seal on the card. These complaints were issued against Fred W. House, Jr., 329 South Wood St., Chicago, trading as 20th Century Sales Company, distributor of clocks, automatic razors and other merchandise; Martin M. Slaton, 710 Michigan Theater Building, Detroit, trading as Allied Gift Shop in the sale of clocks, washing machines, electric toasters and other merchandise; and J. A. Schwartz, 1407 Diversey Parkway, Chicago, dealer in radio receiving sets and other merchandise, trading as National Sales & Novelty Co.

A fourth complaint alleges that Pacific Amusement Manufacturing Corporation, 4223 Lake St., Chicago, trading as Pacific Manufacturing Corporation and selling chewing gum and other merchandise to dealers and concessionaires, furnished plans by means of which certain of the ultimate purchasers received prizes through the drawing of certain coupons in the retail purchase of chewing gum.

No. 3254. Royal Lotus Corporation, 13 Ackerman Ave., Ramsey, N. J., engaged in the interstate sale of a hair tonic and a line of cosmetics, is charged in a complaint with misrepresenting and exaggerating the results to be obtained from the use of its products.

The respondent company, allegedly advertises that its hair tonic, designated Royal Lotus, is not a dye, is absolutely harmless, and does not impart an artificial color to the hair; that it will restore faded, streaked or gray hair to its natural color; that it stops falling hair, preserves and grows hair, is a positive corrective for dandruff and itching scalp, and prevents all hair diseases.

No. 3256. Charging unfair representations in the sale of men's clothing, a complaint has been issued against Harry Weinberg, 818 Broadway, New York, trading as Nu-Art Tailoring Company.

Weinberg, who employs approximately 20 salesmen at various points in the United States to solicit and accept orders for his clothing, is alleged to have made representations having a tendency to deceive purchasers into believing that the garments so sold are made-to-measure or tailor-made. According to the complaint, such garments, in many instances, are not made-to-measure or tailor-made, but are "ready made" suits previously manufactured without regard to individual measurements of the customer to whom the garment is to be eventually sold. In some instances, it is charged, garments are made to individual measurements, but because of lack of experience and skill on the part of salesmen who take the measurements, and on the part of the workmen who make the suits, the suits do not fit.

No. 3257. Alleging misrepresentation in the sale of perfumery and toilet articles, a complaint has been issued against Dermay Perfumers, Inc., 347 Fifth Ave., New York.

Among the misrepresentations alleged are that the respondent company's printed matter indicates that it manufactures its prod-
ucts, when in fact it owns or controls no mill or factory for this purpose; that its printed matter and labels indicate that it has a place of business in Paris, France, and imports certain products from France to the United States, when such is not a fact, and that its price marks on certain products indicating a value greatly in excess of the actual retail selling price and in excess of the actual value.

No. 3258. Trading as Diesel Engineers, Associated, Roy E. and Florence A. Reed, 805 S. South Flower St., Los Angeles, are charged in a complaint with using certain unfair methods of competition in connection with the sale of correspondence courses of instruction in the construction, operation, maintenance and repair of Diesel engines and air-conditioning equipment.

Advertisements inserted by the respondents in the "Help Wanted" columns of newspapers allegedly lead prospective students to believe that, while working for pay in a factory where Diesel engines and air-conditioning equipment are constructed and repaired, they will be afforded an opportunity to learn such trades. The complaint charges that such advertisements are merely "blinds" to contact prospective purchasers of the courses, inasmuch as the respondents do not own or operate a shop or factory where Diesel engines and air-conditioning equipment are manufactured and repaired, nor do they provide employment in such a place for persons who respond to the advertisements.

In corresponding with prospects, the respondents are said to use letterheads on which appear the names of five men, one designated as chief of staff, another as chief consulting engineer, and the others as consulting engineers, while in the agreement signed by the student he is described as a "member", the agreement of enrollment is referred to as a "membership", and the diploma to be awarded upon completion of a course is called an "associate engineering membership."

No. 3259. A complaint has been issued against The Sperry Corporation, 30 Rockefeller Plaza, New York City, a holding corporation, charging that it has violated Section 7 of the Clayton Act by acquiring the capital stock of two competing corporations.

According to the complaint, The Sperry Corporation, a holding company owning several subsidiary companies which manufacture nautical and aviation instruments and mechanisms, in April, 1937, while owning the capital stock of The Waterbury Tool Company, Waterbury, Conn., acquired all of the issued and outstanding common capital stock of Vickers, Inc., Detriot, alleged to be a direct competitor of The Waterbury Tool Company.

The Waterbury Tool Company and Vickers, Inc., are said to constitute the sole source of supply of hydraulic transmissions, pumps and allied products for use by the United States Navy, and the total volume of business of the two companies allegedly represents a substantial part of the total business done in the United States in these products.

Pursuant to a so-called plan of re-organization dated April 14, 1937, Waterbury Tool Company acquired a major portion of the outstanding shares of the capital stock of Vickers, Inc., and acquired additional shares of its authorized common stock, so that there were then issued and outstanding 9,600 shares of common stock and 5,000 shares of preferred stock. Pursuant to this plan and to an agreement also dated April 14, 1937, between The Sperry Corporation and Vickers, Inc., it is alleged that The Sperry Corporation acquired and now owns all issued and outstanding common capital stock of Vickers, Inc., and 4,882 shares of its outstanding preferred stock. As a result of this acquisition, The Sperry Corporation now allegedly controls the operations of Vickers, Inc., as one of its subsidiaries.

The complaint charges that the effect of the acquisitions by The Sperry Corporation of the capital stocks of the Waterbury and Vickers companies may be to substantially lessen competition between the two subsidiary companies or to tend to create a monopoly in The Sperry Corporation in the hydraulic pump, transmission and allied products business.

No. 3260. Donald Reichgott, 1841 Broadway, New York, trading as American Novelty Company, is charged in a complaint with using lottery methods in connection with the sale of various articles of merchandise, including electric razors and pen and pencil sets.

The respondent allegedly furnishes customers with push cards, the use of which involves the distribution of his merchandise to the purchasing public wholly by lot or chance.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 1810. D. Goldenberg, Inc., Ontario and I Sts., Philadelphia, trading as P. C. Sales Company, candy manufacturer, has been served with an order to cease and desist from certain sales methods involving a lottery or gift enterprise.

The respondent is charged with using lottery methods in connection with the sale of candy on consignment and operating a plant where such products are distilled, unless and until it actually does own or operate such a plant.

The respondent company, however, is not prevented from representing, through use of the word "distilling", that it is the distiller
of liquors which it did in fact produce by the process of distillation.

Findings are that the respondent company, prior to January 1, 1936, as lessee of The Frankfort Distilleries, Incorporated, at Louisville, Kentucky, operated a distillery and produced approximately 5,000 barrels of whiskey, of which 2,500 barrels remained at the time of the hearing in the case. On January 17, 1936, the company suspended operations as a distiller, and since that date, according to the findings, has been engaged solely as a rectifier in the bottling and sale of spirits which it did produce and of spirits purchased from other sources.

No. 3057. An order to cease and desist from certain unfair methods of competition in the interstate sale of mushroom spawn has been entered against American Mushroom Industries, Ltd., having principal place of business at 28-30 Bloor St., West, Toronto, Canada, and a branch office at 73 West Eagle St., Buffalo.

The respondent corporation is directed to stop representing that the spawn sold by it is a new and superior variety which will cure constipation, or headaches due thereto, or that these medicines will cure stomach troubles, rheumatism, neuritis, liver and kidney ailments, nervousness, and other related maladies and conditions. They are also to cease asserting that these preparations will cure constipation, or headaches due thereto, or that these medicines are new remedies.

No. 3075. Misleading representations in the sale of certain medicinal products are prohibited under an order to cease and desist issued against nine individuals trading as Herbal Medicine Company and Natex Company, 219 West Saratoga St., Baltimore.

The order directs that the respondents, in the sale of Herb Doctor, or Herb Doctor's Bon Bon, represents a disposition to conduct a lottery in the bottling and sale of its products in violation of Section 5 of the Federal Trade Commission Act.

This company is directed to stop representing, directly or indirectly, through use of the word "British" or other words of similar meaning, as descriptive of garments not composed wholly of silk, but which contain other materials.

The order requires Al Hartman, Inc., to cease using the word "silk," or any other word of similar meaning, as descriptive of garments not composed wholly of silk, but which contain other materials.

The order requires Al Hartman, Inc., to cease using the word "crepe" to describe any product not composed wholly of silk also is ordered stopped, unless in immediate connection therewith, in letters of equal size and conspicuousness, there appear other words accurately describing the materials of which such product is made.

Stipulations

The Commission has entered into the following stipulations:

No. 01897. Camel, Lead, Color and Chemical Products Mfg. Corporation, 33 Keap St., Brooklyn, selling Germ-Proof Film Paint, stipulates that it will stop advertising its product as being capable of constantly killing all germs, unless this assertion is qualified by the statement that it kills certain specified germs only, that black mold is killed only under certain conditions, that the respondent company agrees to cease asserting that its product will kill all germs throughout the life of the paint, and that the preparation stands today as the greatest single sanitary prophylactic measure of this epoch. Other representations to be discontinued are that the respondent's claims have been accepted by eminent scientists, and that the use of the respondent's product will give public health insurance. In its stipulation, the respondent company admits that, according to reliable scientific authority, its product is germicidal under some conditions, but not so under all conditions nor against all germs.

No. 01900. Della J. Ballard, trading as Ballard Golden Oil Company, 100 Harlow St., Bangor, Me., will stop advertising that Ballard's Golden Pills are an effective remedy or a sure and the quickest relief for colds and coughs, or is effective in treating colds, spasmodic cough, throat irritations, and muscular aches and pains, and that Ballard's Golden Salve is a healing remedy or competent in the treatment of cuts, scars, dandruff and scalp irritations.

No. 01901. Harjorie Ross, trading as Clear-Skin Institute, 375 Lincoln Place, Brooklyn, stipulated that she will stop advertising that her preparation known as Clear-Skin will clear the complexion of brown and liver spots, pimples and blackheads, and will heal or correct blemishes of the skin. She also will cease asserting that the results claimed for the product are guaranteed and that any price at which the product generally is sold is a special or an introductory offer. The respondent also agreed to stop using the word "Institute" as part of her trade name.

No. 01902. D. J. Lane, 630 Lane Building, St. Marys, Kans., will cease representing that his preparations designated Hay Fever...
and Asthma Pills, Nasal Ointment, Asthma Treatment, and Special Elixer, alone or in combination, constitute a treatment for asthma or hay fever or are more than a palliative treatment for the symptoms of such ailments; that they contain health-giving ingredients which act on the constitution and are intended to aid nature in restoring the body to normal condition, and give freedom from smothering, wheezing, coughing, and other asthmatic symptoms.

No. 01933. National Coin Corporation, 29 Locust St., Springfield, Mass., has entered into a stipulation to discontinue certain misleading representations in connection with the sale of its coin catalogue.

Under its stipulation, the respondent company agreed to stop representing that many coins and bills now in circulation are worth big cash premiums, and that its coin book lists all valuable coins or tell which are valuable. The respondent company admitted that the number of valuable coins now in circulation is small.

No. 01904. F. B. Smith, trading as Nature's Mineral Food Company, 145 East Ohio St., Indianapolis, in the sale of Nature's Minerals, will discontinue representing that the preparation is prepared in accordance with the requirements of the United States Pharmacopoeia or National Formulary, and is a competent treatment or an effective remedy for rheumatism, acidosis, diabetes, arthritis, tuberculosis, diseases of the stomach, kidneys and heart, and numerous other ailments. The respondent also will refrain from advertising that his product affords the same benefits as a visit to a health resort and is of more benefit than treatment by physicians.

No. 01905. E. O. Koeh, 2906 Main St., Kansas City, Mo., trading as The Easyhold Company and as Dr. Kaiser, is engaged in the sale of the Easyhold Truss and Hernaline, an astringent mixture. He agreed to stop advertising that the truss does away with hemorrhage, springing, and bursting and will cause hoarseness to disappear as if by magic, and that Hernaline will aid nature in effecting a recovery from rupture and in strengthening and building up body tissue. The respondent also will stop representing that no charge is made for the truss or that persons receiving it on trial will not be out one penny if their condition is not improved in 30 days, unless all charges and exclusive postage are refunded to purchasers in the event the truss is returned to the respondent in accordance with the agreement.

No. 01906. Fichman Labrofacts, Inc., 250 East 43rd St., New York, will cease representing that its product designated Allay will relieve the most stubborn, obstinate or persistent pains, will stop headache or throat ache, prevent or stop a cold, and is guaranteed to relieve pain.

No. 01907. Mislleadings representations in the interstate sale of a repairing liquid will be discontinued, under a stipulation entered into by perfecting solutions 3317 Madison Road, Cincinnati, trading as Metalfix Company.

In the sale of its product, Metalix, the respondent agrees to stop advertising that the preparation will weld; that it will effect permanent repairs under all conditions, and that it is not a cement bond, but a metal bond and adhesive.

No. 01908. The Walker T. Dickerson Company, 326 South Front St., Columbus, Ohio, selling Archlock Shoes, agrees to cease representing that use of such footwear will cure or relieve arthritis in the feet, banish corns, bunions or callouses, cure or relieve every type of foot trouble, and that such shoes are guaranteed to give comfort regardless of the foot ailments.

No. 01909. Carillarius Manufacturing Company, 48 Bloomfield Ave., Glen Ridge, N. J., engaged in the sale of a preparation for the skin designated Carillarius-X, will discontinue representing that the product is a strong germicide and a competent treatment for eczema, leucoderma, acne vulgaris and cancerous and fungous diseases, unless the claims concerning the therapeutic value of the preparation are limited to the palliative relief afforded.

No. 01910. National Academy of Music agrees to cease asserting that the study of its courses makes one an accomplished musician in a few months and promises instruction of the highest master artists and teachers in America. In its stipulation, the respondent admits that persons subscribing to its courses are not certain to become accomplished musicians in a short time and that, although the lessons are graded by competent teachers, the pupil does not study the preservation of his teacher or receive the personal instruction of master teachers, except by correspondence.

No. 01911. Frank A. Wilken, trading as Normalizing Foods Company, 10428 Crocuslawn, Detroit, is engaged in the sale of Normalax, offered as a laxative. He will cease advertising that the preparation contains those minerals, vitamins and food ingredients useful for toning up and invigorating the intestines, without the use of laxatives thereafter; that it is a new vegetable corrective, more suitable for an individual than most of the food he eats, and is absolutely harmless regardless of how much or how long it is taken.

No. 01912. Frank Wyss agrees to stop representing that the divining rods sold by him will work the same for everyone, that he furnishes information relative to scientific methods of locating buried treasure, that the mere possession or use of any rod or rods for his purpose will indicate the presence of any metal, unless such claim is clearly qualified by a statement as to the conditions necessary to achieve such results. In his stipulation, Wyss admits that, according to a consensus of reliable scientific opinion, the only products sold or distributed which will have any practical value in indicating the presence of metals are the Telelector, the Buried Treasure Finder, and the Radio Gold Locator. These three may be of value, according to the respondent’s admission, but only when the metallic object is of sufficiently continuous size, parallel to and fastened to the ground surface, and when the operator is a trained technician. Among other products sold by the respondent are Modern Divining Rods, Oil and Water Finders, and the Magic Indicator.

No. 01913. Capt. W. A. Collins, Inc., Watertown, N. Y., selling Capt. Collins’ System for Rupture Service, will discontinue representing that the Collings System can be relied upon to end, stop or rid one of rupture, so as to imply that the person never again will suffer any recurring rupture conditions. The respondent company also will stop advertising that the mere fitting of the Collins adjuncts will result in cured ruptured conditions and that a truss built in accordance with measurements furnished by mail will in all cases fit as well as though made after a personal examination by an expert.

No. 01914. Frank A. Randall, 521 Fifth Ave., New York, trading as Sulpho-Sol, advertised as a treatment for arthritis and rheumatism, agrees to stop asserting that lack of sulphur is a leading factor in causing arthritis, and that Sulpho-Sol is an effective or inexpensive remedy for treating that disease, unless the latter assertion is limited to arthritis.

Randall also agrees to stop representing that the product is beneficial in the treatment of rheumatic or rheumatic conditions.

No. 01915. H. T. Roberts, Freuchburg, Ky., trading as H. T. Roberts & Co., in the sale of books and printed matter, agrees to stop advertising that prospective agents are paid for distributing circulars or that remuneration is other than commissions on goods sold through the circulars they distribute. Roberts also stipulates that he will stop representing that the study of his books will enable one to make $10 a week selling snapshots that his book bears the title "Become A Successful Agent", will tell one how to earn $100 a week, and that his book "How To Get Yourself A Better Job", gives its readers a strange power or enables them to immediately obtain good jobs after months of failure.

No. 01916. Warner’s Safe Remedies Company, 82 St. Paul St., Rochester, N. Y., in the sale of Warner’s Digestive Tablets and Warner’s Compound, agrees to cease advertising that the compound is the best known product of its kind, and is made of natural herbs, and will clean out all body poisons and stimulate the liver. Warner’s Digestive Tablets are not to be represented as being capable of relieving stomach troubles unless such ailments are specified in direct connection with the advertisement of the tablets and the representation so qualified as to indicate that the tablets will be a relief only when the conditions are due to gastric hyper-acidity. The respondent agrees to stop using the word “digestive” in part of its trade name, and that the company is not employing the word “laboratories” in its advertising unless it shall own, control or operate such places.

No. 0280. Delight Sweets, Inc., 50 East 11th St., New York, will discontinue using on containers of its novelty products any false, fictitious or misleading price in excess of the price at which such merchandise is sold or intended to be sold in the usual course of retail trade and will cease the use of any purported price marking, the effect of which is to convey to purchasers an erroneous belief with respect to the quality or value of the products. Branding the containers with the words "Made in Paris or Shanghai" so as to imply that such products are made in Paris or Shanghai, or that the company has offices in those cities, when such are not the facts, will be discontinued. The company also will stop using the words "Manufacturers" or "Manufactured By" on packages of candy so as to imply that it manufactures the candy or owns or operates the factories in which the products are made, when this is not a fact.
it will cease using the word "maple" either independently or in connection with the other as descriptive of the respondent's product. "An 100% Maple Product", either independently or in connection with other words so as to imply that its product will kill germs, and to cease using the word "germicidal" alone or in connection with other words so as to imply that the garments are made entirely of camel's hair, when such is not a fact. The stipulation provides that if a radio has and is described as having the performance of a designated number of tubes other than the number actually contained in the set, then the actual number of tubes shall be clearly set forth and immediately precede with equal conspicuousness the designated number of tubes whose performance is properly and truthfully labeled and represented, as for example, "4 tubes—5-tube performance".

The complaint charged the respondent corporation with certain unfair representations in connection with the sale of shoes. No. 2303. The Commission has also closed its case against Sheffield Cheese Company, Inc., Syracuse, N. Y., which was charged with price discrimination in connection with the sale of cheese, in violation of Section 2 (a) of the Clayton Act as amended by the Robinson-Patman Act.

The case was closed without prejudice to the right of the Commission, should the facts so warrant, to reopen it and resume prosecution of the complaint in accordance with its regular procedure.

In closing the case, the Commission, in a memorandum opinion, says that during the period of a supplemental investigation, conducted after issuance of the complaint, it appeared that in the sale of packaged cheese by Sheffield Cheese Company "there was in fact no discrimination between two classes of customers in connection with the sale of this class of products. In addition, it is to be noted that this respondent alleges in its answer that the differing discounts appearing in its price schedule were made to meet those of competitors or the services and facilities furnished by competitors, and the information in the hands of the Commission does not controvert this allegation."

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, November 15:

Monday, November 15:

HEARING BEFORE AN EXAMINER

(Broadcast)

NEW—Platt & Platt, Inc., Poughkeepsie, N. Y.—C. P., 1000 kc., 1 KW, limited time to local sunset WHO.

Tuesday, November 16

FURTHER HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Thomas J. Watson, Endicott, N. Y.—C. P., 1240 kc., 1 KW, unlimited time.
NEW—The Hampden-Hampshire Corp., Holyoke, Mass.—C. P., 1240 kc., 500 watts night, 1 KW LS, unlimited.

Wednesday, November 17

HEARING BEFORE AN EXAMINER
(Broadcast)

KSD—The Pulitzer Publishing Co., St. Louis, Mo.—Renewal of license, 550 kc., 1 KW, 5 KW LS, share KFUO.

Friday, November 19

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Charles F. Engle, Natchez, Miss.—C. P., 1210 kc., 100 watts night, 250 watts LS, unlimited.

APPLICATIONS GRANTED

WCBS—WCBS, Inc., Springfield, Ill.—Granted license to cover C. P., 1160 kc., 100 watts night, 250 days day, unlimited.
WDGY—Dr. Geo. W. Young, Minneapolis, Minn.—Granted modification of C. P. to make changes in type of equipment.
KLBM—Harold M. Finlay and Mrs. Eloise Finlay, La Grande, Ore.—Granted modification of C. P. approving transmitter site, studio site, type of antenna and authority to make changes in authorized equipment.
WSNJ—Eastern States Broadcasting Corp., Bridgeport, N. J.—Granted authority to determine operating power by direct measurement of antenna input.
KHBG—Okmulgee Broadcasting Corp., Okmulgee, Okla.—Granted license to cover C. P. as modified, 1210 kc., 100 watts, daytime only.
WGAR—The WGAR Broadcasting Co., Cleveland, Ohio.—Granted license to cover C. P., 1450 kc., 500 watts night, 1 KW day, unlimited time, antenna current night 2.0 amperes, day 2.84 amperes.
WGRM—P. K. Ewing, Granada, Miss.—Granted modification of C. P. and modifications thereof, extending completion date to 11-15-37.
WOC—Mississippi Broadcasting Co., Inc., Meridian, Miss.—Granted modification of C. P. extending completion date from 11-10-37 to 1-10-38.
KCJI—Chas. C. Robinson, Jerome, Ariz.—Granted license to cover C. P., 1310 kc., 100 watts night, 250 days day, unlimited time.
WLA—Hildreth & Rogers Company, Lawrence, Mass.—Granted modification of C. P. approving transmitter and studio sites at 278 Essex St. and installation of vertical radiator.
KARM—George Harm, Fresno, Calif.—Granted modification of C. P. for installation of new equipment and changes in proposed vertical radiator.
WCAT—South Dakota State School of Mines, Rapid City, S. Dak.—Granted modification of license to change hours of operation from 1:30 to 2:30 p. m. CST, to 12 to 2 p. m. CST.
WJDX—Lamar Life Ins. Co., Jackson, Miss.—Granted license to cover C. P. and modifications thereof, 810 kc., 1 KW, daytime to local sunset at WCCO, Minneapolis, using directional antenna.
WLAN—Portland Broadcasting System, Inc., Portland, Ore.—Granted license to cover C. P. and modifications thereof, 1270 kc., 1 KW night, 5 KW day, unlimited time.
KA—Albert Lea Broadcasting Co., Albert Lea, Minn.—Granted license to cover C. P., 1120 kc., 250 watts, daytime only.
WNVC—City of New York, Department of Plant and Structures, New York City.—Granted license to cover C. P. and modifications thereof, 910 kc., 1 KW, daytime to local sunset at WCCO, Minneapolis, using directional antenna.
WGAN—Portland Broadcasting System, Inc., Portland, Ore.—Granted modification of C. P. to extend commencement date to 11-22-37 and completion date to 5-22-38.
KFOQ—Boone Biblical College, Boone, Iowa.—Granted C. P. to install new composite equipment.

KNOW—KUT Broadcasting Co., Austin, Tex.—Granted C. P. to install new equipment, make changes in vertical radiator, and increase day power from 100 watts to 250 watts.

NEW—WDCR, Inc., Mobile (area of Hartford, Conn.).—Granted C. P. for new relay station, frequencies 39700, 39900, 40800 and 41400 kc., 15 watts.

W8XIO—The WQAR Broadcasting Co., Mobile (Cleveland, Ohio).—Granted license to cover C. P. for relay broadcast station on an experimental basis, frequencies 31100, 34600, 37600, 40600 kc., unlimited, in accordance with Rules 983, 1004; 100 watts.

W9XRM—Arthur Malcolm McGregor and Dorothy Charlotte McGregor, Mobile (Bloomington, Ill.).—Granted license to cover C. P. for relay broadcast station, frequencies 31100, 34600, 37600, 40600 kc., 2 watts. Also granted license covering same.

NEW—Mason City Globe-Gazette Co., Mobile (area of Mason City, Iowa).—Granted C. P. for relay station, frequencies 1622, 2038, 2150 and 2790 kc., 125 watts.

NEW—Mason City Globe-Gazette Co., Mobile (area of Mason City, Iowa).—Granted C. P. for new relay station, frequencies 31100, 34600, 37600 and 40600 kc., 10 watts. Also granted license covering same.

NEW—Fisher’s Blend Station, Inc., Mobile (area of Seattle).—Granted C. P. for new relay station, frequencies 39700, 39900, 40800 and 41400 kc., 17 watts. Also granted license covering same.

W6XK—Radio Service Corp. of Utah, Mobile (Salt Lake City).—Granted reinstatement of C. P. for new relay station, frequencies 39700, 39900, 40900 and 41400 kc., 17 watts.

W6XBL—Radio Service Corp. of Utah, Mobile (Salt Lake City).—Granted reinstatement of C. P. for new relay station, frequencies 39700, 39900, 40900 and 41400 kc., 2 watts. Also granted license covering same.

W6XUO—Radio Station KFH Co., Mobile (Wichita, Kans.).—Granted license to cover C. P. for new relay broadcast station, frequencies 38900, 39100, 38500, and 35600 kc., 2 watts.

W6XV—Central States Broadcasting Co., Omaha, Nebr.—Granted modification of C. P. authorizing changes in equipment specified in original C. P.

W3XP—Farnsworth Television, Inc., of Pennsylvania, Springfield, Pa.—Granted modification of C. P. extending completion date to 1-5-38.

W2XJI—Bamberger Broadcasting Service, Inc., New York City.—Granted modification of C. P. extending commencement date to 11-1-37 and completion date to 7-1-38.

W1XER—The Yankee Network, Inc., Quincy, Mass.—Granted C. P. for move of transmitter on summit of Mt. Washington, N. H.

W3XIS—WLBG, Inc., Mobile (Richmond, Va.).—Granted license to cover C. P. for new relay broadcast station, frequencies 38900, 39100, 39500, and 40000 kc., 50 watts.

W9XRT—Gazette Printing Co., Mobile (Janesville, Wis.).—Granted license to cover C. P. for new relay station, frequencies 31100, 34600, 37600, and 40600 kc., 2 watts.

W9XXL—Ashland Broadcasting Co., Mobile (Ashland, Ky.).—Granted license to cover C. P. for new relay broadcast station, frequencies 31100, 34600, 37600, and 40600 kc., 10 watts.

SET FOR HEARING

NEW—Y. W. Scarborough and J. W. Orvin, Charleston, S. C.—Amended C. P. for new station, 1210 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined.

NEW—Amarillo Broadcasting Corp., Amarillo, Tex.—C. P. for new station to operate on 1500 kc., 100 watts, unlimited time, exact transmitter site to be determined with Commission’s approval.

WKEU—Radio Station WKEU, Griffin, Ga.—C. P. requesting authority to move station from Griffin to Macon, Ga., a distance of 50 miles; make changes in composite equipment; install vertical radiator; change frequency from 1500 kc. to 1310 kc.; and increase power and time of operation from 100 watts daytime only to 100 watts night, 250 watts day, unlimited.

NEW—Fred B. Fitch, tr/ as Thumb Broadcasting Co., Sandusky, Mich.—C. P. for new station to operate on 950 kc., 500 watts night, 1 KW day, unlimited.

NEW—Mountaineer Top-Trans Radio Corp., Denver, Colo.—C. P. for new station to operate on 1370 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined with Commission’s approval.

KOMA—Heard Radio, Inc., Oklahoma City, Okla.—C. P. to install new equipment and vertical radiator, and increase power from 5 KW to 10 KW; 1480 kc., unlimited time.

WKBW—Buffalo Broadcasting Corp., Buffalo, N. Y.—C. P. to make changes in equipment; increase power from 5 KW to 10 KW; 1480 kc., 5 KW, unlimited (present licensed transmitter of WGR to be used as main transmitter of WKBW).

WGR—Buffalo Broadcasting Corp., Buffalo, N. Y.—C. P. for changes in equipment.

WISN—Heard Radio, Inc., Milwaukee, Wis.—Modification of license to increase night-time power from 250 watts to 1 KW; 1120 kc., 1 KW, unlimited day.

WAPI—Alabama Polytechnic Institute, University of Alabama and Alabama College (Board of Control of WAPI), Birmingham, Ala.—Voluntary assignment of license from Alabama Polytechnic Institute, University of Alabama and Alabama College (Board of Control of Station WAPI), to: Voice of Alabama, Inc.

WOOD—King-Trendle Broadcasting Co., Grand Rapids, Mich.—Granted application to withdraw application for C. P. to use 1010 kc., 250 watts, unlimited time, without prejudice. This application is scheduled to be heard December 6, 1937.

KANS—KANS Broadcasting Co., Wichita, Kans.—Denied petition to withdraw without prejudice application for consent to transfer control of corporation to Charles C. Theis to Herbert Hollister and Don Searle. This case was scheduled for hearing on December 14, 1937.

WSAY—Brown Radio Service & Laboratory, Rochester, N. Y.—Denied petition of applicant to reconsider the Division's action of January 19, 1937, in designating for hearing application for authority to make changes in equipment and increase power to 100 watts night, 250 watts day, and operate without time limitation, and grant same without a hearing.

WSCC—Cornell University, Ithaca, N. Y.—Denied petition to continue hearing for a period of 60 days, new date to be fixed by Dockets, on application for modification of license to use 850 kc., 1 KW, specified hours.

NEW—Richland Broadcasting Co., Mansfield, Ohio.—Dismissed petition to withdraw application for C. P. for new station. On October 12, 1937, the Commission denied this application as in cases of default for failure to file an appearance.

APPLICATIONS RETIRED TO CLOSED FILES

WXXA—Chicago Federation of Labor, Chicago, Ill.—Retired to closed file application for C. P. requesting authority to modify C. P. (granted 7-17-35) to increase power from 5 to 20 kw and make changes in equipment to an International Broadcast station, and applicant has not made application for license to cover this authority.

National Broadcasting Co., Inc., New York City.—Under date of May 11, 1937, the NBC filed with the Commission C. P.'s and applications for licenses to cover C. P.'s for two new relay broadcast stations contingent upon deletion of the existing experimental relay stations W10XCR and W10XS. The C. P.'s and licenses were granted September 28, 1937, the licenses to expire October 1, 1937. Inasmuch as applicant has now complied with Rule 131, the licenses may be issued, in accordance with action of September 14, 1937.

WJOD—JOD Broadcasting Co., Buffalo, N. Y.—On September 29, 1936, the Commission granted WJOD, Inc., modified licenses authorizing stations W8XX and W8XY to operate as relay broadcast experimental stations, the licenses to expire December 1, 1937. Inasmuch as W8XX and W8XY have not submitted an application for renewal of these licenses, as stated in their letter of September 28, 1937, the license is retired to the closed file and call letters W8XX and W8XY deleted.

S. H. Patterson.—On September 29, 1936, the Commission granted S. H. Patterson a modified license authorizing station KIKK to operate as a relay broadcast station, the license to expire October 1, 1937. Inasmuch as S. H. Patterson is no longer the licensee of a regular broadcast station, the license for relay station KICK is retired to closed files and call letters deleted.

WEBR, Inc., Buffalo, N. Y.—On September 29, 1936, the Commission granted WEBR, Inc., modified licenses authorizing stations W8XX and W8XY to operate as relay broadcast experimental stations, the licenses to expire December 1, 1937. Inasmuch as WEBR, Inc., has no intention of applying for renewal of these licenses, as stated in their letter of September 28, 1937, the relay licenses are retired to the closed files and call letters W8XX and W8XY deleted.

MISCELLANEOUS
NEW—Charles F. Engle, Natchez, Miss.—Granted petition for leave to withdraw without prejudice application for new station to use 1210 kc., 100 watts, 250 watts LS, which is scheduled to be heard November 15, 1937.

WBNX—WBNX Broadcasting Co., Inc., New York City.—Denied petition of applicant to reconsider and grant without hearing application to move transmitter locally, install new equipment and directional antenna for both day and night, increase day power from 1 to 5 KW. This application is scheduled for hearing on December 10, 1937.

NEW—Church of Jesus Christ of Latter-Day Saints, Salt Lake City, Utah.—Granted petition of applicant to retain hearing date, now scheduled for November 23, on application for C. P. to establish a new international broadcast station using frequencies 6020, 9310 and 11710 kc., 50 KW. Applicant submitted amendment to his application requesting additional frequencies 15170 and 23675 kc.

NEW—Radio Enterprises, Inc., Luften, Tex.—Denied petition of applicant for the following: (1) that its application for C. P. for new station in Luften to use 1310 kc., 100 watts, daytime hours, be designated for hearing; and (2) that the effective date of decision upon the applications involved in Docket Nos. 4162 and 4312 be postponed.

WNBC—State Broadcasting Corp., New Britain, Conn.— Changed effective date in re Ex. Rept. 1-350 from November 16 to November 12.

EXAMINERS’ REPORTS RELEASED SINCE OCTOBER 12, 1937

NEW—Ex. Rep. 1-502: Great Lakes Broadcasting Corp., Cleveland, Ohio.—Examined Tyler Berry recommended denial of C. P. for new station to operate on 1270 kc., 1 KW, 5 KW LS, unlimited.

KRE—Ex. Rep. 1-507: Central California Broadcasters, Inc., Berkeley, Calif.—Examined Melvin H. Dalberg recommended grant of C. P. to operate from 1370 kc. to 1440 kc. power from 100 watts, 250 watts LS, to 500 watts, 1 KW LS, contingent upon the granting of the application of KGCC for a change in frequency from 1420 kc. to 1370 kc., and a denial of the application of Chase S. Osborne, Jr., for new station at Fresno, Calif., on 1440 kc.

NEW—Ex. Rep. 1-508: George H. Evans and Davis G. Vandivier, d/b as the Chickasha Daily Express, Chickasha, Okla.—Examined Tyler Berry recommended dismissal with prejudice of application for C. P. for new station to operate on 1500 kc., 250 watts, daytime.

Second Zone

WHAS—The Louisville Times Co., Louisville, Ky.—Modification of construction permit (B2-P-1126) as modified to extend completion date from 12-5-37 to 1-5-38.

NEW—Pontiac Broadcasting Co., Pontiac, Mich.—Construction permit for a new station to be operated on 1100 kc., 1 KW power, daytime operation.

WTOL—Community Broadcasting Co., Toledo, Ohio.—Modification of construction permit (B2-P-151) for new station, requesting approval of studio and transmitter sites at 709 Madison Ave., Toledo, Ohio, and approval of vertical antenna, install new transmitter.

WBER—Louis G. Baltimore, Wilkes-Barre, Pa.—License to cover construction permit (B2-P-1708) for move of transmitter and install vertical antenna.

NEW—King-Trendle Broadcasting Corp., Pontiac, Mich.—Construction permit for a new station on 1440 kc., 250 watts power, unlimited time, using directional antenna day and night.

WIXGS—Keystone Broadcasting Corporation, Mobile, Harrisburg, Pa.—Construction permit for a high frequency relay station on 31100, 34600, 37600, 40600 kc, 50 watts power.

W3XGT—Keystone Broadcasting Corporation, Mobile, Harrisburg, Pa.—Construction permit for a new high frequency relay station on 1622, 2058, 2150, 2790 kc, 100 watts power.

NEW—The WGAR Broadcasting Co., Cuyahoga Heights, Ohio.—Construction permit for a new relay broadcast station on 1622, 2058, 2150, 2790 kc, 100 watts power.

NEW—The WGAR Broadcasting Co., Mobile (Cleveland, Ohio).—Construction permit for a new relay broadcast station on 1622, 2058, 2150, 2790 kc, 100 watts power.

NEW—The WGAR Broadcasting Co., Mobile (Cleveland, Ohio).—License to cover construction permit (B2-PRY-72) above.

NEW—The WGAR Broadcasting Co., Cuyahoga Heights, Ohio.—License to cover construction permit (B2-PHY-73) for new relay station.

WBNT—WBNS, Inc., Mobile (Columbus, Ohio).—License to cover construction permit (B2-PRY-27) for low frequency relay station.

W3XIS—WLBG, Inc., Mobile (Richmond, Va.).—License to cover construction permit (B2-PRE-120) for new high frequency relay station.

Third Zone

NEW—W. A. Barnette, Greenwood, S. C.—Construction permit 610 to erect a new broadcast station to be operated on 610 kc., 250 watts, daytime operation.

WSM—The National Life & Accident Insurance Co., Inc., Nashville, Tenn.—Grant experimental authorization to operate a facsimile station from 12 midnight to 6 a. m., CST, for period ending 2-1-38.

WDAE—Tampa Times Co., Tampa, Fla.—Modification of license 780 to change frequency from 1250 kc. to 780 kc., install directional antenna from day and night.

WSPA—Virgil V. Evans, tr/As Voice of South Carolina, Spartanburg, S. C.—Construction permit to install a new transmitter.

KRLD—KRLD Radio Corporation, Dallas, Tex.—Construction permit 1040 to permit to install new transmitter.

WBN0—The Coliseum Place Baptist Church, New Orleans, La.—Modification of construction permit (B3-P-1622) for new transmitter and antenna and move transmitter and studio, further requesting move of transmitter from Broad and Thalia, New Orleans, La., to Euphrosine and S. White St., Mobile, Ala.

NEW—S. B. Quigley, Mobile, Ala.—Construction permit for a 1200 new station to be operated on 1200 kc., 100 watts, daytime.

KPAR—Port Arthur College, Port Arthur, Tex.—Construction permit 1500 to make changes in transmitter; install directional antenna for night use; change frequency from 1250 kc. to 1220 kc., increase power from 500 watts to 1 KW; change hours of operation from day to unlimited. Amended: Change requested frequency from 1230 kc. to 1350 kc., and move transmitter 1/10 mile.

WTSC—Savannah Broadcasting Co., Inc., Savannah, Ga.—Modification of construction permit (B3-P-1764) for extension of commencement and completion dates from 10-18-37 and 4-18-38 to 4-18-38 and 10-18-38, respectively.

WJDX—Lamar Life Insurance Co., Jackson, Miss.—License to cover construction permit (B3-P-1854) as modified for changes in equipment and increase in power.
WSMB—WSMB, Inc., New Orleans, La.—Modification of construction permit (B3-P-1494) to move transmitter from Algiers Naval Station to Behrman Highway, New Orleans, La.

NEW—F. C. Todd, Gastonia, N. C.—Construction permit for a 1420 new station to be operated on 1420 kc., 100 watts daytime.

WHBE—Selma Broadcasting Co., Inc., Selma, Ala.—Authority to transfer control of corporation from C. W. Covington, Jr., J. C. Hughes, and J. S. Allen, to H. A. Shuman, 60 shares common stock, and to S. A. Cisler, 60 shares common stock.

WKAT—A. Frank Katzentine, Miami Beach, Fla.—Authority to determine operating power by direct measurement of antenna power.

WKAT—A. Frank Katzentine, Miami Beach, Fla.—License to cover construction permit (B3-P-1198) as modified for new station.

NEW—Fountain of Youth Properties, Inc., Mobile (area St. Augustine, Fla.).—Construction permit for new relay broadcast station on 39700, 39900, 40800, 39100 kc., 10 watts.

WAXH—Savannah Broadcasting Co., Inc., Mobile (Savannah, Ga.).—Construction permit for new relay broadcast station on 38900, 39100, 39300, 39500 kc., 10 watts.

WKAT—A. Frank Katzentine, Miami Beach, Fla.—License to cover above construction permit above (B4-PRE-166).

NEW—Topeka Broadcasting Association, Inc., Mobile.—Construction permit to erect new relay broadcast station on 38700, 39900, 40800, 41100 kc., 2 watts power.

NEW—Topeka Broadcasting Association, Inc., Mobile.—License to cover above construction permit (B4-PRE-161).

W9XRT—Gazette Printing Co., Mobile (Janesville, Wis.).—License to cover construction permit (B4-PRE-96) for relay broadcast station.

W9XPT—Woodmen of the World Life Insurance Association, Omaha, Nebr. (Mobile).—Modification of license to change name to Woodmen of the World Life Insurance Society.

W9XSB—South Bend Tribune, Mobile, South Bend, Ind.—Construction permit to make equipment changes and increase power from 1 watt to 3.5 watts.

W9XSB—South Bend Tribune, South Bend, Ind.—License to cover above construction permit (B4-PRE-66) for low frequency station.

Fourth Zone

KSD—The Pulitzer Publishing Co., St. Louis, Mo.—Special experimental authorization to operate a facsimile station from 1 a.m. to 6 a.m. using 1 KW power, period from 12-1-27 to 3-1-28.

WTMJ—The Journal Co. (Milwaukee Journal), Milwaukee, Wis. 620.—Authority to determine operating power by direct measurement of antenna power.

WLS—Agricultural Broadcasting Co., Chicago, Ill.—Construction permit to erect a new relay broadcast station on 31100, 34600, 37600, 40600 kc., 10 watts.

WTAD—Illinois Broadcasting Corp., Quincy, Ill.—Modification of license to change name to Woodmen of the World Life Insurance Society.

W9XRT—Gazette Printing Co., Mobile (Janesville, Wis.).—License to cover construction permit (B4-PRE-96) for relay broadcast station.

W9XPT—Woodmen of the World Life Insurance Association, Omaha, Nebr. (Mobile).—Modification of license to change name to Woodmen of the World Life Insurance Society.

W9XSB—South Bend Tribune, Mobile, South Bend, Ind.—Construction permit to make equipment changes and increase power from 1 watt to 3.5 watts.

W9XSB—South Bend Tribune, South Bend, Ind.—License to cover above construction permit (B4-PRE-164).

KAID—Woodmen of the World Life Insurance Association, Omaha, Nebr. (Mobile).—Modification of license to change name to Woodmen of the World Life Insurance Society.

W9XSB—South Bend Tribune, Mobile, South Bend, Ind.—Construction permit to make equipment changes and increase power from 1 watt to 3.5 watts.

W9XSB—South Bend Tribune, South Bend, Ind.—License to cover above construction permit (B4-PRE-66) for low frequency station.

Fifth Zone

KGEK—Elmer G. Beehler, Sterling, Colo.—Modification of license to change specified hours by adding Saturday hours from 1:30 p.m. to 2:30 p.m.

NEW—Michael J. Mingo, Tacoma, Wash.—Construction permit for a new station on 1400 kc., 250 watts daytime operation.

KGCC—Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Modification of construction permit (B5-P-8725) to install new antenna and move transmitter locally, further requesting authority to make changes in equipment, increase power from 100 watts to 100 watts night, 250 watts day, extend commencement and completion dates 60 and 180 days respectively.

KAXA—Earle C. Anthony, Inc., Mobile, Los Angeles, Calif.—License to cover construction permit (B5-PRE-4) for new relay broadcast station.

Puerto Rican Zone

WNEL—Juan Piza, San Juan, P. R.—Construction permit to make changes in antenna and change frequency from 1290 kc. to 590 kc. Amended to install directional antenna for day and night use; move transmitter locally, San Juan, P. R. (no street address).

NEW—Juan Piza, San Juan, P. R.—Construction permit for new experimental broadcast station on 1757.3, 6425, 8655 kc., 100 watts, unlimited time.
McNINCH EXPLAINS NEW PROCEDURE

"From various sources," stated Frank R. McNinch, Chairman of the Federal Communications Commission, at a recent press conference, "I gather the impression that over a period of years there has grown up, like Topsy, the practice of making suggestions, requests or recommendations to members of the Commission or its staff as to matters pending by those not of record as parties in interest; and also by parties in interest, or their attorneys, after the record in a case has been closed but before action by the Commission. This has been the basis for a part of the criticism as to political or outside influence aimed at the Commission, and I think it should be said in all fairness that, whatever may have been the responsibility of the Commission and staff in this respect, such responsibility also rests in part on any who may have made such suggestions to or requests of any Commissioner or staff member.

"The Communications Commission is an independent Commission created by the Congress, to which has been delegated important and far-reaching powers, administrative, legislative and quasi-judicial. For anyone to make a request of or suggestion to a Commissioner or staff member touching any pending quasi-judicial matter, or for anyone to respond to any such request which is not a part of the public record in the case does violence to the true conception of how an independent Commission should exercise its quasi-judicial function. This observation is not applicable to purely administrative matters nor does it have reference to inquiries which have to do with the status of a particular case, the reasons for the delay in handling, if there has been delay, as to whether a particular matter will be set down for hearing and the probable or fixed date of such hearing and similar inquiries. Such inquiries are not only proper but are welcomed by the Commission and will receive prompt attention. The answer to such questions can be made promptly and accurately by the Secretary to the Commission.

"These candid statements are prompted not only by the conception of my associate Commissioners and myself as to the way in which the Commission should discharge the important powers and duties committed to it by the Congress, but also because the Congress created the Communications Commission as an independent agency with quasi-judicial powers and the Commission is directly responsible to the Congress for the fidelity with which it discharges these delegated duties.

"To all who desire that the Commission conduct its affairs in a manner that will best serve the interests of the public and reflect credit upon the Commission and Congress, frank appeal is made for support of the Commission in carrying out the purposes to be effected by the Orders hereinafter referred to.

"At the Commission meeting on November 10 I presented to the Commission," stated Chairman McNinch, "Orders Nos. 25 and 26. These Orders were adopted by unanimous vote, Commissioner T. A. M. Craven being absent on account of his official duties in connection with the Inter-American Radio Conference at Havana. However, I consulted Commissioner Craven relative to the substance of these Orders and had his approval.

"The Secretary is directed by Order No. 25 to make a record of all communications received by the Commission relating to the merits of any application pending, requesting the granting, renewal, modification, transfer or revocation of any license, construction permit, certificate of convenience and necessity, or rate schedule. The Secretary shall, when the date of hearing has been fixed, if any such matter is set down for hearing, notify all such persons to the end that they may have opportunity to appear and give evidence at such hearing. The Order provides that, in the case of communications signed by more than one person, which includes petitions, such notice shall be sent to the person first signing such communication unless the communication itself may request or direct that notice be sent to some other person therein designated.

"Order No. 25 further provides that no such communication will be considered by the Commission in determining the merits of any matter unless it may be and is introduced in evidence at the hearing under applicable rules of evidence. A further provision is to the effect that, while
such informal communications may not be received as evidence except as above indicated, these communications will be considered by the Commission, if circumstances warrant, in deciding whether a particular matter shall be set down for hearing, where in the absence of such communication no hearing would be required. The reason for the statement in Order No. 25, that informal communications, such as letters, cannot be introduced as evidence at a hearing is obvious, as all parties to a matter being heard are entitled to examine or cross-examine witnesses either at the hearing or by deposition.

"The Secretary is directed by Order No. 26 to forward once each week to all members of the Senate and of the House of Representatives, as well as to the Governor of each State and to the State Regulatory or Public Utilities Commission, a statement as to all orders issued, all applications filed for the issuance, renewal, transfer, modification, or revocation of a license, construction permit, certificate of convenience and necessity, or rate schedule; except that, due to frequent necessity for immediate action thereon, such notice shall not be given as to applications for an operator's, amateur, itinerant aircraft, or ship license or permit, or modification or renewal thereof, nor of applications for temporary privileges such as special broadcasts, etc., nor of applications for emergency services.

"Such notice shall request persons so notified to advise the Commission whether they desire to appear either in person or by accredited representative at a hearing on any application referred to in the notice, if the matter is set down for hearing, and inform the Commission as to any public interest involved in said application.

"One of the purposes of Orders Nos. 25 and 26 is to provide the necessary procedure for keeping all public officials currently advised as to all matters of public interest pending before the Commission as well as of action taken on such matters through appropriate orders. Through these notices public officials, charged with the duty of representing their constituents and the interests of the public generally, may have prompt and timely notice of matters coming before the Commission with full opportunity to appear in person or by their representative at hearings, where such hearings are to be held, and give the Commission the benefit of their testimony. This would aid the Commission in reaching determinations which would serve the 'public interest, convenience or necessity.'

"I draw attention to what the Commission regards as one of the most important provisions of Order No. 25, which is to the effect that no person shall be precluded from giving relevant, material and competent testimony at any hearing because he may lack a sufficient interest to justify his formal intervention as a party in a particular matter. The Commission represents the public and is a forum before which the public should have the right to appear at hearings and present testimony under the rules of evidence. It will, of course, be proper and necessary that hearsay testimony be excluded and that testimony offered be relevant, material and competent, but within these well recognized limitations the Commission will welcome testimony, whether by public officials or by private citizens."

FEDERAL COMMUNICATIONS COMMISSION

Washington, D. C.

ORDER NO. 25

The Secretary is hereby directed to make a record of all communications received by the Commission relating to the merits of any application pending before the Commission requesting the granting, renewal, modification or revocation of any license or construction permit, certificate of convenience and necessity or rate schedule. Such record shall show the name and address of the person making the statement and the substance of such statement. When the date of hearing has been set, if the matter is designated for hearing, the Secretary shall notify all persons shown by the records to have communicated with the Commission regarding the merits of such matter in order that such persons will have an opportunity to appear and give evidence at such hearing, provided, that in the case of communications bearing more than one signature notice shall be given to the person first signing unless the communication clearly indicates that such notice should be sent to some one other than such person.

No such person shall be precluded from giving any relevant material and competent testimony at such hearing because he lacks a sufficient interest to justify his intervention as a party in the matter.

No such communication will be considered by the Commission in determining the merits of any such matter nor shall any such communication be considered by any examiner unless it has been introduced into evidence at the hearing and appears as a part of the record. The admissibility of any such communication or the Secretary's record of any such communication shall be governed by the applicable rules of evidence and no such communication shall be admissible on the basis of a stipulation unless Commission's counsel as well as counsel for all of the parties shall join in such stipulation.

Such communications, however, may be considered by the Commission if circumstances warrant in deciding whether or not a matter shall be set down for hearing in cases where in the absence of such communication no hearing would be required by the Commission.
The Secretary is hereby directed to prepare each week a report listing all applications for hearing, the setting of a date for a hearing on any such application, the granting or denial of petitions for intervention, continuance, etc., as well as final action on any of such applications by the Commission. It shall not be necessary for the Secretary to include in such report any information with respect to either the filing of or action upon applications for operator’s, amateur, itinerant aircraft, or ship licenses or permits, or the modification or renewal thereof, nor of applications for temporary privileges such as special broadcasts, etc., nor of applications for emergency services.

The Secretary is also directed to mail a copy of such report to all Senators, members of and delegates to the House of Representatives and Governors of the several States, as well as the utility commissions of such states. The Secretary shall include with such report a request that all such persons advise the Commission whether they desire to appear either in person or by accredited representative at a hearing on any application listed in said report as having been filed with the Commission, when and if such matter shall be set down for hearing, in order that they may inform the Commission as to any public interest involved in the matter.

The Secretary is also directed to request such persons to advise any state or municipal officials charged with the duty of protecting the public interest likely to be affected by the granting or denial of any such application that such an application has been filed and that such public official should advise the Commission if he desires to appear either in person or by accredited representative at a hearing on such application when and if the matter is set down for hearing.

CONGRESS AND RADIO LEGISLATION

The second session of the Seventy-Fifth Congress convening here on Monday of this week has a number of radio bills and resolutions pending in both the House and the Senate. The status of these bills is exactly as it was when Congress adjourned. Details of the pending measures will be found in Volume 5, No. 36 of NAB Reports.
able conflict as to the time set for arguments on matters now pending, in which event the Commission will advise parties in interest at the earliest possible date as to any change in dates for arguments. Hence, in the absence of notice to the contrary, parties in interest should be prepared to make oral arguments on their respective matters on the November dates now set.

"It is probable, though this has not been definitely determined, that where oral argument has been made before either of the Divisions in a matter on which final decision has not been made, parties in interest will be offered opportunity to argue such matter before the full Commission. However, if such parties should avail themselves of the opportunity for re-argument, it may unavoidably delay decisions in these matters as dates for re-arguments would necessarily have to be reconciled with the dates for oral arguments now set."

FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C.
ORDER NO. 23

At a meeting of the Federal Communications Commission held at the offices of the Commission in Washington, D. C., on the 10th day of November, 1937;

The Commission having under consideration, the effect of Commission Order No. 20, abolishing the Divisions of the Commission;

IT IS ORDERED, That all orders, determinations, rules, regulations, permits, contracts, licenses, and privileges which have been issued, made, or granted by a Division, shall, consistent with the terms thereof, continue in effect except as or until modified, terminated, superseded, or repealed by the Commission or by operation of law.

Except as provided by Commission Order No. 21, any proceeding, hearing, or investigation commenced or pending before any Division or a Director of a Division shall be continued by the Commission as if originally commenced before it.

This order shall be effective at midnight, November 15, 1937, and shall continue in effect until rescinded or modified by subsequent order of the Commission.

BY THE COMMISSION
T. J. Slowie,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C.
ORDER NO. 24

At a meeting of the Federal Communications Commission held at the offices of the Commission in Washington, D. C., on the 10th day of November, 1937;

The Commission having under consideration certain amendments to the Rules and Regulations made necessary by Commission Order No. 20,

IT IS ORDERED, that the Rules and Regulations, Part I, Practice and Procedure be and the same are hereby amended as follows:

Rule 100.2. This rule is deleted.

Rule 106.6. This rule is amended to read as follows:

Rule 106.6. The Commission, a Commissioner, or an examiner, when designated to preside at a hearing, may, upon its or his own motion or the motion of any party and for good cause shown, after opening any hearing pursuant to notice, temporarily postpone the hour or date or change the place thereof, when in its or his judgment the ends of justice will be better served.

Rule 106.7. This rule is amended to read as follows:

Rule 106.7. At hearings on complaints, petitions, applications or for other instruments of authorization which the Commission is empowered to make, the complainant, petitioner, or applicant as the case may be, shall open and close. At hearings on investigation and suspension proceedings under Title II of the Act, the respondent whose tariffs are under suspension shall open and close. At hearings on all other investigations, revocations, modifications, suspension of operator licenses under title III of the Act, or other proceedings instituted by the Commission, the Commission shall open and close. At hearings on protests, the protestant shall open and close. In hearings upon a consolidated record, the Commission or presiding officer shall designate the order of presentation. Interveners shall follow the party in whose behalf intervention is made, and in all cases where the intervention is not in support of either original party, the Commission or presiding officer shall designate at what stage such interveners shall be heard.

Rule 106.16. This rule is amended to read as follows:

Rule 106.16. At any stage of a hearing, the presiding Commissioner or examiner may call for further evidence upon any issue, and may require such evidence to be presented by any party to the proceeding.

Rule 106.17. This rule is amended to read as follows:

Rule 106.17. Before the close of a hearing, the presiding Commissioner or examiner may, at the request of a party or upon his own motion, require that a party furnish additional documentary evidence, supplementary to the existing record, within a stated period of time. The record of such proceeding will be held open until the expiration of such fixed time, and such additional documentary evidence will be made a part thereof.

Rule 106.18. This rule is amended to read as follows:

Rule 106.18. Subpenas requiring the attendance and testimony of witnesses, and subpenas requiring the production of any books, papers, schedules of charges, con-
tracts, agreements, and documents relating to any matter
under investigation or hearing may be signed and issued
as follows:

(1) Hearings before the Commission en banc: By any
Commissioner.

(2) Hearings before an examiner;
(a) By any Commissioner.
(b) When an examiner has been designated to hear a
case, he may sign and issue subpenas in that case.
(c) By the chief examiner or the assistant chief ex-
aminer.

No subpena shall be signed or issued in any event with¬
out recommendation thereon in advance by the law de¬
partment: Provided, however, That if a hearing is held
in the field and no representative of the law department
is in attendance, examination and recommendation by the
law department in advance shall not be required.

Rule 106.25. This rule is amended to read as follows:

Rule 106.25. No deposition shall constitute a part of
the record in any proceeding until received in evidence
at a hearing before the Commission, a Commissioner, or
Examiner, unless otherwise ordered by the Commission.

Rule 106.27. This rule is amended to read as follows:

Rule 106.27. In the event testimony is taken before
a Commissioner or an Examiner, the testimony duly tran¬
scribed shall be reported back to the Commission, to¬
gether with a written report containing recommendations
as to the decision to be made thereon, and the facts and
grounds upon which such recommendation is based.

Rule 106.29. The first paragraph of this rule is amended
to read as follows:

Rule 106.29. In the event that a case is heard before
a Commissioner or an Examiner, the Commission shall
hear oral argument upon petition of any party, and may
permit the filing of briefs. Such party shall request oral
argument at the time of the filing of exceptions, or if no
exceptions are filed, within the time allowed for the filing
of exceptions. In the event that testimony is taken before
the Commission, it may be followed by oral argument by
the parties, or by the filing of briefs, or both, in the
discretion of the Commission, and the case shall there¬
after be decided on the basis of the testimony heard and
proceedings had.

Rule 106.30. The third paragraph of this rule is
amended to read as follows:

Rule 106.30 * * *
* * *

For good cause, a Commissioner or an Examiner be¬
fore whom any hearing is being held, may, prior to the
conclusion of such hearing, on his own motion or that of
any party, add to or reduce the time hereinabove pro¬
vided for the filing of briefs.

Rule 107.1. This rule is amended to read as follows:

Rule 107.1. These rules may be suspended, revoked,
modified, amended, or supplemented, in whole or in part,
at any time, by the Commission.

These amendments shall become effective at midnight,
November 15, 1937, and shall continue in effect until
rescinded or modified by subsequent order of this Com¬
mission.

BY THE COMMISSION
T. J. SLOWIE,
Secretary.

INDICATING INSTRUMENTS AND RULE 143

The Broadcast Division of the Federal Communica¬
tions Commission last week issued the following instruc¬
tions relative to indicating instruments used by broadcast
stations in compliance with Rule 143:

Instruments indicating the plate current or plate volt¬
age of the last radio stage (linear scale instruments) shall
meet the following specifications:

1. Length of scale shall not be less than 2 3/10 inches.
2. Accuracy shall be at least two percent of the full
scale reading.
3. The maximum rating of the meter shall be such that
it does not read off scale during modulation.
4. Scale shall have at least 40 divisions.
5. Full scale reading shall not be greater than five times
the minimum normal indication.

Instruments indicating the antenna current shall meet
the following specifications:

1. Instruments having logarithmic or square law scales.
   (a) Shall meet same requirements as 1, 2 and 3
   above for linear scale instruments.
   (b) Full scale reading shall not be greater than
   three times the minimum normal indication.
   (c) No scale division above one-third full scale
   reading (in amperes) shall be greater than 1/50
   of the full scale reading. (Example: an am¬
   meter meeting requirement (a) above is accept¬
   able for indicating currents from one to five
   amperes.)

2. Radio frequency instruments having expanded scales.
   (a) Shall meet same requirements as 1, 2 and 3
   for linear scale instruments.
   (b) Full scale reading shall not be greater than five
times the minimum normal indication.
   (c) No scale division above 1/5 full scale reading
   (in amperes) shall be greater than 1/50 of the
   full scale reading. (Example: an ammeter
   meeting the requirement (a) above is accept¬
   able for indicating currents from one to five
   amperes.)
amperes provided no division between one and five amperes is greater than 1/50 of five amperes, 0.1 ampere.)

(d) Manufacturers of instruments of the expanded scale type must submit data to the Commission showing that these instruments have acceptable expanded scales, and the type number of these instruments must include suitable designation.

3. Antenna ammeters employing vacuum tube rectifiers are acceptable provided:

(a) The indicating instrument meets all the above requirements for linear scale instruments.

(b) Data are submitted under oath showing the unit has an overall accuracy of at least two percent of the full scale reading.

(c) Thermocouple type ammeter meeting above requirements 1 (a), (b) and (c) is installed at the same point in the antenna circuit as the vacuum tube ammeter.

(d) The calibration of the vacuum tube ammeter is checked against the thermocouple ammeter at least once a week (the thermocouple ammeter may be so connected that it is short-circuited or open-circuited when not actually being read).

(a) Shall meet the same requirements as for the regular instruments.

(b) Shall be connected at the same point in the circuit.

(c) The calibration shall be checked against the regular meter at least once a week (the regular meter may be so connected with a switch that it is short-circuited or open-circuited when not actually being read).

(d) All remote reading instruments, including the vacuum tube type, shall be connected to the antenna circuit through a properly designed electrostatically shielded current transformer except in case a shunt excited antenna is employed, in which case the transmission line current meter may be considered as the remote meter provided the transmission line is terminated directed into the excitation circuit feed line which shall employ series tuning only (no shunt circuits of any type shall be employed) and in so far as practicable the type and scale of the transmission linemeter should be the same as those of the excitation circuit feed line meter. Any method of providing a remote meter different from the above shall be submitted to and approved by the Commission before the indications thereof may be logged as the antenna current.

Stations determining power by the indirect method may log the transmission line current in lieu of the antenna current, provided the instrument meets the above requirements for antenna ammeters, and further provided that the ratio between the transmission line current and the antenna current is entered each time in the log. In case the station is authorized for the same operating power for both day and nighttime operation this ratio shall be checked at least once daily. Stations which are authorized to operate with nighttime power different from the daytime power shall check the ratio for each power at least once daily.

No instrument indicating the plate current or plate voltage of the least radio stage, the antenna current or the transmission line current when logged in lieu of the antenna current shall be changed or replaced without written authority of the Commission, except by instruments of the same make, type, maximum scale reading and accuracy. Requests for authority to change an instrument may be made by letter or telegram giving the manufacturer’s name, type number, serial number and full scale reading of the proposed instrument and the values of current or voltage the instrument will be employed to indicate. Requests for temporary authority to operate without an instrument or with a substitute instrument may be made by letter or telegram stating the necessity therefore and the period involved.

Since it is usually impractical to measure the actual antenna current of a shunt excited antenna system, the current measured at the input of the excitation circuit feed line is accepted as the antenna current.

OHIO BROADCASTERS ELECT

At the annual meeting of the Ohio Association of Broadcasters held in Columbus, November 12 and 13, the following officers were elected for the ensuing year: J. Harold Ryan, WSPD, Toledo, President; Warren P. Williamson, WKBN, Youngstown, Vice-President; and C. R. Thompson, WCOL, Columbus, Secretary.

NEBRASKA LAW TEMPORARILY ENJOINED

On November 13 a three judge federal court at Omaha issued a temporary injunction against the Nebraska music copyright law. A hearing on the merits will take place with 60 or 90 days.
FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3261. Alleging use of unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act, a complaint has been issued against Cornelius P. Van Schaeck, Jr., trading as The Ink Company of America, 6 North Michigan Ave., Chicago, engaged in selling sales promotion cards and coupons, fountain pen and pencil sets, Ticoa ink and Ticoa pencil leads. Van Schaeck also trades as Pioneer Advertising Company, 549 West Randolph St., Chicago.

The respondent allegedly enters into contracts with retailers who agree to purchase from him at 10 cents each so-called pen and pencil certificates which the retailer distributes to his customers when they have purchased $5 worth of merchandise. According to the complaint, when a certificate holder sends the respondent 80 cents for the purchase of a specified quantity of Ticoa ink and pencil leads, he is entitled to receive a pen and pencil set which the respondent represents to be a nationally advertised product, handmade and of excellency.

The respondent allegedly represents that The Ink Company of America is engaged in a national campaign to advertise Ticoa products, and that such campaign is conducted by the Pioneer Advertising Company, a separate organization, so as to permit merchants to distribute nationally advertised pen and pencil sets free.

No. 3262. Moretrench Corporation, Rockaway, N. J., manufacturer of wellpoints, pumps and equipment used in draining wet soil during excavation work, is charged in a complaint with certain false and misleading representations concerning the merits of its products and those of competitors.

Wellpoint equipment consists of a steel tubular header which is laid on the ground surface around the perimeter of the proposed excavation. Attached to the header and inserted into the ground below the depth to which the excavation is to be made are pieces of pipe to which wellpoints are connected. Wellpoints are made of fluted tubing around which is wrapped a copper screen which serves as a filter during the pumping operation. According to the complaint, the water-passing screen area, or filter, constitutes one of the important factors in the efficiency of the pumping equipment.

The complaint alleges that the respondent company, in catalogues, pictures five wellpoints numbered from 1 to 5, No. 1 being identified as a Moretrench product, and the other four, although designated only by number, easily are recognized by the contractee. The water-pumping equipment is accompanied by a tabulation comparing the five wellpoints and representing the respondent company's as excelling the competitors' products as to unrestrained water-passing screen area, the length of the screen, the kind of material in the screen mesh, and certain other mechanical features.

Nos. 3263-3264-3265-3266. Alleging violation of Section 2 (a) of the Clayton Act, as amended by the Robinson-Patman Act, complaints have been issued against four firms manufacturing and distributing nitrogen-fixing bacteria, which is a commodity commonly known as a commercial inoculant and is useful in promoting the growth of leguminous plants and crops. The respondents are as follows:

The complaints allege that the respondents are discriminating in price unlawfully by selling bacteria to some purchasers at prices lower than the prices at which they sell bacteria of like grade and quality to other purchasers. The complaints further charge that the respondents allow some purchasers larger discounts from the prices at which they sell bacteria than the discounts which they grant to other purchasers of bacteria of like grade and quality.

The effect of the discriminations in price, according to the complaints, may be to injure, prevent or destroy competition in the use, sale or distribution of bacteria among the favored purchasers and those who are denied the lower prices and discounts; among the purchasers of the bacteria and that of those who do not receive the benefit of the price discrimination, and among the respondents and other individuals and firms similarly competitively engaged in the sale and distribution of commercial inoculants.

Stipulations

The Commission has entered into the following stipulations:

No. 01917. Winifred Bertell, P. O. Box 375, Hollywood, Calif., trading as Hollywood Star Products, Ltd., in the sale of an obesity remedy called Reduce-Easies, agrees to stop advertising that this preparation of itself is a competent treatment for obesity and that by its use a person may attain figure control and guaranteed weight reduction, and that the preparation is amazingly new, or harmless. In the stipulation, the respondent admits that the value of Reduce-Easies is limited to its action as a laxative or cathartic, according to the dosage in which it is taken.

No. 01918. The Bump Paper Fastener Company, 1922-12th St., LaCrosse, Wis., in the sale of Bump Paper Fasteners and accessories, stipulates that it will cease asserting that an amazing invention opens a $10,000,000 market for agents of the company; that there is no competition for the company's agents; and that its sales plan should make an agent an average of $89 or more weekly. In the stipulation, reasonable records show such to be the average net return of full-time agents under normal conditions. In its stipulation, the respondent company admitted that a prospective agent cannot rightfully expect to draw business from a $10,000,000 market without competition, and that its sales persons have not made an average of $89 or more weekly.

No. 01919. Edward R. and Juliana Von Castelberg, Harbor View, South Norwalk, Conn., trading as Muryon Seed Company, and engaged in the sale of Japanese rose seeds, will discontinue advertising that Japanese rose bushes will bloom in the winter, unless in direct connection with the assertion that it is explained that such is the case only in a warm climate or when the plants are cared for in a greenhouse. The respondent partnership also agrees to cease representing that Japanese rose bushes, when three years old, will have 500 or 600 roses, or will have roses the year around. The respondents admitted that not all Japanese rose bushes three years old have 500 or 600 roses, and that such bushes will not, under ordinary conditions, bloom in winter.

No. 2092. Samuel McCudden & Co., Inc., 1 West 37th St., New York, has entered into a stipulation to discontinue misbranding and misrepresenting certain handkerchiefs it sells in interstate commerce.

The company agrees to stop using in advertising or on labels the words "linen" or "Irish linen" as descriptive of handkerchiefs not composed of linen, and to cease employing the word "linen" alone or in combination with other words so as to imply that the articles to which the word refers are made from linen, when such is not a fact.

No. 2093. Anthony Salzman, trading as Monticello Mail Order House, Monticello, N. Y., selling remnants and patchwork pieces, will cease using the word "free" as descriptive of merchandise represented to be given free, when in fact it is not free nor is it given as a gratuity, but may be obtained only in consideration of the purchase of merchandise with which the purported "free" gift is included. Salzman also will stop employing the phrase "For 10 days only", or other representation of similar meaning, so as to imply any limited period of time within which the offer is available; and will not represent that the gift or other article so mentioned is a "center piece kit" or is limited to such limited time, when in fact the offer is unlimited as to time of acceptance.

The respondent will discontinue use of the word "silk" in any manner implying that the articles so described are silk, when such is not a fact, and will discontinue using the word "silk" alone or in combination with other words so as to imply that the articles to which the word refers are natural rock crystal products, when such is not a fact.

No. 2095. Robert P. Milburn, Lanett, Ala., trading as Nehi Bottling Company, agreed that in promoting the sale of RC Cola, including cuff links and shirt studs, agrees to stop using in advertising the word "crystal" alone or with other words so as to imply that the articles to which the word refers are natural rock crystal products, when such is not a fact.

No. 2096. Robert F. Milburn, Lanett, Ala., trading as Nehi Bottling Company, also known as Royal Crown Cola, will cease using any scheme, plan or method which involves a gift enterprise or lottery whereby
cash or any article is given as a premium in consideration of the purchase of another article. According to the stipulation, some of the bottle caps bore either the figure $4, $5, $50, or $1 on the inside, and the customer purchasing one of the bottles whose cap revealed a figure was entitled to receive the amount of cash indicated.

No. 2096. A stipulation to discontinue misbranding certain knives sold in interstate commerce has been entered into by Edward F.Binder Company, 149 North Cicero Ave., Chicago, and Geneva Forge, Inc., Geneva, N. Y., engaged in the manufacture and sale of kitchen utensils.

The companies agreed to stop using the word "crucible" to describe knives not made of crucible steel, and to cease employing such word as a stamp or label or in advertising matter so as to imply that the knives so designated are made of crucible steel, when this is not true.

No. 2097. Opelika Creamery, Inc., Opelika, Ala., signed a stipulation substantially the same as that entered into by Robert P. Milburn, agreeing to discontinue the sale of frozen stick confections. The word "free", according to the stipulation, was printed upon certain sticks and was concealed by the frozen confection, each purchaser obtaining a "free" stick being entitled to another confection without additional cost.

No. 3115. Los Angeles Soap Company, trading as Cosray Products Company, 617 East First St., Los Angeles, has entered into a stipulation to discontinue certain misleading representations in the sale of Cosray Vitamin D Soap.

In approving the stipulation, the Commission closed its case growing out of a complaint issued in June, 1937, charging the respondent company with unfair representations regarding its chemical properties and bacteriological effects, and ceased such manufacture a short time before the complaint was filed.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 1134. The Commission has modified its order to cease and desist against P. H. Hanes Knitting Company, underwear manufacturer of Winston-Salem, N. C., so as to make such order conform to the provisions of the Tydings-Miller Act, approved August 17, 1937. This act permits contracts for the maintenance of prices fixed by the seller in connection with the sale of trade marked or branded merchandise in those states which permit such contracts in their intrastate commerce.

The original order in the case, entered December 21, 1925, directed the respondent company to discontinue certain methods of bringing about the observance of prices at which its products were to be resold by dealers. On April 7, 1926, this order was modified slightly.

No. 2728. American Character Doll Company, Inc., 200 Fifth Ave., New York, has been served with an order requiring it to cease and desist from certain misleading representations in the sale of its products.

Findings are that the respondent company, in the sale of its paratex doll, made of hard rubber and under a secret formula, advertised it as superior to composition dolls because of being impervious to water. The respondent's paratex doll is sold in competition with the more expensive composition dolls such as the Shirley Temple doll. According to findings, the Shirley Temple is the only baby doll made by certain large stores who specialize in treatment of the eyes. According to findings, the respondent company asserted in radio and periodical advertising that 6,000 eyesight specialists had suggested the use of "Lavoptik", when such was not a fact.

No. 2612. Croxton Sales Corporation, 142 West 24th St., New York, has been ordered to cease and desist from certain unfair methods of competition in connection with the sale of Croxon Method, advertised as a preparation for the treatment of superfluous hair.

The order directs the respondent corporation to discontinue representing in newspaper and magazine advertisements, or by any other means, that Croxon Method will permanently remove and completely stop the growth of superfluous hair, that it is guaranteed to remove superfluous hair, and that no odor will result from the use of the product.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, November 22:

Monday, November 22

HEARING BEFORE AN EXAMINER

(WKBZ—Karl L. Ashbacker, Muskegon, Mich.—Present assignment; 1500 kc., 100 watts night, 250 watts LS, unlimited time. Voluntary assignment to Ashbacker Radio Corporation.

Tuesday, November 23

HEARING BEFORE AN EXAMINER

(NEW—Church of Jesus Christ of Latter Day Saints, near Salt Lake City, Utah.—C. P.; 6000, 9510, 11710 kc., 50 KW, unlimited time. (In accordance with Rule 983.)

PFC CASE CLOSED

No. 3170. The Federal Trade Commission has entered an order closing its case against Louis J. Whitmarsh because of the death of the respondent.

The Complaint alleged that Whitmarsh, who traded as Rite-Way Sales, at Cleveland, Ohio, had engaged in certain unfair methods of competition in connection with the sale of earthenware cooking utensils. The case was closed without prejudice.

FEDERAL COMMUNICATIONS COMMISSION ACTION
APPLICATIONS RECEIVED

First Zone

NEW—Peter J. Caldarone, Providence, R. I.—Construction permit 1570 to erect a new station to be operated on 1270 kc., 250 watts power, daytime. Amended: Changes in proposed equipment and hours from 6 a.m. to 6 p.m., period ending 3-1-38.

WBKB—WBKB Broadcasting Co., Youngstown, Ohio.—Modification of construction permit for installation of directional antenna for day and night use, increase power from 1 kw to 1 kw night, 5 kw day, move transmitter from 133 Pine St., Cliffside Park, N.J., to near Secaucus, New Jersey. Amended: To make correction in transmitter site from near Secaucus, N.J., to Bergen County, Borough of Carlstadt, N.J., and make changes in directional antenna. Amended: To extend commencement and completion dates. Amended: To make correction in transmitter equipment. Amendment approved.

WIP—Pennsylvania Broadcasting Co., Inc., Philadelphia, Pa.—Construction permit to install new transmitter and antenna, antenna to be determined, increase power from 1 kw to 1 kw night, 5 kw day and move transmitter to site to be determined, Phila., Pa. Amended: To install directional antenna for day and night use and give exact transmitter site, as E. of Brooklawn, N.J.

WCL—Cleveland Radio Broadcasting Corp., Cleveland, Ohio.—1210 Special experimental authorization to operate a facsimile station from 1 a.m. to 6 a.m. for period ending 3-1-38.

WNBM—National Broadcasting Co., Inc., Mobile—Chicago, Ill.—License to cover construction permit (B2-PRE-94) for a new high frequency relay station.

Second Zone

WBRC—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—Modification of construction permit (B3-P-1555) for new transmitter and vertical antenna and increase in power from 1 kw to 1 kw night, 5 kw day, further requesting authority to install new transmitter. Amended: To add the frequencies 35600, 38600, 41000 kc., 100 watts night, unlimited time.

WFTC—Jonas Weiland, Kinston, N. C.—Authority to make changes in automatic frequency control apparatus.

WSX—WSX, Inc., Nashville, Tenn.—License to cover construction permit (B3-P-1903) for a new transmitter and increase in power.

NEW—Jonas Weiland, New Bern, N. Car.—Construction permit 1370 for a new broadcast station at New Bern, N. C., to be operated on 1370 kc., 100 watts, unlimited time.

WSFA—Montgomery Broadcasting Co., Inc., Montgomery, Ala.—Authority to make changes in automatic frequency control.

NEW—University of Oklahoma, Norman, Okla.—Construction permit for a new experimental broadcast station on 8655 kc., 100 watts power.

Fourth Zone

WIND—Johnson-Kennedy Radio Corp., Gary, Ind.—Construction permit to increase power from 1 kw night, 5 kw day to 5 kw day and night and make changes in directional antenna.

WGN—WGN, Inc., Chicago, III.—Special experimental authorization to operate a facsimile station from 1 a.m. to 6 a.m. for period ending 2-1-38.

NEW—Visit of DIC, St. Louis, Mo.—Modification of license to change power from 1 kw night, 5 kw day to 5 kw night and day. Amended: Install directional antenna, for day and night use.

KOVIC—KOVIC, Inc., Valley City, N. Dak.—License to cover construction permit 1350 for a new broadcast station (B4-P-1800) for changes in equipment and increase in power.

NEW—The Pulliter Publishing Co., St. Louis, Mo.—License for a new facsimile broadcast station (experimental), utilizing equipment constructed for high frequency broadcast station W2XPD (File No. B4-PE-61, granted 8-13-35), 31600, 35600, 38600, 41000 kc., 100 watts power.

Fifth Zone

KNX—Columbia Broadcasting System, Inc., Los Angeles, Calif.—1050 Modification of construction permit (B5-P-1985) for new transmitter, changes in antenna, move of transmitter, further requesting installation of new transmitter.

NEW—Larry Rhine, San Francisco, Calif.—Construction permit 1150 for a new station to be operated on 980 kc., 250 watts power, daytime. Amended: Changes in proposed equipment and change frequency requested from 990 to 1150 kc., and power from 250 watts to 1 kw.

KTC—Tulare-Kings County Radio Associates, Charles A. Whitmore, President, Visalia, Calif.—Modification of license change frequency from 1190 to 1210 kc., change hours of operation from daytime to unlimited time, using 100 watts night and 250 watts power day time. (Contingent on KDON's application for 1400 kc.)

KIDO—Frank L. Hill & C. G. Phillips, d/b as Boise Broadcast 1350 Station, Boise, Idaho.—Modification of construction permit (B5-P-1555) to make changes in equipment, increase in power, further requesting to extend commencement and completion dates to 12-27-37 and 6-27-38, respectively.

KAAC—Columbia Broadcasting System, Inc., Mobile, Los Angeles, Calif.—License to cover construction permit (B5-PF-57) for low frequency relay station.

NEW—Church of Jesus Christ of Latter Day Saints, County of Salt Lake, Utah.—Construction permit for new international broadcast station to be operated on 6020 kc. (daytime, but remaining silent at night when interference might be caused to service of DJC, Zessen, Germany); 8310 kc. (subject to operation only at such times when interference is not caused to service of GSR, Daventry, England), and 11710 kc., 50 kw, A-3 emission. Amended: To add the frequencies 15170 and 35675 kc.

Hawaiian Zone

NEW—Garden Island Publishing Company, Ltd., Lihue, Hawaii,1500 Construction permit to erect a new station to be operated on 1500 kc., 100 watts night, 250 watts day power, unlimited time. Amended: Antenna to be determined, and transmitter site to be determined, Lihue, Hawaii.

Puerto Rican Zone

WPRA—Puerto Rico Advertising Co., Mayaguez, P. R.—Construction permit 1370 for new broadcast station at Mayaguez, P. R., to change power from 150 watts night, 250 watts day to 1 kw night, 75 kw day; changes in antenna and equipment, and hours from specified to unlimited. Amended: Antenna changes.
FCC REORGANIZATION COMPLETED
COMMISSIONERS DELEGATED POWERS

With the announcement on Tuesday by Chairman Frank R. McNinch of two new orders by the Federal Communications Commission delegating various powers to individual Commissioners, it is understood that the major reorganization plans for the Commission have been completed.

It is said that later there may be some minor amendments needed in the event that things do not work out the way they are expected. Also it is possible that a further delegation of powers may have to be made at a later date, but with the announcement of the new powers for the Commissioners, the main reorganization work is finished. The new orders provide that the powers delegated to the various Commissioners shall be rotated every month.

The Commission also set specific days of the week for meetings to act on various subjects—the broadcast matters will be taken up on Wednesday of each week at which time the Commission will sit en banc to decide broadcast cases, whereas in the past this has been done by the Broadcast Division, which like the Telegraph and Telephone Divisions was abolished on November 15. The new plan became effective as of December 1.

In an official explanation of the new orders the Commission says:

"Order No. 28 provides for delegation to members of the Commission and all staff heads the authority to act upon many matters of a routine, engineering or emergency character. Nearly all of the matters thus delegated require prompt action and some of them emergency action. Hence, each day there is a considerable number of matters that must, in the public interest, be acted upon that day.

The purposes of Order No. 28 are, therefore, two-fold:

"(1) To assure certainty and promptness in acting upon all such matters where time is of the essence, and

"(2) To relieve the Commission of a great deal of detail and routine, which can just as effectively be handled by a member of the Commission. This procedure will leave for Commission handling in regular meetings all matters of major importance and for the handling of which the Commission will have available more of its time than heretofore.

"Order No. 28, paragraph (1), delegates to the Secretary of the Commission the handling of matters heretofore handled by him, such as applications for operators' licenses and for amateur and ship stations.

"To the Chief Engineer, in paragraph (2), is likewise delegated those purely engineering matters which have heretofore been delegated to and handled by him, such as operation without an approved frequency monitor or without thermometer in automatic temperature control chamber; without antenna ammeter; or with temporary antenna system; or with new or modified equipment pending replacement of existing equipment; specifications for painting and lighting of antenna towers; relocation of transmitter in the same building; approval of types of equipment, and many similar matters which are set out specifically in the Order.

"The delegation of functions to the several Commissioners is comprised within six groups covered by paragraphs (3) to (8) inclusive of Order No. 28.

These delegations of functions and duties are to be for a period of one month and the duties covered by the several paragraphs will be rotated among the Commissioners from month to month.

The immediate delegations of functions and duties run for the month of December, 1937, and are as follows:

Paragraph 3 of the Order to Commissioner Payne. This covers applications for aeronautical, aircraft, geophysical, motion picture, airport, municipal and state police, marine relay, marine fire, and emergency and special radio facilities and other matters therein recited.

Paragraph 4 to Commissioner Craven. This covers applications for licenses following construction which comply with construction permit; for extensions of time to commence and complete construction; modifications of construction permit involving only change in equipment; to install frequency control, auxiliary equipment; or special temporary authorization; change of name of licensee where ownership or control is not affected and other matters therein recited.

Paragraph 5 to Commissioner Sykes. This covers all radio matters (except broadcast, operators' licenses and amateur and ship stations) within the territory of Alaska.

Paragraph 6 to Commissioner Brown. This covers issuance of certificates of convenience and necessity; authorization of temporary or emergency wire service as provided in Section 214 of the Act.

Paragraph 7 to Commissioner Walker. This delegates all matters arising in connection with the administration of tariff circulars adopted pursuant to Section 203 of the Act, including the waiver of notice of the filing of tariffs.

Paragraph 8 to Commissioner Case. This paragraph contemplates setting up a Motions Docket and delegates the hearing and determining of matters arising under the Rules of Practice and Procedure relating to withdrawals, dismissals or defaults of applications or other proceedings, subject to the statutory right of appeal to the Commission; also to hear and determine all interlocutory motions, pleadings and related matters of procedure.

Having adopted the foregoing procedure for handling of the above matters the Commission has now adopted an order appointing regular meeting dates for the handling of all matters coming before the Commission itself and for oral argument, as follows:

Effective Monday, December 6, 1937, the schedule of regular meetings and the subjects to be considered and acted upon therein will be as follows:

Each Tuesday, 10 A. M., Telephone, wire and radio; Telegraph, wire and radio.
Each Wednesday, 10 A. M., Broadcasting.

Each Thursday, 10 A. M., Oral Argument.

"The Commission will begin regular meetings next week pursuant to the above schedule, and will continue with oral arguments on the dates now set unless for reasons hereafter found compelling the Commission may revise the oral argument schedule, in which event all parties interested would be given due notice."

The orders are as follows:

ORDER NO. 28

Under the authority of the Communications Act of 1934, as amended, particularly Sections 5(e) and 409 thereof,

IT IS ORDERED:

(1) That the Secretary of the Federal Communications Commission is hereby authorized to determine, order, certify, report or otherwise act, with the advice of the General Counsel and the Chief Engineer, upon:
   (a) all applications for operator licenses, and
   (b) all applications for amateur and ship stations;

(2) That the Chief Engineer of the Federal Communications Commission is hereby authorized to determine upon all applications and requests, and to make appropriate order in letter form for the signature of the Secretary in the following matters:
   (a) operation without an approved frequency monitor;
   (b) operation without an approved modulation monitor;
   (c) operation without thermometer in automatic temperature control chamber;
   (d) operation without antenna ammeter, plate voltmeter or plate ammeter;
   (e) operation with substitute ammeter, plate voltmeter or plate ammeter;
   (f) operation with temporary antenna system;
   (g) operation with auxiliary transmitter as main transmitter;
   (h) operation with new or modified equipment pending repair of existing equipment, or pending receipt and action upon a formal application;
   (i) where formal application is not required, application for new or modified equipment or antenna system;
   (j) where formal application is not required, change of specifications for painting and lighting of antenna towers;
   (k) operation to determine power by direct method during program test periods;
   (l) relocation of transmitter in the same building;
   (m) operation with reduced power or time under Rules 142 and 151;
   (n) approval of types of equipment;
   (o) where it appears that terms of construction permit have been complied with, authorization for equipment and program tests or extensions thereof;
   (p) denial of requests for equipment and program tests where specifications of construction permit have not been met;
   (q) withdrawal of authorizations for equipment and program tests where subsequent to the issuance of the original authorization it appears that the terms of the construction permit have not been met;

(3) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to hear and determine, order, certify, report or otherwise act upon all applications for aeronautical, aircraft, geophysical, motion picture, airport, aeronautical point to point, municipal and state police, marine
relay, marine fire, and emergency and special emergency radio facilities;

(4) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to hear and determine, order, certify, report or otherwise act upon all applications for licenses following construction which comply with the construction permit; applications for extensions of time within which to commence and complete construction; applications for construction permit and modification of construction permit involving only a change in equipment; applications to install frequency control; applications relating to auxiliary equipment; applications for authority to determine operating power of broadcast stations by direct measurement of antenna power; applications for special temporary authorizations; applications for modification of licenses involving only change of the name of the licensee, where the ownership or control is not affected; applications for construction permit or modification of license involving relocation locally of a studio, control point or transmitter site; and applications for relay broadcast stations;

(5) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to hear and determine, order, certify, report or otherwise act upon all radio matters of every character (except broadcast, operator licenses and amateur and ship stations) within the territory of Alaska;

(6) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to hear and determine, order, certify, report or otherwise act upon all uncontested proceedings involved in the issuance of certificates of convenience and necessity; and the authorization of temporary or emergency wire service, as provided in Section 214 of the Act;

(7) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to determine and act upon all matters arising in connection with the administration of tariff circulars of the Commission adopted pursuant to Section 203 of the Act, including the waiver of notice for the filing of tariffs; and

(8) That a Commissioner, to be selected and appointed by subsequent order or orders of the Commission, is hereby authorized to hear and determine, order, certify, report or otherwise act upon all matters arising under the Rules of Practice and Procedure of the Commission relating to withdrawals, dismissals, or defaults of applications or other proceedings, subject to the statutory right of appeal to the Commission; and to hear and determine all interlocutory motions, pleadings and related matters of procedure before the Commission.

This Order shall become effective December 1, 1937.

ORDER NO. 29

(1) Order No. 27 assigning to Commissioners Sykes and Brown authority to act upon certain emergency applications is hereby revoked.

(2) For the month of December, 1937, the work, business and functions of the Commission specified and described in Paragraphs (3) through (8), both inclusive, of Order No. 28, are hereby assigned and referred as follows:

(a) That in Paragraph (3) to Commissioner Payne;
(b) That in Paragraph (4) to Commissioner Craven;
(c) That in Paragraph (5) to Commissioner Sykes;
(d) That in Paragraph (6) to Commissioner Brown;
(e) That in Paragraph (7) to Commissioner Walker;
(f) That in Paragraph (8) to Commissioner Case.

This Order shall become effective December 1, 1937.

STATEMENT ON CASH DISCOUNTS

The statement on cash discounts which was recently distributed by the American Association of Advertising Agencies touches upon a matter of very great importance to the radio broadcasting industry. Broadcasters should not take any action in this matter until the question has been thoroughly investigated and a comprehensive report thereon can be furnished to all stations. Such a report will be compiled by the NAB.

INTERNATIONAL COPYRIGHT CONVENTION

The Senate Committee on Foreign Relations has recommended that the Senate consent to the International Convention of the Copyright Union as revised and signed at Rome on June 2, 1928. This report goes to the Senate calendar and may be acted upon any day.

One of the provisions in the report provides for a period of one year in which the Copyright Act of 1909 may be amended. This provision reads as follows:

"In order that there might be generous time for appropriate adjustment by persons interested in copyright, it is further recommended that, in accordance with article 25, paragraph (3) of the convention, the day for its entry into force as to the United States be fixed at one year from the date of its approval by the Senate."

It is understood that the Duffy Copyright Bill will come up for consideration early during the regular session which will be convened in January.

FREE TIME FOR GOLDEN GATE INTERNATIONAL EXPOSITION

Arthur Linkletter of the Golden Gate International Exposition has advised that all the radio time they have used so far has been furnished gratis and that they cannot see their way clear to spend any money for radio time.
Broadcasters are justified in believing that when the time comes the Golden Gate International Exposition will buy newspaper space and other forms of printed advertising. These expositions are definitely of commercial character and are not entitled to free radio time. Broadcasters are urged to refuse free time to advertise the Golden Gate International Exposition.

TRANSFER OF WROK RECOMMENDED

Rockford Broadcasters, Inc., licensees of Station WROK, Rockford, Ill., applied to the Federal Communications Commission for authority to transfer control of the station to Rockford Consolidated Newspapers, Inc., through its purchase of ten shares of stock in the licensee company from Lloyd C. Thomas, a minority stockholder. The proposed transferee now owns 245 shares, or 49% of the 500 shares which are authorized and outstanding.

Examiner Melvin H. Dalberg in Report No. I-527 recommended that the application for transfer of the station be granted. In his conclusions in this case the Examiner says:

"The proposed transferee is qualified to hold a controlling interest in the stock of the licensee of radio Station WROK. The licensee, under the control of the proposed transferee, will be legally, technically, financially and otherwise qualified to continue the operation of this station in the public interest.

"In view of the return on the investment entailed in this proposed sale of stock, the original cost and replacement cost of the equipment and property, and inasmuch as 2% of the stock which is sought to be purchased represents control of the corporation, the difference between $31.26, the price proposed to be paid per share, and the fraction of the total station assets represented by each share of stock appears to be reasonable and cannot properly give rise to any suggestion that the parties to the agreement involved herein have placed a monetary value on the station license.

"This application may be granted within the purview of Section 310 of the Communications Act of 1934, as amended by the Act of June 5, 1936.

"It is therefore believed that the granting of the application will serve the public interest, convenience and necessity."

RENEWAL RECOMMENDED FOR STATION WDEV

Broadcasting Station WBZA, Springfield, Mass., operating on 990 kilocycles, 1,000 watts and unlimited time, applied to the Federal Communications Commission to change its frequency to 550 kilocycles. Also Station WDEV, Waterbury, Vt., operating on 550 kilocycles, 500 watts, daytime, asked the Commission for a license renewal.

Examiner R. H. Hyde, in Report No. I-525, recommended that the application of WBZA be denied and that the license of Station WDEV be renewed. He states that "the evidence relative to Station WDEV indicated that the continued operation of that station would serve the public interest, convenience and necessity."

POWER INCREASES RECOMMENDED

Broadcasting Station KQV, Pittsburgh, Pa., operating on 1380 kilocycles, 500 watts and operating simultaneously with WSMK daytime and sharing night hours, applied to the Federal Communications Commission to increase its power to 1,000 watts and to operate unlimited time. Also broadcasting Station WSMK, Dayton, Ohio, operating on the same frequency with 200 watts on the same day and specified night hours as KQV asked to increase its power to 250 watts and 500 watts LS and to operate unlimited time.

Examiner Melvin H. Dalberg, in Report No. I-524, recommended:

1. That the application of KQV Broadcasting Company, Pittsburgh, Pennsylvania, for unlimited time operation on the 1380 kilocycles frequency with power of 1 kw. and the use of a directional antenna at night be granted; and

2. That the application of WSMK, Incorporated, Dayton, Ohio, for unlimited time operation on the 1380 kilocycles frequency with power of 250 watts night and 500 watts until local sunset with the use of a directional antenna at night be granted.

RECOMMENDS NEW PUERTO RICAN STATION

United Theatres, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at San Juan, Puerto Rico, to use 570 kilocycles, 1,000 watts and unlimited time on the air.

Examiner Tyler Berry, in Report No. I-523, recommended that the application be granted. He states that "there is a need for additional service in the area proposed to be served." The Examiner states that granting of the application would be in the public interest.

ASSIGNMENT OF WNBZ RECOMMENDED

Smith & Mace, licensees of Station WNBZ, Saranac Lake, N. Y., applied to the Federal Communications Commission for authority to voluntarily assign the construction permit and license to the Upstate Broadcasting Corporation. The station operates on 1290 kilocycles, 100 watts and daytime.

Examiner George H. Hill, in Report No. I-526, recommended that the application for the assignment be granted. He states that the Upstate Corporation "proposed to
render to the Saranac Lake area an improved program service." The Examiner states also that there is a definite need for the continuation of the service from the station and the granting of the application would be in the public interest.

RECOMMENDS NEW FLORIDA STATION

Nathan N. Bauer applied to the Federal Communications Commission for a construction permit for a new station to be located at Miami, Florida, to use 1420 kilocycles, 100 watts and unlimited time on the air.

Examiner P. W. Seward, in Report No. I-328, recommended that the application be granted. He states that "a need does exist in the proposed service area for additional radio service, particularly of a local nature and to provide additional advertising facilities." The Examiner states that granting of the application would not cause any interference and it would be in the public interest.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms.

The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3267. Alleging use of certain unfair methods of competition in connection with the interstate sale of Nailife, a preparation for the nails, a complaint has been issued against Blacher, Sunbeam Laboratories, Nathan C. Blacher, trading as Sunbeam Laboratories, 3704 Washington Boulevard, Los Angeles.

In newspapers, magazines, catalogues and other printed matter, the respondents allegedly advertise that Nailife constitutes a competent and effective treatment for dry, brittle and splitting nails; that it is a scientific preparation, and will transform irregular, broken nails into well-formed, symmetrical ones.

No. 3268. Unfair disparagement of the products of competitors is alleged in a complaint served upon Perma-Maid Company, Inc., Toledo, Ohio, engaged in the manufacture and sale of steel cooking utensils.

Certain representations made by the respondent company in advertising matter and by its sales agents, the complaint charges, lead customers to believe that the consumption of food prepared or kept in aluminum utensils will cause ulcers, cancerous growths and various other ailments and diseases; that the food so prepared is detrimental to the health of the users, and that preparation of food in aluminum utensils causes formation of poisons.

No. 3269. Selling and distributing ladies’ handbags, fastening devices and zippers, Waldes Koh-I-Noor, Inc., 47-52 Twenty-seventh St., Long Island City, N. Y., has been served with a complaint charging unfair competition in the sale of its products. The Grey Advertising Agency, Inc., 128 West 31st St., New York, is also named a respondent.

Advertisements placed by Waldes Koh-I-Noor, Inc., in cooperation with the advertising agency, are alleged to have featured certain low-priced domestic-made handbags along with higher priced articles of this class purchased in France. The domestic-made handbags were advertised at $2.95 and were alleged to have been exact copies of the Paris bags advertised in Vogue magazine as for sale from $35 to $80.

The complaint charges that in fact the imported bags advertised were not actually sold in the United States, and had no actual retail value or price, and that the advertisements appearing in Vogue magazine were pure subterfuge calculated to give the domestic bags a false and fictitious value by virtue of the false comparison, thus creating a preference and exceptional demand therefor.

Through use of the abbreviation "Mfg." in its corporate name, the words "manufacturers" and "makers" in advertising matter, and the representation that it has factories at Passaic, N. J., and Ellenville, N. Y., the respondent company, the complaint alleges, falsely represents that it manufactures the handkerchiefs it sells. According to the complaint, the company does not have factories at Passaic or Ellenville or elsewhere, but purchases and sells handkerchiefs manufactured by others.

No. 3271. Allegedly representing themselves to be manufacturers of certain prophylactics, when such is not a fact, Harry J. Katz and Louis Blaies, trading as the Nutex Company, 522 South 7th St., Philadelphia, are charged in a complaint with using unfair methods of competition in violation of the Federal Trade Commission Act.

The complaint alleges that on cartons containing the respondents' products appear the words "Mfg. By The Nutex Co., Philadelphia, Pa.", while on business stationery they represent themselves to be "manufacturers and distributors of druggists' sundries."

No. 3272. Alleging false and misleading representations in the sale of jewelry, a complaint has been issued against Elmer Sussman, trading as Diamond Brokerage Company, Palace Building, 4th & Nicollet Ave., Minneapolis.

Advertising by means of price lists, catalogues, and other printed matter, the respondent is alleged to have made representations having the effect of misleading buyers into believing that certain of his products are composed of superior materials of a higher or superior value; that Sussman is liquidating a distress stock of diamond rings and other merchandise at a fraction of their original cost; that his products have been obtained from bankrupt stocks and other distress sources; that the watches he sells are the latest models and possess the values represented; that diamonds sold by the respondent are 100 per cent perfect, and that Sussman is a diamond broker.

No. 3273. Gimbel Brothers, Inc., operating a department store at 33rd St. and Broadway, New York, is charged in a complaint with using certain unfair methods of competition in connection with the sale of women's wearing apparel.

In advertising matter, the respondent company allegedly represented certain garments as containing 12% to 25% silk and wool, and on labels attached to some of the garments appeared the words "12% to 25% silk and wool," and on labels attached to some of the garments appeared the words "12% wool and 25% silk." The respondent is charged in a complaint with misrepresenting the composition of certain garments by the use of the abbreviation "Mfg." in its corporate name.

No. 3274. Alleging unfair competition in the sale of a hair preparation, a complaint has been issued against Monroe Chemical Company, Quincy, Ill., and its subsidiary, Mary T. Goldman Company, St. Paul, Minn.

Mary T. Goldman's Gray Hair Color Restorer, according to the complaint, was advertised by these companies in a manner tending to create the impression that its use would restore gray, streaked or faded hair to its original or youthful color; erase or remove all trace of gray hair, and produce warm, youthful color or original color of the user's gray, streaked or faded hair.

The complaint alleges that use of this preparation will not accomplish the results claimed, but that it acts as a dye or stain and the color produced is artificial.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2725. An order to cease and desist from certain unfair methods of competition in connection with the sale of Kimball Tablets has been entered against John J. McClosey, 77 West Wisconsin Ave., Milwaukee, trading as H. B. Kimball Company, H. B. Kimball and Kimball Laboratories.

The order directs the respondent to discontinue representing, directly or through the use of testimonials or imitations, in any other manner, that Kimball Tablets constitute an effective remedy or cure for, or have any therapeutic value in the treatment of, stomach trouble, ulcers of the stomach, constipation, indigestion, dyspepsia, and gastritis.

The respondent also is prohibited from advertising that the product is a competent remedy or cure for, or will remove the cause of, gas pains, intestinal toxic conditions, acidosis, bloating after
meals, and symptoms of dyspepsia, provided, however, that the
respondent is not prevented from representing the product as a
palitveative treatment for temporary relief of such ailments.
No. 2978. Nineteen corporations manufacturing metal window
products and their trade association, Metal Window Institute,
1427 1 St., Washington, D. C., have been ordered to cease and
desist from certain unfair practices, the effect of which was to
establish and maintain fixed minimum prices for the products
of the industry.

The order also is directed against officers of the respondent
corporation and of the institute. The practices prohibited were
found to constitute unfair methods of competition in violation of Section

Comprising substantially all of the manufacturers and
distributors of metal window products in the United States, the
respondent corporations sell a substantial portion of their output to the
Federal and State governments and municipalities for use in the
construction of public buildings. They manufacture various types
of metal windows as well as industrial doors, frames, mechanical
operators, screens, and sash, which products are made principally
from solid or formed sections of steel, iron, bronze, aluminum, or
other metal or alloy.

No. 3014. Under an order to cease and desist, The Electric
Appliance Company, Burlington, Kans., is directed to discontinue
false and misleading representations regarding the value of its
electric belts and insoles in the treatment of disease.

Electric belts and insoles sold by the respondent company are no
longer to be advertised as having therapeutic value in treating
diseases. Findings are that the respondent's products, advertised
for use in treating nervous diseases, rheumatism, heart trouble and
other ailments, do not have the curing qualities claimed for them.

No. 3028. Julius Goodman & Son, Inc., 43 South Main St.,
Menphis, Tenn., a retail jeweler, has been served with an order to
cease and desist from certain unfair representations concerning
the merits of Power Seal, a preparation sold in pellet form for use in internal combustion engines.

The respondents recommend Power Seal as a product capable of
releasing rings in engines when such rings are gummed, of
causing valves to seat properly, and of acting as a lubricant.

No. 3079. Phoebe Phelps Caramel Company, 74 Fulton St.,
New York, has been served with an order to cease and desist from advertising that its products are sold.

The order directs the respondent company to discontinue
advertising in newspapers, magazines, in its monthly publication, on
labels, or otherwise, that it is a British or English concern, and
that it has a place of business in London or any other city where
it does not actually maintain such a place; that it is a manufactur¬
er or that its products are shipped direct from the manufacturer,
unless it owns and operates or directly controls a factory in which
its products are made, and that it deals exclusively in imported
goods, unless such is a fact.

Stipulations

The Commission has entered into the following stipulations:

No. 01920. Zo-Ak Company, 62 West 45th St., New York,
will cease advertising that Zo-Ak Tablets, for men and women,
represent the very latest development in gonadal replacement
therapy; that they are either a competent or effective remedy for
temporary or permanent impairment of vitality due to fatigue, nervous
or remediable weakness of the glandular system, or that they are harmless.

No. 01921. Dr. Pepper Company, 429 Second Ave., Dallas,
Tex., selling a flavoring syrup used in the manufacture of Dr.
Pepper carbonated beverages and other confections, will cease advertising that there are more calories per pound in Dr. Pepper than in oranges,
lemons, pineapples, spinach or buttermilk; that the beverage is
"packed" with energy, helps to melt fat away, or is the perfect
pick-up for tired minds, tired nerves or tired bodies, and that
drinking of three or any other number of Dr. Peppers a day makes one healthy.

No. 01922. R. E. G. Zaleski, trading as Zal's Laboratories,
7514 South Halsted St., Chicago, will stop representing that
Zal's Medicine is helpful as a general tonic and is a competent treatment for the relief of ulcers, gastritis, acidosis, indigestion, and related stomach troubles; that the most stubborn cases yield
to this preparation or its adjunct treatment; that it will remove all irritation from inflamed and weakened parts, and that it is the result of many years of research.

No. 01923. De Forest's Training, Inc., 1109 Center St.,
Chicago, selling a correspondence course of instruction in radio,
television and sound equipment engineering, has entered into a
stipulation to discontinue certain unfair advertising of its courses.

Under the stipulation, De Forest's Training, Inc., will no longer
represent that Dr. Lee De Forest is now actively or financially
associated with the respondent corporation's business, or that
pupils of the respondent are under the tutorage of Dr. De Forest or that its salesmen are associated with the De Forest organization of Chicago.

The respondent company also will stop representing, through the publication of Help Wanted advertisements, that it has positions available or that employment will be offered to those who answer the advertisements, when in fact such advertisements are really
called to advertisers used in connection with the sale of the courses.

No. 01924. W. W. Metcalf and Mrs. Fred E. Grant, trading as
Dr. Fred E. Grant Company, 766 Davidson Building,
Kansas City, Mo., in selling a remedy for epilepsy, will stop representing that the product is limited to relieving the severity and lessening the
frequency of attacks of epilepsy.

The respondents also will cease representing that their method of weight reduction is safe, does not involve the use of harmful drugs, and does not include diets or exercises.

No. 01925. John L. and Nancy E. Hatch, trading as Slim¬
mens Company, 853 Seventh Ave., New York, agree to refrain from advertising that by use of their Simments method of reduc¬
ing one can get rid of superficial fat or can reduce quickly, safely
and easily, unless this claim is qualified by a statement defining
such method. The respondents also will cease representing that
the horoscopes he sells will enable one to know about his opportunities in life; that his "The Forbidden Books of Moses" is referred to by millions who never undertake any important step
in life relating to finance or health without seeking guidance
and advice from its pages; that any of his books provides a simple
guide to character reading, makes astrology easy and enables one to
predict his future by means of palmistry, and that his charms,
amulets and seals will give one victory over every earthly enemy,
and are effective for insuring business success and promoting health.

No. 01927. The Lavena Corporation, 141 West Jackson
Boulevard, Chicago, will stop advertising that Lavena will per¬
mancly rid the skin of blemishes, unless this claim is limited to

2284
temporarily conditions due to external causes; that it stimulates or enlivens the skin, tissues or sluggish pores and cleanses the pores "to their very depths"; that it has an amazing effect on blackheads and other skin disorders, and is "the year's cosmetic sensation."

No. 2109. Under a stipulation entered into the Old Dominion Veneer Company, Bristol, Va., will stop making misleading representations of its veneer products by using the phrase "oriental walnut" to describe veneers not made of wood derived from trees of the walnut tree family.

In selling Eagle Home Insulation, the Eagle-Picher companies agreed to stop the use in advertising of the words "lightest weight" in any manner implying that competitive products are heavier or substantially heavier than their advertised product.

In Portland, and with offices in the Temple Bar Building, have agreed to discontinue misleading representations in the sale of certain rock wool insulating material. FEDERAL COMMUNICATIONS COMMISSION ACTION

There has been no action by the Commission in other than routine broadcast cases for the past three weeks owing to the reorganization of the Commission itself under the new Chairman. Beginning next week, however, on December 8, broadcast cases will be taken up every Wednesday by the Commission meeting en banc.

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, December 6.

Tuesday, December 7

HEARING BEFORE AN EXAMINER

(WBMT) WBNX—WBNX Broadcasting Co., Inc., New York City.—C. P., 1350 kc., 1 KW LS, daytime. Present assignment: 880 kc., 1 KW, shares with WQAN. Present assignment: 880 kc., 500 watts night, 1 KW LS, shares WQAN.

WBNX—WBNX Broadcasting Co., Inc., New York City.—C. P., 1350 kc., 1 KW, 5 KW LS, shares with WAWZ. Present assignment: 1550 kc., 1 KW, shares with WAWZ.

APPLICATIONS RECEIVED

First Zone

WEAN—The Yankee Network, Inc., Providence, R. I.—Modification of construction permit (B1-P-1605) for changes in equipment and increase in power, requesting changes in requested equipment.

WEAN—The Yankee Network, Inc., Providence, R. I.—License to cover construction permit (B1-P-1605) as modified for changes in equipment and increase in power.

WNBC—State Broadcasting Corp., New Britain, Conn.—Modification of construction permit (B2-P-1055) for changes in directional antenna and approval of transmitter site at Cedar Street, Newington, Connecticut.

Second Zone

WRNL—WLGB, Inc., Richmond, Va.—License to cover construction permit (B2-P-567) as modified for move of transmitter and studio, installation of new transmitter, and changes in antenna.

NEW—King-Trendle Broadcasting Corp., Detroit, Mich.—Construction permit for a new station to be operated on 1010 kc., 250 watts, unlimited time.

WMBS—Fayette Broadcasting Corp., Uniontown, Pa.—Modification of license to change power from 250 watts day to 100 watts night, 250 watts day, to 1 KW; move transmitter from Walton Bldg., Main and Esplanade Bldgs., Lexington, Ky., to northwest of Lexington, Ky., and studio from Walton Bldg., Main and Esplanade Bldgs., Lexington, Ky., to Short and Walnut Sts., Lexington, Ky.

NEW—Hal Broadcasting Co., Inc., Camden, N. J.—Construction permit for a new station to be operated on 1500 kc., 100 watts night, 250 watts day, unlimited time.

2385
Third Zone

KTBC—State Capitol Broadcasting Association (R. B. Anderson, President), Austin, Tex.—Modification of construction permit (B3-P-932) for a new station, requesting authority to install new transmitter and vertical antenna. Amended to change studio site from Driskill Hotel, corner Sixth and Brazos Sts., Austin, Tex., to 605-607 Brazos St., Austin, Tex., and extend commencement and completion dates.

WAPI—Board of Control of Radio Station WAPI, Alabama Polytechnic Institute, University of Alabama and Alabama College, Birmingham, Ala.—Construction permit to install new transmitter, directional antenna for night use; change frequency from 1140 kc. to 1010 kc., power from 5 kW to 50 kW; and move transmitter from On Sandusky Mt., near Pratt City, Birmingham, Ala., to site to be determined, Alabama.

WAPI—Alabama Polytechnic Institute, University of Alabama, Birmingham, Ala.—Construction permit to change frequency from 1210 kc. to 1140 kc., power from 100 watts night, 250 watts day, to unlimited time. Amended to give type of transmitter and move of transmitter.

WOLS—O. Lee Stone, Florence, S. C.—License to cover construction permit (B3-P-1104) as modified for a new station.

WFOY—Fountain of Youth Properties, Inc., St. Augustine, Fla.—Construction permit to change frequency from 1210 kc. to 1140 kc.; change power from 100 watts night, 250 watts day, to 250 watts day and night, and make changes in antenna.

WGM—WGCM, Inc., Mississippi City, Miss.—Construction permit to move transmitter and studio from Great Southern Golf Club (East Beach, Gulfport), Mississippi City, Miss., to site to be determined, Mobile, Ala., and install a new vertical antenna.

WGRM—P. K. Ewing, Grenada, Miss.—License to cover construction permit (B3-P-829) as modified for changes in equipment and move of transmitter.

NEW—Publix Barnford Theatres, Inc., Asheville, N. C.—Construction permit for a new station to be operated on 1370 kc. being upon KXL’s application for construction permit B5-P-1968 to change frequency from 1370 kc. to 900 kc.; change power from 100 watts night, 250 watts day, to unlimited time; and give transmitter and studio sites as to be determined, Marion County, Indiana. Amended to make changes in requested equipment, install directional antenna for day and night use, and give transmitter site as W. 38th St. near Route No. 52, Indianapolis, Ind.

KRMC—Roberts-MacNab Co. (Arthur L. Roberts, R. B. MacNab, A. J. Breitbach, Gen. Mgr.), Jamestown, N. Dak.—Construction permit to install a new transmitter and antenna to be determined; change frequency from 1370 kc. to 900 kc., power from 100 watts night, 250 watts day, to 500 watts night, 1 KW day. Amended to give transmitter site as to be determined, Jamestown, N. Dak.

NEW—Indianapolis Power & Light Co., area of Marion City, Ind.—Construction permit for a new relay broadcast station to be operated on 1610, 2090, 2190, 2830 kc., 40 watts. Amended to make further changes in vertical antenna and give transmitter site as site to be determined, Jamestown, N. Dak.

NEW—KCMO Broadcasting Co., area of Marion City, Ind.—Construction permit for a new relay broadcast station to be operated on 1610, 2090, 2190, 2830 kc., 40 watts.

NEW—Star-Times Publishing Co., St. Louis, Mo.—Construction permit for a new facsimile broadcast experimental station utilizing equipment of high frequency broadcast station W9XOK on frequencies 31600, 35300, 30000, 41000 kc., 100 watts.

W9XXM—Indianapolis Power & Light Co., Indianapolis, Ind.—License to cover construction permit (B4-PRE-143) for a new relay broadcast station.

W9XXZ—Indianapolis Power & Light Company, area Marion County, Ind.—Construction permit for a new relay broadcast station to be operated on 1610, 2090, 2190, 2830 kc., 250 watts.

Fourth Zone

WBAA—Purdue University, West Lafayette, Ind.—Construction permit to install new transmitter; make changes in antenna; change power from 500 watts night, 1 KW day, to 1 KW night, 5 KW day; change hours of operation from specified hours to unlimited time; and give transmitter and studio sites as to be determined, Marion County, Indiana. Amended to make changes in requested equipment, install directional antenna for day and night use, and give transmitter site as W. 38th St. near Route No. 52, Indianapolis, Ind.

WBAA—Purdue University, West Lafayette, Ind.—Construction permit to install new transmitter and vertical antenna. Amended to change studio site from Driskill Hotel, corner Sixth and Brazos Sts., Austin, Tex., to 605-607 Brazos St., Austin, Tex., and extend commencement and completion dates.

W4XFJ—Miami Broadcasting Co., area Miami, Fla.—License to cover construction permit (B3-PRE-142) for a new relay broadcast station.

Fourth Zone

WBAA—Purdue University, West Lafayette, Ind.—Construction permit to install new transmitter; make changes in antenna; change power from 500 watts night, 1 KW day, to 1 KW night, 5 KW day; change hours of operation from specified hours to unlimited time; and give transmitter and studio sites as to be determined, Marion County, Indiana. Amended to make changes in requested equipment, install directional antenna for day and night use, and give transmitter site as W. 38th St. near Route No. 52, Indianapolis, Ind.

WBAA—Purdue University, West Lafayette, Ind.—Construction permit to install new transmitter and vertical antenna. Amended to change studio site from Driskill Hotel, corner Sixth and Brazos Sts., Austin, Tex., to 605-607 Brazos St., Austin, Tex., and extend commencement and completion dates.

W4XFJ—Miami Broadcasting Co., area Miami, Fla.—License to cover construction permit (B3-PRE-142) for a new relay broadcast station.
FCC ACTS IN SEGAL CASE

The Federal Communications Commission this week suspended Paul M. Segal, prominent radio lawyer, from practising before it for a period of sixty days from December 6, 1937. George S. Smith, an associate of Segal, was found not guilty of any of the charges except in the Casto matter for which he had previously been reprimanded by the Commission.

The decision represented a unanimous verdict of the six Commissioners who heard the case. Commissioner Walker dissented only from that portion of the opinion which upheld the jurisdiction of the Commission in disqualifying Commissioner Payne from taking part in the trial.

In the first case of its kind ever to come before it, the Commission wrote a lengthy opinion in justification of its action. After reviewing the evidence the Commission said:

“Attention is also directed to the fact that Mr. Segal actually prepared or had prepared under his direction, the answer to the questions contained in these applications; that he actively participated in the concealment of the real party in interest in both applications and more especially in the Palmer applications. Besides the making of untrue and misleading statements in these applications, the further conduct of Mr. Segal, above enumerated, in concealing from the Commission the real parties interested in these applications, was intended to and did deceive the Commission in preventing it from knowing from these applications who these real applicants were. Mr. Segal was an active party in both instances in forming these corporations and in making these concealments from the Commission.

“The grant to an applicant to erect and operate a broadcasting station is regulated by the Federal Government and Congress has delegated this duty to this Commission. The law prescribes that these facilities may be granted only in the public interest, that is to say, so that the public may be served by the grant. The licensee is a trustee of the Federal Government to perform a public duty. For these reasons there must be no concealment, so far as this Commission is concerned, of the real applicants who desire to exercise this public franchise; and a lawyer who actively participates in concealing from this Commission the real party in interest and in making untrue and misleading answers to questions prescribed by this Commission is guilty of unethical conduct in deceiving the licensing authority of the Federal Government.

“The Commission, therefore, upon the evidence finds and concludes that the conduct of the respondent, Segal, in preparing or causing to be prepared, and causing to be sworn to and filed the applications in the Palmer Broadcasting Syndicate, Inc., and the Commercial Broadcasters, Inc., and his subsequent conduct relating thereto, more especially in the Palmer Broadcasting Syndicate, Inc., did deceive and mislead the Commission in its consideration of these applications.

“The Commission further finds and concludes upon the evidence that respondent, George S. Smith, is not guilty of any of these charges except in the Casto matter for which he has already been reprimanded by the Commission.

“A number of the leading lawyers who practice at the bar of this Commission testified as to the good character and reputation of the respondent, Segal. No other fact or act of alleged misconduct in his life as a lawyer for ten or more years has been called to our attention. This testimony shows that Mr. Segal’s standing, character and integrity as a lawyer has been of the highest.

“We also take judicial notice of the fact that wide publicity has been given to the charges contained in the two orders of the Commission, above quoted. This publicity has existed for a period of more than six months and that necessarily during this time the respondent, Segal, has been more or less under a cloud because of...
these charges, and that necessarily his practice must have been adversely affected. We also take into consideration that this is the first time this Commission has been called upon to enunciate certain principles relating to the truthfulness of answers contained in applications. We have given careful consideration to the testimony of Mr. Segal, namely, that he did not feel that an applicant or his lawyer was required to divulge who the real applicant was until the hearing.

"After giving most careful consideration to these facts as extenuating circumstances, the Commission concludes that the ends of justice will be fully served by suspending Mr. Segal from practicing before this Commission from December 6, 1937, until the sixth day of February, 1938, and the Commission's order will issue accordingly."

And issued the following orders:

FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C.

IN THE MATTER OF:
A Rule to Show Cause Issued to
Paul M. Segal and
George S. Smith

Order of the Commission
Charges heretofore having been preferred by the Commission in the above-entitled matter by orders of May 19 and September 16, 1937, and

The Commission having considered the separate and joint answers of the respondents thereto, the evidence adduced at public hearings duly held thereon, oral argument presented, and

In conformity with its opinion and findings this day issued,

It is, this 4th day of December, 1937, ORDERED
That Paul M. Segal be, and he is hereby, suspended from practicing as an attorney before this Commission during the period from December 6, 1937, to and including February 5, 1938.

BY THE COMMISSION.

T. J. SLOWIE,
Secretary.

TELEVISION STATION GRANTED

The Federal Communications Commission at its meeting on Wednesday granted a construction permit to the Philco Radio & Television Corp., of Philadelphia for the erection of a new television broadcast station to be located at Philadelphia and to use 20,400-210,000 kilocycles on an experimental basis only, with 15 watts power for a visual transmitter.

DENIAL OF NEW STATION RECOMMENDED

The Evanston Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Evanston, Ill., to use 1020 kilocycles, 250 watts and daytime operation.

Examiner George H. Hill in Report No. 1-542 recommended that the application be denied. He states that "while there is no radio-broadcast station located in Evanston, Ill., there does not appear to be any substantial need for the services of the proposed station. Evanston is in the metropolitan area of Chicago and receives primary service from a large number of stations. Many of these stations deliver a greater signal in Evanston than the proposed station would lay down, if the application was granted."

INCREASED POWER RECOMMENDED FOR KQW

Broadcasting station KQW, San Jose, Cal., operating unlimited time on 1010 kilocycles applied to the Federal Communications Commission to increase its daytime power from 1,000 watts to 5,000 watts, to select a new site locally, install a new transmitter and erect a vertical radiator.
Examiner Tyler Berry in Report No. I-541 recommended that the application be granted. He states that there appears to be a need for the service proposed and the granting of the application would not cause objectionable interference. The Examiner says that granting of the application would be in the public interest.

TEXAS STATION RECOMMENDED

Mervel M. Valentine applied to the Federal Communications Commission for a construction permit for the erection of a new station at Laredo, Texas, to use 1500 kilocycles, 100 watts and 250 watts LS and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-539 recommended that the application be granted. He states that "according to the proof adduced by the Commission engineer no objectionable interference would ensue as the result of granting this application to or from existing stations." The Examiner states also that "in view of the fact that such stations as supply radiobroadcasting service of a primary nature to the city of Laredo are located in the Republic of Mexico and that the nature of these broadcasts is not satisfactory or appropriate to meet the demands of the population sought to be served by this applicant, there appears to be a need for the local facilities sought herein."

RECOMMENDS ALABAMA STATION

John S. Allen and G. W. Covington, Jr., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Montgomery, Ala., to use 1210 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. 540 recommends that this application be granted. He states that "the evidence indicates that a need exists in the area proposed to be served for additional radio broadcast service." The Examiner states that the granting of the application would be in the public interest.

DISMISSAL WITH PREJUDICE

The Airfan Radio Corp., Ltd., applied to the Federal Communications Commission for a construction permit for the erection of a new station at San Diego, Cal., to use 1420 kilocycles, 100 watts and unlimited time on the air.

Examiner Robert L. Irwin in Report No. I-531 recommended that the application be denied with prejudice. The Examiner states that "when the application was called for hearing, counsel for the applicant stated for the record that he had prepared the evidence in this proceeding but immediately prior to the date set for hearing his client had instructed him to note a withdrawal of the application."

WBNO LICENSE RENEWAL DENIAL RECOMMENDED

The Southern Broadcasting Corporation, applied to the Federal Communications Commission for a construction permit for the erection of a new station at New Orleans, La., to use 1200 kilocycles, 100 watts and 250 watts LS and the unlimited facilities of WBNO and WJBW. Also Station WBNO, New Orleans, asked for a license renewal and for changes from 1200 to 1420 kilocycles, from 100 watts to 100 watts and 250 watts LS and from sharing time with WJBW to unlimited time.

Examiner P. W. Seward in Report No. I-532 recommended that the application of the Southern Broadcasting Corporation "be dismissed with prejudice"; that the application of Station WBNO for license renewal be denied and that its application for changes also be denied.

It is also stated by the Examiner that "it appears that the acts and conduct of the applicant in connection with Radio Station WBNO has violated Section 310(b) of the Communications Act of 1934."

RECOMMENDS POWER INCREASE FOR WRNL

Broadcasting station WRNL, Richmond, Va., applied to the Federal Communications Commission to increase its power from 500 to 1,000 watts and from daytime to unlimited time on the air. The station operates on 880 kilocycles.

Examiner Melvin H. Dalberg in Report No. I-534 recommended that the application be granted, employing a directional antenna day and night. He states that the change would not cause objectionable interference and says that "there appears to be a need in the Richmond area for the type of service proposed by the applicant."

PROVISIONAL PERMIT RECOMMENDED

Ellwood W. Lippincott, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Bend, Ore., to use 1310 kilocycles, 100 watts and unlimited time on the air.

Examiner Tyler Berry in Report No. I-529 recommended that "if the application of Bend Bulletin be denied that the application of Ellwood W. Lippincott, Inc., be granted, subject to the selection of a satisfactory transmitter site. But if the application of Bend Bulletin be granted, then it is recommended that the application of Ellwood W. Lippincott, Inc., be denied." There is need for service at Bend, the Examiner states.

RECOMMENDS DISMISSAL WITH PREJUDICE

The Broward Broadcasting Company applied to the Federal Communications Commission for a construction
permit for a new station to be located at Ft. Lauderdale, Florida, to use 1370 kilocycles, 100 watts and 250 watts LS and unlimited time.

Examiner P. W. Seward in Report No. I-536 recommended that the application be dismissed with prejudice. When the case came on for hearing at the Commission the applicant was not represented.

DENYING STATION ASSIGNMENT RECOMMENDED

The Black Hills Broadcast Company, an unincorporated association, applied to the Federal Communications Commission for authority to transfer control of Station KOBH, Rapid City, S. D., to the Black Hills Broadcast Company, of Rapid City, a corporation.

Examiner Robert L. Irwin in Report No. I-530 recommended that the application be denied. He states that “the application may not be granted within the purview of Sections 301 and 310(b) of the Communications Act of 1934. The provisions of Section 310(b) prohibit the assignment or transfer of the rights granted in the station license prior to a determination and consent in writing by the Commission that said transfer or assignment is in the public interest.”

LICENSE RENEWAL RECOMMENDED FOR WJWB

Broadcasting Station WJWB, New Orleans, La., using 1200 kilocycles, 100 watts and sharing time with WBNO applied to the Federal Communications Commission for a license renewal.

Examiner P. W. Seward in Report No. I-537 recommended that the application be granted. He states that “the manner in which Radio Station WJWB has been operated does not disclose that it has been in any wise in violation of Sections 301 and 310(b) of the Communications Act of 1934.” The Examiner says that the continued operation of the station would be in the public interest.

NEW PENNSYLVANIA STATION RECOMMENDED

The Keystone Broadcasting Company, applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at New Castle, Pa., to use 1250 kilocycles, 250 watts and daytime operation.

Examiner Tyler Berry in Report No. I-533 recommended that the application be granted. The Examiner states that there is need for the service in the area proposed. There would be very slight interference to a small area adjacent to the transmitter of the proposed station. The applicant specified that the antenna site is to be subject to the Commission’s approval. The Examiner found that granting of the application would be in the public interest.

NEW STATION DENIAL RECOMMENDED

Jules J. Rubens applied to the Federal Communications Commission for a construction permit for the erection of a broadcast station at Aurora, Ill., to use 1040 kilocycles, 250 watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-535 recommended that the application be denied. He states that “the evidence adduced at the hearing does not establish such facts as would justify a conclusion that the applicant has had any experience whatsoever in the management or conduct of a radio broadcast station, or that he has any knowledge or is familiar with the problems involved, either in the operation of such a station or the conduct of its business.”

The Examiner says further in this case that “while the proposed programs appear to be typical for stations of this class, the applicant’s expectations of procuring live talent of a very high order is not supported or corroborated by any proof worthy of serious consideration.”

NEW STATIONS RECOMMENDED ON 940 KC.

Four applications have been filed with the Federal Communications Commission for the construction of broadcasting stations on the frequency 940 kc. These applications were filed by the El Paso Broadcasting Company, El Paso, Texas; The Tribune Company, Tampa, Florida; Radio Station KGKL, San Angelo, Texas; and the World Publishing Company, Tulsa, Oklahoma.

John P. Bramhall in Report No. I-538 made the following recommendations on these applications:

1. That the application of the El Paso Broadcasting Company, El Paso, Texas, be granted on condition that Dorrance D. Roderick, applicant in Docket No. 3858, abandon his application for a new station at El Paso.

2. That the application of the World Publishing Company, Tulsa, Oklahoma, be granted.

3. That the application of KGKL, Inc., San Angelo, Texas, be denied.

4. That the application of The Tribune Company, Tampa, Florida, be granted.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3275. Alleging certain unfair representations in the sale of cosmetics, a complaint has been issued against Allen H. Rabin, trading as The Rabin Company, 820 McGarry St., Los Angeles. Representations of The Rabin Company are alleged to have misled buyers into believing that its products contain sufficient amounts of oil of avocado to be beneficial.
According to the complaint, the avocado oil content in cleansing and tissue creams advertised was so small as to be negligible, and was incapable of impairing beneficial effects, and an astrinient, a liquid powder base, lipstick and rouge allegedly contained no avocado oil.

No. 3276. A company manufacturing fabrics and one of its customers, a garment maker, are named respondents in a complaint charging misrepresentation of the fiber content of certain merchandise they sell in interstate commerce.

The respondents are A. Schottland, Inc., 1441 Broadway, New York, charged with unfair competition in the sale of fabric to Valmor Undergarment Company, 40 West Gav St., Columbus, Ohio, and Valmor Undergarment Company, 149 Madison Ave., New York, manufacturer of women's undergarments and allied products for sale to retailers and other customers.

In selling certain fabrics to garment makers, the complaint alleges, the Schottland company supplies such customers with labels and tags to be attached and which customers do attach, to the garments manufactured from the fabrics purchased. These labels and tags, it is alleged, bear the words "Pure Dye Nanette Crepe—Du Pont Rayon and Silk," the words "Pure Dye" and "Crepe" being prominently displayed, while the words "Du Pont Rayon and Silk" are printed in small and less conspicuous type. Other fabrics sold by the Schottland company are labeled "Ray—silk," the complaint charges.

Valmor Undergarment Company, according to the complaint, attaches the tags, and labels supplied by the Schottland company to women's apparel it manufactures from the fabrics purchased from that company, and also supplies its customers with display cards which bear the same words as those appearing on the tags and labels referred to. The Valmor company allegedly describes other garments as "Van Ceta Taffeta" and "Val Sheen Satin."

No. 01928. Var-Ne-Sis Medicine Company, 3279. Violation of Section 3 of the Clayton Act, which requires all schedules of sale of its products, with more than 900 dealers, the contracts and the terms of the contracts, the dealer receives 50 per cent discount available to the retail trade generally.

No. 3280. Belvedere Silks, Inc., 1384 Broadway, New York, is charged with unfair competition in the sale of fabric to garment manufacturers and other customers, in a complaint.

Using its corporate name containing the word silks and the phrase Belvedere Silks, the respondent company is alleged to have advertised and sold fabrics not composed of silk but of rayon and silk, and to have marketed such products without disclosing that they were not silk.

No. 01929. Hood-Lax Corporation, 685 Broadway, New York, agrees to cease advertising that its Cal-Pal is a nerve, tissue or body builder, unless this assertion is limited to its reference to bones and teeth; that the preparation is beneficial in nervous disorders, unless this is limited to temporary disorders due to Vitamin B deficiency, and that calcium deficiency is a result of modern diet, unless the claim is restricted in its reference to localities where milk and green leafed vegetables are scarce and sparingly used, or to individuals whose diets do not include sufficient milk or green leafed vegetables.

No. 01932. Drezma, Incorporated, 130 West Forty-second St., New York, in the sale of Drezma Lotion and Drezma Nourishing Cream, stipulates that it will no longer advertise that use of its lotion will prevent the pores from clogging; will normalize oily conditions of the skin, and that the preparation "works beneath your make-up to clear and beautify your skin."

The respondent company agrees to cease employing the word "nourishing" as a part of the trade name for its face cream, provided, however, that for six months from the date of acceptance of its stipulation, it shall be permitted to use, in connection with whatever trade name it may employ, the phrase "Formerly Drezma Nourishing Cream."

No. 01934. California Vegetable Concentrates, Inc., Architects Building, Los Angeles, selling certain preparations known as "Vegetable Fruit Fortifiables." Compounds of Vegetable Concentrates, stipulates that it will no longer advertise that its preparates are favorably effective for health, and that its preparation is deficient in minerals and that any of its products are prolific sources of vitamin potencies unless limited to vitamins A and C. The respondent company will discontinue representing that its preparations are in the treatment of such ailments as low blood pressure, nervous debility, muscular rheumatism, calcium deficiency, malnutrition, goiter, and intestinal ulcers.

No. 01935. W. H. Braun, 537 South Dearborn St., Chicago, trading as Imperial Brands Company, will cease representing that his product designated Steno Nail Protection Cream will transform brittle, peeling or splitting nails into healthy or lovely finger-tips; that it will cause spots to disappear or hangnails to vanish; that it nourishes the nails and can be relied upon to correct bad nails, unless this claim is limited to conditions where it constitutes a corrective treatment.

No. 01936. R. M. Jones and A. J. Cage, trading as Cajo Distributing Company, 40 West Gav St., Columbus, Ohio, engaged in the sale of Clanoids Tablets, agreed to cease advertising that the preparation is a rejuvenating, scientific tonic-stimulant and a remedy for persons suffering from weak glands; that it will help those who suffer from headache and run down; that through its use one can be young again, and that it possesses glandular food value and produces lasting benefits.

No. 01937. Grace Donohue, Inc., 610 Madison Ave., New York, will cease advertising that Seba Gland Cleanser decomposes dirt particles, neutralizes excess acid residue, and is an aid in preventing eruptions or other facial blemishes; that Sanguatone will correct acne, pimples, blackheads, blemishes or blotchy skin; that Dermatone nourishes the skin, and that Pure Pore Balm is nourishing to the skin or pores. The respondent corporation further agrees to discontinue use of the names Seba Gland Cleanser, Sanguatone, and Pure Pore Balm for the products now so designated.

No. 01938. Silmo Chemical Company, Inc., Vinealand, N. J., will cease representing that its cod liver oil product, Silmo XX, sold as a poultry remedy assures eggs with stronger shells and increased hatchability and the production of eggs, unless all comparative conditions are clearly stated in the advertisement in sufficiency close proximity to command attention. The respondent company admitted that its product will be as effective as represented only when fed in sufficient amounts to poultry getting less than an adequate amount of Vitamin A, D or E.

No. 01939. Oriental Importing Company, 654 West Lake St., Chicago, will cease advertising that any incense it sells is "lucky" or develops "lucky numbers," is prepared in accordance with a rare or mystic formula, and will bring prosperity, peace or happiness.

No. 01940. Household Helps, Inc., Muncie, Ind., selling Ope-N-Seal, a device described as a fruit jar tool kit, agrees that it will stop making unmodified representations of earnings of salesmen in excess of the average earnings of its active, full-time salesmen or dealers under normal business conditions, and will...
cease representing that any salesperson referred to in its advertising has entered into a stipulation to discontinue certain false and misleading representations in connection with the sale of Watkins Baking Powder, which contains, among other ingredients, dried white of egg.

According to the stipulation, the respondent company circulated among its dealers folders containing instructions for making what is known as the water-glass test, whereby it purportedly could be demonstrated that Watkins Baking Powder was a superior product and would give “better results.” Certain dealers followed the instructions in making the test which involved the use of Watkins Baking Powder and frequently a competing baking powder which did not contain any white of egg.

No. 2101. Nathan R. Stern, 6619 Denison Ave., Cleveland, trading as Western Reserve Laboratories, has entered into a stipulation to discontinue certain misrepresentations in connection with the interstate sale of a product to be used as a household cleaning agent and as a windshield cleaner.

According to the stipulation, Stern labeled his product Benzylene-Crystals, but suggested to retail customers that they use the name Benzine or Spray-On for the product, and furnished them with labels bearing the name Benzoline.

Stern agreed to cease using the words Benzene or Benzolene in any manner so as to imply that the preparation to which the words refer is a benzene product or crystallized benzene, when such is not a fact. He also will stop representing that cleaning with the so-called Benzene Crystals or Benzolene is the same as cleaning with naphtha or some other dry cleaning preparation, or that such product is a proper substitute for dry cleaning or the use of naphtha.

Cease and Desist Orders

The Commission has issued the following order and desist orders:

No. 2399. The J. R. Watkins Company, Winona, Minn., has entered into a stipulation to discontinue certain false and misleading representations in connection with the sale of Watkins Baking Powder, which contains, among other ingredients, dried white of egg.

Under the order, the respondent is directed to discontinue selling or otherwise disposing of clocks or other merchandise by the use of punch cards or similar devices, and to cease supplying and shipping to others certain punch cards or similar devices so pre-printed or pre-set that they enable them to sell or distribute clocks or other merchandise.

FTC DISMISSES COMPLAINTS

Nos. 2232-2233-2396. The Federal Trade Commission has dismissed complaints against Bristol-Myers Company, New York City, drug manufacturer, Gillette Safety Razor Company, Boston, and Yardley & Co., Ltd., New York City, manufacturer of soaps and toiletry preparations. The complaints charged resale price maintenance in the sale of the respondent companies’ products, and were issued and the cases tried prior to approval of the Tydings-Miller Act.

In dismissing the complaints, the Commission points out that the testimony and evidence in these proceedings appears insufficient to support the allegations respecting the respondent's sales into the District of Columbia for resale therein, or sales into States not having statutes legalizing minimum resale price contracts or agreements.
The order of dismissal points out that the Tydings-Miller Act, approved August 17, 1937, provides that nothing therein contained shall render illegal contracts or agreements prescribing minimum prices for resale of a commodity which bears, or the label or container of which bears the trade-mark, brand or name of the producer or distributor of such commodity, and which is in free and open competition with commodities of the same general class produced or distributed by others, when that type of contracts or agreements are lawful as applied to intra-state transactions under the laws or public policy of any State in which such resale is to be made, or to which the commodity is to be transported for such resale.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, December 13:

Monday, December 13

HEARING BEFORE AN EXAMINER
(Broadcast)

KRVG—M. S. Niles, Transferor, O. L. Taylor, Gene Howe and T. E. Snowden, Transferees, Weslaco, Tex.—Transfer of control of corporation.

Thursday, December 16

ORAL ARGUMENT BEFORE THE COMMISSION
Examiner's Report No. 1-475:

Examiner's Report No. 1-461:

Examiner's Report No. 1-476:
NEW—Summit Radio Corp., Akron, Ohio.—C. P., 1420 kc., 1 kW, unlimited time.

Examiner's Report No. 1-487:

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Lake Region Broadcasting Co., Lakeland, Fla.—C. P., 1310 kc., 100 watts night, 250 watts LS, unlimited. Present assignment: 1310 kc., 100 watts, unlimited time.

The Commission has taken the following action:

APPLICATIONS GRANTED

WGN—WGN, Inc., Chicago, Ill.—Granted special experimental authority to operate applicant's regular broadcast transmitter for the experimental transmission of facsimile signals from 1 to 6 a.m., using 50 KW power on the frequency regularly assigned to WGN, 720 kc., for the duration of the regular license period for WGN, which expires February 1, 1938.

WSM—The National Life and Accident Insurance Co., Nashville, Tenn.—Granted special experimental authority to operate its regular broadcast transmitter for the experimental transmission of facsimile on frequency 650 kc., with 50 KW power, from midnight to 6 a.m., CST, for the duration of the present license period, February 1, 1938.

KSD—The Pulitzer Publishing Co., St. Louis, Mo.—Granted special experimental authorization to operate regular broadcast transmitter of KSD for experimental transmission of facsimile signals from 1 to 6 a.m., using 1 KW, for the period December 1, 1937, to March 1, 1938, on 550 kc.

WOR—Bamberger Broadcasting Service, Inc., Newark, N. J.—Granted special experimental authority to operate a 5-KW auxiliary broadcast transmitter for the experimental transmission of facsimile on frequency 710 kc., with 5 KW, from 2 to 6 a.m., for the duration of the present license period, February 1, 1938.

NEW—Everett L. Dillard, d/b as Commercial Radio Equipment Co., Kansas City, Mo.—Granted C. P. for new high frequency broadcast station, frequencies 31600, 35600, 38600 and 41000 kc., on an experimental basis, 250 watts.

NEW—Philo Radio & Television Corp., Philadelphia, Pa.—Granted C. P. for new television broadcast station to be located in Philadelphia, frequencies 20400-210000 kc., on an experimental basis only, power 15 watts for visual transmitter.

KSTP—National Battery Broadcasting Co., St. Paul, Minn.—Granted special experimental authority to operate regular transmitter for experimental transmission of facsimile from 1 to 6 a.m., using 10 KW power on 1450 kc.

WAXH—Savannah Broadcasting Co., Inc., Mobile (Savannah, Ga.)—Granted modification of C. P. covering authority to make changes in equipment and increase in power from 10 to 50 watts.

KRLD—KRLD Radio Corp., Dallas, Texas.—Granted C. P. covering installation of new equipment.

W9XUP—National Battery Broadcasting Co., St. Paul, Minn.—Granted modification of C. P. approving transmitter site at North Snelling Ave., and approval of antenna system.

WBRE—Louis G. Baltimore, Wilkes-Barre, Pa.—Granted license to cover C. P. covering move from present location to Kingston, Pa., and install vertical antenna.

WHIP—Hammond-Calumet Broadcasting Corp., Hammond, Ind.—Granted license to cover C. P. as modified authorizing new station to operate on 1480 kc., 5 KW, daytime only, using directional antenna; transmitter to be located at 137 Pochman Avenue.

KAXA—Earle C. Anthony, Inc., Mobile (Los Angeles, Calif.)—Granted license to cover C. P. for relay broadcast station, frequencies 1606, 2022, 2102 and 2758 kc., 100 watts.

WHAS—The Louisville Times Co., Louisville, Ky.—Granted modification of C. P. extending completion date from 1-5-38 to 1-3-38.

KGCI—Clarence A. Berger and Saul S. Freeman, Couer D'Alene, Idaho.—Granted modification of C. P. approving transmitter at 3rd and Banerof, and studio at 2nd and Sherman, both Couer D'Alene, Idaho; also approving new equipment and installation of vertical antennas.

KAI D—Woodmen of the World Life Ins. Society, Mobile (Omaha, Neb.)—Granted license to cover C. P. for relay broadcast station, frequencies 1622, 2058, 2150 and 2790 kc., 100 watts.

NEW—National Broadcasting Co., Inc., Mobile (Bellmore, N. Y.)—Granted C. P. and license for new relay broadcast station, frequencies 1606, 2022, 2102 and 2758 kc., 500 watts.

WPRO—Cherry & Webb Broadcasting Co., Providence, R. I.—Granted C. P. to install a new transmitter.

WSIX—WSIX, Inc., Nashville, Tenn.—Granted license to cover C. P. authorizing 250 watts LS; 1210 kc., 100 watts daytime.

WKAT—A. Frank Katzenstein, Miami Beach, Fla.—Granted license to cover C. P. to operate on 1500 kc., 100 watts, unlimited time.

WPTC—Jonas Weland, Kinston, N. C.—Granted authority to make changes in automatic frequency control apparatus.

WOW—Woodmen of the World Life Ins. Assn., Omaha, Neb.—Granted modification of license to change name from Woodmen of the World Life Ins. Assn., to Woodmen of the World Life Insurance Society.

W9XPM—W9XPT—Woodmen of the World Life Ins. Assn., Mobile (Omaha, Neb.)—Granted modification of license to change
name from Woodmen of the World Life Ins. Assn. to Woodmen of the World Life Insurance Society.

KOVC—KOVC, Inc., Valley City, N. Dak.—Granted license to cover C. P. authorizing 250 watts LS, 1500 kc, 100 watts night, unlimited time.

WBRD—Birmingham Broadcasting Co., Inc., Birmingham, Ala.—Granted modification of C. P. authorizing installation of new equipment.

WSFA—Montgomery Broadcasting Co., Inc., Montgomery, Ala.—Granted authority to make changes in automatic frequency control apparatus.

WMRG—Havens & Martin, Inc., Richmond, Va.—Granted C. P. for installation of auxiliary transmitter for emergency purposes only, to operate with power of 250 watts, employing present directional antenna system.

W8XNK—Charleston Broadcasting Co., Mobile (Charleston, W. Va.).—Granted license of C. P. and license to cover same, authorizing changes in equipment and decrease in power from 5 to 2 watts, in relay broadcast station.

KSFN—National Broadcasting Co., Inc., Mobile (Area of San Francisco).—Granted modification of license for use of A1 and A2 emission in addition to A3 now authorized in outstanding permit.

NEW—The WGR Broadcasting Co., Mobile (area of Cleveland).—Granted C. P. for new relay broadcast station, frequencies 1622, 2022, 2102, 2783 kc., 100 watts.

WAAS—The WGR Broadcasting Co., Mobile (area of Cleveland).—Granted license covering above C. P.

WAHJ—The Champaign News-Gazette, Inc., Mobile (Champaign, Ill.).—Granted license to cover C. P. for relay broadcast station, frequencies 1806, 2092, 2102, 2783 kc., 100 watts.

KTMS—The News-Presbyterian, Mobile, Ala.—Granted license to cover C. P. for new station, 1220 kc., 500 watts unlimited time, using directional antenna for both day and night-time operation.

KDYL—Intermountain Broadcasting Corp., Salt Lake City, Utah.—Granted modification of C. P. approving transmitter site and installation of new equipment and vertical radiator.

WSMB—WSMB, Inc., New Orleans, La.—Granted modification of C. P. approving transmitter site.

SET FOR HEARING

NEW—W. A. Barnette, Greenwood, S. C.—C. P. for new station to operate on 610 kc., 250 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

NEW—F. C. Todd, Gastonia, N. C.—C. P. for new station to operate on 1150 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter and studio sites to be determined with Commission approval.

NEW—Roberts-MacNab Co., Livingston, Mont.—C. P. (already in hearing docket) amended to request frequency 1310 kc., 1500 watts night, 250 watts day, unlimited time, exact transmitter and studio sites to be determined with Commission approval.

NEW—S. B. Quigley, Mobile, Ala.—C. P. for new station to operate on 1290 kc., 100 watts, daytime only, exact transmitter and studio sites and type of antenna to be determined with Commission approval.

KGDC—Golden Gate Broadcasting Co., San Francisco, Calif.—Modification of C. P. for changes in equipment; increase in power from 600 watts day to 1320 watts, effective January 1, 1938, unlimited time, exact transmitter and studio sites to be determined with Commission approval.

WTAW—Agricultural & Mechanical College of Texas, College Station, Tex.—C. P. to move transmitter locally; change time of operation from specified hours to daytime only (facilities of KTBC).

KGD—E. F. Peifer, Stockton, Calif.—C. P. to move transmitter locally to an exact location to be determined with Commission’s approval; install new equipment; change frequency from 1100 kc. to 1150 kc.; increase power to 5 kW; and change hours of operation to limited time.

NEW—Tampa Times Company, Tampa, Fla.—Modification of license to install directional antenna system for day and night-time operation, and change frequency from 1220 kc. to 780 kc.

NEW—Jay Levine, Palm Springs, Calif.—C. P. (already in hearing docket) amended to request frequency 1370 kc., 100 watts night, 250 watts day, unlimited time. Exact transmitter site to be determined with Commission’s approval.

NEW—Michael J. Mingo, Tacoma, Wash.—C. P. for new station to operate on 1400 kc., 250 watts, daytime only, exact transmitter location to be determined subject to Commission’s approval; also type of antenna to be determined.

NEW—Wodaam Corp., New York City.—Modification of license to increase power from 1 kW to 5 kW.

NEW—J. F. Egeland, Port Dodge, Iowa.—C. P. for new station, already in hearing docket, amended to request 1500 kc., 100 watts, daytime only, exact transmitter and studio sites to be determined with Commission’s approval.

NEW—Clinton Broadcasting Corp., Clinton, Iowa.—C. P. for new station to operate on 1310 kc., 100 watts night, 250 watts day, unlimited time, exact transmitter site to be determined with Commission’s approval.

WGAS—Estate of George W. Martin (by Mary P. Martin, Administratrix), Portland, Me.—Transfer of control of Portland Broadcasting System, Inc., permitted of WGAN, from Estate of George W. Martin, deceased, to William N. Campbell and Lloyd C. Greene; 610 kc., 500 watts night-day, limited time, employing directional antenna.

KMPC—KMPC, The Station of the Stars, Inc., Beverly Hills, Calif.—Special experimental authority to operate unlimited time experimentally from date of grant to expiration of present license, February 1, 1938 (to be heard before the Commission).

NEW—Frank Ray, Dickinson, N. Dak.—Application for new station to operate on 1510 kc., 100 watts night, 250 watts day, unlimited time.

NEW—Jonal Welland, New Bern, N. C.—Application for new station to operate on 1370 kc., 100 watts power, unlimited time, exact transmitter and studio sites to be determined subject to Commission's approval, as well as type of antenna.

NEW—Larry Rhine, San Francisco, Calif.—Application for C. P. already in hearing docket, amended to request 1150 kc., 1 kw, daytime operation, exact transmitter and studio sites and type of antenna to be determined subject to Commission’s approval.

WBNG—WBNG Broadcasting Co., Inc., New York City.—Application for C. P., already in hearing docket, amended to request move of transmitter site locally; installation of new equipment and directional antenna system; and increase in day power from 1 to 5 kW, employing directional antenna system for both day and night-time operation.

WRDW—Augusta Broadcasting Company, Augusta, Ga.—Application for C. P. to install new equipment and directional antenna system; change frequency from 1500 kc. to 1240 kc.; increase power from 100 watts night, 250 watts day, to 1 kw, employing directional antenna system for night-time operation.

WFYO—Fountain of Youth Properties, Inc., St. Augustine, Fla.—Application for C. P. to install new antenna; change frequency from 1210 kc. to 590 kc.; increase night power from 100 to 250 watts.

KPCA—Port Arthur College, Port Arthur, Tex.—Application for C. P. to move transmitter site locally; make changes in transmitter, install directional antenna system; change frequency from 1260 kc. to 1350 kc.; increase power from 300 watts day time only to 1 kw unlimited time, using directional antenna for night-time operation.

WMBS—Fayette Broadcasting Corp., Uniontown, Pa.—Application for modification of license to increase power and time of operation from 250 watts, daytime only, to 100 watts, 250 watts day, unlimited time.

KYG—The Standard Publishing Co., Inc., Berea, Calif.—Application for voluntary assignment of license to Merced Broadcasting Company, a newly organized corporation; 1040 kc., 250 watts, daytime only.

NEW—Harry M. Ayers, Anniston, Ala.—C. P. for new station; 1430 kc., 100 watts, daytime only; exact transmitter and studio sites and type of antenna to be determined with Commission approval.

NEW—Kathryn B. Gosselin, Aurora, III.—C. P. for new station to operate on 1560 kc., unlimited operation; transmitter location to be determined with Commission’s approval, also type of antenna.

WMC—Memphis Commercial Appeal Co., Memphis, Tenn.—C. P. for changes in directional antenna system; increase in night power to 5 kw. (To be heard before the Commission.)
WRTD—The Times Dispatch Publishing Co., Inc., Richmond, Va.—Voluntary assignment of license to Times-Dispatch Radio Corp., a newly organized corporation. 1500 kc., 100 watts, unlimited time.

WGAL—WGAL, Inc., Lancaster, Pa.—C. P. to move transmitter from Marjett Pike, Lancaster Township, Lancaster, Pa.; also install new equipment and directional antenna system; change frequency from 1500 kc. to 1510 kc.; increase power from 100 watts night, 250 watts day to 1 kw, unlimited time, using directional antenna system for nighttime operation. (To be heard before the Commission. Va.)

WTMV—Mississippi Valley Broadcasting Co., Inc., E. St. Louis, Ill.—C. P. to move transmitter site locally 3 miles east of E. St. Louis, Ill. Also install new equipment and directional antenna system; change frequency from 1500 kc. to 1510 kc.; increase power from 100 watts night, 250 watts day to 1 kw, unlimited time, to: 1 kw night, 5 kw day, employing directional antenna for both day and night-time use. (To be heard before the Commission.)

NEW—Scripps-Howard Radio, Inc., Denver, Colo.—C. P., already in hearing docket, amended as to transmitter site, equipment and power; 650 kc., 1 kw night, 5 kw day, using directional antenna for both day and night operation; exact studio location to be determined with Commission’s approval.

WCBS—W. Hoffman, Joliet, Ill.—Application for transfer of control to L. W. Wood (1310 kc., 100 watts night and day, specified hours).

KQRA—J. Laurence Martin, Santa Fe, New Mexico.—Voluntary assignment of license to L. E. Lambeth; 1310 kc., 100 watts, 250 watts daytime, to: 1 kw, unlimited time.

NEW—Garden Island Publishing Co., Ltd., Lihue, Kauai, T. H.—C. P. for new station requesting frequency 1500 kc., 100 watts, night, 250 watts, day, unlimited time, Exact transmitter and studio sites and type of antenna to be determined with Commission’s approval.

WAYX—E. F. Sapp and S. F. Sapp, d/b as Waycross Broadcasting Co., Waycross, Ga.—Voluntary assignment of license to Jack Williams; 1200 kc., 100 watts night, 250 watts day, unlimited time, under C. P. (To be heard before the Commission.)

WRLA—Herbert Lee Byie, Lima, Ohio.—Voluntary assignment of license to The Fort Industry Company; 1210 kc., 100 watts, day only.

KHUB—Anna Atkinson, Executrix, Watsonville, Calif.—Voluntary assignment of license to: John P. Scripps; 1310 kc., 250 watts, daytime only.

WFAB—Fifth Avenue Broadcasting Corp., Carlstadt, N. J.—Application for voluntary assignment of license to Debs Memorial Radio Fund, Inc.; 1300 kc., 1 kw, sharing with WNOY WEVD and WBRB (day and night).

NEW—Ben S. McGlashan, Mobile (Los Angeles, Cal.)—C. P. for new relay station; frequencies 1622, 2608, 2150, 2790 kc., 10 watts, unlimited operation.

NEW—Ben S. McGlashan, Mobile (Los Angeles, Cal.)—C. P. for new relay station; frequencies 1622, 2608, 2150, 2790 kc., 75 watts, unlimited operation.

RENEWAL OF LICENSES

The following stations were granted renewal of licenses for the regular period:

The Commission (by Case, Commissioner) took the following action on December 6, 1937:

APPLICATONS DISMISSED

The following cases, heretofore set for hearing, were dismissed at request of applicants:

WGES—Oak Leaves Broadcasting Station, Inc., and WSBC, Inc., Chicago, III.—Authority to transfer control of corporation to WSBC, Inc.; 1360 kc., 500 watts, 500 watts LS, shares with WSBT, except Sunday, when station has 1 kw LS.

The following applications, heretofore set for hearing, were returned to the files, inasmuch as the date for which the authority was requested has passed:

Chamber of Commerce, Eureka Springs, Ark.—Authority to transmit a 1 hour program Nov. 6, 1937, to Station XENT, Nuevo Laredo, Mexico, through the facilities of Southwestern Bell Telephone Co.

Delaware Channel Corporation.—Dismissed, at request of petitioner, the petition of Delaware Channel Corp. to reopen hearing in order to obtain authority for transfer of control of station WTBO, The Associated Broadcasting Corp., Cumberland, Md., from Roger W. Clipp and Frank V. Becker, to the Delaware Channel Corp.

WMAZ—Southeastern Broadcasting Co., Inc., Macon, Ga.—Denied petition to intervene in the hearing on application of station WKEU, Griffin, Ga., to move to Macon, Ga., and change frequency from 1500 to 1310 kc., power from 100 watts daytime to 100 watts night, 250 watts LS, unlimited time.

NEW—The Rapids Broadcasting Co., Cedar Rapids, Ia.—Denied petition to extend the effective date of decision beyond December 15, 1937.

WMBQ—Havens and Martin, Inc., Richmond, Va.—Granted petition for rehearing in the hearing on the application of WRTD, The Times-Dispatch Publishing, Inc., for a C. P. to change frequency and power from 1500 to 1050 kc., and 100 watts to 500 watts, unlimited time.

NEW—George W. Taylor Co., Inc., Williamson, W. Va.—Denied petition for an order to submit interrogatories in connection with its application for a C. P. to establish a new station using frequency 1370 kc., 100 watts, daytime hours.

WRTD—The Times Dispatch Publishing Co., Richmond, Va.—Denied petition to intervene in the proceedings on the application of Havens and Martin, Inc. (WMBQ), Docket 4846.

The Commission also took the following action:

MISCELLANEOUS

NEW—Virgil V. Evans, Gastonia, N. C.—Denied petition for rehearing of application for new station at Gastonia, N. C., to operate on 1420 kc., 100 watts, unlimited time. This application was denied by the Broadcast Division, effective date, September 28, 1937.

WCB—B. Bryan Musselman, Allentown, Pa.; WSAN—WSAN Inc., Allentown, Pa.—Denied joint petition of applicants to reconsider and grant applicants their applications for renewal of licenses without a hearing.

WLB—Seaboard Radio Broadcasting Co., Glenside, Pa.—Granted petition in so far as it requests withdrawal of its Motion to Withdraw application in Docket No. 4362; denied petition in other respects; denied petition of WCFL to close record in Docket 4362 and the petitions of WCFL and KJY to withdraw.

WKKB—Sandars Bros. Radio Station, E. Dubuque, Ill.—Denied petition for rehearing in re Docket No. 3967, in which case the Broadcast Division entered its final order, effective July
NEW—Clarence C. Dill, Washington, D. C.—Denied petition for rehearing in re Docket No. 4079, involving denial of application for C. P. to erect a new station in Washington, D. C., to use 1530 kc., 1 KW, unlimited time, with directional antenna.

WMIN—Edward Hoffman, trading as WMIN Broadcasting Co., St. Paul, Minn.—Granted petition to reconsider and grant without hearing application for assignment of license to WMIN Broadcasting Co., a newly organized Minnesota corporation.

KSTP—National Battery Broadcasting Co., St. Paul, Minn.; WJSV—Columbia Broadcasting Co., Washington, D. C.—Granted petition to reopen hearing in re Docket 4756, application of KSTP to install new equipment and increase power to 30 kw, and Docket 4757, WJSV’s application for denial of C. P. to change frequency from 1200 to 1420 kc., increase power from 100 watts, to 100 watts, 250 W-LS, and time of operation from sharing with WJJB to unlimited.

NEW—Courier Post Publishing Co., Hannibal, Mo.—Denied petition of Courier Post Publishing Co. for a rehearing in re their application to erect a new station in Washington, D. C., to use frequency 1310 kc., 100 watts, 250 watts LS, unlimited time, and dismissed petition of Hannibal Broadcasting Co. to participate in rehearing, and the opposition thereto of The Courier-Post Publishing Co.

WFLA—Florida West Coast Broadcasting Co., Inc., Clearwater. Fla.—Dismissed petition and supplemental petition of Florida West Coast Broadcasting Company, Inc., for rehearing in Docket 4425 wherein Commission granted authority to WIOD-WMPF, Miami, Fla., to change frequency; dismissed opposition of WIOD to petition for rehearing.

EXAMINERS’ REPORTS RELEASED SINCE NOVEMBER 17

NEW—Ex. Rep. 1-523: United Theatres, Inc., San Juan, P. R.—Examiner Tyler Berry recommended grant of C. P. for new station to operate on frequency 1310 kc., 1 KW, unlimited time.

KQV—Ex. Rep. 1-524: KQV Broadcasting Co., Pittsburgh, Pa.—Examiner Melvin Dalberg recommended grant of application for change in time of operation from simultaneous, day, WSMK, shares hours night, to unlimited, increase in power from 500 watts to 1 KW with use of directional antenna at night.

WSMK—WSMK, Inc., Dayton, Ohio.—Examiner Dalberg recommended grant of application to increase power to 200 watts to 250 watts night, 500 W-LS, and change time of operation from simultaneous, day, WSMK, shares hours night, to unlimited, with use of directional antenna at night.

WDEV—Chas. B. Adams, Administrator of the Estate of Harry C. Whitehill, Executor of the estate of Mary M. Whitehill, Waterbury, Vt.—Examiner Hyde recommended grant of renewal of license for station WDEV to operate on 550 kc., 500 watts, daytime.

NEW—Ex. Rep. 1-528: Nathan M. Bauer, Miami, Fla.—Examiner P. W. Seward recommended grant of C. P. for new station to operate on 1420 kc., 100 watts, unlimited time.

NEW—Ex. Rep. 1-529: Ellwood W. Lippincott, Inc., Bend, Ore.—Examiner Tyler Berry recommended grant of application for C. P. to operate on frequency 1310 kc., 100 watts power, unlimited time, subject to selection of satisfactory transmitter site, provided the application of the Bend Bulletin is denied.

NEW—Ex. Rep. 1-532: Southern Broadcasting Corp., New Orleans, La.—Examiner P. W. Seward recommended dismissal with prejudice of application for C. P. to operate on 1200 kc., 100 watts, 250 W-LS, unlimited time (facilities of WBNO and WJJB).

WBNQ—The Coliseum Place Baptist Church, New Orleans, La.—Examiner Seward recommended denial of application for renewal of license of WBNQ, and denial of C. P. to change frequency from 1200 to 1420 kc., increase power from 100 watts, to 100 watts, 250 W-LS, and time of operation from sharing with WJJB to unlimited.

WRNL—Ex. Rep. 1-534: WLBG, Inc., Richmond, Va.—Examiner Melvin H. Dalberg recommended grant of application of C. P. authorizing increase in power from 500 watts, to 1 KW, employing directional antenna day and night, and increase in hours of operation from daytime to unlimited.

WJBB—Ex. Rep. 1-537: Charles C. Carlson, New Orleans, La.—Examiner P. W. Seward recommended grant of application for renewal of license of station WJBB to operate on frequency 1200 kc., 100 watts; shares with WBNO.

KGKL—KGKL, Inc., San Angelo, Tex.—Examiner Bramhall recommended denial of application of KGKL to change frequency from 1200 to 1420 kc., unlimited time, power from 100 watts, 250 watts LS, to 1 KW, 5 KW LS, unlimited time.

NEW—The Tribune Company, Tampa, Fla.—Examiner Bramhall recommended grant of application of C. P. to operate on frequency 940 kc., 1 KW, 5 KW LS, unlimited time.

KQF—Ex. Rep. 1-541: Pacific Agricultural Foundation, Ltd., San Jose, Calif.—Examiner Tyler Berry recommended grant of C. P. to increase power from 1 KW to 1 KW night, 5 KW LS.

NEW—Ex. Rep. 1-542: Thos. F. Airth, Wythe Walker & Rex Schepp, d/b as Evanston Broadcasting Co., Evanston, Ill.—Examiner George H. Hill recommended denial of C. P. for new station to operate on frequency 1220 kc., and requested change frequency from 1210 to 1220 kc., and requested change frequency from 1210 to 1420 kc., unlimited time.

APPLICATIONS RECEIVED

First Zone

WRC—National Broadcasting Co., Inc., Washington, D. C.—Modification of construction permit (Bl-P-1651) for a new transmitter and antenna, increase in power and move of transmitter, requesting extension of completion date from 1-4-38 to 3-4-38.

WGNY—Peter Goelet, Newburgh, N. Y.—Construction permit to 1210 kc, make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day. Amended to change frequency from 1210 to 1220 kc, to 1220 kc, and requested power from 100 watts night, 250 watts day, to 250 watts, and hours of operation from share WBRB, WFAS and WGGB to daytime.
NEW—Orrin A. Senzel, Rochester, N. Y.—Construction permit for 1500 new station to be operated on 1500 kc., 100 watts night, 250 watts day, unlimited time.

WBRY—American-Republican, Inc., Waterbury, Conn.—Construction permit to install a new transmitter and increase power from 500 KW to 1 KW day and 5 KW day and night. Amended to make changes in requested equipment and change requested power from 1 KW night, 5 KW day, to 5 KW day and night.

W2XAX—Columbia Broadcasting System, New York, N. Y.—Modification of construction permit (B1-PVB-6) for new equipment and increase in power, requesting the frequencies 50000-56000 kc. and delete 42000-55000, 60000-86000 kc.

NEW—WDRC, Inc., Hartford, Conn (to be determined).—Construction permit for a new high frequency broadcast station (frequency modulated) to be operated on the frequencies 450000, 585000, 109000, 177000, 218000 kc., 1000 watts. Amended to delete frequencies 858000, 109000, 177000 and 218000 kc.

NEW—WHDL, Inc., area of Olean, N. Y.—Construction permit for a new radio broadcast station to be operated on 1625, 2658, 2130, 2790 kc., 25 watts.

WIXAL—World Wide Broadcasting Corp., Boston, Mass.—Construction permit for new radio broadcast station to be operated on 1625, 2658, 2130, 2790 kc., 25 watts.

Second Zone

WFIL—WFIL Broadcasting Co., Philadelphia, Pa.—Modification of construction permit (B2-P-1085) as modified for new equipment, vertical antenna, increase in power, and move of transmitter, requesting extension of completion date from 1-6-38 to 3-15-38.

WKBW—WKBW Broadcasting Corp., Youngstown, Ohio.—License to cover construction permit (B2-P-1412) as modified for move of transmitter and new vertical antenna.

WLW—The Crosley Radio Corporation, Cincinnati, Ohio.—Extension of special experimental authorization to operate with power of 500 KW day and 500 KW night, using directional antenna, for period 2-1-38 to 8-1-38.

WICA—C. A. Rowley, Ashtabula, Ohio.—License to cover construction permit (B2-P-756) as modified for new station.

WICA—C. A. Rowley, Ashtabula, Ohio.—Authority to determine operating power by direct measurement of antenna.

WWVA—West Virginia Broadcasting Corp., Wheeling, W. Va.—Construction permit to change frequency from 1160 kc. to 1110 kc., hours of operation from simultaneous day WOWO, share night WOWO, to unlimited time, and install directional antenna for night use, and move transmitter from Bell's Lane, 8 1/2 miles northeast of Wheeling, West Liberty, W. Va., to 2 1/2 miles east of St. Clairsville, Richmond Township, Ohio. Amended to install a new transmitter, changes in directional antenna for night use and increase power from 500 watts to 1 KW. Amended to make further changes in equipment and change requested power from 1 KW night, 5 KW day, to 5 KW day and night, using directional antenna.

WABG—Memphis Commercial Appeal Co., area Memphis, Tenn.—Construction permit for a new radio broadcast station.

WBGN—WBGN Broadcasting Co., Chicago, Ill.—Extension of special experimental authorization to operate synchronously with KFAB from local sunset (KFAB local sunset) through the night, requesting authority to transfer control of corporation from Marco Morrow, Trustee for Capper Publications, to Capper Publications, Inc., 196 shares common stock.

KFAB—KFAB Broadcasting Co., Lincoln, Nebr.—Extension of special experimental authorization to operate synchronously with WBEM from local sunset at Lincoln, Nebr., to midnight, CST, from 2-1-38 to 8-1-38.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Extension of special experimental authorization to operate synchronously with KFAB from local sunset (KFAB local sunset) through the night, CST, from 2-1-38 to 8-1-38.

WHO—Central Broadcasting Co., Des Moines, Iowa.—Extension of special experimental authorization to operate a facsimile station from 12 midnight to 6 a. m., CST, from 2-1-38 to 8-1-38.

WOWO—Westinghouse Radio Stations, Inc., Fort Wayne, Ind.—Construction permit to install a new transmitter; increase power from 10 KW to 50 KW; and change hours of operation from simultaneous day, share WWVA night, to unlimited time. Contingent on the granting of WWVA's application for change in frequency.

Third Zone

WPTF—WPTF Radio Co., Raleigh, N. C.—Extension of special experimental authorization to operate with 5 KW power from sunset at KPO to 11 p. m., EST, using directional antenna after sunset, for period 2-1-38 to 8-1-38.

WWL—Loyola University, New Orleans, La.—Extension of special experimental authorization to operate unlimited time for period 2-1-38 to 8-1-38.

WGST—Georgia School of Technology, Atlanta, Ga.—License to cover construction permit (B3-P-1880) for auxiliary transmitter.

WTOC—Savannah Broadcasting Co., Inc., Savannah, Ga.—Modification of construction permit (B3-P-1764) as modified for a new transmitter and increase in power, requesting further changes in equipment.

NEW—McComb Broadcasting Corp., McComb, Miss.—Construction permit for a new radio broadcast station to be operated on 1200 kc., 100 watts, unlimited time.

NEW—George B. Feeler, Taylor, Tex.—Construction permit for a new station to be operated on 1310 kc., 100 watts, daytime.

KONO—Eugene J. Roth, tr/as Mission Broadcasting Co., San Antonio, Tex.—Construction permit to make changes in transmitting equipment; install new vertical antenna; increase power from 100 watts to 100 watts night, 250 watts day; and move transmitter from Milan Bldg., Travis and Soledad Sts., San Antonio, Tex., to 317 Arden Grove, San Antonio, Tex.

NEW—John C. Head, Lawton, Okla.—Construction permit for a new radio broadcast station to be operated on 1420 kc., 100 watts, unlimited time.

WSXNA—Loyola University, Mobile (New Orleans, La.).—License to cover construction permit (B3-PRE-58) for a new radio broadcast station.

WSXNB—Loyola University, Mobile (vicinity New Orleans, La.).—License to cover construction permit (B3-PRE-90) for a new radio broadcast station.

WABG—Memphis Commercial Appeal Co., area Memphis, Tenn.—Construction permit to make changes in equipment and increase power from 35 watts to 50 watts.

NEW—Columbus Broadcasting System, Inc., area of Charlotte, N. C.—Construction permit for a new radio broadcast station to be operated on 1616, 2090, 2190, 2830 kc., 50 watts.

Fourth Zone

KFAB—KFAB Broadcasting Co., Lincoln, Nebr.—Extension of special experimental authorization to operate synchronously with WBEM from local sunset at Lincoln, Nebr., to midnight, CST, from 2-1-38 to 8-1-38.

WBBM—Columbia Broadcasting System, Inc., Chicago, Ill.—Extension of special experimental authorization to operate synchronously with KFAB from local sunset (KFAB local sunset) through the night, CST, from 2-1-38 to 8-1-38.
KTRI—Sioux City Broadcasting Co., Sioux City, Iowa.—Modification of construction permit (B4-P-1249) for a new station, requesting changes in equipment, approval of studio and transmitter sites at 6th and Nebraska Sts., Commerce Building, Sioux City, Iowa. Amended to change geographic location.

NEW—Star-Times Publishing Co., St. Louis, Mo.—License to cover construction permit (B4-PFB-2) for a new facsimile broadcast station.

Fifth Zone

KXL—KXL Broadcasters, Portland, Ore.—Construction permit to install a new transmitter and directional antenna for day and night use, change frequency from 1420 kc. to 1110 kc., power from 100 watts night, 250 watts day to 5 KW hours of operation from share with KBPS to unlimited time and move transmitter locally. Amended: To make changes in directional antenna.

KDNC—The Democrat-News Co., Inc., Lewistown, Mont.—Modification of construction permit (B5-P-831) as modified, for extension of commencement and completion dates from 11-7-37 and 5-7-38 respectively to 1-1-39 and 6-1-39.

KLH—Barney Hubbs, A. J. Crawford, Harold Miller, d/b as Carlsbad Broadcasting Co., Carlsbad, N. M.—Construction permit to make changes in equipment and increase power from 100 watts to 100 watts night, 250 watts day.

KYA—Hearst Radio, Inc., San Francisco, Calif.—License to cover construction permit (B5-P-1860) for auxiliary transmitter.

NEW—Mountain Top Trans Radio Corp., Denver, Colo.—Construction permit for a new station to be operated on 1370 kc., 100 watts night, 250 watts day, unlimited time. Amended: To change requested frequency from 1370 to 1310 kc.

KJT—Carl E. Haymond, Yakima, Wash.—License to cover construction permit (B5-P-1115) as modified, for new transmitter, vertical antenna, change in frequency, increase in power and move of transmitter.

KICA—Western Broadcasters, Inc., Clovis, N. M.—Authority to transfer control of corporation from J. L. Nunn to Charles C. Alsup. 25 shares common stock.

W6XAO—Don Lee Broadcasting System, Los Angeles, Calif.—Construction permit to increase power of the visual transmitter from 150 watts to 1000 watts and make changes in equipment.

Alaskan Zone

KINY—Edwin A. Kraft, Juneau, Alaska.—Modification of construction permit (B-P-1176) for new equipment, new antenna, change in frequency and power requesting change in authorized equipment, approval of vertical antenna and approval of transmitter site at A-J Rock Dump, near Juneau, Alaska.
Inter-American Radio Conference Reaches Final Agreement

Frequencies of Many Stations Would Be Shifted

The following is the text (unofficial) of the North American Regional Broadcasting Agreement signed at Havana, Cuba, December 13, 1937:

C.I.R./Doc. 56
Habana, December 10, 1937

NORTH AMERICAN REGIONAL BROADCASTING AGREEMENT

concluded among the following Governments:

Canada
Cuba
Dominican Republic
Haiti
Mexico
United States of America

The undersigned, plenipotentiaries of the Governments listed above, having met in conference at Habana, Cuba, have, in common agreement and subject to ratification, concluded the following Agreement.

I

PURPOSE AND SCOPE OF THIS AGREEMENT

1. Purpose of Agreement. The purpose of this Agreement is to regulate and establish principles covering the use of the standard broadcast band in the North American Region so that each country may make the most effective use thereof with the minimum technical interference between broadcast stations.

2. North American Region. The North American Region (hereinafter referred to as "Region") for the purpose of this Agreement shall be deemed to include and to consist of the following countries: Canada, Cuba, Dominican Republic, Haiti, Mexico, Newfoundland, and United States of America.

3. Standard broadcast band. The standard broadcast band shall be deemed to be the band of frequencies extending from 550 to 1600 kc, both inclusive, both 550 kc and 1600 kc being the carrier frequencies of broadcasting channels as hereinafter defined. The Governments agree, subject to the provisions of Article 7 of the General Radio Regulations annexed to the International telecommunications Convention, Madrid, 1932, that this band of frequencies shall be allocated exclusively to broadcasting in the Region.

4. Sovereign right to use channels. The sovereign right of all countries, parties to this Agreement, to the use of every channel in the standard broadcast band is recognized. The Governments recognize, however, that until technical developments reach a state permitting the elimination of radio interference of international character, a regional arrangement between them is necessary in order to promote standardization and to minimize interference.

5. Regional character of Agreement. The Governments recognize that this Agreement, and each provision thereof, is a regional arrangement within the meaning of, and authorized by the International telecommunications Convention and the General Radio Regulations annexed thereto.

II

TECHNICAL

A. DEFINITIONS

1. Broadcast station. A station the emissions of which are primarily intended to be received by the general public.

2. Broadcast channels—550 to 1600 kc. A broadcast channel is a band of frequencies ten (10) kc in width, with the carrier frequency at the center. Channels shall be designated by their assigned carrier frequencies. Carrier frequencies assigned to broadcast stations shall begin at 550 kc and be in successive steps of 10 kc. No inter-
mediate frequency shall be assigned as the carrier frequency of any broadcast station.

3. Service areas.
   (a) Primary service area. The primary service area of a broadcast station is the area in which the ground wave is not subject to objectionable interference or objectionable fading.
   (b) Secondary service area. The secondary service area of a broadcast station is the area served by the sky wave and not subject to objectionable interference. The signal is subject to intermittent variations in intensity.

4. Dominant stations. A “dominant” station is a Class I station, as hereinafter defined, operating on a clear channel.

5. Secondary station. A “secondary” station is any station except a Class I station operating on a clear channel.

6. Objectionable interference. Objectionable interference is the degree of interference produced when, at a specified boundary or field intensity contour with respect to the desired station, the field intensity of an undesired station (or the root-mean-square value of field intensities of two or more stations on the same frequency) exceeds for ten (10) per cent or more of the time the values hereinafter set forth in this Agreement.

7. Power. The power of a radio transmitter is the power supplied to the antenna. The power in the antenna of a modulated-wave transmitter shall be expressed in two numbers, one indicating the power of the carrier frequency supplied to the antenna, and the other the actual maximum percentage of modulation.

8. Spurious radiation. A spurious radiation from a transmitter is any radiation outside the frequency band of emission normal for the type of transmission employed, including any harmonic modulation products, key clicks, parasitic oscillations and other transient effects.

9. English, French and Spanish equivalents. It is agreed that, as used in this Agreement, the French and Spanish words below set forth are respectively the equivalent of, and mean the same as, the English terms opposite which they appear:

<table>
<thead>
<tr>
<th>English</th>
<th>French</th>
<th>Spanish</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clear channel</td>
<td>Frequence libre</td>
<td>Canal despajado</td>
</tr>
<tr>
<td>Objectionable</td>
<td>Brouillage nuisible</td>
<td>Interferencia</td>
</tr>
<tr>
<td>interference</td>
<td></td>
<td>objetable</td>
</tr>
</tbody>
</table>

B. CLASSES OF CHANNELS AND ALLOCATION THEREOF

1. Three classes. The 106 channels in the standard broadcast band are divided into three principal classes: clear, regional and local.

2. Clear channel. A clear channel is one on which the dominant station or stations render service over wide areas and which are cleared of objectionable interference, within their primary service areas and over all or a substantial portion of their secondary service areas.

3. Regional channel. A regional channel is one on which several stations may operate with powers not in excess of 5 kw. The primary service area of a station operating on any such channel may be limited, as a consequence of interference, to a given field intensity contour.

4. Local channel. A local channel is one on which several stations may operate with powers not in excess of 250 watts. The primary service area of a station operating on any such channel may be limited, as a consequence of interference, to a given field intensity contour.

5. Number of channels of each class. The number of channels of each class shall be as follows:

<table>
<thead>
<tr>
<th>Clear channels</th>
<th>Regional channels</th>
<th>Local channels</th>
</tr>
</thead>
<tbody>
<tr>
<td>59</td>
<td>41</td>
<td>6</td>
</tr>
</tbody>
</table>

6. Allocation of specific channels to each class. The channels are allocated to the several classes as follows:

Clear channels. The following channels are designated as clear channels: 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 940, 990, 1000, 1010, 1020, 1030, 1040, 1050, 1060, 1070, 1080, 1090, 1100, 1110, 1120, 1130, 1140, 1160, 1170, 1180, 1190, 1200, 1210, 1220, 1500, 1510, 1520, 1530, 1540, 1550, 1560, 1570, and 1580.

Regional channels. The following channels are designated as regional channels: 550, 560, 570, 580, 590, 600, 610, 620, 630, 790, 910, 920, 930, 950, 960, 970, 980, 1150, 1250, 1260, 1270, 1280, 1290, 1300, 1310, 1320, 1330, 1350, 1360, 1370, 1380, 1390, 1410, 1420, 1430, 1440, 1460, 1470, 1480, 1590, 1600.

Local channels. The following channels are designated as local channels: 1230, 1240, 1340, 1400, 1450, and 1490 kc.

7. Use of regional and local channels by countries. All countries may use all regional and all local channels, subject to the power limitations and standards for prevention of objectionable interference set forth in this Agreement.

8. Priority of use of clear channels by countries.
   (a) The clear channels are assigned for priority of use by Class I and II stations in the several countries in accordance with the table set forth in Appendix I.
   (b) Each such channel shall be used by the country or countries to which it is thus assigned in a manner conforming to the best engineering practice with due regard to the service to be rendered by the dominant stations operating thereon, as set forth
elsewhere in this Agreement. If, for one year within the term of this Agreement, a country fails to make any use of a clear channel assigned to it, the channel shall be considered open for use by the other countries, parties to this Agreement, pursuant to such arrangement as may be agreed upon by their respective administrations and without any necessity for revision of this Agreement.

(c) No country to which a clear channel has been thus assigned shall permit, or agree to permit, any other country to use such channel in a manner not in conformity with this Agreement without first giving sixty days' advance notice of its intention so to do to all other countries, parties to this Agreement. If during this period of sixty days any other country shall present objections to such proposed use of the channel, the country to which the clear channel has been assigned shall not permit, or agree to permit, such proposed use until the difference presented by the objection has been amicably resolved.

(d) If within the period of this Agreement the country to which a clear channel has been assigned shall have made use of the channel but not in the manner above prescribed or not to the extent required by the provisions of this Agreement, such country shall be considered as having relinquished that portion of the rights which it has not used and at the expiration of this Agreement the other countries party thereto shall have the right, if they see fit, to withdraw the unused privileges from such country and to reassign them to any or all of the other interested countries.

C. CLASSES OF STATIONS AND USE OF THE SEVERAL CLASSES OF CHANNELS

1. Classes of stations. Broadcast stations are divided into four principal classes, to be designated Class I, Class II, Class III, and Class IV, respectively.

2. Definitions of classes. The four classes of broadcast stations are defined as follows:

Class I: A dominant station operating on a clear channel and designed to render primary and secondary service over an extended area and at relatively long distances. Class I stations are subdivided into two classes:

Class I-A: A Class I station which operates with power of 50 kw or more and which has its primary service area, within the limits of the country in which the station is located, free from objectionable interference from other stations on the same and adjacent channels, and its secondary service area, within the same limits, free from objectionable interference from stations on the same channel, in accordance with the engineering standards hereinafter set forth.

Class I-B: A Class I station which operates with power of not less than 10 kw or more than 50 kw and which has its primary service area free from objectionable interference from other stations on the same and adjacent channels and its secondary service area free from objectionable interference from stations on the same channel, in accordance with the engineering standards hereinafter set forth.

(a) When two Class I-B stations on the same channel are separated by a distance of 2800 miles or more, neither station shall be required to install a directional antenna.

(b) When two Class I-B stations on the same channel are separated by a distance of more than 1800 miles and less than 2800 miles, it will, in the absence of proof to the contrary, be assumed that each station is free of objectionable interference caused by the other and neither shall be required to install directional antennas or take other precautions to avoid such interference. In case the existence of objectionable interference is proved, the governments concerned will consult with each other regarding the desirability and practicality of installation of directional antennas or the taking of other precautions to eliminate the interference and will determine by special arrangement the measures, if any, to be taken.

(c) When two Class I-B stations on the same channel are separated by a distance less than 1800 miles, it will, in the absence of proof to the contrary, be assumed that the installation of directional antennas or the taking of other precautions to avoid interference is necessary, and the governments concerned will consult with each other and will take such measures as may be agreed upon between them to the end that the objectionable interference may be reduced or eliminated.

Class II: A "secondary" station which operates on a clear channel and is designed to render service over a primary service area which, depending on geographical location and power used, may be relatively large, but which is limited by and subject to such interference as may be received from Class I stations. A station of this class shall operate with power of not less than 0.25 kw or more than 50 kw. Whenever necessary a Class II station shall use a directional antenna or other means to avoid interference, in accordance with the engineering standards hereinafter set forth, with Class I stations and with other Class II stations.

Class III: A station which operates on a regional channel and is designed to render service primarily to a metropolitan district and the rural area contained therein and contiguous thereto. Class III stations are subdivided into two classes:

* Calendar days.
Class III-A: A Class III station which operates with power not less than one kilowatt or more than five kilowatts and the service area of which is subject to interference in accordance with the engineering standards hereinafter set forth.

Class III-B: A Class III station which operates with a power not less than 0.5 kw or more than 1 kw night and 5 kw daytime and the service area of which is subject to interference in accordance with the engineering standards hereinafter set forth.

Class IV: A station using a local channel and designed to render service primarily to a city or town and the suburban and rural areas contiguous thereto. The power of a station of this class shall not be less than 0.1 kw or more than 0.25 kw and its service area is subject to interference in accord with the engineering standards hereinafter set forth.

3. Change of class. If a station or stations in Class III-B located in any country can, through the use of directional antennas or otherwise, so reduce the interference caused or received by such station or stations to the field contour to which interference to stations in Class III-A is allowed, such station or stations shall automatically be classified and included in Class III-A and shall thereafter be so recognized and treated by the Administrations of all countries within the Region.

4. Use of clear channels.

(a) In principle and subject only to the exception hereinafter set forth, Class I stations shall be assigned only to clear channels.

(b) Class II stations may be assigned to clear channels only on condition that objectionable interference will not be caused to any Class I stations. Where any country has priority of use of a clear channel for any Class I-A station, no other country shall assign any Class II station to that channel for night time operation (from sunset to sunrise at the location of the Class II station) unless such Class II station is located not less than 650 miles from the nearest border of the country in which the Class I-A station is located; provided, however, that where an assignment for a Class II station is specifically stated in Appendix I, such assignment shall be deemed as authorized under the limitations therein set forth.

5. Use of regional channels.

(a) In general only Class III-A and Class III-B stations shall be assigned to regional channels.

(b) On condition that interference be not caused to any Class III-A or Class III-B station, and subject to such interference as may be received from Class III-A or Class III-B stations, Class IV stations may be assigned to regional channels.

(c) Because of their geographical location with respect to the North American continent, special consideration will be given to the use by Cuba, the Dominican Republic, Haiti and Newfoundland of stations of Classes I and II assigned to certain regional channels under certain conditions, with respect to power and precautions to avoid objectionable interference as set forth in Appendix VII.

6. Use of local channels. Only Class IV stations shall be assigned to local channels.

D. SERVICE AND INTERFERENCE

1. Satisfactory signal. It is recognized that, in the absence of interference from other stations and in regions where the natural electrical noise level is not abnormally high, a signal of 100 microvolts per meter constitutes a usable signal in rural and sparsely settled areas but that, because of the higher electrical noise levels in more thickly populated communities, greater field intensities (ranging as high as 25 millivolts or more in cities) are necessary to render satisfactory service. It is further recognized that it is not possible to accord protection to stations from objectionable interference over the entire areas over which their signals are or may be above the electrical noise level, particularly at night, and that it is necessary to specify boundaries or contours at or within which stations are protected from objectionable interference from other stations.

2. Areas protected from objectionable interference. The boundaries or contours at and within which the several classes of stations shall be protected from objectionable interference are as set forth in Appendix II. No station, however, need be protected from objectionable interference at any point outside the boundaries of the country in which such station is located.

With respect to the root-mean-square values of interfering field intensities referred to herein, it shall be understood to apply in determining the interference between existing stations and no station thereafter assigned the channel shall increase the root-mean-square value of the interfering field intensity above the maxima specified in the attached tables.

3. Objectionable interference on the same channel. Objectionable interference shall be deemed to exist to a station when, at the boundary or field intensity contour specified in Appendix II with respect to the class to which the station belongs, the field intensity of an interfering station (or the root-mean-square value of the field intensities of two or more interfering stations) operating on the same channel, exceeds for ten (10) percent or more of the time the value of the permissible interfering signal set forth opposite such class in Appendix II.

4. Interference to dominant clear channel stations. A station shall be considered as not capable of causing objectionable interference to a Class I clear channel station on the same frequency when it is separated from the domi-
nant clear channel station by a difference of 70 degrees or more of longitude.

5. Objectionable interference on adjacent channels. It is recognized, in principle, that objectionable interference may be caused to a desired station when, at or within the specified contours of a desired station, the field intensity of the ground wave of an undesired station operating on an adjacent channel (or the root-mean-square value of the field intensities of two or more such undesired stations operating on the same adjacent channel) exceeds a value determined by the following ratio:

\[
\text{Separation between channels} \quad \text{Minimum permissible ratio of desired to undesired signals}
\]

| 10 kc. | 1 to 0.5 |
| 20 kc. | 1 to 10 |
| 30 kc. | 1 to 50 |

For convenient reference, the maximum permissible values of interfering signals on such adjacent channels at specified contours are set forth in Appendix III, Table I.

6. Application of standards to existing stations.

(a) For the purpose of estimating objectionable interference, all stations (other than those of Class I) shall be assumed to use the maximum power permitted to their respective classes. In this connection, the power of Class I-A stations shall be considered to be 50 kw or the actual power, if higher.

(b) After this agreement has been placed in operation a station thereafter assigned a channel already assigned to other stations shall not be considered as preventing existing stations from increasing their power to the maximum allowed their class, even though such power increase may limit the newly assigned station to a field intensity contour of higher value than that permitted its class.

7. Frequency stability. The operating frequency of each broadcast station shall be maintained to within 50 cycles of the assigned frequency until January 1, 1939, and thereafter the frequency of each new station or each station where a new transmitter is installed shall be maintained within 20 cycles of the assigned frequency, and after January 1, 1942, the frequency of all stations shall be maintained within 20 cycles of the assigned frequency.

8. Spurious radiation. The Governments shall endeavor to reduce and, if possible, eliminate spurious radiations from broadcast stations. Such radiations shall be reduced in all cases until they are not of sufficient intensity to cause interference outside the frequency band required for the type of emission employed. With respect to type A-3 emissions (radio-telephony) the transmitter should not be modulated in excess of its modulation capability to the extent that interfering spurious radiations occur, and, with respect to amplitude modulation, the operating percentage of modulation should not be less than seventy-five (75) percent on peaks of frequent recurrence. Means should be employed to insure that the transmitter is not modulated in excess of its modulation capability.

E. DETERMINATION OF PRESENCE OF OBJECIONABLE INTERFERENCE.

1. Antenna performance. For the purpose of calculating the presence and the degree of objectionable interference, stations of the several classes shall be assumed to produce effective field, corrected for absorption, for one kilowatt of input power to the antenna, as follows:

<table>
<thead>
<tr>
<th>Class of Station</th>
<th>At One Mile</th>
<th>At One Kilometer</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>225 mv/m</td>
<td>362 mv/m</td>
</tr>
<tr>
<td>II and III</td>
<td>175 mv/m</td>
<td>282 mv/m</td>
</tr>
<tr>
<td>IV</td>
<td>150 mv/m</td>
<td>241 mv/m</td>
</tr>
</tbody>
</table>

In case a directional antenna is employed, the interfering signal of a broadcasting station will vary in different directions. To determine the interference in any direction, in the absence of actual interference measurements, the horizontal and vertical field intensity patterns of the directional antenna must be calculated and by comparing the appropriate vectors in the horizontal or vertical pattern with that of a nondirectional with the same effective field, the interfering signal toward any other station can be expressed in terms of kilowatts. This rating in kilowatts shall be applied in the use of mileage separation tables or in computing distances from the propagation curves or tables.

2. Power. The power of a station shall, for the purposes of notifications required by this Agreement, be determined in one of the following manners:

(a) By taking the product of the square of the antenna current and the antenna resistance (antenna input power).

(b) By determination of the station's effective field intensity, corrected for absorption, by making sufficient field intensity measurements on at least eight radials as nearly equally spaced as practicable and by relating the field intensity thus determined to the effective field intensity of a station having the antenna efficiency stipulated above for its class.

3. Methods of determining the presence of objectionable interference—General. The existence or absence of objectionable interference from stations on the same or adjacent channels shall be determined by one of the following methods:

(a) By actual measurements contained in the method hereinafter prescribed; or, with the mutual consent of the countries concerned:
(b) By reference to the propagation curves in Appendices IV and V, or
(c) By reference to the distance tables set forth in Appendix VI.

4. Actual proof of existence or absence of objectionable interference. The existence or absence of objectionable interference may be proved by field intensity measurements or recordings made with suitable apparatus, duly calibrated, by Government engineers or other engineers as may be mutually acceptable to the Governments concerned. Such field intensity measurements shall be made in the manner and for the periods of time mutually agreed upon by the Governments concerned.

The contracting Governments agree to facilitate the making of the measurements by requiring the stations involved to remain silent or operate in the manner deemed necessary, and at such times as not to interrupt regular schedules.

5. Proof based on propagation curves and distance tables.

(a) Sky wave curves. In computing the distance to the 50 percent skywave field intensity contour of a Class I station of a given power, and also in computing the 10 percent skywave field intensity of an alleged interfering station, of any class and given power, at a specified distance, use may be made of the appropriate graphs set forth in Appendix V, entitled “Average Sky Wave Field Intensity Corresponding to the Second Hour after Sunset in the Recording Station, 100 Millivolt per Meter at One Mile (161 at one kilometer)”.

(b) Ground wave curves. The distance to any specified ground wave field intensity contour may be determined from appropriate ground wave curves plotted for the frequency under consideration and the conductivity and dielectric constant of the earth between the station and desired contour. The frequency and the conductivity of the earth must be considered in every case and where the distance is great due allowance must be made for loss due to curvature of the earth. A family of curves is necessary for this purpose. A graph for a conductivity of $10^{-12}$ is set forth in Appendix IV, entitled “Ground Wave Field vs. Distance for One Kilowatt Radiated From Short Antenna”. Three frequencies in the standard broadcast band are given. For other frequencies and soil conditions (conductivity and dielectric constant) other curves are required. A conductivity of $10^{-12}$ is considered average and is used throughout in determining the ground wave value for computing the mileage separation tables.

(c) Distance tables. Table I shows the required day separation in miles between broadcast stations on the same channel. Table II gives the required distance in miles from the boundary of a country in which a Class I-A station is located for the daytime operation of a Class II station on the same channel in another country. Table III gives the required separation in miles between broadcast stations on adjacent channels during both daytime and nighttime. Table IV gives the required night separation in miles between broadcast stations operating on the same channel. The assumed conditions of operation are given in Appendix VI.

The tables are based upon the use of nondirectional antennas but, in case a directional antenna is employed at a particular station, it will be necessary to consider the radiation distribution of the directional antenna involved and to modify the mileage separation accordingly. The night separation tables for stations on the same frequency are computed from the skywave curve given in Appendix V. These curves are based on extensive measurements of the skywave produced by broadcasting stations and shall be considered as accurate in all cases unless proof to the contrary is available as set out in Section E 4.

The mileage separation tables for the same channel during daytime and for adjacent channels day and night are computed from the groundwave curve in Appendix IV. Tables apply only in case the frequency is 1000 kc and the assumed soil conductivity and dielectric constant prevail. Since these values vary in every case the tables for daytime and adjacent channel separation cannot be used except as a general guide. In any case under consideration an estimate of the mileage separation required may be made from the operating frequency and known or assumed soil conditions. To determine the interference accurately, measurements must be made in accordance with Section E 4 on the frequency under consideration or on another frequency and from the curves the values may be determined for the desired frequency.

F. MISCELLANEOUS.

1. Engineering standards. The engineering standards set forth in this Agreement are subject to revision when justified by technical advances in the art, with the mutual consent of the Governments parties to this Agreement.

NOTIFICATION AND EFFECT THEREOF

1. Initial notification.

Each Government shall, as soon as possible after ratification of this Agreement, and in any event not later than 180 days prior to the effective date thereof, transmit to the other Governments

(a) A complete list of all broadcast stations actually in operation in its country in the standard broadcast band both as of the date of the signing of this Agreement and as of the date of transmitting said list, showing with respect to each station its call signal, location, frequency, power, and antenna characteristics, together with all changes authorized to be made with respect to said stations on or before the effective date of this Agreement, and the classification claimed for each such station.

(b) A complete list of all changes authorized to be made with respect to said stations after the effective date of this Agreement, the dates on or before which such changes are to be consummated, and the classification claimed for each such station under this Agreement when the proposed change has been consummated.

(c) A complete list of all new broadcast stations authorized but not yet in operation, showing with respect to each such station its call signal, location, frequency, power and antenna characteristics, the date on or before which each such station shall commence operation, and the classification claimed for it under this Agreement.

(d) The Governments agree that prior to the effective date of this Agreement, they will, so far as possible, resolve all conflicts that may arise between them as a result of the foregoing initial listings, and that, notwithstanding some such conflicts may remain unresolved, they will cooperate to the end that there be no delay in putting the provisions of this Agreement into full force and effect on that date.

(e) In resolving conflicts in the use of clear channels, and in the listing of Class I and Class II stations, the provisions of this Agreement and particularly of Appendix I shall be controlling. In resolving conflicts in the use of regional and local channels, and in the listing of Class III and Class IV stations, priority of use shall be recognized in each country with respect to stations which at the time of signing of this Agreement are in actual operation, which in substance conform to the definitions of said classes as set forth in this Agreement, and with respect to which no substantial change is made or proposed; a change of frequency in order to conform to the designation of channels in this Agreement shall not be deemed a substantial change.

2. Subsequent notifications. After the effective date of this Agreement and throughout the period during which it shall remain in effect, each Government shall promptly notify the other Governments by registered letter of all further changes in existing broadcast stations and of all further new broadcast stations, together with similar information with regard to each such change or new station, and the proposed date on which each such change is to go into effect and on which each such new station is to actually commence operation.

3. Effect of notification. Each Government may, within 30 days of receiving notification of any proposed change in the assignment of an existing station or of the authorization of a new station in another country, notify the Government of the latter country of any objection it may have thereto under the terms of this Agreement.

4. Conflict between notifications. To be valid, notifications of changes in the assignments of existing stations, or of authorizations of new stations must be such that the assignments proposed therein are in accordance with this Agreement and are such as not to involve objectionable interference to existing stations in other countries, assigned and operating in accordance with this Agreement. As between two or more notifications of changes or authorizations of new stations proceeding from different countries, after the effective date of this Agreement, priority in the date of mailing of notification shall govern.

5. Cessation of effect.

(a) A notification of a proposed change in the assignment of an existing station or of an authorization of a new station shall cease to have any force and effect if, within one year of the date thereof such change shall not have been actually consummated or such new station shall not have actually commenced continuous operation.

(b) In special cases in which circumstances beyond the control of the Administration concerned have prevented the completion of the change or the construction of the new station, the term of the original notification may be extended for a period of six months.

6. Bern Bureau. The foregoing notifications shall be made independently of and in addition to those which, under current practice, are sent to the Bureau of the International Telecommunications Union.

IV

ARBITRATION

In case of disagreement between two or more contracting Governments concerning the execution of this Agreement the dispute, if it is not settled through diplomatic channels, shall be submitted to arbitration at the request of one of the Governments in disagreement. Unless the parties in disagreement agree to adopt a procedure already
established by treaties concluded between them for the settlement of international disputes, the procedure shall be that provided for in Article 15 of the International Telecommunications Convention of Madrid, 1932.

V

RATIFICATION, EXECUTION AND DENUNCIATION

1. Ratification. To be valid this Agreement must be ratified by Canada, Cuba, Mexico and the United States of America.

If and when three of said four countries shall have ratified and the fourth shall, through unavoidable circumstances, have been unable to ratify but shall have signified to those countries that have ratified its readiness, pending ratification and as an administrative measure, to put the provisions of this Agreement (including the contents of Appendix I) into effect in whole or in part, then such country, together with those countries which shall have ratified, may, by administrative agreement between them, fix a definite date on which they shall give effect to such provisions, which date shall preferably be one year from the date of such administrative agreement.

The ratification must be deposited, as soon as possible, through diplomatic channels, in the archives of the Government of Cuba. This same Government shall, through diplomatic channels, notify the other signatory Governments of the ratifications as soon as they are received.

2. Effect of ratification. This Agreement shall be valid only as between such countries as shall have ratified it.

3. Execution. The contracting Governments undertake to apply the provisions of this Agreement, and to take the steps necessary to enforce said provisions upon the private operating agencies recognized or authorized by them to establish and operate broadcast stations within their respective countries.

4. Denunciation. Each contracting Government shall have the right to denote this Agreement by a notification addressed, through diplomatic channels, to the Government of Cuba, and announced by that Government, through diplomatic channels, to all the other contracting Governments. This denunciation shall take effect at the expiration of the period of one year from the date on which the notification was received by the Government of Cuba. This effect shall apply only to the author of the denunciation. This Agreement shall remain in force for the other contracting Governments but only as between such Governments.

VI

EFFECTIVE DATE AND TERM OF THE AGREEMENT

1. Except for the provisions of Section 1 of Part III, Section 1 of Part V, and paragraph 3 of Table VI of Appendix I annexed hereto (which provisions shall go into effect immediately upon this Agreement becoming valid), this Agreement shall become effective one year after the date it shall have been ratified by the fourth of those Governments whose ratification is requisite to the validity of this Agreement. The Governments will cooperate to the end that, wherever possible, the provisions of this Agreement shall be carried out in advance of said effective date.

2. This Agreement shall remain in effect for a period of five years after said effective date.

VII

ADHERENCE

This Agreement shall be open to adherence in the name of Newfoundland.

In witness whereof the respective plenipotentiaries have signed the Agreement in triplicate, one copy in English, one in Spanish, and one copy in French, each of which shall remain deposited in the archives of the Government of Cuba and a copy of each of which shall be forwarded to each Government.

Done at Habana, Cuba, December 13, 1937.

APPENDIX I

Under the provisions of Section II of this Agreement each country may use all the 106 channels when technical conditions with respect to interference to established stations are such as to render such use practicable. However, priority of use on specified clear channels is recognized for the following number of Class I and II stations in each country.

<table>

It is recognized that the United States must make extensive adjustments in the assignments of its existing stations in order to
make possible the carrying out of this Agreement, that these adjustments will require approximately a year, and that it is not possible for the United States at this time to specify on which of the said 32 channels it will have priority of use for Class I-A stations, Class I-B stations and Class II stations, respectively, nor the locations of such stations, power and other information with respect thereto. The United States may assign Class I-A stations to at least 25 of said channels. The United States agrees that ninety days before the effective date of this Agreement it will communicate this information to each of the other countries parties to this Agreement, and such information, when communicated, shall be considered part of this Agreement as if fully set forth herein.

Nothing stated in this Agreement shall be construed to preclude the United States of America from asserting, and enjoying recognition of, priority of use with reference to certain other Class II stations (not included in the 63 stations mentioned in Table I) which are now in actual operation in the bands 640-1190 kcs. and which are known under the Regulations of the Federal Communications Commission as "limited time stations" and "daytime stations" (having hours of operation limited to sunset taken either at their respective locations or at the locations of the respective dominant stations on clear channels and in some cases including hours not actually used by said dominant stations) which stations may, so far as permitted by the terms of this Agreement and the engineering standards herein set forth, be given assignments substantially equivalent to those they now enjoy.

TABLE VII

| Special Conditions regarding the use of 1010 kc. by Cuba and Canada |

With regard to the use of the clear channel of 1010 kc. by a Class I-A station in Canada, and by a Class I-B station in Cuba, both countries mutually agree that the interfering signal shall not exceed for 10 per cent of the time or more the value of 50 microvolts per meter at the following points of measurement: in Cuba at any point west of the province of Camaguey, and in Canada at any point west of the province of Manitoba.

TABLE VIII

| Special conditions affecting Canada |

Nothing stated in this Agreement shall be construed to preclude Canada from asserting priority of use with reference to certain Class III and IV stations now in operation in Canada on existing clear and regional channels which through this Agreement will become of a class of channel which may not permit their use by Class III and IV stations.

APPENDIX II

</tbody>
</table>

a In accordance with other provisions in this Agreement this freedom of interference does not apply outside the boundaries of the country in which the station is located.

b From other stations on same channel only. For adjacent channels see Appendix III, Table I.

c Sky wave field intensity exceeded for 10% of the time.

d No Class II station shall be assigned to the same channel as a Class I A station for nighttime operation (from sunset to sunrise) less than 650 miles of the nearest border of the country in which the Class I A station is located.

e These values are with respect to interference from all stations except Class I, which stations may cause interference to a field intensity contour of higher value. However, it is recommended that Class II stations be so located that the interference received from Class I stations will not exceed these values. If the Class II stations are limited by Class I stations to higher values, then such values shall be the standard established with respect to interference from all other classes of stations.

APPENDIX III

| TABLE I |

| Adjacent Channel Interference |

<table>
<thead>
<tr>
<th>Channel separation between desired and undesired stations</th>

*Mileage Separation Tables*

The required separations between broadcasting stations as tabulated below are based upon the following conditions:

1. The use of nondirectional antennas.
2. Antenna efficiencies (in mv/m at one mile for one kilowatt).
   - Class I—225 mv/m.
   - Class II and III—175 mv/m.
   - Class IV—150 mv/m.
3. Frequency, 1000 kc.
4. Soil conductivity, \( s = 10^{-13} \).
5. Soil dielectric constant, \( e = 15 \).
6. Groundwave transmission as shown on chart in Appendix IV.
7. Skywave transmission as shown on chart in Appendix V.
8. Protection to service areas as shown in Appendix II, Table I.
9. Ratio of desired to undesired signal:

The following tables indicate the mileage protection each class must give all other classes.

Class I-A Class I-A Not required to protect Class II stations on same channel at night.

Required Day and Night Separation in Miles Between Broadcast Stations on Adjacent Channels

Distance Class II Stations must be from Class IA and IB Stations to obtain recommended protection to Class IV Station.

Distance from nearest border of country in which Class I-A Station is located.

Distance Class II Stations must be from Class IA and IB Stations to obtain recommended protection to Class II Station (2.5mv/m ground wave contour).

Distance Class IV Stations must be from Class III-A and III-B Station to obtain recommended protection to Class IV Station (4.0mv/m ground wave contour).
APPENDIX VII

Engineering Requirements for the Use of Regional Channels by Class II Station under the Provisions of Section C 5 c

A Class II station assigned to a regional channel in accordance with Section C 5 c shall use a directional antenna or other means to limit the interfering signal within the protected service area of any Class III station on the channel to the value set forth in Appendix II, Table I. The interfering signal in case of projected operation shall be determined from the characteristics of the antenna and appropriate curve in Appendix V. In case of actual operation the interfering signal shall be determined by the method described in Section E 4.

Class III stations, operating on a channel to which a Class II station is assigned, shall limit the interference to the Class II station in conformity with the provisions of Appendix II, Table I.

CUBA TO MOVE SWIFTLY TO EFFECTUATE BROADCAST AGREEMENT

Reliable information received from Havana indicates that Cuba will move swiftly to effectuate the provisions contained in the North American Regional Broadcasting agreement. It is expected that an order will be promulgated within 30 days making the allocations described in the agreement; and that the Order will become effective probably not later than April, 1938.

COURT OF APPEALS AFFIRMS F. C. C. DECISIONS

Five decisions of the Federal Communications Commission were upheld last week by the United States Court of Appeals for the District of Columbia. The major issues determined were that (1) the Commission is entitled to have complete and correct information furnished in the original application for license; (2) the Commission is required to furnish a brief factual statement of its reasons for granting or denying an application simultaneously with entering of the order; and (3) a radio station is not a public utility and therefore is not entitled to priority in the area over a new applicant for a station license.

1. The Commission granted to the Utah Broadcasting Company a license for a new station at Salt Lake City, denied two applications of the Great Western Broadcasting Association, Inc., for stations at Provo and Logan, Utah, and also denied the Intermountain Broadcasting Corporation a permit for a new station at Salt Lake City.

The Court said that the Communications Act of 1934 contemplates that the applicant shall establish those qualifications for a broadcasting license which would make its grant serve the public interest, and this presupposes a frank, candid, and honest disclosure of the facts as to its qualifications deemed by the Commission essential to enable the Commission to act within its powers. The Court observed that at the hearing it had been developed that the Intermountain and not the Great Western was the real party in interest in the applications for stations at Provo and Logan and that answers in the application to the contrary were misleading.

With regard to the application of Intermountain for a station at Salt Lake City and its opposition to the granting of the new station to the Utah Broadcasting Company, the Court said the objection of the Intermountain to the grant was based on the theory that Salt Lake City now enjoys all the broadcasting that the area is entitled to or needs. The Court states that such an objection might just as well be made by a stranger to the record, and that it could hardly be supposed that the interest of a stranger would support an appeal from an order granting a permit for a new station. The Court also said that had the Intermountain claimed that its financial or economic interests would be adversely affected by the grant the case would have been a different one for "...we are by no means in agreement with the contention frequently urged upon us that the evidence showing economic injury to an existing station is too vague and uncertain a subject to furnish proper grounds of contest. On the contrary we think it is a necessary part of the problem submitted to the Commission in the application for broadcasting facilities."

2. In the appeal of the Missouri Broadcasting Corporation from the grant by the Commission of a new station to the Star-Times Publishing Company at St. Louis and denial of the Missouri application for similar facilities, the Court affirmed the decision of the Federal Communications Commission. The Court held, however, that the Commission must state the reasons for its grant or denial of the license to advise the defeated party of the respects in which he failed to bring himself within the terms of the Act and to enable him to determine whether an appeal should or should not be taken. In the instant case the Court found that as the Missouri Broadcasting Corporation was apprised of the reasons for the Commission's decision during the consideration of its motion for rehearing "the failure of the Commission, therefore, to file any statement of the grounds of decision simultaneously with the order, was harmless error . . . ."

3. The Pulitzer Publishing Company, operators of a time-sharing station in St. Louis and licensee since 1922, intervened in the hearing of the Star-Times Company for a new station in St. Louis. Pulitzer has previously applied for unlimited hours of operation. Pulitzer appealed from the grant to the Star-Times on the principal ground that an established station as a public utility is entitled to priority of consideration over an application for the establishment of a new station and that a new utility should not be allowed to enter the field until an old established utility is given an opportunity to extend its service. The Court overruled this contention and affirmed the action of the Commission. The Court asserted that it had never said that a radio broadcasting station was a public utility in the sense that a railroad is a public utility. It further stated that the power of Congress has not yet been extended to authorize the fixing of rates or establishing rules requiring the licensee to serve alike the entire public in the use of its facilities; nor has Congress assumed the right...
to limit the profits on the basis of its investment or otherwise. The Court also says that the licensee of a station chooses its own advertisers and its own programs and generally speaking the only requirement for a renewal of its license is that it has not failed to function and will not fail to function in the public interest. The Court held that the Commission as a matter of positive duty is not required to give the owner of an existing station priority to enlarge or extend its facilities because alone of the primacy of its grant. Instead the test should be . . . the character and quality of service—having due regard in the distribution on this basis to the equities of existing stations. And to this we may add that the requirement goes no farther than . . . that where the effect of granting an application for a new license will be to destroy the ability of the holder of the old license to carry on in the public interest the application should be denied."

Attorneys in the above cases were: Paul M. Segal, George S. Smith and Harry P. Warner represented the Great Western Broadcasting Association, Inc., The Intermountain Broadcasting Corporation and the Pulitizer Publishing Company; H. H. Shinnick and James W. Gum represented the Utah Broadcasting Company; Louis G. Caldwell, Percy H. Russell, Jr., and Donald C. Beerlar represented the Missouri Broadcasting Corporation; and Paul D. P. Spearman and Alan B. David represented the Star-Times Publishing Company. Hampson Gary, George B. Porter, Fanney Neyman, Andrew G. Healy, and Frank U. Fletcher represented the Commission.

BACON RADIO RESOLUTION

Representative Bacon, of New York, has introduced a resolution (H. Res. 365) to investigate radio in all of its phases. The resolution, which has been referred to the House Committee on Rules, is identical with the White resolution in the Senate which is now pending in that body.

POWER INCREASE RECOMMENDED FOR WMAZ

Broadcasting station WMAZ, Macon, Ga., applied to the Federal Communications Commission to increase its power from 1,000 watts to 1,000 watts and 5,000 watts L.S. The station operates on 1180 kilocycles with limited time and asks no change except in power. Examiner Melvin H. Dalberg in Report No. I-543 recommended that the application be granted. He states that “it is believed that a definite need has been shown for the type of additional daytime service which is sought to be rendered in the area proposed to be served.” It is further stated by the Examiner that “the increase in power for daytime service sought herein would enable the applicant to render service of an improved nature to residents in the outlying areas from Macon, Ga., which appear to be dependent upon this station for programs designed specifically to meet their needs.”

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair methods of competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3281. Alleging unfair competition in the sale of women’s dresses. A complaint has been issued against Jane Engel, Inc., Madison Ave. and 79th St., New York, a retailer, and Kallman & Morris, Inc., 530 Seventh Ave., New York, a dress manufacturer.

Acting cooperatively, the respondent retailer and manufacturer are alleged to have advertised dresses made by the manufacturer and purchased by Jane Engel, Inc., for resale, in such manner as to serve as a representation that they were silk dresses. Such allegations were misleading, according to the complaint, because the dresses were made of material other than silk. The dresses so advertised were represented as Silk Jersey, bearing a label reading Original Kalmour Gown, which, according to the complaint, is a trade name of Kallman & Morris, Inc.

No. 3282. Misuse of the word “silk” in advertising women’s underwear is alleged in a complaint issued against Joe Liebowitz, 1007 Chandler Ave., Linden, N. J.

Labels bearing the words “100% Pure Silk” allegedly were attached by Liebowitz to certain garments manufactured and sold by him, when, according to the complaint, the products so designated were not made from pure silk but were predominately or to a substantial degree composed of weighting material which was not silk.

Stipulations

The Commission has entered into the following stipulations:

No. 01949. Institute for Physical Development, Inc., 49 East 21st St., New York, trading as Hercules Exercises, will continue advertising that its muscle-building training course will enable one to develop big muscles or a strong, husky body, unless such claim is clearly and directly limited to persons who would be benefited thereby, and that the course sells for half price or that the sale price is a special offer.

No. 01950. Reliable Laboratories, Inc., 511 West Tigreras Ave., Albuquerque, N. Mex., will cease advertising that Burneze is a specific cure for burns, stops pain caused by burns and insect bites, prevents infection, and causes most burns to heal without leaving a scar. The respondent corporation will desist from use of the word “Laboratories” as a part of its trade name until it actually owns or operates a laboratory.

No. 01951. Leto H. Smith, San Antonio, Tex., trading as Loto’s Pyorrhea Remedy Company, agrees to stop representing that Leto’s Pyorrhea Remedy is a competent treatment for pyorrhea, bleeding gums and trench mouth; that it is always guaranteed, and that reliable dentists often report the successful use of the preparation in treating their worst cases. The respondent will discontinue use of the word “pyorrhea” as part of the trade name for his product.

No. 01952. The Glessner Company, Findlay, Ohio, operating under the trade name of Sofskin Company, will stop advertising that its Sofskin Creme is recommended by 12,000 beauticians, unless this fact is established by competent evidence; that Sofskin will enable one to gain weight to all hands and skin and covers more skin surface than any other hand cream or hand lotion, and is a competent treatment or effective remedy in treating rough or red hands.

No. 01953. H. H. Wulff, Davenport, Iowa, trading as The Tri-City Service, agrees to cease representing that the treatments described in his book “Why Your Feet Hurt” will cure all foot troubles, including fallen arches, bunions, and heel pains, and that it will inform the reader how to have capable, painless or tireless feet. The respondent also will refrain from advertising that his booklet “Hundreds of Best Markets for Your Photographs”, will enable one to earn $10 to $50 a week.

No. 01954. T. E. Botkin, Piqua, Ohio, trading as Ar-Be Products Company, will stop representing that Vitamin Perles constitute a potent tonic and are recommended as a stimulant for weak glands or nerves; that five drops or any amount of the preparation each day is sufficient to prevent degeneration of certain glands; that Ar-Be Tablets stimulate the digestive organs or assist
in normalizing the system, and that Vitamin E is widely used by doctors, in the treatment of cases of impaired vigor, sluggish glands and mental or physical fatigue.

No. 19353. International Secret Service Institute, 68 Hudson St., Hoboken, N. J., under a stipulation entered into, will cease advertising that its personnel has been connected with, United Laboratories, Inc., over a long period of time, or that the respondent corporation is a maintenance research organization whose recommendations are unbiased, when such is not the fact.

No. 2102. J. W. Kellogg, 801 N. Sangamon St., Chicago, manufacturing and packaging a product for use as a bandage and selling it under either of the trade names Quick Bandages or Seal-tek, stipulates that he will stop employing the word "sterilized" as descriptive of products which are not sterile, and will cease advertising such articles in such manner as to indicate that they have been packaged and while contained in their original package, when such is not a fact. Kellogg also agrees to discontinue representing that his bandage is of such porosity, except when stretched, as to permit enough air to penetrate it to cause sores to heal faster, when such is not a fact.

No. 2103. Von Allmen Preserving Company, Inc., 34th and Bank Sts., Louisville, Ky., engaged in the manufacture and sale of preserves and pickles, has entered into a stipulation to discontinue misbranding apple butter.

The respondent company agrees to cease using on labels or in advertising matter the words "pure apple butter" to describe a product which contains less than 43 per cent of water soluble solids, and to stop employing the words "apple butter" alone or with "pure" so as to imply that the product is in fact apple butter, that is to say, a product which contains not less than 43 per cent water soluble solids, when such is not a fact.

No. 2104. United Laboratories, Inc., Euedal Ave. at Ivanhoe St., Cleveland, distributing plastic rock flooring, roofing materials and various building and storage materials, and paints and varnishes, stipulates that it will cease advertising to the effect that the respondent corporation is a group of laboratories organized and equipped to test, approve and certify every type of maintenance product that is produced; that it has a force of 500 employees; that the respondent corporation is a "board of consulting engineers" whose duty is to pass on various alleged tests; that tests have been made by, or that its personnel has been connected with, United Laboratories, Inc., over a long period of time, or that the respondent corporation is a maintenance research organization whose recommendations are unbiased, when such is not the fact.

The stipulation points out that the respondent corporation has maintained only one laboratory; that it has not been capable of performing the amount of testing alleged, and that its total force has been approximately 160 men, among whom has been one employee who employed the tests of products referred to were made by the companies from which the respondent corporation purchased, and such tests were signed by officers or employees of such companies who were named by the respondent corporation as members of its "board of consulting engineers", according to the stipulation.

No. 2105. Lacy Products Corporation, 15 Aberdeen St., Chicago, manufacturing and selling fudge warmers and hot cups, has entered into a stipulation to discontinue anonymously distributing incomplete copies of proceedings of the Commission, the effect of which is to create the impression that the Government is advising the trade with respect to alleged unlawful unfair or unfair practices on the part of a competitor.

The competitor of Lacy Products Corporation referred to in the stipulation is Helmeo, Inc., 444 West Jackson Boulevard, Chicago, formerly known as H. J. Thome, Manufacturing Company. The products sold by the two companies are designed for heating liquid mixtures of chocolate and other ingredients used in making candy and soda fountain drinks.

No. 2093. Confectioners Trading Corporation, 380 Throop Ave., Brooklyn, N. Y., has been served with an order to cease and desist from certain unfair methods of competition in the sale of candy.

The Commission has issued the following cease and desist orders:

No. 2354. Certain unfair methods of competition are prohibited in an order to cease and desist entered against J. C. Hickson & Co., 207 East Flagler St., Miami, Fla., grower and distributor of citrus fruit.

The order directs the respondent company to discontinue representing that the company is to pass on various alleged tests; that tests have been made by, or that its personnel has been connected with, United Laboratories, Inc., over a long period of time, or that the respondent corporation is a maintenance research organization whose recommendations are unbiased, when such is not the fact.

The respondent company agrees to cease representing in advertisements, on labels or otherwise that certain citrus fruits sold by the respondent corporation are sterilized and continue to remain sterile and free from bacteria after they have been packaged and while contained in their original package, when such is not a fact.

The company also is ordered to cease representing by figures placed on a container that the number of pieces of fruit in such container is greater than the number actually packed therein.

No. 3193. Confectioners Trading Corporation, 380 Throop Ave., Brooklyn, N. Y., has been served with an order to cease and desist from certain unfair methods of competition in the sale of candy.
Among the practices prohibited are sale and distribution to dealers of candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

No. 2837. Two New York concerns, Form Maid Coat Company, Inc., 545 Eighth Ave., manufacturer of women's cloth coats, and Walter-Lewis & Co., Inc., 450 Seventh Ave., distributor of fabrics, have been ordered to cease and desist from misrepresenting the nature, character or quality of certain products they sell in interstate commerce.

The coats in question were manufactured by the Form Maid company from a fabric it purchased from Walter-Lewis & Co., Inc., which, according to the findings, supplied labels, bearing the words "Genuine Camel's Hair" and the picture of a camel, to be attached, and which were attached, to the finished garments. Findings are that the coats so labeled and the fabric from which they were made contained only a negligible amount of camel's hair or wool, the principal constituent parts of the fabric being rayon, wool and cotton warp.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following broadcast hearings are scheduled at the Commission for the week beginning Monday, December 20:

Monday, December 20

HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—Colonial Broadcasters, Inc., Savannah, Ga.—C. P., 1310 kc., 100 watts, unlimited time.

FURTHER HEARING BEFORE AN EXAMINER
(Broadcast)

NEW—First Baptist Church, Pontiac, Mich.—Authority to transmit programs to Station CKLW, Windsor, Ontario, Canada.

Tuesday, December 21

HEARING BEFORE AN EXAMINER
(Broadcast)

WKBZ—Karl L. Ashbacher, Muskegon, Mich.—Voluntary assignment of license to Ashbacher Radio Corp.; 1500 kc., 100 watts, 250 watts LS, unlimited.

Applications Granted

NEW—Indianapolis Power & Light Co., Mobile (area Marion County, Ind.).—Granted C. P. for new relay broadcast station, frequencies 1615, 2900, 2190 and 2830 kc., 40 watts.

NEW—Indianapolis Power & Light Co., Mobile (area Marion County, Ind.).—Granted C. P. for new relay broadcast station, frequencies 1615, 2900, 2190 and 2830 kc., 40 watts.

NEW—Topeka Broadcasting Assn., Inc., Mobile (area Topeka, Kans.).—Granted C. P. for new relay station, frequencies 31100, 34600, 37600 and 40600 kc., 10 watts. Also granted license covering same.

NEW—Topeka Broadcasting Assn., Inc., Mobile (area Topeka, Kans.).—Granted C. P. and license for new relay station, frequencies 39700, 39900, 40800 and 41100 kc., experimentally, 2 watts.

NEW—Topeka Broadcasting Assn., Inc., Mobile (area Topeka, Kans.).—Granted C. P. and license for new relay broadcast station, frequencies 38900, 39100, 39300 and 39500 kc., 10 watts.

NEW—Fountain of Youth Properties, Inc., Mobile (area St. Augustine, Fla.).—Granted C. P. for new relay station, frequencies 29700, 39900, 40800 and 41100 kc., on an experimental basis, 10 watts.

NEW—City of New York, Department of Plant and Structures, Mobile (area New York City).—Granted C. P. for new relay station, frequencies 390000, 430000, 609000 and 720000 kc., on an experimental basis, power 3.5 watts.

W9XSB—South Bend Tribune, Mobile (South Bend, Ind.).—Granted C. P. to make changes in equipment and increase power to 3.5 watts. Also granted license to cover same.

W3XGS (formerly assumed W3XGT)—Keystone Broadcasting Co., Mobile (Harrisonburg, Pa.).—Granted reinstatement of two applications for C. P.'s for new relay broadcast stations under call letters W3XGS and W3XGT; frequencies 31100, 34500, 37500 and 40600 kc., 50 watts.

W6XNL—Charleston Broadcasting Co., Mobile (Charleston, W. Va.).—Granted modification of C. P. to change equipment and reduce power to 2 watts in a relay broadcast station, Also granted license to cover C. P. as modified.

W2XAX—Columbia Broadcasting System, Inc., New York City.—Granted modification of C. P. to cover C. P. and modifications thereof authorizing a new transmitter.

WEAN—The Yankee Network, Inc., Providence, R. I.—Granted modification of C. P. for installation of W.E. 355 E-I equipment. Also granted license to cover C. P. and modifications thereof.

WGRM—P. K. Ewing, Grenada, Miss.—Granted license to cover C. P. and modifications thereof authorizing a new station to operate on 1210 kc., 100 watts, unlimited time.

WRNL—WLBG, Inc., Richmond, Va.—Granted license to cover C. P. and modifications thereof authorizing move of station from Petersburg, Va., to Richmond, and erect new transmitter; 880 kc., 500 watts, daytime only.

WDGY—George W. Young, Minneapolis, Minn.—Granted license to cover C. P. and modifications thereof authorizing a new transmitter.

KIT—Carl E. Hymond, Yakima, Wash.—Granted license to cover C. P. and modifications thereof authorizing new antenna; change in frequency from 1310 kc. to 1250 kc.; increase in power from 100 watts, 250 watts LS, to 250 watts night, 500 watts daytime only.

WOLS—O. Lee Stone, Florence, S. C.—Granted license to cover C. P. and modifications thereof authorizing new station to operate on 1200 kc., 100 watts, daytime only.

KELA—Central Broadcasting Corp., Centralia, Wash.—Granted license to cover C. P. and modifications thereof authorizing new station to operate on 1440 kc., 500 watts, unlimited time.

KAAC—Columbia Broadcasting System, Inc., Mobile, New York City.—Granted license to cover C. P. for relay broadcast station, frequencies 1615, 2900, 2190 and 2830 kc., 50 watts.

WBNT—WBNS, Inc., Columbus, Ohio.—Granted license to cover C. P. for relay broadcast station, frequencies 1615, 2900, 2190 and 2830 kc., 175 watts.

W9XXM-W9XXZ—Indianapolis Power & Light Co., Mobile, Indianapolis.—Granted license to cover C. P. for two relay broadcast stations, frequencies 31100, 34600, 37600 and 40600 kc., experimentally, 40 watts power.

W4XF—Miami Broadcasting Co., Miami, Fla., Mobile.—Granted license to cover C. P. for relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., on an experimental basis, 15 watts power.

W2XOY—General Electric Co., Albany, N. Y.—Granted license to cover C. P. for new high frequency broadcast station on an experimental basis, frequencies 31000, 35200, 38800 and 41000 kc., 150 watts.

W3XGN—Berkis Broadcasting Co., Reading, Pa., Mobile.—Granted license to cover C. P. for new relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., 1 watts power.

W3XHF—Pennsylvania Broadcasting Co., Philadelphia, Pa., Mobile.—Granted license to cover C. P. for new relay broadcast station, frequencies 31100, 34600, 37600 and 40600 kc., 10 watts power.

W9XXU—KCMO Broadcasting Co., Kansas City, Mo., Mobile.—Granted license to cover C. P. for relay broadcast station, frequencies 100000, 200000, 300000 and 500000 kc., on an experimental basis, 5 watts.

KFM—The Times Publishing Co., St. Cloud, Minn.—Granted license to cover C. P. approving transmitter and studio sites, installation of vertical radiator and changes in authorized equipment.

WTOL—The Community Broadcasting Co., Toledo, Ohio.—Granted modification of C. P. approving transmitter and studio sites, changes in authorized equipment, and installation of vertical radiator.

2416
APPLICATIONS RECEIVED

First Zone

WTIC—The Travelers Broadcasting Service Corp., Hartford, Connect., Conn.—Extension of special experimental authorization to change frequency from 1060 kc. to 1040 kc., hours of operation from 8 a. m. to 12 midnight, and increase power from 100 watts to 250 watts.

WBAL—The WBAL Broadcasting Co., Baltimore, Md.—Extension of special experimental authorization to operate simultaneously with WJZ on 950 kc., from 6 a. m. to local sunset at Hot Springs, Ark., with local sunset at Hot Springs, Ark., to 9 p. m., EST, on 1600 kc., and synchronously with WJZ on 750 kc., with 2 1/2 KW power, using directional antenna, from 9 p. m., EST, for period 1-2-38 to 8-1-38.

WSAL—Frank M. Stearns, Salisbury, Md.—License to cover construction permit (B1-P-1613) as modified for a new station.

WATR—The WATR Co., Inc., Waterbury, Conn.—Construction permit to move transmitter from 47 Grand Street, Waterbury, Conn., to 71 Grand Street, Waterbury, Conn.

WBRK—Harold Thomas, Pittsfield, Mass.—Modification of construction permit (B2-P-1055) requesting changes in directional antenna and approval of vertical antenna; approval of transmitter site at East and Newell streets, Pittsfield, Mass. Amended to give studio site as 8 Bank Row, Pittsfield, Mass., and make changes in requested equipment.

WNBC—State Broadcasting Corp., New Britain, Conn.—Modification of construction permit (B2-P-1055) requesting changes in directional antenna and approval of transmitter site at Cedar Street, Newton, Conn. Amended to make changes in directional antenna for day and night use.

WDQ—E. J. Regan and F. Arthur Bostwick, d/b as Regan & Bostwick, St. Albans, Vt.—Voluntary assignment of license from E. J. Regan and F. Arthur Bostwick, d/b as Regan & Bostwick, to F. Arthur Bostwick.

WIXMX—The Yankee Network, Inc., Quincy, Mass.—License to cover construction permit (B1-PHB-48) for move of facsimile broadcast station from Quincy, Mass., to Sargents Purchase, N. H.

Second Zone

KVW—Westinghouse Electric & Manufacturing Co., Philadelphia, Pa.—Construction permit to install a new transmitter, make changes in directional antenna for day and night use, and increase power from 10 KW to 50 KW.

WLVA—Lynchburg Broadcasting Corp., Lynchburg, Va.—Construction permit to change frequency from 1290 kc. to 1300 kc.; make changes in equipment; increase power from 100 watts night, 250 watts day, to 500 watts; install directional antenna for night use and move transmitter from near Lynchburg, Va., to U. S. Highway 29, near Lynchburg, Va. Amended to make changes in equipment and directional antenna; change requested power from 500 watts to 1 KW; change transmitter site to River Road, near Lynchburg, Va., and studio site to Allied Arts Bldg., Lynchburg, Va.

NEW—Reading Broadcasting Co., area of Reading, Pa.—Construction permit for a new station to be operated on 31100, 31600, 37600, 40600 kc., 100 watts.

Third Zone

WOC—Mississippi Broadcasting Co., Inc., Meridian, Miss.—Modification of construction permit (B3-P-1434) as modified to extend completion date from 1-10-38 to 3-10-38.

WRBL—WRBL Radio Station, Inc., Columbus, Ga.—Modification of construction permit for a new experimental relay broadcast station to be operated on 31100, 31600, 37600, 40600 kc., 100 watts.

WPAX—H. Wimpy, Thomasville, Ga.—Construction permit to make changes in equipment, change power from 100 watts to 150 watts, 250 watts day, and change hours of operation from daytime to unlimited time.

KRBA—Red Lands Broadcasting Assn. (Ben T. Wilson, Pres.), Hot Springs, Ark.—Modification of construction permit (B3-P-1341) to make changes in authorized equipment; for ap-
proval of vertical antenna; approval of transmitter site at ½ mile north on Highway 35, Lufkin, Tex., and change studio from Angolina Hotel, S. First St. and Shepherd, Lufkin, Tex., to ½ mile north on Highway 35, Lufkin, Tex.

NEW—Jonas Welland, Goldsboro, N. C.—Construction permit for 1500 a new station to be operated on 1500 kc., 100 watts, daytime.

NEW—Virgil V. Evans, d/b as The Voice of South Carolina, 2012 Spartanburg, S. C.—Construction permit for a new facsimile station to be operated on 2012 kc., 250 watts.

W5XD—A. H. Belo Corporation, Grapevine, Tex.—License to cover construction permit (B3-PHB-27) for a new high frequency broadcast station.

NEW—Columbia Broadcasting System, Inc., area of Charlotte, N. C.—License to cover construction permit (B3-PRY-78) for a new relay broadcast station.

W4XBW—WDOD Broadcasting Corp., Chattanooga, Tenn.—Modification of license to operate transmitter by remote control.

Fourth Zone

KFEQ—KFEQ, Inc., St. Joseph, Mo.—Modification of construction permit (B4-P-1690) as modified for new vertical antenna and move of transmitter, requesting extension of completion date from 1-9-38 to 3-9-38.

WJBL—Commodore Broadcasting, Inc., Decatur, Ill.—License to cover construction permit (B4-P-1859) for new vertical antenna and move of transmitter.

KVOX—KVOX Broadcasting Co., Moorhead, Minn.—License to cover construction permit (B4-P-324) as modified, for a new station.

KSCJ—Perkins Brothers Co. (The Sioux City Journal), Sioux City, Iowa.—Authority to determine operating power by direct measurement of antenna.

WGRC—North Side Broadcasting Corp., New Albany, Ind.—In-1370 voluntary transfer of control of corporation from Arthur L. Harris to Charles Lee Harris, 900 shares common stock.

WCC—Tri-City Broadcasting Co., Davenport, Iowa.—Construction permit to make changes in vertical antenna; change frequency from 1370 kc. to 1390 kc., and change power from 100 watts night, 250 watts day, to 250 watts day and night.

NEW—Banks of Wabash, Inc., area of Vigo County, Ind.—Construction permit for a new relay broadcast station to be operated on 31100, 34500, 37600, 40600 kc., 35 watts.

Fifth Zone

KHQ—Louis Wasmer, Inc., Spokane, Wash.—Authority to determine operating power by direct measurement of antenna.

KTFI—Radio Broadcasting Corp., Twin Falls, Idaho.—Extension of special experimental authorization to operate with power of 1 KW night for period from 1-1-38 to 3-1-38, pending completion of tower.

KGGC—Golden Gate Broadcasting Co. (Robert J. Craig), San Francisco, Calif.—Modification of construction permit (B5-P-1725) for new antenna and move of transmitter, requesting extension of commencement and completion dates from 6-27-37 and 12-27-37, respectively, to 12-27-37 and 6-27-38.

KRKO—Lee E. Mudgett, Everett, Wash.—Construction permit to change frequency from 1570 kc. to 1420 kc.; install a new transmitter and vertical antenna; increase power from 50 watts to 100 watts night, 250 watts day; change hours of operation from share KEEN to unlimited time; and move transmitter from 2814 Rucker Avenue, Everett, Wash., to site to be determined, Everett, Wash.
WISHING YOU
A MERRY CHRISTMAS
AND
A HAPPY NEW YEAR

The NAB Staff

NOTICE TO ALL MEMBERS:

The National Association of Broadcasters is now prepared to make electrical transcriptions of speeches by Senators and Congressmen for its members.

This service is available only to members of the Association and recordings will be made only upon the request of a member station and at the member's expense. Members will be billed as follows:

For each 16 inch disc—$2.70 plus postage.
For each 10 inch disc—$1.60 plus postage.

(The above prices apply whether the discs are recorded either on one side or both sides, and are subject to change without notice.)

Recordings will be made at the Association's offices, 960 National Press Building, between the hours of 9 a.m. and 6 p.m., and by appointment. If a member desires his Senator or Congressman to make a recording for him, that fact should be communicated to this office and the Senator or Congressman should be advised to make an appointment either through the Managing Director or Leonard D. Callahan or Everett E. Revercomb of the staff, by calling National 8470.

It is requested you acknowledge the receipt of this notice and advise us of the name of the officer of your station who is authorized to order recordings to be made.

JAMES W. BALDWIN, Managing Director.

JETT APPOINTED CHIEF ENGINEER

The Federal Communications Commission has announced the appointment of Lieutenant Ewell K. Jett as its Chief Engineer, effective January 1, 1938, as the successor to Commander T. A. M. Craven who was appointed Commissioner August 23.

Lieutenant Ewell K. Jett has been Acting Chief Engineer since August, when he was named to succeed Commissioner T. A. M. Craven, the former Chief Engineer of the Commission.

Lieutenant Jett was born in Baltimore and is 44 years old. He entered the U. S. Naval Service in June 1911. Prior to the World War he served as a telegraph operator, and as a radioman on board the battleships Utah and Michigan and the destroyer Parker. From 1914 to 1916 he served at the Arlington Radio Station and at the Navy's first radio remote control station in the State, War and Navy Building, Washington, D. C.

From 1917 to 1919 he served as Radio Officer on board Vice Admiral Gleaves flagship Seattle of the Cruiser and Transport Force, and as Radio Officer of the battleship Georgia.

He was permanently commissioned an ensign in the Navy in 1919 at which time and continuing until 1922 he served as Radio Officer and Officer-in-Charge of the Navy Department Transatlantic Radio Control Station. During a part of this time all transatlantic communication traffic, both government and commercial, was handled...
through the Transatlantic Control Station utilizing the transmitters of Arlington, Annapolis, Navy Yard, Washington, Tuckerton, N. J., New Brunswick, N. J., and Sayville, N. Y.

In 1922 he served as Radio Officer of the battleship Texas of the Pacific Battle Fleet; and from 1923 to 1926 as aide on the staff of Admirals Chase and Marvell and as Radio Officer of the Fleet Base Force.

After completing four years of sea duty he was again transferred to the Navy Department in Washington where he served under the Director of Naval Communications as Officer-in-Charge of the Registered Publication Section, and as Assistant Navy Department Communication Officer and Officer-in-Charge, Radio Central.

In 1929 Lieutenant Jett was “loaned” to the Engineering Department of the Federal Radio Commission and later, upon being retired from the Navy, he was appointed a senior radio engineer in direct charge of the Commission’s engineering work concerning radio services other than broadcasting. He was appointed Assistant Chief Engineer in 1931 in which capacity he has continuously served until the present date. Since the creation of the Federal Communications Commission in 1934 he has had direct charge of engineering matters relating to telegraph, submarine cable, and radio services under the jurisdiction of the former Telegraph Division of the Commission.

Lieutenant Jett was a member of the American Delegation to the North and Central American Radio Conference, Mexico City, 1933; North American Regional Radio Conference, Havana, March 1937; the International Radio Consulting Committee (C. C. I. R.) Bucharest, May-June, 1937; and the recently concluded Inter-American Radio Conference, Havana, Cuba. In August of this year he represented the Commission at the Governor’s Conference in Juneau, Alaska. President Roosevelt recently named him a delegate to the International Telecommunications Conference which is scheduled to convene at Cairo, Egypt, on February 1, 1938.

Lieutenant Jett was Chairman of the Washington Section of the Institute of Radio Engineers in 1935. His home is in Chevy Chase, Maryland.

CAIRO RADIO CONFERENCE DELEGATES NAMED. CRAVEN ALSO WILL GO TO CAIRO.

Senator Wallace H. White, Jr., of Maine, will head the American delegation to the Cairo, Egypt, International Radio Conference to convene February 1, according to official announcement made by the State Department. The statement in full is as follows:

The President has approved the appointment of the following official delegation to attend the International Radio Conference and the International Telegraph and Telephone Conference, which are to be convened at Cairo, Egypt, February 1, 1938, and are to continue concurrently, for the purpose of revising the general and additional radio regulations, the telegraph regulations and the telephone regulations annexed to the International Telecommunications Convention signed at Madrid in 1932:

Delegates:
The Honorable Wallace H. White, Jr., United States Senate, Chairman; Captain Stanford C. Hooper, United States Navy; E. K. Jett, Acting Chief Engineer, Federal Communications Commission; Francis Colt de Wolf, Treaty Division, Department of State.

Technical Advisers:
War Department:
Lieutenant Colonel David M. Crawford, Signal Corps;
Navy Department:
Commander Joseph R. Redman;
Treasury Department:
Commander J. F. Farley, Chief Communications Officer, United States Coast Guard;
Department of Commerce:
L. H. Simson, Communications Specialist, Radio Development Section;
Federal Communications Commission:
E. M. Webster, Acting Assistant Chief Engineer; Gerald C. Gross, Chief, International Section; Marion H. Woodward, Senior Telegraph Engineer; William G. Butts, Chief, Tariff Section;
Secretary General of Delegation:
Joseph C. Satterthwaite, Second Secretary, America Legation, Baghdad.

Secretary of Delegation:
Arthur L. Richards, American Vice Consul, Cairo.

Although there has been no official announcement there is a very definite report in unusually reliable circles that Commissioner T. A. M. Craven will also attend the Cairo conference as a delegate. The other members of the delegation will leave the country on January 4th but it is
said Commissioner Craven will not leave until early in February.

**COMMISSIONER CRAVEN DISCUSSES HAVANA CONFERENCE**

Commissioner T. A. M. Craven of the Federal Communications Commission, who has just returned from Havana, Cuba, where he represented the United States in the capacity of Chairman of its delegation to the Inter-American Radio Conference, has issued the following statement:

"The accomplishments of the Inter-American Radio Conference in Havana have greater significance in the interest of the public of the United States than is generally realized or than originally contemplated.

"This was the first conference of its kind ever held on this continent. However, there was successfully concluded a series of agreements concerning the application of radio to Inter-American communications including aviation, police, broadcasting, fixed services, shipping, and other services for which radio is useful.

"Of great significance is the fact that for the first time in history a decision was made to undertake cooperative action with respect to the radio needs of the Americas, because at this Inter-American Conference at Havana it was agreed that the nations of America would collaborate as an effective whole in asserting their common interest in a world-wide international radio conference."

Commissioner Craven stated that this augurs well for future Pan Americanism and creates good will of such practical nature as to be of great benefit to the people of the United States and the other American countries including industry, labor, and cultural interests. It is considered that as a result of this action the future American market available to the United States, as well as to the other American nations, has been enhanced and that practical steps have been taken to curtail the inroads being established in this market by competitive nations from other continents. This is brought about in two ways; first, by the establishment of practical collaboration between the Americas and second, by so establishing communications as to make their use effective between the American nations. Since lines of communication are an essential auxiliary to trade it should appear to every thoughtful man that the Inter-American Conference at Havana is of significant importance to the people of the United States.

Among the provisions made at Havana was the establishment of ways and means for exchanging information between the Americas as well as for the betterment of mutual understanding through the exchange of cultural information.

Facilities were made available for the exchange of news among the American nations in a manner which will enable counter action against the detrimental effects of propaganda poured into South America from Europe.

Commissioner Craven stated: "The most controversial matter discussed at Havana was North American broadcasting. After a month and a half of strenuous negotiations, agreement was reached whereby the public of the United States can be assured of better broadcasting reception in the future by reason of the elimination of interference caused by high powered radio stations located in neighboring countries. Had agreement not been reached in this matter, both Pan Americanism and the rendering of good radio broadcasting service within the United States would have been endangered. Without such an agreement the technical conditions on our broadcasting channels would become chaotic by reason of the necessity of other nations to use our channels regardless of interference. Thus an industry was in danger. The fact that agreement was reached is considered an outstanding achievement because it is the first time this has been possible after several other attempts in the past few years.

"The price paid by the United States for this improved service and the prevention of chaotic radio conditions is remarkably small because not one of its 700 broadcasting stations is seriously affected. Before entering the Conference, fears had been expressed that in order to secure agreement the United States might have to surrender the use of several of the channels it now enjoys, thus eliminating scores of radio stations. However, the United States delegation has been particularly successful in negotiating an agreement without sacrificing any radio station in the United States.

"The actual price paid by the United States for the vast improvement expected in the technical phases of radio broadcasting within the United States is the shifting of the frequency assignments of our stations a few kilocycles or a few channels from their present assignment and in some instances the utilization of a directional antenna. The latter is a device developed recently to reduce interference. While this shifting will be a material inconvenience the effect thereof can be overcome in a relatively short period."

Commissioner Craven further stated: "In this day of unrest throughout the world, it is considered that the results accomplished at Havana augur well for the interest of the public in all the nations of the Americas because it is the first practical example of effective collaboration among these nations in coordinating their radio rights in a world of turbulence and disagreement."

**BROADCAST ENGINEERING CONFERENCE**

Arrangements have been completed for the Broadcast Engineering Conference to be held February 7-18 which is being sponsored by the Department of Electrical Engineering of the Ohio State University, Columbus, Ohio.
It is the announced purpose of the conference to bring together leaders in the industry and practicing engineers from all parts of the United States and Canada in a discussion of some of the important technical problems. The program includes three topics a day.

Among the speakers will be: Harold H. Beverage, R. C. A. Communications, Inc.; George H. Brown, consulting radio engineer; John F. Byrne, Collins Radio Company; John H. Dellinger, National Bureau of Standards; William H. Doherty, Bell Telephone Laboratories; William L. Everitt, Ohio State University; Herbert M. Hucke, United Airlines Transport Corporation; George M. Nixon, National Broadcasting Company; Harold L. Oleson, Western Electrical Instrument Corporation; Peter C. Sandretto, United Airlines Transport Corporation; and Arthur E. Thiessen, General Radio Company.

FCC ASKS MAE WEST DATA FROM NBC

Frank R. McNinch, chairman of the Federal Communications Commission under date of December 18, sent a letter to Lenox R. Lohr, president of the National Broadcasting Company requesting certain information on a recent program which featured Mae West. The chairman says:

"The Federal Communications Commission has received many letters protesting against the Mae West skit, 'Adam and Eve,' sponsored by Chase & Sanborn, which was broadcast over your network last Sunday night, December 12.

"There is marked uniformity of thought in the letters of protest, which variously characterize the skit as 'profane,' 'obscene,' 'indecent,' 'vulgar,' 'filthy,' 'dirty,' 'sexy' and 'insulting to the American public.' These letters bear no evidence of having been written by cranks or prudes but by responsible and intelligent citizens.

"Section 326 of the Federal Communications Act of 1934 clearly precludes this Commission's exercising any power of censorship over radio broadcasts. That same section, however, provides that no person shall utter any obscene, indecent or profane language by means of radio communication and this Commission is charged by law with the enforcement of that as well as other provisions of the Act. Every person holding a radio station license has the legal as well as moral duty and obligation to protect the public from offensive broadcasts.

"If those who have protested to the Commission concerning this broadcast are substantially correct in their appraisal of it, I have no hesitancy in saying that the licensees of the stations over which it was broadcast have been derelict in the discharge of their duty. However; I want to make it clear that the Commission has not prejudged this matter but will reserve its judgment until all of the facts are before it.

"In order that the Commission may determine the facts with respect to this skit, you are hereby directed to furnish it as promptly as possible with the following:

1. A copy and exact transcript of the Adam and Eve feature.
2. The electrical transcription or reproduction of this skit.
3. A copy of the contract between Chase & Sanborn and the National Broadcasting Company, covering this broadcast.
4. The names and locations of the stations which reproduced the program feature."

RECOMMENDS VOLUNTARY ASSIGNMENT

Examiner Tyler Berry in Report No. I-565 recommended that the application be granted. He states that "the proposed assignee is legally, financially and otherwise qualified to own and operate a radio broadcast station; and proposes to employ an adequate staff of technically qualified persons to operate the station." The examiner states also that the granting of the application would be in the public interest.

FEDERAL TRADE COMMISSION ACTION Complaints

The Federal Trade Commission has alleged unfair competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3283. Use of certain unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act, is alleged in a complaint issued against Lawrence A. Huffman and Plant Energy, Inc., 71 Sixth St., Logansport, Ind., engaged in the manufacture and sale of compounds for use in stimulating the growth of legume and non-legume plants. Huffman, who is president of Plant Energy, Inc., traded as Plant N-R-G Company prior to July 1936.

The complaint alleges that the respondents advertise their No. 2 Legume Inoculation as containing living bacteria which, when mixed with the plant seed of legumes, promote a growth of nodules that add vitality to and stimulate the root system, producing a thriftier growth and an increase in the yield of the plant. According to the complaint, the compound does not contain living bacteria which promote the growth of nodules on the roots of legumes and which stimulate the growth and yield of the plant, either when mixed with the seed or when placed in the soil.

No. 3284. Allegedly misrepresenting the therapeutic value of a medicinal preparation designated as Floracubes, Eugene H. Hunter and Rae Lamarr Hunter, trading as The Floracube Company, Inc., 2133 Sunset Boulevard, Los Angeles, are named respondents in a complaint.

In circulars and other advertising matter, the respondents, according to the complaint, represent that their preparation is a medicinal preparation designed as Floracubes, Eugene H. Hunter and Rae Lamarr Hunter, trading as The Floracube Company, Inc., 2133 Sunset Boulevard, Los Angeles, are named respondents in a complaint.
Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2602. Englander Spring Bed Company, Inc., Stewart and John Streets, Brooklyn, has been ordered to cease and desist from fictitious price marking in connection with the sale of mattresses.

Findings are that the respondent company advertised certain mattresses as having regular retail prices of $39.90 or $29.75, depending upon their quality, and offered them for sale through retailers at $22.50 and $19.75, respectively. According to the findings, the higher prices advertised are not the customary and regular retail prices, but are fictitious, bear no relation to the true retail prices, and the regular and customary prices are $22.50 or $19.75.

No. 2687. C. W. Beggs Sons & Co., 1741 North Western Ave., Chicago, has been ordered to cease and desist from certain unfair methods of competition in connection with the sale of Marcelle cosmetics, which are advertised as being non-allergie.

The order prohibits the respondent corporation from representing that its preparations, including the formulas thereafter, have been accepted or approved by the American Medical Association, or have passed rigorous requirements established by such association as to purity of ingredients or therapeutic claims.

No. 2690. Worthall, Ltd., 165 Fifth Avenue, New York, a dealer in insulation devices, has been ordered with an order directing it to cease and desist from certain misleading representations in the sale of its products.

The order prohibits representation, through the use of the term "Drury Lane English Lavender" or any other words as a brand name for its toilet preparations and cosmetics, or through any other means, that its products are of English manufacture or origin, or are imported from England.

No. 3063. Representations that they grow or propagate nursery stock sold by them are to be discontinued by Earl E. May and the Earl E. May Seed Company, Sherman, Iowa, under an order to cease and desist. May is the principal stockholder and directs the activities of the company.

The order also directs the respondents to cease representing that they own, operate or control lands, farms or property in or on which nursery stock is grown for sale, unless and until such is a fact.

In their 1937 catalogue, according to the findings, the respondents embodied many changes intended to correct the objectionable advertising matter contained in their 1936 catalogue.

Stipulations

The Commission has entered into the following stipulations:

No. 01963. Reynolds Corporation, 19 Rector St., New York, dealer in an insulation device consisting of aluminum foil mounted on Kraft paper, has entered into a stipulation to discontinue certain misleading representations in the sale of its product.

Among the representations to be discontinued are that radiation is responsible for 70 per cent of the heat loss from houses, or any other percentage, unless supported by competent authority, and that Reynolds Metallation will not stop the passage of heat of any type in any amount or percentage, except such type and amount or percentage as has been established by competent factual evidence.

Under the stipulation, Reynolds Metallation will not be advertised as impartious to the passage of heat or as resistant to fire, unless the latter assertion is limited to types found by competent scientific tests to be substantially fire resistant under normal conditions of use.

No. 01964. Under a stipulation entered into between R. D. Burchard, Jr., P. O. Box 2670, Cleveland, trading as Radio Metal Locating Company, agrees to discontinue certain misleading representations in the sale of Radio Metal Locator, a device designated for use in locating metals and hidden treasures.

Burchard stipulates that he will no longer represent his product as being capable of distinguishing between metals such as gold and silver. He also stipulates that he will not advertise that his "bonded notary public money back guarantee" is a bonded guarantee or a notary public guarantee, and admits that such guarantee is not as advertised but merely guarantees to replace a deficient device or machine with another like device or machine.

No. 01965. Associated Distributors, Inc., 111 West Monroe St., Chicago, agrees to discontinue representing that its skin cream, called Essence of Life Face Cream, contains a newly found substance, is capable of nourishing the skin or resupplying vital elements, or is a substitute for a proper diet. According to the stipulation, the results achieved by use of the preparation will not be advertised as miraculous.

No. 01966. Herb Juice-Penol Company, Inc., Danville, Va., trading as Pow-O-Lin, stipulates that its product, Pow-O-Lin, will not be advertised as being capable of relieving biliousness, nervousness, indigestion, and countless ills due to constipation, unless these assertions are limited to temporary relief from constipation. Penol Emulsion will not be represented as being thoroughly emulsified that it remains in this state even after it enters the body, the Miller's Herb Extract and Laxative Compound, although known as Miller's Herb Juice, will not be advertised as being capable of clearing the body of poisonous wastes brought on by constipation, unless this assertion is limited to temporary relief from such ailments.

No. 01967. R. M. Allport, 9204 Superior Ave., Cleveland, trading as Armall Agency and Armall Laboratories, agrees in the sale of Armall Ointment, it will not advertise this product as giving quick or sure relief in the treatment of psoriasis, eczema, ringworm, and similar ailments; and will cease representing that Armall Ointment will correct scalp diseases, penetrate the skin or scalp, and that it contains glandular extracts from sheep, or stimulants and tissue-building agents.

The respondent agrees to stop using the word "laboratory" in his trade name or otherwise indicating that he maintains a laboratory.

No. 01968. Joseph Perssonen, Inc., New York City, distributor of Ferro-China Bisleri, a medicinal preparation, agrees to stop advertising that use of the product will renovate, nourish or increase the blood supply, condition the stomach, or rebuild the body or system, and to cease making certain other similar allegations.

No. 01969. Florence J. Sprafka, trading as Ashlund Dental Laboratories, Chicago, Ill., stipulates that she will cease advertising the artificial dentures she sells as being perfect in fit, comfort or quality, and will discontinue the representation that a person can always make accurate impressions of his own gums, in his own home, or that satisfactory dentures can always be made from such impressions.

No. 01970. Samuel Kosofsky, 135 West 42nd St., New York, operating as Lakro Company, in the sale of Undrus Liquid, formerly designated Wundrus Water, will cease asserting that this preparation will recolor hair or restore the color of gray hair, or that the product is a color restorer. The respondent admits that the product will not restore color to gray hair, and that it is not a color restorer.

No. 01971. M. H. G. Thrussler, trading as Lorenz Truss and Electric Works, Chicago, Ill., in the sale of an article designated Electric Suspensory, will discontinue the assertion that use of this article preserves health or improves strength, and that it is valuable in the treatment of run-down condition, weak nerves, rheumatism, or poor circulation. The respondent also agrees to cease advertising the word Doctor as part of the trade name of his product or in any other manner implying that a doctor has been or is active in developing it.

No. 2106. Ralph Corn, Inc., 32 East 31st St., New York, engaged in the sale of women's undergarments, has entered into a stipulation to discontinue certain misrepresentations concerning its merchandise.

The respondent corporation agrees to cease using in advertising matter the word "satin" or the words "pure dye," either alone or in conjunction with each other, as descriptive of garments not composed wholly of silk. If the garments are composed in substantial part of silk and the words "satin" or "pure dye" or "pure dye satin" are used to describe their silk content, then such words shall be accompanied by other words in type equally as conspicuous so as to indicate clearly that the garments are not composed wholly of silk but are made in part of other materials.

FEDERAL COMMUNICATIONS
COMMISSION ACTION

Hearing Calendar

Because of the holiday season there will be no broadcast hearings at the Commission during the week beginning Monday, December 27.
The Commission has taken the following action:

**APPLICATIONS GRANTED**

**KALE—KALF, Inc., Portland, Ore.—**Granted C. P. for changes in composite equipment and increase in power from 500 watts to 1 KW.

**NEW—C. M. Jansky, Jr., and Stuart L. Bailey, d/b as Jansky and Bailey, Washington, D. C.—**Granted C. P. for new high frequency broadcast station, frequency 402000 kc., power 1000 watts, emission A3 and Special, maximum band of emission 15000 kc., for amplitude modulation and 500 kc. for frequency modulation, in accordance with Rules 986 and 1053(b).

**NEW—South Bend Tribune, South Bend, Ind.—**Granted C. P. for new high frequency broadcast station, frequency 27030 kc., power 100 watts, emission A3.

**WSAI—The Crosley Radio Corp., Cincinnati, Ohio.—** Granted modification of license to increase day power from 2½ KW to 5 KW.

**NEW—WHDL, Inc., Mobile (area of Olean, N. Y.).—**Granted C. P. for a new high frequency broadcast station, frequencies 1520, 2655, 2450 and 2709 kc., power 25 watts, emission A3.

**NEW—Michigan State College, Mobile (area of Lansing, Mich.).—** Granted C. P. for a new high frequency experimental relay broadcast station. Frequencies 39700, 39900, 40800 and 41100 kc., power 5 watts, emission A3. Also granted license to cover above C. P.

**WABG—Memphis Commercial Appeal Company, Mobile.—**Granted C. P. to make changes in equipment and increase power from 35 watts to 50 watts.

**WTDC—Shenandoah Valley Broadcasting Corp., Harrisonburg, Va.—**Granted authority to take depositions on the Mezzanine Floor of the Read House Hotel, Chattanooga, Tenn., beginning at 10 o'clock on January 10, 1938, in re application for new broadcast station, frequency 1150 kc., power 500 watts, 1 KW LS, unlimited time.

**WPAX—H. Wimp, Thomasville, Ga.—**Granted special temporary authorization to operate unlimited time for the period beginning December 22, 1937, and ending in no event later than December 25, 1937, in order to aid local charities.

**WNYC—City of New York, Dept. of Plant and Structures, New York, N. Y.—**Granted special temporary authorization to operate from 9:30 p. m. to 10:30 p. m., EST, Wednesday, December 22, 1937, in order to broadcast addresses by the Hon. F. H. Bownes, Mayor of the City of New York, and Hon. Lewis J. Valentine, Police Commissioner, and others at Police Graduation Exercises.

**WWJ—The Evening News Assn., Detroit, Mich.—**Granted extension of special temporary authorization to operate for the period beginning December 30, 1937, and ending in no event later than January 28, 1938, with an increase in night power to 5 KW in order to overcome interference.

**KAND—Navarro Broadcasting Assn., Corsicana, Tex.—**Granted special temporary authorization to operate from local sunset (December sunset, 5:30 p. m.) to 12 midnight, CST, December 23 and 31, 1937, in order to broadcast special programs.

**WSVA—Shenandoah Valley Broadcasting Corp., Harrisonburg, Va.—**Granted special temporary authorization to operate from 12 midnight December 24, 1937, to 1:30 a. m., EST, December 25, 1937, using power of 250 watts, in order to broadcast religious service from local Catholic Church.

**WKBK—WKBK Broadcasting Corp., Youngstown, Ohio.—**Granted special temporary authorization to operate from local sunset (December sunset, 5:30 p. m.) to 12 midnight, EST, January 1, 1938, in order to broadcast holiday and devotional programs (provided WOSU remains silent).

**WRNL—WLIG, Inc., Richmond, Va.—**Granted special temporary authorization to operate from 6 p. m. to 7 p. m., EST, December 24, 1937, in order to broadcast the Richmond Community Tree Celebration held in the State Capitol Grounds; and from 12 midnight to 1:30 a. m., EST, December 25, 1937, in order to broadcast midnight Christmas Mass from St. Peters Catholic Church at Richmond.

**ORAL ARGUMENTS GRANTED**

Oral arguments were granted in the following cases, on dates specified to be heard in the Commission's offices in Washington, D. C.:

2424
SPECIAL AUTHORIZATIONS

WPRP—Julio M. Conesa, Ponce, P. R.—Granted special temporary authority to operate daily, except Sundays, from 4 p. m. to 6 p. m., AST, from December 18, 1937, to January 15, 1938, in order to broadcast programs of the Puerto Rico Irrigation and Power Service.

KFNF—KFNF, Inc., Shenandoah, Iowa.—Granted special temporary authority to remain silent after 1 p. m., CST, December 25, 1937, in order that staff may spend remainder of day at home with their families.

WFLA—Florida West Coast Broadcasting Co., Inc., Clearwater, Fla.—Granted extension special temporary authority to close Clearwater studios for the period beginning January 1, 1938, and ending in no event later than January 31, 1938, and use Tampa studios, pending action on application for license for this station.

WHDF—Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authority to operate from 8 a.m. to 10:30 a.m., CST, and from 12:30 to 3:30 p.m., CST, December 25, 1937, in order to broadcast Christmas programs.

KSRD—The Press Democrat Publishing Co., Santa Rosa, Calif.—Granted special temporary authority to operate from 11:30 p.m., PST, December 24, 1937, to 1:30 a.m., PST, December 25, 1937, for the purpose of broadcasting the Special Christmas Services of the First Episcopal Church of Santa Rosa.

KFYR—Meyer Broadcasting Co., Bismarck, N. Dak.—Granted special temporary authority to operate RCA Type 250-G transmitter, using 250 watts, for the period beginning December 26, 1937, and ending in no event later than December 30, 1937 (instead of from December 10, 1937, ending December 19, 1937, as granted November 29, 1937), pending moving of regular equipment, provided station is held responsible to strict compliance to all pertinent rules.

WKBV—Knox Radio Corp., Richmond, Ind.—Granted special temporary authority to operate from 9:45 a.m. to 10 a.m., CST, January 3, 5, 7, 10, 12, 14, 17, 19, 21, 24, 26, 28, 31, 1938, in order to broadcast Earlham College Chapel Service.

APPLICATIONS DESIGNATED FOR HEARING

NEW—Howard W. Davis and W. W. McAllister, d/b as Walmac Company, San Antonio, Texas.—C.P. for new high frequency broadcast station, frequencies 31600, 35600, 38600, 41000 kc., power 50 watts, emission A3.

KMAC—W. W. McAllister, San Antonio, Texas.—Voluntary assignment of license to W. W. McAllister and Howard W. Davis, a partnership doing business as the Walmac Company; 1370 kc., 100 watts night, 250 watts day, share with KONO.

KMAC—W. W. McAllister, San Antonio, Texas.—Renewal of license (license granted on temporary basis pending action on application).

MISCELLANEOUS

Columbia Radio Co., Inc., Columbia, S. C.—Denied petition to reopen the record of the hearing on the applications of Columbia Radio Company, Inc. (Docket No. 4162) and the Carolina Advertising Corporation (Docket No. 4274) for authority to establish new broadcast stations at Columbia, S. C.

Scripps-Howard Radio, Inc. (formerly Continental Radio Co.), Cincinnati, Ohio.—Denied petition for re-hearing upon the applications of the Continental Radio Co. (Docket No. 3301) and the Community Broadcasting Co. (Docket No. 2667). These applications were for new radio stations at Toledo, Ohio, to operate on 1200 kc., 100 watts, daytime. Denied petition asking investigation of the status of the Community Broadcasting Company.

WJEJ—Hagerstown Broadcasting Co., Hagerstown, Md.—Granted special temporary authority to operate unlimited time the night of December 24, 1937, using power of 50 watts, for the purpose of broadcasting various programs of public interest about town.

KFDY—South Dakota State College, Brookings, S. Dak.—Granted special temporary authorization to remain silent December 25, 1937, and January 1, 1938, in order to observe Christmas holidays and New Years.

WSYB—Philip Weiss, trading as Weiss Music Co., Rutland, Vt.—Granted special temporary authorization to operate from 9 p.m. to 11 p.m., EST, December 21 and 28, 1937, January 1, 7, 8, 14, 15, 1938, in order to broadcast local High School basketball games.

Piedmont Broadcasting Corp., Salisbury, N. C.—Granted an additional order to take depositions in re application for new station at Salisbury, N. C., to use 1500 kc., 100 watts night, 250 watts LS (Docket No. 4913).

NEW—George H. Payne, San Jose, Calif.—Granted request for continuance for approximately 60 days of hearing on application for new station at San Jose, Calif., to operate on 1140 kc., 500 watts, unlimited time (Docket No. 4276), under order deciding Docket No. 4411. Docket 4366 involves the application of Chase Osborne for a new station at Fresno, Calif., to use 1140 kc., and Docket 4411 is the application of Central California Broadcasters, Inc., for the use of 1440 kc, by station KRE at Berkeley, Calif.

Burl Vance Hedrick, Salisbury, N. C.—Granted petition to intervene in proceedings on the application of Piedmont Broadcasting Corp., Docket No. 4913, for new station at Salisbury, N. C., to use 1500 kc., 100 watts night, 250 watts LS, unlimited time.

KLZ Broadcasting Co., Denver, Colo.—Denied petition to intervene in proceedings on the application of Scripps-Howard Radio, Inc., Docket No. 4559, for new station at Denver, Colo., to use 630 kc., 1 KW, 5 KW LS, unlimited time.

Volley G. Mathison, Winston-Salem, N. C.—Denied petition to take depositions in re application for ship radio telephone station on barge "Tango," Docket 4889. The depositions are to be taken before a Notary Public at the field offices of this Commission at 1105 Rivers-Strong Bldg., Los Angeles, Calif., between December 1 and December 27, 1937. Applicant advised that it will not be necessary that an attorney present the depositions to the Examiner for consideration. However, the depositions are to be subject to the Rules and Regulations of the Commission.

APPLICATIONS RECEIVED

First Zone

WMAS—WMAS, Inc., Springfield, Mass.—License to cover construction permit (B1-P-1870) for a new transmitter and antenna and move of transmitter.

WSYB—Philip Weiss, trading as Weiss Music Co., Rutland, Vt.—1500 Construction permit to install a new vertical antenna, change hours of operation from specified hours to unlimited time and move transmitter from 80 West Street, Rutland, Vermont to Creek Road, Rutland, Vermont.

NEW—General Electric Co., Albany, N. Y.—Construction permit for a new television broadcast station to be operated on 44000-50000 kc., Video power 10000 watts, Audio power 5000 watts. Amended: Re: Geographic site.

NEW—General Electric Co., Bridgeport, Conn.—Construction permit for a new television broadcast station to be operated on 44000-50000 kc., Video power 10000 watts, Audio power 5000 watts. Amended: To change transmitter site from near Connecticut Highway No. 59, Easton, Connecticut to 1285 Boston Avenue, Bridgeport, Conn., delete frequencies 44000-50000 kc., and add frequencies 65000-72000 kc.

NEW—General Electric Co., Schenectady, N. Y.—Construction permit for a new television broadcast station to be operated on 44000-50000 kc., 40 watts, Video transmission only. Amended: To delete frequencies 44000-50000 kc., and add frequencies 135000-162000 kc.

Second Zone

WHAS—The Louisville Times Co., Louisville, Ky.—Modification 820 of construction permit (B2-P-1126) as modified, for new vertical antenna and move of transmitter, requesting extension of completion date from 1-5-38 to 2-5-38.

WAVE—WAVE, Inc., Louisville, Ky.—Construction permit for a new station to be operated on 880 kc., 500 watts, unlimited time. To use directional antenna day and night. Amended: To change geographic location.

NEW—Fredericksville Broadcasting Corp., Fredericksvile, Va.—Construction permit for a new television broadcast station to be operated on 44000-50000 kc., 1200 Construction permit for a new station to be operated on 1200 kc., 250 watts, daytime.

WHK—Radio Air Service Corp., Cleveland, Ohio.—Special experimental authorization to operate a facsimile station from 1200 a.m. to 4 a.m., using 4 kw, from December 26, 1937, to January 31, 1938.

NEW—King-Trendle Broadcasting Corp., Pontiac, Mich.—Construction permit for a new station to be operated on 1440 kc., 250 watts, unlimited time. Amended: To change transmitter site to site to be determined, Pontiac, Michigan, and install vertical antenna instead of directional antenna.
W3XEX—WTAR Radio Corp., Norfolk, Va.—Modification of construction permit (B2-PHB-41) for equipment changes and move of transmitter, requesting change in frequencies from 31600, 35600, 38600, 41000 kc. to 26050 kc., and extend commencement and completion dates.

W8XNT—Radio Air Service Corp., Cleveland, Ohio.—License to cover construction permit (B2-PHB-23) for a new high frequency broadcast station.

W8XCQ—Monongahela Valley Broadcasting Co., area of W. Va. (Mobile).—License to operate relay transmitter.

Third Zone

WAPI—Alabama Polytechnic Institute, University of Alabama, 1020 Alabama College (Board of Control of Radio Station WAPI), Birmingham, Ala.—Special experimental authorization to operate on the frequency 1020 kc. with unlimited hours of operation and install directional antenna for night use, for the period of six months. Amended: To make changes in directional antenna.

KOCA—Oil Capital Broadcasting Assn. (James G. Ulmer, President), Kilgore, Texas.—Voluntary assignment of license from Oil Capital Broadcasting Assn. (James G. Ulmer, President), to Oil Capitol Broadcasting Association.

KOCA—Oil Capital Broadcasting Assn., James G. Ulmer, President, Kilgore, Texas.—Authority to make changes in automatic frequency control equipment.

NEW—WKY Radiophone Co., Oklahoma City, Okla.—Construction permit for a new relay broadcast station to be operated on 1622, 2058, 2150, 2790 kc., 40 watts.

NEW—Augusta Broadcasting Co., area of Augusta, Ga.—Construction permit for a new relay broadcast station to be operated on 13100, 34600, 37600, 40600 kc., 2 watts.

Fourth Zone

WIND—Johnson-Kennedy Radio Corp., Gary, Ind.—Special experimental authorization to operate a facsimile station from midnight to 6 a.m., CST, using 1 KW power, maximum frequency of modulation not to exceed 10,000 cycles, for the period 3-1-38 to 9-1-38.

WTAD—Illinois Broadcasting Corp., Quinacy, III.—Construction permit to change hours of operation from daytime to unlimited time using 1 KW power, install directional antenna for night use and move transmitter from N. 24th St., Quincy, Illinois to 3 mi. S.W. of Quincy, Illinois. Amended: To make changes in directional antenna.

WEMP—Milwaukee Broadcasting Co., Milwaukee, Wisc.—Modification of license to change hours of operation from daytime to unlimited time using 100 watts power.

W9XTA—K. E. Schonert, d/b as Schonert Radio Service, Harrisburg, III.—Modification of construction permit (B4-PHB-1) for a new high frequency broadcast station, requesting changes in equipment, to delete frequencies 31600, 35600, 38600, 41000 kc., and request 25800 kc., change power from 100 watts to 500 watts and extend completion date.

W9XAL—First National Television Inc., Kansas City, Mo.—Modification of construction permit (B4-PVB-7) to move transmitter, requesting extension of completion date from 1-1-38 to 4-11-38.

Fifth Zone

KTW—First Presbyterian Church of Seattle, Washington, Seattle, 1220 Wash.—Authority to determine operating power by direct measurement of antenna.

KMED—Mrs. W. J. Virgin, Medford, Ore.—Construction permit to increase power from 250 watts to 1 KW, and install new transmitter. Amended: To change frequency from 1410 kc. to 1320 kc.

KRKO—Lee E. Mudgett, Everett, Wash.—Construction permit to change frequency from 1370 kc. to 1400 kc., install a new transmitter and vertical antenna, increase power from 50 watts to 250 watts, change hours of operation from share-KEEN to unlimited time, and move transmitter from 2814 Rucker Avenue, Everett, Washington, to site to be determined, Everett, Washington.
NOTICE TO MEMBERS

The Sixteenth Annual Convention of the National Association of Broadcasters will be held at the Willard Hotel, Washington, D. C., February 14, 15 and 16, 1938.

Decision on this matter was made this week by a majority vote of the members of the Board of Directors.

Information concerning Hotel accommodations, and arrangements for speakers will be forwarded to the members at an early date.

JAMES W. BALDWIN,
Managing Director.

SPENCE NAMED CONVENTION CHAIRMAN

President Elmer today announced the appointment of Edwin Spence of WBAL, Baltimore, as Chairman of the Convention Committee.

DOLPH HEADS LOCAL CONVENTION COMMITTEE

President Elmer today announced the appointment of the following persons to serve on the Local Convention Committee for the Sixteenth Annual Convention of the NAB to be held at the Willard Hotel in Washington, D. C., on February 14, 15 and 16, 1938:

William B. Dolph, WOL, Washington, D. C., Chairman
Harry C. Butcher, WJSV, Washington, D. C.
Frank M. Russell, WRC, Washington, D. C.

FCC CONSIDERING CHASE AND SANBORN SKIT

Chairman Frank R. McNinch has announced that the Federal Communications Commission has received in response to its request a letter from Lenox R. Lohr, President of the National Broadcasting Company, Inc., transmitting an exact copy of the transcript of the Adam and Eve feature; the electrical transcription of the skit, a copy of the contract between Chase and Sanborn (sponsors of the program) and the National Broadcasting Company covering this broadcast, and a list of the stations over which this feature was broadcast.

The Commission will give further consideration to this matter after considering the script and the electrical transcription.

FCC HELD ARBITRARY AND CAPRICIOUS IN HEITMEYER CASE

The United States Court of Appeals for the District of Columbia this week reversed the decision of the Federal Communications Commission on the application of Paul R. Heitmeyer for a new station at Cheyenne, Wyoming, on the ground that the action of the Commission denying the application was arbitrary and capricious. It is believed that this marks the first time since the enactment of the Federal Communications Act of 1934 that a decision of the Commission has been overruled on the ground that its action was arbitrary and capricious. The text of the opinion follows:

UNITED STATES COURT OF APPEALS FOR THE DISTRICT OF COLUMBIA

No. 6762

PAUL R. HEITMEYER, APPELLANT
V.
FEDERAL COMMUNICATIONS COMMISSION

Appeal from the Federal Communications Commission
Decided December 27, 1937

James W. Gum and Clarence C. Dill, both of Washington, D. C., for appellant.
Hampson Gary, George B. Porter, Fanney Neyman, and Ralph L. Walker, all of Washington, D. C., for appellee.

Before ROBB, GRONER and MILLER, JJ., and WHEAT, District Judge.

MILLER, J.: This is an appeal under Section 402(b) (1) of the Communications Act of 1934 1 from a decision of the Federal Communications Commission denying the appellant's application for a permit to construct a new radio broadcasting station at Cheyenne, Wyoming.

IN THIS ISSUE
The record shows that the Examiner who heard the case made findings of fact and arrived at conclusions therefrom to the effect that:

The applicant is legally, technically, financially and otherwise qualified to construct and operate the proposed station. A need for additional service such as proposed by the applicant does exist in the area proposed to be served, and this application may be granted within the purview of Section 307 of the Communications Act of 1934 and the Regulations of the Commission with regard to quota, particularly Rule 6(f).

The record is silent as to any possible interference with other applications that may be pending from the same state or zone.

The site at which the applicant proposes to construct and operate the station will conform to the Rules and Regulations of the Commission.

The granting of this application would serve public interest, convenience and necessity.

The Examiner, therefore, recommended that the application of Heitmeyer, the appellant herein, be granted. At the same time he recommended denial of the application of the Wyoming Radio Educational Association, which he had theretofore consolidated for hearing with the appellant’s application.

Approximately four months later, on May 1, 1936, the Commission entered its final order denying the application; making no findings and assigning no reasons therefor, but stating that it would “issue and publish at a subsequent date an opinion setting forth a statement of the facts appearing of record and the grounds for the decision [t]herein reached.” On June 12, 1936, the Commission’s decision was entered denying the applications of appellant Heitmeyer and that of the Wyoming Radio Educational Association. The latter applicant has not appealed from the decision of the Commission and is not concerned herein.

Section 402(c) of the Communications Act provides that within thirty days after the filing of an appeal “the Commission shall file with the court the originals or certified copies of all papers and evidence presented to it upon the application involved, and also a like copy of its decision thereon, and shall within thirty days thereafter file a full statement in writing of the facts and grounds for its decision as found and given by it, . . .” [Italics supplied].

The language of the section quoted is ambiguous. The phrase, “within thirty days thereafter”, indicates the intention of Congress that in case of appeal the Commission shall have additional time, totaling sixty days from the filing of the appeal, within which to prepare and file “a full statement in writing of the facts and grounds for its decision . . .”. The language immediately following, “as found and given by it”, is susceptible of the interpretation that findings of fact should have been prepared prior to, or simultaneously with the entry of its decision. Such an interpretation, however, would defeat the very purpose of Congress in allowing the additional thirty days—unless we are prepared to hold that the “full statement in writing of the facts” means something more than findings of fact. Such a holding would be without meaning because on appeal this court will have before it the full record of the evidence. A statement greater in detail than findings, and less in detail than the record itself, would serve no useful purpose. In order to reconcile the two quoted phrases, therefore, and to secure harmony and consistency in the requirements of the statute, it is necessary to interpret the language, “found and given by it”, as requiring the Commission to publish something less than findings of fact previous to or coincident with the entry of the decision. This can be accomplished by requiring it to file with its decision the grounds therefor and “a brief factual statement of the reasons” relied upon. As we said in Missouri Broadcasting Corporation v. Federal Communications Commission, (No. 6869, decided December 6, 1937) — F. (2d) —, — App. D. C. —:

The exact language is—file a full statement in writing of the facts and grounds for its decision as found and given by it. The six words we have emphasized imply, we think, that the grounds of decision and a brief factual statement of the reasons

(Reprint from last issue)

NOTICE TO ALL MEMBERS:

The National Association of Broadcasters is now prepared to make electrical transcriptions of speeches by Senators and Congressmen for its members.

This service is available only to members of the Association and recordings will be made only upon the request of a member station and at the member’s expense. Members will be billed as follows:

For each 16 inch disc—$2.70 plus postage.

For each 10 inch disc—$1.60 plus postage.

(The above prices apply whether the discs are recorded either on one side or both sides, and are subject to change without notice.)

Recordings will be made at the Association’s offices, 960 National Press Building, between the hours of 9 a.m. and 6 p.m., and by appointment. If a member desires his Senator or Congressman to make a recording for him, that fact should be communicated to this office and the Senator or Congressman should be advised to make an appointment either through the Managing Director or Leonard D. Callahan or Everett E. Revercomb of the staff, by calling National 8470.

It is requested you acknowledge the receipt of this notice and advise us of the name of the officer of your station who is authorized to order recordings to be made.

JAMES W. BALDWIN, Managing Director.
therefore have been previously given, that is, previously to the filing of the full statement, i.e., findings of fact, in this court.

The reasoning brings us to the further definite conclusion that Congress intended the “full statement in writing of the facts . . . found . . . by it,” which the Commission is required to file within sixty days after the filing of the appeal, to be of the same general form and character as findings of fact well known to trial courts. The words are properly susceptible of no other meaning. Moreover, there is no reason to suppose that Congress intended to establish a different rule of procedure, in this respect, for the Communications Commission than for other similar governmental boards and commissions which are engaged in quasi-judicial determinations. Beaumont, S. L. & W. Ry. v. United States, 282 U. S. 74, 86; see also, Virginian Ry. v. United States, 272 U. S. 658, 674. This conclusion is borne out also by the language of Section 402(e), which limits review of decisions of the Commission to questions of law and then provides that “findings of fact by the Commission, if supported by substantial evidence, shall be conclusive unless it shall clearly appear that the findings are arbitrary or capricious.” [Italics supplied]

The questions which we must decide then are: (1) Did the Commission make findings of fact? (2) If so, were they supported by substantial evidence? (3) Were they arbitrary or capricious? (4) Do they support the conclusions of law reached by the Commission in its decision?

We find nothing in the record, or its index, which bears the title “Findings of Fact.” We do find a “Statement of Facts and Grounds for Decision.” For convenience this “Statement” is set out—in so far as it is pertinent to this appeal—as follows:

Statement of Facts and Grounds for Decision

With Respect to the Application of Paul R. Heitmeyer

Paul R. Heitmeyer, applicant herein, testified that he is an American citizen by birth, and is therefore legally qualified to be a licensee. It appears that he has been actively engaged in various capacities in radio broadcasting for about fifteen years, and he is at present employed as Manager for Broadcast Station KLO at Ogden, Utah. The Commission is of the opinion that the applicant is technically qualified.

With respect to the financial qualifications of the applicant, he testified in the hearing on October 29, 1935, in the matter of his application for the Salt Lake City, Utah, station, the record of which was by stipulation incorporated into this record, that he estimated his financial worth to be $2500.00. However, on July 15, 1935, he filed a sworn statement, as a part of this application, showing assets of $7,271, with liabilities of $474. Mr. Heitmeyer testified that a deposit had been placed to his credit by Mr. A. L. Glasman, who, it appears, is publisher of the Ogden Standard Examiner, and who also owned the controlling interest in Interstate Broadcasting Corporation, licensee of Station KLO at Ogden, Utah. The deposit was made by Mr. Glasman as a loan to Mr. Heitmeyer for the construction and operation of two broadcast stations, namely, the proposed station applied for herein, and another station at Salt Lake City, Utah. (Docket 2980.)

The record discloses further that the applicant intends, in the event this application, and the one for a construction permit for the station at Salt Lake City, Utah, are granted, to form a corporation for each station and request the consent of the Commis-
sion to assign the licenses of said stations to the corporations. Under the terms of the agreement between Mr. Glasman and Mr. Heitmeyer by which the loan was made, Mr. Heitmeyer agreed to pay 6% interest on the principal, and to repay the loan within five years. However, in the event the loan is not paid under those terms, Mr. Heitmeyer is obligated to assign to Mr. Glasman 49% of the stock of the proposed licensee corporations. It also appears that the estimated cost of constructing the proposed station is $8,880, and the estimated monthly operating expenses are $1,525. The record is silent as to the estimated monthly revenue expected from the proposed station. Mr. Heitmeyer testified that he intends to reside in Salt Lake City, Utah, and leave the management of the requested station in Cheyenne to an employee and that he will visit the station ten or twelve days per month. He further testified that he had interviewed various residents of Cheyenne and found the sentiment favorable to having a radio station in that city, except that the publishers of the two newspapers very definitely objected to the proposed station.

Upon the record before us, it is clear that the applicant personally is not financially able to construct and operate the proposed station, and that he intends to construct and operate the same, if permitted so to do, entirely on money which he has borrowed, without security, unless it be considered that the requirements for the formation of a new corporation, to whom assignment will be requested, and distribution of 49% of the stock to Mr. Glasman, is security for the loan. If it be so considered, then it is clear that the applicant has failed to show that he is financially qualified to construct and maintain a station of the kind and class applied for, since the loan is conditioned upon approval by the Commission of two applications when filed for assignment of license, which would in effect be a prejudging of those applications, which are not now before the Commission. Manifestly, the Commission is without power under the Communications Act of 1934 to act upon applications not presently before them, nor is it within the spirit of the Act to grant an application when it is apparent that the financial structure is dependent, not upon the applicant, but upon some future unpredictable happening. If it be considered that this stock is not security for the loan, then it is apparent that the applicant has made no sufficient showing of financial responsibility, since the physical equipment of this station may become subject to lien, foreclosure, and seizure by the lender, as a matter of law, in the event the loan is not repaid within the five year period. On the record before us, the applicant must pay back $20,000, with interest at 6%, in five years, or something over $4,000 per year. The Commission is of the opinion, and so found, that the applicant has not made such a showing of his financial responsibility as would justify the Commission in granting the application applied for.

* * * *

The applicants, Paul R. Heitmeyer and Wyoming Radio Educational Association, both introduced considerable testimony relative to the need for a broadcast station in Cheyenne; the talent available there; and other matters, all of which has been carefully considered by the Commission, but as the showing made by both applicants precludes a grant of either application in any event, it is deemed unnecessary to discuss in detail such showing herein.

After careful consideration of the applications, the evidence adduced at the hearings, the Examiner's Report and the exceptions thereto, and the oral argument, the Commission was of the opinion, and so found, that the public interest, convenience and necessity would not be served by granting the applications. Accordingly, on May 1, 1936, the Commission entered its final order denying the applications of Paul R. Heitmeyer and Wyoming Radio Educational Association, effective at 3 A.M., E. S. T., September 29, 1936. The effective date of this order was later advanced to June 12, 1936. [Italics supplied]

When we analyze this "Statement" we find, first, a history of the case; then a finding concerning Cheyenne, Wyoming, and surrounding territory; then a narrative recital of testimony given by appellant Heitmeyer, and his conclusion that he is legally qualified; then a tentative finding—"it appears that"—concerning Heitmeyer's past and present experience, followed by the Commission's conclusion that he is technically qualified; then three paragraphs concerning Heitmeyer's financial qualifications; then a paragraph in which the Commission states that it is unnecessary to discuss in detail the testimony relative to the need for a broadcasting station in Cheyenne and the talent available there, because "the showing made by both applicants precludes a grant of either application in any event." Finally, there is a paragraph in which the Commission sets out its conclusion that the public interest, convenience and necessity would not be served by granting the applications.

It is to be noted, at this point, that the Commission has narrowed the case down to one question, i.e., Was the applicant financially qualified? Our inquiries, therefore, are similarly narrowed to a consideration of the three italicized paragraphs of the "Statement". Upon them the Commission's decision must stand or fall. Do they contain findings of fact, and, if so, are such findings sup-
ported by substantial evidence? Generally speaking the three paragraphs consist of a more or less indiscriminate commingling of arguments, speculations, statements of fact, narrative recitals of testimony and conclusions of law. Taken as a whole, they cannot be said to constitute findings of fact such as are contemplated by the statute. Necessarily, therefore, they provide a highly unsatisfactory basis for appeal and thus defeat the purpose of the statute; which is to inform the parties and this court of the reasons for the Commission's action, with that high degree of certainty which may properly be expected from a group of administrative experts such as constitute the Communications Commission. Boss, et al. v. Hardee, (No. 6849, decided September 20, 1937) ——— F. (2d) ———, ——— App. D. C. ———, 65 W. L. R. 1031.

It is possible to segregate some sentences in these three italicized paragraphs which, standing alone, and perhaps taken out of context, may be regarded as findings. It is possible, also, to spell out tentative or qualified findings from other sentences. Thus, the first sentence of the first italicized paragraph relates that Heitmeyer estimated his financial worth to be $2500. The next sentence states that, however, he filed a sworn statement showing assets of $7271, with liabilities of $474. The implication seems to be that there is a conflict in his testimony. Such a result cannot fairly be reached from the record. San Diego Land & Town Co. v. Jasper, 189 U. S. 439, 442. The $2500 about which Heitmeyer testified consisted of money in bank, an automobile, home furnishings and personal effects. In addition he owned $4000 worth of shares—fully paid for—in the corporation which operated Station KLO in Ogden, Utah. Moreover, the evidence at the hearing disclosed that the liabilities of $474 had been fully paid at that time. There was no conflict on this point and, if the two sentences referred to constitute a finding, the only part of it which is supported by the evidence is that Heitmeyer showed assets of $7271. The last two sentences in the first italicized paragraph are supported by the evidence and the testimony there referred to could properly have been formulated into a finding.

The first three sentences in the second italicized paragraph, standing alone, constitute a finding which is supported by substantial evidence. The next sentence, relating to the cost of constructing and operating the proposed station, is supported by the evidence. A careful reading of the record shows that the next sentence, “The record is silent as to the estimated monthly revenue expected from the proposed station”, is wholly unsupported by the record. Indeed, the Commission, in its brief, in reviewing the testimony of the witness Haller, quoted therefrom as follows: “A number of the Cheyenne merchants agreed to use time on the proposed station.” The brief then states that “on the basis of such a survey the witness estimated that the merchants with whom he talked ‘would probably spend within the neighborhood of $2,100 a month.’” In view of the fact that the Examiner made a correct finding upon the point—among other well prepared findings—the Commission’s finding cannot be regarded as other than arbitrary and capricious. While the Commission is not bound by the findings of the Examiner, it is itself charged with the responsibility of making findings. Radio Commission v. Nelson Bros. Co., 289 U. S. 266, 285; St. Joseph Stock Yards Co. v. United States, 298 U. S. 38, 53. In this case it would have profited from a more careful consideration of those which the Examiner prepared.

The last two sentences in the second italicized paragraph are supported by substantial evidence so far as they go, and could properly have been formulated into a finding of fact. The vice of the first sentence, however, is its incompleteness, which gives a shading of meaning not supported by the evidence. The evidence upon this point showed—and a finding might properly have been made accordingly—that Heitmeyer is the supervising director and manager of Station KLO at Ogden, Utah. His salary therefor is $300 per month and will continue, even though he secures the Cheyenne station and devotes approximately ten to twelve days a month to that station, as he expects to do. He has a contract with Mr. Glasman, the controlling stockholder in KLO, so providing and permitting him to engage in any other radio activities, provided he continues to keep KLO financially successful. If and when the permit and license are granted for the Cheyenne station he will have a resident manager for that station working under his direction.

The third of the three italicized paragraphs contains one sentence which, standing alone, constitutes a finding, as follows: “On the record before us, the applicant must pay back $20,000, with interest at 6%, in five years, or something over $4,000 per year.” This statement, except for the last six words, is supported by the evidence and is covered in part in the preceding paragraph. The last six words constitute a conclusion which is supported by no evidence whatever. There is nothing in the record to prove that Heitmeyer was required to pay anything, principal or interest, before the expiration of five years.

Otherwise, the third paragraph is devoid of anything resembling findings except (1) the first sentence, which is so involved with, and dependent upon, a question of law as to be in substance and effect a decision of the latter (Kansas City So. Ry. v. Albers Comm. Co., 223 U. S. 573, 591); and (2) the last sentence, which states the bald conclusion: “The Commission is of the opinion, and so found, that the applicant has not made such a showing of this financial responsibility as would justify the Commission in granting the application applied for.” General statements of this kind, following the language of the statute, are not sufficient to constitute findings of fact such as are contemplated by the statute. Florida v. United States, 282 U. S. 194, 213. The language used indicates
that this was intended to be the “brief factual statement of the reasons” for the decision contemplated by the statute, given previously to the filing of the findings of fact. See Missouri Broadcasting Corporation v. Federal Communications Commission, supra. It serves that purpose very well, but does not constitute a finding of fact.

Assuming, for the purposes of this case only, that the three italicized paragraphs constitute findings, we conclude, in answer to our second and third questions, that some of them are supported by substantial evidence, some are not, and some are arbitrary and capricious. Our final question, then, is whether those findings which are supported by substantial evidence, themselves support the conclusions of law and the decision of the Commission. Otherwise stated, the final question is whether those findings support the conclusion that the applicant was not financially qualified to construct and operate the proposed station.

The argument set forth in the third italicized paragraph shows that the Commission decided the case upon the finding contained in the first three sentences of the second italicized paragraph. This is the only valid finding which could support the decision. It is first contended by the Commission that the appellant “intends to construct and operate the same [station] . . . entirely on money which he has borrowed. . . .” The finding does not support that contention. It shows instead that appellant had some assets in addition to the borrowed money. Moreover, there is nothing in any of the valid findings which negatives the intent of the applicant to apply revenue from the station toward cost of operation. However, it does clearly appear that he had insufficient money to construct the station without that which he borrowed.

It is next contended by the Commission, as one of two alternative propositions, that appellant has failed to show his financial qualification, because (1) the loan is intended to be secured by the distribution to Glasman of 49% of the stock of a proposed corporation; (2) the value of the corporate stock depends on the granting of permission for transfer of the station license to the corporation; (3) this involves in effect the prejudging by the Commission of two applications not yet before it; (4) hence the security for the loan is conditioned on a judgment of the Commission which it is powerless to make. If this contention means that the policy of the Commission is to refuse an application—in all other respects satisfactory—merely because an applicant honestly contemplates the formation of a corporation— in the event his application is granted—to which he will transfer the permit and license, with the consent of the Commission, it would seem to verge closely upon arbitrary and capricious action. It would seem to be a rather idle and expensive gesture to require the formation of a corporation for such a purpose before the securing of a construction permit, when a refusal to grant the permit would automatically abort the whole occasion and purpose of the corporation. It would seem on its face to be a rather severe restriction upon business enterprise and an unnecessary limitation upon the availability of radio service in a particular community. Moreover, it would seem to be a particularly arbitrary and futile procedure in a case such as this, where the applicant fully and fairly revealed his plans. Ordinarily, there would be nothing to prevent an applicant from securing a construction permit and a station license; thereafter forming a corporation; and then requesting permission to make the assignment. Should a penalty be placed upon one who has the foresight to plan his project in advance and reveal its full details? If the applicant is confident that he can make such a showing as to secure the Commission’s approval of a subsequent transfer, should the Commission object? In fact, should not the Commission invite just such a revelation of plans so that it can have that contingency in mind when passing on the application for a construction permit, rather than drive the applicant to conceal his plans until after the construction permit has been granted? However, we are not required to decide this question because the first alternative contention of the Commission is not supported by the findings. So far as relevant to this point they read as follows:

... Mr. Heitmeyer agreed to pay 6% interest on the principal, and to repay the loan within five years. However, in the event the loan is not paid under those terms, Mr. Heitmeyer is obligated to assign to Mr. Glasman 49% of the stock of the proposed licensee corporation(s). [Italics supplied]

It is obvious from the language used in the finding that the assignment of corporate stock by way of security was not contemplated unless and until Heitmeyer had made default in his obligation to repay the loan within five years. Heitmeyer insisted throughout his testimony that such was the intention of Glasman and himself, and the Commission found accordingly.

It is apparent that the Commission recognized the invalidity of the above contention because it went on to state a second alternative as follows: The appellant intends to use such borrowed money without giving security therefor; hence he has failed to show sufficient financial responsibility “since the physical equipment of this station may become subject to lien, foreclosure, and seizure by the lender, as a matter of law, in the event the loan is not repaid within the five year period.” Assuming that the loan should not be repaid at the end of five years it may well be that foreclosure and seizure might result. Does this possibility support the contention that appellant has thus failed to show his financial qualification? The question, otherwise stated, is whether an application such as Heitmeyer’s may be properly denied because the applicant proposes to use borrowed money for the pur-
pose of construction and operation, unless the money borrowed is covered by sufficient collateral or other security to insure the station against lien, foreclosure, and seizure for a longer period than five years. Can such a standard be upheld?

In answering this question we look first for some measure of financial qualification to guide us. We are referred to no rule or regulation of the Commission suggesting such a rigid standard. On such an important question we think the public is entitled to have the statute implemented by a regulation setting out clearly and concisely just what the Commission regards as a minimum standard of financial ability. Evidently Congress had the same intent because the statute provides that all "applications shall set forth such facts as the Commission by regulation may prescribe as to . . . financial, technical, and other qualifications" of the applicant. [§ 308(b)]

In the absence of such a guide, the appellant suggests that we look to the practice of the Commission in previous cases as set forth in his brief, although not revealed in the record. We are asked to do this on the theory that the Commission "has not refused to grant construction permits for new stations to those who are qualified and experienced in the operation and management of radio stations simply because they did not have abundant personal finances without borrowing to construct and carry on the operation of the proposed stations." Whether or not the Commission has in the past granted licenses under similar circumstances is immaterial. It is fully authorized to increase, by regulation, the requirements previously imposed if the public interest requires. [§ 303(f)]

However, in the absence of a regulation, a common sense view of prevalent business methods would seem to justify the use of such borrowed funds for the purpose, unless some circumstance, special to the radio broadcasting industry, distinguishes it from others. It is true, as suggested in argument, that Congress has imposed heavy obligations upon the Commission to discover and prevent any alien, criminal, or other improper control of radio broadcasting stations, and to guarantee so far as possible an independent, wholesome policy in management and operation. See Sections 303, 308(b), 310(a), 311, 313. To the same general end the Act gives to the Commission control of assignments and transfers of construction permits [§ 319(b)]; station licenses [309(b)(2)]; and of all rights thereunder, whether such assignments or transfers be voluntary or involuntary, direct or indirect [§ 310(b)].

It is well known that one of the most powerful and effective methods of control of any business, organization, or institution, and one of the most potent causes of involuntary assignment of its interests, is the control of its finances. By establishing a high enough standard of financial qualification, the Commission can eliminate many of the hazards of such control, direct or indirect in character. It is in the public interest that it should not be impeded in a reasonable exercise of its discretion. The public interest in this respect far outweighs the private interest of any individual applicant. Reading Broadcasting Co. v. Federal Radio Commission, 48 F. (2d) 458, 60 App. D. C. 89. Perhaps under some circumstances the Commission might be justified in insisting upon the complete financial independence of an applicant.

In any event, the burden is and should be upon the applicant to satisfy the Commission, not only that he has financial ability to construct and operate a station, but financial ability to construct and operate it free of control, direct or indirect, by any person within the classes proscribed by the statute. Beebe v. Federal Radio Commission, 61 F. (2d) 914, 61 App. D. C. 273. See Campbell v. Galeno Chemical Co., 281 U. S. 599, 609.

If, then, it appears from the application, or upon the hearing, that the applicant's financial condition is such that there is a probability that he may lose control of the station or that there may be either a voluntary or an involuntary transfer of his rights in relation thereto, a situation may arise in which the Commission will be called upon to enforce the provisions of the sections to which reference has just been made. Sprout v. Federal Radio Commission, 54 F. (2d) 444, 60 App. D. C. 333.

Under such circumstances it may be wiser from an administrative point of view to avoid such a contingency by insisting upon the removal of the probability before a permit is granted. If so, it is not our place to question the wisdom of the provisions, or to determine whether the Commission's administrative determination was the wisest under the circumstances. Radio Commission v. Nelson Bros. Co., 289 U. S. 266, 277.

In support of the position taken by the Commission in this case, it can be argued that neither in his original application nor in his financial statement did Heitmeyer reveal his relationship to Glasman. Moreover, it was disclosed at the hearing that Heitmeyer was an employee of Glasman and that he expected to maintain that relationship if and when he should operate the proposed station at Cheyenne. This all lends color to the suggestion made on cross-examination that Heitmeyer was the personal representative of Glasman, or that Glasman was an undisclosed partner and that, in his application and his financial statement, Heitmeyer deliberately avoided revealing Glasman's possible interest in the proposed station.

However, the Commission made no such findings, nor any findings which would support such conclusions. Moreover, the rejection of the application is not placed on any such ground. Again, even if these facts had been found they would not have shown lack of financial qualification per se, but merely possible danger of im-
proper control, if the lender happened to be within one of the classes proscribed by Congress.

No matter how good that reason may be generally for excessive caution on the part of the Commission, it loses its force in this case because the lender of the money was himself the owner of a controlling interest in a licensee corporation, and had presumably satisfied all of the exacting requirements of the Commission. If he was acceptable as a licensee, how could it be argued that the applicant who borrowed from him would, as a result thereof, be directly or indirectly controlled by anyone—person, government, or corporation—within the proscription? If such reasoning weighed in the rejection of the application, then the Commission based its decision upon facts and circumstances which do not appear in its findings, and which should not have been considered. Interstate Commerce Commission v. Northern Pacific Ry., 216 U. S. 538, 544-45.

Therefore, in the absence of a showing that the applicant failed to comply with any regulation setting minimum standards of financial qualification; in view of the fact that the source of the applicant's money and his relationship to the lender were fully revealed at the hearing; and in view of the fact that the lender was himself a licensee of the Commission, the argument which we have assumed in support of the Commission's decision falls of its own weight. If the loan was bona fide, and there is no finding and no evidence to the contrary, it would seem to stand in the same position as any other legitimate plan of financing.

The question then is whether the regulation imposed—by implication at least—in this case was a reasonable one. The Commission argues that the money which the applicant had in bank was unsecured by collateral and hence the lender might satisfy the obligation by taking over the station. What then would be considered safe? Collateral securing a loan might fail, as much of it did during the recent depression; money in bank, belonging entirely to an applicant might be lost by reason of a bank failure; cash in hand or in a safety deposit box might be stolen. We cannot require the impossible in attempting to guarantee safety. The people of the State of Wyoming and of its capital, Cheyenne, are entitled to radio facilities if there be an applicant available and ready to supply them who can satisfy usual and ordinary standards of business safety. In this period of economic uncertainty financing reasonably assured five years in advance would seem to constitute much more than the average of business security. If the standard of financial responsibility required by the Commission in this case were imposed upon the country generally, business would cease. Under the circumstances, can it be said that the action of the Commission was anything but arbitrary, if not capricious? We think not; especially as its own findings were insufficient to support its conclusions of law and the decision based thereon. Florida v. United States, 282 U. S. 194, 212-15.

The discretion which the Commission is directed to exercise is not absolute. The purpose of the statute is to secure to the people of the several states and communities a fair, efficient and equitable distribution of radio service. The Commission is directed by the statute to apply this standard in considering applications for licenses "when and insofar as there is demand for the same" [§ 307(b)]; and, "if public convenience, interest, or necessity will be served thereby, subject to the limitations of this Act, shall grant to any applicant therefor a station license . . . " [§ 307(a)].

Proper administration of the law by governmental agencies such as the Communications Commission requires careful observance of the procedures established by Congress. For the protection of the people generally, to say nothing of the agencies themselves, convenience of administration cannot be permitted to justify non-compliance with the law, or the substitution of fiat for adjudication. Interstate Commerce Commission v. Northern Pacific Ry., supra; American Sunstrata Tobacco Co. v. Securities and Exchange Commission, (No. 6776, decided September 30, 1937) — F. (2d) —, — App. D. C. —.

The decision, therefore, will be reversed and the case remanded to the Commission with instructions to proceed with the application in conformity with this opinion. This does not mean that it is directed to issue a permit to the appellant. It is not the function of this court "to revise the action of the Commission from an administrative standpoint and to make an administrative judgment . . . the Commission in its further action is to respect and follow the . . . determination of the questions of law" by this court. Radio Commission v. Nelson Bros., 289 U. S. 266, 276, 278.

Reversed and remanded.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair methods of competition in complaints issued against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3285. Alleging unfair competition through the use of misleading representations concerning their business, a complaint has been issued against Albert L. and Leonard Hilkemeyer, operating the Dixie Hatcheries at 2401 Second Ave., North Birmingham, Ala., also trading under the name Jefferson Farms.

Although Leonard Hilkemeyer formerly conducted under the name Jefferson Farms a baby chick hatchery at Jefferson Farms near Birmingham, he ceased all operation of such business about June, 1936, according to the complaint. Since that time, it is alleged, the respondents have continued to use the name Jefferson Farms in certain advertisements relating to the business of Dixie Hatcheries. The result allegedly has been to create the impression among buyers that Dixie Hatcheries and Jefferson Farms were

2434
separate and competing businesses, when in fact there was only one business involved, namely, that conducted under the name Dixie Hachtries.

No. 3286. A complaint alleging unfair competition in the sale of hosiery has been filed against Alfred Boehm, 5-7 White St., New York, trading as Lynx Knitting Company.

Although purchasing his stock from various manufacturers, Boehm, through the use of the word “Knitting” in his trade name, allegedly advertises his business as that of a manufacturer, when in fact according to complaint, he does not own or control factories in which the hosiery he sells is made.

Selling his products chiefly through house-to-house canvassers, the respondent, as an inducement to persons to become his distributors, is alleged to have advertised in “Agents Wanted” columns of magazines to the effect that the hosiery he sells is proof against spots, splashes, and snagging; that it is composed entirely of silk, and that he furnishes his distributors with free sample outfits.

The complaint alleges that Boehm hosiery products are not spot, splash or snag-proof; are composed in part of rayon or other silk, and that he does not furnish free sample outfits to canvassers, but that they are paid for by the canvassers in cash and by services rendered.

No. 3287. Misleading use of the words “satin” and “Pure Dye” in the advertisement of a hosiery manufacturer is alleged in a complaint issued against Excello Fabrics, Inc., 118 Madison Ave., New York.

Advertising matter inserted in newspapers and trade publications and used on labels and placards furnished by the respondent company allegedly contained representations of the respondent company’s “Crysglo” fabrics as “Pure Dye”, “Satin”, and “Pure Dye Satin.” Such designations are alleged to have served as representations that the fabrics and the garments made therefrom were silk. According to the complaint, these assertions were misleading because the products referred to were not composed of silk but of materials other than silk.

Stipulations:

The Commission has entered into the following stipulations:

No. 01972. Dayton Laboratories, Inc., trading as Surete Laboratories, 1424 Springfield St., Dayton, Ohio, will cease advertising that its product designated Surete is an effective contraceptive and will stop using the word “laboratories” as part of its trade name until it owns and operates a laboratory wherein research and scientific investigations are conducted.

No. 01973. Comet Welder Co., Halifax St., Cincinnati, distributor of Comet Welder, a soldering tool, stipulates that it will discontinue advertising that its product embodies a new scientific principle of welding; that it is a genuine electric arc welder, or arc welded of any kind; that it produces a white-hot flame, or 7,000 degrees of instant intense heat, and is capable of fusing broken parts permanently stronger than ever. In its stipulation, the respondent company admits that its article is a soldering and brazing tool and will not weld metals.

No. 01974. Estate Stove Co., 3355 Aberdeen Ave., Alton, Ill., trading as The Perno Co. and as The Bee-Cell Co., Hamilton, Ohio, will agree to discontinue representing that either Perno’s-Relief or Estate Heatrola will cut fuel costs by any stated amount or unless this product is the one home heater that pays for itself.

No. 01977. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.

No. 01978. Carnation Company, 118 Olive St., St. Louis, Mo., trading as Harry Treats Inc., 544 South Wells St., Chicago, will hold itself out as representing that either Carnation Dental Cream will keep the gums healthy and prevent acid mouth, and that Carnation Hair Vigor will stimulate hair growth and prevent baldness.

No. 01979. Harry Seligman, trading as Harry Treats Company, 1242 South St., Philadelphia, will continue representing that his product Rx 1739 is a competent treatment for diseases of the kidneys or bladder and that his Speculum of Medical Treatment, 12641, is specifically limited to the treatment of nervous excitement. He will also cease advertising that he conducts a medical clinic.

No. 01978. Carnation Company, 118 Olive St., St. Louis, Mo., is engaged in selling a cleaning preparation designated “FAB” and a cleaning product designated as “Sumpson & Gehrke,” and that it will discontinue in advertising its preparations that it Klenjoy Tablets will remove all stains and lengthen the life of clothes; that Carnation Cough Syrup is a competent treatment for colds, irritations of the throat or coughs, unless limited to coughs; that its product designated “Dixlax Tablets” is competent in the treatment of colDS, bronchitis, tonsilitis, rheumatic and neuralgia pains, or burns; that either Carnaco Vegetable Oil Soap or Sanisalva Salve is an effective remedy for skin irritations; that Cutilol Cold Cream banishes blackheads or wrinkles or brings about a complete transformation of the skin; that Dixlax Tablets will prevent constipation; that Lanabalbalm relieves gout, rheumatism, neuralgia or lumbago; that in all cases Bick’s Aspirin will not upset the stomach or that its use will leave no harmful effects; that Carnation Dental Cream will keep the gums healthy and prevent acid mouth, and that Carnation Hair Vigor will stimulate hair growth and prevent baldness.

No. 01980. Estate Stove Co., Hamilton, Ohio, in the sale of a heating stove called Estate Heatrola, agrees to abandon certain advertising representations comparing its products to those of competitors unless there is clearly explained the type of appliance with which comparison is made and unless such claims have been justified by competent, reliable tests. Among such allegations are that Estate Heatrola will cut fuel costs by any stated amount or percentage and will not consume half as much coal as other heaters.

The respondent company will also cease representing that unless a stove is called Estate Heatrola it is not a good stove, and that this product is the one home heater that pays for itself.

No. 01991. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.

No. 01972. Dayton Laboratories, Inc., trading as Surete Laboratories, 1424 Springfield St., Dayton, Ohio, will cease advertising that its product designated Surete is an effective contraceptive and will stop using the word “laboratories” as part of its trade name until it owns and operates a laboratory wherein research and scientific investigations are conducted.

No. 01973. Comet Welder Co., Halifax St., Cincinnati, distributor of Comet Welder, a soldering tool, stipulates that it will discontinue advertising that its product embodies a new scientific principle of welding; that it is a genuine electric arc welder, or arc welded of any kind; that it produces a white-hot flame, or 7,000 degrees of instant intense heat, and is capable of fusing broken parts permanently stronger than ever. In its stipulation, the respondent company admits that its article is a soldering and brazing tool and will not weld metals.

No. 01974. Estate Stove Co., 3355 Aberdeen Ave., Alton, Ill., trading as The Perno Co. and as The Bee-Cell Co., Hamilton, Ohio, will agree to discontinue representing that either Perno’s-Relief or Estate Heatrola will cut fuel costs by any stated amount or unless this product is the one home heater that pays for itself.

No. 01977. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.

No. 01980. Estate Stove Co., Hamilton, Ohio, in the sale of a heating stove called Estate Heatrola, agrees to abandon certain advertising representations comparing its products to those of competitors unless there is clearly explained the type of appliance with which comparison is made and unless such claims have been justified by competent, reliable tests. Among such allegations are that Estate Heatrola will cut fuel costs by any stated amount or percentage and will not consume half as much coal as other heaters.

The respondent company will also cease representing that unless a stove is called Estate Heatrola it is not a good stove, and that this product is the one home heater that pays for itself.

No. 01991. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.

No. 01972. Dayton Laboratories, Inc., trading as Surete Laboratories, 1424 Springfield St., Dayton, Ohio, will cease advertising that its product designated Surete is an effective contraceptive and will stop using the word “laboratories” as part of its trade name until it owns and operates a laboratory wherein research and scientific investigations are conducted.

No. 01973. Comet Welder Co., Halifax St., Cincinnati, distributor of Comet Welder, a soldering tool, stipulates that it will discontinue advertising that its product embodies a new scientific principle of welding; that it is a genuine electric arc welder, or arc welded of any kind; that it produces a white-hot flame, or 7,000 degrees of instant intense heat, and is capable of fusing broken parts permanently stronger than ever. In its stipulation, the respondent company admits that its article is a soldering and brazing tool and will not weld metals.

No. 01974. Estate Stove Co., 3355 Aberdeen Ave., Alton, Ill., trading as The Perno Co. and as The Bee-Cell Co., Hamilton, Ohio, will agree to discontinue representing that either Perno’s-Relief or Estate Heatrola will cut fuel costs by any stated amount or percentage and will not consume half as much coal as other heaters.

The respondent company will also cease representing that unless a stove is called Estate Heatrola it is not a good stove, and that this product is the one home heater that pays for itself.

No. 01991. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.

No. 01980. Estate Stove Co., Hamilton, Ohio, in the sale of a heating stove called Estate Heatrola, agrees to abandon certain advertising representations comparing its products to those of competitors unless there is clearly explained the type of appliance with which comparison is made and unless such claims have been justified by competent, reliable tests. Among such allegations are that Estate Heatrola will cut fuel costs by any stated amount or percentage and will not consume half as much coal as other heaters.

The respondent company will also cease representing that unless a stove is called Estate Heatrola it is not a good stove, and that this product is the one home heater that pays for itself.

No. 01991. Laco Products, Inc., 4201 Philadelphia Ave., Baltimore, will desist from representing that either Laco Olive Oil or Laco Shampoo feeds the scalp; that Laco restores life to balding or receding hair; that it is made from pure olive oil, and that Laco Shampoo contains only olive oil, soda and water.
effective treatment. This company also entered into a stipulation to the effect that it will cease representing McCoy's Cod Liver Oil Extract Tablets as being capable of helping one who is run down, lacks resistance, or is constantly subject to colds, or that it will enable one to gain in weight and strength, except when such representations are properly qualified. According to the stipulation, the claims are to be specifically limited to cases in which the conditions are due to or aggravated by a vitamin deficiency which would be supplied by the administration of the tablets in accordance with directions.

No. 2107. Perey Manufacturing Co., Inc., 101 Park Ave., New York, under the trade name Perey Turnstile Co., manufactures fare and admission collection equipment, such as turnstiles, electric fare boxes and roto-gates. It agrees to cease representing, through use of the abbreviation "Dist." in its corporate name, on labels, or otherwise, that it is a distiller of spirituous beverages, or that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it actually does own or operate such a place.

No. 3236. Prohibiting certain unfair methods of competition in the sale of maps, an order to cease and desist has been issued against Fox-Weis Company, 1130 Chestnut St., Philadelphia, a distributor of furs and fur coats.

In the sale of garments made from dyed muskrat or dyed coney (rabbit) fur, the respondent company, under the order, is directed to cease describing such articles in any other way than by the use of the correct name of the fur as the last word of the description thereof. Findings are that coney and muskrat furs resembling seal were in certain instances advertised as seals without qualification of any kind. In other advertisements, the phrases "dyed coney" or "dyed muskrat" appeared in small type and separated from the seal designations.

FEDERAL COMMUNICATIONS COMMISSION ACTION

Hearing Calendar

The following hearings in broadcast cases are scheduled before the Commission for the week beginning Monday, January 3.

Thursday, January 6

ORAL ARGUMENT BEFORE THE COMMISSION

Examiner's Report No. I-490:

Examiner's Report No. I-493:

Friday, January 7

ORAL ARGUMENT BEFORE THE COMMISSION

Examiner's Report No. I-399 (Re-argument):

KSF—The Associated Broadcasters, Inc., San Francisco, Calif.—Voluntary assignment of license to Columbia Broadcasting System of California, 560 kc., 1 KW, unlimited time. Other participants: None.

HEARING BEFORE AN EXAMINER

NEW—Tri-City Broadcasting Co., Inc., Schenectady, N. Y.—C. P., 950 kc., 1 KW, 1 KW LS, unlimited time. Other participants: WABY, Albany, N. Y. (Intervenor); WOKO, WOII—WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Miami, Fla.; WQAM, Mi...
During the past week the Commission has announced the following tentative dates for broadcast hearings. They are subject to change at any time.

January 14

**ORAL ARGUMENT BEFORE THE COMMISSION**

**Examiner's Report No. I-526:**

Earl J. Smith and William Mace, d/b as Smith & Mace, Saranac, N. Y. — Voluntary assignment of license to Upstate Broadcasting Corp.; 1290 kc., 100 watts, daytime.

January 24

**ORAL ARGUMENT BEFORE THE COMMISSION**

NEW—Faith Broadcasting Co., Inc., Wichita Falls, Tex.—C. P., 1380 kc., 1 KW, 5 KW LS, unlimited time.

KPTL—WPTX, Inc., Wichita Falls, Tex.—C. P., 1500 kc., 100 watts, 250 watts LS, unlimited time. Present assignment: 1310 kc., 100 watts (C. P., 250 watts LS), unlimited time.

The Commission has taken the following action:

WCBA—B. Bryan Musselman, Allentown, Pa.—Granted motion to continue hearing date on application for renewal of license application (Docket No. 4568) from January 5, 1938, to approximately six weeks from present hearing date.

WSAN—WSAN, Inc., Allentown, Pa.—Granted motion to continue hearing date on application for renewal of license application (Docket No. 4569) from January 5, 1938, to approximately six weeks from present hearing date.

NEW—Colonial Broadcasting Corp., Norfolk, Va.—Granted petition to continue hearing date on application for renewal of license application (Docket No. 4569) from January 5, 1938, to approximately six weeks from present hearing date.

NEW—Radio Station WPTR, Inc., Norfolk, Va.—Received temporary authority to operate from local sunset (December sun¬set, 5:15 p. m.), December 31, 1937, to 2:30 a. m., CST, January 1, 1938, in order to broadcast special New Year's Eve program on Mutual Broadcasting System and Oklahoma network; also to operate from local sunset (January sunset, 5:45 p. m.) to 10:30 p. m., CST, January 2, 9, 16, 23, 30, 1938, in order to broadcast Old Fashioned Revival.

WPG—City of Atlantic City, Atlantic City, N. J.—Granted special temporary authorization to operate from 11 p. m., December 31, 1937 to 12:30 a. m., EST, January 1, 1938, in order to broadcast special dance music, featuring suitable New Year's greetings (provided station WBIL remains silent).

The Commission (by Sykes, Commissioner) also took the following action:

WRAX—WRAX Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authorization to increase power to 1000 watts night in order to counteract interference caused by Station CMX, Havana, Cuba, WWJ, Detroit, Michigan, KPRC, Houston, Texas, for the period beginning December 30, 1937, and ending in no event later than January 29, 1938.

WAPL—Alabama Polytechnic Institute, University of Alabama and Alabama College (Board of Control of Radio Broadcasting Station WAPL), Birmingham, Ala.—Granted special temporary authorization to operate simultaneously with station KVOO with reduced power of 1 KW, from 5:30 p. m. to conclusion of Rose Bowl football game (approximately 7 CST), January 1, 1938.

KVOO—Southwestern Sales Corp., Tulsa, Okla.—Granted special temporary authorization to operate simultaneously with Station WAPI with reduced power of 1 KW, from 5:30 p. m. to conclusion of Rose Bowl football game (approximately 7 p. m., CST), January 1, 1938.

WFIL—WFIL Broadcasting Company, Philadelphia, Pa.—Granted special temporary authorization to operate on 560 kc., with power of 1 KW night for the period beginning January 1, 1938, and ending in no event later than January 31, 1938, inclusive, pending filing of and action on license application to cover construction permit for this authority.

WHDF—Upper Michigan Broadcasting Co., Calumet, Mich.—Granted special temporary authorization to operate from 8 a. m. to 10:00 a. m. and from 12:30 p. m. to 3:30 p. m., CST, January 1, 1938, in order to broadcast special New Year's Day program.

KPAC—Port Arthur College, Port Arthur, Texas.—Granted special temporary authority to operate from 5:15 p. m. to 12 midnight CST, January 1, 1938, in order to broadcast the Port Arthur High School football game by remote control from the stadium in Phoenix, Arizona.

WCOA—Pensacola Broadcasting Co., Pensacola, Fla.—Granted special temporary authority to operate with reduced power of 100 watts for the period beginning December 26, 1937, and ending in no event later than December 31, 1937, in order to give radio audience continuous service while moving equipment to new site.

WMAZ—The Southeastern Broadcasting Co., Macon, Ga.—Granted petition of WMZ to take depositions in opposition to the application of WKEU to move from Griffin to Macon, Georgia, and change from 1500 kc., 100 watts, daytime to 1310 kc., 100 watts, 250 watts LS, unlimited time, Docket No. 4894, in the offices of Miller & Lowrey, 515 Georgia Casualty Building, Macon, Georgia, beginning at 10:00 a. m., January 6, 1938.

WPEN—Wm. Penn Broadcasting Co., Philadelphia, Pa.—Granted extension of special temporary authorization to increase power to 1000 watts night in order to counteract interference caused by Station WMZ, WMZ, WWJ, Detroit, Mich., KPRC, Houston, Texas, for the period beginning December 30, 1937, and ending in no event later than January 29, 1938.

KUW—Marion A. Mulroney & Advertiser Pub. Company, Honolulu, Hawaii.—Granted special temporary authority to operate for a period of forty-five minutes between 11 p. m. and 12 midnight, LST, December 31, 1937, in order to broadcast Happy New Year's special program.

WJBO—Baton Rouge Broadcasting Company, Inc., Baton Rouge, La.—Granted request to take depositions at the Court of
APPLICATIONS RECEIVED

First Zone

WLAW—Hildreth & Rogers Co., Lawrence, Mass.—License to 680 cover construction permit (B1-P-1058) as modified, for a new station.

WESG—Cornell University, Elmira, N. Y.—Extension of special 850 experimental authorization to operate on 850 kc., daylight to sunset at New Orleans, Louisiana for period 2-1-38 to 8-1-38.

NEW—Community Broadcasting Service, Inc., Area of Bangor, Maine.—Construction permit for a new experimental relay broadcast station to be operated on 31100, 34600, 37600, 49600 kc., 12 watts.

Second Zone

WBCM—Bay Broadcasting Co., Inc., Bay City, Mich.—Construction permit to install a new transmitter.

WBCA—B. Bryan Musselman, Allentown, Pa.—Modification of 1410 license to change power from 500 watts to 1 KW.

Fourth Zone

No Applications.

Fifth Zone

No Applications.
The opening meeting of the Fifteenth Annual Convention of the National Association of Broadcasters, held in the Ballroom, Hotel Sherman, Chicago, convened at 10:30 o'clock, President C. W. Myers (KOIN, Portland, Oregon) presiding, JUNE 21, 1937 (Monday Morning)

The National Association of Broadcasters
NATIONAL PRESS BUILDING
WASHINGTON, D. C.

PRESIDENT MYERS: The fifteenth annual convention of the National Association of Broadcasters is called to order.
We are very sorry to be a little late. The Federal Communications Commission apparently doesn't have as much control over the B. & O. as it does over some of us fellows and the Judge's train was a little off frequency this morning. (Laughter.)
I now have the pleasure of introducing the Hon. Edward J. Kelly, Mayor of the City of Chicago. (Applause.)
EDWARD J. KELLY (Mayor, City of Chicago): Mr. President and members of the National Association of Broadcasters:
It is rather difficult to make a speech on this occasion because of the critical audience and it will be just your pleasure to have conversation with you and make the record right in that the Mayor of Chicago opened this convention.
We appreciate the fact that you have come here. We want just this kind of convention in Chicago so that you may learn about our city and we do feel that if you know the truth about it, that the rest of the world will also know it.
We want you to enjoy yourself. We want you to have every kind of fun. The key of the city is over at the city hall any time that you want it. We want you to let us know if anything goes wrong, whether it be in hotel accommodations or anything else. We want to know if the police and public officials treat you as you should be treated.
We want to thank you for the good work you have done not only for the great companies you represent but for the great community which you represent.
We extend our appreciation to you for making it an educational institution as well as a great commercial organization. And, as Mayor of Chicago, I extend to you a welcome which is right from the heart. We hope in your next session you will feel so gratified and feel that you had such a good time that you will want to come back.
We trust that you will see everything there is to be seen here. We have many museums and ways of enjoying yourself in the sporting field. We have many nice drives. We consider ourselves the youngest largest city in the world and those of you who are not acquainted with the city will probably find it is everything I say it is.
I take it that most of you have been here and most of you who are interested in other cities are interested in the building up of the whole country. I take it you are all interested in the prosperity that must come to this country and you do much in that direction and have done much, and I want to thank you for that and also hope that you will continue on in that direction.
Again thanking you for coming and hoping we may be of some service to you while you are here, the City of Chicago is just in waiting for you to ask them to do something for you. (Applause.)
PRESIDENT MYERS: Thank you very much, Mayor Kelly, for those words of welcome and we assure you we always find about our city and we do feel that if you know the truth about it, that the rest of the world will also know it.
We want you to enjoy yourself. We want you to have every kind of fun. The key of the city is over at the city hall any time that you want it. We want you to let us know if anything goes wrong, whether it be in hotel accommodations or anything else. We want to know if the police and public officials treat you as you should be treated.
We want to thank you for the good work you have done not only for the great companies you represent but for the great community which you represent.
We extend our appreciation to you for making it an educational institution as well as a great commercial organization. And, as Mayor of Chicago, I extend to you a welcome which is right from the heart. We hope in your next session you will feel so gratified and feel that you had such a good time that you will want to come back.
We trust that you will see everything there is to be seen here. We have many museums and ways of enjoying yourself in the sporting field. We have many nice drives. We consider ourselves the youngest largest city in the world and those of you who are not acquainted with the city will probably find it is everything I say it is.
I take it that most of you have been here and most of you who are interested in other cities are interested in the building up of the whole country. I take it you are all interested in the prosperity that must come to this country and you do much in that direction and have done much, and I want to thank you for that and also hope that you will continue on in that direction.
Again thanking you for coming and hoping we may be of some service to you while you are here, the City of Chicago is just in waiting for you to ask them to do something for you. (Applause.)
The next item on the program is the so-called address of your President

Members of the National Association of Broadcasters and Guests: It is my belief that the year 1937 will come to be recognized as one of the most important and critical years in the history of radio broadcasting. I make this prophecy not because of the things which have been sown for future harvest. Also I start with the premise that our failure to recognize the existence of industry problems will not solve those problems.

We find an industry threatened today with exorbitant state and federal taxes, clause legislation, governmental operation of radio broadcasting stations, and with various parasitical groups.

Some of us in these days of comparative prosperity may be inclined to overlook the warning signals ahead. Adequate appreciation of these impending problems will show the only solution to be in a constantly improved public service and freedom from the influences of the parasitical groups whose selfish interests are a constant menace to progress.

Thanks to your confidence, the National Association of Broadcasters has continued to grow and with the largest membership in its history, today stands as a bulwark in the defense of the American system of broadcasting.

Now, a word concerning the bill in the federal Congress to construct and operate a government broadcasting station. The existing system of broadcasting in the United States, and particularly the facilities of the network companies, now makes available a marvelous instrument of governmental influences and time that possibly can be desired for broadcasting either foreign or domestic programs; and it affords to the departments of the government the greatest possible radio audiences. Fortified with such facts, the NAB is prepared to oppose vigorously any legislation designed to put the government in the broadcasting business.

With reference to the proposal to divorce radio and newspaper ownership, we must not lose sight of one of the first laws of radio service, namely, that the test of fitness is the measure of service rendered. Good newspapers who operate radio stations in the best interests of their community should no more be restricted from ownership than the wagon makers of old should have been restricted from the manufacture of automobiles. If certain practices indulged in by a few newspaper owners of radio stations should be condemned, it does not follow that the dangers of such a situation cannot be overcome or that all newspapers should be penalized for the action of a few. The Commission, with very broad powers to revoke licenses, has the power to remedy any situation that is not in the public interest. I submit to you that the need is not for class legislation. The need is for a strong Commission, free from outside influences. Under any other system, the present structure of broadcasting cannot long endure.

The Association has vigorously opposed the activities of certain organizations such as the American Society of Recording Artists and the National Association of Performing Artists. These organizations, as you well know, have attempted to impose new and additional license fees on you. The results of a careful legal investigation of these organizations have been furnished to the members. Moreover, legal counsel has been engaged to assist in litigation which has resulted from these organizations' activities, in order that all cases might be treated uniformly.

The Managing Director in his report will furnish detailed information in respect to the volume of tax measures which have confronted the broadcasters during the last year. These have required constant vigilance. We may expect similar legislative efforts in the future. Of the greatest importance are the state copyright laws enacted during the year in the states of Montana, Washington, Nebraska, Tennessee and Florida. All of these laws are threatened with extensive litigation. Your Board of Directors in April decided that the Association should assist the broadcasters in the states of Montana and Washington, in the defense of their copyright laws. Acting on that authority from the Board of Directors, your Executive Committee completed arrangements last week for the retention of Alfred Schweppe, formerly dean of the Washington State University Law School, to represent the NAB in these cases. Based on the experiences gained in these cases, Mr. Schweppe, acting through the offices of the NAB, will advise and counsel with members of the Association in other states concerning proposed state copyright legislation.

Also in the field of legislation the NAB is concerned with the so-called Duffy Copyright Bill in the Federal Congress. This bill and related measures are of great importance to all users of music. The necessity of amending the Copyright Act of 1909 has been brought to the attention of the Foreign Relations Committee of the United States Senate in connection with the International Copyright Treaty. Experts tell us that if the United States becomes an adherent to the International Copyright Treaty before we obtain an amendment to our domestic law, we may face litigation which we expect to lose. So far during the current session of Congress matters of great national import have overshadowed and thereby delayed progress in the consideration of national copyright legislation. Earlier in my term I attempted to recruit a member from each of the forty-eight states who would represent all the broadcasters in his state, with the thought that these forty-eight men should serve as a legislative committee, particularly in respect to copyright legislation. There were certain gaps in this committee which have not yet been filled and I have not formally appointed the members because of the demands which have been made upon our national legislators for consideration of important national questions. As soon as the legislative situation in Congress appears to warrant it, I specifically urge that such a committee be appointed.

At this point I want to emphasize that legislative action is not the only solution to our copyright problems. Above all others, in my opinion, is the relief offered by the Bureau of Copyrights. Here is an activity in which the entire industry can join in constructive and non-controversial effort. What your Washington office has accomplished in a few short months seems almost beyond belief; yet I thought I would point out what the approximately four hundred musical selections of tax-free music ready for use in the form of manuscript and electrical transcriptions. You will hear more about this from your Managing Director, and you will have the opportunity to hear the recorded music at this convention.

With four hundred selections or twenty continuous playing hours of tax-free music already recorded, and five hours more ready to record, the Bureau of Copyrights is just beginning. So far this library consists principally of public domain music. But, this is just the beginning. With the magic of radio ready to popularize their tunes, many popular song writers may soon seek to use the Bureau of Copyrights as an outlet for the radio performance rights of their music. Think what this can mean to the broadcasting industry within two or three years! There are some stations represented here today who do not need this music at present. Certainly there are many stations that can get along without it for some time to come, but hundreds of stations can use it to advantage now. It is available to all of you. With all stations co-operating, this library soon can be good enough and big enough for any station in the country. I have had the opportunity of hearing some of the selections in the Bureau's library, and I have subscribed for the service. You have the same opportunity at this convention and remember that copyright is a problem which must be solved by the industry as a whole and not by any private interests, either within or without the NAB. Let us please remember this and pull together for the Bureau of Copyrights.

A subsequent speaker will discuss with you the progress that has been made this year by the Federal Radio Education Committee. I want to take this opportunity to thank the members of the NAB for the co-operation which they have extended to local schools and colleges, and civic organizations. Happily, the broadcasters and the educators are learning how to co-operate with each other. This is the only way in which this problem can be solved.

In the field of international affairs, your Association has participated in the meeting of the CCIR held this year in Bucharest, Roumania. This meeting, preparatory to the World Radio Congress, which will be convened in Cairo late in the year, will be the subject of discussion at the session scheduled Tuesday afternoon under the auspices of the Engineering Committee. Of even greater importance in the international field was the North American Conference held in March of this year in Havana, and the future conference, which is expected to be held in that city this fall. I need not emphasize here the importance of our country concluding satisfactory treaty arrangements with Canada, Cuba, and Mexico on the basis of the CCIR.

And now some words of commendation! The disastrous floods which engulfed a large portion of our country at the beginning of the year illustrated graphically the resourcefulness of radio broadcasting and its devotion to public service. At a time when chaos, hunger and disease threatened on all sides, when practically all
methods of transportation were disrupted, and when all other means of communication failed, radio came to the rescue. Radio directed intelligently the relief efforts of those thousands of service men and women who were scattered throughout the world, and would have been in hopeless confusion. Radio brought the stark realities of this disaster vividly to the attention of the people outside the stricken areas, and enlisted their assistance in raising funds and obtaining supplies for the relief of those in distress. I shall not attempt to add to the already voluminous literature that has been published to the many feats of heroism and sacrifice by which they have written a glorious chapter in the history of radio broadcasting.

Finally, in some of the important matters which have arisen during the last year, such as the October Engineering Hearing, there have been such conflicting interests among our membership that it was impossible for the Association to take a position which would fairly represent the interests of all the members. In these cases, rather than support the side of a single faction, we have endeavored to render the greatest possible service through keeping all the members fully informed as to what is happening. In this manner, the work of the Association has been concentrated upon projects in which the entire industry can unite, and in this manner I have endeavored to serve my term as your President in the best interests of all. I am most appreciative for the cooperation extended to me by the officers and directors and members of the Association and I want particularly to commend the splendid work of your Managing Director, Jim Baldwin.

It is now my pleasure to present the Chairman of the Broadcast Division of the Federal Communications Commission, Judge Eugene Octave Sykes.

EUGENE OCTAVE SYKES (Chairman, Broadcast Division of the Federal Communications Commission, Washington, D.C.): Mr. President, Members of the Association, Ladies and Gentlemen: I deem it an honor and a privilege to address you upon this occasion, I congratulate and rejoice with you upon the successful work your Association has done during the past year. I also am happy over the prosperous year you have enjoyed as broadcasters. I wish to talk to you this morning about the duty and responsibility of the broadcaster. In legislating upon this subject, our government, contrary to that of most of the countries of the world, decided to license persons to render this service rather than for governmental ownership and operation. The entire theory of the Radio Act and its successor, the Communications Act, is that broadcasting licenses are made trustees of the federal government to serve the public of your community and having granted you this gracious privilege in the form of a license, this duty then devolves upon you to render the best public service to your community that you can. You assume, by the acceptance of this license, a great responsibility of public service. How then is the best way in which you can fulfill this duty and responsibility? You are thereby accorded a wonderful opportunity for service which necessarily carries with it a grave responsibility. You are invited to enter the homes and firesides of your listening public for practically sixteen hours a day. These programs reach the men, women and children of the entire nation. They reach those who are now steering the destinies of our communities, state and nation, and those who are being trained to assume these reins of government when the present actors pass from the stage. These thoughts should ever be present upon you with your programs should be so built that our younger generations who have the privilege of listening to the radio should be prepared for the task of public service. In fact, the better service you render, the more popular becomes your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement.

While under our plan of broadcasting the stations must be self-supporting by their sale of time, yet you must bear in mind that this is but an incident and that your main object and purpose is one of service. The fact, the better service you render, the more popular becomes your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement. You are still a young industry and a federal regulation is new, you must bear in mind that the development of your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement. You are still a young industry and a federal regulation is new, you must bear in mind that the development of your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement. You are still a young industry and a federal regulation is new, you must bear in mind that the development of your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement.
Rivers last February. The broadcast stations were a source of inestimable assistance in preventing loss of life and property, and by keeping the public posted on the exact stage of the flood, broadcast stations offered a very excellent means of acquainting the public almost instantly with any message the relief authorities may desire to disseminate. Many stations co-ordinated emergency units, procured supplies, distributed relief activities, and enlisted hundreds of dollars through appeals to the public for the Red Cross. While broadcast stations were not alone in rendering this valuable service, they did their share and must be complimented highly for the efficient manner in which this service was rendered. Our engineers are now studying plans for the better co-operation of all radio facilities and relief organizations in times of emergencies. I feel sure we can always count on the broadcasters co-operating fully and to do their share. Service of this character is indeed public service of the highest order and which service I am sure was appreciated by our entire citizens.

Another public service in which progress is being made is that of the Committee on Federal Radio Education headed by Dr. J. W. Studenbaker, Commissioner of Education, and composed of an equal number of broadcasters and educators. I shall not go into the details of the work of this committee and its numerous subcommittees as I imagine Mr. Baldwin, your very able Managing Director, will make some report of it to you at some of your meetings. I understand, however, that two of the large foundations are very much interested and are willing to help materially in financing the work of this committee. I believe a successful conclusion of the labors of this committee will be of the greatest benefit to both radio and education.

At this point I should like to refer briefly to some of the matters in which we are all interested which have developed since your last meeting a year ago.

Last September the informal Engineering Hearing in which the industry co-operated very fully with the Commission and gave us a complete picture of the engineering, social and economic phases of broadcasting. The testimony taken at this hearing covered some 1741 pages and in addition there were numerous exhibits. The presentations were indeed interesting although some of the more technical phases will have to be analyzed by our engineers. I wish to take this opportunity to extend further our appreciation to the industry for its splendid co-operation in giving the Commission such a comprehensive picture which will enable it to determine if any changes in the existing policies or rules of the Commission should be made in order that broadcast stations may improve their service to the listening public.

Our engineers have made a preliminary report on the hearing to which we are giving careful consideration. There are certain other data we have asked the engineers to supply before we make any changes in the existing policies. The general feeling is that our engineers have done an excellent job on reporting the testimony of this hearing and their conclusions appear to be very favorably received in the industry. I can assure you also that we are not contemplating any drastic reallocation of broadcast facilities, but we will continue to consider whatever changes in the present regulations and deemed advisable step by step so that all interested parties may be given full opportunity to be heard on any changes that may adversely affect their interests.

Last September 15 the Broadcast Division promulgated regulations governing all classes of broadcast stations except the regular stations with which we are all familiar. It may surprise you to learn that of the 1,108 broadcast stations licensed by the Broadcast Division, 408 are other than regular broadcasting stations. Of this number, by far the greatest number are relay stations used in transmitting programs from points where wire facilities are not available. On June 15 the Broadcast Division repealed the rule requiring a two-day notice for the operation of relay stations. This requirement, while beneficial to the stations, was found to be unfair because the National Commission that made it was not able to charge the stations that a program of development of facsimile broadcasting is presented to warrant such operation. The Broadcast Division is very interested to know whether the general public wants a facsimile broadcast service and if such a service can be supplied at this time.

International broadcast stations, of which there are only a few—twelve in number—occupy a unique position in the broadcast structure in that the signals from these stations are transmitted throughout the world. By selecting proper frequencies and employing different technical phases, the government can present, for example, a complete point-to-point service to a foreign country. While the government has authorized the operation of this class of stations since 1925, in the last several years there has not been a general expansion either in technical advancements or international program service by the licensees of these stations. In the past two years other countries of the world have developed and are developing this service which has resulted in stations in European countries rendering better service in South American countries than is received from the United States stations.

The Commission recently authorized the Engineering Department to hold an international conference with the view of making a report to the Commission on means of improving our stations so that their service will compare favorably with that of other countries of the world. We shall be pleased to have the report from our engineers and I feel sure that the broadcasters will accept their responsibility in rendering an international service comparable with the national service now rendered by regular broadcast stations.

Next November there is to be held in Havana, Cuba, an Inter-American Radio Conference for the purpose of discussing allocation of radio facilities in the countries of South America. We shall receive very important problems as respects allocation of regular broadcast stations as well as international stations, between the North American countries, as you know, we have a very unsatisfactory arrangement at this time resulting in mutual interference, as well as unsatisfactory exchange of program service. It is expected that this conference will be discussed at length looking to an agreeable solution. The frequency assignment of international stations will also be a problem because certain countries have crowded so many stations rendering a national service on frequencies available that the international service is being materially impaired. It is hoped that an arrangement can be made for a better allocation of these frequencies to provide for an exchange of programs to promote better understanding among the republics of the American continents.

At the International Conference at Cairo, Egypt, which is to be held next February, the International Commission will be taking up the matter of international broadcast stations since their service and interference is world-wide in range. We have always taken the attitude that these frequencies offer an opportunity to contribute materially to the development of closer acquaintance among the countries of the world and they should be used exclusively to render an international service.

In conclusion, Mr. President, may I say that your Association deserves our congratulations upon the efficiency and splendid way it has met and cared for problems that confront it and its members, and I wish for you and it a continuation of this splendid work.

PRESIDENT MYERS: Thank you very much, Judge Sykes. The Association appreciates your presence and also other members of the Commission.

Mr. John Reynolds, Assistant Secretary of the Commission is here. Will Mr. Reynolds please stand up? (Applause) . . . John B. Reynolds arose and acknowledged the applause . . .

PRESIDENT MYERS: Mr. George Porter, Assistant General Counsel of the Commission. (Applause) . . . George B. Porter arose and acknowledged the applause . . .

PRESIDENT MYERS: Mr. Ring. (Applause) . . . A. D. Ring arose and acknowledged the applause . . . PRESIDENT MYERS: There are a lot of new faces here this year. I would like to see every one of you who has not attended a convention before, stand up—every one for whom it is the first convention.

About fifty men arose . . . (Applause).

PRESIDENT MYERS: I think there are some representatives of foreign countries here. Will every representative of a foreign country please rise? I know Emilio Ascarraga of Mexico is at the convention but I guess he is not at this meeting.

The next item on our program is the report of our Treasurer, Mr. Harold Hough of WBAF of Fort Worth, Texas, Mr. Hough. (Applause)

PRESIDENT MYERS: Thank you very much, Mr. Hough. (Applause)

HAROLD HOUGH (Treasurer, NAB; WBAF, Fort Worth): The report of a treasurer is supposed to present a lot of figures on things that we have and what we have spent. Your very efficient Managing Director and our auditors have made. Audits are sometimes a little dry and sometimes they don't tell everything we would just like to know. This audit will be printed in your
age—$370.00; postage—$560.00; and publicity—press clippings—$68.00.
Office supplies cost you receive, the business index, statistics and such things—we have
hands, give their call letters, hire a lawyer and then proceed to
have a quorum of broadcasters, the first thing they do is shake
you know, these days, broadcasters, when they get in a room and
in. (Laughter) We might be able to work that out. (Laughter)
We have a number of items in here. There is one thing I did not
express the desire to obtain the most complete information
available with respect to this broad subject of allocation, not
only in its engineering but also in its corollary social and economic
phases to the end that such regulations and standards as it may
retain or adopt will make possible such use of the band 550-1600
kilocycles as will provide maximum service in the public interest.
The testimony adduced at that hearing, and the reports which thus
far have been made thereon promise evolutionary changes in the
economic and social aspects of broadcasting.
A. T. & T. Long Lines

New tariffs filed by the American Telegraph and Telephone Company were made effective on November 1, 1936, resulting in a
saving of approximately $250,000.00 per annum for the use of
long lines.
The Duffy Copyright Bill

In January, 1937, there was introduced in the United States Senate the so-called Duffy Copyright Bill. Hearings on this bill
probably will be held some time next month.

Government Broadcasting Station

During the month of February, 1937, there were introduced in the Congress of the United States numerous bills affecting radio
which would:

1. authorize the construction and operation of a Government Broadcasting Station;
2. divest radio and newspaper ownership;
3. investigate all charges and allegations of the existence of a
radio monopoly;
4. establish five years as a minimum licensing period for broad-
casting stations.

Investigation of Radio Urged

The month of March witnessed another cry for an investigation
of radio, this time by Senator White of Maine. Commissioner
Stewart of the Federal Communications Commission, in an
address at Duke University, on March 23, critically called attention
to the conflict between educators and broadcasters, newspaper
ownership of radio stations, and inferior radio programs.

During the month of April a bill was introduced in the Congress
to tax radio stations according to their operating power.
The month of March witnessed yet another bill by the Federal
Commission of an investigation into alleged irregularities in procedural matters before the Commission that
invites the attention of the entire industry and everyone associated
with it.

FCC Opposes Five-Year Licenses

This month the Federal Communications Commission registered with the Congress its opposition to five-year licenses for broad-
casting stations. Included in the Commission's letter to Chairman
Lea of the House Interstate Commerce Committee is the following
paragraph which I call to your special attention: "At the present
time the Commission has no authority to suspend licenses or
impose penalties for violations of its rules. The only punitive
action available is revocation, deletion through denial of a renewal
of the license, or imposition of public reprimand. The penalty
amount that has been paid to the Association and spent constructively by
the Association, and the substantial balance in the treasury today,
it is evident that a testimonial to the efficient management of your
Washington office, and I would like to introduce the man who is
responsible for the report of last year's activities, our Managing
Director, Jim Baldwin. (Applause)

JAMES W. BALDWIN (Managing Director, NAB, Washington, D. C.): Mr. President, Members and Guests:
I shall endeavor to furnish detailed information with respect to
certain matters already referred to. First, let us look at the picture
from a national or federal point of view.

National or Federal Activities

Engineering Hearing
In October, 1936, the Federal Communications Commission
convened an Engineering Hearing for the purpose of determining
what principles should guide the Commission in matters relating
to or affecting the allocation of frequencies and the prevention of
interference in the band 550-1600 kilocycles, and, in particular,
what changes, if any, should be made in the standards heretofore
applied by it, and its engineering department, and the Commission
expressed the desire to obtain the most complete information
control through consideration of application for renewal of license every six months. There is thus constantly present a means of checking the technical operation and program service of stations.”

U. S. vs. ASCAP

The suit instituted by the United States Government against the members of the American Society of Composers, Authors and Publishers, is still pending in the United States District Court for the Southern District of New York. The suit was instituted in August, 1934, and the trial was commenced on June 10, 1935. After proceeding for several days the trial was recessed with the understanding that a stipulation of facts was to be negotiated. Conferences between counsel for the government and counsel for the major defendants were held, but up to the present time no stipulation has been agreed upon.

With a view to making available to the government whatever assistance your Association could give in the matter of expediting the work of stipulation, your Executive Committee authorized me to appoint special counsel. Philip G. Loucks, my predecessor, was appointed. He accepted the post, and your Managing Director immediately notified the Attorney General of his appointment. Both Mr. Loucks and myself have had conferences with government counsel in charge of the suit, and we have urged speedy action upon the government. It is impossible to state at this time what plans, if any, the government has to proceed with the trial. Our conferences have given us slight encouragement that the government intends to press for early resumption of the trial despite the fact that two years have intervened since its commencement.

STATE ACTIVITIES

And now for a review of state activities.

Legislation.

This year forty-four state legislatures were in session, and there were introduced in these legislatures approximately 150 bills which, in one way or another, affected our industry. The larger percentage of these bills, namely forty, dealt with advertising. Some prohibited liquor and medicinal advertising; others provided for food, drug and cosmetic regulation. In addition, there were introduced bills relating to false and misleading advertising, advertising by physicians, dentists, optometrists and small loan companies.

State copyright laws were enacted in the states of Montana, Washington, Nebraska, Tennessee, and Florida. State copyright bills failed of enactment prior to adjournment in the states of Indiana, Iowa, Minnesota and Ohio.

A bill imposing a tax of one per cent. on the gross receipts of radio broadcasting has passed both houses in the state of Arizona; and there is also a bill in the Texas legislature, which, if enacted, a law was enacted imposing a two per cent. gross receipts tax on radio broadcasting. Bills imposing taxes of from one to ten per cent. on the gross revenues of broadcasting stations were either killed or died due to adjournment in Colorado, Kansas, Minnesota, Ohio, Oklahoma, Missouri, Mississippi, and West Virginia.

Bills setting up a state censorship board to pass on the wording of all advertising matter proposed to be broadcast, and in one instance imposing a fee of ten cents per word for such review, were introduced in Michigan, New York and Washington. These bills failed of enactment in New York and Washington. The Michigan bill is still in committee.

Two states, namely Florida and Georgia, enacted laws which make provision for state-owned broadcasting stations.

A bill was passed in the state of Iowa which grants a certain amount of relief to those broadcasters for libelous statements innocently broadcast. Similar legislation was introduced in the states of California, Florida and Indiana.

The broadcasting of crime news would be banned under the provisions of bills introduced in California and Washington.

Broadcasting of news with respect to betting on horse racing would be prohibited by bills introduced in California, Illinois, Indiana and Texas.

Large appropriations for advertising the state are included in measures introduced in Arizona, California, Florida, Idaho, Maine, Michigan, Texas and Washington. Some of these specify an advertising medium with which funds should be spent. And, it is interesting to note that in not one instance was the medium of radio broadcasting specified. That is a matter which I think you yourselves would like to look into.

Quick action on the part of broadcasters in Idaho stopped the passage of a bill prohibiting the operation of automobile radios in that state. I mention this particularly because it is the finest example of what can be accomplished through co-operation. Here is a bill which had moved to the third reading in the Senate before the NAB offices received notice through regular legislative service. We immediately contacted one of our members, Mr. Phillip of Boise. He marshaled forces in opposition to the bill, obtained hearings before the House, and the bill was promptly killed. It is a marvelous example of what can be done once we put our shoulder to the wheel and decide we are going to do something about it.

Now, one bright spot in legislation is that Missouri this year repealed a former law which levied a two per cent. tax on radio broadcasting.

There were many other classes of bills introduced including provision for the state licensing of radio engineers, prohibition against the use of the word “court,” and provision for a state supervisor to pass on standards of radio sets for retail sale. However, these should be followed in subsequent legislative sessions, if not promptly killed by NAB members carefully watching all bills introduced in their state legislatures.

The legislatures of Illinois, Michigan, New Hampshire, New Jersey and Wisconsin are still in regular session; and in Arizona, Minnesota and Texas the legislatures are having special sessions for consideration of particular emergencies.

LITIGATION

Since our last convention a great number of suits have been instituted against NAB members by two organized groups of phonograph recording artists, the American Society of Recording Artists, Inc., a California corporation known as ASRA, and the National Association of Performing Artists, a New York concern known as NAPA. Our members received communications from the former demanding an accounting for records used of its members and the signing of licenses with it. In addition, agents of ASRA were in the field personally soliciting such licenses. Because this was a mutual problem of all broadcasters, your Managing Director retained Stuart Sprague, a lawyer with copyright and recording experience, to investigate the activities of ASRA and to report his findings to the NAB. His report and opinion was printed in the NAB REPORTS as No. 43 of Volume 4, dated September 1, 1936, and was distributed to the membership.

Two suits have been commenced by ASRA in the Superior Court of California, Los Angeles County, one against Station KFWB, and the other against KFAC, which are being strenuously defended by the stations, and have not been tried. Recently RCA Manufacturing Company made a motion to intervene in the KFWB case asking that the station be enjoined from broadcasting Victor records, and that ASRA be enjoined from licensing the use of Victor records. This motion was due to be argued on June 8 and is being opposed by KFWB.

NAPA has instituted two suits in Chicago; one in the Circuit Court of Cook County by Abe Lyman against Station WQES, and another in the United States District Court for the Northern District of Illinois in Eastern Division by Connie Boswell against WAAF. These are being vigorously defended by the stations.

NAPA has two suits pending in New York; one by Paul White- man in the United States District Court for the Southern District of New York, against Station WGES, and the other in the United States District Court for the Northern District of Illinois in Eastern Division by Connie Boswell against Station WHN in the Supreme Court in New York County. Both cases are being well defended. Most of the activity has been in the Crumit case in which the plaintiff’s motion for a temporary injunction was denied. Recently the court allowed Deca Records, Inc., to intervene in the suit to press its claim for an injunction against both Crumit and the station. The case will probably be tried in October.

In Pennsylvania the appeal of WDAS from the decree in favor of Fred Waring was perfected, and argued before the highest court of the state. No decision has yet been rendered. Another suit in the Federal Court in Boston against the Hotel Vendome for playing phonograph records in a public room. Judge Sweeney on June 4 granted the motion of the hotel to dismiss the complaint, finding that Noble in his contract with the recording company had conveyed all of his rights to the hotel, and that the station was in court. This case, although it does not involve a radio station, points the way to the likelihood of similar decisions in the litigation against our members, and for that reason it is mentioned here.

A further case of interest to members, although to a lesser degree, is the decision on April 30, 1937, of the United States District Court for the Southern District of New York, wherein a hotel, which by

2446
a master radio receiving set had picked up a radio program for distribution to its individual rooms, was held to have infringed the copyright in a musical composition that the station was licensed to broadcast. This is a further extension of the Jewell-LaSalle decision of the United States Supreme Court which should be further considered either on appeal or by legislation. Radio programs are broadcast for the enjoyment of the greatest number of people whether they are seated in their homes, in a hotel room, or in an automobile.

International Problems

Some of our problems are international in scope. In March of this year a preliminary Engineering Conference, was held in Havana, Cuba, in which representatives from the United States, Canada, Cuba, and Mexico participated. The full text of the Official Report of this Conference has been made to you through the medium of NAB REPORTS. It is expected that a further Conference will be held this year. Observers seem to agree that much has been accomplished at Havana and that the purpose was bright for reaching an accord this fall. It is also generally conceded that any accord that is reached will necessitate some readjustments in the existing allocation of American broadcasting stations. The CCIR was convened in Bucharest on May 2 and adjourned June 8. The UIR, of which the NAB is presently a member, met last week. The NAB was represented at both these meetings by J. C. McNary. Our representative is expected to return in the near future to make a report of the meetings and recommendations for action to the membership.

The World Radio Conference in Cairo also presents problems of great importance to American broadcasters. Unquestionably these problems will be discussed at the engineering conference tomorrow afternoon. The Foreign Relations Committee of the United States Senate is engaged in study and consideration of a resolution which, if adopted by the Senate, will make the United States an adherent to the International Copyright Union. Experts tell us that adherence to this convention by the United States before we amend our own copyright law will result in chaos for broadcasters. Your Association has pointed out to theComposer's Royalty Bureau the necessity for amending our copyright law, and joining the Copyright Convention simultaneously, and the matter is being watched carefully. Your assistance may be required.

Bureau of Copyrights

Now a word about the Bureau of Copyrights. In my report last year, I explained the purposes of this bureau, how it was intended to search out music that was in the public domain, and that with your cooperation, by next year we can say, "It has been done." (Applause)

Today I am very happy to say to you, "It is being done," and that with your cooperation, by next year we can say, "It has been done." (Applause)

It has already been explained to you that approximately four hundred musical selections have been prepared for you in manuscript form, and recorded. About fifty of these have been used to build twenty hours of electrically transmitted music. In other words, we can signal to you today the execution of a plan which won your approval last year.

Now, there have been a great many problems connected with this work and it is unnecessary to relate them here. One matter which will be of interest to you is the vehicle which has been created for the handling of this work in the future. Acting on the authority of the Board of Directors, the Bureau of Copyrights was incorporated under Article 2 under the laws of the State of Delaware. The officers of that organization, which is styled "NAB Bureau of Copyrights, Inc." as of today, are as follows: President, C. W. Myers; Vice President, James W. Baldwin; General Manager, James W. Baldwin; Treasurer, Harold Hough; Secretary, Gardner Cowles, Jr; Assistant Secretary, Everett E. Revercomb; Assistant Treasurer, Everett E. Revercomb.

The Directors of the NAB Bureau of Copyrights, Inc., held a meeting on June 20 at which time agreements were reached which permit the NAB Bureau of Copyrights, Inc., to be recognized today as a live, active organization, prepared to furnish you with excellent tax-free music.

Now, one of the very important features of this corporation which you will recognize immediately is the provision which has been made to prevent it from falling into the hands of unfriendly persons. As a result of very careful legal investigation, restrictions have been imposed on the transfer of stock. These restrictions have been tested in the highest court in the State of Delaware and prevent the transfer of the stock without the consent of the corporation or at least without the opportunity of the corporation first having the opportunity of the stock in this corporation. The corporation having been capitalized for $100,000 this means an investment of $51,000 by the NAB. I want also to advise you that you have the opportunity here to hear this library and to indicate your desires for the service. As already explained, twenty hours have been prepared. Twenty hours can be delivered now. The price has been fixed at fifteen dollars per hour with a discount of 33 1/3 per cent to all members of the NAB, making a total of cost to members of the NAB in good standing of $10 per hour—or, put in another way, $5 per double-faced 16-inch transcription.

The Federal Radio Education Committee

Judge Sykes has explained the exploratory work of the Federal Radio Education Committee, and both he and our President have emphasized the importance of all broadcasters assisting in the financing of this work.

In addition to the exploratory work which has been mentioned, the Office of Education has launched an experiment in real co-operative effort, between managers of local and regional stations on the one hand, and local educational agencies on the other. The establishment, a year ago last April, of a script writing and exchange service in connection with the radio project which is being carried on in the Office under WPA funds, was proposed by Dr. Studebaker to Dr. Tyson of the National Advisory Council on Radio Education, and both he and our President expressed the belief that this project is of prime importance to the broadcast field.

Within the year programs furnished by the Script Exchange have been carried by 104 radio stations located in 40 states. 104 stations have carried 147 program series furnished by the Exchange. Each series has averaged 6 scripts (or 6 programs) making a total in the 147 series of 882 programs carried by the 104 stations.

More than 1600 local groups, including high schools, colleges, and universities, theatre guilds, CCC camps, radio stations and many others, have been served by this Script Exchange.

These groups have received 38,000 copies of radio scripts, 10,000 copies of the Radio Manual, Glossary of Radio Terms, and Music Arrangements.

It will be seen that this enterprise—the preparation and exchange of non-sponsored educational scripts—is filling a real need. In my judgment, it should be continued and extended as it is bringing about better relationships between the managers of radio stations and educators, for it has made possible real co-operative effort. In this connection, I might say that I have seen, from time to time, a number of the letters which have come in from station managers expressing genuine appreciation for the quality and the interesting character of the scripts and for the co-operation which has been secured from local educational groups in connection with producing them on the air. It is quite evident that this script exchange service is dispelling some of the clouds of misunderstanding and controversy which have darkened the horizon in certain sections.

Conclusions and Recommendations

Now, thus far I have attempted to make a report on last year's work. This is a democratic organization and it is assumed that expressions of the membership will be made from the floor on important problems. Also, it is assumed that at least some of you expect an expression of opinion on some of these matters from those of us who have been at the scene of action during the last year.

Government Broadcasting Station

I come first to the proposal to construct and operate a government broadcasting station. It is my recommendation that the Association vigorously oppose the enactment of the Celler Bill which would authorize the construction, maintenance and operation of a government broadcasting station. I submit that your opposition may be based on these grounds:
1. The enactment of the bill will amount to an entering wedge which easily may result in government control and operation of all broadcasting in the United States.
   (And, at this point I want to suggest that although there are a small number of stations, by comparison, operating on frequencies above 1600 kilocycles, don't be deceived, gentlemen, because if the government can construct and operate a broadcasting station on a frequency above 1600 kilocycles, it can construct and operate them in the band from 550 to 1600.)

2. The existing system of broadcasting in the United States makes available to the various departments of the government all the time that possibly can be desired for broadcasting either domestic or foreign programs.

3. The existing system of broadcasting in the United States affords to the departments of the government the greatest possible radio audiences.

4. The operation of a broadcasting station by the Office of Education (which is a feature of this bill) is opposed by all existing federal and state laws respecting education.

5. Due to its official status, there would be great danger of utterances over such a station giving offense to friendly nations and creating unnecessary international incidents.

6. The enactment of the bill would result in a useless and extravagant expenditure of public funds.

U. S. vs. ASCAP

The Association, by formal resolution at earlier conventions, has voted to assist the government in every proper way in the prosecution of the government's suit against the ASCAP. There is no need to emphasize the importance of this litigation. I earnestly urge that you again record your support of the suit and consider a formal resolution respectfully requesting the government to expedite the trial of this case.

Taxation

It seems to me that the question whether the costs of radio regulation should be met by the imposition of a special tax on broadcasting stations is one of the basic policy which Congress should decide. I can imagine that the early pioneers in railroad would have welcomed the opportunity of paying the bills of the Interstate Commerce Commission on the theory that "the fellow who pays the fiddler calls the tune". This might apply to broadcasters.

It may be that broadcasting stations should pay, in some manner, for their franchise. If this is so, then we should offer our assistance to find ways and means of making payment which will avoid the charge that we are trying to "call the tune".

The Duffy Copyright Bill

It is my belief that the Duffy Copyright Bill, or any other bill designed to modernize the copyright law of 1909, can be enacted only if the Association can send to Washington at least one representative from each state whose duty it will be to acquaint his Congressmen and Senators with the need of such legislation and who can remain in Washington to see that the job is done. I sincerely believe that in no other way can you overcome the power of the ASCAP lobby. It is true that the general legislative situation in Congress this session, so far at least, has been opposed to any such action, but I do recommend that appropriate steps be taken to recruit such persons as soon as the legislative situation appears to warrant it.

Five-Year Licenses

The Association, at previous meetings, has resolved in favor of longer license terms for broadcasting. For the first time we know definitely how the Federal Communications Commission feels about the matter. Their opposition to longer license terms is to be regretted. Longer license terms are essential if we are to conduct our business with any worth-while, long-time planning. One of the weaknesses, or what appears to be one of the weaknesses in the letter of the Commission to the Chairman of the House Interstate Commerce Committee is that it seems to me to show on its face an attitude that is inconsistent with the latest expression of the Commission.

When Congress was considering the Bill S.3285 to amend the Radio Act of 1927, the Senate reduced the maximum terms of broadcasting licenses from three years to one year; and the conference committee of record made the bill agree to leave the maximum term of license three years. The conference committee report submitted by Mr. Rayburn on June 8, 1934, was adopted. Accordingly, the provisions of the old Radio Act were continued in the new act. The Commission, therefore, has the power today to license stations for three years. I suggest that each member make it a point to discuss this problem fully with his Congressman and his Senators, and urge the passage of the bill, H.R. 5038.

Bureau of Copyrights

The success of our efforts in the Bureau of Copyrights is expected to be judged by the ability of our government to select the old musical selections and make them conform to present-day needs. This ability, we believe, has been well demonstrated in the quality and variety of selections contained in the first twenty hours of recorded music.

The creation of an independent supply of music for radio broadcasting should win the hearty approval of those representatives of the ASCAP, who for several years have publicly criticized the use of popular music by radio broadcasting stations, and charged that the radio broadcasting industry was responsible for "killing" the sales of popular sheet music. Also, it is expected that the NAB accomplishments, in creating an independent supply of music for radio, will be cheered by those who have complained so vigorously against the use of phonograph records by broadcasting stations.

Times have been pretty good the last two years. The majority of broadcasting stations have been operating at a profit. Some of you may be inclined to allow yourself to be lulled to sleep. Some of you may say 1940 is a long way off. Others may be inclined to submit to proposals which may come from various sources. But one fact remains—through co-operative efforts and by minding our own business, we have it within our power to establish our freedom from the monopolistic control which has been exercised over our raw material.

SESAC

And, while we are talking about Copyright, I should make this comment with reference to this so-called SESAC. As previously reported, we have conducted an exhaustive investigation into the Society of European Stage Authors and Composers, Inc., New York City. The report covering this investigation will be distributed as soon as it comes off the press. It has taken much longer to complete the job than we estimated. The report is too voluminous to permit of a statement of conclusions here.

AMP

In January, 1936, we requested the Associated Music Publishers to supply us with a list of the musical selections contained in their repertory. This list has been furnished us. As soon as the SESAC report is complete, we will compile a report on AMP which will furnish the members with sufficient information to determine their need for such music and enable them to determine the reasonableness of the license fees charged therefor.

A. T. & T.

One other matter which seems to demand attention today is the Duffy Copyright Bill. We referred a few moments ago to the fact that last November new tariffs became effective which substantially reduced the costs for long lines in broadcasting. Now, recently matters have been called to our attention which seem to indicate that a very careful investigation should be made of all the rates which have been filed recently by the companies affiliated with the A. T. & T. Company. It is the tariffs of the associated companies which control the price you pay for your local broadcasting and at least in two cases, we find, that whereas there has been a substantial reduction in the cost of long lines and, therefore, to the substantial users of radio, the costs actually have been increased within the state.

Now, I could not bring to a close this, my second term, without expressing the genuine appreciation which I have for the associations for this last year, for the co-operation I have received from the officers and directors and from the members as well. And the Executive Committee—there has never been a time this year when I could not obtain the counsel and advice of both your President and Treasurer. That has been something to appreciate! I also want to give due credit to the clerical personnel in your Washington offices. I consider them competent, willing employees. It is dry to stand here and give to you from the records many of these things. It is a necessary thing, we all believe. But, there is one thing with which I think you will agree. So far as this year is concerned, aside from the cold record; the cold black type, for the first time in the history of NAB, when you leave this convention, you can, if you choose, visit an exhibition, on your right, which will show you the various kinds of printed pro-
motion material used by the members. From it, many of you should be able to get new ideas. It represents an effort which has been made by your officers this year and members of your Commercial Section to assist you at these conventions in learning something new about your business.

On your left, as you desire, you may visit the audition room of the NAB Bureau of Copyrights where you may listen to the twenty hours of music that has been recorded. And, as has already been reported to you by the President, the first eighteen men who heard it, bought it. I believe you will want to do the same and I hope that every one of you indicate your desires before you leave Chicago.

And now, a final suggestion: it seems to me that this year it would be well for us to consider many of the criticisms which have been aimed at the industry and even though we know that they may be unjustified, let us not overlook the importance of disseminating these criticisms in the minds of people who are not so well informed as you.

It seems to me that you should lay emphasis on efforts during the next year to make as many appearances as you can in your communities, meet with your local organizations, discuss with them the problems of radio broadcasting, educate them as to your problems, feeling secure in the fact that once you do inform them of what the problems are, they will agree with the solutions which you as members of an industry have sought to offer.

I thank you. (Applause)

E. B. CRANEY (KGIR, Butte): Mr. Chairman, I'd like to thank Jim for the work he has done during the last year and I'd like to place my order for those transcriptions at this time. And, if I may—I don't see any other time on the program of NAB to say anything about copyright—would like very much to have about five minutes of the attention of the convention to say a few words on copyright.

... Mr. Craney came to the platform...

MR. CRANEY (continuing): I have had buck fever. I have had staff parties. I have on the air. I hope I can get this message over to you. (Laughter)

More, perhaps, has been done on copyright since our last convention than during any other one year since the inception of broadcasting with the possible exception of the year our government started suit against ASCAP in the United States District Court for the Southern District of New York almost three years ago. In this suit it was alleged there was violation of the antitrust laws. And, while we are on that subject, let me tell you that ASCAP has done and is doing such a good job of lobbying in Washington today that if we don't take action here at this convention both as a body and as individual broadcasters that very suit is apt to be dropped with nothing done by Uncle Sam to stop the practices which have been followed in forcing us to pay five per cent. of our gross income as tribute to a bunch of music publishing houses and not allowing us to pay only for the music we actually play.

So much has happened, in fact, during this last year that I will not take your time to review it. I want only for you to take action here, at this convention, which will put in motion a movement to end once and for all rules of fair play for the seller and buyer of the use of copyrights to follow. We are seeking no advantage over the owners of copyrights; we are perfectly willing to pay for the numbers we use but we want this payment to be fair and equitable. We want to purchase under a competitive system. We want to purchase only the numbers we can use—not every number in the country. We want some assurance that when we purchase the use of a number from one party that another will not bob up immediately and sue us for infringement. We want to be relieved of paying several times for a number, as we do today. We want legal protection against infringement suits on numbers over the broadcast of which we have no control.

The present copyright law was enacted in 1909 before broadcasting was even thought of so we certainly have a right to go to Wash-

ington and ask Congress to bring it up to date and set up rules of fair play between owner and user of copyrights.

Now, the possibility of national copyright legislation is so precarious an undertaking under the strong ASCAP lobby existing in Washington (and to which Senator Duffly recently referred) that we would be wise to do several things we can do, and we should not do just one, but instead all of them. There is state legislation—and on this let me say, four states have already enacted legislation and several are at this very minute considering it. Our Association should gather all information on this and make it available to every member. Our Association should help substantiate legislation already enacted. We should build a source of public domain and cleared music either directly as our Bureau of Copyrights has started or we should let that Bureau clear music to be built into libraries by others, or both. We should have a strong campaign on numbers over the broadcast of which we have no control. We should show authors and composers how the sale of the use of copyrights on a "per use" basis will be to their distinct advantage. There is no use in us waiting for ASCAP to do this. It could if it so desired, but its heads are afraid of any upset in that organization because they all have nice fat jobs. ASCAP, though, is logically the only one to put such a move into existence and this is, in my opinion, the only way ASCAP can survive.

Certainly something must be done when Mr. Froelich, ASCAP's New York counsel, says that "it is impossible to trace the assignment of an actual number of Mr. Mills's numbers," that unless a composer is on the inside of ASCAP's income in the state was done by broadcasting stations and not allowing us to pay only for the music we actually play.

If you followed the Montana case, you found that Gene Buck testified concerning payments to one of ASCAP's composer members and that that member was paid less than one-fifth of one cent for the use of his numbers. You will find also that Mr. Buck had the audacity to state that this was more than he would have received if it hadn't been for ASCAP. Let us get back to the fact that the smallest station in the country situated in the most sparsely settled part of this country would be ticked off to death to be able to get music that cheap. I have checked with a number of stations on their cost per number during the last year and I know of one 100-watt that averaged better than 25 cents a number and of a 50-kilowatt that was paying better than 30 cents. These stations are by no means in our larger cities, so even higher ASCAP collections can be expected there. I wonder how ASCAP can justify such income as this with but a fifth of a cent payment to the composer?

If you have kept up on the copyright situation at all during the last year, you know that there are only 508,425 published copyrighted numbers on file at the copyright office in Washington, not the two or three million numbers Mr. Mills has always talked about. You know, too, that this figure includes many player piano rolls and you know that for the privilege of playing but a few of these numbers, our industry paid in the neighborhood of $4,000,000 last year. If you don't think we are a bunch of chumps, then listen to this (and I am quoting from figures referred to by Gene Buck of ASCAP): in Montana we found that only 6.45 per cent. of the entertainment business of the state was done by broadcasting stations, and this is exclusive of all hotels, yet more than 70 per cent. of ASCAP's income in the state came from these very same broadcasting stations. I imagine, if you will check figures in your own state, you will find a similar situation. Considering all this, we in
the broadcasting business do not ask for lower fees; we ask but for the right to pay only for the music we actually perform and that the Society of Publishers represented by Mr. Mills doesn't know who the copyright owner is on the numbers it represents to control, then we cannot be refused this right to preserve our freedom of speech.

We are asking no advantage over anyone! We want only fair play! We can do the same things nationally that have been done in Montana, Washington, Nebraska, Tennessee and Florida. The legislation we ask for is honest legislation—it is right! In just a little over one year from now we must have something to call our own.

I am sure we all appreciate the talk by Mr. Craney. The reports of Mr. Baldwin and myself, as you have all heard, are directly in line with Mr. Craney's suggestions. I think it might be a good idea if Mr. Craney would meet with the Resolutions Committee and draft a resolution for presentation to the convention and at that time, if other steps are necessary to promote the continued action of the plans which we have under way and which the new administration undoubtedly will have under way next year, they can be taken.

In line with one announcement made by Mr. Baldwin, in regard to the display of station promotion literature on this floor, stations which have literature in this display should remove it by Wednesday noon. The committee in charge of this display is taking every precaution to preserve and protect the materials sent them but they cannot be responsible for it and the stations themselves should remove the materials they have in this display Wednesday noon or Wednesday evening at the latest so that it can be put away by Wednesday afternoon. Before we have the report of the Nominations Committee, I would like to remind the various committees that we have announcements to make at the close of this meeting. I want to be sure that I have all of your announcements of the various committees in regard to your meeting and ask for the information for the convention so if the chairmen of these committees are sure to have these announcements up here by the time the Nominating Committee completes its report, the announcements will be made.

The next item on our program is the report of the Nominating Committee by its chairman, Earl Glade of Salt Lake City. Mr. Glade.

EARL J. GLADE (KSL, Salt Lake City): President Myers and Members of the Convention:

“In submitting its report, your Committee on Nominations respectfully reminds the convention how highly important it is that we pass this one way or the other. The respective nominations reflect a cross-section of the ownership and management of the entire radio broadcasting industry of the United States.

In making these selections, therefore, Mr. President, your Committee on Nominations has endeavored to give the most careful consideration to each candidate as the representative of the Association as it has had a bearing on the choice of its officers, geographical location, station wattage and frequency allocation, qualities of leadership as exemplified by the nominee’s success in station management, community prestige; achievement in the fields of business-building, community-building, and general public service; network affiliation, independent station, as well as, of course, as the nominee’s availability and his aptitude for and attitude toward Association work.

While your committee recognizes some distinct advantages to be derived from certain rotation or succession in office, it respectfully declines to accept the responsibility of suggesting any order of nomination procedure that would, in any way, tie the hands of subsequent committees. Therefore, the nominations of this committee are purposely proposed only with regard to the vacancies now to be filled.

Your committee, therefore, respectfully submits the following roster of nominations for the consideration of the delegates to the annual convention of the National Association of Broadcasters to be held at Hotel Sherman, Chicago, Illinois, June 20 to 23, 1937:

“For President: John Elmer, Station WCBM, Baltimore, Maryland.

“For First Vice President: John J. Gillin, Jr., Station WOW, Omaha, Nebraska.

“For Second Vice President: William J. Scripps, Station WWJ, Detroit, Michigan.

“For Treasurer: Harold Hough, Station WBAP, Fort Worth, Texas.

“For Director—one-year term: Eugene Dyer, Station WGES, Chicago, Illinois.

“Respectfully submitted.

COMMITTEE ON NOMINATIONS

Mallory Chamberlin, WNBR, Memphis, Tennessee
Arthur B. Church, KMBC, Kansas City, Missouri
Edward A. Allen, WLVA, Lynchburg, Virginia
Earl J. Glade, KSL, Salt Lake City, Utah, Chairman.”

PRESIDENT MYERS: It is my understanding that any group of ten or more members of the Association may submit candidates’ names for the election which is to come tomorrow. May I remind you the election is tomorrow and I hope that one day we will all be here and all be here on time.

The next item on the program is the appointment of committees.

For the Resolutions Committee: John Henry, KOIL, Omaha, Chairman; Gardner Cowles, Jr., KSO-KRNT, Des Moines; O. L. Taylor, KGNC, Amarillo; William S. Hedges, WLW, Cincinnati; and Stanley Hubbard, KSTP, St. Paul.

Elections Committee: Hugh A. L. Half, WOAI, San Antonio, Chairman; Charles Robertson, WIBX, Utica; Father James A. Wagner, WHBY, Sheboygan; Don Searle, WIBW, Topeka; and William B. Way, KVOD, Tulsa.

CREDENTIALS COMMITTEE: Warren P. Williamson, Jr., WKBN, Youngstown, Chairman; Donald A. Burton, WLBC, Muncie, Indiana; T. Frank Smith, KXYZ, Houston; Edwin M. Spence, WBAL, Baltimore; and I. R. Lounsberry, WGR-WKBW, Buffalo.

Those are the remainder of your committees.

... Announcements...

PRESIDENT MYERS: This is a letter from the Republic of Cuba:

“... To the delegates attending the Chicago Convention of the National Association of Broadcasters: The Cuban Tourist Commission takes pleasure in sending a very hearty greeting to the Delegates of the National Association of Broadcasters present at their Chicago Convention, with most sincere wishes for the success of the meeting.

This organization deemed it an honor and satisfaction to have been given the privilege of entertaining those members of the broadcasting industry who were here for the Sixth Annual International Radio Party in December of 1935. To them we sent a special salutation today: taking advantage of this occasion to say to all of you that Havana will have, for all, a very warm welcome.

We earnestly hope, once more, that the forthcoming visit of the broadcasters to Havana during the Eighth Annual International Radio Party will serve to further strengthen the ties of friendship that unite this country with the great American nation.

(Signed) JUAN SABATES, President, Cuban Tourist Commission.”

I'd like to ask if there are any questions in regard to Mr. Baldwin's report. It was followed so closely by Mr. Craney that I don't believe you had any chance to ask questions.

(Announcements.)
JUNE 22, 1937  
(Tuesday Morning)  

The meeting, held in the Ballroom, Hotel Sherman, Chicago, convened at 10:50 o'clock, President Myers presiding.

PRESIDENT MYERS: The meeting will please come to order.

First, I wish to announce that if there are any station representatives here who are not registered as delegates or alternates, they must be registered as delegates or alternates before they can vote. We wish to be sure to give everybody who is entitled to a vote and wishes to vote, a chance to count his vote. Therefore, be sure that you are registered as a delegate or alternate so you may vote. There is one question to be settled by this meeting before we proceed — the Board of Directors elected that this should be a closed meeting only the active members and delegates. It has been suggested that it be open to the press as at preceding meetings. The question is whether this meeting is to be thrown open to red badges or not.

EDGAR P. SHUTZ (WIL, St. Louis): Mr. Chairman, I make a motion that they be admitted.

HUGH J. POWELL (KGGF, Coffeyville, Kansas): Seconded.

PRESIDENT MYERS: It has been moved and seconded that all red badges—guests of the convention—be admitted. Mr. Bailey, St. Paul: Gentlemen, I think we should vote against this motion. This meeting is for members and delegates. I have talked with some of the newspaper men. They appreciate our position and think it is all right.

W. A. BAILEY (KCKN, Kansas City): Of course, I would be accused of being a newspaper man but I feel this way about this situation: that the newspaper boys are used to going into situations like this. They are going to get a report. It is either going to be a firsthand or secondhand report and to them this is just another convention. I am sure you can depend upon the press to treat you honestly and fairly in being in on the meeting and probably a better attitude than if you excluded them.

PRESIDENT MYERS: Let me call to your attention the motion is not to admit only members of the press but all with red badges.

MR. BAILEY: The press is what I am talking about. Mr. Chairman, I will amend this motion to include the press, not all with red badges. (Several members seconded the amendment simultaneously.)

PRESIDENT MYERS: Is the amendment accepted by the mover?

MR. SHUTZ: Yes.

PRESIDENT MYERS: And the second?

MR. POWELL: Yes.

PRESIDENT MYERS: The motion as amended is that the motion only be admitted to this meeting.

THE CONVENTION: Question!  
(The motion as amended was put to vote, and was carried.)

PRESIDENT MYERS: Now, how are we going to designate who is the press? There is no way to tell one red badge from another.

F. W. BORTON (WOAM, Miami): I'd like to extend an invitation to all those wearing red badges.

PRESIDENT MYERS: It has been moved that all guests wearing red badges be admitted to this meeting. Is there a second to that motion?

FRED J. HART (KGMB, Honolulu): Mr. Chairman, in order to get this meeting under way, I second that motion.

ARTHUR B. CHURCH (KMBC, Kansas City): I wish to rise to say that I am opposed to this motion. This is a business session of the NAB and while we are very happy to have guests with us in all of our open meetings, inasmuch as they don't participate in this meeting and would possibly add to the confusion of the meeting, I think it is best we don't admit them, especially at this late hour when we are delayed getting on the air.

WILLIAM V. WAY (KVOO, Tulsa): I want to say that I am in favor of this motion. If you are going to allow the newspaper men to print the story, why don't you let them get it firsthand?

THE CONVENTION: Question!
(The motion was put to vote, and was carried.)

PRESIDENT MYERS: Let's raise hands. All in favor of the motion, raise your right hand. We'll just take a quick survey. Those opposed now raise your hands. There is no question but what the "aye"s have it.

Gentlemen, if we will come to order, there is no reason why we should not proceed with the business before us. The first business is application of three new members who wish to be admitted to the Association. I wish to read these applications:

An application from the Ardmoreite Publishing Co., Ardmore, Oklahoma, Station KVSO, recommended by Harold Hough.

An application from the Enid Radiophone Co., Enid, Oklahoma, Station KCRC, recommended by Harold Hough.

An application from the Salt River Valley Broadcasting Co., Station KOK, Phoenix, Arizona, recommended by Ed Craig.

Will someone move that these applications be accepted?

EUGENE J. ROTH (KONO, San Antonio): I so move.

PRESIDENT MYERS: We have three new members. The meeting will please be in order.

MR. CHURCH: Mr. Chairman, due to the successful completion of the copyright Bureau, and in view of the fact that the greeting is to be retained by the completion of the Copyright Bureau, I would like to withdraw my amendment:

"Effective September 1, 1937, bi-monthly dues of active members shall be payable January 1, March 1, May 1, July 1, September 1, and November 1, on the following basis:"

In other words, I would like to withdraw the amendment to increase the dues of members 50 per cent., inasmuch as this appears unnecessary. (Applause.)

PRESIDENT MYERS: Mr. Church asks to withdraw the amendment presented to this Association sometime ago to increase the dues of the membership, which is what it amounts to. Mr. Church states inasmuch as the financial condition of the Association is in such a good condition at present, the increased dues are not necessary, so he wishes to withdraw his motion.

MARTIN CAMPBELL (WFAA, Dallas): I move that the resolution be withdrawn.

PRESIDENT MYERS: While the business of the Credentials Committee is being transacted, we will read a few announcements.

We have a telegram: "Congratulations to you and all those assembled on the fifteenth convention of the National Association of Broadcasters. Extremely sorry I am unable to attend this year. My very best regards to my many friends assembled. Jack Latham."

(Announcements.)

PRESIDENT MYERS: The next order of business is the election of officers.

We have a petition signed as designated in the By-Laws by at least ten members of the Association, as follows:

"Pursuant to Article 8 of the Constitution of the National Association of Broadcasters, we, the undersigned, do hereby place in nomination for the consideration of the delegates to the annual convention of the Association being held at Hotel Sherman, Chicago, Illinois, June 21-23, 1937, the following:"

For President—Edmund B. Crane, Station KGIR, Butte, Mont.

For First Vice President—John Elmer, Station WCJB, Baltimore, Md.

For Second Vice President—John J. Gillin, Jr., Station WOW, Omaha, Neb.

For Treasurer—Harold V. Hough, Station WBAP, Fort Worth, Tex.

Are there any remarks on this ticket? Are there any other petitions, any other candidates?

Inasmuch as there is no change made in the Board of Directors, in accordance with the report of the Nominating Committee, the ballot will be for the officers only. Are there any remarks? We should have some remarks because we will have to have a ticket made up. The voting will be by ballot only, the delegate of the station filing around this side, passing the Credentials Committee, offering only one ballot at a time. In other words, if you are a delegate for more than one station, you will have to file for each station, as the roll is called, depositing the ballot.

Now, while these ballots are being prepared, are there any remarks on these tickets?

The Managing Director has suggested that, to save time, you present your ballot on the amendments—there are two remaining amendments that have been presented in accordance with the Constitution and By-Laws and it is suggested you present your amendments ballot at the same time you present your officers ballot.
Mr. Hough: I would like to make a motion that we table this amendment to Article III.

Mr. Campell: Secondly.

President Myers: It has been moved and seconded that the amendment to Article III be tabled. This amendment provides that a man owning two or more stations must have individual membership for each station. The amendment was subscribed to the membership in the NAB Reports.

Only delegates that are registered will vote on this amendment. We will vote by raising hands.

(The motion was put to vote by a show of hands. The vote was in doubt.)

President Myers: It is a little close.

Mr. Way: Mr. Chairman, may I have the floor just a second on a point of information?

I didn’t understand it. And, I don’t believe anybody else did. Do I understand that if this amendment carries as introduced, if a man has two stations and joins to represent one station, he must also join for the other station?

President Myers: He must join and pay dues for both stations.

Mr. Way: And if the amendment is killed, he may represent one station but may not vote the other one?

President Myers: He may represent one station and have one vote. My understanding is that this doesn’t kill the amendment but it is laid on the table.

Mr. Way: You are taking away constitutional rights.

Mr. Hough: I am connected with three stations. All three are owned by one man. This amendment, to my mind, at this time is not properly constructed. I just want to put it on the table. It will come up later, possibly at the next meeting.

President Myers: Are there any other remarks before we take the vote on that?

The motion is for the tabling or delay of the resolution demanding that any member belong individually for each of his stations or he can’t belong to the Association. If he controls five stations, he has to pay dues for all five or he can’t belong to the Association. Consider whether you wish to vote for or against that motion. Is it not to withdraw the amendment but to table it for further consideration. We will have a rising vote. All in favor of the withdrawal of the amendment, please rise. Perhaps it won’t be necessary to count. Will you please sit down? Will those opposed, rise? The motion to withdraw the resolution is carried—not to withdraw but to table the resolution for further consideration. We will have a rising vote. All in favor of the withdrawal of the amendment, please rise. Perhaps it won’t be necessary to count. Will you please sit down? Will those opposed, rise? The motion to withdraw the resolution is carried—not to withdraw but to table the resolution for further consideration is carried.

Is there any other business? We are now ready to proceed with the election of officers. It will save a lot of time if we vote “yes” or “no” on the third amendment at the same time we cast our vote for officers. Does anybody know of any reason why we shouldn’t?

Mr. Hubbard: I move we have a rising vote on the amendment in order to save time.

(The motion was not seconded.)

Donny Stalmer (WIBW, Topeka): What is the amendment?

President Myers: Resolved, That Article V shall be changed as follows:

"Add to section (c) the following:

"Except that the out-going President shall automatically become a Director for a term of three years.

"This amendment shall become effective with the retirement of the out-going President at the 1937 Annual Convention."

What shall we do?

Mr. Hubbard: I move we take a rising vote on that amendment.

Mr. Shutz: Seconded.

President Myers: I’d like to speak on this but I can’t. All in favor of making the out-going President automatically a member of the Board of Directors without giving the convention a chance to choose, rise. Be seated. Contrary, rise.

(There was only one contrary vote. President Myers did not announce the result of the vote.)

President Myers: Gentlemen, let’s not have any misunderstanding. This has no connection with the present outgoing administration. Your out-going President has been put on the ballot. I don’t know whether this is in order but I want to say I would not permit my name to go on the Board of Directors without the pleasure of this convention being known. Now, if there is any misapprehension, we want the vote over again. All in favor of automatically placing whatever man is in the presidency of this organization on the Board of Directors without giving any of you a chance to vote or express your choice, rise. Be seated. Contrary, rise.

(There was one contrary vote.)

President Myers: The amendment is carried. You do not have to vote on it by ballot.

Now, I believe the two tickets that are before you. One is the Nominating Committee’s slate consisting of:

For President
John Elmer, WCBM, Baltimore.
For First Vice President
John J. Gillin, Jr., WOW, Omaha.
For Second Vice President
William J. Scripps, WWJ, Detroit.
For Treasurer
Harold V. Hough, WBAP, Fort Worth.

The independent ticket is:

For President
Edmund B. Craney, KGIR, Butte.
For First Vice President
John Elmer, WCBM, Baltimore.
For Second Vice President
John J. Gillin, Jr., WOW, Omaha.
For Treasurer
Harold V. Hough, WBAP, Fort Worth.

Mr. Way: Mr. Chairman, can we have some remarks on this election or is it out of order?

President Myers: It is in order but first I wish to ask this meeting simply to vote for President because the election of the President decides the rest of the ticket.

Mr. Hubbard: The nominee for President on the committee’s ticket is being run for First Vice President on the independent ticket.

President Myers: But the election of the President decides the rest of the ticket. It would be true, I believe, that a vote on these ballots on a ticket would mean simply a vote for the President you desire and that would mean the ticket that goes with that President. Are there any rules of order on that? Is that in accord with parliamentary rule?

Mr. Hubbard: I move that we vote on them as independent slate or regular slate.

(The motion was not seconded.)

President Myers: It has been suggested that there might be individual names on the ballot some would want to vote for. Therefore, we will have to vote on each one separately. We will vote first for President. Then for First Vice President and then for Second Vice President. It won’t be necessary to vote for Treasurer because he is on both tickets. That will mean three trips past the ballot box. Let me have a motion.

Mr. Hart: To get the sentiment of the floor, I move that we vote only for the President and that casting the vote for the President automatically casts the vote for the other nominees.

Mr. Roth: Seconded.

President Myers: It has been moved and seconded that they be voted on as a slate.

Gregory Gentling (KROC, Rochester, Minnesota): Mr. President, I rise to a point of order! I believe that is not according to parliamentary procedure as long as there is an expression from the floor that they would like to make other selections.

In order to expedite matters, I move that we proceed with the election of President. I offer that as a substitute motion.

Mr. Hart: As long as there is opposition, I withdraw my motion.

President Myers: We have a motion to proceed with the election of President. Is there a second?

(The motion was seconded by several.)

President Myers: It has been moved and seconded that the voting proceed first with the ballot for President.

(The motion was put to vote, and was carried.)

President Myers: We will proceed to vote for President. While the ballots are getting here, are there any remarks?

Mr. Allen: At this time may we speak for the nominees?

President Myers: Yes.

Mr. Allen: Mr. Chairman, ladies and gentlemen of the convention, most of you know that as the local station representative, I have been fighting for local station representation on the NAB Board for many years. I am glad to be able to tell you that as a local station representative on the Nominating Committee that our choice for President won the unanimous approval of this committee, all of whom recognize that this year the President should be a local man. And, in John Elmer we have a local man who has all the qualifications for an aggressive President who will intelligently carry
In our industry. I know of no better man than John Elmer of Baltimore as the engineer. John Elmer has been my pattern. I have patterned my station after John Elmer's station and I am proud of it. Therefore, I am seconding his nomination. (Applause.)

W. B. GREENWALD (KWBG, Hutchinson, Kansas): Mr. President and fellow broadcasters, this is my third convention of this Association. However, this is the first time since I have been a member that I take the privilege of appearing on the floor and in order to be granted that privilege at some future time, I am going to make a 100-word announcement.

A locomotive needs steam. A diesel engine needs oil. The National Association of Broadcasters needs both. With plenty of steam and good oil we can travel a long way this coming year but we cannot travel the road ahead if there is a problem ahead of us. And I mean that there is no man in this hall who understands better all the problems of the broadcasting stations than John Elmer. He is an intelligent, efficient, willing, able worker. He had the good sense after twenty-five years of newspaper business to quit it and go into broadcasting, and has had several years of very successful service in the broadcasting industry. Now, unfortunately, I think we have a lot of other important problems, other than copyright and as important as copyright. John Elmer is located very close to Washington where he is available every day if necessary and able to handle all the problems of this industry.

I am happy to second John Elmer's nomination.

GARDNER COWLES, JR. (KSO-KRNT-WMT, Des Moines): Mr. Chairman, may I say just one word for John Elmer? I have known John Elmer a number of times—and that he had tried to be of some service to all of us. And in order to be granted the privilege at some future time, I would like to withdraw my motion. - (The motion was seconded by several.)

President and fellow broadcasters, this is my third convention of the Association, it will simplify the whole election, and at this time I move that we vote a simplified ballot and save time. It means we will sit here for hours electing a President and the Vice Presidents. With the system I am talking about, the consolidated ballot, if we vote with one ballot for any candidate, whether on the independent ticket or the ticket endorsed by the Nominating Committee. However, in view of the action that has been taken by this body, I believe that any remarks subsequent thereto are out of order due to the fact that we have already had a nominating speech on behalf of one candidate for President.

WILLIAM S. HEDGES (WLW, Cincinnati): In order to meet the objections, I move that we reconsider.

MR. HUBBARD: We had a motion a few minutes ago to elect a President first. While we were talking about the manner of election, Mr. Baldwin was upstairs getting the ballots. The only thing with the two slates is that if one slate goes through, it will change the Second Vice President. I'd like to have the motion withdrawn to vote for President and wait a few minutes until Mr. Baldwin brings in the ballots. Those ballots give the name of the nominees and a place to check off, and you can vote for any Vice President you want to. In other words, it is a consolidated ballot and makes one election for the whole business.

I am just a 100-watter, three years old. I am new in the industry. John Elmer has been my pattern. I have patterned my station after John Elmer's station and I am proud of it. Therefore, I am seconding his nomination. (Applause.)

EDWIN M. SPENCE (WBAL, Baltimore): It is a privilege and an honor for me to endorse the candidacy of John Elmer. I happen to be located in Baltimore and come in contact with him in community and social life. He is respected. His integrity is unquestioned as well as his ability.

As Mr. Cowles has said, with the various problems coming up in the next year, with his accessibility, his short distance from national headquarters, I think the Association, in selecting John Elmer, will make no mistake as he will preside with honor to himself and credit to the Association.

MR. CHURCH: I think it is a great credit to John Elmer that one of the best minds in the broadcasting stations in his community, who must know a lot about him, makes the kind of talk you will have heard. I have had the pleasure of working with John Elmer on several committees and on the Board for several years and he is one of the men who is always on the job. I mean he attends every meeting he is supposed to attend and is always there ahead of time and the meeting is never late because he isn't there. That means a lot to me.

Another thing I like about him is although he doesn't talk a great deal at meetings but when he opens his mouth, something comes out that is a real contribution to the problem before us. That means a lot to me.

I have a little talk with John Elmer to ask him whether he would be willing to accept this responsibility and in connection with it I asked him if he could spend the amount of time from his business that this job demands if we have the kind of a job done this year that must be done. He told me that he was willing if the organization really wanted him and that he was happy to be in a position that he could spend the necessary amount of time. He also told me that he had been in Washington conferring with John Elmer and others of our people there during the past two or three years. I don't believe that he said it was more than once a month (I don't remember the exact number of times)—and that he had tried to be of some service in this way and that he would be at the NAB office not only whenever they needed him but be able to spend a goodly portion of his time there this year.

You know that one of the things I have been interested in most during the last two years, besides research, is copyright. You haven't heard John Elmer talk on copyright. I have. I have talked with him alone about it. I think John Elmer has a comprehensive knowledge of the copyright problems and he has the kind of a mind to carry through for this organization in a manner that every one of you will hail as a great accomplishment at the end of his year of office.

I don't know how to tell you how successful he is as a businessman. He certainly wouldn't be able to spend the amount of time he has already spent as a member of the Code Authority and on committee work and on the Board unless he were a successful man. He owns his station—knows how to operate it. He has his station—knows how to operate it. Mr. Baldwin is upstairs getting the ballots. The only thing with the two slates is that if one slate goes through, I think this is the year they get the break and that we have got the man to do the job.

President Myers: Are the ballots ready?

Mr. Chairman, may I say just one word for John Elmer? I am the maker of the motion. While I can easily understand Mr. Hubbard's viewpoint in voting for just one ball, the consolidated ballot, I don't believe he knew that we were going to have a consolidated ballot where we could express ourselves on any candidate, whether on the independent ticket or the ticket endorsed by the Nominating Committee.

However, in view of the action that has been taken by this body, I believe that any remarks subsequent thereto are out of order due to the fact that we have already had a nominating speech on behalf of one candidate for President.

W. B. GREENWALD (KWBG, Hutchinson, Kansas): Mr. President, I have known John Elmer a number of times—and that he had tried to be of some service to all of us. And in order to be granted the privilege at some future time, I would like to withdraw my motion. (The motion was seconded by several.)

President Myers: Are the ballots ready?

W. B. GREENWALD: Mr. Chairman, may I say just one word for John Elmer? I am the maker of the motion. While I can easily understand Mr. Hubbard's viewpoint in voting for just one ball, the consolidated ballot, I don't believe he knew that we were going to have a consolidated ballot where we could express ourselves on any candidate, whether on the independent ticket or the ticket endorsed by the Nominating Committee.

However, in view of the action that has been taken by this body, I believe that any remarks subsequent thereto are out of order due to the fact that we have already had a nominating speech on behalf of one candidate for President.

WILLIAM S. HEDGES: In order to meet the objections, I move that we reconsider.

President Myers: The ballots will be here in just a few minutes and you can vote for any Vice President you want to. In other words, it is a consolidated ballot and makes one election for the whole business.

I am just a 100-watter, three years old. I am new in the industry. John Elmer has been my pattern. I have patterned my station after John Elmer's station and I am proud of it. Therefore, I am seconding his nomination. (Applause.)
PRESIDENT MYERS: On the official ballot which will be here in a few minutes, we will have two candidates for President, First Vice President and Second Vice President, all on this one ballot, and save a great deal of time.

A MEMBER: What about the Treasurer?

PRESIDENT MYERS: Same on both ballots.

MR. HUBBARD: Now, gentlemen, to save time, there being no contest for Treasurer, I move that Harold Hough of Fort Worth be elected Treasurer unanimously.

MR. ROTH: Seconded.

(The motion was put to vote, and was carried.)

MR. WAY: Mr. Chairman, if it is not too late, I’d like to talk on this nomination. I don’t know personally either Mr. Elmer or Mr. Craney. There is nothing I can talk into. Unfortunately, I do know what these gentlemen stand for. I have been traveling a lot in the last year. I know something about this ASCAP situation. I possibly know more about this ASCAP situation than 99 per cent. of the broadcasters because we have gone through federal court and spent a good many thousands of dollars and I have had to learn about it.

I tell you, gentlemen, the biggest mistake is you are fighting this ASCAP question on the floor of the convention with open remarks on the floor. These people have a federal law that protects them and you are not going to be able to change that law now. They have a lobby that is swell.

Now, if I want to buy anything which I have to buy, I don’t go and throw rocks at the man that has it to sell. I don’t want you to think that I am coming here and asking you to join ASCAP. The reason I mention it is neither can you sell them an idea. But, this thing of continually bombingarding ASCAP and the things they have, in the newspapers and in the magazines, and throwing rocks at their house, is not getting anywhere at all. A plan has been recommended at this convention and previous conventions as being workable. Let that thing work its way out and let’s quit fighting this ASCAP thing publicly and clean out and let’s quit fighting this. ASCAP thing publicly and clean out and let’s quit fighting this ASCAP thing publicly and clean out and let’s quit fighting this ASCAP thing publicly and clean out and let’s quit fighting this.

I am in favor of Mr. Elmer’s election.

PRESIDENT MYERS: Gentlemen, it has been called to the Chair’s attention that there is no contest in the election of Directors.

L. B. WILSON (WCKY, Covington); I so move.

ALFRED MCCOSKER (WOR, Newark); Seconded.

PRESIDENT MYERS: It has been moved and seconded that the Directors named be unanimously elected. Is there any discussion?

(No discussion. The motion was put to vote, and was carried.)

PRESIDENT MYERS: The motion is carried and the Directors are elected.

(The ballots were distributed.)

JAMES R. CURTIS (KFRO, Longview, Texas): Mr. Chairman, I want a little information on this ballot. Are we to check the men we want or the men we don’t want?

PRESIDENT MYERS: You always vote “yes” or “X” on the ballot—for the man you want. You put the check opposite the name of the man you want. I am glad you brought that up, sir.

MR. HUBBARD: Now, are you for Craney, vote for the petition candidates and as your station is called, form the line on this side. I, therefore, take advantage of this rule and with the greatest pleasure appoint William S. Hedges to conduct the remainder of this meeting.

MR. Hedges took the chair.

CHAIRMAN HEDGES: The Managing Director will call the roll and as your station is called, please form in line and come up to the table, as directed.

(rolling ballots.)

CHAIRMAN HEDGES: Is there any member of the Association in the room whose station has not been called?

MR. MYERS: Will all the members of the Elections Committee that are present please step forward?

Are any of you gentlemen interested in finishing the session of this meeting? If you are, will you kindly go out in the lobby and round up enough members to give us a quorum so we can consider these resolutions and we will be through for the day.

CHAIRMAN HEDGES: The Chair will now call upon Mr. John Henry, chairman of the Resolutions Committee, for the report of that committee.

JOHN HENRY (KOIL, Omaha): “Resolved, That the National Association of Broadcasters sincerely thanks Hon. Judge Eugene Octave Sykes, Chairman of the Broadcast Division, Federal Communications Commission, for the helpful address delivered by him at the annual convention, and that the membership is confident that his message will aid greatly in enabling broadcasting stations to carry out the responsibilities placed upon them by the Federal Communications Commission.”

I move the adoption of this resolution.

CHAIRMAN HEDGES: EMERITUS? Is there a second?

MR. HUBBARD: Seconded.

CHAIRMAN HEDGES: Is there any discussion?

MR. HART: Is there a quorum here?

MR. HUBBARD: I move we adjourn without a quorum!

(No discussion. The motion was not seconded.)

CHAIRMAN HEDGES: The ballot box is now closed and the Elections Committee will take charge of the ballot box and proceed to count them. Mr. Searle will act as chairman of that committee.

Mr. Hart who raised the question of quorum has withdrawn his challenge of quorum. We can proceed unless somebody else wishes to challenge the quorum. I believe that is hardly necessary in view of the routine nature of so many of these resolutions. If there are resolutions submitted on which there is controversy on which you wish to have a quorum, we can withdraw that convention and present it at tomorrow’s meeting.

Mr. Henry made the motion that the first resolution thanking Judge Sykes for his splendid address, be adopted and it was seconded by Mr. Hubbard. There is no discussion, apparently. Therefore, I put it to vote.

(The motion was put to vote, and was carried.)

CHAIRMAN HEDGES: “Resolved, That the National Association of Broadcasters hereby extends its appreciation to Mr. Glenn Snyder, Mr. H. Leslie Atlas, Mr. Ralph L. Atlas, Mr. H. C. Crowell, Mr. Gene T. Dyer, Mr. W. E. Hutchinson, Mr. Quin A. Fong, Mr. H. L. Killingsworth, Mr. A. A. Thirkel, Mr. William H. Kimmel and Mr. Clinton R. White of the Local Convention Committee for their services in helping to make the thirteenth annual convention of the National Association of Broadcasters a success.”

I move this resolution be adopted.

H. K. CARPENTER (WHK, Cleveland); Seconded.

CHAIRMAN HEDGES: It has been moved and seconded that the resolution just read be adopted. Any discussion?

(No discussion. The motion was put to vote, and was carried.)

MR. HENRY: “Resolved, That the National Association of Broadcasters hereby extends its hearty thanks to the management of the Sherman Hotel, and to Mr. Wm. P. Hennessey, Director of Conventions, Chicago Association of Commerce, for their splendid service in making the fifteenth annual convention of this Association an outstanding success; also to the management of the Sherman Hotel and other hotels for their courtesies in accommodating so many of our guests.”

So, I submit if you are for Craney, vote for the petition candidates and if you are for the Nominating Committee ticket, vote for the Nominating Committee ticket.
I move this resolution be adopted.

Mr. Allen: Seconded.

Chairman Hedges: Is there any discussion?

(The motion was put to vote, and was adopted.)

Mr. Henry: "Resolved, that the official acts of the Managing Director since the fourteenth annual convention be and the same are hereby approved."

I move this resolution be adopted.

(The motion was seconded by several members.)

Chairman Hedges: Any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: "Resolved, That the National Association of Broadcasters thank Mr. Arthur Pryor, Jr., of Batton, Barton, Durstine & Osborn, Inc., of New York City, and Mr. Marvin Oreck of Oreck’s, Inc., Duluth, Minnesota, for their helpful participation in this fifteenth annual convention of the National Association of Broadcasters." I move the adoption of this resolution.

H. P. Danforth (WDBO, Orlando): Seconded.

(The motion was put to vote, and was carried.)

Mr. Henry: "Resolved, That the NAB reiterates its position as favoring the issuance of radio station licenses for a term of at least three years."

I move its adoption.

Mr. Hubbard: Seconded.

Chairman Hedges: It has been moved and seconded to adopt the resolution. Is there any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: "Resolved, That the Board of Directors of the NAB be directed and are instructed to carry on negotiations with copyright owners to the end that a per-piece or measured time charge system be established."

I move the adoption of this resolution.

Mr. Hubbard: Seconded.

Chairman Hedges: It has been moved and seconded that this resolution be adopted. Any discussion?

Mr. Hahn: I wish just to say as an operator of a radio station, I am not in favor of a per-piece basis. I think a resolution as important as this should be brought before the people before delegates of this.

Mr. Hubbard: We have gone on record for this for five years straight.

Chairman Hedges: We will withhold action on this until tomorrow.

Mr. Henry: This resolution will be slightly different from the mimeographed copy: "Resolved, That the National Association of Broadcasters encourage the prosecution of the United States’ suit against the American Society of Composers, Authors and Publishers." I move its adoption.

Mr. Allen: Seconded.

Chairman Hedges: Is there any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: "Resolved, That the National Association of Broadcasters as an organization, use all legitimate means to further the passage of the Duffy Copyright Bill, and urge its membership to encourage their Members of the Congress from their districts, to support this bill." I move the adoption of this.

Chairman Hedges: Is there any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: "Resolved, That the NAB approves of the action taken by the Board of Directors in respect to the organization of the NAB Bureau of Copyrights, Inc., and the transferring of the property and activities of the Bureau of Copyrights to the new-organization and urges the wholehearted support to that organization of all our members." I move its adoption.

Mr. Allen: Seconded.

Chairman Hedges: Is there any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: The next resolution was recommended by your Committee on Radio Promotion.

"Whereas, we believe it is for the best interests of the National Association of Broadcasters, as a trade organization, to promote the broadcasting industry of the United States at all times in the best possible manner; therefore be it

"Resolved, That a Director of the Advertise Bureau of NAB be employed by the National Association of Broadcasters, to work under the supervision and direction of the Managing Director, to advance the art of radio broadcasting in the minds of the people and to portray a true picture of the value of the radio industry, in its present form, to the United States."

Your committee suggests that this be referred to the Board of Directors.

Mr. Butcher: Seconded.

Chairman Hedges: It has been moved and seconded that this resolution be referred to the Board of Directors for further action. Is there any discussion?

(The motion was put to vote, and was adopted.)

Mr. Henry: Another resolution presented by the Committee on Radio Promotion:

"Resolved, That the Board of Directors of the National Association of Broadcasters at their next regularly convened meeting shall designate one week of each year as ‘National Radio Week,’ and that said National Radio Week shall be promoted through the National Association of Broadcasters as the one week in each year with all radio stations throughout the whole country in their efforts to make the public radio conscious and furthermore to make said public realize the benefits which radio brings to them each day of the year."

I move the adoption of the resolution.

Mr. Myers: Seconded.

Chairman Hedges: Is there any discussion?

Mr. Hough: I am opposed to it. It sounds too much like Prune Week. I think it is entirely out of place. It is too much like Orange Week and Grapefruit Week. It smacks of commercialism.

(The motion was put to vote, and was lost.)

Mr. Henry: "Whereas, there has been introduced into the Congress of the United States a bill known as the Celler Bill, which would authorize the construction, maintenance, and operations of a government owned broadcasting station; therefore be it

"Whereas, the existing system of broadcasting in the United States makes available to the various departments of the government ample time for broadcasting either domestic or foreign programs; therefore be it

"Resolved, That the National Association of Broadcasters express its opposition to the passage of this bill, and instruct its Board of Directors to use all legitimate means to cause its defeat, and urge the members of the National Association of Broadcasters to encourage their Members in Congress to oppose the passage of this bill."

I move the adoption of this resolution.

Mr. Myers: Seconded.

Chairman Hedges: It has been moved and seconded that this resolution be adopted. Is there any discussion?

(The motion was put to vote, and was carried.)

Mr. Henry: "Be It Resolved, by the Executive Board of the National Association of Broadcasters, that we express interest in the purpose of the American Foundation for the Blind to commemorate the fiftieth anniversary of the first meeting of Helen Keller and her teacher, the late Mrs. Anne Sullivan Macy, on March 3, 1887, and that we endorse the nation-wide celebration to be conducted during the remainder of this year and the first part of 1938, as a tribute to these two great Americans."

We recommend that this be referred to the Board of Directors for suitable action, and I do so move.

Mr. Carpenter: Seconded.

(The motion was put to vote, and was adopted.)

Mr. Henry: "Whereas, considerable progress has been made during the last few years by the radio engineering profession, and a great deal of data has been obtained concerning the laws governing radio propagation, interference, receiver selectivity, and the operating characteristics and efficiency of radiators, and

"Whereas, the Federal Communications Commission through its engineering department has demonstrated its progressiveness and aided the broadcast industry greatly by its actions in holding hearings, and otherwise, in accumulating advanced engineering information and correlating the same."

"Whereas, the 'Preliminary Engineering Report on Allocations' made public by the Commission’s Broadcast Division on January
Resolved, by the National Association of Broadcasters: That the Federal Communications Commission be requested to use caution in granting applications or in making changes in allocations in the frequency band 1510-1600 kilocycles, or in other new bands that may be used for broadcasting, in order to prevent action which would interfere with a satisfactory solution of the problem of North American allocation pending the Pan American Conference called for November, 1937.

Your committee has no recommendations on this resolution.

CHAIRMAN HEDGES: No recommendations offered by the committee. A motion is in order to approve, to table or refer to the Board of Directors, or disapprove. What is your pleasure?

MR. ALLEN: I move that it be tabled.

MR. HUBBARD: Seconded.

CHAIRMAN HEDGES: Is there any discussion on it?

MR. CARPENTER: I'd like to offer a substitute to refer it to the Board of Directors.

(The motion was not seconded.)

MR. HUBBARD: I don't think it is up to us to tell the Commission what to do. I move we stay out of it.

J. H. DE WITT JR. (WSM, Nashville): The reason that resolution was introduced was not that we would presume to suggest what the General Conference should do or not do. The object of the resolution is simply to give the Commission ammunition to use against certain interests which might try to allocate these frequencies before the Pan American Conference.

CHAIRMAN HEDGES: It has been moved and seconded that the resolution be referred to the Board of Directors. Is there any discussion?

(The motion was put to vote, and was carried.)

MR. HENRY: Whereas, the By-Laws of the National Association of Broadcasters provide that the convention city of the organization may be selected by the membership, and that the Board of Directors make such selection only if the membership does not select the convention city; now therefore be it

Resolved, That the National Association of Broadcasters hold its next annual meeting at Chicago, at a date to be selected by the Board of Directors of the National Association of Broadcasters.

This is just to get it before the convention. I move the adoption of this resolution.

MR. CARPENTER: Seconded for the same purpose.

MR. HUBBARD: I think we should defeat the motion. I don't think we should take action on a motion of that type when so few are present.

MR. HENRY: I would like to withdraw the motion and have it voted on tomorrow.

CHAIRMAN HEDGES: The chairman of the Resolutions Committee withdraws his motion. This resolution will be presented tomorrow.

There is one other resolution which was distributed to all members as they came into the convention hall yesterday. That is the resolution offered by Mr. Hart of Honolulu calling for the reorganization of NAB. This is a motion which should come to the attention of the full body of delegates at this convention and, therefore, we will withhold presentation of that resolution until tomorrow's meeting.

That completes the reading of the resolutions. Is there any report from the Elections Committee? I call on Don Searle, acting chairman of the Elections Committee, to present the report.

MR. SEARLE: There were 199 total votes and by your vote, you have elected for President John Elmer with 147 votes to Ed Craney's 52.

First Vice President—John Gillin, 148, to John Elmer's 42.

Second Vice President—William Scripps, 152 to John Gillin's 35.

The Elections Committee was composed of Dale Robertson, Bill Way and myself.

MR. CRANEY: Mr. Chairman, I would like to be the first to congratulate John Elmer on winning the election and I would like to move that the convention make the record unanimous for Mr. Elmer.

MR. BUTCHER: Seconded.

(The motion was put to vote, and was carried.)
improved engineering practice. Much groundwork had to be

CHAIRMAN HEDGES: Is Mr. Elmer here? (Mr. Elmer was not present at the time.)

YEARLY REPORT

JUNE 22, 1937 (Tuesday Afternoon)

Report of the Engineering Committee

During the past several years the Engineering Committee has devoted much time to the study of transmission fidelity and each yearly report has stressed the advantages to be had by following good engineering practice. Much groundwork had to be done in 1934 in order to discover the proper path to follow and recommend to the Association. Joint meetings were held with the IRE and RMA committees and out of these there was developed a rather clear picture of the recommendations to be made. Conferences were held on the proposed high fidelity standards of the FCC and numerous critical comments were formulated and may be found in the committee report for 1935. Last year's report was unusual in that it did not deal directly with technical problems but pointed out the advantages to be gained by simple engineering improvements.

At the risk of being accused of pursuing a single path, we will remind you that there is still much room for improvement in transmission fidelity and coverage. Some very progressive stations are delivering a signal that in general conforms to really high standards and these stations are reaping their reward in listener interest and wide coverage. A good number of stations have improved their equipment during the past few years and are giving a much better service thereby. A large number of stations are still in somewhat of a primitive stage in engineering matters, their improvements being largely a matter of just complying with FCC requirements.

At the last meeting we mentioned the fact that antennas may vary widely in efficiency and that installation of a modern antenna might easily more than double the station's effective power. We again urge you to give this point due consideration. The mechanical design of antennas has been so improved during the last few years that it is now possible to purchase a good antenna at a very reasonable price, which makes it a good investment, for the coverage gained.

The fundamental transmission requirements of low distortion and noise level and good frequency characteristics should receive more serious consideration in most stations. The need of this is revealed and stressed by modern receivers which cover a much wider frequency band than formerly. This has been pointed out many times before and we have tried to show that money spent in this direction is usually a good investment. It is not enough, however, to purchase equipment capable of high fidelity performance. It is also your station with the proper testing apparatus before you can expect your engineer to keep the equipment at its peak of performance. Good testing apparatus will also indicate the least expensive improvements that can be made in old apparatus to make it conform to modern standards.

The finest possible equipment cannot make up large amounts of distortion and adjacent channel interference when overmodulated and, unfortunately, many stations are guilty of this error. The advantages of full modulation are well recognized. The apparent increase in power with increased modulation has led many stations...
CHAIRMAN CARPENTER: As is customary in these meetings and to sort of sneak up on your blind side and not expect you to think too deeply too early in the morning, we will have some of these announcements you have been wondering about anyway.

Announcements

CHAIRMAN CARPENTER: Are there any other announcements which should be made at this time? All right, we shall go ahead immediately with our program for this morning.

For the benefit of some of those who have been members of the NAB for but two or three years, it might be well for me to summarize in just a moment or two the history back of the Commercial Section. Those of you who know it, please hear with me and correct me if I should make any mistakes. I feel it is somewhat necessary for you to know something of the history of the development of this Section in order that you may understand some of the things we do and some of the things we do not do.

I had the honor of being appointed on the first Commercial Committee, I believe, and according to my recollection, which is somewhat hazy at most times but particularly so this morning, I was appointed by Bill Hedges in Washington back in 1928.

The members of that first Commercial Committee included some of the men who are here today, some of the men who are on the program and some of the men who, although not on the program, are sure to speak. You just can't keep them still! Bill Hedges, Paul Morency. At the beginning, of course, Paul was employed by the NAB and later went to Hartford. Joe Maland, Martin Campbell. And, believe Gene O'Brien will us in those days. But, there were only eight or ten men who met regularly in New York City and later in Washington.

The questions we discussed—some we are still discussing and some we will be discussing ten years from now, maybe. I remember one of the earlier discussions was this, that it was not, necessarily, but on the size of the card, the general form and the shape of it—the shape so that it would fit into the files of the advertising agencies.

We discussed at that time discount time, quantity and cash discounts—and considerable time was consumed in defining definitions for some of those terms with which we were completely unfamiliar. And, incidentally, it might be well for us to revert to a study of some of the definitions used in broadcast advertising.

We discussed an order form which resulted eventually in this standard A. A. A. order form. We went into quite lengthy discussions, day after day, several days, on the provisions which should go on the back of that standard order form.

We discussed representative plans and compensation of representatives. We discussed maintenance of rates—and I don't believe, by the way, that we have a resolution this year that every station should maintain its card rates! (Laughter.) That's natural into several groups and the number became so large that it was rather unwieldy to handle in one committee so after the convention last year, the Commercial Committee was formed. And, eventually we evolved a Code of Ethics which is still being discussed, the question of local and national rates, or retail and general rates, as the definitions were established. And, eventually we evolved a Code of Ethics which I presume most of you have framed and hung in your office—or certainly in the washroom next to your office. (Laughter.)

The Commercial Committee worked along that way until the number of questions which we were discussing seemed to fall naturally into several groups and the number became so large that it was rather unwieldy to handle in one committee so after the convention last year, the Commercial Committee was formed more completely than it had been the previous year in what we called the Commercial Section, card rates. It was open to any interest, necessarily, but on the size of the card, the general form and the shape of it—the shape so that it would fit into the files of the advertising agencies.

tion. Through personal force, he organized and supervised sectional meetings and personally staged and conducted the First Annual Convention of the Sales Managers Division. He accomplished tasks that would have seemed impossible to a hundred other men. With the Sales Managers Division a reality, Mr. Lottridge proceeded to appoint an Executive Committee consisting of:

John New, W TAR, Norfolk, Virginia
J. Leslie Fox, KMBC, Kansas City, Missouri
Hale Bondurant, WHO, Des Moines, Iowa
Hugh Feltis, KOMO-KJQ, Seattle, Washington
Edward Allen, WLVA, Lynchburg, Virginia
Lew Avery, WGR, Buffalo, New York

He then appointed an Advisory Committee consisting of:

Clark Luther, WOC, Davenport, Iowa
C. E. Harmon, WMAQ, Minneapolis, Minnesota
Walter J. Rothschild, WTAD, Quincy, Illinois
Mort C. Watters, WCHS-WPAP, Charleston, W. Va.
Jack O. Gross, KW KH, Shreveport, La.
Humboldt J. Greig, KFBK, Sacramento, Cal.
R. W. Cline, WLS, Chicago, Illinois

Mr. Lottridge finally appointed the following Section Chairmen to organize and promote sectional meetings:

Mallory Chamberlin, WMCM-WNBR, Memphis, Tenn.
Craig Lawrence, KSO, Des Moines, Iowa
D. H. Vincent, KSL, Salt Lake City, Utah
E. Y. Flanigan, WSPD, Toledo, Ohio
Jack O. Gross, KW KH, Shreveport, La.
Hugh M. Feltis, KOMO-KJQ, Seattle, Washington

Soon after these appointments had been made and the summer vacation period past, a meeting of the two committees and the section chairmen was held here at Hotel Sherman on October 15, 1936. In a business-packed one-day session, the organization of the sectional meetings was perfected and the outline of the First Annual Convention drawn up. There was real enthusiasm for the new fields ahead on the part of all who attended. To develop the commercial side of broadcasting on a constructive basis. To renew the interest in broadcasting to the end that it will serve public interest, convenience and necessity. To promote the letter and spirit of the Communications Act of 1934. To assist in the commercial development of broadcast advertising to the end that it will serve public interest, convenience and necessity. This may sound like a paradox. It isn't.

A broadcasting station is better known by the commercial advertising it carries than by the number of times its license has been renewed. Second, to serve the best interests of the management and the public. Third, to serve the best interests of the management and the public. Fourth, to serve the best interests of the management and the public.

From the earliest committee meetings, it became apparent that new fields ahead on the part of all who attended. To develop the commercial side of broadcasting on a constructive basis. To build confidence in broadcast advertising through clean, consistent, and reliable news. To keep selling costs at a reasonable figure. Third, to serve clients and advertising agencies to the end that there shall be an interest in the development of broadcasting and in the personnel who sell, prepare, produce and present advertising messages in this most effective of media.

This triple responsibility has been the goal from the beginning to the exclusion of material at the various sectional meetings, and at the First National Convention. It has been the measuring stick for the effectiveness of these meetings.

From the first, Mr. Lottridge felt that a full, free and frank discussion of our mutual problems would be best served by closed meetings. The rest of us readily fell in line with this suggestion. With a single, unfortunate exception, this policy has been rigidly adhered to.

A heated discussion of compensation for local salesmen disclosed that commissions ranging from 12 1/2% to 25% were paid local salesmen, with the vast majority paying from 15% to 25%. Opinion on dual versus single rate was about evenly divided. So, too, was opinion on merchandising.

The Northeastern Sectional meeting was held on Tuesday, November 10, 1936. This meeting took place at the Park Central Hotel in New York City, and was presided over by E. Y. Flanigan of WSPD, Toledo, Ohio. The meeting opened with a discussion of national non-network sales problems. A brief discussion brought out the fact that a station should equip its national representatives with even more facts, figures and fancies than it does the local salesmen.

Exposition of the important role played by sales managers in the field of merchandising. The manager of a very successful station emphasized the importance of merchandising in the maintenance of a single rate, pointing out that his merchandising costs ran only 22% of the total cost of the station. After an extended discussion of merchandising, it appeared to be the consensus of opinion that stations should do a certain amount of merchandising, but that should be paid for anything which actually costs the station money. That's the way these sales managers work.

In this brief review of the various sectional meetings, I shall omit reference to topics that were more fully and completely discussed at the First Annual Convention.

The South Central Section meeting opened with a discussion of merchandising. The manager of a very successful station emphasized the importance of merchandising in the maintenance of a single rate, pointing out that his merchandising costs ran only 22% of the total cost of the station. After an extended discussion of merchandising, it appeared to be the consensus of opinion that stations should do a certain amount of merchandising, but that should be paid for anything which actually costs the station money. That's the way these sales managers work.

He then appointed an Advisory Committee consisting of:

Mr. Craig Lawrence of the Iowa Broadcasting System presided at the meeting of the North Central Section here in Hotel Sherman on Tuesday, November 10, 1936. Considerable time was devoted to a discussion of the commission plan for local salesmen. Various speakers brought out thought-provoking points in connection with these problems. Here it was generally agreed that the commission plan of compensation provides the greatest business stimulation and the most economical sales operation. A show of hands revealed that 25% to 25% was paid to local salesmen, with the vast majority paying from 15% to 25%.

Opinion on dual versus single rate was about evenly divided. So, too, was opinion on merchandising. This meeting went on record as unanimously favoring an effort to standardize frequency or quantity discounts. Mr. James Andrews, Advertising Manager of McEwen-Halliburton Company, one of Oklahoma City's largest department stores, discussed the use of broadcast advertising by retail accounts from the standpoint of a large buyer of radio time. This subject will be more fully discussed at the meeting of the Second Annual Convention.

The Pacific Section meeting was held at the St. Francis Hotel in San Francisco on Friday, November 20, 1936. Hugh M. Feltis of KOMO and KJQ, Seattle, Washington, presided. On the subject of granting frequency or quantity discounts from the beginning of the contract or retroactively as earned, opinion was so divided that it was felt to be a matter for individual station decision. It was the consensus, however, that an advertiser was entitled to whatever frequency or quantity discount was earned through the combination of service for several products, even though those products were advertising through different advertising agencies.

Here, too, the subject of dual versus single rate was felt to be a local problem to be settled by the management of each station. It was generally felt that radio stations should guard against getting too deeply into merchandising, and should not reach the point where merchandising service is top-heavy. Agency recognition was thoroughly discussed at this meeting. Mr. L. W. McDowell, Secretary of the Southern California Asso-
ciation of Broadcasters, explained in detail the method developed to handle this problem in Southern California. It was generally felt that this problem deserves considerable study and action on the part of sales managers groups throughout the country. On the question of standardized frequency or quantity discounts it was agreed that there is a need for standardization, particularly on the part of sales managers present at this meeting.

We will continue our discussion by going on to look at some of the specific topics that were discussed at this meeting.

Chair to appoint a committee to investigate the standardization of units of sale and frequency or quantity discounts. The committee appointed consisted of J. Buryi Lottridge, W.R. DeMoss, Chairman, William R. Cline, WLS, Chicago; Mallory Chamberlin, WMC and WNBR, Memphis, Tennessee; and Jack Gross, KWKH, Shreveport, Louisiana.

The Tuesday morning session was opened by NAB Managing Director James W. Baldwin, who briefly reviewed developments in broadcasting since the last convention. Mr. Baldwin then introduced Walter Schwimmer of Schwimmer & Scott of Chicago. Mr. Schwimmer discussed “Servicing the Radio Advertiser and the Station.” By his own admission, his talk was devoted almost exclusively to the A-B-Cs of broadcast advertising. And the sales managers agreed that the fundamentals that he covered are the most important fundamentals of commercial broadcasting. One statement from his talk is the sort of thing we all like to hear. He quoted: “Advertisers have told us innumerable times that radio, for a given period, has out-pulled any other form of advertising, and these statements were based on actual comparative tests.” Mr. Schwimmer was subjected to a severe cross-examination that brought out many other valuable facts. Preserving the high pitch of interest in retail broadcast advertising, Mr. Lottridge then presented Edward Warner of the Ferry-Holeman Syndicate, and Mr. Warner was followed by Mr. Schwimmer.

discussion of contingent business and other trick offers we get from some buyers’ was led by William R. Cline of WLS, Chicago.

Mr. Cline read several recent letters received by various stations proposing cost-per-inquiry and contingent contracts. This type of business was unanimously condemned in no uncertain terms by the sales managers present. This led to a discussion of direct selling—where the listener sends money to the radio station for merchandise not otherwise available. A majority of the sales managers present condemned this practice as not in the best interest of the listener or the station. As it applies to local retail business and national non-network advertising. He also emphasized the importance of local sales booking.

The discussion of “showmanship in local sales” was conducted by Mort C. Watters of Sales Management, Inc., who drew on an experience rich in the good points and the bad points of station advertising, its merchandising. He also emphasized the importance of local sales booking.

The meeting adjourned promptly on Tuesday afternoon for the all-engrossing panel discussion of local sales methods and services, conducted by Mort C. Watters of WCHS, Charleston, West Virginia. Rather than review the various talks that comprised this panel discussion, I am going to list the subjects:

1. “Changing accounts from a smaller to a larger program plan.”
2. “Using the telephone for local sales.”
3. “What about street cars?”
4. “Appealing to a department store by playing up a tradition.”
5. “Keeping a 100-watteller sold out.”
6. “Showmanship in local sales.”

The subjects of these talks clearly indicate the ingenuity that sells local broadcast advertising today. While the NAB REPORTS show a local broadcast advertising rising in dollar volume, nevertheless, we sales managers feel that we have only scratched this major field. That is why Mr. Lottridge set aside the entire second day of the First Annual Convention for a discussion of this source of business. Local broadcast advertising has been discussed, is being debated and will be promoted whenever sales managers meet. Until we have doubled, tripled and quadrupled the percentage of the retailer’s advertising dollar that goes into broadcast advertising, we cannot feel that we have really carved a place for our medium in this field.

Let me review the four meetings at the beginning of the meeting. Following the opening address of Prexy Charles W. Myers of Radio Station, Inc., he explained “how the radio station sales manager can help his station.” By his own admission, his talk was devoted almost entirely to a detailed analysis of one case history in question-and-answer form. His minute cross-examination that brought out many other valuable facts. Preserving the high pitch of interest in retail broadcast advertising, Mr. Lottridge then presented Edward Warner of the Ferry-Holeman Syndicate, and Mr. Warner was followed by Mr. Schwimmer.

The Monday afternoon session was opened by H. K. Carpenter, Chairman of the Commercial Section, of which the Sales Managers Division is a part. Then came a real knock-down and drag-out battle over national sales problems. “One rate for all buyers,” said one speaker. “Dual rates are a necessity under certain conditions,” declared another. And the fight was on. When the battle died down, J. Leslie Fox, of KMBC, Kansas City, who was in charge of the afternoon session, called for a show of hands on this subject and the count was exactly even. But, it would have warmed the heart of even a Methodist evangelist to hear the voluntary testimony from the floor on the part of three or four sales managers who proclaimed their conversion to the single rate idea at previous sectional meetings. This subject deserves discussion wherever sales managers meet. A majority of the sales managers present agreed that the single rate is an ideal plan towards which we should all strive—"an ideal that we believe can be very nearly achieved in time."

Kenneth Church of KMOX, St. Louis, led an exceedingly searching discussion of national sales problems. To quote from his talk: "Half the problem is getting it; the other half is holding it."

Mr. Lottridge set aside the entire second day of the First Annual Convention for a discussion of this source of business. Local broadcast advertising has been discussed, is being debated and will be promoted whenever sales managers meet. Until we have doubled, tripled and quadrupled the percentage of the retailer’s advertising dollar that goes into broadcast advertising, we cannot feel that we have really carved a place for our medium in this field.
Hale Bondurant of WHO, Des Moines, Iowa, as chairman of the committee, then presented the recommendations for standardization of units of sale and frequency or quantity discounts. After an extended discussion, the following recommendations were adopted and referred to Chairman H. K. Carpenter of the Commercial Section:

Recommendation No. 1: “The Sales Managers Division of the Commercial Section of NAB registered its approval of the purpose of the recommendation presented by NAB in Convention at Cleveland in 1934, which proposed a standardized scale of units of time for sale and quantity discounts.

“Since that time considerable progress has been made by the broadcasting industry and there is now a definite attitude on the part of the broadcasters, as well as an expressed desire by many broadcasting industry and there is now a definite attitude on the part of the broadcasters, as well as an expressed desire by many advertising agencies, to standardize even more definitely the matter of units for sale and quantity discounts.

“Therefore, the Sales Managers Division in meeting in Chicago, January 18 and 19, 1937, respectfully submits to the Commercial Section of NAB for consideration the following units of time for sale and quantity discounts:

<table>
<thead>
<tr>
<th>Units of time for sale</th>
<th>Quantity discounts</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 hr.</td>
<td>13 times—5%</td>
</tr>
<tr>
<td>1/2 hr.</td>
<td>26 times—10%</td>
</tr>
<tr>
<td>1/4 hr.</td>
<td>52 times—15%</td>
</tr>
<tr>
<td>5 min.</td>
<td>100 times—20%</td>
</tr>
<tr>
<td></td>
<td>300 times—25%</td>
</tr>
</tbody>
</table>

“Regarding announcements, we believe that further consideration should be given toward standardization.

“We further believe that all rate cards should be printed to show the actual rate or cost after application of the above quantity discounts.”

Recommendation No. 2: “The Sales Managers Division in meeting in Chicago, January 18 and 91, 1937, respectfully directs to the attention of the Commercial Section of the NAB that considerable confusion exists in the broadcasting industry with respect to whether announcements or spots should be combined with program units of time of five minutes or longer in the matter of figuring discounts.

“It is our recommendation that announcements or spots of less than five minutes’ duration should not be combined with units of time of five minutes or longer in the matter of figuring discounts.

“We propose that announcements or spots of less than five minutes’ duration should be combined in figuring discounts and that units of time of five minutes or longer should be combined in figuring discounts.

“Every sales manager is conversant with creative selling. He may not be able to define the term but he is practicing the principles if he is selling commercial programs. He knows that creative selling, like patriotism, has had many a crime committed in its name. While he is the first to admit that the present system of national representation is not 100% effective, nevertheless he believes that it is the best method so far developed. He, therefore, condemns the grant of 15%, 7 1/2% or any commission at all to any organization other than the representative with which the station has an agreement. He believes that this practice will work the destruction of sound business principles in our industry. This is no 5-to-4 decision. It is the unanimous verdict of the eighty-two sales managers assembled at the First Annual Convention of the Sales Managers Division.

“During the past two days the Sales Managers Division has held two business meetings. Many of you have attended these meetings so that no review now seems necessary. However, at the Tuesday afternoon session of this Division, considerable discussion developed about the practice of some transcription, program and announcement production companies calling on communities without first contacting the radio station or stations in those communities. In many instances this practice has very definitely proved detrimental to our medium and our clients. Often these services have been sold at exorbitant prices, which, when the cost of station time was added, made the total cost of the advertising so high that it could never pay out. We urge all stations to watch and guard against this situation. In the same breath we commend those transcription, program and announcement production companies which first check with the radio station or stations in the communities in which they hope to sell their services. The group also unanimously commended J. Buryl Lottridge for his untiring and constructive efforts in the creation and building of the Sales Managers Division and voted Mr. Lottridge an award of permanent appreciation.

“We believe, in closing, that our enthusiasm, both individual and collective, for these meetings of groups of sales managers, coupled with the objectives and attainments so far recorded merits a continuation of the Sales Managers Division of the Commercial Section. Thank you.

CHAIRMAN CARPENTER: Thank you, Avery, and all the men who worked with you.

Where are Bill Clark and Les Fox? I have some work for them up here. Will you pass out these blue sheets? Now, while they are away, I will tell you the report of the Committee on National Sales Methods and Costs, by Carl Everson of WHKC, Columbus, Ohio.

CARL EVERSON (WHKC, Columbus): Mr. Chairman, ladies and gentlemen, it was the duty of the National Sales Methods and Costs Committee to determine the best methods to be used in securing national spot business, also to study the cost of same.

“I wish to state here, before going into the body of the report, that in the opinion of the committee members further study of these subjects should be made before definite recommendations are sent to the Board. This is not to say that these recommendations will be brought into the picture at quite a late date—this through no fault of the General Chairman, I assure you. Therefore, the following members recommend a further study:

Dale Robertson, Father Wagner, Tim Goodman, William Gillespie, Dick Mason and J. H. Ryan. We do feel, however, that enough was accomplished to justify the time given us on this program to acquaint you with what has been done.

The title, "National Sales Methods and Costs," suggested the following subjects which will be taken up in the order named:

1. National Representatives and Branch Offices.
2. Organizing Local Media Groups.
5. Bulk Sales.

Going back to number one, "National Representatives and Branch Offices," we feel that national representation, either through an established firm or branch offices, is essential for the successful selling of any station which serves a market of sufficient proportions to justify the interest of national advertisers. In the case of high-powered stations, strategically located in major markets, the idea of establishing independent branch offices might be entirely practical and perhaps more profitable than dependence upon an established representative firm; however, in the case of regional stations in particular and stations in general, which do not enjoy sufficient national spot billing to justify the maintenance of independent branch offices, national representatives are, in our opinion, the answer to sales problems in this field. The percentage charged for securing national business by a representative should be based on the popularity enjoyed in the national field by the station or stations involved. In no case should it exceed 15% of the net after the deduction of all expenses, and this percentage should be as low as possible under equitable conditions.

"Organization of Local Media Groups"—this, we believe, would go a long way in any city or market toward stabilizing and promoting the business of advertising. The idea of a media recognition bureau has been before NAB conventions for the past few years and has been at one time or another discussed. What has been accomplished? However, a year or so ago in Cleveland there was organized a media group. This local media group has worked out so successfully and has brought about such a perfect understanding between all media that we believe a recognition bureau patterned after the Cleveland group would be very desirable. To go into detail regarding this group would take more time than allotted here. However, so that you may become familiar with its workings, copies of the rules and regulations are available and are being passed out at the present time. Be sure to get a copy; read it carefully.

"Recognition of Obscure National Agencies"—recognition of obscure national agencies and a centralized agency recognition bureau are so closely related to a media recognition bureau that in our opinion, an NAB media recognition bureau would solve the whole problem. We are all aware that the need of a national agency recognition bureau has been felt for several years. You all know of the discussions on this question which have taken place at each convention for the last two or three years—and hardly anything has been done in the matter. Probably the reason for this failure is that we have attempted to start at the wrong end of the problem, trying to build entire national organization before various localities were ready for it. Since a number of cities have already formed local media groups modeled on the Cleveland plan, it is the recommendation of your committeemen that this expansion continue and be encouraged. Undoubtedly, in a short time a national clearing house may be established for each of these local media
groups and our national problem will be solved in this manner. When such a bureau is organized, it should, to derive full benefits of its operations, be unanimously supported.

"Bulk Sales"—there is very little confusion in the industry regarding the meaning of bulk sales. The interpretation of this term, as we understand it, is the selling of time to an individual or firm who in turn resells it to other individuals or firms. One can readily see the danger in this procedure. There are many pitfalls in subscribing to this type of business and probably the greatest is that the station in contracting for bulk sales ceases to have control over the periods contracted for. In many cases it has resulted in price cutting, price raising, the disrupting of the regular sales staff, the over-burdening of commercial announcements and general dissatisfaction among the business men of the city or towns involved. We strongly recommend that bulk sales, as we understand the term, be abolished.

"Per Inquiry and Contingent Business"—it is quite difficult to understand why any station should accept business on this basis. Acceptance of this type of account or accounts is decidedly foolish and definitely detrimental to the industry as a whole. Card rates should be strictly maintained. We strongly recommend that all members of the National Association of Broadcasters be guided by rule number six in the NAB Code of Ethics, which reads as follows: "Each member station shall refuse to accept any business on a cost-per-inquiry, contingent or percentage basis, or to accord free time for commercial use."

Thank you.

CHAIRMAN CARPENTER: I want to acknowledge to Mr. Eversen my debt of gratitude for his taking this work over only in the last few months and also to Mr. Roy Witmer of the Cleveland plan, the leading light in that activity was John Patt of WGAR and he deserves all kinds of credit for helping to develop that plan.

In building our program for today, we wanted a man from an advertising agency and we want him to pull his punches and let us go on to tell you something about this man but I'll let you draw your own conclusions when you hear him. I'd like to make a double presentation, if I may. First, may I present Mr. Arthur Pryor, Jr., of Batton, Barton, Durstine & Osborn, Inc., who is going to talk on "An Agency Man Looks at Broadcasting" and, Mr. Pryor, may I present my friends of the Cleveland plan, the leading light in that activity was John Patt of WGAR and he deserves all kinds of credit for helping to develop that plan.

MR. CARPENTER: I want to acknowledge to Mr. Eversen my debt of gratitude for his taking this work over only in the last few months and also to Mr. Roy Witmer of the Cleveland plan, the leading light in that activity was John Patt of WGAR and he deserves all kinds of credit for helping to develop that plan.

The National Association of Broadcasters at its 1936 convention passed the following resolution:

"RESOLVED, That the Committee on Radio Research for the year 1936-37 consist of seven members appointed by the President, the one he actually gave and the one he wished he had prepared, the one he actually gave and the one he wished he had prepared. So, Arthur, you have given two of yours and if you have
something you wish you had given, you will have your opportu-
nity this afternoon. Thank you very much for that report and
the excellent work done by the committee this past year.
We have two more reports and the resolutions, and then the
meeting will adjourn.

Report of the Committee on Radio Promotion by John J. Gillin,
Jr., Station WOW, Woodmen of the World Life Insurance Associa-
tion, Omaha, Nebraska, U. S. A. O.K., John.

JOHN J. GILLIN, JR. (WOW, Omaha): If you will pardon me, I
left the fight and I lost my voice.

CHAIRMAN CARPENTER: Is that all? (Laughter)

MR. GILLIN: So I am pretty hoarse this morning. "Mr.
Chairman, ladies and gentlemen, in making my report as chairman of
the Committee on Radio Promotion of the National Association of
Broadcasters, I want to call your attention to the members of
this committee:

Harrison Hollway, of Earle C. Anthony, Inc., KFI and
KECA, Los Angeles.
John Fetzer, of WKZO, Kalamazoo, Michigan.
Donald Wirthcomb, of WFIL, Philadelphia.
Don Searle, of WIBW, Topeka, Kansas.
Emory Bell, of WXYC, Oklahoma City.
Gardner Cowles, Jr., of the Iowa Network—WMT, Water-
loo and Cedar Rapids, and KSO and KRNT, Des Moines,
Iowa.

"The subjects which were discussed by the division on radio
promotion for 1937 were:

1. The relative value to the advertiser of rated power as against
actual coverage—and methods of arriving at sound conclu-
sions.
2. Radio Award of Merit.

"On the first subject, namely, the relative value to the advertiser
of rated power as against actual coverage and methods of arriving
at sound conclusions, naturally, there was a definite line of discern-
ment drawn as to the opinions of the committee.

One faction of the committee summed up their side of the case
as follows:

"There is no general formula for the computation of station
coverage, and the methods of arriving at sound conclusions.
In no case do we know of any other method of calculation so far as actual coverage is concerned.

There are other points which an advertiser should con-
sider, such as method of station operation, program quality,
general listener interest and ability of the station to properly
serve its clients, and we do know that our big job now is to
concentrate on educating the agencies and the clients, through
intelligent promotion, to understand the advisability of con-
sidering stations because of actual coverage instead of the
much ballyhooed high-powered stations on less desirable fre-
quencies."

"Another portion of our committee summed up their estimation
of the first subject in the following manner:

"We are extremely anxious to see a thorough discussion of
the relative value to the advertiser of rated power as against
actual coverage. We believe it would be highly desirable to
have some competent person be prepared to discuss all the
chief methods of measuring actual coverage. The merits and
weaknesses of each method should be brought into the
open at the next convention and some conclusion reached,
or at least approval made, of two or three of the best
methods in measuring actual coverage. We believe that
nothing would help radio more in the long run than if adver-
tsizers could be educated in all the factors bearing on actual
radio coverage."

Another portion of the committee expressed themselves in the
following manner:

"There seems to be no general formula for the computation
of primary, secondary and occasional coverage areas. If the
NBC formula and the formula of one of the national repre-
sentatives, for instance, are applied to a station's mail count,
The result is two different pictures. There is considerable doubt
as to whether the results of the application of these formulae
indicated listenability between one county and another county.
However, this section of our committee urged that efforts be
made to adopt a definite formula for computation of station
coverage by mail count. Unless a uniform method be adopted,
they cannot see how an advertiser can measure the coverage
of one station against another. They suggest that the half
millivolt contour merely represents potential circulation and is
interesting to note on a mail count map.
standing activities. Rather its purpose is to point out in a practical way the manner in which stations of all sizes have progressed in their promotional activities.

It is suggested that station officials will gain from this display ideas which they can adapt to their own future plans. After all, it is not so important as to how far we have progressed, but to see how much farther we can go, and we hope that this display in a year will have become a thing of the dark and distant past and be far superseded by the display which will greet your eyes at the convention next year.

As this exhibit of promotional pieces is the first that this Association has attempted, the committee was forced to make its plans without precedent and with no way of knowing how much material would be available. Hence, if any material which your stations may have submitted is not on display, please do not feel that this is in any sense a discrimination or that those pieces which you do see are necessarily models of their type. The entire display has been assembled with the constructive thought that a cross section of station promotional activity would be of help to all of us.

Now, I believe he has here some resolutions that are to be presented by the Resolutions Committee. Here is the report of the sub-committee.

"Report of the Sub-committee on Radio Promotional Material of the NAB"

"The committee consisted of Mr. Howard Peterson, Commercial Manager of Radio Station WOW, Omaha, Nebraska; Wayde Grimstead, Promotion Manager, WBBM (CBS), Chicago, Illinois; M. F. Allison, Promotion Manager KMBC, Kansas City, Missouri; Dick McBroome, Promotion Manager, John Blair & Company; and Emmons Carlson, Promotion and Merchandising Manager of the Chicago office of the National Broadcasting Company.

"Problems"

"The sub-committee met June 16, at the Sherman Hotel, to form and plan a method of building a radio promotion exhibit."

This is the report of this sub-committee that handled this exhibit you see on this floor.

After viewing the material at hand, and the facilities for displaying such material, it was decided to adopt a plan which would be constructive in purpose and simple enough to be accomplished within the time allowed. The material arrived in all shapes, sizes and forms, and represented all types and variations of radio promotional activity. The problem of the sub-committee was the same that confronts any initial effort. Obviously, systematic arrangements and continuity of display had to be sacrificed for simplicity. Therefore, mass displays were decided upon in three general groups, namely, 'Nets—Reps—Platters', 'To the Advertiser' and 'Listener Promotion'. With a few exceptions, all material submitted could with these general classifications.

"The sub-committee attempted to view the problem as that of the industry, rather than of specific stations or organizations. Our attempt was not to have a county-fair type of competitive display, but rather to show a cross section of the industry's promotional activities.

"Owing to the lack of time and general clear understanding as to the aims of the sub-committee, some stations submitted elaborate unit displays which, of course, could not be discarded as they were sent in good faith to the exhibition. We wish to make this explanation to obviate any feeling that such stations received more space than others.

"Vital Statistics"

"Promotion material was submitted by 175 stations, 6 networks. 3 transcription companies and several news services. A list of the organizations who submitted material is attached herewith. Some stations submitted promotional material in quantities for distribution to those attending the convention. This was all placed on a table in the center of the room.

"Recommendations"

"1. The committee desires to express the thought that this display is an excellent example of what should not be done next year. Therefore, it wishes to submit suggestions for consideration.

"The committee feels that next year's display, if possible, should be made up of uniform units submitted by each station participating. It is suggested that each station exhibit a complete campaign of any promotional activity on a standardized unit display. It is further suggested that this unit display be a mounted cardboard piece, roughly 20x30". These unit display pieces would form the backbone of the exhibit, in addition to whatever other material the stations may desire to submit. Additional material for merchandising pieces may be submitted unmounted to the committee in charge.

"Acknowledgments"

"The committee wishes to express sincere thanks to Mr. Vanderwalker and to Mr. Culver, and the entire Sherman Hotel Management for the splendid cooperation in preparing this exhibit."

"Does that conclude it, John? John wants you to do some thinking before they are presented by John Henry of the Resolutions Committee."

"Your Committee on Radio Promotion will place before the Resolutions Committee the following resolution in regard to general industry promotion plans:

"WHEREAS, we believe it is for the best interests of the National Association of Broadcasters, as a trade organization, to promote the broadcasting industry in the minds of the people and to portray a true picture of the value of the radio industry, in its present form, to the United States."

"Your Committee on Radio Promotion will also place before the Resolutions Committee the following resolution, under the heading of general industry promotion plans:

"BE IT RESOLVED, That a Director of Publicity be employed by the National Association of Broadcasters, to work under the supervision and direction of the Managing Director, to advance the art of radio broadcasting in the minds of the people and to portray a true picture of the value of the radio industry, in its present form, to the United States."

I believe that resolution was presented by the Resolutions Committee yesterday and was voted down."

MR. HENRY: Both were presented yesterday. The other one, the first one, was referred to the Board of Directors.

MR. GILLIN: Thank you.

CHAIRMAN CARPENTER: And thank you, John, for the splendid work of your committee the past year and their work getting the exhibits ready.

For our next speaker we have gone to the advertiser himself and we have gone to a man who has appeared before this group before, who has something to say which we want to know.

Mr. Oreck was present at "A Retailer Makes an Appraisal of Radio" Marvin Oreck, Oreck's Inc., Duluth, Minnesota. (Applause) MARVIN ORECK (Oreck's, Inc., Duluth, Minnesota): Mr. Chairman and members of the NAB, when Mr. Baldwin and Mr. Carpenter asked me to talk to you about retailing and the uses of radio for the retailer, they indicated to me very much. They pretty much allowed me to use my own judgment on the selection of a subject and, therefore, I, too, like Mr. Fryor, shall try to be realistic.

Now, if I were to talk to an association of broadcasters on the subject of merchandising, I would consider my position a study one. But, for me to talk to you upon any subject concerning radio, puts me, more or less, behind the well known eight ball. Yet I have been asked to talk about radio as an advertising medium for the retailer and I wonder if anyone really knows very much about that. The amount of radio advertising used by retailers does not indicate that either the advertisers or the broadcasters know enough about it to do a very good job.

Two years ago broadcasters at this convention were very encouraged over the fact that retailers were using an ever-increasing amount of time during their radio time. Since then, however, a survey of the National Retail Dry Goods Association shows that the use of the radio as a retail advertising medium declined during 1936. In that year the percentage of larger stores using radio broadcasting dropped from 55% down to 44%. In other words, at the present time less than half of the stores who answered the Dry Goods Association survey questionnaire, used radio during 1936. Likewise, the percentage of the advertising budget allotted to radio by these stores seems to be very small. And the larger the store, the smaller the percentage allotted to radio as a medium. The survey
shows that the average expenditure of stores doing over one million dollars is slightly less than 3/10 of 1% of the sales, as against a figure ten times that much for newspaper space. In the one to two million dollar volume stores, the average expenditure is 15/100 of 1% or slightly more than 1/20 of the amount used for newspaper space. In the five to ten million dollar class, the reporting stores expended an average of 9/100 of 1% of their sales. While the average expenditure of stores doing over ten million dollars was 4/100 of 1% of their sales. Thus, you can see that the radio medium, while having various advantages, is not a major medium for reaching people out of town. They find that it gives a human interest in the store that they can get through no other medium. They feel that the real personality of the store can be better expressed orally than in any other way. Stores feel that there is a tremendous advantage in advertising the way they are selling and the value of radio is that the radio is a top-notch medium for fur storage advertising. A store's frequent reminder of its storage facilities will not only bring it storage but also publicize the cleaning and repairing of fur coats as well as institutionalizing the store as a fur store so when people think of fur coats, they will think of that particular store.

The children's department is one which lends itself beautifully to radio advertising. Many stores are using special children's programs regularly, and where they have an auditorium, they have an audience witnessing the broadcast. This type of program has particularly good human interest appeal. In our store we have built our children's department almost entirely by radio. We employ a full-time, registered nurse in the baby department, and she has an excellent radio voice. She appears in a five-minute broadcast. The main thing about these programs is that they are confined to non-advertising material on the care of the baby and small children, but this lends itself very well to occasional broadcasts on the items we carry in our department. We know the value of this program because of the many patrons who come to our department and ask for Miss Iversen, our registered nurse.

The radio is also an excellent way of institutionalizing a brand carried by a store. Of course, the retailer will not extensively advertise a brand that is not confined to him. But where he has suc-cess and confidence in his store, he will be able to create enough imagery to sell goods on a fashion basis by radio.

But, radio does offer some splendid functions in retail advertising. I feel that the two best uses of radio for store advertising are the use of price advertising and institutional advertising. Now, price advertising has been used with marked success by those stores which carefully study radio as a medium and use prices which are news and have news value to the listeners. It is my opinion that advertised prices must, in the first place, be very attractive for the article advertised and they must also be low in comparison with those advertised by other stores or in the department of the advertiser. If a store, for instance, is known for its millinery selling ordinarily from five dollars to ten dollars, such a store can do a whale of a business over the radio featuring a two-dollar hat sale. And, a store which is known for its department store goods, an excellent wine assortment or a low price department, do a whale of a business on a radio sale of five or six dollars. The radio is a top-notch medium for a medium or better grade store to attract a clientele which it otherwise does not usually get. For instance, our company has the agency for I. Miller shoes in our city. As you probably know, I. Miller shoes sell at $12.75 and $14.75. Our Budget Shop features shoes at five and six dollars. The only medium we have ever used to advertise our Budget Shop is radio. We have attracted to our store thousands of women who have confidence in the style of dress and shoes that are featured. We know at five and six dollars our shoes are valued to the point of exciting news. Now, we have been very scrupulous in advertising our Budget Shop so that those shoes would not be confused with I. Miller shoes. As a matter of fact, we have used a left-handed punch and said that these shoes are not I. Miller but at five and six dollars are the best buy in America. We didn't kid anybody. We have built up a Budget Shoe Department which does twice the annual pairage it is entitled to on the basis of the size of the city—and we have built this volume entirely by radio. We have proved that radio has a splendid medium for clearances because clearance prices also have news value.

A great many people of the radio audience, who would normally not shop in our Fashion Salon, are excited over the prospect of buying clearance merchandise at one-third off or half price. Not only can the merchant effect clearance in this way but he also can attract to his store new customers who might become regular customers. So much for the price angle of radio advertising.

The stores that have been most successful with radio advertising find it a great institutional business builder. They find that they often gain 15/100 of 1% of sales in 1/20 of the amount used for newspaper space. While the average advertising of stores doing over ten million dollars was 4/100 of 1% of their sales. Thus, you can see that the radio medium, while having various advantages, is not a major medium for reaching people out of town. They find that it gives a human interest in the store that they can get through no other medium. They feel that the real personality of the store can be better expressed orally than in any other way. Stores feel that there is a tremendous advantage in advertising the way they are selling and the value of radio is that the radio is a top-notch medium for fur storage advertising. A store's frequent reminder of its storage facilities will not only bring it storage but also publicize the cleaning and repairing of fur coats as well as institutionalizing the store as a fur store so when people think of fur coats, they will think of that particular store.

Not only can the merchant effect clearance in this way but he also can attract to his store new customers who might become regular customers. So much for the price angle of radio advertising.

Now, I believe that for price advertising the spot announcement gives the retailer far more for his money than program advertising. On the other hand, a store program will do a great deal to institutionalize the store and the individual radio personality. Both stores have now confined themselves to the use of spot announcements and so-called shopping programs of fifteen minutes to a half hour.

those stations which will furnish them this coming attractive advertising medium. But that isn’t the only reason for stations to use the medium. There is no more flexible medium in existence. There is no quicker way to get your message before the people without the preparation of cuts, layouts or addressing of mailing pieces. When it rains you can advertise umbrellas, with a few minutes’ notice. When it snows, you can throw overshoes copy on, with a single telephone call.

We find also that some of our sales are best run by a combination of both radio and newspaper backed up with our windows and perhaps mailing pieces. I can illustrate the advantage of that by saying the store that runs a newspaper ad may be swamped the first day of the event and then may not do any business, and take a mark-down on goods. Now, the radio offers a wonderful opportunity to spread out the business. We very often will advertise the first day or two of an event over radio; then come back with an evening ad in the paper and follow up with a morning ad in the paper. In that way we can spread our radio advertising out the most of the sale. I commend to you as a fine merchandising argument to the retail store.

Now, two years ago at this convention one of the advertising agency representatives discussed his contact with one of the retail stores in Chicago and told why they failed to do a good job—they failed to sell the buyers properly—and I think if radio has lost interest in the retail stores, it is even more true today than two years ago. Back in 1923 the average store manager decided to give his store back into the hands of the buyers. There had been so many efficiency men and personnel men cramping the style of the old-time merchant that the buyers would not do business with them. But, in the last two or three years there has been a renaissance for the buyers. Now, you can sell the promotion manager in one-tenth of the time you will convince the buyer that he or she ought to place that advertising on the radio. The buyer has to be convinced that radio can do a good job. There are various ways by experimentation and not a little bit of help can be given by personal contact between your staff and the buyer.

It is my firm conviction, as I said earlier in the talk, that you have something to sell the retailer. You and I know that millions listen to the radio and I have no doubt in my mind that any store which applies itself to using this medium properly can get increased business for itself at a nominal cost.

Thank you very much. (Applause)

CHAIRMAN CARPENTER: Thank you very much for a talk which is very much to the point. If any of you have questions you wish to ask Mr. Greck, just present this afternoon.

Our concluding report today, which will be followed by resolutions which are to be presented, is the report of the Committee on Standardization of Sales Forms by Martin Campbell of WFAA, Dallas, Texas.

MR. CAMPBELL: Mr. Chairman and members of NAB, when I was appointed chairman of the Sub-committee on Standardization of Sales Forms, I thought, in the words of my good friend Hough, I had a greased pig. Later when Carpenter came along and suggested that local rates and cumulative frequency discounts should be increased I found then in the words of my friend Harold Haugh that we had hold of a porcupine. The report is very brief. Some paragraphs in it undoubtedly will call for discussion this afternoon. As chairman of the Sub-committee on Standards of Sales Forms, I respectfully submit the following report:

1. Local and National Rates

Interviews with station managers disclose that stations, irrespective of power or region, have from one to three sets of rates. Stations with a single rate card for all classes of business are in the minority. Stations with a local and national rate appear to be in the majority, with a tendency on the part of some to have as many as three rates, broken down rather loosely into national, regional and local. Opinion is so widely divided that your sub-committee chairman does not believe there is a possibility of any unanimity of opinion on the subject of rates. Local conditions but more particularly competitive situations are responsible for the two or three rate set-ups.

2. Cumulative Frequency Discounts in One Year

There seems to be a tendency in the broadcast industry to allow cumulative frequency discounts regardless of whether the business is continuous or not. Cumulative discounts are given among other media and for the sake of uniformity should be recommended for the entire broadcast industry.

All products manufactured by a single corporation (for example, General Motors, Procter and Gamble, and so forth) should be permitted group rates covered by one annual contract.

Announcements and programs, however, should not be grouped to earn higher discounts. These are two separate services comparable in general to TV stations (programs) and classified ads (announcements) in the newspapers.

3. Contracts between Stations and Salesmen

To avoid confusion and controversy between stations and salesmen, your sub-committee suggests a contract form be drawn up by the NAB and submitted to the various stations for their guidance. Such contracts are particularly desirable where a station operates on a commission or salary-and-commission basis.

In that connection, I have seen the one used by Mr. Carpenter and I think it is very excellent and certainly is one everybody in the industry should see.

4. Billing and Affidavit Forms

Billing and affidavit forms should be standardized for the convenience of advertising agencies. In this connection it is recommended that the statement and affidavit should be printed on single letter-size paper. One statement and one affidavit should cover the entire month’s broadcasts. It is further recommended that billing be on a monthly rather than a weekly basis since all advertising on radio is handled on a monthly billing basis. This is covered in 1 (e) on the Standard Contract Form.

And, incidentally, Mr. Baldwin had reproduced specimens of our form. That form is taken from one gotten up by Bill Way of KVIO.

Where a station, for reasons of its own, prefers to bill or charge at other than a monthly basis, their rate card and Standard Rate and Data should so specify and show the specific period covered in the weekly billings. Where the weekly billing covers part of two months, the break-down should cover each period separately.

Where rates are quoted on a weekly or monthly basis, they should be billed on a week-to-week basis or calendar-month basis. For example, on a week beginning Monday, if the program starts Wednesday, the first week’s billing should be five-sevenths of the weekly rate. The program running during a month should be prorated for that part of the month used and billing on a monthly basis for calendar months to follow.

5. Rate Card Structure

Some years ago the AAAA issued a standard rate card form for radio stations, patterned broadly after the standard form recommended for newspapers. This form should be used by all stations for sales of umbrella time or masal time, or as outlined in any local conditions. Where special or unusual terms and conditions are imposed by a station, these regulations should be clearly published on the order form and in the rate card. Billing each week, for example, the card should so state. If there is an ASCAP or other license fee, it should so be indicated on the card and attention called to it under the heading which carries the rates.

6. General Revision of Standard Order Form

The standard order blank for spot broadcasting AAAA form registered at the United States Patent Office and Copyright, 1933, is—in general—satisfactory.

Section 4 (a), in the second line, the word “sustaining” should be eliminated because of the current practice of sponsorship of programs of outstanding public importance, such as the Kentucky Derby, prize fights, etc.

For stations which allow cumulative discounts, the words “without interruption” should be deleted in the first line of 5 (c).

Any and all order blanks which carry the heading standard order blank, standard conditions, and so forth, should be in exact accordance with the approved form. Blanks on which any changes in the standard conditions have been made should not be issued as standard contract forms.

CHAIRMAN CARPENTER: Thank you, Martin. Now, the type of work that Martin’s committee has been working on is the rather prosaic workaday problems and his committee is to be specially commended for the consistent work they have done. Not only this year but Martin has participated over a number of years.

May I suggest we are almost finished and the resolutions which are to be presented merit your careful attention. Please wait just a very few minutes.

Announcements.

CHAIRMAN CARPENTER: May I say again at this time—some of you may not have heard it—I have had a number of people come to me in the last day or two and comment that there has been
inspired by the talks this morning. Two years as the broadcasters' share of the expense of these investigations have agreed to contribute approximately $167,000.00; it is serious. I think it is an absolutely necessary expenditure of funds to discuss—broadcasting.

CHAIRMAN CARPENTER: We will now hear the resolutions. Mr. Henry.

MR. HENRY: Some of these resolutions have not been read at all. Others were read at the meeting yesterday and consideration postponed until today.

"Whereas, the Federal Radio Education Committee, acting through a select committee, has agreed that certain specific projects should be carefully studied,

"Resolved, That all broadcasting stations should be invited to contribute a total of approximately $83,000.00 over a period of two years as the broadcasters' share of the expense of these investigations.

"Whereas, it is further, that the Board of Directors devise a formula whereby the contributions of each broadcaster will be on an equitable basis."

I move the adoption of this resolution.

CHAIRMAN CARPENTER: Is there a second? Well, I'll pick a second. Earle Gluck, how about seconding it?

EARLE J. GLUCK (WSOC, Charlotte): I didn't hear it.

CHAIRMAN CARPENTER: That's all right. Now it is ready for discussion and I am wondering, Jim, if possibly you would want to comment on this. Personally, I would like to know more about it before putting it to a vote.

MR. BALDWIN: The purpose of this resolution is to aid in the financing of the investigations of a committee of six appointed by the Federal Communications Commission and the United States Commissioner of Education, appointed to investigate a series of projects which numerous educators and representatives of foundations believe should be investigated. These projects have been studied over a period of several months. Numerous meetings have been held with the heads of the network companies, with the heads of foundations interested in educational projects and investigations, all within the view of finding some method of this movement may pursue the investigations that were begun approximately two years ago to find how broadcasters and educators might better cooperate with each other.

These projects have been analyzed by research men who have told us that they think it will cost to conduct them. The estimated appropriation of approximately $250,000 was discussed in two sessions held with the Broadcast Division and thereafter submitted to the members of these foundations. They have taken more than two-thirds of the total amount. There remains, I believe, a total of $83,000 which all who participated in these committee meetings believed was a fair share for the broadcasting industry to bear. There is no other way in which these projects can be financed.

"Whereas, the By-Laws of the National Association of Broadcasters provide that the convention city of the organization may be selected only if the membership does not select the convention city now therefore be it resolved, That the National Association of Broadcasters hold its next annual meeting at Chicago, at a date to be selected by the Board of Directors of the National Association of Broadcasters."

I move the adoption of this resolution.

MR. CHURCH: Can anyone answer that question?

CHAIRMAN CARPENTER: Any remarks?

MR. GILLESPIE: Seconded.

CHAIRMAN CARPENTER: Any remarks?

MR. HENRY: This resolution was proposed by your Engineering Committee, was read yesterday and held over for consideration today.

"Whereas, considerable progress has been made during the last few years by the radio engineering profession, and a great deal of data has been obtained concerning the laws governing radio propagation, interference, receiver selectivity and the operating characteristics and efficiency of radiators; and

"Whereas, the Federal Communications Commission through its Radio Engineering Department has demonstrated its progressiveness and aided the broadcast industry greatly by its actions in holding hearings, and otherwise, in accumulating advanced engineering information and correlating the same; and

"Whereas, the Preliminary Engineering Report on Allocations made public by the Commission's Broadcast Division on January 14, 1937, meets with the general approval of the engineering profession; and

"Whereas, the National Association of Broadcasters approves this report because it is based on sound and basic engineering principles; and

"Whereas, there is a definite need in the broadcast industry for such improvements as will be possible by the adoption of these principles in the Commission's regulations; now be it therefore resolved, by the National Association of Broadcasters: The Federal Radio Engineering Department is hereby authorized and it is hereby stipulated by the National Association of Broadcasters to accept the report and to incorporate into its regulations the basic principles of said report."

MR. CAMPBELL: I move its adoption.

CHAIRMAN CARPENTER: Any remarks?

MR. CHURCH: Can the Managing Director give an opinion as to the advisability of acting on this resolution at the present time?

MR. BALDWIN: I haven't studied it.

AB: Can anyone answer that question?

CHAIRMAN CARPENTER: My understanding is that it has had the unanimous approval of the Engineering Committee and they believe it should be passed at this time in order to enable them to continue this work.

MR. CHURCH: Mr. Chairman, I have a lot of confidence in the Engineering Committee. That committee, however, consists and, without qualification, I would recommend that the industry agree that the matter should be submitted to your Board of Directors. I should find the formula for raising these funds which would make the burden fair and equitable to every broadcasting station in the United States.

CHAIRMAN CARPENTER: Thank you very much, Jim. Are there any other comments? Any questions? Are you ready for the question?

(Second motion was put to vote. The vote was in doubt.)

MR. HENRY: "Resolved, That the Board of Directors of the NAB be directed and are instructed to carry on negotiations with copyright owners to the end that a per-piece or measured service plan be obtained."
largely of engineers, as I understand it. I am wondering whether we feel like giving the proper kind of consideration to a resolution of such importance. I am afraid I am one of those who doesn't quite feel capable at the moment as it is a resolution of extreme importance. Of-hand, it appears to be a good resolution but I don't feel able to vote for it at the moment.

As a substitute, I would like to move that the resolution be referred to the Board for its careful consideration and action.

CHAIRMAN CARPENTER: May I consider that as an amendment to the original, Mr. Campbell?

MR. CAMPBELL: Yes.

CHAIRMAN CARPENTER: Is that O.K. with the second?

MR. SHAFTO: Yes.

CHAIRMAN CARPENTER: Jim Baldwin just went to see if he could get hold of Jack DeWitt. As I understand it, all the phases of this matter have been very carefully canvassed and discussed by the engineers. It is rather difficult for me to say anything more than that at the present time. But, if I may be permitted an opinion, I believe referring this to the Board of Directors for their action will accomplish all the engineers hope to have accomplished and in that smaller group they may give it more serious consideration discussing it confidentially than we can here.

MR. CAMPBELL: Action should be taken on that before the November conference in Havana.

MR. CHURCH: Include that in the request to the Board.

MR. CAMPBELL: All right.

CHAIRMAN CARPENTER: An addition to the amendment that the Board be instructed to give this careful consideration and act in ample time before the Havana Conference in November.

MR. SHAFTO: I accept that.

CHAIRMAN CARPENTER: Does anybody see Baldwin or Jack DeWitt? Does any other member care to comment?

MR. HART: Mr. Carpenter, I happened to be on that committee. I don't know how many of you were in Washington in October but those who were there, and I believe also all of those who were not there, recognize the amount of time the Commission spent in analyzing our problem. We of the committee feel that if the Commission were assured the NAB was those who were not there, recognize the amount of time the engineers hope to have accomplished and in that smaller group they may give it more serious consideration discussing it confidentially than we can here.

MR. CAMPBELL: That is my motion. I don't believe I said those here are not qualified. I did not include that in the motion. We don't have a qualifying representation here to vote on it.

CHAIRMAN CARPENTER: That is what I intended to say.

MR. DORRELL: If it is in order, I move that resolution be tabled indefinitely.

CHAIRMAN CARPENTER: Is there a second to that motion to table?

CHAIRMAN CARPENTER: It has been moved and seconded to table the motion.

A MEMBER: I rise to a point of order. I don't think that is in order.

CHAIRMAN CARPENTER: A motion to table is in order at any time.

MALLORY CHAMBERLIN (WNBR, Memphis): I don't know anything about the resolution or what it means but I do think we should have a little more confidence in our committee and the Board of Directors. I don't know how to get a motion to table out of the way but if you can, I think you ought to refer it to the Board of Directors.

CHAIRMAN CARPENTER: There is one way and that is to vote it down.

THE CONVENTION: Question!

(The motion (to table the resolution) was put to vote, and was lost.)

CHAIRMAN CARPENTER: The motion is lost. Now we revert to the original motion to refer it to the Board of Directors. (The motion was seconded and carried.)

MR. HENRY: This resolution is proposed by Fred Hart, Station KGMB, Honolulu:

"Whereas, at the 1936 meeting of the National Association of Broadcasters, the following recommendation was adopted:

"Whereas, as the radio broadcasting industry continues to grow in size, it becomes more and more apparent that if broadcasters are to handle their state, regional and national programs intelligently, they must be organized in state, regional and national units, as such organizations will serve to keep the rank and file better informed and give the numerous broadcasters more of a voice in the affairs of the industry; now therefore be it

"Resolved, The Board of Directors of the NAB be and is hereby instructed to send every effort during the year 1936-37 to foster such organizations as chapters of the NAB.

"And Whereas, one year has elapsed since that date and no effective action has been taken to carry out the purposes of that resolution; and

"Whereas, the problems of radio are greater and more numerous than ever before; and

"Whereas, the radio broadcasting industry is threatened with unjust legislation, racketeering, taxes and program difficulties both locally and nationally; and

"Whereas, the need for the radio broadcasting industry to reorganize in keeping with the suggestions contained in the resolution adopted unanimously at the convention one year ago is greater today than ever; now, therefore, be it

"Resolved, That it is the sense of this convention that the National Association of Broadcasters be re-organized in such a manner and to such an extent as to encourage the growth and functioning of local and state-wide chapters; be it further

"Resolved, That to expedite such re-organization, it is hereby ordered that a re-organization committee consisting of seven members be and is hereby appointed in the following manner:

The delegates present at this convention from each of the five radio regions as set up under the old Radio Act shall elect one of their number to represent their region on this committee. These five to in turn elect two additional members from among the delegates present, one of whom must be the President of the National Association of Broadcasters and the other when elected shall serve as Chairman of the group.

MR. CHURCH (interrupting): Mr. Carpenter, if the gentleman will pardon me, this is a very long resolution. It has been distributed for several days, in both printed and mimeographed form. Is that right?

CHAIRMAN CARPENTER: I have seen it in mimeographed form, not in printed form.

MR. CHURCH: If this group would attempt to take intelligent action on this resolution, it would take us hours starting with right now. Therefore, Mr. Carpenter, I move that this resolution be referred to the Board of Directors.

(There was no second to the motion.)

MR. HART (interrupting): Mr. Carpenter, I object to the pro-
The meeting, held in the Sherman Hotel, Chicago, convened at 3:00 o'clock. H. K. Carpenter (WHK, Cleveland) presiding.

CHAIRMAN CARPENTER: Gentlemen, we have established some kind of a record in opening this final meeting on time exactly when it was called—3:00 o'clock.

In the discussion this afternoon there are a few very simple rules. Outside of that, it's a free-for-all. First, you will pardon me if I should decide that any one's comments are not on the particular question which we are discussing at a given time. We must stick to the questions as outlined. Second, you may agree or disagree with anyone who speaks, violently or otherwise. You may ask questions of anyone in the room and if that person won't answer the question, they are at perfect liberty to pass the buck on to some one else. We shall continue as long as there is general interest and you care to continue because it is your meeting. We want you to participate in the discussion. And, finally, may I say that there are only two persons in the room who will not participate or take sides and that is Mrs. Gleason and myself. Don't ask me my opinion of any particular thing because if you do, I'll just simply ask somebody else.

Here is the first question for this afternoon: "How should a station service its local accounts?" I take local accounts to mean retail advertisers and by "servicing" them, I take it means how we can best satisfy them and best produce results for the station service its local accounts? I take local accounts to mean store accounts. And, finally, may I say that there are only two persons in the room who will not participate or take sides and that is Mrs. Gleason and myself. Don't ask me my opinion of any particular thing because if you do, I'll just simply ask somebody else.

Regarding announcements, we believe that further consideration should be given toward standardization. We further believe that all rate cards should be printed to show the actual rate or cost after application of the above quantity discounts.

The meeting adjourned at 1:20 o'clock.

JUNE 23, 1937

(Wednesday Afternoon)

The meeting, held in the Sherman Hotel, Chicago, convened at 3:00 o'clock. H. K. Carpenter (WHK, Cleveland) presiding.

CHAIRMAN CARPENTER: Gentlemen, we have established some kind of a record in opening this final meeting on time exactly when it was called—3:00 o'clock.

In the discussion this afternoon there are a few very simple rules. Outside of that, it's a free-for-all. First, you will pardon me if I should decide that any one's comments are not on the particular question which we are discussing at a given time. We must stick to the questions as outlined. Second, you may agree or disagree with anyone who speaks, violently or otherwise. The meeting adjourned at 1:20 o'clock.

JUNE 23, 1937

(Wednesday Afternoon)

The meeting, held in the Sherman Hotel, Chicago, convened at 3:00 o'clock. H. K. Carpenter (WHK, Cleveland) presiding.

CHAIRMAN CARPENTER: Gentlemen, we have established some kind of a record in opening this final meeting on time exactly when it was called—3:00 o'clock.

In the discussion this afternoon there are a few very simple rules. Outside of that, it's a free-for-all. First, you will pardon me if I should decide that any one's comments are not on the particular question which we are discussing at a given time. We must stick to the questions as outlined. Second, you may agree or disagree with anyone who speaks, violently or otherwise. You may ask questions of anyone in the room and if that person won't answer the question, they are at perfect liberty to pass the buck on to some one else. We shall continue as long as there is general interest and you care to continue because it is your meeting. We want you to participate in the discussion. And, finally, may I say that there are only two persons in the room who will not participate or take sides and that is Mrs. Gleason and myself. Don't ask me my opinion of any particular thing because if you do, I'll just simply ask somebody else.

Here is the first question for this afternoon: "How should a station service its local accounts?" I take local accounts to mean retail advertisers and by "servicing" them, I take it means how we can best satisfy them and best produce results for the station service its local accounts? I take local accounts to mean store accounts. And, finally, may I say that there are only two persons in the room who will not participate or take sides and that is Mrs. Gleason and myself. Don't ask me my opinion of any particular thing because if you do, I'll just simply ask somebody else.

Regarding announcements, we believe that further consideration should be given toward standardization. We further believe that all rate cards should be printed to show the actual rate or cost after application of the above quantity discounts.

The meeting adjourned at 1:20 o'clock.
on the air, a sincere effort is made to hide it behind the counter or under other merchandise on the shelves. It seems to me it is about time we did something to convince store executives to make a study of our medium. After all, they have had to make a study of it, but not necessarily and not in depth. I think they know about things other than our medium! Instead of telling them about the miracle we are going to perform, shouldn't we convince them they should study our work and fit themselves into it?

Would you care to answer that, Mr. Oreck?

MR. ORECK: Well, it is not my purpose to enter into a controversy with Mr. Avery—I like him too well! But, the average retailer's reaction is that radio is a new-fangled thing which might increase his costs and his advertising department is not used to writing the copy, and altogether, there is a lot against the station in soliciting and getting that business and building it.

MR. TRENNER: If you take an average sales promotion manager in a retail store takes the scientific attitude that if all the radio towers were put on the ground and stretched out end to end, it would be a good thing for the country. (Laughter.)

But, actually, those who have tried radio with some intelligent use have found it gives them a big dollar's worth in expenditure. I would say the station that does our job does a particularly good job because it is almost ideal. I would like to describe it for you. They don't expect the selling and production of our job to be done by the same person. It doesn't seem to fit into one person. There is one man who sells our account and keeps constant contact not only with the sales promotion department but with the buyers. Then he also has a continuity writer who is assigned to cover our store for the station. He, in conference with the sales promotion manager, learns which departments are going to use the radio. Then he sees the buyer and discusses the buyer. He then goes through the budget. He then takes the type of copy with the advertising department, gets their ideas and some new angles, goes to the station and portrays out the copy the best way he knows how. The store executives and buyers have an opportunity to know how it is going to sound when it goes on the air. We have proofs of our copy just the same as newspaper copy. In that way, we are able to keep permanent files as it goes on the air. It gives concrete proof and the results of daily sales are written after it.

CHAIRMAN CARPENTER: I have a question I would like to ask you. I ask it out of ignorance. It is this: do you mean to say, generally speaking, you think in department stores it is proper to contact the buyers direct without going through the merchandise manager or some such official as that?

MR. ORECK: That certainly varies with the store and personnel of the store executives. As a rule, the functional division of the store is so made that all advertising goes through the sales promotion or advertising department, and I wouldn't recommend it as good ball to go to the buyers without first having permission from the sales promotion division. Otherwise, you are only going to get two different stories on you.... But I think an intelligent discussion with the sales manager urging that certain experiments be tried, would leave you a good opening then to discuss it with the buyer.

HARRY TRENNER: (WBFR, Binghamton): I'd like to ask you a few questions if I may.

1. Is your store a member of the National Retail Dry Goods Association?

MR. ORECK: Yes.

2. Have you personally attended any of their meetings?

MR. ORECK: Yes.

3. To your knowledge, was there any radio exploitation at those meetings?

MR. ORECK: No.

4. Were there, however, many talks about newspaper advertising—am I correct?

MR. ORECK: Yes.

5. Then, with regard to what Mr. Avery said, may I suggest in view of the fact that newspapers are promoted and radio is not at the meetings of the National Retail Dry Goods Association. I believe the outstanding department store association in the country, if there was some promotion done by radio as an industry at those meetings, it is possible there would be more buyers coming to us to know about our medium.

Now, would you mind answering some questions with regard to the method of computing the comparative costs with regard to radio and newspaper advertising?

MR. ORECK: More specifically, what questions?

MR. TRENNER: For example, you keep a pretty close check on radio?

MR. ORECK: Yes.

MR. TRENNER: As to results per dollar expended? Do you take your radio program cost in toto and divide it between the departments that participate on that particular day?

MR. ORECK: Yes. I'd like to answer that a little more directly. We tie this up directly with the accounting department that goes directly to that department and we don't confuse them at all. We take the number of spots used to promote the department and charge that to the department directly, and then the so-called institutional ads the store might run on air cooling are charged to institutional advertising and, of course, there is no way of judging direct results.

MR. TRENNER: Spot announcements or programs?

MR. ORECK: Spot announcements.

MR. TRENNER: If you had a spot announcement on ladies' stockings, you would charge that much back to the department. Do you charge to it any of the cost of operating your advertising department?

MR. ORECK: Now, those are general advertising expenses the same as the newspaper preparation is charged to general advertising. I think that is general procedure.

MR. TRENNER: In case of newspaper advertising, how do you charge your heads and tails in newspaper ads?

MR. ORECK: What do you mean?

MR. TRENNER: If you take eight columns to advertise Jones Store, you can't charge it to a specific department.

MR. ORECK: You mean heads of ads?

MR. TRENNER: Suppose then you have a full page ad divided with four columns on a coat sale and a small ad for hosiery.

MR. ORECK: The general practice is to charge that pro rata to each of the participating departments.

MR. TRENNER: Would you care to give out a percentage of what you figure your cost per advertised item?

MR. ORECK: You mean the percentage of sales that we consider good practice on a particular event?

MR. TRENNER: What would be the cost per advertised item?

MR. ORECK: It is generally considered good practice in so-called sales to produce ten times the cost of the ad on your first day's business. If you spend $100 to advertise a coat sale, you ought to do $1,000 worth of business on the first day.

MR. TRENNER: In the course of a year, however, that would be reduced to over-all advertising cost. Does the N. R. D. G. A. prescribe any percentage of total volume?

MR. ORECK: No. The N. R. D. G. A. shows the averages; it doesn't recommend any percentage.

MR. TRENNER: And what is the average?

MR. ORECK: Let me put it this way. There are different terms in advertising. There is so-called advertising expense and publicity expense. The average costs at this time are five and one-quarter of sales for total publicity cost. Direct space and that sort of thing is under four per cent.

MR. TRENNER: Did you ever receive a questionnaire from the National Retail Dry Goods Association as to how much money you spend on radio?

MR. ORECK: Yes. The figures I gave were the result of a survey of that type.

CHAIRMAN CARPENTER: May I interrupt on this question? Would you mind, Harry, indicating how you were going to tie this in—what is the thing you are driving at?

MR. TRENNER: I believe you should know how much money a store should spend and in computing that, too many of the stores will charge off the entire cost but in the case of newspapers, they are not willing to because of the heads and tails, and the cost of operating.

Now, the last figure I read for radio was that out of every dollar spent for advertising by department stores in the United States, I believe the amount money out of that dollar for radio was a little less than one cent.

Now, that is a rather sorry state of affairs and I would like to conclude this conversation with this gentleman by suggesting that this Commercial Committee or whoever have charge of making these steps that make arrangements at the next meeting of the department stores that something be done for radio as an industry.

MR. ORECK: In line with this suggestion, I am so fully in accord with it that I suggest that your Association through its Directors or some other officials petition the Sales Promotion Division of the National Retail Dry Goods Association and urge that a panel discussion on radio be held at their next convention which will be at New York in January.

CHAIRMAN CARPENTER: That is fine.
Mr. Trenner: Thank you.

Chairman Carpenter: That is a very good suggestion and we certainly will see that it is taken up with the proper committee.

Now, is there anything else on this subject of servicing the department stores? By the way, may I say this; if it is necessary, we shall limit the time assigned to any one man who cares to speak on any of these subjects because we want to cover them all and get as much out of each one as we can.

May I put my question this way: have any of you done or heard of some one else doing a particularly good job of servicing local accounts?

Mr. Gillespie: Mr. Carpenter, I understand there is a radio station here getting the entire appropriation of a department store. I'd like to hear from that gentleman.

Chairman Carpenter: I don't think there is a Paul Marenco in the meeting? Does anybody else have any information?

Mr. Gillespie: He has a very interesting story. There is another store in Tulsa. The department store down there is spending about $300,000 a year.

We are getting about $25,000 out of a store account but we are having to do a complete servicing job from selling to copy writing. We are doing everything on it.

Chairman Carpenter: Do you say you write the copy?

Mr. Gillespie: Yes. We are doing a complete job and I think Martin Campbell is doing the same.

Mr. Campbell: No.

Mr. Oreck: Well, I remember the time when I was a little fellow when all of the retail advertising used to be written on wrapping paper by the owner of the store, and the newspapers had to cut it up to fit the size of the paper and everything else. Today the newspapers are older and specialized, and they have special people in the stores to do that. They have their own production departments. Maybe in this stage of radio it still has not served its purpose long enough to have department stores sell on radio without the help of the station because the technique is utterly different.

Chairman Carpenter: Any other comments?

S. P. Willis (WPRO, Providence): Our experience has been to approach a local account as a new idea and let the station control every phase of it. We make no promises and whatever comes in, we are more surprised than the advertiser.

Chairman Carpenter: In that connection, I would like to ask this question: will you give that store a series of programs for nothing?

Mr. Willis: Absolutely not because we have too much respect for our facilities.

Chairman Carpenter: Do you guarantee any number of responses or sales?

Mr. Willis: No guarantee. We guarantee nothing. We recently had one account that had a one-minute announcement. We went to them with a five-minute dramatization and said to them because of the nature of their product, we suggested the five-minute dramatization at a certain time of the evening to get the local audience. We wanted them to say the right thing to the right people at the right time. They were charmed with the idea, had an audition, and even though there was an agency, we wrote the copy and helped.

Mr. Gillespie: I was going to ask this gentleman how he combated a lot of this newspaper publicity. After all, when Jim goes to the buyers market, he gets his picture in the paper. I think if the radio stations went into that sort of thing—when you refer to their printing the picture of the owner's daughter, that is more than a courtesy but they don't in the larger cities. Of course, I am not acquainted with what goes on in the smaller cities. I would say that was a very unworthy method to sell a newspaper and I don't believe it is resorted to.

I think in the matter of radio broadcasting, none of us are doing so good a job as we should, and that leads one to ask this question: will you give that store a series of programs that is known to give space in the form of publicity—you are asking what in connection with radio?

Chairman Carpenter: Should radio attempt to do the same thing that the advertising station limit itself to commercial programs and anything that has the name of the store is commercial and has to be paid for?

Mr. McCosker: I don't think you do the newspapers justice when you refer to their printing the picture of the owner's daughter. I don't think that is more than a courtesy but they don't in the larger cities. Of course, I am not acquainted with what goes on.

I think in the matter of radio broadcasting, none of us are doing so good a job as we should, and that leads one to ask this question: will you give that store a series of programs for nothing?

Mr. Oreck: I don't think you do the newspapers justice when you refer to their printing the picture of the owner's daughter. I don't think that is more than a courtesy but they don't in the larger cities. Of course, I am not acquainted with what goes on.

I think in the matter of radio broadcasting, none of us are doing so good a job as we should, and that leads one to ask this question: will you give that store a series of programs for nothing?

Mr. McCosker: I think Martin Campbell is doing the same.
of a special event but either hadn’t appreciated it to the fullest extent or were timid.

My belief is that what you have to sell pretty much is an audience. I regretted sincerely at luncheon that I hadn’t risen to express the point with Mr. Pryor on the subject matter of his talk this morning. I think that he has the alpha and omega of radio when he puts his finger on the matter of program content. Mr. Shakespeare said it a great many years ago, “The play’s the thing,” and nothing has transpired in my experience—that’s within the past five years—that has given me pause to doubt that, so I take this opportunity publicly to thank Mr. Pryor.

CHAIRMAN CARPENTER: Thank you very much, Mr. McCosker.

Before going on, may I say just this one thing in case somebody else doesn’t. I have Frequent Reader Citizenship Knowledge. It is my understanding and belief that all progressive, modern newspapers do conscientiously try to keep those two departments separate and have to go some to chisel anything out of a newspaper.

MR. PRYOR: There is one point that has often occurred to me on this subject. It seems to me a local radio station has a great opportunity to do a marvelous job of entering the consciousness of executives of a town in this manner. I often wondered (if I had time and facilities and people good enough) why it wouldn’t be a good idea (one filled with civic virtue and all the things that go with it) to do a job on all the business institutions, particularly those that are clients. I think it would be very interesting if a station would outline the history of the large companies, tell where the goods come from, tell how many people they employ, and get the most important executive to come down and talk in it. I think that couldn’t possibly be marred with any of the stigma that the more direct method could be accused of, and I think you would also be doing a very fine job in impressing everybody in your town with the intimate vital things you employ, and get the most important executive to come down and tell where the goods come from, tell how many people they employ. I think that couldn’t possibly be marred with any of the stigma that the more direct method could be accused of, and I think you would also be doing a very fine job in impressing everybody in your town with the intimate vital part your station plays in the life of the community.

CHAIRMAN CARPENTER: Thank you very much, Mr. Pryor.

MR. PRYOR: As to some other things for which Mr. Trenner’s question of Mr. Avery on his recent comment. Before going on, may I say just this one thing in case some¬body else doesn’t. I have Frequent Reader Citizenship Knowledge. It is my understanding and belief that all progressive, modern newspapers do conscientiously try to keep those two departments separate and have to go some to chisel anything out of a newspaper.

We have had to do that and I am telling you it is a job, a tough one, and I don't see how the agencies put up with it.

I am going to call on Miss Black to amplify those remarks.

ELIZABETH BLACK (Ruthrauff & Ryan, Inc., New York):

Mr. Chairman,

CHAIRMAN CARPENTER: Will you come up here, Miss Black? There is always some of you may have some ideas brewing so get your ducks in a row.

MISS BLACK: I have been learning an awful lot from the session this morning. The most startling is that anybody has to other forms of media and worked out a plan of releasing orders for people of average intelligence to cope with and we believed the attorney. (Laughter.)

I answered a letter from Ruthrauff & Ryan until he consulted his attorney.

We found a few years ago rate card structures were very difficult for a people of average intelligence to cope with and we believed it would be serving the stations as well as the agencies and our clients if uniformity would be established. We then went back to other forms of media and worked out a plan of releasing orders as we had newspaper orders and further that the contracts be on a yearly basis. We found at the time although fairly new and as far as we knew we were doing a bit of pioneering, we received considerable commendation from the stations after the first time.

We had many problems in trying to sell them. It is there we can use an efficient manner of handling our contract situation but we still have difficulty with the rate.

When Martin spoke about the agonies we go through, I have had considerable experience in trying to convey to the account executive the cost of rates in the best possible way. We can't tell them this afternoon so we have taken the trouble to show the operation. That is, first, you have the stations show the rate after the discount is taken off. You have those that show open rate and scale of discounts below so that calculation is done at the agency. They are divided fifty-fifty. Then beyond that open rate and scale of discounts below so that calculation is done strictly for the purpose of promoting business and promoting it quickly by the same token an announcement is worth $25 or $15 or $10 or whatever you charge. You charge that rate because you believe that is good value for the money. Now, if a man buys 26 or 52 or 150 of those things, they are still worth $10 and if you are going to give discounts for additional times, there is no reason for additional discounts for quicker use.

If I may, I would like to make this additional remark while I have the mike. First, as far as Miss Black's problem, we are all naturally in accord with it although some of us feel reluctant to use the only function a representative has left. (Laughter.)

At the same time I would like to ask one of the members for the purpose—I would like to ask some of the agency people present why a thirteen-time discount is necessary. Our experience has been that the number of accounts we have received that run less than thirteen times are practically zero. Why do we have a base rate and a thirteen-time discount when our base rate is really the thirteen-time discount?

CHAIRMAN CARPENTER: Anybody have an answer to that? All right, you answer him.

MISS BLACK: We prefer to have the rates shown—one time, thirteen and so forth. In other words, each station would have the rates published, thirteen twenty-six, and so forth—the open rates and discounts. Which do you prefer?

MISS BLACK: We prefer to have the rates shown—one time, thirteen and so on. In other words, each station would have the rates published, thirteen twenty-six, and so forth—the open rates and discounts. Which do you prefer?

MISS BLACK: We prefer to have the rates shown—one time, thirteen and so on. In other words, each station would have the rates published, thirteen twenty-six, and so forth—the open rates and discounts. Which do you prefer?

radio stations and if you don't think his costs have gone up, you 
better go to him and ask him a few questions.

So, we discussed whether a series of well thought-out questions 
could be sent out and answered. A couple of us said "yes" and 
others "no". I won't say who's who. But, I do think if some-
thing like that is worked out, we will at least have a basis next 
year for intelligent discussion of many of our questions.

CHAIRMAN CARPENTER: The next question we will omit 
of the minute and still see if we can get Mr. Gillin and Mr. 
Church. May we go to the next one, Mr. Pryor, which is the 
question we would like you to discuss briefly: "How can creative 
selling be encouraged?" If you wanted to ask Mr. Gillin some 
questions this morning and didn't get to it, here's your chance.

MR. PRYOR: Speaking from our own experience, here is the 
way it usually works out. Ned Midgley's department contacts sta-

tion representatives and executives. They write a memorandum 
form sometimes about a program they have for another advertiser 
who they think doesn't do enough promotion. So, they telephone 
us and tell us about the show. That ends it.

Another man will now come in all steamed up and tell us about 
the show and tell us something about the results, how it has 
worked out, give us personal confidence in that program, it is much 
more liable to be sold.

Now, I can't recall a program causing the sale. In other words, 
I don't believe—maybe Ned recalls one—I don't believe I can 
remember when anybody brought a program in and enabled us to 
take a decision as to whether we should have broadcasted it. That 
was the way it usually worked out. Ned Midgley's department contacts sta-

tion representatives and executives. They write a memorandum 
form sometimes about a program they have for another advertiser 
who they think doesn't do enough promotion. So, they telephone 
us and tell us about the show. That ends it.

More and more our clients and lots of other agencies' clients are 
supplementing their national radio job with spot. We usually are 

in position to place a show in a certain area if we can get a good 
one. Now, we have people whose job it is to visit local stations 
but it takes us a long time and costs us a lot of money. If you 
want to get a program with us, the best thing to do is write us— 
or, better yet, come and see us—and include a record, if you can. 
For the smaller stations, that isn't practical unless you happen 

to be in our town but in that case I believe the station representa-

tive is the next best way to contact us. Has anybody an idea 

that is better on how to do it? That is the way it usually works 
out in practice, wouldn't you say, Ned? We usually know all about 
what is available on that station and if we know about it in suf-

ficient detail that we are sold on it ourselves, we very often can 

have the spot business out in a hurry.

CHAIRMAN CARPENTER: Does anybody have a question? 

DAN DWYER (WSYR, Syracuse): Apropos of your talk, you 
spoke disparagingly about spot announcements between programs. 

I would like to know what is so harmful following Terry and Ted 
with 240 words, or following Procter and Gamble with 400 
words—why that 35-word spot hurts radio?

MR. PRYOR: I believe, and a lot of my associates believe, that 
radio has come to a point where it is very vital to increase 
the prestige of the business. We cannot stay where we are. We 
have educated a lot of non-musical people to a point where they can 
criticize intelligently, dance bands and symphony 
orchestras. We can't stay where we are. We have to increase 
our prestige.

It is my personal opinion (and it is shared by a lot of people) 
that one of the things that makes radio a catch-as-catch-can, 
cheap, unimportant, crass sort of thing is these darned announce-
ments. I think an audience will accept a commercial at the end 
of this cuffing around I usually get from representatives of station 
managers when they are in town.

These meetings today have been a lot of fun. A couple of things 
made me chuckle considerably. This morning one of you gentle-
men said, "So you aren't buying power any more." Arthur said, 
"We never did." "Well, you'd never guess it." (Laughter.)

I think the answer might be in a fable. Once upon a time 
there were a couple of stations in a town, a 100-watter and a big 
station with lots of power. It happened that the 100-watter 
was owned by a distributor that distributed the products for which 
the campaign was being considered. They intimated if the 100-
watter were not used, this co-operation 

of the product; if the 100-watter were not used, this co-operation 

would not be forthcoming. So we got pig-headed and strangely 

enough bought the station with the high power. It happened that the 100-
watter was used on the schedule, they would buy several carloads 
in the campaign was being considered. They intimated if the 100-
another that had probably sent you one of 
their promotion brochures claiming coverage of 150 or 200 miles 
around the station, and we have purposely been conservative in 
building our promotion material, I wondered whether it is worth 
while. I have wondered that in the past. You may know about 
these things but I'd like to know where the same as I do. 
I don't care whether it is a 100-watt station or a 10000-watt sta-
tion. We have spent about as much as any station our size on 
such material. We send it to you agencies. I am never sure 
whether it gets into the file or the wastebasket. If it is filed away. 
Mr. Pryor, I have some figures that I will show you. Mr. Midgley 
seems to me a lot of money is spent on exaggerated claims which are sent to your 
office.

How much of that material do you believe? When you buy a 
market, how do you know Joe Palooka is covering the area 
out in the promotion display room with con-

his brochure says he covers.

Now, we are developing a lot of local business. We have 
a local audience. Our coverage doesn't mean a thing if we haven't 
an audience. Now, some of those other stations are competition 
and some aren't. Some of them the advertiser is using because 
he thinks he is getting coverage. He may have an audience and 
he may not.

It seems to me the promotion material we have been sending 
out is very weak because we have had very little reaction to it 
and yet I think the spot business has been much money as the next man in 
sending promotional material to the agency.

MR. PRYOR: I think Ned Midgley would be valuable on that.

MR. MIDGLEY: Along about the second round, I thought 
Braddock was going to win the fight. I lost my voice asking him 
to talk to me the other day who has made a study of the 

spot business in the local stations in the country, and out of 100 
how much national business did he find? Four national accounts 
on these stations. I talk with this gentleman or that gentleman. 
He says he is carrying a fine lot of national business but never gets 
down to dollars and cents. He isn't carrying much more than 
I am.

I am tickled to death that Arthur Pryor is here to take some 

take of this cuffing around I usually get from representatives of station 
managers when they are in town.

Another charge here is leveled against us, not too seriously, I 
hope. It dates back to January this year. We bought a series of 
Terry and Ted programs on the station and with some strange 
doings.

"Well, you'd never guess it." (Laughter.)

I think the answer might be in a fable. Once upon a time 
there were a couple of stations in a town, a 100-watter and a big 
station with lots of power. It happened that the 100-watter 
was owned by a distributor that distributed the products for which 
the campaign was being considered. They intimated if the 100-
watter were not used, this co-operation 

of the product; if the 100-watter were not used, this co-operation 

would not be forthcoming. So we got pig-headed and strangely 

enough bought the station with the high power.

Another charge here is leveled against us, not too seriously, I 
hope. It dates back to January this year. We bought a series of

Terry and Ted programs on the station and with some strange 
doings.
a much later period at noon or else he off the air entirely on that station. Then a representative of that station complains because we use 240 words to announce a commercial on a program which isn't even existent on his station. At that he was lucky, because we usually try to crowd 240 words into a 100-word announcement. If he only has that many words, he is pretty lucky.

This is one thing that does worry me and I want to be serious, and that is the charge of men who run smaller stations. Yes, we get your information and we read it and, believe it or not, we file it and not in the wastebasket. You have an educational job to do with the agency. The agency has an educational job to do with the client. I can only speak for our own outfit. When we get a request for spot broadcasting, a request for specific markets, or in the case of some clients, “Here is $10,000. We want national coverage. Thirty-five-minute programs a week for thirteen weeks,” you know we can’t do it and it is a gradual process of educating the client to use intermediate markets. I have had good results about ten or a dozen places that will give daytime audiences but in the aggregate, the markets themselves are not of sufficient importance to the client to have them included in the plans. And, I don’t want any of you people to think for single solitary moment that B.B.D.O.—and I know I speak for Miss Black, too—doesn’t digest every bit of that—although most of it gives us indigestion.

"RED" CROSS (WMAZ, Macon): This is Cross—Red Cross—from Macon. (Laughter.)

Being merely a rebellized Yankee, I would like to take the only exception to one of Mr. Pryor’s remarks, especially about the South, (Laughter.) about patent medicines and two-pants suits. (Laughter.)

Mr. Pryor, I happen to be wearing a suit that I bought with two pairs of pants. I am not a bit ashamed of it. It cost me eighty dollars and it was made by Brooks Brothers. (Laughter.) It is a very good suit. You know, the secretary and treasurer of our 1000-watt station has never gotten humpbacked since 1929 carrying any B.B.D.O. checks to the bank. (Laughter.)

But, on the other hand, this little bunch of peanut growers that use our station have kept me and my staff in grits, gravy and groceries, and just as long, Mr. Pryor, as they pay our salaries every week and leave us $1.15 in the bank, and as long as the President of the United States sees fit to write us twice within the year complimenting us for some national job we have done and the Governor of our State of Georgia has on many occasions accorded personal congratulations for work well done, we are still going to carry 100-word spots on two-pants suits and collect the money.

Now, you may have some accounts up there that you put out nationally. I don’t know your accounts personally because we have never been favored with any of your business. (Laughter.)

If it happens to be Listerine, we could advertise Listerine very well because there is a great need for it. But, if we advertised Listerine to the exclusion of all two-pants suits, wouldn’t it be funny seeing everybody walking around with a bottle of Listerine in their pocket with little old Listerine labels on them? (Laughter.)

Mr. Pryor: I was warned I’d catch hell if I brought that up! As a matter of fact, it is no secret the minute announcements have been a godsend to the radio business. It has meant fine income and done a swell job for an awful lot of you. We use it and use it all the time—get swell results.

I am looking ahead to a life in this business. I have a little different picture, or anybody in a job like mine has a different picture than anybody else can possibly have. I realize you cannot eliminate spot announcements without adequate financial return to take its place. It means running at a loss.

I do feel—and it is a firm conviction—if I could just plant it in your minds that everybody in this business has got to be conscious of a desperate need for elevating it! Which will never end! And not just use it as a means for a livelihood! I shall stand by my guns. I know just how vital it is. But, watch out. I have studied audience reports for ten years and there are entirely too many people tuning in for special events. Every year that audience you can expect to get is a little bit less and one of the worst things is that your audiences are not accepting it as an integral part of your importance and place in the life of the community, and, mark my word, little old spot announcement is largely responsible for that—honestly! Mr. Bliss: May I ask a question? Isn’t your problem of having too much commercial or too long commercial, whether or not they are banana skins, the one that really puts them on the defensive and makes them think that a long announcement well done is not criticized as much on the part of the audience as a thirty-second announcement poorly done?

Mr. Pryor: Absolutely right. I have always contended that a three-word announcement with the wrong words offends more than a three-minute announcement if done intelligently. It is that awful little offender that demurs the whole thing—done by a stupid fellow or one who doesn’t give a damn what he does. It is that little fellow or one who doesn’t care how he ruins the whole program.

Chairman Carpenter: Let’s have two more and just to wind up properly, let’s have Trenner and Gillespie. Some of you haven’t said anything at all. Won’t you express your opinion?

Mr. Trenner: I am heartily in accord with Mr. Cross. He is what I want to say: The reference to the content of an announcement is not, in my estimation, absolutely relevant because you can control the copy of announcements as well as the program. Some of our station breaks have some cute little poems with advertising in them.

Mr. Trenner: I have been a contention by an automobile manufacturer in Detroit that there should not be any spot announcements before or after his program, that he bought one hour and not fifty-nine minutes and thirty seconds, and by virtue of that fact, because he concedes to you the privilege of identifying your station, you shouldn’t take advantage of it with a spot announcement. That may be very well and true but he didn’t buy one hour and thirty seconds. But, I don’t believe it is so much the matter of revenue we get out as whether we are doing any tangible harm.

One question I would like to ask Mr. Pryor is does he believe that the listener’s acceptance between what comes before a program and what comes at the end of a program? After all, what the audience thinks should be based on nothing else.

Mr. Pryor: I do believe after you have entertained the average fellow and he has stuck with you because you have entertained him, that he is in a more sympathetic mood to accept the message on behalf of your product than he is when you jump into a slot, who shoos him out of his chair after two or three minutes. Thirty seconds of somebody else’s tucked in the middle. I have seen it. People become deaf to radio announcements simply because it doesn’t interest them and that piling up of spots at the end tends to weaken the opening and closing. That is my opinion. I do believe that you get more attention because most people are nice and feel obligated to him.

Mr. Gillespie: Mr. Pryor, it has been a pleasure to hear you talk. This is my third convention and I am like you—I am in this radio business and I regard it as a sacred thing. I give many hours a day to it. I live it. I’d like to know about it.

We have talked about spots between breaks. We have talked about how to sell national advertisers and manufacturers. We are going to ask you a question. Don’t you think the station should first sell its town, the local merchants, the local distributors, even though not trying to sell them time but trying to sell them on the idea of advertising and get this 100-year old manufacturer comes in and makes a survey, he might not go to the radio station but to the drug house and say, “What is the best station? Isn’t it a fact that you fellows pay a great deal of attention to what those fellows say—the distributors and wholesaler.

Mr. Pryor: The reputation of a radio station in a town is of vital importance. A radio station is the voice of the city. It represents that city to the world. And, the men and women who run a radio station is to neglect to impress their own home folks with their responsibility and the sincerity of that effort are just overlooking the strongest bet, in my opinion, that they have in their business.

Mr. Gillespie: Now, this is so critical, but isn’t it true that all radio stations may not be equal. I’ll supplement that this way. We discussed department store advertising. I wonder how many stations really have men that know merchandising, seasonal trends, that can go and talk to an advertising manager sensibly. Have you ever had one come in in that can discuss types of merchandise and offer suggestions how to sell, offer suggestions if you have stock that costs money to keep? No, usually just sending you a gazetteer of antennas and equipment and turntables—good Lord, you know if we have a license we usually have some sort of equipment—you are more interested in the talent and civic promotion we are doing, isn’t that right?

Mr. Pryor: On this business of personnel, I think that it is a grand tribute to the broadcasting industry the way they have kept broadcasting in this country on the high scale that they have.
It is a terrible responsibility when you figure in all the little personal things, the weaknesses of people. I think it is a great tribute that they have maintained the high ideals. There isn't a man in the business that doesn't hope and wish constantly it could be better.

As far as the merchandising, I think it has been my experience that very few of the stations do a pretty good job as far as they can go in intelligently discussing the merchandise.

(Announcements.)

MR. GILLESPIE: One thing more. I have one man who does know merchandising. I think there is a trend you have to have that kind of a man in your station.

MR. PRYOR: Definitely.

G. T. STEWART (WKZO, Kalamazoo): With all due respect to Mr. Pryor, may I ask this question? In the national advertising agency set-up, do you have any particular objections to a station going over your head to a client when you can't sell them?

MR. PRYOR: No. Very often we have stations go direct to our clients but they usually take it up with us. We are not so thin-skinned. If we can't do it, God bless him!

MR. STEWART: With all due respect to B. B. D. O. and Ruthrauff and Ryan, my contention is 95 per cent of the agencies expect the station to sell the business and the station representative expects his commission. I'd like to know whether stations are adopting a policy of going over the agency's or station representative's head on national business.

CHAIRMAN CARPENTER: I am wondering whether the thing you are thinking about is the thing some stations are beginning to work out, putting men in the national field to co-operate with the representative and the agencies in any way possible in supplying them material and in supplying the prospective client with material also, and those stations (and I have talked to a few of them) consider the thing as not going over the head of their representative or going over the head of the agency. It is more in the belief that they can supplement the work of those two organizations to their own benefit.

MR. STEWART: I don't mean supplement. I mean going direct and doing the selling with the understanding the agency gets its commission and the representative gets his but I have to do the job. Should we consult the agency or go over his head if he doesn't show the proper co-operation?

MR. PRYOR: I have just had an example where a fellow came in and wanted to sell a program to one of our clients. We took two hours with him. We said, "We know the story. We wouldn't recommend it." He said, "Do you mind if I go and see him?" Today is Wednesday. He is in my office on my turn-table playing the record.

MR. STEWART: Would you have any objection to that?

MR. PRYOR: No, we like to work with you because we can advise you of the peculiarities of the situation.

MR. STEWART: If I came to you with an idea and you still get your commission?

MR. PRYOR: If I told you, "It's lousy," and you said, "I'm going to your client," I'd say, "God bless you."

MISS BLACK: Any time they want to call on our clients, we are delighted to have them do it.

MR. PRYOR: I do believe it is wise to let us know because we might know something that is very wrong. It creates a little unrest. It's bad for the business to have a lot of people contacting people and worrying them about things. If we can advise with you, it is better.

MISS BLACK: There is just one thought in connection with that. That is when a manufacturer appoints an agency, he does so for efficiency and expediency, and in doing so, he has looked over the field and for the time at least he is satisfied the agency will handle the assignment satisfactorily. People in the agency have a job to perform for that client. Now, I wouldn't have my job and Ned wouldn't have his if we didn't understand the needs of our clients and serve them to the best of our judgment.

We can't be right all the time. We can be wrong. But, we couldn't afford to stand in the way of a good idea or better service for our clients. We might become too selfish reasons we have individual interests to protect and beyond that we have to move merchandise for our clients. So, if you will keep that idea in mind, any station manager will realize he himself couldn't afford to offer that type of interference.

EDWARD PETRY (Edward Petry & Company, New York): I want to speak as a station representative. We consider ourselves as employees of the stations. Any time they want to go to any of the clients, we are perfectly willing. In the four and a half years we have been in business, we have only gone over a station's head three times with practically the consent of the agency.

CHAIRMAN CARPENTER: There is another angle.

FLETCHER BOLLS (Eldorado, Arkansas): I'd like to ask Mr. Pryor just how you determine the difference in rate cards on a 100-watt station and some are higher than others. I know mine is—and I'm not apologizing for that either.

You suggested this morning that we spend a lot of money for program directors and announcers and continuity writers. We have done that. As far as our station is concerned, we have continuity writers who can really write continuity. Maybe it is because we started out that way and continue to do it. But, we have the equipment and the other fellow has the equipment. We have the personnel and the other fellow has his personnel. How do you determine the value of those?

MR. PRYOR: It is a question of whether I can hire him.

CHAIRMAN CARPENTER: The question is: here are a couple of 100-watters. One is really doing an outstanding job, the best they can with continuity writers and other personnel. The other is doing very, very little. How do you distinguish between the two?

MR. BOLLS: I might put it this way: we have an announcer making money who is good enough to go to a bigger station, but we are paying him and the reason we are paying him is because he is getting a job done. We have continuity writers the same way. We wouldn't sell a 200-word announcement. You are talking about 100 and 200. It seems to me that way, I make him buy a program. But, our announcer is making a good living. The other fellows hire $15 and $20 a week. Now, do you know the difference between the two sets-ups, as far as that is concerned? You probably know the equipment we use and the kind of job we do also, if you know the difference in the personnel and the job we are getting done or whether we have to depend on local advertising. We do not have enough business for a station representative and have to depend on ourselves. We are getting a job done to get over 50 per cent of the money spent by the majority of merchants on our advertising. We know we are doing that because we check the man's business and find how much money he spends for advertising—how much his budget is a year and then how much he sets out for radio and newspapers and other mediums. We find that people wear clothes down in Arkansas in the summer as well as in the winter—maybe not as many. They buy about as much food in the summer. We are beginning to find out they sell merchandise in the summer. With hammering, we are able to keep going and to do that, you have to have the personnel.

MR. PRYOR: It is very true there are things other than mechanical aspects. We are aware of the personnel and other qualities as well as the mechanical features.

Now, please don't misunderstand me on the business of improving programs. I don't mean by money. Study it over to see if you are doing it with good taste. My contention is that you can include both types of qualities, a more sensitive personality, a higher intellect as well as the cheap fellow who doesn't much care. It is a matter of attention and doesn't necessarily require more money.

MR. WILLIS: I do believe there are still many stations represented here now who realize that a representative is exactly that in the true sense of the word and an agency is that in the true sense of the word. The agency represents the client as well as the medium and appreciates the function of both groups.

H. M. LOEB (WFDF, Flint): About four years ago I happened to buy a station in Pittsburgh and bought a great deal of time from radio salesmen. Then I slipped and bought myself a radio station. (Laughter.)

I have a great deal of sympathy for both the advertising agencies and the smaller radio stations. I listened to my friend Sidney Bliss and I sympathize with him 100 per cent, because my station is a 100-watt station and my problems are similar. And yet, I do not blame the advertising agencies today for not being too enthusiastic about 100-watt stations even though I am one myself.

Certainly if I had my agency in Pittsburgh, there were many advertising accounts that I did not accept. I was running the business and I did not accept them because I could not make money on those accounts. I had to render a certain service and had to have a profit over and above that service if I handled those accounts, so I refused to accept them.

We have to go in certain extent regarding those radio stations. I had in mind the fact that I was able to place KDKA at $100
a minute—and I placed it a great deal—but when a 100-watt station came in to sell me and quoted rates at 50 per cent., my commissions were the same, always that 15 per cent. It had to be very outstanding or very unusual for me to buy that station at 15 per cent. when their rates were so low. Their packages were not large enough.

Now, I suspect much of the difficulty that faces the 100-watter may be analogous to the position in which I found myself. I wonder how many national agencies are set up today to handle the smaller radio station as it has been presented to them. If we can buy time on a 5000-watt station, it requires no more work for that station than it does for the 100-watt station. I really do not blame any advertising agency for selecting WLW as against my station even though I am a darned good radio station.

Now, I think the problem is largely that of the smaller fellow organizing himself in such a way and standardizing himself in such a way that he can be referred to by the advertising agency as part of a certain single factor. That can be done by standardizing his rates 100 per cent., by controlling them and working together as a group, and by co-operative sales and promotional plans.

I think this is the essence of much of the discussion which has occurred up to date. You have to sell your product and it has to be something that people want. You can’t expect a national advertising agency to come out and say, “We are not handling your business because it isn’t profitable.” It isn’t fair to expect him to say that. If he did, it would be admitting to his clients that he wasn’t doing his job, and no national advertising agency should be placed in the position where it is even requested. It is true pressure is placed on agencies and many advertising agencies have to succumb. This is no reflection on the agencies at all—merely a matter of business. In the case of 100-watters and other low-powered stations such as the 250- and 500-watt, I believe that the agencies should be told the story correctly and the burden is on us to do the job. I would like to know, Mr. Pryor, if there is such a thing as a marginal profit line in the purchase of radio stations.

MR. PRYOR: As a matter of fact, selection of radio stations is two things: where we would like to go and how far our money will take us. If we wouldn’t consider selling stations that didn’t mean much to us, where in the hell would we be! It is the same thing on trade paper copy—we don’t make a profit. But, believe me, a lot of profitable accounts we couldn’t handle without them. It is a case of justifying the selection of a station and having sufficient money.

CHAIRMAN CARPENTER: Now, there was one other thing we would like to get today but haven’t time. May I refer you to resolution 15 on the blue sheet referring to merchandising. More discussion could be had on that, but we started at 3:00 and wanted to wind up at 5:00. It is now five minutes of five.

I personally have gotten a lot out of these discussions today and I have gotten a lot out of it because you people helped. I’d like to take this opportunity to thank very, very much Mr. Pryor, Mr. Oreck and the other persons other than broadcasters who are here and have helped so much today. I should also like to thank the men on the panel and every one of you present for being here and helping make this the successful meeting it has been.

Thank you. The meeting is adjourned.
(The meeting adjourned at 4:55 o’clock.)

Adjournment sine die
